

COMMISSION OF THE EUROPEAN COMMUNITIES

Brussels, 16.11.2005
COM(2005) 575 final

Proposal for a

COUNCIL REGULATION

fixing for the 2006 fishing year the guide prices and Community producer prices for certain fishery products pursuant to Regulation (EC) No 104/2000

(presented by the Commission)

EXPLANATORY MEMORANDUM

1) CONTEXT OF THE PROPOSAL

- **Grounds for and objectives of the proposal**

The immediate objective of this proposal is to enable the Council to discharge its regulatory obligation to determine the guide prices and the Community producer price for the fishing year 2006. The wider objective of this proposal is thus to ensure the functioning of the price support and intervention mechanisms laid down in Council Regulation (EC) No 104/2000 during the fishing year in question.

- **General context**

Council Regulation (EC) No 104/2000 establishes a Common Organisation of the Markets in Fishery and Aquaculture Products, which pertains to the market- and trade-related aspects of the Common Fisheries Policy and thus also serves to implement the objectives enshrined in Article 33 of the Treaty. Specific price support and intervention mechanisms are one important component of the Common Market Organisation. In this context, Articles 18 and 26 of the said regulation obligates the Council to fix, by qualified majority, upon a proposal from the Commission and before the beginning of the year, both the guide prices for a specified number of fishery products of Community importance as well as the Community producer price for specified tuna products. The guide prices form the reference for the subsequent fixing, by way of Commission regulations, of the different technical parameters needed for the operation of the intervention mechanisms. The Community producer price is of relevance for the compensatory allowance for tuna delivered to the processing industry, which might be triggered when prices on the world markets fall below a specified trigger level.

Pursuant to Council Regulation (EC) No 104/2000, the relevant prices shall follow both the development of market prices during the three preceding fishing years as well as trends in production and demand. In line with that, the proposal is for increases between +0.5 and +1.5% for the majority of white fish species such as cod and haddock, for similar decreases for other white fish species such as redfish and saithe, for increases between +2 and +3% for herring, mackerel and anchovies and decreases between -1 and -3% for sardines, Spanish mackerel and albacore and for minor decreases for crustaceans. In the fields of frozen products, the proposal mainly reflects decreasing prices on the international markets except that increases between +0.5 and +2% can be proposed for swordfish, illex and prawns. Finally, the proposal is for maintaining the Community producer price for tuna products at its current level.

- **Existing provisions in the area of the proposal**

Council Regulation (EC) No 2132/2004 fixing for the 2005 fishing year the guide prices and Community producer prices for certain fishery products pursuant to Regulation (EC) No 104/2000.

- **Consistency with the other policies and objectives of the Union**

The functioning of the Common Market Organisation set up by Council Regulation (EC) No 104/2000 and the discharge of the regulatory obligations pertaining thereto also serve to implement the objectives enshrined in Article 33 of the Treaty.

2) CONSULTATION OF INTERESTED PARTIES AND IMPACT ASSESSMENT

- **Consultation of interested parties**

Consultation methods, main sectors targeted and general profile of respondents

The Management Committee for Fishery Products and the Advisory Committee on Fisheries and Aquaculture.

Summary of responses and how they have been taken into account

Both Committees expressed largely concurrent views with the Commission's market analysis.

- **Collection and use of expertise**

Scientific/expertise domains concerned

Markets in fishery products.

Methodology used

Open consultation.

Main organisations/experts consulted

Experts representing the Member States at the Management Committee for Fishery Products. Experts representing all major groups of EU stakeholders at the Advisory Committee for Fisheries and Aquaculture.

Summary of advice received and used

The existence of potentially serious risks with irreversible consequences has not been mentioned.

Advices are usually reflected in the proposal fixing the guide prices and Community producer prices.

Means used to make the expert advice publicly available

Minutes of the meetings of the Management Committee for Fishery Products and the Advisory Committee for Fisheries and Aquaculture.

- **Impact assessment**

Considering the specific nature of the proposal, namely the annual determination of relevant prices pursuant to the provisos of the Common Market Organisation in its present version, an impact assessment is not required.

The proposal is nevertheless based on a regular monitoring on interventions in the preceding fishing years and a thorough analysis of the market situation for each one of the relevant fishery products.

3) LEGAL ELEMENTS OF THE PROPOSAL

- **Summary of the proposed action**

Proposal for a Council Regulation fixing for the 2006 fishing year the guide prices and Community producer prices for certain fishery products.

