Proposal for a

COUNCIL DECISION

**on the conclusion of an agreement between the European Community
and the Republic of South Africa on trade in wines**

(presented by the Commission)

EXPLANATORY MEMORANDUM

A. BACKGROUND

1. Under the negotiating directives approved by the Council on 19 June 1995 and 25 March 1996 on the Trade, Development and Cooperation Agreement between the Community and South Africa (hereafter known as the TDC Agreement), the Commission negotiated two sectoral agreements, on wines and on spirits, to reciprocally facilitate and promote trade in wines and spirits between the two Parties. The Commission has been carrying on these negotiations since 1995 in close collaboration with the Council, in accordance with Article 133 of the Treaty.
2. In accordance with the exchange of letters in Annex X to the TDC Agreement, the commitment regarding the protection of "Port" and "Sherry" has been incorporated into the section of the Agreement which governs the protection of geographical indications.
3. The political agreement on certain specific spirit names (Grappa, Ouzo, etc.), concluded in the exchange of letters of 15 and 16 February 2000 between Mr J Gama and Mr R Prodi, Presidents of the Council and of the Commission, of the one part, and Mr T Mbeki, President of the Republic of South Africa, of the other, has been incorporated into the spirits agreement.
4. The Commission and South Africa concluded negotiations on 25 July 2001 in Pretoria where, in a "Memorandum of Understanding on Wines and Spirits", the High Level Group of representatives of the Commission and South Africa agreed *ad referendum* on all important outstanding issues, in particular:
 - on phasing-out of conflictual trademarks along the lines of the compromise negotiated in June 2000 (see point 9 below);
 - on 1 January 2000 as starting date for the Port/Sherry commitment;
 - to extend the scope of the Agreement on wines from South Africa which are blends between South African wines and wines of other geographical origins provided the percentage of the latter does not exceed 15 % and on the condition of an appropriate labelling. These blends are excluded from the benefit of tariff concessions;
 - on adjusting the volume of the duty free tariff quota for South African wines imported in bottles. The new volume will be 420 000 hectolitres (instead 320 000 hectolitres) effective from 1 January 2002. The adjustment takes into account the fact that the quota has not been opened for South African wines in 2000 and 2001. The necessary legal acts for giving force to this commitment will be subject to a separate decision to be taken by the Council;
 - on the use of the EUR 15 million set aside for restructuring the South African Wine and Spirit industry on the basis of a mutually agreed programme;
 - on 1 January 2002 as date for entry into force of the Wine and Spirit agreements.

5. The texts were initialled by the negotiating parties on 30 November 2001. The Commission presents this proposal to the Council without delay so that the two agreements could enter into force on 1 January 2002, as agreed in the Memorandum of Understanding.
6. The conclusion of the spirits agreement will be the subject of a separate proposal which the Commission presents in parallel to the Council.

B. CONTENT OF THE WINE AGREEMENT

7. The agreement covers wine falling under heading 22.04 of the Harmonised System, which excludes, for example, flavoured wine from the scope of the agreement. It covers non-tariff fields, including in particular rules on oenological practices (wine-making rules) and product specifications, reciprocal protection for geographical indications, import certification, mutual assistance between control authorities and dispute settlement.
8. A large part of the agreement relates to oenological practices and product specifications, in particular the recognition of special conditions for wine production, such as mutually authorised oenological practices or minimum or maximum limits for certain analytical components (e.g. alcohol, volatile acidity, sulphur dioxide). Thus, South Africa will authorise the marketing in its territory of Community wine which has undergone special practices, or wine which has a particular analytical composition (e.g. late harvest or other high-quality wine from grapes affected by noble rot). In return, the Community will authorise, as a derogation, the import of specially treated South African wine (for instance, with added malic acid). A procedure for the lodging of applications, evaluation and authorisation is laid down for the new oenological practices which a contracting party wishes to have recognised in the future. The agreement provides for the evaluation of new practices to be based not only on public health requirements but also on requirements relating to “good oenological practice”, in other words, requirements taking account of the method of producing wine. As a last resort, in the event of a dispute a contracting party may invoke a dispute settlement procedure.
9. The protection of geographical indications is of particular importance to the Community. The provisions agreed in the agreement offer better protection for Community geographical indications, including appellations of origin, than does Section III of the multilateral TRIPs agreement on geographical indications. The agreement contains a “bilateral register” comprising all the indications protected under the agreement, a factor which considerably increases legal security. In addition, the protection will be enforced *ex officio*. Incorporation into the agreement of the commitment on Port and Sherry (see point 2 above) will provide exclusive protection for the Community products in question at the end of fixed transitional periods (5 years on export markets and 12 years on the South African market).
10. In order to ensure the protection of geographical indications and other terms covered by this Agreement against identical or similar trademarks which have been registered or for which rights have been acquired through use before the entry into force of the TRIPs agreement for “non-originating” wines and which are considered as misleading as to the true origin, the agreement provides the elimination of such

conflictual trademarks after reasonable transitional periods. The parties shall settle the conflictual cases by 30 September 2002 at the latest

