## EUROPEAN COMMISSION

**Notice of initiation of an anti-subsidy proceeding concerning imports of solar glass originating in  
the People's Republic of China**

(2013/C 122/17)

The European Commission ('the Commission') has received a complaint pursuant to Article 10 of Council Regulation (EC) No 597/2009 of 11 June 2009 on protection against subsidised imports from countries not members of the European Community <sup>(1)</sup> ('the basic Regulation'), alleging that imports of solar glass, originating in the People's Republic of China, are being subsidised and are thereby causing material injury to the Union industry.

**1. Complaint**

The complaint was lodged on 14 March 2013 by EU ProSun Glass ('the complainant') on behalf of producers representing more than 25 % of the total Union production of solar glass.

**2. Product under investigation**

The product subject to this investigation is solar glass consisting of tempered soda-lime-flat-glass, with an iron content of less than 300 ppm, a solar transmittance of more than 88 % (measured according to AM1,5 300-2 500 nm), a resistance to heat up to 250 °C (measured according to EN 12150), a resistance to thermal shocks of  $\Delta 150$  K (measured according to EN 12150) and having a mechanical strength of 90 N/mm<sup>2</sup> or more (measured according to EN 1288-3) ('the product under investigation').

**3. Allegation of subsidisation**

The product allegedly being subsidised is the product under investigation, originating in the People's Republic of China

('the country concerned'), currently falling within CN code ex 7007 19 80. This CN code is given for information only.

The *prima facie* evidence provided by the complainant shows that the producers of the product under investigation from the People's Republic of China have benefited from a number of subsidies granted by the Government of the People's Republic of China.

The subsidies consist, inter alia, of preferential lending to the solar glass industry (e.g. credit lines and low-interest policy loans granted by State-owned commercial banks and Government Policy Banks, export credit subsidy programmes, export guarantees, State-funded insurance for green technologies, financial advantages from the granting of access to offshore holding companies, loan repayments by Government), grant programmes (e.g. 'Famous Brands' and 'China World Top Brands' subsidies, Funds for Outward Expansion of Industries in Guangdong Province), Government provision of goods and services for less than adequate remuneration (e.g. provision of antimony <sup>(2)</sup>, power and land), direct tax exemption and reduction programmes (e.g. income tax exemptions or reductions under the Two Free/Three Half Programme, income tax reductions for foreign invested enterprises ('FIEs') based on geographic location, local income tax exemptions and reductions for 'productive FIEs', income tax reductions for FIEs purchasing Chinese-made equipment, tax offset for R&D at FIEs, preferential corporate income tax for FIEs recognised as High and New Technology Industries, tax reductions for High and New Technology Enterprises involved in designated projects, preferential income tax policy for enterprises in the North-East Region, Guangdong Province tax programmes) and indirect tax and import tariff programmes (e.g. VAT exemptions for use of imported equipment, VAT rebates on FIEs' purchases

<sup>(1)</sup> OJ L 188, 18.7.2009, p. 93.

<sup>(2)</sup> This allegation is linked to the application of export restraints and also encompasses an allegation of income or price support.

of Chinese-made equipment, VAT and tariff exemptions for purchases of fixed assets under the Foreign Trade Development Programme).

The *prima facie* evidence provided by the complainant shows that the above schemes are subsidies since they involve a financial contribution from the Government of the People's Republic of China or other regional governments (including public bodies) and confer a benefit to the recipients. They are alleged to be contingent upon export performance and/or the use of domestic over imported goods and/or are limited to certain sectors and/or types of enterprises and/or locations, and are therefore specific and countervailable.

#### 4. Allegation of injury and causation

The complainant has provided evidence that imports of the product under investigation from the country concerned have increased overall in absolute terms and have increased in terms of market share.

The *prima facie* evidence provided by the complainant shows that the volume and the prices of the imported product under investigation have had, among other consequences, a negative impact on the quantities sold, the level of prices charged, and the market share held by the Union industry, resulting in substantial adverse effects on the overall performance, the financial situation and the employment situation of the Union industry.

#### 5. Procedure

Having determined, after consulting the Advisory Committee, that the complaint has been lodged by or on behalf of the Union industry and that there is sufficient evidence to justify the initiation of a proceeding, the Commission hereby initiates an investigation pursuant to Article 10 of the basic Regulation.

