Bruselj, 26.1.2005
KOM(2005) 15 končno

DELOVNI PROGRAM KOMISIJE ZA LETO 2005

Sporočilo predsednika v dogovoru s podpredsednico Wallströmovou

I UVOD

Leto 2005 bo ključno leto za Evropsko unijo. Evropa mora povečati rast in odpreti nova delovna mesta z dajanjem močnejšega zagona Lizbonski strategiji; zagotoviti mora sredstva, ki bodo prek sporazuma o finančnih perspektivah podprla blaginjo, solidarnost in varnost; ter okrepiti svobodo, varnost in pravico za državljane na evropski ravni z izvajanjem Haškega programa. Sprejeti je treba ključne odločitve, ki bodo neposredno vplivale na prihodnost razširjene Evrope. Hkrati pa ustava opozarja Unijo, zakaj obstaja in kam je namenjena. Evropska komisija ima osrednjo vlogo pri pospeševanju tega načrta in namerava **te cilje doseči z energijo in odločnostjo**.

Posebej pomembne so naslednje značilnosti političnega ozračja v letu 2005:

- **Gospodarska rast** v Evropi je obstala malo nad 2 %. To ne zadostuje za rešitev vprašanja brezposelnosti in odraža širše pomanjkljivosti pri zmožnosti Evrope, da je konkurenčna in spodbuja ključne gonalne sile rasti.
- **Ratifikacija Ustave** bo sprožila intenzivno politično razpravo v državah članicah celotne Unije. Ta razprava bo, kot vse druge razprave o prihodnosti Unije, gotovo vir nasprotуюčih se mnenj, vendar bo hkrati ponudila priložnost za boljše razumevanje Unije v javnosti.
- Pogajanja o **finančnih perspektivah** dajejo Uniji možnost za zagotovitev, da se eno njenih ključnih orodij, tj. proračun EU, usmeri tako, da se poveča učinkovitost ukrepanja Unije v skladu z njenimi cilji.
- Leto 2005 bo ključno za zagotovitev pravilnega delovanja **nove razširjene Unije**.

Ta zakonodajni in delovni program (v nadalnjem besedilu „delovni program“) se osredotoča na prispevek Komisije kot organa, pristojnega za izražanje skupnih evropskih interesov in oblikovanje politične usmeritve za delo Unije. Od začetka evropskega projekta je imela pravica Komisije do pobude ključno vlogo pri spodbujanju Unije, da naj deluje za doseganje skupnih ciljev.

Delovni program je priložen predlogu strateških ciljev za obdobje 2005–2009. Za novo Komisijo je to prva priložnost, da bo lahko pomagala Evropi določiti smer za naslednjih pet let. Program določa, **kako in na katerih področjih bo Komisija delovala za uresničitev strateških prednostnih nalog v prihodnjem letu** glede na nove in sedanje ukrepe. Besedilu je priložen seznam ključnih novih ukrepov.

Komisija je letos svoj delovni program zasnovala drugače:

- Delovni program je bolj **politično usmerjen**.
- Posebna pozornost je posvečena **izvajjanju**. Komisija se v celoti zavezuje, da bo med letom izvedla prednostne predloge, navedene v Prilogi I.
- Zlasti bi bilo treba poskrbeti za najboljšo možno **izvedbo in boljšo pravno ureditev**. Oddelek III tega delovnega programa podrobneje določa načrte Komisije.

Namen delovnega programa je tudi pomoč vsem institucijam EU, da svoje delo načrtujejo učinkovito. Ker izmed novih ukrepov Komisije določa le prednostne, **bodo druge ustanove prav tako prejele popoln seznam vseh drugih aktov, namenjenih medinstitucionalnemu procesu v naslednjem letu**. To kaže dobrodošel napredek pri uskladitvi dela institucij – vidik, ki ga je Evropski parlament poudaril ob potrjevanju nove Komisije. Ustava bo naslednji smiseln korak, saj bo predvidela večletni medinstitucionalni program, ki bo Uniji dal skupno strateško vizijo. Strateški cilji 2005–2009, ki jih je Komisija vzporedno s tem delovnim programom predlagala Evropskemu parlamentu in Svetu kot skupno podlago za delo institucij, izhajajo iz določb ustave.

II PREDNOSTNE NALOGE KOMISIJE ZA LETO 2005

Februarja lani so bile v **Letni strategiji politike za leto 2005** določene prednostne naloge za ukrepe v naslednjem letu in ključne pobude, potrebne za njihovo uresničitev.

Sprejetje letnega strateškega načrtovanja je vsako leto priložnost za **medinstitucionalni dialog** o prednostnih nalogah za naslednje leto. Evropski parlament in Svet podrobno preučita predloge Komisije in predlagata spremembe. Ti odzivi so zbrani v povzetku, ki omogoča, da se lahko prednostne naloge in ključne pobude po potrebi preoblikujejo in nato vključijo v delovni program.

Zaradi institucionalne prenove leta 2004 je bil za dialog z Evropskim parlamentom sprejet enostavnejši postopek kot običajno. Aprila so prednostne naloge, ki jih je opredelila Komisija, dobole splošno podporo, pri čemer je bila dodatno poudarjena varnost neposredno po terorističnih napadih v Madridu. Svet je v sklepnih ugotovitvah pozdravil prednostne naloge in zahteval, da se v celoti upoštevajo sklepi spomladanskega Evropskega sveta.

Pri pripravi delovnega programa so se v celoti upoštevala mnenja institucij. Komisija se zlasti strinja s krovnim ciljem, to sta blaginja in trajnostni razvoj. Ugotovila je naslednje:

- velik poudarek na dejanskem izvajanju Lizbonske strategije,
- poseben poudarek na varnosti s potrebo po upravljanju razširjenih zunanjih meja EU, da se pripravi skupen pristop glede migracijskih tokov in okrepljeno prizadevanja za boj proti terorizmu,
- močna podpora za ambiciozno sosedsko politiko in učinkovit razvojni program.

