COMMISSION REGULATION (EC) NO 1332/2005**of 9 August 2005****amending Council Regulation (EC) No 338/97 on the protection of species of wild fauna and flora by regulating trade therein**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

of Namibia and South Africa), *Euphorbia* spp., *Orchidaceae*, *Cistanche deserticola* and *Taxus wallichiana* were amended.

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 338/97 of 9 December 1996 on the protection of species of wild fauna and flora by regulating trade therein ⁽¹⁾, and in particular Article 19(3), thereof,

Whereas:

- (1) At the 13th session of the Conference of the Parties to the Convention on International Trade in Endangered Species of Wild Fauna and Flora, hereinafter 'the Convention', held in Bangkok (Thailand) in October 2004, certain amendments were made to the Appendices to the Convention.
- (2) The species *Orcaella brevirostris*, *Cacatua sulphurea*, *Amazona finschi*, *Pyxis arachnoides* and *Chrysalidocarpus decipiens* were transferred from Appendix II to the Convention to Appendix I thereto.
- (3) The species *Haliaeetus leucocephalus*, *Cattleya trianaei* and *Vanda coerulea*, the Swaziland population of *Ceratotherium simum simum* (for the exclusive purpose of allowing international trade in hunting trophies and in live animals to appropriate and acceptable destinations), the Cuban population of *Crocodylus acutus* and the Namibian population of *Crocodylus niloticus* were transferred from Appendix I to the Convention to Appendix II thereto.
- (4) The annotations for the listings in Appendix II to the Convention of the species *Loxodonta africana* (populations

- (5) The species *Malayemys subtrijuga*, *Notochelys platynota*, *Amyda cartilaginea*, *Carettochelys insculpta*, *Chelodina mccordi*, *Uroplatus* spp., *Carcharodon carcharias* (currently listed on Appendix III), *Cheilinus undulatus*, *Lithophaga lithophaga*, *Hoodia* spp., *Taxus chinensis*, *T. cuspidata*, *T. fuana*, *T. sumatrana*, *Aquilaria* spp. (except for *A. malaccensis*, which was already listed in Appendix II), *Gyrinops* spp. and *Gonystylus* spp. (previously listed in Appendix III) were included in Appendix II to the Convention.

- (6) The species *Agapornis roseicollis* was deleted from Appendix II to the Convention.

- (7) Subsequent to the thirteenth session of the Conference of the Parties to the Convention, the Chinese populations of the species *Chinemys megaloccephala*, *C. nigricans*, *C. reevesii*, *Geoemyda spengleri*, *Mauremys iversoni*, *M. pritchardi*, *Ocadia glyhphistoma*, *O. philippeni*, *O. sinensis*, *Sacalia bealei*, *S. pseudocellata*, *S. quadriocellata*, *Palea steindachneri*, *Pelodiscus axenaria*, *P. maackii*, *P. parviformis*, *P. sinensis* and *Rafetus swinhoei* were subsequently been added to Appendix III of the Convention at the request of China .

- (8) None of the Member States have entered a reservation in respect of any of those amendments.

- (9) The thirteenth session of the Conference of the Parties to the Convention also adopted new taxonomic references which necessitate the renaming and taxonomic reordering of some of the species listed in the Appendices to the Convention.

⁽¹⁾ OJ L 61, 3.3.1997, p. 1. Regulation as last amended by Commission Regulation (EC) No 834/2004 (OJ L 127, 29.4.2004, p. 40).