The investigation will determine whether the product under investigation originating in the country concerned is being subsidised and whether these subsidised imports have caused injury to the Union industry. If the conclusions are affirmative, the investigation will examine whether the imposition of measures would not be against the Union interest.

The Government of the People's Republic of China has been invited for consultations.

##### 5.1. Procedure for the determination of subsidisation

Exporting producers<sup>(1)</sup> of the product under investigation from the country concerned and the authorities of the country concerned are invited to participate in the Commission investigation.

<sup>(1)</sup> An exporting producer is any company in the country concerned which produces and exports the product under investigation to the Union market, either directly or via a third party, including any of its related companies involved in the production, domestic sales or exports of the product under investigation.

##### 5.1.1. Investigating exporting producers

###### 5.1.1.1. Procedure for selecting exporting producers to be investigated in the country concerned

###### (a) Sampling

In view of the potentially large number of exporting producers in the People's Republic of China involved in this proceeding and in order to complete the investigation within the statutory time limits, the Commission may limit the exporting producers to be investigated to a reasonable number by selecting a sample (this process is also referred to as 'sampling'). The sampling will be carried out in accordance with Article 27 of the basic Regulation.

In order to enable the Commission to decide whether sampling is necessary, and if so, to select a sample, all exporting producers, or representatives acting on their behalf, are hereby requested to make themselves known to the Commission. These parties have to do so within 15 days of the date of publication of this notice in the *Official Journal of the European Union*, unless otherwise specified, by providing the Commission with information on their company(ies) requested in Annex A to this notice.

In order to obtain information it deems necessary for the selection of the sample of exporting producers, the Commission will also contact the authorities of the country concerned and may contact any known associations of exporting producers.

All interested parties wishing to submit any other relevant information regarding the selection of the sample, excluding the information requested above, must do so within 21 days of the publication of this notice in the *Official Journal of the European Union*, unless otherwise specified.

If a sample is necessary, the exporting producers may be selected based on the largest representative volume of exports to the Union which can reasonably be investigated within the time available. All known exporting producers, the authorities of the country concerned and associations of exporting producers will be notified by the Commission, via the authorities of the country concerned if appropriate, of the companies selected to be in the sample.

In order to obtain information it deems necessary for its investigation with regard to exporting producers, the Commission will send questionnaires to the exporting producers selected to be in the sample, to any known association of exporting producers, and to the authorities of the country concerned.

All exporting producers, selected to be in the sample, and the authorities of the country concerned will have to submit a completed questionnaire within 37 days from the date of notification of the sample selection, unless otherwise specified.

The questionnaire for exporting producers will request information on, inter alia, the structure of the exporting producer's company(ies), the activities of the company(ies) in relation to the product under investigation, the total sales of the company(ies) and of the product under investigation and the amount of financial contribution and benefit from the alleged subsidies or subsidy programmes.

The questionnaire for the authorities will request information on, inter alia, the alleged subsidies or subsidy programme(s), the authorities responsible for their operation, the manner and functioning of such operation, the legal basis, the eligibility criteria and other terms and conditions, the recipients and the amount of financial contribution and benefit conferred.

Without prejudice to the application of Article 28 of the basic Regulation, companies that have agreed to their possible inclusion in the sample but are not selected to be in the sample will be considered to be cooperating ('non-sampled cooperating exporting producers'). Without prejudice to Section (b) below, the countervailing duty that may be applied to imports from non-sampled cooperating exporting producers will not exceed the weighted average margin of subsidisation established for the exporting producers in the sample <sup>(1)</sup>.

(b) Individual subsidy margin for companies not included in the sample

Non-sampled cooperating exporting producers may request, pursuant to Article 27(3) of the basic Regulation, that the Commission establish their individual subsidy margins. The exporting producers wishing to claim an individual subsidy margin must request a questionnaire and return it duly completed within 37 days of the date of notification of the sample selection, unless otherwise specified.

However, exporting producers claiming an individual subsidy margin should be aware that the Commission may nonetheless decide not to determine their individual

subsidy margin if, for instance, the number of exporting producers is so large that such determination would be unduly burdensome and would prevent the timely completion of the investigation.

5.1.2. *Investigating unrelated importers* <sup>(2)</sup> <sup>(3)</sup>

Unrelated importers of the product under investigation from the People's Republic of China to the Union are invited to participate in this investigation.