Rezultat tega dialoga in izmenjav z drugimi institucijami od oblikovanja nove Komisije se je združil z razvojem strateških ciljev, da bi se tako poudarile ključne prednostne naloge za leto 2005:

- Osrednji cilj je povečati **blaginjo** z novim zagonom za rast in zaposlovanje na podlagi močnejše konkurenčnosti.
- Ločena cilja **solidarnosti** in **varnosti** se bosta poskušala doseči kot ključni dopolnilni blaginje.
- Unija, okrepljena s svojo novo celinsko legitimnostjo, bo svoje notranje cilje načrtovala z večjo **zunanjo** odgovornostjo.

Evropski državljanji pričakujejo in si zaslužijo, da Evropska unija odigra svojo vlogo pri izboljševanju njihove kakovosti življenja.

Ključni dejavnik za uresničitev te prednostne naloge je temeljni cilj **trajnostnega razvoja**. Evropski model temelji na načelu, da se ukrepi, ki spodbujajo konkurenčnost, rast in zaposlovanje pa tudi ekonomsko in socialno kohezijo ter zdravo okolje, medsebojno krepijo. Rešitev vprašanja podnebnih sprememb je, na primer, predpogoj za trajnostno rast.

Za državljanje so svoboda, varnost in pravica njihove glavnne skrbi. Novembra 2004 je Evropski svet sprejel Haški program, ki odpira novo poglavje v razvoju območja svobode, varnosti in pravice in se uporablja kot podroben program ukrepanja.

Nenazadnje, če se želi Evropska unija približati svojim državljanom, moraučinkovito komunicirati. To je bila ugotovitev Evropskega sveta novembra 2004, ki je pozdravil namen Komisije, da predstavi obsežno **strategijo komuniciranja**.

Ključni medsektorski ukrepi, ki se že izvajajo

- Pogajanja o prispevku naslednjih finančnih perspektiv in njihovih osnovnih politik k izpolnjevanju ciljev Unije za obdobje med letoma 2007 in 2013
- Zagotavljanje nemotenega delovanja razširjene Evrope ter polne uporabe politik in pravil v vseh državah članicah

Naslednja poglavja povzemajo:

- ključne naloge posameznega cilja;
- pregled načrtovanih ukrepov, ki naj bi bili sprejeti v okviru posamezne prednostne naloge;
- pregled drugih ključnih dejavnosti Komisije, ki potekajo in bodo prispevale k uresničitvi prednostnih nalog v letu 2005.

II.1 Blaginja

Povečanje gospodarske rasti je osrednji cilj politike Komisije. To pomeni, da je treba bolj podpreti ključne gonalne sile rasti, kot so raziskave in inovacije, ter se odzvati na potrebe posameznega sektorja s posebnim poudarkom na storitvah. **Vmesni pregled Lizbonske strategije** bo dal evropskemu vidiku konkurenčnosti nov zagon. Spomladanski Evropski svet, ki bo potekal marca, daje Evropski uniji in državam članicam možnost, da resnično prispevajo k boljši konkurenčnosti evropskega modela kot poti do blaginje, zaposlitve, kohezije in varstva okolja. Vendar pa se lahko, brez vnaprejšnje sodbe glede rezultatov pregleda, delo Komisije pri utiranju nove poti proti prenovljeni Lizbonski strategiji uresniči s sklopom natančnih ukrepov, s katerimi se želijo lotiti ključnih dejavnikov uspešne politike rasti.

- Trden makroekonomski okvir je ključen za zdravje gospodarstva. Reforma **pakta za stabilnost in rast** bo pomagala zagotoviti, da bo stabilnost zajamčena s prenovljenim sporazumom o pravilih, ki urejajo pakt.

- Stroški, ki nastajajo zaradi pomanjkljive **infrastrukture**, so za evropsko gospodarstvo izredno visoki. Vseevropsko omrežje mora graditi na pobudi za rast in zagotavljati, da se večji dodatni stroški uskladijo z novimi ukrepi, s katerimi bodo omrežja postala bolj operativna in usklajena. Večja preglednost na energetskem trgu bi prav tako pomagala zagotoviti boljšo varnost oskrbe z energijo.
- Nova generacija **raziskovalnih** programov bo predlagala občutno spremembo za zmanjšanje vrzeli med raziskovalnimi prizadevanji Evrope in njenimi glavnimi tekmeci. Proračun EU bi moral prispevati veliko večji delež k dogovorjenim ciljnim 3 % BDP za raziskave. Raziskovalni programi bi morali biti usmerjeni na področja, na katerih lahko EU resnično prispeva dodano vrednost: spodbujanje odličnosti in vzpostavljanje sodelovanja na evropski ravni, zagotavljanje uresničitve raziskovalne zmogljivosti Evrope kot celote, ter ekonomija obsegla, učinkovitosti in poenostavitev. Vzpostavitev na znanju temelječega gospodarstva v EU pomeni tudi doseganje ciljev EU za **vseživljenjsko učenje**.
- **Inovacije in podjetništvo** so prav tako odločilni za rast in odpiranje novih delovnih mest. Unija mora te cilje spodbujati tako, da izvaja politike za pospeševanje inovacij in podjetništva ter dopolnjuje ukrepe države članice. Ustvarjati je treba inovativno vzdušje, ki presega tehnične inovacije, da se razvijejo novi načini na področjih, kot so distribucija, trženje in projektiranje. Evropa lahko izkoristi svoj vodilni položaj na področjih, kot so eko-inovacije, da resnično spodbudi rast in konkurenčnost.
- **Evropsko poslovno okolje** mora biti bolj spodbudno za podjetja, ki želijo poiskati nove priložnosti. Pravilno delovanje notranjega trga je bistven pogoj za rast in konkurenčnost. Če želimo v celoti izkoristiti dejanske prednosti enotnega trga, je treba v ključnih sektorjih, kot so finančne storitve in energetika, odpraviti ovire. Učinkoviti trgi in pobude za naložbe in inovacije so bistveni deli za doseganje rasti in odpiranje novih delovnih mest: učinkovita konkurenca je ena ključnih spodbud za to. Okoljske tehnologije lahko povečajo produktivnost in konkurenčnost evropskih podjetij. Širše sprejetje **informacijskih in komunikacijskih tehnologij** bo spodbudilo rast, saj bo povečalo produktivnost, odprlo nova tržišča in izboljšalo javne storitve. Predlagala se bo nova obsežna strategija za evropsko informacijsko družbo do leta 2010. Davčna politika bi morala olajšati življenje podjetjem in se izogibati nevarnosti dvojnega obdavčevanja. Vendar bodo taki ukrepi učinkoviti samo skupaj z doslednejšim izvajanjem zakonodaje o notranjem trgu in zmanjšanjem regulativnega bremena. Potrebni so ustrezni postopki in sredstva, ki bodo zagotovila uporabo pravil o javnih naročilih, avtorskih pravicah in industrijski lastnini.

