## COMMISSION

**Notice of initiation of an expiry review of the anti-dumping measures applicable to imports of  
certain tube and pipe fittings of iron or steel originating in the Republic of Korea and Malaysia**

(2007/C 192/12)

Following the publication of a notice of impending expiry <sup>(1)</sup> of the anti-dumping measures in force on imports of certain tube and pipe fittings originating in the Republic of Korea and Malaysia ('countries concerned'), the Commission has received a request for review pursuant to Article 11(2) of Council Regulation (EC) No 384/96 of 22 December 1995 on protection against dumped imports from countries not members of the European Community ('the basic Regulation') <sup>(2)</sup>.

**1. Request for review**

The request was lodged on 23 May 2007 by the Defence Committee of the Steel Butt-Welding Fittings Industry of the European Union ('the applicant') on behalf of producers representing a major proportion, in this case more than 25 %, of the total Community production of certain tube and pipe fittings of iron or steel.

**2. Product**

The product under review is tube and pipe fittings (other than cast fittings, flanges and threaded fittings), of iron or steel (not including stainless steel), with a greatest external diameter not exceeding 609,6 mm, of a kind used for butt-welding or other purposes, originating in the Republic of Korea and Malaysia ('the product concerned'), currently classifiable within CN codes ex 7307 93 11, ex 7307 93 19, ex 7307 99 30 and ex 7307 99 90. These CN codes are given for information purposes only.

**3. Existing measures**

The measures currently in force are a definitive anti-dumping duty imposed by Council Regulation (EC) No 1514/2002 <sup>(3)</sup>.

**4. Grounds for the review**

The request is based on the grounds that the expiry of measures would be likely to result in a recurrence of dumping and injury to the Community industry.

The allegation of recurrence of dumping in respect of both countries concerned is based on a comparison of a constructed normal value with the export prices of the product concerned when sold for export to a third country, the United States of America.

On this basis, the dumping margin calculated is significant.

The applicant further alleges the likelihood of further injurious dumping. In this respect, the applicant presents evidence that, should measures be allowed to lapse, the import volume of the product concerned is likely to increase compared to its current level due to the existence of unused capacity in the countries concerned.

In addition, the applicant alleges that the removal of injury is due mainly to the existence of measures and that any recurrence of substantial imports at dumped prices from the countries concerned would be likely to lead to a recurrence of injury for the Community industry, should measures be allowed to lapse.

<sup>(2)</sup> OJ L 56, 6.3.1996, p. 1. Regulation as last amended by Regulation (EC) No 2117/2005 (OJ L 340, 23.12.2005, p. 17).

<sup>(3)</sup> OJ L 228, 24.8.2002, p. 1.

## 5. Procedure

Having determined, after consulting the Advisory Committee, that sufficient evidence exists to justify the initiation of an expiry review, the Commission hereby initiates a review in accordance with Article 11(2) of the basic Regulation.

### 5.1. Procedure for the determination of likelihood of dumping and injury

The investigation will determine whether the expiry of the measures would be likely or unlikely to lead to a continuation or recurrence of dumping and injury.

#### (a) Sampling

In view of the apparent number of parties involved in this proceeding, the Commission may decide to apply sampling, in accordance with Article 17 of the basic Regulation.

#### (i) Sampling for exporters/producers in the Republic of Korea

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all exporting producers or their representatives are hereby requested to make themselves known by contacting the Commission and providing the following information on their company or companies within the time limit set in point 6(b)(i) and in the formats indicated in point 7:

If the company is chosen to be part of the sample, this implies replying to a questionnaire and accepting an on-the-spot investigation of its response. If the company indicates that it does not agree to its possible inclusion in the sample, it will be deemed not to have co-operated in the investigation. The consequences of non-cooperation are set out in point 8 below.

In order to obtain the information it deems necessary for the selection of the sample of exporters/producers, the Commission will, in addition, contact the authorities of the exporting country and any known associations of exporters/producers.

If the company indicates that it does not agree to its possible inclusion in the sample, it will be deemed not to have co-operated in the investigation. The consequences of non-cooperation are set out in point 8 below.

In order to obtain the information it deems necessary for the selection of the sample of importers, the Commission will, in addition, contact any known associations of importers.

### (iii) Sampling for Community producers

In view of the large number of Community producers supporting the request, the Commission intends to investigate injury to the Community industry by applying sampling.