- (10) The amendments made to Appendices I, II and III to the Convention therefore necessitate amendments to Annexes A, B and C of the Annex to Regulation (EC) No 338/97.
- (11) Despite the fact that the species *Haliaeetus leucocephalus* was transferred to Appendix II to the Convention, Article 6(1) of Council Directive 79/409/EEC of 2 April 1979 on the conservation of wild birds ⁽¹⁾ justifies its retention in Annex A of the Annex to Regulation (EC) No 338/97.
- (12) In accordance with the requirements of Article 12(2) of Council Directive 92/43/EEC of the 21 May 1992 on the conservation of natural habitats and of wild fauna and flora ⁽²⁾, *Orcaella brevirostris* is already listed in Annex A of the Annex to Regulation (EC) No 338/97.
- (13) The species *Arisaema jacquemontii*, *A. speciosum*, *A. triphyllum*, *Biaris davisii* ssp. *davisii*, *Othonna armiana*, *O. euphorbioides*, *O. lobata*, *Adenia fruticosa*, *A. spinosa*, *Ceraria gariepina*, *C. longipedunculata*, *C. namaquensis*, *C. pygmaea*, *C. schaeferi*, *Trillium catesbaei*, *T. cernuum*, *T. flexipes*, *T. grandiflorum*, *T. luteum*, *T. recurvatum* and *T. undulatum* - all currently included in Annex D of the Annex to Regulation (EC) No 338/97 - are not imported into the Community in such numbers as to warrant monitoring. Those species should therefore be deleted from Annex D.
- (14) On the other hand, *Selaginella lepidophylla*, not currently listed in Annexes A, B, C or D of the Annex to Regulation (EC) No 338/97 is being imported into the Community in such numbers as to warrant monitoring. That species should therefore be included in Annex D of the Annex to Regulation (EC) No 338/97.
- (15) The nature of the trade in *Harpagophytum* spp., currently listed in Annex D of the Annex to Regulation (EC) No 338/97, is such that the trade in dead plant material, as well as in live plants, warrants monitoring. The listing of that genus should therefore be amended by the insertion of an annotation to this effect.
- (16) In view of the extent of the amendments it is appropriate, for clarity purposes, to replace the Annex to Regulation (EC) No 338/97 in its entirety.
- (17) The measures provided for in this Regulation are in accordance with the opinion of the Committee on Trade in Wild Fauna and Flora,

HAS ADOPTED THIS REGULATION:

Article 1

The Annex to Regulation (EC) No 338/97 is replaced by the text in the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the third day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 9 August 2005.

ANNEX

ANNEX

Notes on interpretation of Annexes A, B, C and D

1. Species included in these Annexes A, B, C and D are referred to:
 - (a) by the name of the species; or
 - (b) as being all of the species included in a higher taxon or designated part thereof.
2. The abbreviation “spp.” is used to denote all species of a higher taxon.
3. Other references to taxa higher than species are for the purposes of information or classification only.
4. Species printed in bold in Annex A are listed there in consistency with their protection as provided for by Council Directive 79/409/EEC (Birds Directive) or Council Directive 92/43/EEC (Habitats Directive).
5. The following abbreviations are used for plant taxa below the level of species:
 - (a) “ssp” is used to denote subspecies;
 - (b) “var(s)” is used to denote variety (varieties); and
 - (c) “fa” is used to denote forma.
6. The symbols “(I)”, “(II)” and “(III)” placed against the name of a species or higher taxon refer to the Appendices of the Convention in which the species concerned are listed as indicated in notes 7 to 9. Where none of these annotations appears, the species concerned are not listed in the Appendices to the Convention.
7. (I) against the name of a species or higher taxon indicates that the species or higher taxon concerned is included in Appendix I to the Convention.
8. (II) against the name of a species or higher taxon indicates that the species or higher taxon concerned is included in Appendix II to the Convention.
9. (III) against the name of a species or higher taxon indicates that it is included in Appendix III to the Convention. In this case the country with respect to which the species or higher taxon is included in Appendix III is also indicated.
10. Hybrids may be specifically included in the Appendices but only if they from distinct and stable populations in the wild. Hybrid animals that have in their previous four generations of the lineage one or more specimens of species included in Annexes A or B shall be subject to the provisions of this Regulation just as if they were full species, even if the hybrid concerned is not specifically included in the Annexes.

11. In accordance with Article 2(t) of this Regulation, the symbol “#” followed by a number placed against the name of a species or higher taxon included in Annex B or C designates parts or derivatives which are specified in relation thereto for the purposes of the Regulation as follows:

#1 Designates all parts and derivatives, except:

- (a) seeds, spores and pollen (including pollinia);
- (b) seedling or tissue cultures obtained *in vitro*, in solid or liquid media, transported in sterile containers, and
- (c) cut flowers of artificially propagated plants.

#2 Designates all parts and derivations, except:

- (a) seeds and pollen;
- (b) seedling or tissue cultures obtained *in vitro*, in solid or liquid media, transported in sterile containers;
- (c) cut flowers of artificially propagated plants; and
- (d) chemical derivatives and finished pharmaceutical products.

#3 Designates whole and sliced roots and parts of roots, excluding manufactured parts or derivatives such as powders, pills, extracts, tonics, teas and confectionery.

