DOCUMENTO DE TRABALHO DA COMISSÃO

Terceiro relatório intercalar sobre a estratégia de simplificação do quadro regulador

1. INTRODUÇÃO

No último meio século, a UE desenvolveu um vasto acervo legislativo (o «acervo») em resposta às necessidades dos cidadãos, das empresas e das administrações públicas. Conferiu novos direitos aos cidadãos, abriu mercados para as empresas, reforçou os interesses públicos e, deste modo, contribuiu para um maior crescimento e bem-estar. Contudo, a legislação também pode implicar custos. O desafio que se coloca é alcançar um equilíbrio que seja sustentável a longo prazo e perante um cenário em permanente mudança.

Assim, no início do seu mandato actual, a Comissão assumiu o compromisso firme de rever o acervo, a fim de garantir a pertinência, a eficácia e a proporcionalidade da legislação em vigor¹. Juntamente com outro programa paralelo de redução dos encargos administrativos, a estratégia de simplificação do quadro regulador² estabeleceu um programa ambicioso para actualizar, modernizar e simplificar o quadro normativo da UE. Quatro anos mais tarde, é possível apontar alguns resultados convincentes. Inicialmente composto por acções dispersas, o processo de simplificação desenvolveu-se e tornou-se parte integrante de qualquer revisão das políticas em vigor, em qualquer domínio político. A análise do acervo, cujos resultados se publica em anexo ao presente relatório, ilustra claramente esse desenvolvimento.

Este terceiro relatório intercalar sobre a estratégia de simplificação do quadro regulador complementa a terceira análise estratégica do programa «Legislar Melhor» na União Europeia³ e o documento de trabalho da Comissão sobre a redução dos encargos administrativos. Analisa as numerosas acções desenvolvidas desde o lançamento da estratégia, realça os casos de sucesso e identifica as áreas de futura simplificação.

2. PONTO DA SITUAÇÃO

Graças a uma grande variedade de mecanismos de consulta, a Comissão pode recolher e analisar permanentemente as sugestões dos cidadãos, das partes interessadas e dos Estados-Membros, com vista a tornar a legislação comunitária mais clara, simples e eficaz.

Com base nesta informação, a Comissão elaborou um «Programa Continuado de Simplificação», que propôs inicialmente 100 iniciativas de simplificação para o período 2005-2008. O programa utiliza todos os instrumentos identificados na estratégia de simplificação. Tal inclui algumas técnicas legislativas, como a revogação, a codificação e a reformulação, mas também outros meios para modernizar o acervo, nomeadamente uma maior utilização das soluções oferecidas pelas tecnologias da informação.

Desde 2007 que o programa de simplificação se encontra integrado no programa legislativo e de trabalho da Comissão. Tem sido alargado todos os anos a novas iniciativas e cobre

¹ «Legislar melhor para o crescimento e o emprego na União Europeia», COM(2005) 97.

² «Aplicar o Programa Comunitário de Lisboa - Estratégia de simplificação do quadro regulador», COM(2005) 535.

actualmente todas as áreas políticas. Inclui presentemente 185 iniciativas (das quais cerca de 132 iniciativas já adoptadas pela Comissão), com uma taxa de concretização de cerca de 80% em 2007 e 2008. Isto mostra a determinação da Comissão em superar todos os obstáculos e proporcionar a tempo os benefícios deste exercício prioritário. Mais de metade das iniciativas adoptadas já completaram o seu ciclo legislativo, tendo-se tornado lei na sequência da sua publicação no Jornal Oficial.

A Comissão já propôs cerca de 800 actos jurídicos para alteração ou revogação no âmbito do programa de simplificação de 2005-2009. Uma vez adoptadas estas propostas, o acervo será reduzido em cerca de 600 actos jurídicos ou aproximadamente 6 500 páginas do Jornal Oficial. Mas a simplificação é mais abrangente. Tornou-se parte integrante de qualquer revisão das políticas em vigor. Paralelamente, a Comissão tem avançado no processo de codificação do acervo, de forma a torná-lo mais compacto e legível, sem no entanto comprometer a segurança jurídica. A Comissão já terminou a codificação de 229 actos. Deste total, 142 actos foram já adoptados pelo co-legislador, tendo substituído 729 actos anteriores, o que corresponde a cerca de 1 300 páginas do Jornal Oficial.

Globalmente, as medidas adoptadas pela Comissão desde Outubro de 2005 resultarão numa redução do acervo em quase 10%, ou seja, em cerca de 1 300 actos jurídicos e 7 800 páginas do Jornal Oficial.

3. RESULTADOS

Até à data, cerca de 75 das 132 iniciativas de simplificação supracitadas concluíram o seu processo legislativo, incluindo 36 «actos autónomos» da Comissão (anexo 4) e 39 actos adoptados pelo legislador (anexo 5).

Os benefícios destas e de outras medidas de simplificação são sentidos de forma cada vez mais real pelas empresas, os cidadãos e as administrações públicas. As secções seguintes identificam alguns exemplos desses benefícios, referindo diferentes abordagens complementares em matéria de simplificação.

3.1. Um quadro normativo mais simples

A legislação ganha forma ao longo do tempo, à medida que novos elementos vão sendo acrescentados à base jurídica. Para assegurar uma articulação coerente de todos esses elementos, a Comissão procede regularmente a uma revisão da legislação em vigor, na busca de soluções legislativas mais eficientes e eficazes.

- O novo **regulamento geral de isenção por categoria** permite aos Estados-Membros aprovar diversas medidas de apoio, sem notificação prévia à Comissão, o que permite um tratamento mais célere dos casos. Este regulamento, destinado a promover a criação de emprego e a competitividade, abrange a ajuda às PME, à investigação, à inovação, ao desenvolvimento regional, à formação, ao emprego e ao capital de risco. As empresas podem, por exemplo, beneficiar de apoio para a investigação fundamental (até 100%), a investigação industrial (até 50%-70%) e o desenvolvimento experimental (25%-45%). Este regulamento também harmoniza e consolida cinco actos jurídicos num único texto.