In order to enable the Commission to select a sample, all Community producers are hereby requested to provide the following information on their company or companies within the time limit set in point 6(b)(i) and in the formats indicated in point 7:

- the names and the precise activities of all related companies<sup>(1)</sup> involved in the production and/or selling of the product concerned,
- any other relevant information that would assist the Commission in the selection of the sample.

By providing the above information, the company agrees to its possible inclusion in the sample. If the company is chosen to be part of the sample, this

implies replying to a questionnaire and accepting an on-the-spot investigation of its response. If the company indicates that it does not agree to its possible inclusion in the sample, it will be deemed to not have co-operated in the investigation. The consequences of non-cooperation are set out in point 8 below.

### (iv) Final selection of the samples

All interested parties wishing to submit any relevant information regarding the selection of the sample must do so within the time limit set in point 6(b)(ii).

The Commission intends to make the final selection of the samples after having consulted the parties concerned that have expressed their willingness to be included in the sample.

Companies included in the samples must reply to a questionnaire within the time limit set in point 6(b)(iii) and must co-operate with the investigation.

If sufficient co-operation is not forthcoming, the Commission may base its findings, in accordance with Articles 17(4) and 18 of the basic Regulation, on the facts available. A finding based on facts available may be less advantageous to the party concerned, as explained in point 8.

### (b) Questionnaires

In order to obtain the information it deems necessary for its investigation, the Commission will send questionnaires to the sampled Community industry and to any association of producers in the Community, to the sampled exporters/producers in the Republic of Korea, to the exporters/producers in Malaysia, to any association of exporters/producers, to the sampled importers, to any association of importers named in the request or which co-operated in the investigation leading to the measures subject to the present review and to the authorities of the exporting country concerned.

### (c) Collection of information and holding of hearings

All interested parties are hereby invited to make their views known, submit information other than questionnaire replies and to provide supporting evidence. This information and supporting evidence must reach the Commission within the time limit set in point 6(a)(ii).

Furthermore, the Commission may hear interested parties, provided that they make a request showing that there are particular reasons why they should be heard. This request must be made within the time limit set in point 6(a)(iii).

<sup>(1)</sup> For guidance on the meaning of related companies, please refer to Article 143 of Commission Regulation (EEC) No 2454/93 of 2 July 1993 laying down provisions for the implementation of Council Regulation (EEC) No 2913/92 establishing the Community Customs Code (OJ L 253, 11.10.1993, p. 1).

## 5.2. Procedure for the assessment of Community interest

In accordance with Article 21 of the basic Regulation and in the event that the likelihood of a continuation or recurrence of dumping and injury is confirmed, a determination will be made as to whether maintaining the anti-dumping measures would not be against the Community interest. For this reason, the Community industry, importers, their representative associations, representative users and representative consumer organisations, provided that they prove that there is an objective link between their activity and the product concerned, may, within the general time limits set in point 6(a)(ii), make themselves known and provide the Commission with information. The parties which have acted in conformity with the previous sentence may request a hearing, setting the particular reasons why they should be heard, within the time limit set in point 6(a)(iii). Any information submitted pursuant to Article 21 will only be taken into account if supported by factual evidence at the time of submission.

## 6. Time limits

### (a) General time limits

#### (i) For parties to request a questionnaire

Attention is drawn to the fact that the exercise of most procedural rights set out in the basic Regulation depends on the party's making itself known within the aforementioned period.

Companies selected for a sample must reply to the questionnaire within the time limit specified in point 6(b)(iii).

### (iii) Hearings

All interested parties may also apply to be heard by the Commission within the same 40-day time limit.

Where any interested party refuses access to or does not provide the necessary information within the time limits, or significantly impedes the investigation, findings, affirmative or negative, may be made in accordance with Article 18 of the basic Regulation, on the basis of the facts available.

<sup>(1)</sup> This means that the document is for internal use only. #### **10. Possibility to request a review under Article 11(3) of the basic Regulation**

As this expiry review is initiated in accordance with the provisions of Article 11(2) of the basic Regulation, the findings thereof will not lead to the level of the existing measures being amended but will lead to those measures being

repealed or maintained in accordance with Article 11(6) of the basic Regulation.

If any party to the proceeding considers that a review of the level of the measures is warranted so as to allow for the possibility to amend (i.e. increase or decrease) the level of the measures, that party may request a review in accordance with Article 11(3) of the basic Regulation.

Parties wishing to request such a review, which would be carried out independently of the expiry review mentioned in this notice, may contact the Commission at the address given above.