Ključni ukrepi, ki se že izvajajo

- Preoblikovanje pobude za rast v konkretnе ukrepe, zlasti v zvezi z infrastrukturo
- Nadaljevanje priprav v zvezi z mednarodno pobudo za fuzijsko energijo (ITER)
- Zadnje leto izvajanja akcijskega načrta za finančne storitve 2000–2005
- Razvoj evropske politike o vesolju
- Nadaljevanje razvoja politike na ključnih področjih notranjega trga, kot so javna naročila (obramba in javno-zasebna partnerstva), intelektualna lastnina in finančne storitve (obračun in poravnava)
- Spodbujanje boljšega ekonomskega vladanja in okrepitev zmogljivosti za spremljanje makroekonomskega in davčnega položaja
-

II.2 Solidarnost

Solidarnost je temelj evropskega državljanstva:

- **Socialno razsežnost** cilja odpiranja številčnejših in boljših delovnih mest je treba spodbujati z novo agendo socialne politike, ki bo zajemala naslednjih pet let. Treba je opraviti tudi posebno delo za boj proti diskriminaciji in spodbujanje enakosti spolov, pospeševanje mobilnosti delovne sile, predvidevanje težav, povezanih s prestrukturiranjem, in začetek razprave, kako odpraviti težavo starajočega se prebivalstva Unije.
- Koristi rasti priti do vseh delov Unije, če želimo, da so učinkovite. To pomeni, da se je treba ponovno posvetiti **kohezijski politiki** in jo preoblikovati, da se sredstva ne bodo namenila samo območjem, ki jih najbolj potrebujejo, ampak tudi sektorjem, ki lahko ponudijo najboljši potencial rasti za spodbujanje konkurenčnosti na regionalni ravni. Hkrati pa lahko politike na področjih, kot je informacijska tehnologija, s povečevanjem dostopa pomagajo odpraviti izključenost.
- Biti evropski državljan pomeni sodelovati v partnerstvu. Državljanstvo vključuje ukrepe za vzbujanje **medkulturne raznolikosti** v Evropi in zunaj nje ter za spodbujanje dejavnega sodelovanja državljanov v Uniji. Poseben poudarek na **mladih** bi pomagal izražati različne interese te skupine. Poleg tega je treba po nedavnih posvetovanjih posodobiti tudi ureditev **avdio-vizualnega področja**.

Trajnost našega okolja in naših naravnih virov je že dolgo časa prednostna naloga za EU in je del solidarnosti med generacijami:

- **Okoljski izzivi, s katerimi se srečuje Evropa**, potrebujejo usklajen odziv na celotni ravni EU. Nov pristop okoljske politike so tematske strategije, ki naj bi čim bolj povečale medsebojne povezave na samem področju okolja ter med drugimi sektorskimi področji politike. Zasnovane so tako, da lahko upoštevajo vse vidike politike in uporabijo raznoliko zbirkovo odgovorov, kadar obravnavajo vprašanja uporabe virov, odpadkov, pesticidov, zraka, tal ter mestnega in morskega okolja. Evropska unija mora prav tako zagotoviti, da postanejo okoljski in socialni stroški različnih možnosti izbire prevoza preglednejši in da dodatno spodbujajo obnovljivo energijo. Vendar pa se mora ozreti tudi v prihodnost: že danes bi morali razmišljati, kakšne strategije bodo potrebne za obvladovanje podnebnih sprememb v naslednjem desetletju. Načrtovanje ukrepov že sedaj za prilagoditev na podnebne spremembe, vključno z novimi pobudami za povečanje energetske učinkovitosti, bo podjetjem in državljanom pomagalo, da se bodo prilagodili na prihodnja tveganja in jih ublažili.
- Reformi skupne kmetijske politike in skupne ribiške politike sta že utrli novo pot za trajnejše **upravljanje naravnih virov**, večjo konkurenčnost z bolj tržno usmerjenostjo v skladu z Lizbonsko strategijo in večjo podporo ranljivim skupnostim. To delo je treba razširiti na nova področja, kot sta nova faza v slatkorni reformi in prilagoditev zakonodaje o banah. Nova strategija bo zagotovljala skladnost razvoja podeželja na ravni celotne EU ter spodbujala rast in blaginjo na podeželju. Z združitvijo ukrepov v en instrument bi se moralno priti do poenostaviti in izboljšati vodenje ribiške politike.

