Proposal for a Council Decision on the conclusion of a Protocol adjusting the trade aspects of the Europe Agreement establishing an association between the European Communities and their Member States, of the one part, and the Republic of Slovenia, of the other part, to take account of the outcome of negotiations between the parties on new mutual agricultural concessions

(2003/C 71 E/04)

COM(2002) 607 final — 2002/0258(ACC)

(Submitted by the Commission on 6 November 2002)

EXPLANATORY MEMORANDUM

On 30 March 1999, the Council authorised the Commission to open negotiations for additional mutual agricultural concessions in the framework of the Europe Agreements between the European Community and the associated Central and Eastern European Countries.

The negotiations with the Republic of Slovenia, which were undertaken in the overall context of the accession process, were based on Article 21(5) of the Europe Agreement. This article provides that the Community and Slovenia shall examine in the Association Council, product by product and on an orderly and reciprocal basis, the possibility of granting each other further concessions, taking account of the volume of trade in agricultural products between them, of their particular sensitivity, of the rules of the common agricultural policy of the Community and of the role of agriculture in Slovenia's economy.

According to the Council directives, the negotiations should lead to a fair equilibrium, both in terms of exports and imports, between the interests of the European Community and its Member States and those of the associated countries. On this basis, two rounds of negotiation were undertaken and concluded between the parties on 22 May 2000 and 25 July 2002.

The results of the negotiations between the Commission and Slovenia on additional agricultural concessions involve immediate, full and reciprocal liberalisation of trade in some agricultural products. Agreement was also reached on opening new tariff quotas in certain sectors and increasing certain previously existing quotas.

The present Protocol on new mutual agricultural concessions is to form a new Additional Protocol to the Europe Agreement setting out all (i.e. both old and new) agricultural trade concessions agreed between the Community and the Republic of Slovenia.

Both sides implemented the results of the first round of negotiations on an autonomous and transitional basis from 1 July 2000. On the Community side, the new concessions were implemented by Council Regulation (EC) No 2475/2000 (1) of 7 November 2000. The present Protocol will replace these autonomous and transitional measures on the day of its entry into force.

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 133, in conjunction with Article 300(2), subparagraph 1, first sentence thereof,

Having regard to the proposal from the Commission,

Whereas:

(1) The Europe Agreement establishing an association between the European Communities and their Member States, of the one part, and the Republic of Slovenia, of the other part (¹), provides for certain reciprocal trade concessions for certain agricultural products.

(2) Article 21(5) of the Europe Agreement provides that the Community and Slovenia shall examine product by product and on an orderly and reciprocal basis the possibilities of granting each other further concessions.

⁽¹⁾ OJ L 51, 26.2.1999, p. 3.

- (3) Improvements to the preferential arrangements were provided for as a result of negotiations to liberalise agricultural trade concluded in 2000. On the Community side, these were implemented from 1 July 2000 by Regulation (EC) No 2475/2000 (¹) establishing certain concessions in the form of Community tariff quotas for certain agricultural products and providing for an adjustment, as an autonomous and transitional measure, of certain agricultural concessions provided for in the Europe Agreement with Slovenia. This adjustment of the preferential arrangements has not yet been incorporated in the Europe Agreement in the form of an Additional Protocol.
- (4) Negotiations for further improvements to the preferential arrangements of the Europe Agreement with Slovenia were concluded on 25 July 2002.
- (5) The new Additional Protocol to the Europe Agreement adjusting the trade aspects of the Europe Agreement between the European Communities and their Member States, of the one part, and the Republic of Slovenia, of the other part (hereinafter referred to as 'the Protocol') should be approved with a view to consolidating all concessions in agricultural trade between the two sides, including the results of the negotiations concluded in 2000 and 2002.
- (6) Commission Regulation (EEC) No 2454/93 of 2 July 1993 laying down provisions for the implementation of Council Regulation (EEC) No 2913/92 establishing the Community Customs Code (²) has codified the management rules for tariff quotas designed to be used following the chronological order of dates of customs declarations. Certain tariff quotas under this Decision should therefore be administered in accordance with those rules.
- (7) Further measures necessary for the implementation of this Decision should be adopted in accordance with the management committee procedure of Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission (3).
- (8) As a result of the aforementioned negotiations, Regulation (EC) No 2475/2000 has effectively lost its substance and should therefore be repealed,