- As novas regras sobre o controlo dos **pagamentos directos aos agricultores** fornecem um quadro mais simples e eficaz para seleccionar as amostras de controlo, definir o calendário dos controlos e efectuar os controlos no terreno⁴.
- O novo regulamento sobre as **estatísticas estruturais das empresas** reduz o número de informações exigidas e adopta um sistema de recolha de dados anual, que substitui o sistema plurianual. Simultaneamente, foi introduzida uma nova classificação estatística das actividades económicas na Comunidade Europeia. Espera-se que estas medidas resultem numa redução clara de 17,5% de dados a comunicar.
- A legislação-quadro relativa aos domínios abrangidos pela **Estratégia Temática sobre a Poluição Atmosférica e a Estratégia Temática de Prevenção e Reciclagem de Resíduos** foi racionalizada, clarificada e simplificada. A nova directiva sobre a qualidade do ar ambiente funde 5 directivas separadas e a nova **directiva-quadro relativa aos resíduos** integra as directivas anteriormente dispersas sobre os resíduos perigosos e os óleos usados.
- A nova **directiva-quadro relativa à água** estabelece um quadro político único e coerente, para planear, executar e notificar as medidas de protecção e regeneração da água na Europa, reduzindo de 18 para 10 o número de directivas aplicáveis neste domínio.
- Uma nova directiva sobre a **saúde e a segurança no trabalho** simplifica e racionaliza os relatórios dos Estados-Membros sobre a aplicação prática da directiva-quadro e das suas directivas específicas. De futuro, os Estados-Membros apenas serão instados a apresentar um relatório de cinco em cinco anos.

3.2. Métodos de trabalho mais adequados e procedimentos mais simples

A Comissão tem promovido activamente uma utilização mais ampla das tecnologias de informação, como forma de melhorar os métodos de trabalho.

- O novo **vocabulário comum para os contratos públicos** (com uma descrição dos produtos uniforme para toda a UE) facilita a identificação das oportunidades oferecidas em termos de contratos públicos, em qualquer lugar da UE, independentemente da língua do país que lança o concurso público. Os modelos utilizados pelas autoridades públicas para publicar os anúncios no Jornal Oficial da UE foram uniformizados e informatizados, reduzindo o tempo de publicação de 12 para 5 dias. Ambas as medidas aumentarão a transparência dos contratos públicos. Todos os dias, surgem novas oportunidades de negócio no sector público (com um valor superior a mil milhões de euros) no sítio Web «Tenders Electronic Daily» (TED) da UE.
- A simplificação do **Código Aduaneiro Comunitário** inclui a modernização da legislação aduaneira da UE e a criação de um «ambiente sem papel» para as autoridades aduaneiras e os operadores. O registo electrónico das declarações aduaneiras e outros documentos complementares tornar-se-á a regra. Os operadores autorizados poderão declarar electronicamente as suas mercadorias e pagar os seus direitos aduaneiros no Estado-Membro onde estão estabelecidos, independentemente do local de entrada ou saída das mercadorias na UE ou do local em que virão a ser consumidas. Logo que o sistema integrado esteja totalmente operacional, deverá ser possível obter uma poupança para os operadores no valor de cerca de 2,5 mil milhões de euros por ano.

⁴ Na Primavera de 2009, a Comissão apresentará um relatório intercalar com informações adicionais sobre as iniciativas de simplificação no sector agrícola.

- A alteração do artigo 55.º do **regulamento geral sobre a política de coesão** simplificou as regras aplicáveis aos pequenos projectos geradores de receita. A disposição relativa à proporcionalidade dos controlos efectuados às pequenas operações (com um custo total inferior a 200 000 euros) foi substituída por uma isenção à aplicação deste artigo, no caso de operações co-financiadas pelo Fundo Social Europeu e pelo Fundo Europeu de Desenvolvimento Regional ou pelo Fundo de Coesão, quando o custo total não exceda um milhão de euros.

3.3. Um funcionamento adequado do mercado interno

O mercado interno foi e continua a ser determinante para o processo de simplificação na UE, uma vez que permite a concentração de um vasto conjunto de medidas legislativas nacionais num único acto legislativo.

- As **regras comuns de exploração dos serviços de transporte aéreo** na Comunidade constituem uma revisão do chamado «terceiro pacote» da liberalização do transporte aéreo. Nessa medida, deverão contribuir para uma maior escolha dos consumidores, a redução das tarifas e uma maior concorrência. A aplicação de obrigações mais rigorosas e uma melhor supervisão das novas companhias aéreas ajudarão igualmente a reduzir o risco de falência e as suas consequências negativas para os passageiros. Calcula-se que o custo médio anual das falências para os passageiros, incluindo os custos de repatriamento e a perda das reservas já efectuadas, ronde os 15,6 milhões de euros. Uma redução de 50% no número de falências entre as transportadoras aéreas, que possuem até dois anos de actividade, pouparia aos consumidores em média 2,4 milhões de euros todos os anos.
- A directiva revista sobre a **interoperabilidade do sistema ferroviário** na Comunidade moderniza as regras aplicáveis em matéria de certificação dos veículos. As economias obtidas pelas empresas e os fabricantes ferroviários a nível dos custos de certificação deverão ascender a 200-280 milhões de euros, nos próximos 15 anos.
- O novo regulamento sobre **os limites máximos aplicáveis aos resíduos (LMR)** de pesticidas presentes nos alimentos e rações substitui cerca de 500 000 LMR nacionais por 100 000 LMR comunitários, o que representa uma ajuda para os operadores, já que deixam de ter de apresentar pedidos múltiplos nos diferentes Estados-Membros.
- O **pacote IVA** introduz novas regras para os serviços, segundo as quais os serviços de empresa para empresa passarão a ser tributados no Estado-Membro do cliente. Esta medida pretende incentivar as empresas a prestar os seus serviços em toda a Comunidade. O pacote prevê igualmente a criação de um balcão único para os serviços de telecomunicação, radiodifusão e televisão, e comércio electrónico destinados às empresas estabelecidas na UE, bem como a adopção de um novo procedimento para reclamar o reembolso do IVA, para as empresas não estabelecidas no Estado-Membro em que o IVA é cobrado.
- A nível do **direito aplicável às sociedades comerciais**, a directiva rapidamente adoptada em 2007 sobre as fusões e cisões veio simplificar as fusões transfronteiriças, o que correspondeu a uma poupança para as sociedades de responsabilidade limitada de 17 milhões de euros.

