Correction of budgetary imbalances for the United Kingdom for 2008 pursuant to Article 4 of Decision 2007/436/EC, Euratom (Chapter 1 5)

Description	Coefficient ⁽¹⁾ (%)	Amount

6. Enlargement-adjusted total allocated expenditure = (4) – (5)		99 649 151 406
7. United Kingdom's correction original amount = (3) × (6) × 0,66		5 378 550 722
8. United Kingdom's advantage ⁽³⁾		31 432 569
9. Core United Kingdom's correction = (7) – (8)		5 347 118 153
10. Windfall gains deriving from traditional own resources ⁽⁴⁾		– 31 474 531
11. Correction for the United Kingdom = (9) – (10)		5 378 592 685

(¹) Rounded percentages.
(²) The amount of enlargement-related expenditure corresponds to: (i) payments made to the 10 new Member States (which joined the EU on 1.5.2004) under 2003 appropriations, as adjusted by applying the EU GDP deflator for years 2004-2007, as well as payments made to Bulgaria and Romania under 2006 appropriations, as adjusted by applying the EU GDP deflator for the year 2007; and (ii) total allocated expenditure in those Member States, except for agricultural direct payments and market-related expenditure as well as that part of rural development expenditure originating from the EAGGF, Guarantee Section. This amount is deducted from total allocated expenditure to ensure that expenditure which is unabated before enlargement remains so after enlargement.
(³) The 'UK advantage' corresponds to the effects arising for the United Kingdom from the changeover to capped VAT and the introduction of the GNP/GNI-based own resource.
(⁴) These windfall gains correspond to the net gains of the United Kingdom resulting from the increase — from 10 to 25 % as of 1 January 2001 — in the percentage of traditional own resources retained by Member States to cover the collection costs of traditional own resources (TOR).

According to article 4(2) of Decision 2007/436/EC, Euratom, during the period 2007-2013 the additional contribution of the United Kingdom resulting from the reduction of allocated expenditure by the expenditure related to enlargement as referred to in paragraph (1)(g) shall not exceed EUR 10,5 billion, measured in 2004 prices. The corresponding figures are set out in the table below.

2007-2012 UK corrections Difference in original amount in reference to EUR 10,5 billion threshold (ORD 2007 vs. ORD 2000), in EUR	Difference in current prices	Difference in constant 2004 prices

10. Windfall gains deriving from traditional own resources ⁽³⁾		7 996 282
11. Correction for the United Kingdom = (9) – (10)		4 840 982 460

⁽¹⁾ Rounded percentages.

⁽²⁾ The 'UK advantage' corresponds to the effects arising for the United Kingdom from the changeover to capped VAT and the introduction of the GNP/GNI-based own resource.

⁽³⁾ These windfall gains correspond to the net gains of the United Kingdom resulting from the increase — from 10 to 25 % as of 1 January 2001 — in the percentage of traditional own resources retained by Member States to cover the collection costs of traditional own resources (TOR).

Note: The difference of € 2 102 663 between the definitive amount of the 2005 UK correction (€ 4 840 982 460, as calculated above) and the previously budgeted amount of the 2005 UK correction (€ 4 838 879 797, entered in the AB 4/2006) is financed in chapter 3 5 of the AB 6/2009. This impact is the so-called 'direct effect' of the UK correction. A supplementary adjustment, to take into account the so-called 'indirect effect' of the UK correction on the uniform rate of call of the VAT-based own resource, is also financed in chapter 3 5 of the AB 6/2009. This 'indirect effect' corresponds to a payment of € 22 359 031 from the United Kingdom, so that the total amount entered in chapter 3 5 of the AB 6/2009 is a payment of € 20 256 368 from the United Kingdom (= — € 2 102 663 + € 22 359 031).

Remarks

New content for former Article 1 2 0 in 2009 (joining of duties of former Articles 1 0 0 and 1 2 0)

The assignment of customs duties as own resources to the financing of common expenditure is the logical consequence of the free movement of goods within the Community.

Figures are net of collection costs.

Legal basis

Council Decision 2007/436/EC, Euratom of 7 June 2007 on the system of the Communities' own resources (OJ L 163, 23.6.2007, p. 17), and in particular Article 2(1)(a) thereof.

Remarks

This appropriation is intended to cover expenditure on Community financial instruments implemented in the framework of the Competitiveness and Innovation Framework Programme (2007 to 2013), and to facilitate the access of SMEs to finance.

Poor access to appropriate forms of finance is frequently quoted as a main barrier to entrepreneurship and enterprise innovation. This problem may be exacerbated by new accounting standards which will make banks more sensitive to risk and lead to a rating culture. The Entrepreneurship and Innovation Programme will address persistent recognised market gaps leading to poor access to equity, venture capital and loans for SMEs, through Community Financial Instruments operated on behalf of the Commission by the European Investment Fund (EIF), the Community's specialised institution for providing venture capital and guarantee instruments for SMEs.