Ključni ukrepi, ki se že izvajajo

- Uvedba novega sistema za trgovanje z emisijami in izvajanje Kjotskega sporazuma
- Prvo leto izvajanja reforme skupne kmetijske politike z uvedbo enotnega plačila na kmetijo
- Utiranje poti pomorski politiki Unije
- Izvajanje načrta EU za biološko raznovrstnost

II.3 Varnost za evropske državljanе

Varnost je eno od osnovnih pričakovanj evropskih državljanov. Ukrepi na področju svobode, varnosti in pravice zahtevajo močno soglasje. Nevarnosti zaradi zdravstvenih ali okoljskih kriz dobivajo vedno večjo vseevropsko razsežnost. Ukrepi bodo porazdeljeni med različne elemente politike:

- **Prost pretok oseb v Uniji zahteva skupen pristop k nadzoru meja, azilu in priseljevanju.** Skupna pravila o zakonitem priseljevanju in postopkih vračanja bi vsem morebitnim priseljencem zagotavljala enake razmere; zato je treba zbrati potrebne podatke, če želimo politiko učinkovito ciljno usmeriti. Vendar pa je nadzor meja drag in za države članice, ki se srečujejo z nesorazmernimi obveznostmi, bi bilo treba breme olajšati s sistemom porazdelitve bremena.
- **Grožnji za varnost v Evropi brez meja se je treba upreti z usklajenim odzivom.** Z operativnim sodelovanjem v boju proti terorizmu in organiziranem kriminalu ter učinkovitejšo uporabo obveščevalnih služb bi premostili nekatere vrzeli. Komunikacijo bi lahko okrepili tudi z boljšim povezovanjem nacionalnih organov v mrežo in skupnim dostopom do kazenskih evidenc. Sodelovanje med prometno policijo prav tako logično izvira iz enotnega prometnega omrežja. Unija je pristojna tudi za varnost zunaj svojih meja, kot so učinkovita carina in drugi nadzori blaga z dvojno rabo.
- **Treba je okrepliti dostop do pravnega varstva.** To se lahko doseže s sodelovanjem med sodnimi organi in razširitvijo področja pravice, da bo to zajemalo vprašanja, kot so ločitvene poravnave, plačevanja preživnine, dedovanja in oporoke. Hkrati pa je treba zaščititi posamezne pravice in Unija bi morala predvideti predlagano vključitev Listine o temeljnih pravicah v Ustavo.
- Evropska unija potrebuje mehanizme, ki ji bodo omogočali, da se bo hitro odzvala na krizne razmere in izboljšala varnost za svoje državljanе. Za **pomorsko varnost ter varnost v cestnem in zračnem prometu** je treba ukrepati na ravni EU. Z **radioaktivnimi odpadki** je treba ravnati pravilno. **Zdravje** je prav tako področje, na katerem lahko usklajevanje in izmenjava dobre prakse neposredno ugodno vplivata na državljanе. Uvedena je bila že večina pravil o **varnosti hrane**, vendar pa je njihovo uporabo treba okrepliti z usposabljanjem in boljšim nadzorom ter jih posodabljati ob upoštevanju znanstvenega razvoja in potreb potrošnikov. **Potrošniki** potrebujejo boljšo zaščito na področjih, kot so aditivi, in prave informacije o standardih dobrega počutja v živilski industriji. Posodobiti je treba tudi pravila o **zdravju in dobrem počutju živali**, da bodo izražala nova znanstvena dognanja in okreplila varovanje dobrega počutja in zdravja.
- **Varnost oskrbe z energijo** je treba spodbujati z zmanjševanjem dolgotrajne odvisnosti od uvoza nafte in plina.

Ključni ukrepi, ki se že izvajajo

- Zagotavljanje varnosti hrane in fitosanitarnega nadzora pa tudi usklajenega preverjanja zdravja uvoženih živali ter varnosti uvožene hrane in krme
- Priprava nove pobude o raziskavah na področju varnosti
- Priprava druge faze sistema skupnega azila (vključno z izvajanjem Evropskega sklada za begunce II)
- Okrepitev skupne vizumske politike in varnosti potovalnih dokumentov
- Pospešitev boja proti terorizmu z okrepitvijo omrežij in zmogljivosti EU

II.4 ZUNANJE PREDNOSTNE NALOGE

Nova razsežnost Unije po širitvi kaže na naraščajočo potrebo po vzpostavitvi stabilnega in obsežnega političnega okvira s sosednjimi državami na jugu in vzhodu: uresničitev tega drugega območja blaginje in stabilnosti je osrednja prednostna naloga na zunanjem področju. Za to je potrebno celovito izvajanje nove sosedske politike Unije. Hkrati bi moral stabilizacijsko-pridružitveni proces ostati temelj politike za države zahodnega Balkana, medtem ko se bo pristopni proces nadaljeval s predpristopno strategijo in začetkom pogajanj s Turčijo ter dejavno fazo pogajanj s Hrvaško.

Razširjena Unija lahko **prevzame večjo odgovornost na svetovni ravni** in jo tudi mora. Komisija mora imeti večjo vlogo pri spodbujanju trajnostnega razvoja po vsem svetu, zlasti z razvojnimi cilji tisočletja, ter prevzeti vodilno vlogo pri večstranskem upravljanju in reformi Združenih narodov. Celostna trgovinska politika Unije in njena bistvena vloga pri spodbujanju razvoja jo bosta vodili, da bo prevzela večjo odgovornost v večstranskih institucijah, kot je Svetovna trgovinska organizacija. S skladnim sklopom instrumentov in njihovo boljšo usklajenostjo se bo okrepila sposobnost Unije, da se učinkovito odzove na državljanske krizne položaje ali razmere po razrešitvi nasprotij. Hitra zagotovitev humanitarne pomoči po naravnih nesrečah, ki so jo povzročili cunamiji, je dokaz, kako lahko učinkovita in hitra zagotovitev humanitarne pomoči EU in drugih oblik pomoči prispevajo, da EU izpolni obveznosti na svetovni ravni. Drug način, ki lahko poveča pomen ukrepanja Unije po svetu, je, da se čim bolj izkoristi zunanje razsežnosti njenih notranjih politik.