#4 Designates all parts and derivatives, except:

- (a) seeds, except those from Mexican cacti originating in Mexico, and pollen;
- (b) seedling or tissue cultures obtained *in vitro*, in solid or liquid media, transported in sterile containers;
- (c) cut flowers of artificially propagated plants;
- (d) fruits and parts and derivatives thereof of naturalised or artificially propagated plants; and
- (e) separate stem joints (pads) and parts and derivatives therefore of naturalised or artificially propagated plants of the genus *Opuntia* subgenus *Opuntia*.

#5 Designates logs, sawn wood and veneer sheets;

#6 Designates logs, sawn wood, veneer sheets and plywood

#7 Designates logs, wood-chips and unprocessed broken material;

#8 Designates all parts and derivatives, except:

- (a) seeds and pollen (including pollinia);
- (b) seedling or tissue cultures obtained *in vitro*, in solid or liquid media, transported in sterile containers;
- (c) cut flowers of artificially propagated plants; and
- (d) fruits and parts and derivatives thereof of artificially propagated plants of the genus *Vanilla*.

#9 Designates all parts and derivatives, except:

those bearing a label "Produced from *Hoodia* spp. material obtained through controlled harvesting and production in collaboration with the CITES Management Authorities of Botswana/Namibia/South Africa under Agreement No BW/NA/ZA xxxxxx"

#10 Designates all parts and derivatives, except:

- (a) seeds and pollen; and
- (b) finished pharmaceutical products.

12. If no annotation is placed against the name of a species or higher taxon included in Annexes B or C, this means that all readily recognisable parts or derivatives are included.
13. As none of the species or higher taxa of flora included in Annex A is annotated to the effect that its hybrids shall be treated in accordance with the provisions of Article 4.1. of the Regulation, this means that artificially propagated hybrids produced from one or more of these species or taxa may be traded with a certificate of artificial propagation, and that seeds and pollen (including pollinia), cut flowers, seedling or tissue cultures obtained *in vitro*, in solid or liquid media, transported in sterile containers of these hybrids are not subject to the provisions of the Regulation.
14. Urine, faeces and ambergris which are waste products and gained without the manipulation of the animal concerned are not subject to the provisions of the Regulation.
15. In respect of fauna species listed in Annex D, the provisions shall apply only to live specimens and whole, or substantially whole, dead specimens except for taxa which are annotated as follows to show that other parts and derivatives are also covered:

§ 1 Any whole, or substantially whole, skins, raw or tanned.

§ 2 Any feathers or any skin or other part with feathers on it.

16. In respect of flora species listed in Annex D, the provisions shall apply only to live specimens except for taxa which are annotated as follows to show that other parts and derivatives are also covered:

§ 3 Dried and fresh plants, including, where appropriate; leaves, roots/rootstock, stems, seeds/spores, bark and fruits.

(¹) All species are listed in Appendix II except *Lipotes vexillifer*, *Platanista* spp., *Berardius* spp., *Hyperoodon* spp., *Orcaella brevirostris*, *Physeter catodon* (includes synonym *Physeter macrocephalus*), *Sotalia* spp., *Sousa* spp., *Neophocaena phocaenoides*, *Phocoena sinus*, *Eschrichtius robustus* (includes synonym *Eschrichtius glaucus*), *Balaenoptera* spp. (except population of West Greenland of *Balaenoptera acutorostrata*), *Megaptera novaeangliae*, *Balaena mysticetus*, *Eubalaena* spp. (formerly included in genus *Balaena*) and *Caperea marginata* which are listed in Appendix I. Specimens of the species listed in Appendix II to the Convention, including products and derivatives other than meat products for commercial purposes, taken by the people of Greenland under licence granted by the competent authority concerned, shall be treated as belonging to Annex B. A zero annual export quota is established for live specimens from the Black Sea population of *Tursiops truncatus* removed from the wild and traded for primarily commercial purposes.

