			He assisted in the Russian military interference in Ukraine by calling on the President of the Russian Federation to send Russian troops to Ukraine in March 2014. Viktor Yanukovych supported pro-Russian politicians who held public offices in occupied Crimea. In 2021, a new pre-trial investigation in Ukraine was opened according to which Viktor Yanukovych, together with two former Ministers of Defence, had purposefully reduced the defence capacity of Ukraine, particularly in the autonomous so-called 'Republic of Crimea'. On 21 April 2010, then President of Ukraine Viktor Yanukovych and then President of Russia Dmitry Medvedev signed an agreement between Ukraine and the Russian Federation, according to which the term of the Black Sea Fleet of the Russian Federation in Sevastopol was extended from 2017 to 2042. By signing the agreements, Yanukovych created favourable conditions for increasing Russia's military presence in Ukraine and for the re-equipment and modernisation of the weapons of the Black Sea Fleet in the territory of Crimea. Subsequently, Russian weapons that were on the territory of Ukraine were used to annex the autonomous so-called 'Republic of Crimea' and the city of Sevastopol in 2014. In 2023, Ukraine's State Bureau of Investigation submitted an indictment against Viktor Yanukovych on charges of treason and aiding Russia in carrying out subversive activities in Ukraine. He considers himself as the legitimate President of Ukraine and has consistently presented a pro-Russian stance in his public interventions. According to different sources, Viktor Yanukovych has been part of a Russian special operation, aimed at replacing the Ukrainian President with him, during the first phases of Russia's war of aggression against Ukraine. Furthermore, the President of the Republic of Chechnya, Ramzan Kadyrov, has requested the President of Ukraine to transfer all his powers to Viktor Yanukovych. Therefore, Viktor Yanukovych is responsible for, supporting or implementing actions or policies which threaten the territorial integrity, sovereignty and independence of Ukraine, as well as the state's stability and security.

His 'Gaz-Alliance' company monopolised coal mining in Donbas after its competitors had been forced out of the market, reportedly with help from Russia. He organised and benefitted from the illegal scheme of exporting Donbas coal to Russia and Europe despite EU sanctions. Mr Kurchenko helped large Russian companies and State-owned holdings to bypass EU restrictive measures by acting as their sub-contractor in the Russian-held territories. He reportedly died in a plane crash on 23 August 2023. He publicly confirmed that he founded the Wagner Group, a Russia-based unincorporated military entity, responsible for the deployment of Wagner Group mercenaries in Ukraine. In 2022, a joint stock company called 'PMC Wagner Center' was established and registered in Saint Petersburg, with the aim of 'providing a comfortable environment for generating new ideas to improve Russia's defence capability'. The Wagner Group, led by Yevgeniy Prigozhin, has played an important role in the fighting in and occupation of territories in Eastern Ukraine. Concord, also known as KOMBINAT PITANIYA KONKORD OOO, a company which Prigozhin founded and owned until November 2019, and a group of other companies with ties to him, including Concord Management and Consulting LLC and Megaline LLC, have been benefitting from large public contracts with the Russian Ministry of Defence following the illegal annexation of Crimea by the Russian Federation and the occupation of Eastern Ukraine by Russia-backed separatists. He was responsible for and actively implemented actions which have undermined and threatened the territorial integrity, sovereignty and independence of Ukraine. Yevgeniy Prigozhin's son, Pavel Prigozhin, is the primary heir and beneficiary of his assets, possessions, and properties. Pavel Prigozhin is listed by the Union for his involvement in military operations against Ukraine. Therefore, it is appropriate to retain Yevgeniy Prigozhin on the list of natural or legal persons, entities or bodies subject to the asset freeze and the prohibition on making funds and economic resources available as there is a likelihood that the assets concerned would otherwise be used to finance Russia's war of aggression against Ukraine or other actions undermining or threatening the territorial integrity, sovereignty and independence of Ukraine.	21.4.2022

			Alisher Usmanov has particularly close ties to the President of the Russian Federation, Vladimir Putin. He has been referred to as one of Vladimir Putin's favourite leading business-persons. He is considered to be one of Russia's businesspersons-officials, who were entrusted with servicing financial flows but whose positions depend on the will of the President. Usmanov is reputed to have acted on behalf of the President of the Russian Federation in a number of business deals of political and strategic importance. He also has close ties with Dmitry Medvedev, the Deputy Chairman of the Security Council of the Russian Federation and former President and Prime Minister of Russia, who benefitted from the personal use of luxurious residences controlled by Usmanov. Therefore, he actively supported materially or financially and benefitted from Russian decision-makers responsible for the annexation of Crimea and the destabilisation of Ukraine. Usmanov is also the exclusive owner of the business daily Kommersant. When he took control of the business daily 'Kommersant', the freedom of the editorial staff was curtailed and the newspaper took a manifestly pro-Kremlin stance. Kommersant under Usmanov's ownership published a propagandist anti-Ukrainian article by Dmitry Medvedev, in which the former President of Russia argued that it was meaningless to engage in talks with the current Ukrainian author-ities, who in his opinion were under direct foreign control. Therefore he actively supported the Russian government's policies of destabilisation of Ukraine.