4. OUTROS RESULTADOS ESPERADOS: PROPOSTAS PENDENTES E ASPECTOS INTERINSTITUCIONAIS

O número de medidas de simplificação adoptadas pelo Conselho e o Parlamento Europeu subiu de 16 em Janeiro de 2008 para 39 em Janeiro de 2009. Contudo, 50 propostas de simplificação encontram-se ainda pendentes no Conselho e no Parlamento Europeu (anexo 3). É importante que as instituições avancem na análise destas propostas, para que seja possível proporcionar ainda mais benefícios às empresas, aos cidadãos e às administrações públicas.

- Através da nova directiva da UE sobre os fundos de investimento, conhecidos sob a sigla inglesa «UCITS» (*Undertakings for Collective Investment in Transferable Securities*) será possível garantir que os consumidores acedam, a um custo razoável, a uma gestão profissional dos seus investimentos, proporcionar aos gestores do UCITS o desenvolvimento das suas actividades transfronteiriças, a consolidação das suas poupanças e a produção de economias de escala, assegurar que os investidores beneficiem de uma maior escolha a nível dos fundos de investimento a um custo **menor** e proteger os investidores retalhistas, assegurando uma informação clara, compreensível e pertinente, caso decidam investir nos UCITS. Esta directiva substituirá 10 directivas em vigor por um único texto.
- Foram feitas diversas propostas importantes no domínio do **direito das sociedades comerciais**, com vista a simplificar o exercício da sua actividade na UE e realizar economias significativas. Entre estas medidas inclui-se a proposta de regulamento do Conselho sobre a adopção de um estatuto europeu para as empresas privadas. Esta proposta tem como objectivo reduzir as obrigações das empresas em matéria de tradução e publicação, o que poderá representar uma poupança de 600 milhões de euros. Existe outra proposta sobre as obrigações de notificação e documentação no caso de **fusão ou cisão** de uma empresa.
- O novo **regulamento no domínio dos cosméticos** substituirá mais de 3 500 páginas de texto jurídico. Embora mantenha o mesmo nível elevado de segurança, a proposta permite reduzir os custos das empresas em pelo menos 50%. Este regulamento clarifica os procedimentos de controlo da segurança dos produtos e simplifica as regras de notificação para os novos cosméticos. Isto terá um impacto significativo, uma vez que o mercado europeu dos produtos cosméticos representa aproximadamente 65 mil milhões de euros e gera, directa e indirectamente, mais de 350 000 empregos.
- A revisão dos **regulamentos aplicáveis às «alterações»** dos produtos farmacêuticos permitirá harmonizar os critérios de avaliação dessas alterações e os prazos de análise e autorização. Os dados disponíveis mostram que uma empresa típica de produtos genéricos tem de gerir mais de 1 500 alterações de medicamentos todos os anos e uma empresa farmacêutica de maior dimensão tem de gerir mais de 12 000 alterações. A proposta apresentada reforçará a competitividade das empresas, reduzindo os problemas logísticos, nomeadamente a necessidade de armazenar diferentes versões do mesmo produto para os diferentes mercados nacionais. O quadro simplificado ajudará as empresas, em especial as PME, a expandir as suas actividades para outros mercados da UE.
- O novo **pacote sobre a segurança automóvel** simplificará o actual quadro normativo, revogando 150 directivas relacionadas com a homologação dos veículos, e introduzirá a obrigação de equipar adequadamente os veículos de passageiros com dispositivos de segurança e sistemas de controlo da pressão dos pneus, o que deverá aumentar radicalmente a segurança dos veículos e reduzir as emissões de CO₂.