Under the Multiannual Programme for Enterprise and Entrepreneurship, independent evaluations identified the market-based approach and the implementation via the EIF of these instruments as a best practice. They will therefore be continued and adapted in the new programme.

COMMISSION

CHAPTER 01 04 — FINANCIAL OPERATIONS AND INSTRUMENTS (*cont'd*)**01 04 04** (*cont'd*)

The Community Financial Instruments for SMEs will ease the supply of seed and early stage capital for innovative start-ups and young companies.

The High Growth and Innovative SME Facility (GIF) will share risk and reward with private equity investors providing important leverage for the supply of equity to innovative companies. The GIF instruments will increase the supply of development equity for innovative SMEs in their early stages and in the expansion phase, leveraging 'follow-on' capital to help them bring their products and services to market and continue research and development activities.

The SME Guarantee Facility will continue to provide counter or co-guarantees to guarantee schemes operating in eligible countries, and direct guarantees to financial intermediaries. It will concentrate on addressing market failures: (i) in the access of SMEs with growth potential to loans (or loan substitutes such as leasing); (ii) in the provision of microcredit and (iii) in access to equity or quasi-equity. A (iv) new securitisation window will mobilise additional debt financing for SMEs under appropriate risk-sharing arrangements with the targeted institutions.

A Capacity Building Scheme will support the capacity of financial intermediaries to focus on additional investment and technology aspects. Action will also be undertaken to facilitate SME financing in countries where banking intermediation is significantly lower than the EU average.

To the appropriations entered in this article must be added the contributions from the EFTA States ⁽¹⁾ pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under Annex V to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidate countries for participating in Community programmes, entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations pursuant to Article 18(1)(d) of the Financial Regulation.

Any revenue from contributions from third parties entered in Item 6 0 3 3 of the statement of revenue will give rise to the provision of additional appropriations to be entered in this item, in accordance with the Financial Regulation.

Up to EUR 400 000 may be used for promoting dissemination activities, including events and publications.

Remarks

This appropriation is intended to cover the financing of the 2007 to 2013 rural development programmes funded by the European Agricultural Fund for Rural Development (EAFRD).

Of the total commitment appropriations in this item, an amount of EUR 1 305 700 000 results from the compulsory modulation in conformity with Article 10 of Council Regulation (EC) No 1782/2003 of 29 September 2003 establishing common rules for direct support schemes under the common agricultural policy and establishing certain support schemes for farmers (OJ L 270, 21.10.2003, p. 1). In addition an amount of EUR 424 000 000 results from the voluntary modulation in conformity with Regulation (EC) No 378/2007 (OJ L 95, 5.4.2007, p. 1). Rural development measures under all axes will be measured against more refined performance indicators for farming systems and production methods so as to respond to the challenges related to climate change, water protection, biodiversity and renewable energies.

The increase in funding aims to finance climate change adaptation measures, such as the construction of flood walls and raising the level of dykes against sea level rise, development of drought tolerant crops, selection of forestry species and practices less vulnerable to storms and fires and the development of spatial plans and corridors to help species migrate.

In accordance with the EU's commitments under the Treaty on Plant Genetic Resources, the establishment of a European open data and pooling bank for traditional plant varieties should be encouraged which will enable nongovernmental organisations and private and public-sector bodies to set up, alongside Member States' national gene banks, a seed pool for traditional varieties which are particularly valuable for preserving biodiversity in agriculture and for producing quality foodstuffs.

Remarks

This appropriation is intended to cover financial support for measures and projects contributing to the implementation, updating and development of Community environmental policy and legislation, including the integration of the environment into other policies, thereby contributing to sustainable development. In particular, LIFE + shall support the implementation of the 'Sixth Environmental Action Programme', including the thematic strategies, and finance measures and projects with European added value in three priority areas: nature and biodiversity, environment policy and governance, and information and communication.

At least 78 % of appropriations shall be used for action grants to projects, of which at least 50 % for projects supporting the conservation of nature and biodiversity. Projects to be supported shall be selected following a call for proposals. Projects supported shall be of Community interest, technically and financially coherent, and feasible and shall provide value for money.

The projects supported through action grants shall meet one of the following criteria to ensure European added value and avoid financing recurring activities:

- best practice or demonstration projects for the implementation of Directive 79/409/EEC or Directive 92/43/EEC, or
- innovative or demonstration projects relating to Community environmental objectives, including the development or dissemination of best practice techniques, know-how or technologies, or
- awareness-raising campaigns and special training for staff involved in fire prevention operations, or
- projects for the development and implementation of Community objectives relating to the broad-based, harmonised, comprehensive and long-term monitoring of forests and environmental interactions.