In view of the potentially large number of unrelated importers involved in this proceeding and in order to complete the investigation within the statutory time limits, the Commission may limit to a reasonable number the unrelated importers that will be investigated by selecting a sample (this process is also referred to as 'sampling'). The sampling will be carried out in accordance with Article 27 of the basic Regulation.

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all unrelated importers, or representatives acting on their behalf, are hereby requested to make themselves known to the Commission. These parties must do so within 15 days of the date of publication of this notice in the *Official Journal of the European Union*, unless otherwise specified, by providing the Commission with the information on their company(ies) requested in Annex B to this notice.

In order to obtain information it deems necessary for the selection of the sample of unrelated importers, the Commission may also contact any known associations of importers.

<sup>(2)</sup> Only importers not related to exporting producers can be sampled. Importers that are related to exporting producers have to fill in Annex I to the questionnaire for these exporting producers. In accordance with Article 143 of Commission Regulation (EEC) No 2454/93 concerning the implementation of the Community Customs Code, persons shall be deemed to be related only if: (a) they are officers or directors of one another's businesses; (b) they are legally recognised partners in business; (c) they are employer and employee; (d) any person directly or indirectly owns, controls or holds 5 % or more of the outstanding voting stock or shares of both of them; (e) one of them directly or indirectly controls the other; (f) both of them are directly or indirectly controlled by a third person; (g) together they directly or indirectly control a third person; or (h) they are members of the same family. Persons shall be deemed to be members of the same family only if they stand in any of the following relationships to one another: (i) husband and wife; (ii) parent and child; (iii) brother and sister (whether by whole or half blood); (iv) grandparent and grandchild; (v) uncle or aunt and nephew or niece; (vi) parent-in-law and son-in-law or daughter-in-law; (vii) brother-in-law and sister-in-law (OJ L 253, 11.10.1993, p. 1). In this context, 'person' means any natural or legal person.

<sup>(3)</sup> The data provided by unrelated importers may also be used in relation to aspects of this investigation other than the determination of subsidisation.

<sup>(1)</sup> Pursuant to Article 15(3) of the basic Regulation, any zero and *de minimis* amounts of countervailable subsidies and amounts of countervailable subsidies established in the circumstances referred to in Article 28 of the basic Regulation shall be disregarded.

All interested parties wishing to submit any other relevant information regarding the selection of the sample, excluding the information requested above, must do so within 21 days of the publication of this notice in the *Official Journal of the European Union*, unless otherwise specified.

If a sample is necessary, the importers may be selected based on the largest representative volume of sales of the product under investigation in the Union which can reasonably be investigated within the time available. All known unrelated importers and associations of importers will be notified by the Commission of the companies selected to be in the sample.

In order to obtain information it deems necessary for its investigation, the Commission will send questionnaires to the sampled unrelated importers and to any known association of importers. These parties must submit a completed questionnaire within 37 days from the date of the notification of the sample selection, unless otherwise specified.

The questionnaire will request information on, inter alia, the structure of their company(ies), the activities of the company(ies) in relation to the product under investigation and the sales of the product under investigation.

## **5.2. Procedure for the determination of injury and investigating Union producers**

A determination of injury is based on positive evidence and involves an objective examination of the volume of the subsidised imports, their effect on prices on the Union market and the consequent impact of those imports on the Union industry. In order to establish whether the Union industry is materially injured, Union producers of the product under investigation are invited to participate in the Commission investigation.

### **5.2.1. Investigating Union producers**

In view of the large number of Union producers involved in this proceeding and in order to complete the investigation within the statutory time limits, the Commission has decided to limit to a reasonable number the Union producers that will be investigated by selecting a sample (this process is also referred to as 'sampling'). The sampling is carried out in accordance with Article 27 of the basic Regulation.

The Commission has provisionally selected a sample of Union producers. Details can be found in the file for inspection by

interested parties. Interested parties are hereby invited to consult the file (for this they should contact the Commission using the contact details provided in Section 5.6 below). Other Union producers, or representatives acting on their behalf, that consider that there are reasons why they should be included in the sample must contact the Commission within 15 days of the date of publication of this notice in the *Official Journal of the European Union*. All interested parties wishing to submit any other relevant information regarding the selection of the sample must do so within 21 days of the publication of this notice in the *Official Journal of the European Union*, unless otherwise specified.

All known Union producers and/or associations of Union producers will be notified by the Commission of the companies finally selected to be in the sample.