- A directiva relativa aos **direitos dos consumidores** contribuirá para um melhor funcionamento do mercado interno a nível das relações entre empresas e consumidores, uma vez que tenderá a reduzir a relutância das empresas em alargar a sua actividade a outros países. Ao revogar 4 directivas, esta medida resultará numa menor fragmentação e maior simplificação do quadro normativo vigente. A directiva melhorará o quadro normativo e, através da adopção de um conjunto uniforme de cláusulas contratuais para os contratos relacionados com o consumo, reduzirá substancialmente os custos associados ao cumprimento da legislação.
- O pacote proposto no domínio da **eficiência energética** visa poupar energia em domínios essenciais, nomeadamente reforçando a legislação aplicável em matéria de eficiência energética aos edifícios e produtos consumidores de energia. As poupanças de energia anuais médias podem facilmente representar mais de 1 000 euros por agregado familiar.
- Na área das **estatísticas sobre o comércio intracomunitário de mercadorias (Intrastat)**, os limites de declaração fixados pela legislação europeia permitirão isentar cerca de 370 000 empresas da obrigação de declaração. Isto representa uma redução de aproximadamente 52% junto da população considerada, num período de 6 anos (de 720 000 em 2004 para 350 000 em 2010).
- A proposta relativa à **colocação no mercado e à utilização de alimentos para animais** tenderá a promover a inovação e a competitividade das empresas neste sector. O novo regulamento revogará 7 directivas, o que corresponde a uma redução de mais de 100 páginas de texto jurídico para 30. O procedimento de autorização prévia exigido para certos produtos (como as bioproteínas) é muito dispendioso e também será abolido (uma vez que não é proporcional aos riscos). Para compreender o alcance das medidas em termos de redução de custos, importa salientar que os custos totais suportados pela indústria para a autorização de uma nova bioproteína podem ascender a 481 000 euros.
- A proposta para reformular a directiva relativa à **prevenção e o controlo integrados da poluição (IPPC)** permitirá fundir 7 directivas relacionadas com a emissão de gases industriais num único instrumento legislativo. Além disso, suprimirá as partes obsoletas das directivas em vigor, simplificará as obrigações de licenciamento, reduzirá o número de relatórios exigidos aos operadores e racionalizará o processo de notificação pelos Estados-Membros. A proposta deverá resultar numa poupança significativa em termos de custos administrativos, ou seja, menos 32 milhões de euros por ano, e numa redução ainda mais significativa dos encargos administrativos a nível dos Estados-Membros (nacional ou regional), na ordem dos 150-300 milhões de euros por ano.
- O **pacote sobre os telemóveis** visa abrir as bandas de frequência de 900 e de 1800 MHz (frequências utilizadas pelos telemóveis) a utilizações mais inovadoras. Este pacote eliminará as disposições restritivas que não acompanham o progresso tecnológico e impedem uma utilização generalizada dos serviços móveis de banda larga.
- O «exame de saúde» da política agrícola comum levará à simplificação do **sistema de pagamento único**. Em particular, isto significa o abandono de dois sistemas paralelos de apoio associado e apoio dissociado, a favor das ajudas dissociadas. A dissociação das ajudas deverá representar uma redução de 0,63 milhões de euros em termos de encargos administrativos só para os agricultores do Reino Unido. A simplificação elimina igualmente a obrigação de 10% em matéria de retirada de terras. Os agricultores podem utilizar toda a sua terra, deixando de se ter de submeter aos procedimentos relativos às ajudas associadas e os Estados-Membros também deixam de ter necessidade de controlar

esta medida. Em termos de benefícios, esta medida deverá representar uma redução de 4,4 milhões de euros em custos administrativos só para os agricultores de Inglaterra⁵.

- Todas as disposições relativas ao controlo das **actividades da pesca** serão integradas num único quadro normativo, concedendo-se uma ênfase especial à necessidade de alargar a utilização das tecnologias modernas e as ligações às bases de dados.
- A reforma do **pacote sobre as telecomunicações** traduzir-se-á numa clara redução dos custos administrativos para a indústria, ao diminuir o número de mercados sujeitos a uma regulamentação *ex ante*, simplificar os procedimentos de análise do mercado, criar um organismo europeu de regulação e reformar a gestão das bandas de frequência. Os serviços e infra-estruturas das comunicações electrónicas constituem os alicerces de toda a economia, pelo que a introdução de melhorias neste sector se traduzirá em benefícios para o resto da economia da UE.
- A proposta que visa melhorar a execução dos **programas de política regional** pretende facilitar a gestão financeira e acelerar a disponibilização dos recursos financeiros comunitários necessários, em benefício tanto dos programas operacionais como dos projectos. Em particular, a Comissão propôs que as despesas gerais dos projectos sejam reembolsadas com base num montante fixo e que os adiantamentos pagos aos beneficiários sob a forma de auxílios estatais possam ser reembolsados integralmente pela UE às autoridades públicas. Estas alterações deverão ajudar em especial as PME.
- Uma coordenação mais moderna dos **regimes nacionais de segurança social** facilitará a livre circulação dos trabalhadores e das suas famílias na UE. Beneficiará, igualmente, os 173 milhões de titulares do Cartão Europeu de Seguro de Doença, que passam a ter acesso aos cuidados de saúde noutra Estado-Membro durante uma estada temporária, nas mesmas condições que os cidadãos nacionais desse Estado-Membro.

O número das propostas pendentes no Conselho e no Parlamento Europeu está a aumentar. É, pois, essencial adoptar medidas no sentido de acelerar a sua adopção e, se possível, alcançar um consenso na fase de primeira leitura do processo de co-decisão. A Comissão acolhe positivamente a intenção do Parlamento Europeu de criar estruturas específicas para incentivar a simplificação, como indicado recentemente no relatório adoptado por Medina Ortega.

O Parlamento Europeu confirmou o seu desejo de que a Comissão adopte a reformulação como técnica legislativa habitual, mesmo quando seja proposta uma revisão do texto considerado. Todavia, é importante que o Conselho e o Parlamento Europeu sigam os princípios e o espírito do exercício de simplificação, mantendo as propostas adoptadas tão simples quanto possível e acelerando o processo de decisão, para que os seus benefícios possam ser gozados pelas empresas, os cidadãos e as administrações públicas.

5. CODIFICAÇÃO

Além de simplificar a legislação, a Comissão procura codificá-la, condensando o acto que constitui a base jurídica e todas as suas alterações posteriores num único texto. A codificação clarifica os actos jurídicos e reduz o volume do acervo comunitário.

⁵ Brochura do Governo britânico: «25 ideas for simplifying EU law», 2008.

Até à data, a Comissão já concluiu 229 actos codificados. Destes, 142 actos foram já codificados, adoptados e publicados no Jornal Oficial (102 actos da Comissão e 40 actos do Parlamento Europeu e do Conselho). Estes 142 actos codificados substituem 729 actos precedentes, o que corresponde a cerca de 1 300 páginas do Jornal Oficial.