Measures supported by the LIFE + programme shall cover, *inter alia*:

- support for independent and non-profit-making non-governmental organisations (NGOs) which contribute to the development and implementation of Community environmental policy and legislation,
- support for the Commission's role in initiating environment policy development and implementation, through studies and evaluations, seminars and workshops with experts and stakeholders, networks and computer systems, information, publication and dissemination activities, including events, exhibitions and similar awareness-raising measures.

The projects and measures financed by LIFE + may be implemented through grants or procurement procedures and may consist of:

- studies, surveys, modelling and scenario building,
- monitoring, including the monitoring of forests,
- capacity-building assistance,

COMMISSION

CHAPTER 07 03 — IMPLEMENTATION OF COMMUNITY ENVIRONMENTAL POLICY AND LEGISLATION (*cont'd*)**07 03 07** (*cont'd*)

- training, workshops and meetings, including the training of agents participating in forest fire prevention initiatives,
- networking and best practice platforms,
- information and communication actions, including awareness raising campaigns and, in particular, public awareness campaigns on forest fires,
- demonstration of innovative policy approaches, technologies, methods and instruments,
- support for operational activities of non-governmental organisations that are primarily active in protecting and enhancing the environment at European level and involved in the development and implementation of Community policy and legislation,
- developing and maintaining networks, databases and information and computer systems directly linked to the implementation of Community environmental policy and legislation, in particular when improving public access to environmental information. The expenditure covered will include the costs of development, maintenance, operation and support (hardware, software and services) of information and communication systems. It will also cover the cost of project management, quality control, security, documentation and training linked to the implementation of these systems,
- specifically for the nature and biodiversity component: site and species management and site planning, including the improvement of the ecological coherence of the Natura 2000 network, the monitoring of conservation status, including — but not limited to — setting up procedures and structures for such monitoring, the development and implementation of species and habitats conservation action plans, the extension of the Natura 2000 network in marine areas and, in limited cases, the purchase of land.

The increase in funding aims to finance climate change adaptation measures, such as those related to the construction of flood walls and raising the level of dykes against sea level rise, development of drought tolerant crops, selection of forestry species and practices less vulnerable to storms and fires and the development of spatial plans and corridors to help species migrate.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Community programmes, entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations pursuant to Article 18(1)(d) of the Financial Regulation.

Remarks

These remarks apply to all the budget headings in this title (with the exception of Chapter 08 22).

These appropriations will be used in accordance with Regulation (EC) No 1906/2006 of the European Parliament and of the Council of 18 December 2006 laying down the rules for the participation of undertakings, research centres and universities in actions under the Seventh Framework Programme and for the dissemination of research results (2007 to 2013) (OJ L 391, 30.12.2006, p. 1) and Council Regulation (Euratom) No 1908/2006 of 19 December 2006 laying down the rules for the participation of undertakings, research centres and universities in action under the Seventh Framework Programme of the European Atomic Energy Community and for the dissemination of research results (2007 to 2011) (OJ L 400, 30.12.2006, p. 1).

For all appropriations under this title the same definition of small and medium-sized enterprises (SMEs) as is used for the horizontal SME-specific programmes within the same framework programme will be applicable. That definition reads as follows: 'An eligible SME is a legal entity that complies with the SME definition set out in Commission Recommendation 2003/361/EC and is not a research centre, research institute, contract research organisation or consultancy firm'. All research activities conducted pursuant to the Seventh Framework Programme will be carried out in compliance with fundamental ethical principles (in accordance with Article 6(1) of Decision No 1982/2006/EC of the European Parliament and of the Council of 18 December 2006 concerning the Seventh Framework Programme of the European Community for research, technological development and demonstration activities (2007 to 2013) (OJ L 412, 30.12.2006, p. 1)), including animal welfare requirements. This will include, in particular, the principles laid down in Article 6 of the Treaty on European Union and in the Charter of Fundamental Rights of the European Union. Particular account will be taken of the need to step up efforts to enhance the participation and role of women in science and research.

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Community to investigate new areas of research suitable for Community action, *inter alia*, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

These appropriations also cover administrative expenditure, including expenditure on staff, whether covered by the Staff Regulations or not, information, publications, administrative and technical operation, and certain other expenditure items relating to internal infrastructure linked with the achievement of the objective of the measure of which they form an integral part, including the action and initiatives necessary for preparation and monitoring of the Community's RTD strategy.

Revenue resulting from cooperation agreements between the European Atomic Energy Community and Switzerland or the multilateral EFDA will be entered in Items 6 0 1 1 and 6 0 1 2 of the statement of revenue and may lead to additional appropriations being made available in accordance with Article 18 of the Financial Regulation.

