

COMMISSION OF THE EUROPEAN COMMUNITIES

COM(94) 571 final
Brussels, 09.12.1994

94/0301 (ACC)

Proposal for a

COUNCIL REGULATION (EC)

**opening and providing for the administration of Community
tariff quotas and ceilings for certain industrial and fishery products
originating in Romania, Bulgaria, Estonia, Latvia and Lithuania, and establishing the
detailed provisions for adapting these quotas and ceilings**

(presented by the Commission)

EXPLANATORY MEMORANDUM

1. The Association Agreements between the European Community and the European Coal and Steel Community, on the one hand, and Bulgaria and Romania, on the other hand, signed respectively on 1 February 1993 and 8 March 1993, provide that from their entry into force, customs duties levied on imports into the Community of certain industrial and agricultural products listed in Annexes I and II to this proposal are to be abolished or reduced. These advantages are to be granted within the limits of tariff quotas or ceilings.
2. Pending the entry into force of the abovementioned agreements, the Community has concluded interim agreements with the countries in question which apply with effect from 1 May 1993 (Romania) and 31 December 1993 (Bulgaria).

Pursuant to these interim agreements the customs duties applicable to certain industrial products originating in the countries concerned and subject to the quotas or ceilings listed in Annexes I and II to this Regulation are totally suspended.

Under the provisions included in the annexes to the agreements concerned, the volume of the tariff measures in question must be increased by a specific percentage with effect from the first year of entry into force.

The European Council of Essen, scheduled for December 1994, might decide to suppress the Tariff quotas and ceilings for both countries. Under this assumption, the Council would have to decide to suppress annexes I and II of the present Regulation

3. A system has been introduced by means of an exchange of letters between the Community and Bulgaria for transferring Community tariff concessions which had not been used owing to the late entry into force of the agreement with that country.

The European Community, the European Atomic Energy Community and the European Coal and Steel Community have also signed free trade and other trade agreements with Latvia, Lithuania and Estonia which provide, *inter alia*, for various tariff concessions within the limits of tariff quotas and ceilings.

4. Administration of the tariff quotas will involve pooling the entire amount of the individual quotas in order to form a Community reserve to which all the Member States will have access in accordance with Article N 2 of the proposed Regulation.
5. For the administration of the tariff ceilings, it is proposed that a system of import surveillance be set up for the products listed in Annexes I, II and VI and that the Commission be empowered to reintroduce the levying of duties under certain circumstances. This will entail the adoption of detailed common rules to be applied by all the Member States in a uniform manner, with close collaboration between the appropriate national authorities and the Commission.

That is the purpose of the attached proposal.

COUNCIL REGULATION (EC)
of 1994

**opening and providing for the administration of Community
tariff quotas and ceilings for certain industrial and fishery products originating
in Romania, Bulgaria, Estonia, Latvia and Lithuania, and establishing the detailed
provisions for adapting these quotas and ceilings**

THE COUNCIL OF THE EUROPEAN UNION

Having regard to the Treaty establishing the European Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas the Europe Agreements between the European Community, the European Coal and Steel Community and the European Atomic Energy Community, on the one hand, and Romania and Bulgaria, on the other hand, were signed on 1 February 1993 and 8 March 1993 respectively; whereas pending the entry into force of these Agreements, the Community has concluded Interim Agreements on trade and trade-related measures with these countries, which were also signed on 1 February and 8 March 1993 and implemented on 1 May 1993 (Romania) and 31 December 1993 (Bulgaria);¹²

Whereas the Interim Agreements stipulate that certain products originating in the countries in question may attract a reduced or zero rate of duty on import into the Community, within the limits of tariff quotas or ceilings; whereas, pursuant to the provisions annexed to those Agreements, the volumes of the tariff quotas and ceilings established when the Europe Agreements were signed must be increased, from the date on which the Interim Agreements enter into force, by a percentage specific to each country and category of products;

Whereas the Interim Agreements have been amended by Additional Protocols concluded with the countries in question,³⁴ the aim of which is to improve access to the Community market for products from those countries; whereas it is accordingly necessary to adapt the tariff quotas and ceilings concerned in accordance with the provisions of the said protocols;

Whereas the entry into force of the Interim Agreement with Bulgaria, planned for 1 June 1993, was put back until 31 December 1993;

1 OJ No L 81, 2.4.1993, p.2
2 OJ No L 323, 23.12.1993, p. 2
3 OJ No L 25, 29.1.1994, p. 22
4 OJ No L 25, 29.1.1994, p. 27