Presentemente, 87 actos estão ainda pendentes no Conselho e no Parlamento Europeu.

A maioria das traduções acumuladas para as novas línguas, de legislação objecto de codificação, foi eliminada. As propostas que restam do programa de codificação, que foi revisto em 2006, serão apresentadas em 2009, juntamente com um relatório pormenorizado sobre os resultados do programa no seu conjunto. Em 2009, foram seleccionados 21 novos diplomas legislativos para codificação (anexo 6).

6. PRÓXIMOS PASSOS

6.1. Iniciativas previstas em 2009

A Comissão incluiu 33 iniciativas de simplificação no seu programa legislativo e de trabalho para 2009⁶ (anexo 7).

Por exemplo:

- A revisão da Directiva 2000/35/CE, que estabelece medidas de **luta contra os atrasos de pagamento nas transacções comerciais**, desencorajará as autoridades públicas e as empresas no que se refere a eventuais atrasos no pagamento aos fornecedores e incentivará os credores a exigir uma compensação pelos danos causados por esses atrasos. Esta medida faz parte da iniciativa «Small Business Act for Europe» e do Plano de Relançamento da Economia Europeia.
- A simplificação da legislação comunitária sobre os **tractores agrícolas e florestais** mediante a substituição de 24 directivas por um único regulamento.
- A alteração e modernização do Regulamento (CE) n.º 44/2001, com vista a adaptar o regulamento aos novos instrumentos internacionais e assegurar o **reconhecimento e a aplicação das decisões judiciais em matéria civil e comercial**, eliminando os passos intermédios exigidos aos cidadãos (*exequatur*) para obter o reconhecimento e a execução dessas decisões no estrangeiro.
- A reforma da **organização comum dos mercados do sector da pesca e aquicultura**, dando uma importância especial às actividades piscatórias e comerciais sustentáveis. Isto inclui a adaptação à evolução dos mercados, uma maior coerência com outros elementos da política comum das pescas e outras políticas comunitárias conexas (comércio, saúde e protecção do consumidor, ambiente, etc.) e a promoção de uma utilização alargada dos meios electrónicos.

Além disso, a Comissão tem prosseguido o seu trabalho com os Estados-Membros no sentido de identificar novos métodos de simplificação da legislação sobre a política de coesão e reduzir os encargos administrativos para os beneficiários.

⁶ «Programa legislativo e de trabalho da Comissão para 2009: Agir agora para uma Europa melhor», COM (2008) 712.

6.2. Análise do acervo e das futuras actividades de simplificação

Como anunciado na segunda análise estratégica do programa «Legislar melhor» na União Europeia, a Comissão efectuou um exame geral e aprofundado de todo o acervo.

Numa primeira fase, procedeu a um exame sistemático do acervo para identificar os instrumentos reguladores mais importantes. Este exercício resultou na selecção de 3 600 actos jurídicos. Estes actos foram depois submetidos a uma análise mais pormenorizada, para avaliar a sua actualização e a possibilidade de simplificação.

Uma lista completa dos resultados, por domínio político, será publicada no sítio Web do portal Europa dedicado ao processo de simplificação⁷, de forma a apresentar claramente os esforços de simplificação empreendidos até à data pela Comissão.

Os resultados da análise efectuada mostram:

- se a simplificação já teve lugar;
- se a simplificação está prevista para 2009;
- qual a possibilidade de simplificação no próximo mandato da Comissão; ou
- se a simplificação não está prevista, ou seja, se o texto é claro, está actualizado e é proporcional aos objectivos políticos. Em certos casos, as alterações à legislação poderiam produzir benefícios, mas também aumentariam os custos e o peso para as empresas e as administrações públicas, nomeadamente em termos de transposição.

A situação actual sugere um progresso significativo. Cerca de dois terços dos actos, abrangendo essencialmente a agricultura, o mercado interno, os transportes, as empresas, a saúde e o ambiente, foram simplificados ao abrigo do programa continuado de simplificação, do programa de codificação ou de outras iniciativas da Comissão, ou estão incluídos nas propostas de simplificação para 2009 (anexo 2).

O esforço realizado também serve de preparação para novas actividades de simplificação. Ao analisar os actos vigentes no seu contexto sectorial, a Comissão está a avançar em direcção a uma abordagem integrada em matéria de simplificação. Mais 81 acções (anexo 1) poderão vir a ser consideradas em iniciativas de simplificação futuras.

Nomeadamente:

- O alinhamento de 15 directivas de harmonização técnica com a decisão que estabelece um **quadro comum para a comercialização dos produtos**. Este último introduz um formato uniforme para os elementos geralmente utilizados na legislação de harmonização técnica, a considerar na legislação futura. A justificação é assegurar uma maior coerência do contexto legal e estabelecer uma «cultura» legislativa comum. Esta medida melhorará a qualidade da nossa legislação e reduzirá os encargos administrativos.
- A simplificação das regras de execução da **política agrícola comum**, no seguimento da adopção do «exame de saúde», no que se refere ao mecanismo de gestão das intervenções.

⁷ http://ec.europa.eu/governance/better_regulation/simplification_en.htm#_acquis

- A revisão da legislação sobre as **ameaças para a saúde** (doenças transmissíveis e ameaças químicas, biológicas e radionucleares), e **a saúde, o bem-estar e os alimentos dos animais**.
- Uma maior redução dos encargos na **área estatística** através do programa **MEETS** (*Modernisation of European Enterprise and Trade Statistics*). Esta medida melhorará os métodos de recolha de dados nos Estados-Membros através de uma maior utilização de dados administrativos e contabilísticos, uma recolha mais eficiente e uma utilização mais eficaz e intensiva das fontes disponíveis.