The possibility of third countries or institutes from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution will be entered in Items 6 0 1 3 and 6 0 1 5 of the statement of revenue and may lead to additional appropriations being made available in accordance with Article 18 of the Financial Regulation.

COMMISSION

Revenue from States taking part in the European Cooperation field of scientific and technical research will be entered in Item 6 0 1 6 of the statement of revenue and may lead to additional appropriations being made available in accordance with Article 18 of the Financial Regulation.

Remarks

Environmental research within the Seventh Framework Programme will be implemented through the 'Environment (including climate change)' theme. The objective is to promote sustainable management of the natural and human environment and its resources by advancing our knowledge of the interactions between the biosphere, ecosystems and human activities, and developing new technologies, tools and services, in order to address in an integrated way global environmental issues. Emphasis will be put on prediction of climate, ecological, earth and ocean systems changes, on tools and technologies, for monitoring, prevention and mitigation of environmental pressures and risks including on human health and for the sustainability of the natural and man-made environment.

Research on this theme will contribute to the implementation of international commitments and initiatives such as Global Earth Observation (GEO). In addition, it will support the research needs arising from the existing and emerging EU legislation and policies, associated thematic strategies and the action plans on environmental technologies and on environment and health. Research will also contribute technological developments that will improve the market positioning of European enterprises, in particular of SMEs, in areas such as environmental technologies.

To the appropriations entered in this article must be added the contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto. Remarks

Europe needs to become more attractive to researchers, in order to increase Europe's capacity and performance in research and technological development and to consolidate and further develop the European Research Area. Against the background of growing competition at world level, the development of an open and competitive European labour market for researchers with diversified, attractive career prospects is needed.

The value added of the support provided in the People programme is the promotion of mobility, both trans-national and inter-sectoral, the structuring effect throughout the EU on the organisation, performance and quality of research training, on the active career development of researchers, and on knowledge sharing through researchers between sectors and research organisations, and on a strong participation of women.

TITLE 11

MARITIME AFFAIRS AND FISHERIES

COMMISSION

TITLE 11

MARITIME AFFAIRS AND FISHERIES

Overall objectives

This policy area includes all the activities covered by the common fisheries policy (CFP) which comes under the exclusive competence of the Community. It concerns all fisheries activities as well as the processing and marketing of these products.

It also ensures that the relevant provisions of Community law are rightly applied in the fisheries sector.

The policy area covers the following operational activities: common organisation of the fisheries market, relations and agreements with third countries and international organisations, fisheries governance, fisheries research, structural measures for fisheries through the European Fisheries Fund (EFF), conservation of fisheries resources, and control and enforcement. Finally, a new activity relates to maritime affairs, with a preparatory action for launching implementation of the European maritime policy.

Sixty per cent of appropriations are devoted to the EFF. However, the EFF operations are mainly implemented by the Member States as part of shared management.

CHAPTER 11 06 — EUROPEAN FISHERIES FUND (EFF) (cont'd)**11 06 12 (cont'd)**

Particular importance will be attached to the economic diversification of regions affected by a reduction in fishing activity, to the adjustment of fleet capacity and to fleet renewal, without involving an increase in fishing efforts, as well as to the sustainable development of the fishing zones.

Actions financed under this article should take into account the need to maintain a stable and enduring balance between the capacity of the fishing fleets and the resources available, and the need to promote a safety culture within fishing.

This appropriation is also intended to cover the financing of actions to improve fishing gear selectivity.

HUMANITARIAN AID

COMMISSION

TITLE 23
HUMANITARIAN AID

Overall objectives

In the European Union (EU) Treaty, as amended by the Treaty of Lisbon, setting out the EU's general objectives in the framework of external relations, humanitarian aid aims at assisting populations, countries and regions confronting natural or man-made disasters.

At DG ECHO level, this objective is translated in the following strategic objectives, defined by Council Regulation (EC) No 1257/96 which regulates humanitarian assistance:

- save and preserve life during emergencies and their immediate aftermath and natural disasters that have entailed major loss of life, physical, psychological or social suffering or material damage,
- provide the necessary assistance and relief to people affected by longer-lasting crises arising, in particular, from outbreaks of fighting or wars,
- help finance the transport of aid and efforts to ensure that it is accessible to those for whom it is intended, by all logistical means available, and by protecting humanitarian goods and personnel,
- carry out short-term rehabilitation and reconstruction work especially on infrastructure and equipment,
- cope with the consequences of population movements (refugees, displaced people and returnees) caused by natural and man-made disasters and to carry out repatriation schemes,
- ensure readiness for risks of natural disasters or comparable exceptional circumstances and to develop suitable early-warning and intervention systems,
- support civil operations to protect the victims of fighting or comparable emergencies.