V skladu z dolgoročnimi nalogami, določenimi v strateških ciljih, namerava Komisija leta 2005 posebno pozornost posvetiti ukrepom na dveh področjih: odnosom z njeno neposredno **soseščino** in nujnosti za razvoj, katere primer je **Afrika**:

- **Evropska sosedska politika** bo s sosednjimi državami delila ugodnosti širitve EU tako, da bo okrepila stabilnost, varnost in blaginjo. Leta 2005 bo Komisija na nove sosednje države razširila prilagojene akcijske načrte, ki določajo cilje za številna politična, gospodarska in družbena vprašanja ter delujejo kot katalizator za gospodarsko in politično reformo. Za Sredozemlje se bo pregledal in predelal Barcelonski proces, da bo ostal najučinkovitejši instrument za partnerstvo in dialog ter zagotavljal regionalni vidik v okviru skupnega sosedskega pristopa.

- Proces širitve se bo nadaljeval z rednim strateškim dokumentom o napredku pri procesu širitve (poročila o spremljanju za Bolgarijo in Romunijo, poročila o napredku za Hrvaško in Turčijo). Komisija bo poročala tudi o napredku stabilizacijsko-pridružitvenega procesa z državami zahodnega Balkana. Na koncu bo ocenila, ali lahko priporoča začetek pristopnih pogajanj z Nekdanjo jugoslovansko republiko Makedonijo.
- Unija bo pripravila novo izjavo o razvojni politiki, da bo utrla pot za večjo učinkovitost pri razvojnih prizadevanjih EU ter se pripravila na **splošen pregled razvojnih ciljev tisočletja**, ki ga bodo septembra 2005 opravili Združeni narodi, tako da bo opravila svojo inventuro in pripravila predloge za nadaljevanje procesa. To bi moralo vključevati posebno pozornost, ki jo je treba posvetiti trajnostnemu financiranju razvoja in učinkovitemu multilateralizmu. Poleg tega bi morala Unija učinkovito izrabiti svoje dvostranske odnose, kot je izkoriščanje vseh zmogljivosti transatlantskega odnosa.
- Unija si bo prav tako prizadevala zagotoviti uspešen izid **pogajanj o razvoju, ki potekajo v Dohi**, zlasti s prizadevanji za napredek na ministrskem sestanku v Hongkongu in izvajanjem politik, ki spodbujajo razvojne cilje.
- Novo izjavo o razvojni politiki in širši pregled napredka, ki ga je Unija dosegla z vidika izpolnitve razvojnih ciljev tisočletja, bi bilo treba dopolniti s **posebno strategijo za Afriko**. Na posebne težave, ki jih ima Afrika, zlasti njen podsaharski del, se je treba odzvati s posebnimi ukrepi. Namenska strategija bo pomagala, da bodo prizadevanja EU zagotovila občutno spremembo z vidika količine in kakovosti pri podpori Afriki. Unija si mora kot cilj zastaviti dejansko partnerstvo, ki bo temeljilo na zrelem trgovinskem in političnem odnosu.

Ključni ukrepi, ki se že izvajajo

- Izvajanje nove sosedske politike EU po že sprejetih akcijskih načrtih
- Stabilizacija in pridruževanje na zahodnem Balkanu
- Priprave na pristop Romunije in Bolgarije
- Izvajanje predpristopne strategije in pristopnih pogajanj s Turčijo in Hrvaško
- Pogajanje o poenostavljenem sklopu instrumentov na področju zunanjih odnosov v okviru finančnih perspektiv
- Sodelovanje z ZDA v mirovnem procesu na Bližnjem vzhodu
- Nadaljevanje trenutnih regionalnih ali dvostranskih pogajanj (Mercosur, Svet za sodelovanje v Zalivu) ter drugih pobud za krepitev trgovinskih odnosov (Združene države, Kanada, ASEAN)
- Izvajanje evropske varnostne strategije ter naslednjih faz v evropski varnostni in obrambni politiki
- Pomoc partnerjem AKP, da odpravijo posledice sladkorne reforme EU
- Stalna pogajanja o večstranskih okoljskih sporazumih, vključno s stalnimi pogajanji o podnebnih spremembah

III. IZVAJANJE IN BOLJŠA PRAVNA UREDITEV

Visoki standardi upravljanja in pravne ureditve v Evropski uniji so bistveni, da je izvajanje politike EU verodostojno in zakonito. Boljša pravna ureditev in kakovostnejša zakonodaja

zlasti neposredno prispevajo k spodbujanju rasti, konkurenčnosti in zaposlovanju, medtem ko zagotavljajo ustrezeno zaščito za državljane in okolje. Ker se Komisija zaveda, kakšen pomen ima boljša pravna ureditev, bo v prvem četrtletju 2005 ponovno uvedla svojo strategijo za poenostavitev in izboljšanje regulativnega okolja.