7. CONCLUSÕES

Desde o lançamento da estratégia de simplificação do quadro regulador, em 2005, que a questão da simplificação tem sido integrada nos trabalhos da Comissão. Através de um conjunto de actividades coordenadas, a Comissão tem vindo a desenvolver um quadro de acção política e prática, com benefícios reais para os cidadãos, as empresas e as administrações públicas. Num esforço para tornar a legislação mais clara e compreensível, cerca de 1 300 actos, representando cerca de 10% do acervo, foram propostos tendo em vista a sua eliminação da legislação comunitária.

A simplificação é um processo contínuo. A avaliação imediata fornecida pela análise do acervo prepara o terreno para o trabalho futuro. Um programa que começou com um pequeno número de iniciativas dispersas abrange actualmente todas as áreas políticas e está a adoptar uma abordagem cada vez mais sectorial. Isto implica examinar todo o acervo legislativo que afecta uma determinada área política, com vista a identificar as eventuais sobreposições, as lacunas, as incoerências e uma carga reguladora excessiva. A finalidade é avaliar a eficácia global do quadro regulador por sector.

Ao avançar no seu esforço de simplificação, a Comissão exigirá o apoio político das outras instituições da UE e dos Estados-Membros. O Parlamento Europeu e o Conselho são convidados a adoptar o mais rapidamente possível as propostas pendentes e a respeitar o princípio da simplificação ao elaborar nova legislação. Os Estados-Membros são incentivados a avançar com os seus próprios programas de simplificação e a aplicar a legislação comunitária num espírito de simplificação, sem adoptarem medidas desnecessárias.

Todos os dias, os cidadãos e as empresas europeias são confrontados com uma combinação de legislação regional, nacional e comunitária. Só um esforço coordenado de simplificação a todos estes níveis pode assegurar que este quadro normativo sirva os seus objectivos da melhor forma possível, ou seja, protegendo o crescimento e o bem-estar, mas reduzindo simultaneamente, ao mínimo necessário, os encargos resultantes da sua aplicação.

Annex 7: Simplification Rolling programme 2009

(Extract from the Commission Legislative and Work Programme 2009 - COM (2008)712)

	Title of action	Type of simplification action	Description of scope and objectives
1.	Commission Regulation on physical checks on exported agricultural products subject to refunds	Revision	Following the 2007 Communication on the "Health Check" in the Common Agricultural Policy (CAP), the legislative proposals will provide options aiming at making the Single Payment Scheme more effective, adapting the market support instruments and addressing the new challenges facing the sector. The "Health Check" is not a fundamental reform, rather it essentially aims to ensure that the CAP functions effectively and to simplify it where possible. This initiative arises from the review clauses regarding the Single Payment Scheme and certain agricultural markets that were included in 2003/04 CAP reforms.
2.	Commission Communication establishing formal recognition that a certain number of acts of Community law in the field of agriculture have become obsolete	Repeal	The objective of the proposal is to declare obsolete Commission legal acts that are of no practical relevance or broader interest, thus contributing to the objectives of updating and simplifying the Community acquis. Their removal will clarify the "essential" acquis of acts that are active and generally applicable.
3.	Commission Regulation on intervention on the market in skimmed milk powder	Revision	The purpose of the initiative is to amend the implementing rules due to the abolition of private storage aid for skimmed milk powder (SMP) as well as to implement newly introduced rules on the standardisation of protein content in SMP. Technical clarifications and simplification (e.g. concerning the security provisions) are being introduced.

4.	Revision of Commission Regulation 1973/2004 implementing the Health Check as regards the support schemes provided for in Titles IV ('other aid schemes') and IVa of that Regulation	Recast	Council Regulation 1782/2003 is scheduled for replacement by a new Direct Payments Regulation in 2008. The objective of the recast is to do away with obsolete provisions linked to aid schemes to be abolished or decoupled pending the outcome of the Health Check.
5.	Revision of Commission Regulation 796/2004 implementing the Health Check as regards cross-compliance, modulation and the integrated administration and control system (IACS)	Recast	Council Regulation 1782/2003 is scheduled for replacement by a new Direct Payments Regulation in 2008. The objective of the recast is to establish common rules for direct support schemes under the common agricultural policy and certain support schemes for farmers.
6.	Revision of Commission Regulation 795/2004 implementing the Health Check as regards the single payment scheme	Recast	Council Regulation 1782/2003 is scheduled for replacement by a new Direct Payments Regulation in 2008. The objective of the recast of Regulation 795/2004 is <i>to do away with obsolete provisions linked to the setting up of the single payment scheme introduced by the 2003 CAP reform or temporary rules linked to subsequent integration of sectors into the single payment scheme.</i>
7.	Commission Regulation establishing common rules concerning buying-in under public intervention	Recast/Revision	The initiative is a consequence of the Health Check proposals. The project concerns simplification and harmonisation in a horizontal legal act of the detailed rules for intervention, in particular for cereals, dairy products and meat.
8.	Council Regulation repealing a number of obsolete agricultural acts	Repeal	The objective of the Regulation is to repeal Council legal acts that are obsolete and of no practical relevance or broader interest, thus contributing to the objectives of updating and simplifying the Community acquis. Their removal will clarify the "essential"

			acquis of acts that are active and generally applicable.
9.	Notice on the enforcement of State aid law by national courts	Revision	Review of the 1995 Notice on cooperation between national courts and the Commission in the State aid field. The new Notice will support and assist national courts faced with illegal aid, by setting out the applicable Community Case-law and decision-making practice. It will also update and reinforce the support mechanisms offered to national courts. By rationalising and improving existing guidance, the Notice will simplify the tasks of national courts in State aid enforcement.
10.	Best Practices Code in State Aid	Revision	The Best Practices Code aims at establishing good practices on both the Commission's and Member States' sides with a view to increasing the efficiency, transparency and predictability of State aid procedures. Efficiency could be improved, for instance, by means of improved pre-notification contacts, incentives for more complete notifications by Member States, more standardised information exchange with Member States, as well as streamlined internal procedures. Predictability would be increased by means of quicker decision making. And Member States would obtain more transparency as regards procedural steps and foreseen deadlines.
11.	Notice on a simplified procedure in State aid	Revision	The design of a simplified procedure in State aid aims at ensuring the quick adoption of decisions in straightforward notified aid cases including cases adopted on the basis of the standard assessment section of horizontal state aid instruments, as well as