11. With regard to the protection of traditional expressions, under the joint Community/South Africa declaration on the wines and spirits agreements adopted by the Council on the day on which the TDC Agreement was signed, 11 October 1999, the text of the declaration relating to traditional expressions was incorporated into the text of this agreement. As a result, the agreement does not contain any provisions offering immediate protection to those expressions, but the two parties are asked to examine the objective and the principles of a system for the protection of traditional expressions so that it can be applied to specific cases to be incorporated into the agreement at a later date.
12. With regard to import licences, the two parties have agreed on the mutual recognition of licences issued by the exporting country. The technical details will be set out in a separate exchange of letters.
13. The agreement provides for mutual assistance between the official control authorities, of the two parties, which will facilitate direct collaboration between competent authorities without recourse to diplomatic procedures.

C. MANAGEMENT OF THE AGREEMENT

14. A Joint Committee comprising the Commission and representatives of South Africa will be set up. Its main task will be to monitor the correct operation of the agreement and to formulate recommendations if necessary. It will not take decisions. The Commission proposes that the Council authorises the Commission to make, in accordance with the procedure laid down in Article 75 of Regulation (EC) No 1493/1999 on the common organisation of the market in wine¹, the technical amendments and adjustments found necessary for the implementation and management of the agreement (e.g. adjustments to Annexes or to the Protocol). That procedure permits close collaboration between the Member States and the Commission. Other bilateral wine agreements in force already provide for that procedure.

D. FINANCIAL ASSISTANCE

15. At the same time as the wines and spirits agreements enter into force, the financial assistance of EUR 15 million which the Commission will grant to South Africa to restructure its wine and spirit industry will take effect, in accordance with Annex X to the TDC Agreement (see point 4 above). In the case of the Community the decision will be taken independently of the adoption of this proposal in accordance with the relevant budget procedures.

¹ OJ L 179, 14.7.1999, p. 1.

E. CONCLUSIONS

16. The Commission regards the results of the negotiations as acceptable to the Community in that the agreement offers genuine commercial benefits to Community operators. Consequently, it proposes that the Council adopt the attached decision on the conclusion of an agreement between the European Community and the Republic of South Africa on trade in wines.

OENOLOGICAL PRACTICES AND PROCESSES
AND PRODUCT SPECIFICATIONS

ARTICLE 5
MUTUAL RECOGNITION

1. The Community shall authorise the importation into the Community and the marketing in its territory for direct human consumption of all wines originating in South Africa and produced in accordance with one or more of the oenological practices or processes, compositional and other product specifications as referred to in point 1 to Annex I and the Protocol to the Agreement.
2. South Africa shall authorise the importation into South Africa and the marketing in its territory for direct human consumption of all wines originating in the Community and produced in accordance with one or more of the oenological practices or processes, compositional and other product specifications as referred to in point 2 to Annex I and the Protocol to the Agreement.

ARTICLE 6
NEW OENOLOGICAL PRACTICES – SAFEGUARD PROVISIONS

1. If one Contracting Party authorises for its wines an oenological practice or process which is not authorised by the other Contracting Party by virtue of Article 5, it may make a request to the other Contracting Party for authorisation. In this case, the Party making the request shall place at the disposal of the other Contracting Party an appropriate dossier including the information necessary for the evaluation of the request.
2. A request referred to in paragraph 1 shall be evaluated in particular in terms of the following criteria:

- (a) requirements for protection of human health,
 - (b) requirements for consumer protection,
 - (c) rules of good oenological practice, and in particular the requirement that the oenological practice or process in question does not involve an unacceptable change in the composition of the wine treated or a deterioration in the organoleptic characteristics thereof, and
 - (d) the adequacy of the requesting Contracting Party's internal regulations concerned.
3. Within a period of twelve months from the submission of the dossier referred to in paragraph 1, the Contracting Parties shall mutually decide whether, and subject to what prescriptions, the oenological practice or process in question can be included in Annex I or whether a supplementary evaluation period is necessary.
4. In the event that the Contracting Parties are unable to agree on what constitutes safe and acceptable oenological practices, the dispute settlement set out in Article 23 may be invoked by either Contracting Party.
5. The Contracting Party to which the request for authorisation was made, having fulfilled the procedural requirements referred to in paragraphs 3 and 4, may refuse the authorisation if the dispute settlement body referred to in Article 23 has made a ruling that the oenological practice or process is not in conformity with the requirements referred to in paragraph 2.
6. Paragraphs 1 to 5 shall also apply in cases where one Contracting Party:
- (a) requests the other Party to render less restrictive the prescriptions for an oenological practice or process referred to in Annex I, or
 - (b) intends, on other than health grounds, to prohibit an oenological practice or process or to render more restrictive the prescriptions for an oenological practice or process referred to in Annex I.
7. Where a Contracting Party as a result of new information or of a reassessment of existing information has detailed grounds for establishing that an authorised oenological practice or process or a compositional and an other product specification as referred to in Article 5 endangers human health, it may temporarily suspend the authorisation or restrict the prescriptions regarding this practice or process listed in Annex I or in the Protocol. The other Contracting Party shall be informed of this at least four weeks before the suspension or restriction takes effect with an indication of the reasons which justify this decision. When the gravity of the danger so justifies, the suspension or restriction can be decided with immediate effect. In this case, the other Contracting Party shall be informed immediately with an indication of the reasons.
8. Where paragraph 7 is invoked, consultations between the Contracting Parties shall take place as soon as possible and in any event within 2 months, with a view to taking the appropriate measures as mutually decided. These measures may take the form of modifications to Annex I or in the Protocol. In the event that the Contracting Parties are unable to reach a decision, the dispute settlement set out in Article 23 may be invoked by either Contracting Party.

9. The provisions of paragraph 4 shall apply without prejudice to the rights of the Contracting Parties under the WTO Agreement. However, during the evaluation period referred to in paragraph 3 or the dispute settlement referred to in Article 23, the Parties waive their rights to rely on the relevant provisions of the WTO Agreement on consultations and dispute settlement.

TITLE II

RECIPROCAL PROTECTION OF WINE NAMES AND RELATED PROVISIONS ON DESCRIPTION AND PRESENTATION

1. The Contracting Parties shall ensure, in accordance with this Agreement, the reciprocal protection of the names referred to in Article 8 which are used for the identification of wines originating in the territories of the Contracting Parties. For this purpose, each Contracting Party shall provide the appropriate legal means to ensure effective protection.
2. The protected names:

 - (a) the true origin of the wine is indicated;
 - (b) the geographical indication is used in translation;
 - (c) the indications are accompanied by expressions such as « kind », « type », « style », « imitation », « method » or the like.

 - (a) where such indications protected by virtue of this Agreement are homonymous, protection shall be granted to each indication, provided it has been used traditionally and consistently and the consumer is not misled as to the true origin of the wine;

- (b) where such indications protected by virtue of this Agreement are homonymous with the name of a geographical area outside the territory of the Parties, the latter name may be used to describe and present a wine produced in the geographical area to which the name refers, provided the name is traditionally and consistently used, its use for that purpose is regulated by the country of origin and consumers are not misled as into believing that the wine originates in the territory of the Party concerned.
- 5. The Contracting Parties may determine the practical conditions of use under which the homonymous names referred to in paragraph 4 will be differentiated from each other, taking into account the need to ensure equitable treatment of the producers concerned and that consumers are not misled.
- 6. The provisions of this Agreement shall in no way prejudice the right of any person to use, in the course of trade, their name or the name of their predecessor in business, except where such name is used in such a manner as to mislead consumers.
- 7. Nothing in this Agreement shall oblige a Contracting Party to protect a name of the other Contracting Party which is not or ceases to be protected in its country of origin or which has fallen into disuse in that country.
- 8. At the request of either of the two Parties, the Joint Committee shall examine the cases to be settled on the basis of exchanged registers of South Africa and the Community and its Member States.

On the basis of this examination, the Parties shall agree not later than 30 September 2002 that:

- (a) a settlement has to be decided for a case if:
 - (i) a trademark of a product of one Party is identical with, or similar to a geographical indication or other name of the other Party protected under this Agreement, and
 - (ii) the use of such trademarks of a product is misleading to the public as to the true place of origin of that productor
- (b) the case is to be considered as non-conflictual.

Where point (a) above applies, the Parties shall agree on elimination and allow for a reasonable transitional period where coexistence is possible.

ARTICLE 8 ***PROTECTED NAMES***

1. If the appropriate competent body designated in accordance with Article 16 becomes aware that the description or presentation of a wine, particularly on labels or in official or commercial documents or in advertising, is in breach of this Agreement, the Contracting Parties shall apply the necessary administrative measures and / or initiate legal proceedings as appropriate in order to combat unfair competition or to prevent in any other way the improper use of a protected name.
2. The measures and proceedings laid down in paragraph 1 shall be taken in particular in the following cases:
 - (a) where the translation of descriptions provided for by Community or South African legislation into the language or languages of the other Contracting Party results in the appearance of a word which is liable to be misleading as to the origin, nature or quality of the wine thus described or presented;
 - (b) where descriptions, trade marks, names, inscriptions or illustrations which directly or indirectly give false or misleading information as to the provenance,

origin, nature, vine variety or material qualities of the wine appear on containers or packaging, in advertising, or in official or commercial documents relating to wines whose names are protected under this Agreement;

- (c) where, for packaging, containers are used which are misleading as to the origin of wines.