1261.	Aleksander Gelyevich DUGIN (Александр Гельевич ДУГИН)	DOB: 7.1.1962 POB: Moscow, former USSR (now Russian Federation) Nationality: Russian Gender: male	Russian political philosopher, political scientist, analyst, strategist and long-standing ideologue of the theories of Russky Mir and Eurasianism. He is a member of the so-called Izborsk Club, a Russian Conservative think tank which specializes in studying Russia's foreign and domestic policy. Dugin has ideologically and theologically justified Crimea's annexation and Russia's war of aggression against Ukraine, seeing it as a 'liberation' of Ukraine from Western influence. Dugin's ideology is centered on the idea of building a totalitarian, Russia-dominated Eurasian empire, which includes Ukraine for historical, religious and geographical reasons. Dugin's ideological assumption is that Ukraine is an artificial state threatening the security of Russia and the envisioned Eurasian Empire. Therefore the military invasion of Ukraine was inevitable. He called on President Vladimir Putin to militarily invade eastern Ukraine. Dugin has promoted the Russian World concept linked to the expansive, revanchist nationalism of the Putin era, entailing the idea of the historic motherland protecting the subjects of the Russian World. He has helped to revive the concept of 'Novorossiya' or 'New Russia' — a historical name, used during the era of the Russian Empire for an administrative area that is currently part of Ukraine. Dugin called on the denazification of Ukraine and called its government fascist. He actively supported the pro-Russian separatist movement in Eastern Ukraine and instrumentalised his worldview theory by establishing the 'Eurasian Youth Union', which was undertaking activities directed at undermining the sovereignty of Ukraine. Therefore Aleksander Dugin is responsible for, supporting and implementing actions or policies which undermine or threaten the territorial integrity, sovereignty and independence of Ukraine, or stability or security in Ukraine.	6.10.2022

In that capacity, she serves as a key government interlocutor, actively promoting official narratives that deny the existence of Russian 'filtration' and deportation practices implemented vis-à-vis the Ukrainian population. As part of Russia's 'filtration' operations, Russia's forces and proxies have interrogated, detained, and forcibly deported between 900 000 and 1,6 million Ukrainian citizens, including thousands of children. In her various public appearances, Tatiana Moskalkova has continuously denied that the deportation of Ukrainian citizens is taking place, thus actively spreading disinformation on behalf of, and to the benefit of, the Government of the Russian Federation. Within the framework of the 'Into the Hands of Children' action, the Russian authorities – led by the Russian Commission for Children's Rights – have sought to illegally deport and place for adoption Ukrainian children under the guise of 'humanitarian assistance' during Russia's war of aggression against Ukraine. In various public appearances, Viktoria Yakimova confirmed that she is an active contributor to the 'Into the Hands of Children' action. She regularly serves as a main spokesperson for the so-called 'humanitarian mission'. Importantly, since the beginning of the war of aggression against Ukraine, Russia has transferred many Ukrainian civilians to Russian-occupied areas or to Russia itself while often preventing or impeding those civilians from having safe passage to non-occupied parts of Ukraine. Viktoria Yakimova is one of the key persons involved in the forcible deportation of Ukrainian children to Russia and their subsequent illegal adoption into Russian families. Viktoria Yakimova's actions violate the rights of Ukrainian children and infringe Ukrainian law and administrative order. Thus, Viktoria Yakimova is responsible for implementing actions and policies which undermine and threaten the territorial integrity, sovereignty and independence of Ukraine.	25.2.2023

Набережная имени 60–летия СССР, д. 34 Website: http://www.rncb.ru Registration number: 1027700381290	After the illegal annexation of Crimea, Russian National Commercial Bank (RNCB) became fully owned by the so-called ‘Republic of Crimea’. In January 2016, it became a property of the Federal Agency for State Property Management, also known as Rosi-mushchestvo (Федеральное агентство по управлению государственным имуществом (Росимущество)). It has become the dominant player in the market, while it had no presence in Crimea before the annexation. By buying or taking over from branches of retreating banks operating in Crimea, RNCB supported materially and financially the actions of the Russian government to integrate Crimea into the Russian Federation, thus undermining Ukraine’s territorial integrity. On 29 January 2020 The Russian Central Bank decided to reorganise the Sevastopol Marine Bank with the participation of RNCB. The bank participated in two large infra-structure projects in Crimea – it finances the construction of a new air terminal complex in Simferopol and generation facilities (Bal-aklavskaya TPP and Tavricheskaya TPP).	30.7.2014

The icebreaker fleet managed by Atomflot is designed specifically to meet Russia's maritime transportation objectives along the Northern Sea Route – the Arctic shortcut between Europe and Asia. The Northern Sea Route has emerged as a new strategic opportunity for unlocking and monetising Russia's vast oil and gas reserves in the Arctic, thereby providing a substantial source of revenue to the government of the Russian Federation. To that end, Beloglazov's company LLC Titul established a subsidiary, JSC Iliadis, which acquired Deripaska's share of Rasperia, and thereby also the frozen STRABAG shares. Deripaska received an equivalent economic benefit for the sale of Rasperia. Dimitry Beloglazov and the involved companies LLC Titul, JSC Iliadis and Rasperia used this complex scheme to sell, outside the Union, a non-Union company controlled by a listed person and owning frozen shares of a Union company with the sole purpose to lift the freezing of those shares in the Union, thereby circumventing Union restrictive measures. Therefore, JSC Iliadis is facilitating infringements of the prohibition against circumvention of Regulation (EU) No 269/2014.