	Title of action	Type of simplification action	Description of scope and objectives
			cases merely confirming precedents. The Notice should contribute to improving the efficiency of state aid procedures by simplifying the procedure for these types of cases.
12.	Community initiative on work-related musculoskeletal disorders	Recast	Follow-up of the second phase of consultation of the social partners. The objective of this initiative is to integrate into a single legislative instrument the provisions on the protection of the health and safety of workers from the risks of musculo-skeletal disorders at work. These provisions are currently fragmented over different directives, namely Council Directive 90/269/EEC and Council Directive 90/270/EEC. A single legislative instrument would be more comprehensive, clearer and easier to apply. It will benefit employers in terms of legal clarity and workers in terms of providing better protection against the risks of musculo-skeletal disorders.
13.	Revision of Directive 2000/35 of the European Parliament and Council on combating late payment in commercial transactions	Revision	Several key provisions of the current Directive are unclear or difficult to implement, thereby creating various hurdles for businesses to claim their rights in case of late payment. The overall objective is to discourage debtors from paying late and to provide creditors with measures that enable them to fully exercise all their rights when paid late. The simplification would entail a clarification of the calculation of the applicable interest rate, a better description of the nature and extent of “retention of title”, a new definition of the types of commercial transactions covered by the Directive and a clearer definition of “relevant recovery costs” to include internal administrative costs linked to late payment.

14.	Regulation relating to the type-approval of agricultural and forestry vehicles	Recast	The proposal will simplify EC legislation on agricultural and forestry tractors by replacing existing legislation (including the present Framework Directive and the separate Directives) by one main Regulation. The proposal will repeal 24 Directives. It will introduce improved requirements for tractor brakes as well.
15.	Amendment to Annex IV to Regulation 2003/2003 on fertilizers	Revision	The objective is to ensure that CEN Standards can be considered as official methods of analysis to be used as references for official controls. Their updated versions delivered by CEN will no longer be included in the legal act but will exist in the form of separate standards to which Community law will refer - the detailed descriptions of test methods currently contained in the Annex will be deleted.
16.	Directive or Regulation concerning medical devices	Recast	The objective is to simplify and strengthen the rules in order to ensure a high level of health protection while at the same time ensuring the smooth functioning of the internal market.
17.	Regulation on type approval of Two- or Three- Wheel motor vehicles	Recast	The proposal will simplify EC legislation on 2 and 3-wheel motor vehicles by replacing existing legislation (including the present Framework Directive and the separate Directives) into one main Regulation. The proposal will repeal 14 Directives. It will introduce modern emissions legislation, ABS and automatic emergency braking for two- and three-wheelers.
18.	Proposal of a Legal Instrument to underpin development of the Shared Environmental	Revision	The simplification objectives cover: - modernising and streamlining environmental reporting, to

	Information System		<p>facilitate data availability in line with the principle that information should be managed as close as possible to its source and should be collected once and broadly shared;</p> <ul style="list-style-type: none"> - timely availability of information / data, in particular by simplifying the current approach on reporting periods; - repealing / streamlining obsolete or overlapping reporting, based on a screening of legislation.
19.	Council Regulation 1172/98 on statistical returns in respect of the carriage of goods by road	Revision	The objective is to create an instrument within the European Statistical System (ESS) that allows to manage road freight statistics surveys by means of reporting requirements (thresholds of the number of vehicles per reporting country), scope of the surveys (types of vehicles included) and precision standard (already modifiable by comitology). In agreement with the ESS (Statistical Programme Committee), the population (focus on international operations and heavy vehicles) and sample (precision measures to be adapted to data needs) of road freight vehicles subject to reporting may be decreased.
20.	Amendment to Regulation 44/2001 concerning jurisdiction, recognition and enforcement of judgments in civil and commercial matters	Revision	The objective is to ensure free circulation of all judgments in the EU by the abolition of <i>exequatur</i> and to adapt the provisions of the Regulation to the new international instruments in the area concerned. It will also abolish intermediary steps which citizens have to go through in order to have a judicial decision recognised and enforced abroad.

21.	Council Regulation on the reform of the common organisation of the markets in fishery and aquaculture products	Revision	The common market organisation (CMO) was created to achieve the objectives laid down in Article 33 of the Treaty in the fishery sector, in particular to provide market stability and to guarantee a fair income for producers. More recent objectives focus on sustainability-supportive fishing and marketing activities. In place since 1971, the common market organisation has undergone many changes over time, and a reshaped CMO has been in operation since 1 January 2001. The effectiveness and efficiency of this policy is currently being evaluated. The proposal aims at taking account of market developments, changes in fishing activities and the shortcomings detected in the implementation of the provisions currently in force.
22.	Commission implementation rules on the reformed control and enforcement framework	Revision	The new rules will modernize and simplify procedures for national administrations and stakeholders and will facilitate better enforcement. Administrative burden and constraints for the sector and public administrations are to be alleviated, with an increased use of IT tools to reduce reporting obligations. All aspects related to control and monitoring of fisheries activities (declaration of catches, tolerance margins, landing declarations, transport, localisation of the fleet, etc.) will be simplified. Also new elements to address the challenges of Illegal, Unreported and Unregulated (IUU) fishing will be included.
23.	Commission Communication on formal recognition of obsolescence and four proposals repealing obsolete legal instruments in the field of the Common Fisheries	Repeal	Screening of the body of Community law relating to the Common Fisheries Policy (CFP) within the context of the "2006-2008 Action Plan for simplifying and improving the CFP" revealed that a number of Acts of Community law have exhausted their

