COMMISSION

Commission notice on the quantity of certain products in the milk and milk products sector available for the second half of 2009 under certain quotas opened by the Community*(2009/C 74/01)*

When import licences were allocated for the first half of 2009 for certain quotas mentioned in Commission Regulation (EC) No 2535/2001 ⁽¹⁾, the licence applications covered quantities less than those available for the products concerned. Therefore, the quantity available for each quota for the period 1 July to 31 December 2009 should be calculated taking account of the unallocated quantities resulting from Commission Regulation (EC) No 1224/2008 ⁽²⁾ (of 9 December 2008 determining the extent to which the applications for import licences submitted in November 2008 for certain dairy products under certain tariff quotas opened by Regulation (EC) No 2535/2001 can be accepted) and of applications for import licences lodged in the first ten days of November 2008 for butter originating in New Zealand under quotas 09.4195 and 09.4182.

The quantities available for the period 1 July to 31 December 2009 for the second half of the year of importation for certain quotas referred to in Commission Regulation (EC) No 2535/2001 are indicated hereunder.