- **Legal basis**

Articles 18(3) and 26(1) of Council Regulation (EC) No 104/2000.

- **Subsidiarity principle**

The proposal falls under the exclusive competence of the Community. The subsidiarity principle therefore does not apply.

- **Proportionality principle**

The proposal complies with the proportionality principle for the following reason(s):

The attainment of the Single Market in the field of fisheries products requires the fixation of guide prices. The Common Market Organisation provides for specific intervention mechanisms but forces none of the relevant actors (producer organisations) to have recourse to intervention.

The Common Market Organisation has considerably decreased both the attractiveness of intervention in the form of wasteful withdrawals as well as the corresponding financial means.

- **Choice of instruments**

Proposed instruments: regulation.

Other means would not be adequate for the following reason(s).

The guide prices and Community producer prices shall be fixed by the Council acting by qualified majority on a proposal from the Commission. A regulation is required to ensure direct applicability and uniformity throughout the Community.

4) BUDGETARY IMPLICATION

Since this is a price-fixing exercise, the impact on expenditure is indirect and will largely depend on developments in the market situation and on quantities of fishery products landed.

Proposal for a

COUNCIL REGULATION

fixing for the 2006 fishing year the guide prices and Community producer prices for certain fishery products pursuant to Regulation (EC) No 104/2000

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 104/2000 of 17 December 1999 on the common organisation of the markets in fishery and aquaculture products¹, and in particular Article 18(3) and Article 26(1) thereof,

Having regard to the proposal from the Commission,

Whereas:

- (1) Article 18(1) and Article 26(1) of Regulation (EC) No 104/2000 provide that a guide price and a Community producer price should be fixed for each fishing year in order to determine price levels for intervention on the market for certain fisheries products.
- (2) Article 18(1) of Regulation (EC) No 104/2000 requires the guide price to be fixed for each of the products and groups of products listed in Annexes I and II to that Regulation.
- (3) On the basis of the data currently available on the prices for the products concerned and the criteria referred to in Article 18(2) of Regulation (EC) No 104/2000, the guide prices should be increased, maintained or reduced for the 2006 fishing year depending on the species.
- (4) Article 26(1) of Regulation (EC) No 104/2000 requires the Community producer price to be fixed for the products listed in Annex III to that Regulation. It is appropriate to establish the Community producer price for one of those products and calculate the Community producer price for the others by means of the conversion factors established by Commission Regulation (EEC) No 3510/82².
- (5) On the basis of the criteria laid down in the first and second indent of Article 18(2) and in Article 26(1) of Regulation (EC) No 104/2000, the Community producer price for the 2006 fishing year should be adjusted,

¹ OJ L 17, 21.1.2000, p. 22. Regulation as last amended by the 2003 Act of Accession.

² OJ L 368, 28.12.1982, p. 27. Regulation as last amended by Regulation (EEC) No 3899/92 (OJ L 392, 31.12.1992, p. 24).

HAS ADOPTED THIS REGULATION:

Article 1

For the fishing year from 1 January to 31 December 2006, the guide prices as provided for in Article 18(1) of Regulation (EC) No 104/2000 shall be as set out in Annex I to this Regulation.

Article 2

For the fishing year from 1 January to 31 December 2006, the Community producer prices as provided for in Article 26(1) of Regulation (EC) No 104/2000 shall be as set out in Annex II to this Regulation.

Article 3

This Regulation shall enter into force on 1 January 2006.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels,

*For the Council
The President*

LEGISLATIVE FINANCIAL STATEMENT

1. NAME OF THE PROPOSAL :

Proposal for a Council Regulation fixing the guide prices for the 2006 fishing year for fishery products listed in Annexes I and II and the Community producer price for the fishery products listed in Annex III to Regulation (EC) No 104/2000 on the common organisation of the markets in fishery and aquaculture products

2. ABM / ABB FRAMEWORK

Policy Area(s) concerned and associated Activity/Activities:

Policy Area 11: Fisheries

Activity ABB 11 02: Fisheries markets

3. BUDGET LINES

3.1. Budget lines (operational lines and related technical and administrative assistance lines (ex- B.A lines)) including headings :

11 02 01: Interventions in fishery products (18.200.000 € in the PDB 2006):

Indicative breakdown:

- Operational programmes: 6.750.000 €³

- Community withdrawals: 3.000.000 €

- Autonomous withdrawals and carry-overs: 2.200.000 €

- Private storage aid: 350.000 €

- Compensatory allowance for tuna: 1.700.000 €

- Community carry-overs: 4.000.000 €

- Technical assistance: 200.000 €

3.2. Duration of the action and of the financial impact:

Measures restricted to the 2006 fishing year (16.10.2005 – 16.10.2006)

Since this is a price-fixing exercise, the impact on expenditure is indirect. The expenditure in question will largely depend on developments in the market situation and on quantities landed.

³ Aid not affected by the fixation of the guide prices

3.3. Budgetary characteristics (*add rows if necessary*) :

5. CHARACTERISTICS AND OBJECTIVES

5.1. Need to be met in the short or long term

The interventions concerning fishery products are carried out under the Common Fisheries Policy (CFP) in accordance with Article 34 of the Treaty. They aim at providing stability to the Community markets by preventing possible risks of crisis. In this context, appropriate price and supply policies are of utmost importance. The interest of the production and marketing chain and the need to strengthen the competitiveness of the sector in a context of globalisation must be taken into account. The objective of market stability together with the support to producers' income can essentially be achieved through the different mechanisms of intervention on the markets, e.g. withdrawals, carry-over, compensatory allowance. The interest of the consumers must also be considered.

5.2. Value-added of Community involvement and coherence of the proposal with other financial instruments and possible synergy

The question of subsidiarity is not relevant to this proposal since Community intervention falls within the exclusive competence of the Community. The added value of Community intervention is directly related to the underlying arguments of the existence of a common organisation of the markets in fishery and aquaculture products.

¹¹ Additional columns should be added if necessary i.e. if the duration of the action exceeds 6 years

5.3. Objectives, expected results and related indicators of the proposal in the context of the ABM framework

This proposal aims at the fixation of guide prices and Community producer price by the Council in accordance with Articles 18 and 26 of Council Regulation (EC) No 104/2000. The guide prices provide the basis for the subsequent fixing, by way of Commission Regulations, of the different parameters needed for the operation of the intervention mechanisms for the fishing year concerned. Similarly, the Community producer price forms the basis of the granting of the compensatory allowance for tuna which might be triggered depending on the development of prices on the world markets.

In order to ensure the proper functioning of the common organisation of the markets in 2006, all regulations should be adopted before the end of 2005.

5.4. Method of Implementation (indicative)

Show below the method(s)¹² chosen for the implementation of the action.

Centralised Management

Directly by the Commission

Indirectly by delegation to:

Executive Agencies

Bodies set up by the Communities as referred to in art. 185 of the Financial Regulation

National public-sector bodies/bodies with public-service mission

Shared or decentralised management

With Member states

With Third countries

Joint management with international organisations (please specify)

Relevant comments:

Most measures financed under the budget heading 11.02.01 are implemented in shared management with the EU Member States. However, the management of data notified by the Member States in accordance with Commission Regulation (EC) No 80/2001 is the sole responsibility of the Commission.

¹² If more than one method is indicated please provide additional details in the "Relevant comments" section of this point

MONITORING AND EVALUATION

5.5. Monitoring system

The monitoring of the envisaged measures is ensured through the collection and the analysis of data notified by the Member States by way of the FIDES system in accordance with Commission Regulation (EC) No 80/2001.

5.6. Evaluation

5.6.1. Ex-ante evaluation

Considering the specific nature of the proposal, namely the annual fixation of certain Community prices within the framework of the current common organisation of the markets for fishery and aquaculture products, an ex-ante evaluation as defined in Article 21 (1) of Commission Regulation (EC, Euratom) No 2342/2002 laying down detailed rules for the implementation of the Financial Regulation is not required. Nevertheless, the Commission proposal is based on regular monitoring of interventions in previous fishing years and thorough analysis of the market situation for the relevant products.

5.6.2. Measures taken following an intermediate/ex-post evaluation (lessons learned from similar experiences in the past)

Not relevant since the intervention measures for fishery products have not yet been subject to intermediary or ex-post evaluation.

5.6.3. Terms and frequency of future evaluation

While a factual implementation report is due to be submitted pursuant to Article 41 of Council Regulation (EC) No 104/2000 by 31 December 2005, an overall evaluation of the different mechanisms foreseen in the Common Market Organisation in its current version will be conducted in accordance with the Financial Regulation in 2006.

6. ANTI-FRAUD MEASURES

The anti-fraud measures are in conformity with the provisions laid down in Regulation (CE) No 104/2000 and, in particular, with the provisions laid down in Regulation (EEC) No 595/91 concerning irregularities and the recovery of sums wrongly paid.