- **Subsidiarnost in sorazmernost** Delo Komisije bo ocenjeno glede na zahteve subsidiarnosti in sorazmernosti: Evropska unija bi morala posredovati samo v nujnih primerih in v najblažji možni obliki. Komisija navaja posebno vlogo, ki bo v Ustavi dodeljena nacionalnim parlamentom v zvezi s subsidiarnostjo.
- **Stroškovna učinkovitost in odgovornost** Proračun EU bi se moral uporabiti samo takrat, kadar lahko ponudi boljšo stroškovno učinkovitost kot poraba na nacionalni ravni. Poraba mora biti tudi jasno upravičena z učinkovitimi medinstitucionalnimi mehanizmi, ki lahko to omogočijo. Treba je vzpostaviti ustrezne revizijske in kontrolne sisteme z načrtom, ki stremi k pozitivni izjavi o jamstvu, ki jo izda Evropsko računsko sodišče. Da se zavarujejo finančni interesi Unije, je treba z večjo preglednostjo in sodelovanjem še bolj odvračati od goljufij.
- **Posvetovanje** Opazimo lahko, da naj bi veliko število predlogov, ki jih je treba letos sprejeti, sprožilo posvetovanja. Komisija je prepričana, da celovito sodelovanje civilne družbe in drugih zainteresiranih strani pri pripravi politike dejansko vpliva na njeno kakovost in učinkovitost. Ko se bo Komisija posvetovala z zainteresiranimi stranmi, bo čim bolj uporabljala minimalne standarde glede posvetovanj¹.
- **Presoja vplivov** Komisija meni, da je presoja vplivov pomembno orodje, ki pomaga zagotavljati, da priprava politike temelji na popolnem poznavanju dejstev, zato bo še naprej razvijala svoje prakse v ta namen.² Postopek presoje vplivov usmerja proces oblikovanja politik z odprto analizo možnosti ter predvideva disciplino, ki zagotavlja, da se gospodarski, socialni in okoljski dejavniki upoštevajo v celoti. Poleg tega presoja vplivov javnosti jasno in dostopno obrazloži, zakaj se pripravlja predlog. Presoja vplivov je tako standardni del vseh predlogov v delovnem programu. V tem okviru bo Komisija zagotovila, da bodo presoje vplivov ustrezeno upoštevale konkurenčnost. Edini primeri, pri katerih presoja vplivov ni nujna, so zelene knjige in posvetovanja s socialnimi partnerji. V teh primerih se bo presoja vplivov opravila pozneje, če se bo pobuda izvajala.
- **Prenos in izvajanje** Komisija bo zakonodajni postopek ohranila v celoti. Povečala bo svoja prizadevanja za izvajanje novega pristopa uporabe zakonodaje Skupnosti³, zlasti z varnostnimi ukrepi in strogim obravnavanjem kršitev, kadar bo to potrebno.
- **Poenostavitev** Komisija je februarja 2003 v okviru svojega akcijskega načrta "Poenostavitev in izboljšanje regulativnega okolja"⁴, ki je bil objavljen junija 2002, predlagala okvirni ukrep za "Posodobitev in poenostavitev pravnega reda Evropskih

skupnosti⁵, ki naj bi zagotovil jasno, razumljivo, posodobljeno in uporabnikom prijazno telo sekundarne zakonodaje EU v korist državljanov, gospodarskih subjektov in javnih uprav. V začetku leta 2005 bo Komisija pripravila izčrpno poročilo o izvajanju okvira za poenostavitev iz leta 2003 ter predstavila svoje načrte za prihodnje delo v zvezi s poenostavljivo veljavne zakonodaje in posodobitvijo svojega tekočega načrta za poenostavitev. Svet je novembra 2004 potrdil seznam prednostnih nalog za poenostavitev na podlagi predlogov držav članic ter Komisijo pozval, da naj sprejme vse ustrezne ukrepe⁶. Komisija se zavezuje, da bo do marca 2005 odgovorila na prednostne naloge, ki jih je predlagal Svet, čeprav ta delovni program za leto 2005 že vsebuje odziv Komisije na nekatere prednostne naloge Sveta⁷.

Izvajanje kodifikacijskega programa Komisije je bilo leta 2004 odloženo zaradi ozkih gril pri prevajanju v novih državah članicah, vendar pa naj bi ta program v letu 2005 privедel do občutnega porasta novih zakonodajnih predlogov za kodifikacijo.

Priloga 3 navaja načrtovane predloge, ki naj bi imeli večje posledice na področju poenostavitve.

⁵ KOM(2003) 71 z dne 11.2.2003. Okvir določa šest smeri ukrepov: poenostavitev, prečiščenje, kodifikacija, preklic, izjava o zastarelosti ter organizacija in predstavitev pravnega reda Evropskih skupnosti.

⁶ Na seznamu predlogov so navedene naslednje prednostne naloge: fitofarmacevtska sredstva, letna poročila, 12. direktiva o pravu družb, odpadna olja, direktiva o odpadkih, nevarni odpadki, sežiganje odpadkov, označevanje živil, mednarodna pravila in pravila EU na področju motornih vozil, gradbeni izdelki, medicinski pripomočki, tlačne posode, varnost in zdravje pri delu, struktorna statistika podjetij.

⁷ Treba je poudariti, da izvajanje prednostnih nalog na področju poenostavitve, ki jih je predlagal Svet, ne zahteva vedno zakonodajnih pobud Komisije.

I PROSPERITY

Title	Description of scope and objectives	Type of proposal or act
Commission Communication on the future of State aid policy	Consultation document on the future State aid policy. The document will present reflexions for the future State aid policy and will ask for comments from all interested parties. In light of these comments, the Commission will modify the existing rules. These modifications will take place between 2005 and 2008.	Non-legislative action / Other
Proposition d'un règlement du conseil révoquant le Règlement 4056/86	Proposal to repeal the currently applicable provisions of Council Regulation 4056/86, applying the EC competition rules to the maritime transport sector	Legislative Proposal / Regulation
Livre vert sur les demandes de dommages et intérêts pour les violations du droit européen de concurrence (Articles 81 et 82 du Traité).	Private enforcement of the EU competition rules is lagging far behind public enforcement. The lack of a clear set of rules for claims of damages in the EU Member States has as a consequence that there is presently virtually no successful private litigation for damages resulting from infringements of the EU competition rules. 	The Green Paper will be used as the springboard for launching a general policy review and to consult stakeholders, a prerequisite to the launching of any formal proposal in this area. Any formal proposal would have as its main objective a higher level of compliance with the EU competition rules.	
Communication on the strengthening of economic governance	This communication will provide elements to strengthen the EU framework in order to 1) better combine discipline with economic growth considerations 2) focus more on the sustainability of the member State's public finances, 3) improve implementation.	Non-legislative action / Commission Communication
Proposition de modification du règlement 1467/97 et/ou 1466/97 sur le Pacte de Stabilité et de Croissance	In its June 2004 Communication and its September 2004 Communication, the Commission considered several elements for strengthening the SGP: (i) placing more focus on debt and sustainability in the surveillance of budgetary positions; (ii) allowing for more country-specific circumstances in defining the medium-term objectives of "close to balance or in surplus"; (iii) considering economic circumstances and developments in the implementation of the Excessive Deficit Procedure; (iv) ensuring earlier actions to correct inadequate budgetary developments. The exercise of revisiting the SGP is meant to adjust the existing framework, strengthening and clarifying it following the adoption of a new Communication on the strengthening of economic governance (2005/ECFIN/21).	Legislative Proposal
Proposition de Règlement du Parlement européen et du Conseil établissant des procédures pour l'autorisation, la supervision et la vigilance concernant les produits d'ingénierie tissulaire humains.	The proposal will establish specific procedures and requirements for the authorisation, supervision and vigilance of human tissue engineered products. Objective is to ensure the free movement of these products, while guaranteeing a high level of safety for patients and medical practitioners	Legislative Proposal / Regulation
Innover pour la compétitivité de l'Europe' - plan d'action pour l'innovation	Suite à la Communication COM(2003)112 final sur la Politique de l'Innovation et aux conclusions du Conseil Compétitivité du 13 mai 2003, un plan d'action en faveur de l'innovation sera établi afin d'accroître la performance compétitive des entreprises européennes en s'appuyant sur des actions communautaires, nationales, locales ainsi que sur la mobilisation transnationale des acteurs privés.	Non-legislative action / Commission Communication

