COMMISSION REGULATION (EC) No 1282/2006

of 17 August 2006

laying down special detailed rules for the application of Council Regulation (EC) No 1255/1999 as regards export licences and export refunds for milk and milk products

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1255/1999 of 17 May 1999 on the common organisation of the market in milk and milk products ⁽¹⁾, and in particular Articles 26(3), 30(1) and 31(14) thereof,

Whereas:

- (1) Regulation (EC) No 1255/1999 lays down, amongst others, general rules for granting export refunds in the milk and milk products sector, in order, in particular, to permit the monitoring of the value and quantity limits for refunds. Detailed rules for the application of those general rules have been laid down in Commission Regulation (EC) No 174/1999 of 26 January 1999 laying down special detailed rules for the application of Council Regulation (EEC) No 804/68 as regards export licences and export refunds in case of milk and milk products ⁽²⁾.
- (2) Regulation (EC) No 174/1999 has been substantially amended several times. Since further amendments are to be made, Regulation (EC) No 174/1999 should be repealed and replaced by a new regulation in the interest of clarity and efficiency.
- (3) Under the Agriculture Agreement ⁽³⁾ concluded during the Uruguay Round of the GATT trade negotiations and approved by Council Decision 94/800/EC ⁽⁴⁾ (hereinafter referred to as the 'Agriculture Agreement'), export refunds on agricultural products, including milk products, are limited within each 12-month period starting from 1 July 1995 to a maximum quantity and a maximum value. In order to ensure compliance with those limits, the issue of export licences should be monitored and procedures should be adopted for allocating the quantities which may be exported with a refund.
- (4) Article 5 of Commission Regulation (EC) No 1291/2000 of 9 June 2000 laying down common detailed rules for the application of the system of import and export licences and advance fixing certificates for agricultural products ⁽⁵⁾ provides for specific operations and certain quantities below which no export licence is required. Some special provisions should be adopted for the milk and milk products sector in that respect.
- (5) The tolerance permitted by that Regulation as regards the quantity of goods exported compared with the quantity indicated on the licence should be reduced and, in order to ensure effective controls on limits, there should be no refunds paid on quantities exceeding what is indicated on the licence. The securities to be

lodged when licence applications are submitted should be sufficient to prevent speculative applications.

- (6) The term of validity of export licences should be fixed.
- (7) In order to ensure accurate checking of the products exported and to minimise the risk of speculation, the possibility of changing the product for which a licence has been issued should be restricted.
- (8) Article 4(2) of Commission Regulation (EC) No 800/1999 of 15 April 1999 laying down common detailed rules for the application of the system of export refunds on agricultural products ⁽¹⁾ lays down rules for the use of export licences with advance fixing of the refund for the exportation of products with a 12-digit code other than that shown in section 16 of the licence. This provision is applicable in a specific sector only if product categories as referred to in Article 14 of Regulation (EC) No 1291/2000 and product groups as referred to in the second indent of the first subparagraph of Article 4(2) of Regulation (EC) No 800/1999 have been defined.
- (9) For the milk and milk products sector, product categories are already defined with reference to the categories provided for in the Agriculture Agreement. In the interest of sound management this use of categories should be retained and Article 4(2) of Regulation (EC) No 800/1999 applied on the basis of defined product groups only.
- (10) In the milk sector, refund rates are highly differentiated, notably according to fat content. To ensure that this will not be called into question while at the same time the objective of Article 4(2) of Regulation (EC) No 800/1999 is respected, the product groups should be narrowly defined. With a view to harmonisation it is appropriate to apply that rule to all milk products and to define product groups for cheese accordingly.
- (11) With a view to harmonising with the provisions of Regulation (EC) No 800/1999 the conditions under which a licence holder is allowed to export a product different from the one shown in section 16 of the export licence, licence holders should no longer be obliged to request for a change to be made before the completion of the export formalities. To avoid discriminations between operators exporting under the current regime and those exporting under this Regulation, that provision may be applied retroactively at the request of the licence holder.
- (12) To enable operators to participate in invitations to tender opened by third countries without affecting the restrictions as regards volume, a system of provisional licences should be introduced giving successful tenderers the right to a full licence. To ensure that such licences are correctly used, for certain exports with refunds the country of destination should be defined as compulsory.
- (13) In order to ensure effective monitoring of licences issued, which depends on the notification of information to the Commission by the Member States, a waiting time should be provided for before licences are issued. In order to ensure the smooth operation of the arrangements, and in particular an equitable allocation of the quantities available within the limits laid down by the Agriculture Agreement, various management measures should be laid down and, in particular, provision should be made for the issue of licences to be suspended and for an allocation coefficient to be applied to the quantities applied for, if necessary.

⁽¹⁾ OJ L 102, 17.4.1999, p. 11. Regulation as last amended by Regulation (EC) No 671/2004 (OJ L 105, 14.4.2004, p. 5).

- (14) Exports of the products in the context of food-aid operations should be excluded from certain provisions in regard to issuing of export licences.
- (15) Experience has shown that the number of applications for export licences for particular cheese varies according to destination. In order that special measures can be applied according to the destination indicated on licence applications, destination zones should be fixed and the destination zone indicated on export licences made obligatory for products falling within CN code 0406.
- (16) The method for fixing the refund on milk products containing added sugar, the price of which is determined by the price of the ingredients, should be laid down according to the percentage of the ingredients contained therein. However, to facilitate the management of refunds for these products, and particularly measures to ensure compliance with commitments regarding exports in the context of the Agriculture Agreement, a maximum quantity should be fixed for sucrose incorporated for which a refund may be granted. Forty-three percent by weight of whole product should be considered as representative of the sucrose content of such products.
- (17) Article 11(6) of Regulation (EC) No 800/1999 provides that refunds may be granted for ingredients of Community origin in processed cheese manufactured under the inward processing arrangements. Certain special rules are needed to ensure that this specific measure operates properly and can be effectively checked.
- (18) Under the Agreement concluded between the European Community and Canada ⁽¹⁾, approved by Council Decision 95/591/EC ⁽²⁾, export licences issued by the Community are to be presented for cheese qualifying for preferential terms on import into Canada. The detailed rules for issuing such licences should be laid down. To ensure that the quantities of cheese imported into Canada under the import quota correspond to the quantities for which licences have been issued, the licences duly stamped by the Canadian authorities should be returned to the competent bodies of the Member States and the data on exports should be forwarded by the Member States to the Commission. It is appropriate to clarify the need for a minimum security, even though no refund is applied for under this regime.
- (19) The Community has the option of designating which importers may import Community cheese into the United States of America (USA) under the additional quota arising from the Agriculture Agreement. To allow the Community to maximise the value of the quota, a procedure should therefore be laid down for designating importers on the basis of the allocation of export licences for the products concerned.
- (20) The Memorandum of Understanding between the European Community and the Dominican Republic on import protection for milk powder in the Dominican Republic ⁽³⁾, approved by Council Decision 98/486/EC ⁽⁴⁾, provides for the Community to manage its share of the tariff quota according to a mechanism of export licences. The procedure for awarding licences should therefore be determined. In order to ensure that products imported into the Dominican Republic are part of the quota and to establish a link between the products imported and those indicated on the export licence, exporters should present, at the time of import, a certified copy of the export declaration, which must contain certain information.

- (21) Commission Regulation (EEC) No 896/84 ⁽¹⁾ laid down additional provisions concerning the granting of refunds on the change from one milk year to another where intervention prices were changed. Those provisions provide for the possibility of fixing different refunds rates according to the date of manufacture of the products. The required presentation of evidence of the production date and the control procedures to check the accuracy of the related documents and accounts have proved to be very complicated and burdensome. The same objective can be reached by adjusting the validity period of the export licences. Regulation (EEC) No 896/84 should therefore be repealed.
- (22) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Milk and Milk Products,

HAS ADOPTED THIS REGULATION:

Article 7

1. Section 16 of licence applications and licences shall show the 12-digit product code of the nomenclature for refunds where a refund is requested or the eight-digit product code of the Combined Nomenclature where no refund is requested. Licences shall be valid for that product alone except in the cases specified in paragraphs 2 and 3.

2. By way of derogation from paragraph 1, an export licence shall also be valid for the exportation of a product covered by a 12-digit product code other than that indicated in box 16 of the licence if the same amount of export refund is granted to both products and if both products belong to the same product category as referred to in Annex I.

3. By way of derogation from paragraph 1, an export licence shall also be valid for the exportation of a product covered by a 12-digit product code other than that indicated in box 16 of the licence if both products belong to the same product group as referred to in Annex II.

