Financial year 2014	Financial year 2013	Financial year 2012
40 000 000	40 000 000	36 373 677,44

Remarks

This article is intended to record revenue from the interest yielded by pre-financing.

In accordance with Article 21(3)(d) of the Financial Regulation, this revenue may be used to provide additional appropriations on the lines which bore the initial expenditure giving rise to the corresponding revenue.

Interest generated by pre-financing payments made from the budget shall not be due to the Union except as otherwise provided for in the delegation agreements, with the exception of those agreements concluded with third countries or the bodies they have designated. In cases in which it is provided for, such interest shall either be reused for the corresponding action, deducted from payment requests in accordance with point (c) of the first subparagraph of Article 23(1) of the Financial Regulation or recovered.

The Delegated Regulation (EU) No 1268/2012 also lays down provisions regarding the accounting of interest yielded on pre-financing.

Legal basis

Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1), and in particular Article 8(4) and Article 21(3)(d) thereof.

Financial year 2014	Financial year 2013	Financial year 2012
p.m.	p.m.	8 931 169,74

Remarks

This article is intended to record interest and other revenue generated on trust accounts.

The trust accounts are kept on behalf of the Union by international financial institutions (European Investment Fund, European Investment Bank, Council of Europe Development Bank/Kreditanstalt für Wiederaufbau, European Bank for Reconstruction and Development) managing Union programmes and the amounts paid in by the Union remain on the account until they are made available to the beneficiaries under the single programme, such as small and medium-sized enterprises or institutions managing projects in acceding countries.

In accordance with Article 21(4) of the Financial Regulation, interest generated by trust accounts used for Union programmes is used to provide additional appropriations on the lines which bore the initial expenditure giving rise to the corresponding revenue.

Legal basis

Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1), and in particular Article 21(4) thereof.

CHAPTER 6 1 — REPAYMENT OF MISCELLANEOUS EXPENDITURE**6 1 1** *Repayment of expenditure incurred on behalf of one or more Member States*

6 1 1 3 Revenue from the investments provided for in Article 4 of Decision 2003/76/EC — Assigned revenue

Financial year 2014	Financial year 2013	Financial year 2012
p.m.	p.m.	61 921 310,65

Remarks

Decision 2003/76/EC stipulates that the Commission is entrusted with winding up the financial operations of the European Coal and Steel Community (ECSC) which are still in progress upon expiry of the ECSC Treaty.

Pursuant to Article 4 of that Decision, net revenue from the investment of available assets will constitute revenue in the general budget of the European Union earmarked for a specific purpose, namely financing research projects in sectors related to the coal and steel industry by the Research Fund for Coal and Steel.

The net revenue available for financing research projects in year $n + 2$ appears in the balance sheet of the ECSC in liquidation for year n , and after the liquidation process has been completed will appear as assets in the balance sheet of the Coal and Steel Research Fund. This financing mechanism took effect in 2003. Revenue coming from 2012 will be used for research in 2014. In order to reduce as far as possible the fluctuations that movements in the financial markets could cause in the financing of research, a smoothing arrangement is applied. The amount of net revenue expected to be available for research in 2014 comes to EUR 48 366 250.

In accordance with Article 4 of Decision 2003/76/EC, 72,8 % of the fund's appropriations will be for the steel-related sector and 27,2 % for the coal-related sector.

In accordance with Article 21 and Article 181(2) of the Financial Regulation, revenue will be used to provide additional appropriations under Chapter 08 23 of the statement of expenditure in this section.

Remarks

Any delay by a Member State in making the entry in the account opened in the name of the Commission referred to in Article 9(1) of Regulation (EC, Euratom) No 1150/2000 gives rise to the payment of interest by the Member State concerned.

In the case of Member States whose currency is the euro, the interest rate shall be equal to the rate as published in the *Official Journal of the European Union*, C series, which the European Central Bank applied to its refinancing operations, on the first day of the month in which the due date fell, increased by two percentage points. This rate shall be increased by 0,25 of a percentage point for each month of delay. The increased rate shall be applied to the entire period of delay.

In the case of Member States whose currency is not the euro, the rate shall be equal to the rate applied on the first day of the month in question by the Central Banks for their main refinancing operations, increased by two percentage points, or, for the Member States for which the Central Bank rate is not available, the most equivalent rate applied on the first day of the month in question on the Member State's money market, increased by two percentage points. This rate shall be increased by 0,25 of a percentage point for each month of delay. The increased rate shall be applied to the entire period of delay.

The interest rate applies to all entries of own resources enumerated under Article 10 of Regulation (EC, Euratom) No 1150/2000.

Remarks

The Commission may impose fines, periodic penalty payments and other penalties on undertakings and associations of undertakings for not respecting bans or not carrying out their obligations under the Regulations enumerated below or under Articles 101 and 102 of the Treaty on the Functioning of the European Union.

COMMISSION

CHAPTER 7 1 — FINES (*cont'd*)**7 1 0** (*cont'd*)

The fines must normally be paid within three months of the Commission decision being notified. However, the Commission will not collect the amount due when the undertaking has lodged an appeal with the Court of Justice of the European Union; the undertaking must accept that interest will be paid on the debt after the final date for payment and provide the Commission with a bank guarantee covering both the principal of the debt and interest or surcharges by the final date for payment.

Legal basis

Council Regulation (EC) No 1/2003 of 16 December 2002 on the implementation of the rules on competition laid down in Articles 81 and 82 of the Treaty (OJ L 1, 4.1.2003, p. 1).

Council Regulation (EC) No 139/2004 of 20 January 2004 on the control of concentrations between undertakings (the EC Merger Regulation) (OJ L 24, 29.1.2004, p. 1), and in particular Articles 14 and 15 thereof.

Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Commission Delegated Regulation (EU) No 1268/2012 of 29 October 2012 on the rules of application of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council on the financial rules applicable to the general budget of the Union (OJ L 362, 31.12.2012, p. 1).

7 1 1 *Excess emissions premiums for new passenger cars*

Financial year 2014	Financial year 2013	Financial year 2012
p.m.	p.m.	

Remarks

This article is intended to record any excess emissions premium imposed by the Commission.

The objective of Regulation (EC) No 443/2009 is to set emission performance standards for new passenger cars registered in the Union, which forms part of the Union's integrated approach to reducing CO₂ emissions from light-duty vehicles while ensuring the proper functioning of the internal market.

However, in respect of each calendar year from 2012 onwards for which a manufacturer's average specific emissions of CO₂ exceed its specific emissions target in that year, the Commission shall impose an excess emissions premium on the manufacturer or, in the case of a pool, the pool manager.

Legal basis

Regulation (EC) No 443/2009 of the European Parliament and of the Council of 23 April 2009 setting emission performance standards for new passenger cars as part of the Community's integrated approach to reduce CO₂ emissions from light-duty vehicles (OJ L 140, 5.6.2009, p. 1), and in particular Article 9 thereof.

Commission Decision 2012/100/EU of 17 February 2012 on a method for the collection of premiums for excess CO₂ emissions from new passenger cars pursuant to Regulation (EC) No 443/2009 of the European Parliament and of the Council (OJ L 47, 18.2.2012, p. 71).

7 2 0 0 Interest on deposits and fines resulting from implementation of the excessive deficit procedure — Assigned revenue

Financial year 2014	Financial year 2013	Financial year 2012
p.m.	p.m.	0,—

Remarks

Revenue arising from interest on deposits and fines resulting from implementation of the excessive deficit procedure.

In accordance with Article 21(2)(c) of the Financial Regulation, this revenue is to be considered as assigned revenue and gives rise to the entry of additional appropriations on the lines which bore the initial expenditure giving rise to the corresponding revenue.

Legal basis

Council Regulation (EC) No 1467/97 of 7 July 1997 on speeding up and clarifying the implementation of the excessive deficit procedure (OJ L 209, 2.8.1997, p. 6), and in particular Article 16 thereof.

CHAPTER 8 1 — LOANS GRANTED BY THE COMMISSION

8 1 0 *Capital repayments and interest in respect of special loans and risk capital granted in the framework of financial cooperation with Mediterranean third countries*

Financial year 2014	Financial year 2013	Financial year 2012
p.m.	p.m.	0,—

Remarks

This article is intended to record capital repayments and interest payments on special loans and risk capital granted from the appropriations in Chapters 21 03 and 22 02 of the statement of expenditure in this section to Mediterranean third countries.

It also comprises capital repayments and interest payments on special loans and risk capital granted to certain Mediterranean Member States which, however, represent a very small proportion of the overall amount. These loans/risk capital were granted at a time the countries had not yet joined the Union.

The revenue obtained normally exceeds the amounts forecast in the budget because of the interest payments on special loans which may still be disbursed during the preceding financial year as well as during the current financial year. The interest on special loans and risk capital is charged from the moment the loans are disbursed; interest on special loans is paid in six-monthly instalments and interest on risk capital generally in annual instalments.

Remarks

This appropriation is intended to cover the following expenditure incurred within the territory of the Union:

- the remuneration of contract staff (within the meaning of the Conditions of Employment of Other Servants of the European Union), employer's contributions to social welfare for contract staff and the impact of weightings applicable to the remuneration of such staff,
- a sum to cover the remuneration of contract staff acting as guides for persons with disabilities,
- the employment of agency staff, particularly clerical staff and shorthand typists,
- expenditure on staff included in service contracts for technical and administrative work and the supply of intellectual services, and expenditure on buildings and equipment and operating costs relating to this type of staff,
- the cost of national civil servants or other experts on secondment or temporary assignment to the Commission or called for short consultations, particularly to draft legislation on harmonisation in various areas; exchanges are also organised to allow uniform application of Union legislation by the Member States,
- the cost of any adjustments to remuneration approved by the Council during the financial year.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Revenue from contributions from the EFTA States to the Union's general costs under Articles 82 of the Agreement on the European Economic Area gives rise to the provision of supplementary appropriations to be entered in the budget lines concerned in accordance with the Financial Regulation. The amount of such revenue is estimated at EUR 200 700.

Any revenue from the Swiss Confederation's contribution for participation in Union programmes entered under Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Remarks

This appropriation is intended to cover the following decentralised operating expenditure:

Missions:

- travel expenses, including ancillary costs relating to tickets and reservations, daily subsistence allowances and additional or exceptional expenditure incurred in connection with missions by Commission staff covered by the Staff Regulations and by national or international experts or officials seconded to Commission departments (refunds of mission expenses paid for the account of other Union institutions or bodies and for third parties will constitute assigned expenditure).

Representation expenses:

- reimbursement of the costs incurred by persons officially representing the Commission (reimbursement is not possible for expenses incurred in the performance of representation duties vis-à-vis staff of the Commission or other Union institutions).

Meetings of experts:

- reimbursement of the costs incurred for the functioning of the expert groups established or convened by the Commission: travel, subsistence and incidental expenses of experts participating in study groups and working parties, and the cost of organising such meetings where they are not covered by the existing infrastructure in the headquarters of the institutions or external offices (experts are reimbursed on the basis of decisions made by the Commission).

Conferences:

- expenditure relating to conferences, congresses and meetings organised by the Commission in support of its various policies, and expenditure for running a network for financial control organisations and bodies, including an annual meeting between such organisations and the members of the European Parliament's Committee on Budgetary Control, as requested in paragraph 88 of European Parliament resolution of 27 April 2006 with comments forming an integral part of the decision on the discharge for implementation of the European Union general budget for the financial year 2004, Section III — Commission (OJ L 340, 6.12.2006, p. 5),

- expenditure relating to conferences, seminars, meetings, training courses and practical in-house training for officials of the Member States who manage or monitor operations financed by the Union funds or operations to collect revenue that constitutes Union own resources or cooperate in the Union statistics system, and expenditure of the same type for officials from the countries of central and eastern Europe managing or monitoring operations financed under Union programmes,
- expenditure on training third country officials who carry out management or control duties with a direct bearing on protecting the Union's financial interest,
- the cost of the Commission's participation in conferences, congresses and meetings,
- conference enrolment fees, excluding training expenses,
- subscriptions to trade and scientific associations,
- the cost of refreshments and food served on special occasions during internal meetings.

Meetings of Committees:

- travel, subsistence and incidental expenses of experts participating in committees set up by the Treaty and by European Parliament and Council Regulations or Council Regulations, and the cost of organising such meetings where they are not covered by the existing infrastructure (in the headquarters of the institutions or external offices) (experts are reimbursed on the basis of decisions made by the Commission).

Studies and consultations:

- expenditure on specialised studies and consultations contracted out to highly qualified experts (individuals or firms) if the Commission does not have suitable staff available to carry out such studies,
- the purchase of studies already carried out or subscriptions with specialist research institutions

A Part of this appropriation is intended for two studies on:

(1) *The feasibility and long term viability of a Pan-European sentinel network for the early detection of new threats in allergies*

This study should aim to prove the long term viability of a Pan-European sentinel network for the early detection of new threats in allergies with the following long term objectives of this Network:

- creating a central database, collect data (on country and Union-wide level), analyse and publish data regularly.
- identifying new trends in allergic diseases before they become major public health problems that may cause an additional burden to European health care systems.
- reporting to policymakers and alert them in a timely manner about new allergens where action is needed.
- building up a sustainable system for better awareness, starting in schools, to decrease the burden of allergies for society.