Programme-cadre pour la Compétitivité et l'Innovation	The framework will include elements focussing on: improving the business environment and entrepreneurship; SMEs access to investment capital; ICT mastery and use; innovation including eco-innovation and the sustainable use of resources.	Legislative Proposal / Decision
Communication reporting on the public consultation on the scope of universal service	This Communication constitutes the Commission's Report to the European Parliament and the Council on its review of the scope of Universal service, required by Art 15(2) of the Universal Service Directive 2002/22/EC.	Non-legislative action / Commission Communication
Communication on i2010 (European Information Society 2010)	The eEurope initiative has made a major contribution to advancing the information society in Europe. This initiative runs to the end of 2005, and there is a need now to plan follow-on activities. The form and content of a future eEurope initiative requires extensive discussion over the coming months in the context of the mid-term review of the Lisbon strategy and on the basis of consultations with a wide range of stakeholders. This Communication will reflect the results of these consultations.	Non-legislative action / Commission Communication
Proposition de Directive sur les Services de Paiement dans le Marché Intérieur	Today the legal framework is fragmented and mostly based on national rules. This Legal Framework for Payments is necessary in order to complement the initiatives launched by industry (e.g. European Payment Council) on the payments infrastructures. It will guarantee an adequate level of customer protection, and ensure legal certainty for all parties. It will provide a passport to payment institutions. It is part of the simplification exercise since it will repeal previous EU texts (Directive 97/5/EC and Recommendation 97/489/EC) and harmonise in a codified way core pieces of legislation on payments in the Internal Market.	Legislative Proposal / Directive

Proposition de directive du Parlement européen et du Conseil modifiant les directives 89/665/CEE et 92/13/CEE portant coordination des dispositions législatives, réglementaires et administratives relatives à l'application des procédures de recours en matière de passation des marchés publics

L'objectif est d'encourager davantage les entreprises communautaires à soumissionner dans n'importe quel Etat membre de l'Union, en leur donnant la certitude qu'elles pourront, si nécessaire, engager des recours efficaces dans le cas où leurs intérêts auraient été lésés lors de procédures de passation de marchés de travaux, de fournitures ou de services.

Legislative Proposal / Directive

Livre Vert sur les obstacles à l'intégration du marché du Crédit Hypothécaire dans l'Union Européenne.

The Green Paper will examine the obstacles to integration and propose policy solutions. It will be of a consultative nature.

Non-legislative action / Green Paper

Proposition de Décision du Conseil instituant un panel en charge des recours contre de décisions de l'OHMI auprès du Tribunal de Première Instance

According to Article 225A of the Treaty, judicial panels may be created to hear and determine at first instance certain classes of action or proceeding brought in specific areas. The appeals lodged against decisions of the Boards of Appeal of the Office for Harmonization in the Internal Market (Trade Marks and Designs) represent almost 30% of the cases to be dealt with by the Court of First Instance. The consequence of this is the congestion of the Court of First Instance, which entails that proceedings are slowed down.

Legislative Proposal / Decision

Proposition de directive concernant la gestion collective des droits d'auteur et droits voisins dans le marché intérieur

The proposal will focus on the management of collecting societies in order to set up a level playing field which will enhance the trust into collecting societies from rightholders and commercial users. Rightholders should therefore see their rights protected in a better way and commercial users should be granted licenses on a more transparent basis, within the Internal Market. The purpose is not to harmonise all the rules governing collecting societies but to impose obligations necessary to the smooth functioning of the Internal Market without prejudging the legal mechanisms to be used by Member States in order to implement them. A Directive seems the most appropriate way to reach that target.

Legislative Proposal / Directive

Livre Vert sur l'Intégration des Services Financiers: Horizon 2005-2010

Following the finalisation of the Financial Services Action Plan 2000-2005 (FSAP), this Green Paper will open a wide-ranging public consultation on the future strategy and policy direction in the area of financial services in order to continuously ensure the benefits of an integrated capital market in the EU. This will be followed up by a Communication later in the year.

Non-legislative action/Green Paper

Communication de la Commission sur les résultats de la consultation lancée par le Livre Vert sur les Marchés Publics de la défense

The Green paper on defence procurement of September 2004 [COM (2004)608] consulted stakeholders on the need to take a Community initiative in order to improve cross-border competition in certain types of defence procurement. The Commission shall communicate to the Council, to the EP and to stakeholders the outcome of this consultation, and publicly announce the concrete action(s) that it intends to take as a follow-up (if any).

Non-legislative action / Commission Communication

Proposition de directive concernant l'exercice de droit de vote des actionnaires dans les entreprises cotées

Creation of an integrated legal framework to facilitate efficient shareholder communication and decision-making (participation to meetings, exercise of voting rights, cross-border voting)

Legislative Proposal / Directive

The overall aim is to maintain and reinforce momentum in creating an effective knowledge-based economy

Communication de la Commission au Parlement européen et au Conseil: mieux légiférer pour la compétitivité

The document will take stock of the progress already accomplished in the Better Regulation area, set targets that need to be followed both at the Community and Member States levels to enhance regulatory management practices and launch a series of new actions that will contribute to further establish the leadership role of the Commission in pursuing the Community's Better Regulation strategy.