	Policy		legal effects, though they have not been formally repealed or have no indication of a time limit as to their validity. To repeal acts still in force, the same enabling power should be used as that for the initial act. Where the legal basis for the act no longer exists, the Commission will publish a formal recognition of obsolescence through a Communication.
24.	Recast of Decisions relating to checks on insurance against civil liability in respect of the use of motor vehicles	Recast	<i>Over the past few years, the Commission has adopted a number of Decisions (2003/542/EC, 2004/332/EC, 2005/849/EC, and 2007/482/EC) on the abolition of insurance checks in respect of the countries acceding to the EU. The Recast aims at simplifying and clarifying the regime of these Decisions adopted under Article 2 of Directive 72/166/EC on motor insurance.</i>
25.	Recast of the Prospectus Directive	Recast	Areas where legislative changes are required to improve and simplify the application of the directive will be identified in order to reduce the administrative burden on issuers, without lowering the standard of investors' protection. Among them, the deletion of information requirements that duplicate the transparency directive (Article 10), the extension of the scope of the exemption for employees share schemes (Art. 4.1. e), and the clarification of the responsibilities in case of retail cascade (art. 3.2).
26.	Recast of the Market Abuse Directive	Recast	In line with the Commission's Better Regulation approach, a review of the MAD (Market Abuse Directive) regime in the EU is taking place. Focus is on areas where improvements could be achieved in terms of: (i) rationalising/reducing administrative burdens concerning for example the disclosure duties on company executives, and the duty to draw up and maintain

	Title of action	Type of simplification action	Description of scope and objectives
			insider lists, (ii) facilitating and strengthening supervision exercised at the level of Member States.
27.	Simplification of Accounting Directives	Revision	Objective is to allow Member States to exempt micro entities from the accounting requirements and to review the Accounting Directives (4th and 7th Company Law Directives) to take account of the interest of small businesses and reduce administrative burdens by over € billion.
28.	Implementing Measures for the Rapid Alert System for Food and Feed (RASFF)	Revision	The objective of the implementing measures is the uniform operation of the RASFF by all the members of the network by: defining the scope of the system; setting up contact points; defining the role of the Commission; elaboration and transmission of relevant notification; assessment and follow-up of a notification; defining rules for exchanging RASFF information with third countries; setting up confidentiality requirements.
29.	Regulation on plastic food contact materials and articles	Recast	Recast of Directives on plastic food contact materials into one Regulation with the aim to speed up authorisation of new additives and monomers and to simplify, clarify and update rules on migration testing; repeal of obsolete rules, such as the analytical methods in Directives 80/766/EEC and 81/432/EEC; of certain parts of Directive 82/711/EEC which are not testing criteria but interpretations and explanations; and remove contradicting rules between 82/711/EEC and 2002/72/EC as regards applicability, and between 82/711/EEC and 85/572/EEC as regards the definition of some food stimulants.

30.	Recast of Directive 1999/36/EC on Transportable Pressure Equipment Directive (TPED)	Recast	<p>Certain clauses have become obsolete and certain issues are currently dealt with in the international agreements on the transport of dangerous goods. Need to eliminate contradictions stemming from these international agreements taking into account transitional agreements at intergovernmental organisations level (UN for road transport, OTIF for rail). Repeal of 4 Directives on Pressure Vessels (76/767/EEC, 84/525/EEC, 84/526/EEC and 84/527/EEC) and integration of the still relevant provisions into the revision of Directive 1999/36/EC.</p> <p>It is also necessary to bring the existing directive into line with the "New Approach" rules on the free movement of goods which is in the final stages of formal adoption, <i>in line with the new legislative framework for the marketing of products.</i></p>
31.	Recast of First Railway Package legislation: simplification and modernisation of the legislative framework for access to the rail transport market	Recast	<p>In order to simplify the legislation, the three Directives will be merged and restructured while eliminating cross-references across the legal acts. This will lead to improved readability and hence enable better and harmonised implementation in MSs thus potentially reducing administrative burdens. Furthermore, other legal provisions, in particular institutional arrangements, such as strengthening of the powers of regulatory bodies and a strengthened cooperation of rail infrastructure managers for international services, will be enhanced to promote the emergence of a genuine internal market and to eliminate barriers to the provisions of international rail transport services. Overall by enhancing the legal and institutional framework the Commission hopes to see market access cost of railway</p>

			undertakings being reduced.
32.	Marine Equipment Directive	Recast	Directive 96/98/EC has been technically amended three times since its adoption and a further two technical amendments are currently under preparation (respectively concerning the committee procedure and the technical annexes). Furthermore, the <i>new legislative framework for the marketing of products</i> will have a direct impact on a number of basic elements (notified bodies, market surveillance, and safeguard clause). Lastly, the current system of periodical technical updates is in need of an in-depth revision in order to keep pace with the legislative production of the International Maritime Organisation. It is intended to recast or to repeal the existing Directive and replace it with a new one.
33.	Recast of the Community regulatory framework regarding transport of radioactive material	Recast	At Community level there are currently more than 30 directives, regulations and recommendations governing the transport of radioactive material. There are also non-binding international rules. Inconsistent transposition of these rules means that there is an unnecessary degree of complexity causing practical problems on the ground in Member States, including increased costs and delays. Simplification of rules and procedures would reduce this and an initial estimate puts the potential at a reduction of 50% in the labour costs and 30% in the costs to operators.