In such case, refunds shall be calculated in accordance with the second subparagraph of Article 4(2) of Regulation (EC) No 800/1999.

Article 8

Export licences shall be valid from the day of issue, within the meaning of Article 23(1) of Regulation (EC) No 1291/2000, until:

The security for provisional licences shall be equal to 75 % of the amount calculated in accordance with Article 10 of this Regulation, with a minimum of EUR 5/100 kg.

Operators shall furnish proof that the body issuing the invitation to tender is public or subject to public law.

▼B

2. Provisional licences shall be issued on the fifth working day following that on which the application is lodged, provided that measures as referred to in Article 11(2) have not been adopted.

3. By way of derogation from Article 49(5) of Regulation (EC) No 1291/2000, the period for submitting the information referred to in that paragraph shall be 60 days.

Before the end of that period, operators shall apply for the full export licence, which shall be issued on presentation of proof that they have been awarded a contract.

On presentation of proof that the tender has been rejected or that the quantity awarded by the contract is less than that indicated on the provisional licence, the whole or part of the security shall be released as appropriate.

4. Licence applications referred to in paragraphs 2 and 3 shall be submitted in accordance with Article 13 of Regulation (EC) No 1291/2000.

5. The provisions of this Chapter, with the exception of Article 11, shall apply to full export licences.

6. The country of destination referred to in Article 4(3) shall be a compulsory destination for the purposes of Article 19(5) of Regulation (EC) No 800/1999 for licences issued in accordance with this Article.

7. Article 49(9)(c) of Regulation (EC) No 1291/2000 shall not apply.

Article 10

1. The security referred to in Article 15(2) of Regulation (EC) No 1291/2000 shall be equal to a percentage of the refund fixed for each product code applicable on the day the export licence application is lodged, as follows:

- (a) 15 % for products covered by CN code 0405;
- (b) 15 % for products covered by CN code 0402 10;
- (c) 15 % for products covered by CN code 0406;
- (d) 15 % for the other products referred to in Article 1 of Regulation (EC) No 1255/1999.

The security may not, however, be less than EUR 5/100 kg.

The amount of the refund referred to in the first subparagraph shall be that calculated for the total quantity of the product concerned, except for milk products containing added sugar.

For milk products containing added sugar, the amount of the refund referred to in the first subparagraph shall be equal to the total quantity of the whole product concerned, multiplied by the refund rate applicable per kilogram of milk product.

2. Article 35(3) of Regulation (EC) No 1291/2000 shall not apply to licences issued in accordance with this Regulation.

Article 11

1. Export licences with advanced fixing of the refund shall be issued on the fifth working day following the day on which applications are submitted, provided that the quantities for which licences have been applied for have been communicated in accordance with Article 9(1) of Commission Regulation (EC) No 562/2005⁽¹⁾ and that measures

⁽¹⁾ OJ L 95, 14.4.2005, p. 11.

▼B

referred to in points (a) and (b) of paragraph 2 of this Article have not been adopted.

2. Where the issue of export licences would or might result in the available budgetary amounts being exceeded or in the maximum quantities which may be exported with a refund being exhausted during the 12-month period in question or in a shorter period to be determined pursuant to Article 12 of this Regulation, taking into account Article 31 (13) of Regulation (EC) No 1255/1999, or would not allow exports to continue during the remainder of the period, the Commission may:

- (a) apply an allocation coefficient to the quantities applied for;
- (b) reject all or part of pending applications for which export licences have not yet been issued;
- (c) suspend the lodging of licence applications for a maximum of five working days; the suspension may be further extended in accordance with the procedure referred to in Article 42(2) of Regulation (EC) No 1255/1999.

Where the coefficient referred to in point (a) of the first subparagraph is less than 0,4, applicants may, within three working days of publication of the decision fixing the coefficient, request the cancellation of their licence application and the release of their security.

In the case referred to in point (c) of the first subparagraph, licence applications submitted during the suspension period shall be invalid.

The measures referred to in points (a), (b) and (c) of the first subparagraph may be implemented or modulated by category of product and by destination or group of destinations.

For the purposes of the first subparagraph, account shall be taken, as regards the product in question, of the seasonal nature of trade, the market situation, and in particular the trend in prices on the market and the export conditions resulting there from.

3. The measures referred to in paragraph 2 may also be adopted where export licence applications relate to quantities which exceed or might exceed the normal available quantities for one destination or group of destinations and issuing the licences requested would entail a risk of speculation, distortion of competition between operators, or disturbance of the trade concerned or the Community market.

