

**Proposal for a Council Regulation (EC) amending Regulation (EEC) No 3508/92 establishing an integrated administration and control system for certain Community aid schemes**

(2000/C 89 E/04)

COM(1999) 517 final — 1999/0207(CNS)

*(Submitted by the Commission on 15 November 1999)*

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 37 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament,

Whereas:

- (1) The decisions on the reform of the common agricultural policy require adjustments to be made to the integrated administration and control system.
- (2) The application of the integrated management and control system in those areas to which it applies has led to significant progress in reducing the risk to the EAGGF Guarantee Section from agricultural expenditure. It should be laid down that the Member States are to design their own systems, compatible with the essential elements of IACS, for the application of other Community area aid schemes. The Commission should be allowed to extend the integrated system to other Community schemes;
- (3) In view of the difficulties encountered when carrying out administrative checks on areas declared, and in particular the costs and time involved in clearing up anomalies in declarations, experience in a number of Member States which have created a special parcel identification system and progress in digital orthophotography and geographical information systems, the introduction of computerised geographical information system techniques for the identification of agricultural parcels should be foreseen;
- (4) Since the measures for the implementation of Council Regulation (EEC) No 3508/92 <sup>(1)</sup> are management measures within the meaning of Article 2 of Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission <sup>(2)</sup>, they should be adopted by use of the management procedure provided for in Article 4 of that Decision. Regulation (EEC) No 3508/92 should therefore be amended accordingly;

- (5) Now that the introductory phase of the integrated system has largely been completed, the Commission should continue to be kept informed about the implementation and effectiveness of the integrated system in the Member States;

HAS ADOPTED THIS REGULATION:
