Remarks

This appropriation is intended to cover the promotion of projects aiming at the Union's offshore wind grid system development, with a particular focus on:

- balancing the variability of wind electricity through integrative systems,
- large-scale storage systems,
- management of wind farms as virtual power plants (more than 1 GW),
- turbines placed further from the shore or in deeper waters (20 to 50 m) than is currently standard,
- novel sub-structure designs, or
- innovative features and the demonstration of its implementation,
- processes for assembly, installation, operation and decommissioning and testing of these processes in life-size projects.

This appropriation is intended to cover the financing of the second step of the economic recovery plan as agreed between the two arms of the budget authority on 2 April 2009. Its financing is conditional on an agreement by the budgetary authority and should be made available as provided for in points 21 to 23 of the IIA of 17 May 2006, without prejudice to the financial envelopes of the codecision programmes and Parliament's priorities.

If the Commission's annual report to Parliament and the Council on the implementation of the Economic Recovery Plan identifies serious risks for implementing the priority projects, the Commission shall recommend measures to offset those risks, and shall where appropriate and consistent with the Recovery Plan, make additional proposals for the projects already referred to in Regulation (EC) No 663/2009.

Legal basis

Regulation (EC) No 663/2009 of the European Parliament and of the Council of 13 July 2009 establishing a programme to aid economic recovery by granting Community financial assistance to projects in the field of energy (OJ L 200, 31.7.2009, p. 31).