(²) Populations of Botswana, Namibia and South Africa (listed in Annex B):
For the exclusive purpose of allowing: 1) trade in hunting trophies for non-commercial purposes; 2) trade in live animals for in situ conservation programmes; 3) trade in hides; 4) trade in leather goods for non-commercial purposes for Botswana; for commercial or non-commercial purposes for Namibia and South Africa; 5) trade in hair for commercial or non-commercial purposes for Namibia; 6) trade in individually marked and certified ekipas incorporated in finished jewellery for non-commercial purposes for Namibia; 7) trade in registered raw ivory (for Botswana and Namibia, whole tusks and pieces; for South Africa, whole tusks and cut pieces of ivory that are both 20 cm or more in length and one kilogramme or more in weight) subject to the following: i) only registered government-owned stocks, originating in the State (excluding seized ivory and ivory of unknown origin) and, in the case of South Africa, only ivory originating from the Kruger National Park; ii) only to trading partners that have been verified by the Secretariat, in consultation with the Standing Committee, to have sufficient national legislation and domestic trade controls to ensure that the imported ivory will not be re-exported and will be managed in accordance with all requirements of Resolution Conf.10.10. (Rev. CoP12) concerning domestic manufacturing and trade; iii) not before the Secretariat has verified the prospective importing countries, and the MIKE programme has reported to the Secretariat on the baseline information (e.g. elephant population numbers, incidence of illegal killing); iv) a maximum of 20,000 kg (Botswana), 10,000 kg (Namibia) and 30,000 kg (South Africa) of ivory may be traded, and despatched in a single shipment under strict supervision of the Secretariat; v) the proceeds of the trade are used exclusively for elephant conservation and community conservation and development programmes within or adjacent to the elephant range; vi) only after the Standing Committee has agreed that the above conditions have been met. On a proposal from the Secretariat, the Standing Committee can decide to cause this trade to cease partially or completely in the event of non-compliance by exporting or importing countries or in the case of proven detrimental impacts of the trade on other elephant populations. All other specimens shall be deemed to be specimens of species included in Annex A and the trade in them shall be regulated accordingly.

(³) Population of Zimbabwe (listed in Annex B):
For the exclusive purpose of allowing: 1) export of hunting trophies for non-commercial purposes; 2) export of live animals to appropriate and acceptable destinations; 3) export of hides; 4) export of leather goods and ivory carvings for non-commercial purposes. All other specimens shall be deemed to be specimens of species included in Annex A and the trade in them shall be regulated accordingly. To ensure that where a) destinations for live animals are to be "appropriate and acceptable" and/or b) the purpose of the import is to be "non-commercial", export permits and re-export certificates may be issued only after the issuing Management Authority has received, from the Management Authority of the State of import, a certification to the effect that: in case a), in analogy to Article 4, 1(c) of this Regulation, the holding facility has been reviewed by the competent Scientific Authority, and the proposed recipient has been found to be suitably equipped to house and care for the animals; and/or in case b), in analogy to Article 4, paragraph 1(d), the Management Authority is satisfied that the specimens will not be used for primarily commercial purposes.

(⁴) Population of Argentina (listed in Annex B):
For the exclusive purpose of allowing international trade in wool sheared from live vicuñas of the populations included in Annex B, in cloth and in derived manufactured products and other handicraft artefacts. The reverse side of the cloth must bear the logotype adopted by the range States of the species, which are signatories to the Convenio para la Conservación y Manejo de la Vicuña, and the selvages the words "VICUÑA-ARGENTINA". Other products must bear a label including the logotype and the designation "VICUÑA-ARGENTINA-ARTESANÍA". All other specimens shall be deemed to be specimens of species included in Annex A and the trade in them shall be regulated accordingly.

(⁵) Population of Bolivia (listed in Annex B):
For the exclusive purpose of allowing international trade in products made from wool sheared from live animals The wool must bear the logotype adopted by the range States of the species, which are signatories to the Convenio para la Conservación y Manejo de la Vicuña, and the selvages the words "VICUÑA-BOLIVIA". Other products must bear a label including the logotype and the designation "VICUÑA-BOLIVIA-ARTESANÍA". All other specimens shall be deemed to be specimens of species included in Annex A and the trade in them shall be regulated accordingly.

(⁶) Population of Chile (listed in Annex B):
For the exclusive purpose of allowing international trade in wool sheared from live vicuñas of the populations included in Annex B, and in cloth and items made thereof, including luxury handicrafts and knitted articles. The reverse side of the cloth must bear the logotype adopted by the range States of the species, which are signatories to the Convenio para la Conservación y Manejo de la Vicuña, and the selvages the words "VICUÑA-CHILE". Other products must bear a label including the logotype and the designation "VICUÑA-CHILE-ARTESANÍA". All other specimens shall be deemed to be specimens of species included in Annex A and the trade in them shall be regulated accordingly.

(7) Population of Peru (listed in Annex B):

For the exclusive purpose of allowing international trade in wool sheared from live vicuñas and in the stock extant at the time of the ninth meeting of the Conference of the Parties (November 1994) of 3249 kg of wool, and in cloth and items made thereof, including luxury handicrafts and knitted articles. The reverse side of the cloth must bear the logotype adopted by the range States of the species, which are signatories to the Convenio para la Conservación y Manejo de la Vicuña, and the selvages the words "VICUÑA-PERU". Other products must bear a label including the logotype and the designation "VICUÑA-PERU-ARTESANÍA". All other specimens shall be deemed to be specimens of species included in Annex A and the trade in them shall be regulated accordingly.

(8) The following are not subject to the provisions of this Regulation:

Fossils

Coral sand, that is to say material consisting entirely or in part of finely crushed fragments of dead coral no larger than 2 mm in diameter and which may also contain, amongst other things, the remains of Foraminifera, mollusc and crustacean shell, and coralline algae

Coral fragments (including gravel and rubble), that is to say unconsolidated fragments of broken finger-like dead coral and other material between 2 and 30 mm in diameter.

(9) Artificially propagated specimens of the following hybrids and/or cultivars are not subject to the provisions of this Regulation:

- *Hatiora x graeseri*
- *Schlumbergera x buckleyi*
- *Schlumbergera russelliana x Schlumbergera truncata*
- *Schlumbergera orssichiana x Schlumbergera truncata*
- *Schlumbergera opuntioidea x Schlumbergera truncata*
- *Schlumbergera truncata* (cultivars)
- *Cactaceae* spp. colour mutants lacking chlorophyll, grafted on the following grafting stocks: *Harrisia "Jusbertii"*, *Hylocereus trigonus* or *Hylocereus undatus*
- *Opuntia microdasys* (cultivars)

(10) Artificially propagated specimens of hybrids of the genera *Cymbidium*, *Dendrobium*, *Phalaenopsis*, and *Vanda* are not subject to the provisions of the Regulation when: a) specimens are traded in shipments consisting of individual containers (i.e. cartons, boxes, or crates) containing 20 or more plants of the same hybrid each; and b) the plants within each container that can be readily recognized as artificially propagated specimens, exhibiting a high degree of uniformity and healthiness; and c) shipments are accompanied by documentation, such as an invoice, which clearly states the number of plants of each hybrid.

Artificially propagated specimens of the following hybrids:

Cymbidium: Interspecific hybrids within the genus and intergeneric hybrids

Dendrobium: Interspecific hybrids within the genus known in horticulture as "nobile-types" and "phalaenopsis-types"

Phalaenopsis: Interspecific hybrids within the genus and intergeneric hybrids

Vanda: Interspecific hybrids within the genus and intergeneric hybrids are not subject to the provisions of the Regulation when: a) they are traded in flowering state, i.e. with at least one open flower per specimen, with reflexed petals; b) they are professionally processed for commercial retail sale, e.g. labelled with printed labels and packaged with printed packages; c) they can be readily recognized as artificially propagated specimens by exhibiting a high degree of cleanliness, undamaged inflorescences, intact root systems and general absence of damage or injury that could be attributable to plants originating in the wild; d) plants do not exhibit characteristics of wild origin, such as damage by insects or other animals, fungi or algae adhering to leaves, or mechanical damage to inflorescences, roots, leaves or other parts resulting from collection; and e) labels or packages indicate the trade name of the specimen, the country of artificial propagation or, in case of international trade during the production process, the country where the specimen was labelled and packaged; and labels or packages show a photograph of the flower, or demonstrate by other means the appropriate use of labels and packages in an easily verifiable way.

Plants not clearly qualifying for the exemption must be accompanied by appropriate CITES documents.

(11) Artificially propagated specimens of cultivars of *Cyclamen persicum* are not subject to the provisions of this Regulation. However, the exemption does not apply to such specimens traded as dormant tubers.

(12) Exempt: whole artificially propagated plants in pots or other small containers, each consignment being accompanied by a label or document stating the name of the taxon or taxa and the text "artificially propagated".