2

Whereas by agreement in the form of an exchange of letters⁵, the Community, in recognition of these circumstances, undertook to transfer the quantities provided for the first year of application of the said Agreements, minus the quantities which would have been imported between 1 January 1993 and 30 December 1993 under the generalized system of preferences for certain industrial products, for the period from 1 July 1994 to 31 December 1995;

Whereas the Free Trade Agreements between the European Community, the European Coal and Steel Community and the European Atomic Energy Community, on the one hand, and the Republics of Lithuania, Estonia and Latvia, of the other hand, signed on 18 July 1994, stipulate that certain products originating in these countries may attract a reduced or zero rate of duty on import into the Community, within the limits of tariff quotas or ceilings;

Whereas the decision for the opening of Community quotas should be taken by the Community, in the execution of its international obligations, in the case of the products listed in Annexes I, II, III, IV and V to this Regulation; whereas particular care should be taken to ensure that all Community importers have equal and continuous access to the quotas and that the rates laid down for the quotas are applied uninterruptedly to all imports of the products in question into all Member States until the quotas are exhausted, whereas, to ensure the efficiency of a common administration of these quotas, there is no obstacle to authorizing the Member States to draw from the quota volumes the necessary quantities corresponding to actual imports; whereas, however, this method of administration requires close cooperation between the Member States and the Commission and the latter must in particular be able to monitor the rate at which the quotas are used up and inform the Member States accordingly;

Whereas in the case of the products listed in Annex I, II and IV to this Regulation, which are subject to Community tariff ceilings, Community surveillance may be achieved by means of an administrative procedure based on charging imports of the products in question against the ceilings at Community level as and when products are entered with the customs authorities for free circulation;

Whereas this administrative procedure requires close and particularly rapid cooperation between the Member States and the Commission, and the latter must in particular be able to monitor quantities charged against the ceilings and inform the Member States accordingly; whereas this cooperation has to be particularly close, since the Commission must be able to take appropriate measures to re-establish customs duties once a ceiling is reached;

Whereas the tariff quotas and ceilings laid down in the Agreements in question relate to a period of several years; whereas the agreements have already fixed the level of the annual increase in the volume of the tariff quotas and ceilings; whereas the agreements also set out the conditions required for granting the tariff concessions within the limits of the said tariff quotas and ceilings; whereas, therefore, in the interests of rationalizing implementation of the measures concerned, the provisions relating to tariff quotas and

⁵OJ No L 178, 12.07.1994, p.69

ceilings for agricultural or industrial products currently contained in the various regulations covering each of the abovementioned countries should be grouped together in a single regulation, applicable for a period of several years;

Whereas amendments to the combined nomenclature and Taric codes and adaptations of quota volumes and rates arising from decisions of the Council or Commission do not involve changes of substance; whereas, in the interests of simplicity, provision should be made for the Commission to make the necessary amendments and technical adaptations to this Regulation after first having obtained the opinion of the Customs Code Committee,

Whereas, for the same reasons, this procedure can be applied in case of amendment to the agreements existing between the Community and these countries, insofar as any amendments thus agreed specify the products eligible for the benefit of tariff quotas or ceilings, their volumes, rates of duty and quota periods and any conditions for granting that benefit; whereas provision should therefore be made for the Commission to make corresponding amendments to the provisions and annexes of this Regulation, after obtaining the opinion of the Customs Code Committee,

HAS ADOPTED THIS REGULATION:

Article 1

1. From 1 January to 31 December 1995 goods originating in Romania and Bulgaria which are listed in Annex I and II to this Regulation shall be subject to Community tariff quotas or ceilings, according to the provisions contained within those Annexes.
2. From 1 January to 31 December of each year goods originating in Estonia, Latvia and Lithuania which are listed in Annexes III, IV, V and VI to this Regulation shall be subject to tariff quotas or ceiling in accordance with the provisions contained within those Annexes.

Article 2

1. The tariff quotas referred to in Article 1 shall be administered by the Commission, which may take all appropriate administrative measures in order to ensure efficient administration thereof.
2. Where an importer declares a product covered by this Regulation for free circulation in a Member State and applies to take advantage of the preferential arrangements, and that declaration is accepted by the customs authorities, the Member State concerned shall, by notifying the Commission, draw an amount corresponding to its requirements from the quota volume.

Requests for drawings, indicating the date of acceptance of the said declarations, must be sent to the Commission without delay.

(6)

The drawings shall be granted by the Commission by reference to the date of acceptance of the declaration for free circulation by the customs authorities of the Member State concerned, to the extent that the available balance so permits.