In order to obtain information it deems necessary for its investigation, the Commission will send questionnaires to the sampled Union producers and to any known association of Union producers. These parties must submit a completed questionnaire within 37 days from the date of the notification of the sample selection, unless otherwise specified.

The questionnaire will request information on, inter alia, the structure of their company(ies) and the financial and economic situation of the company(ies).

## **5.3. Procedure for the assessment of Union interest**

Should the existence of subsidisation and injury caused thereby be established, a decision will be reached, pursuant to Article 31 of the basic Regulation, as to whether the adoption of anti-subsidy measures would not be against the Union interest. Union producers, importers and their representative associations, users and their representative associations, and representative consumer organisations are invited to make themselves known within 15 days of the date of publication of this notice in the *Official Journal of the European Union*, unless otherwise specified. In order to participate in the investigation, the representative consumer organisations have to demonstrate, within the same deadline, that there is an objective link between their activities and the product under investigation.

Parties that make themselves known within the above deadline may provide the Commission with information on the Union interest within 37 days of the date of publication of this notice in the *Official Journal of the European Union*, unless otherwise specified. This information may be provided either in a free format or by completing a questionnaire prepared by the Commission. In any case, information submitted pursuant to Article 31 will only be taken into account if supported by factual evidence at the time of submission.

#### 5.4. *Other written submissions*

Subject to the provisions of this notice, all interested parties are hereby invited to make their views known, submit information and provide supporting evidence. Unless otherwise specified, this information and supporting evidence must reach the Commission within 37 days of the date of publication of this notice in the *Official Journal of the European Union*.

#### 5.5. *Possibility to be heard by the Commission investigation services*

All interested parties may request to be heard by the Commission investigation services. Any request to be heard should be made in writing and should specify the reasons for the request. For hearings on issues pertaining to the initial stage of the investigation the request must be submitted within 15 days of the date of publication of this notice in the *Official Journal of the European Union*. Thereafter, a request to be heard must be submitted within the specific deadlines set by the Commission in its communication with the parties.

#### 5.6. *Instructions for making written submissions and sending completed questionnaires and correspondence*

All written submissions, including the information requested in this notice, completed questionnaires and correspondence provided by interested parties for which confidential treatment is requested shall be labelled 'Limited' <sup>(1)</sup>.

Interested parties providing 'Limited' information are required to furnish non-confidential summaries of it pursuant to Article 29(2) of the basic Regulation, which will be labelled 'For inspection by interested parties'. These summaries should be sufficiently detailed to permit a reasonable understanding of the substance of the information submitted in confidence. If an interested party providing confidential information does not furnish a non-confidential summary of it in the requested format and quality, such confidential information may be disregarded.

Interested parties are required to make all submissions and requests in electronic format (non-confidential submissions via e-mail, confidential ones on CD-R/DVD), and must indicate the name, address, e-mail address, telephone and fax numbers of the interested party. However, any powers of attorney, signed certifications, and any updates thereof, accompanying questionnaire replies must be submitted on paper, i.e. by post or by hand, at the address below. If an interested party cannot provide its submissions and requests in electronic format, it

must immediately contact the Commission in compliance with Article 28(2) of the basic Regulation. In cases where any interested party refuses access to or does not provide the necessary information within the time limits, or significantly impedes the investigation, provisional or final findings, affirmative or negative, may be made on the basis of facts available, in accordance with Article 28 of the basic Regulation.

Where it is found that any interested party has supplied false or misleading information, the information may be disregarded and use may be made of facts available.

If an interested party does not cooperate or cooperates only partially and findings are therefore based on facts available in accordance with Article 28 of the basic Regulation, the result may be less favourable to that party than if it had cooperated.

#### 7. **Hearing Officer**

Interested parties may request the intervention of the Hearing Officer for the Directorate-General for Trade. A request for a hearing with the Hearing Officer should be made in writing and should specify the reasons for the request. For hearings on issues pertaining to the initial stage of the investigation the request must be submitted within 15 days of the date of publication of this notice in the *Official Journal of the European Union*. Thereafter, a request to be heard must be submitted within specific deadlines set by the Commission in its communication with the parties.

The Hearing Officer will also provide opportunities for a hearing involving parties to take place which would allow different views to be presented and rebuttal arguments offered on issues pertaining, among other things, to subsidisation, injury, causal link and Union interest. Such a hearing would, as a rule, take place at the latest at the end of the fourth week following the disclosure of provisional findings.
