

NOTICE TO IMPORTERS**Imports of high-content sugar products into the Community**

(2007/C 265/07)

The European Commission informs Community operators that there is reasonable doubt as to the origin of the high sugar content products of heading CN 1704 90 99; 1806 10 30; 1806 10 90; 1806 20 95; 1901 90 99; 2101 12 98; 2101 20 98; 2106 90 59; 2106 90 98; 3302 10 29 which are released for free circulation into the Community in order to benefit from preferential tariff measures, contained in agreements which the Community has concluded with or in arrangements it has adopted unilaterally in respect of certain countries or groups of countries.

Community operators declaring and/or presenting documentary evidence of origin for the products mentioned above are therefore advised to take all necessary precautions, since the release of the goods in question for free circulation may give rise to a customs debt and lead to fraud against the Community's financial interests.