3. If a Member State does not use the quantities drawn, it shall return them to the corresponding quota volume as soon as possible.

4. If the quantities requested are greater than the available balance of the quota volume, the balance shall be allocated on a pro rata basis. The Commission shall inform the Member States of the drawings made.

Article 3

1. Quantities shall be charged against the ceilings as and when products are declared to the customs authorities for free circulation.

Goods may be charged against a ceiling only if the movement certificate is presented before the date on which levying of customs duties is re-established.

2. The level of utilization of the ceilings shall be determined at Community level on the basis of the imports charged against them in accordance with paragraph 1.

Member States shall send the Commission, not later than the 15th day of each month, statements of the quantities charged during the preceding month.

3. As soon as the ceilings have been reached, the Commission may adopt a regulation re-establishing the customs duties applicable to the third countries in question until the end of the calendar year.

When the adoption of such a regulation is requested by a Member State, the Commission shall examine the request within the following five days and shall inform the requesting Member State of the action it considers it should take as a result of the request, in the light in particular, of the statements sent as provided for in paragraph 2.

Article 4

In order to ensure compliance with this Regulation, the Commission shall take all appropriate measures, in close cooperation with the Member States.

Article 5

Each Member State shall ensure that importers of the products in question have equal and uninterrupted access to the quotas for as long as the balance of the relevant quota volumes so permits.

Article 6

1. The provisions required for the implementation of this Regulation, and in particular:
 - (a) any amendments and technical adaptations rendered necessary by amendments to the combined nomenclature and Taric codes, and
 - (b) the necessary adaptations arising from the conclusion by the Council of protocols, exchanges of letters within the framework of existing agreements, or agreements between the Community and these countries under the agreements referred to in this Regulation,

shall be adopted in accordance with the procedure laid down in Article 7(2).

2. Provisions adopted pursuant to this Regulation shall not authorize the Commission to:
 - carry over preferential quantities from one quota period to another;
 - transfer quantities from one Community tariff quota or ceiling to another;
 - open and manage tariff quotas or ceilings under new agreements.

Article 7

1. The Commission shall be assisted by the Customs Code Committee established by Article 247 of Regulation (EEC) No 2913/92.⁽⁶⁾
2. The representative of the Commission shall submit to the Committee a draft of the measures to be taken. The committee shall deliver its opinion on the draft within a time limit which the chair may lay down according to the urgency of the matter. The opinion shall be delivered by the majority laid down in Article 148(2) of the Treaty in the case of decisions which the Council is required to adopt on a proposal from the Commission. The votes of the representatives of the Member States within the committee shall be weighted in the manner set out in that Article. The chair shall not vote.

The Commission shall adopt the measures, which apply immediately. However, if these measures are not in accordance with the opinion of the committee, they shall be communicated by the Commission to the Council forthwith. In that event:

- the Commission shall defer application of the measures which it has decided for three months from the date of such communication;
- the Council, acting by qualified majority, may take a different decision within the period referred to in the previous paragraph.

⁽⁶⁾ OJ No L 302, 19.10.1992, p. 1.

3. The Committee may examine any question concerning the application of this Regulation which is raised by its chair either at the latter's initiative or at the request of a Member State.

Article 8

The protocol concerning the definition of the concept of originating products and methods of administrative cooperation annexed to the Agreements in question concluded between the Community and each of the Republics shall apply.

Article 9

This Regulation shall enter into force on the day of its publication in the Official Journal of the European Communities.

It shall apply with effect from 1 January 1995.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 1994.

For the Council

The President

FINANCIAL STATEMENT

1. Budget heading concerned: Chapter 12, Article 120
2. Legal basis: Article 113 of the Treaty.
3. Title of the tariff measure: Proposal for a Council Regulation opening and providing for the administration of Community tariff quotas and ceilings for certain industrial and fishery products originating in Romania, Bulgaria, Estonia, Latvia and Lithuania., and establishing the detailed provisions for adapting these quotas and ceilings
4. Aim: Fulfilment of a contractual obligation
5. Method of calculation/loss of revenue

(a) Bulgaria/Romania

- preferential industrial imports (tariff quotas/ceilings) from 1.1.94 to 31.7.94:
ECU 85 736 500
- uncollected customs duties:
(average duty 5%) ECU 4 286 825
- estimate of uncollected customs duties per year:
ECU 7 348 842

(b) Baltic States

The financial impact of these measures cannot be calculated in the short term in view of uncertainty about trade with these countries (new agreements, see financial statement COM(94)330 of 11.7.1994).

(c) Statement of losses

for the Community budget (1995): ECU 7 348 842.