Communication/Recommendation de la Commission concernant l'application expérimentale de la "taxation au pays de résidence" pour les petites et moyennes entreprises dans l'Union européenne

The concept of "Home State Taxation" provides in simple terms that the profits of a group of companies active in more than one Member State should be computed according to the rules of one company tax system only, the system of the Home State of the parent company of the group. Each participating Member State would continue, however, to tax at its own corporate tax rate its share of the profits of the group's business activities in that State.

This approach addresses precisely the tax issues which hamper SMEs most in their cross-border activities: disproportionately high tax compliance costs resulting from the administrative tax formalities, bookkeeping requirements etc.; current difficulties with the cross-border offsetting of losses.

Basée sur la connaissance accumulée aux niveaux européen et nationaux, ce document répond au souci d'une tarification plus juste, plus efficace, permettant de contribuer à une compétition plus équilibrée entre les modes ainsi qu'au financement des dépenses d'infrastructures. La Communication inclura les dispositions modales correspondant aux initiatives rendues nécessaires à court terme. Les études d'impact seront à prévoir seulement pour les textes législatifs qui accompagneront la communication de la Commission.	Non-legislative action / Other

Proposition concernant la structure de gestion du projet industriel SESAME (entreprise commune) pour la réalisation technique du Ciel unique.

The Single European Sky legislation seeks to consolidate air traffic service provision to be more efficient at the European level and to accelerate the development and implementation of the future European ATM system. The programme (SESAME – Single European Sky Implementation Programme) to develop the future system will require significant involvement at the European level and is currently estimated in the region of 200M \square /year from 2007 to 2017 and subsequent implementation investments could amount to 5bn \square . A programme of such magnitude, needing to be driven at the European level, requires a robust and effective governance structure, able to mobilise and direct the necessary resources in an efficient and transparent way. The initiative seeks to make proposals to put in place the necessary governance structures to ensure that the SESAME (Single Sky implementation programme) can be properly funded and managed.

Legislative Proposal / Directive

It will include the most suitable combinations of measures at the most appropriate level of intervention. The Directive (framework) will address the various soil issues described in the Communication COM(2002) 179.

Proposition de règlement du Conseil portant sur le financement Communautaire pour la mise en oeuvre de la Politique Commune de la Pêche

DG FISH proposal for a Council Regulation on Community support measures for the implementation of the CFP will be the second fisheries-specific proposal in the context of the financial perspectives 2007-2013 following the adoption by the Commission in July 2004 of the proposal on the future European Fisheries Fund (See COM(2004)497). The proposal will cover the following domains: external policy actions, scientific advice, data collection, governance, contribution to Member States' control expenditure. The proposal will make a significant contribution to simplification, since it will re-group into one single instrument different legal instruments that now deal with some of the domains that will be covered (such as data collection, governance, contribution to Member States' control expenditure).

Council decision creating a European Law Enforcement Network in the fight against terrorism (LEN)	Pursuant to the Communication of the European Commission on Preparedness and the Consequence Management in the Fight against Terrorism the Commission proposes additional measures to strengthen the existing instruments on civil protection and consequence management. Terrorist attack responses require that the protection of public health and safety must also include traditional law enforcement besides the present civil protection systems. Law enforcement authorities in Member States should therefore have access to alerts produced by the different European alert systems managed by the Commission and should also be able to input relevant information thereto. The intention of the Commission is therefore to establish a law enforcement alert mechanism (the Law Enforcement Network, LEN) to be hosted by Europol and connected with other European rapid alert and rapid response systems managed by the Commission (notably ARGUS) whilst respecting national competences. Participation of Europol will take place within the limits of the Europol Convention.	Legislative Proposal / Decision

Proposition pour une nouvelle déclaration sur la politique de développement de la CE	Revised policy statement on the EC Development Policy setting objectives and key principles underlying the Community approach to development co-operation. The development policy statement is by definition an overarching document setting the general direction and objectives of EC development policy. It provides political guidance and defines some key principles underlying the Community's approach to development co-operation. Development cooperation contributes to different degrees to the various objectives of EU's external action: from human rights and democracy, to security and world peace, to sustainable development, to a sound system of global governance. In this framework development cooperation has a specific mission: eradicating poverty. Action Plans are the key instruments in the process of bringing our neighbours closer to the Union. Action Plans are tailored to reflect the specific state of relations with each country, its needs and capacities, as well as the interests of the EU and the partner country concerned. Their implementation will be monitored on a regular basis, and the Action Plans adapted accordingly.

Thematic Strategy on Prevention and Recycling of Waste

Proposal for a Council Regulation on Community financing for the implementation of the Common Fisheries Policy

Medical Devices directive

⁸ In February 2003, the Commission presented an ambitious Simplification Programme (COM(2003) 71) designed to simplify and up-date the content of existing EU legislation, and reduce its volume. This initiative resulted in a rolling programme for simplification which has been updated by the Commission on regular basis. Some of the initiatives listed in the present annex implement this simplification programme. It should be recalled also that the Council endorsed in November 2004 a list of priorities for simplification based on suggestions from Member States and invited the Commission to take any appropriate action. The Council list of proposals include the following items: Plant protection products; Annual accounts; Twelfth company law directive; Waste oils; Waste directive; Hazardous waste; Incineration of waste; Food labelling; International vs. EU motor vehicles rules; Construction products; Medical devices; Pressure vessels; Health and safety at work; Structural business statistics. The present work programme for 2005 already contains the Commission's response on some of Council's priorities and it should be noted that the pursuit of Council's simplification priorities do not always require legislative initiatives from the Commission.