4. If applications for licences are rejected or quantities applied for are reduced, the security shall be immediately released for all quantities for which applications have not been accepted.

Article 12

Where the total quantity covered by the licence applications submitted is such that there is a risk of early exhaustion of the maximum quantities which may be exported with refund during the 12-month period in question, it may be decided, in accordance with the procedure referred to in Article 42(2) of Regulation (EC) No 1255/1999, to allocate those maximum quantities over periods to be determined.

Article 13

1. Where the quantity exported exceeds that shown on the licence, no refund shall be payable on the overrun.

To that end, section 22 of licences shall contain the words: 'Payment of the refund restricted to the quantity shown in sections 17 and 18'.

2. By way of derogation from Articles 8(5) and 35(2) of Regulation (EC) No 1291/2000 on tolerances for quantities exported, the following rates shall apply:

▼B

- (a) the rate provided for in Article 8(5) of Regulation (EC) No 1291/2000 shall be 2 %;
- (b) the rate provided for in the first and second subparagraphs of Article 35(2) of Regulation (EC) No 1291/2000 shall be 98 %;
- (c) the rate provided for in the third subparagraph of Article 35(2) shall be 2 %.

Article 14

Article 11 shall not apply to the issuing of export licences for food-aid supplies as referred to in Article 10(4) of the Agriculture Agreement.

Article 15

1. For licences issued for products falling within CN code 0406, the following words shall be entered in section 20 of licence applications and licences:

‘Licence valid for zone ... as defined in Article 15(2) of Regulation (EC) No 1282/2006’.

2. The following definitions shall apply for the purposes of paragraph 1:

- (a) zone I: destination codes AL, BA, XK, MK, XM et XS;
- (b) zone II: destination code US;
- (c) zone III: all other destination codes.

3. The zone indicated in section 20 of applications and licences, as referred to in paragraph 1, shall be a compulsory destination.

The zone indicated shall be the zone, as defined in paragraph 2 of this Article, to which the country of destination indicated in section 7 of the licence application and licence belongs.

No refund shall be paid where the actual destination is in a zone other than that indicated in the licence application and in the licence. Article 18(3) of Regulation (EC) No 800/1999 shall not apply.

Article 16

1. For milk products containing added sugar, the refund shall be equal to the sum of the following components:

- (a) a component representing the quantity of milk product;
- (b) a component representing the quantity of added sucrose, up to a maximum of 43 % by weight of whole product.

▼M2

2. The component referred to in paragraph 1(a) shall be calculated by multiplying the fixed amount of the refund by the percentage of milk product content of the whole product.

▼B

3. The component referred to in paragraph 1(b) shall be calculated by multiplying the sucrose content of the whole product, up to a maximum of 43 %, by the basic amount of the refund applicable on the day the licence application is submitted for the products listed in Article 1(1)(c) of Council Regulation (EC) No 318/2006 ⁽¹⁾.

⁽¹⁾ OJ L 58, 28.2.2006, p. 1.

Article 17

1. Export licence applications for milk and milk products exported in the form of products falling within CN code 0406 30 as referred to in the third indent of Article 11(6) of Regulation (EC) No 800/1999 shall be accompanied by a copy of the authorisation to use the relevant customs procedure.
2. Section 20 of licence applications and licences for exports of milk and milk products referred to in paragraph 1 shall contain a reference to this Article.
3. The Member States shall take the necessary steps under the arrangements referred to in paragraph 1 to identify and check the quality and quantity of the products referred to in that paragraph for which a refund has been applied for and to apply the provisions on entitlement to the refund.

2. The Commission shall decide as quickly as possible to what extent licences for quantities applied for may be granted and shall inform the Member States of its decision.

▼B

If the application of the allocation coefficient results in a quantity per applicant of less than 20 tonnes, applicants may withdraw their applications. In such cases, they shall notify the competent authority within three working days of publication of the Commission's decision. The security shall be released immediately. The competent authority shall notify the Commission, within eight working days of publication of the decision, of the quantities for which applications have been withdrawn and for which the security has been released.

Where the total quantity covered by licence applications is less than the quantity available for the period in question, the Commission shall allocate the quantity remaining, on the basis of objective criteria taking account in particular of licence applications for all the products falling within CN codes 0402 10, 0402 21 and 0402 29.

Article 34