ARTICLE 15

The Contracting Parties reserve the right to introduce temporary additional import certification requirements in response to legitimate public policy concerns, such as health or consumer protection or in order to act against fraud. In this case, the other Contracting Party shall be given adequate information in sufficient time to permit the fulfilment of the additional requirements.
2. The Contracting Parties agree that such requirements shall not extend beyond the period of time necessary to respond to the particular public policy concern in response to which they were introduced.

 - (a) a wine being or having been traded between South Africa and the Community, does not comply with this Agreement or with provisions laid down in the laws and regulations of the Contracting Parties, and
 - (b) this non-compliance is of particular interest to the other Contracting Party and could result in administrative measures or legal proceedings being taken,it shall immediately inform the competent bodies and the liaison authority of the other Contracting Party.

FUTURE DEVELOPMENTS

1. The Contracting Parties may at any time amend this Agreement in order to enhance the level of co-operation in the wine sector.
2. Within the framework of this Agreement, either of the Contracting Parties may put forward suggestions for widening the scope of their cooperation, taking into account the experience gained in its application.

The Community recognises that South Africa has fundamental concerns about the nature, scope and applicability of this system. The Contracting Parties agree to continue to work together on this issue in the context of the Wine and Spirits Agreements bearing in mind the future outcome of multilateral negotiations in this area. The Contracting Parties agree to examine the objective, principles and application to certain specific cases of a system that would apply to the Parties. Any agreement arising out of this provision will be incorporated in this Agreement.

2. THE CONTRACTING PARTIES HEREBY AGREE AS FOLLOWS:

- I. In relation to Article 2 of the Agreement, the product called "Retsina" originating in the Community and produced in accordance with the Community rules shall be regarded, for the purpose of importing and marketing in South Africa, as 'grape-based alcoholic beverage' in terms of South African legislation. The normal import duties and other internal taxes applicable in South Africa on 'grape-based alcoholic beverage' shall apply.
- II. Without prejudice to the definition of the term "originating" referred to in Article 3(a) of the Agreement, the Agreement also applies to wines falling under heading 2204 of the Harmonised System which are produced in South Africa from wines of different geographical origins provided that at least 85 % of the grapes used to produce the wine were harvested in South Africa. The Community shall authorise the import and marketing of these wines on its territory subject to the relevant labelling rules laid down under Community legislation and in accordance with point X of the protocol.
- III. Pursuant to the definition of "vine varieties" referred to in Article 3(k) of the Agreement, the Contracting Parties agree to prohibit the import and marketing of wine obtained from the following varieties:
 - Clinton
 - Herbemont
 - Isabelle
 - Jacquez
 - Noah
 - Othello.
- IV. Pursuant to Article 4, the Contracting Parties agree, without prejudice to any more restrictive internal legislation, to allow the use of the name of a vine variety, or, where applicable, of a synonym, to describe and present a wine, even where the names of more than a single vine variety are used for the same wine, only under the following conditions:
 - (a) at least 85% of the wine shall be obtained, after deduction of the quantity of the products used for possible sweetening, from the variety quoted;
 - (b) in the case where more than one variety is quoted, the wine shall be obtained, after deduction of the quantity of the products used for possible sweetening, from these varieties provided there is a minimum of 20 % of any named variety and the varieties be named in descending order of proportion;
 - (c) where the name of the variety or its synonym is composed of several words, such composite name or synonym shall be printed on the label, without the interposition of any other information, in uniform letters of the same size on one or more lines;

- (d) the name shall not be used in such a manner as to mislead consumers on the origin of the wine. For this purpose the Contracting Parties may determine the practical conditions under which a name may be used.
- V. Pursuant to Article 4, the Contracting Parties agree to allow the use of a geographical indication to describe and present a wine only if the wine is wholly obtained from grapes harvested in this geographical unit. However, as regards a limited number of well demarcated and restricted production areas, the name of such an area may be used provided at least 85 % of the wine concerned is obtained from grapes harvested in that area.
- VI. Pursuant to Article 5(1) of the Agreement, the Community shall authorise, on a provisional basis until admission of this practice by the International Vine and Wine Organisation (OIV), the import and the marketing on its territory of wines originating in South Africa treated with dimethyl dicarbonate for stabilisation purposes under conditions laid down in South African rules. In the case of non-admission within a period of 3 years by the OIV, the authorisation shall be withdrawn after a transitional period of one further year.