Actions:

- assess existing national systems of allergy surveillance which can be linked to the sentinel network.
- involve an already existing infrastructure of more than 100 allergy centres, covering the entire Union. This network has been in place for more than 7 years and is still expanding, which confirms the viability of the project.

- use standardised series for inhalant and food allergens (taking into account regional diversity) in 100 centres in all patients and to deploy this activity in the entire Union. This allows consistent monitoring of allergy trends in patients in a standardised manner.
- use, in a pilot study, a patient sample, called 'reporters', for consistent monitoring of allergy in selected centres using internet and smart phone technology (aeroallergen sentinel network).
- report cases of unknown allergies in the field of inhalant, food, drug or contact allergy to a central database, to detect novel allergens coming into the Union at an early stage.
- disseminate results to policymakers, health care professionals, and the general public.

(2) *Understanding and measuring the role of cultural and creative sectors for growth and territorial development*

Cultural and creative industries (CCI) contribute significantly to shaping the identity of the European Union, its economy and the lives of its citizens. Heritage, music, film, entertainment, publishing, fashion, design, architecture and crafts, are areas at the intersection of art, technology and business. According to the Commission communication of 26 September 2012 entitled 'Promoting cultural and creative sectors for growth and jobs in the EU' (COM (2012) 537 final), the economic contribution of these sectors accounts for 3,3 % of the Union's GDP and they employ 6,7 million people. Beyond their intrinsic cultural value and their economic weight, these sectors also have a wider ripple effect on economic and social development, by their impact on other sectors, on regional attractiveness or in stimulating creativity and innovation.

However, the contribution that the cultural and creative sectors can make to economic and social development in the Union is still not fully recognised.

European Parliament noted in its resolution of 12 May 2011 on unlocking the potential of cultural and creative industries the necessity of analysing the effects of the activity of cultural and creative industries on the European economy, by 'identifying, defining and describing them each in turn, in order to highlight their characteristics, better understand their goals and problems and implement more effective measures.' In the same resolution, the Parliament called on the Commission 'to pursue its efforts to produce a better definition of CCI with a view to analysing in depth their impact on long-term growth and international competitiveness and to foster greater recognition of the specific features of the sector.'

The Union lacks information and indicators to measure the contribution of cultural industries to economic development, which fragments, hinders and discourages initiatives and investments in these sectors. For example, the European Capital of Culture label acts as a catalyst for urban regeneration and territorial attractiveness. However, no comprehensive data are available on the impact of investments made during the labelling. Furthermore, the role of cultural resources and actors at the heart of creative ecosystems, in stimulating economic and social innovation is still poorly understood.

Information and management systems:

- the development and maintenance under contract of management and information systems,
- the acquisition and maintenance of complete (turnkey) information and management systems in the field of administrative management (staff, budget, finance, accounts, etc.),
- studies, documentation and training linked to those systems and project management,
- the acquisition of skills and expertise in the area of information technology for all departments: quality, security, technology, development methodology, information technology management, etc.,
- technical support for those systems, and the technical work needed to ensure that they operate satisfactorily.

Further training and management training:

- expenditure on general training designed to improve the skills of the staff and the performance and efficiency of the Commission:
 - fees for experts employed to identify training needs, design, develop and hold courses and evaluate and monitor results,
 - fees for consultants in various fields, in particular organisational methods, management, strategy, quality assurance and personnel management,
 - expenditure incurred in designing, holding and evaluating the training organised by the Commission in the form of courses, seminars and conferences (course instructors/speakers and their travel and subsistence expenses, and teaching materials),
 - the cost of attending external training and of joining the relevant professional organisations,
 - expenditure related to the practical aspects of organising such courses and the use of premises and transport and the cost of food and accommodation for the participants of residential courses,
 - training expenditure related to publications and information, associated Internet sites and the purchase of teaching equipment, subscriptions and licences for distance teaching, books, press and multimedia products,
 - financing teaching aids.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Revenue from contributions from the EFTA States to the Union's general costs under Article 82 of the Agreement on the European Economic Area gives rise to the provision of supplementary appropriations to be entered in the budget lines concerned in accordance with the Financial Regulation. The amount of such revenue is estimated at EUR 719 500.

Any revenue from the Swiss Confederation's contribution for participation in Union programmes entered under Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

The amount of assigned revenue based on data available pursuant to Article 21(3) of the Financial Regulation is estimated at EUR 6 203 900.

This appropriation is intended to cover the cost of carrying out the Joint Harmonised EU Programme of Business and Consumer Surveys in the Member States and applicant countries, approved by the Commission on 12 July 2006 (OJ C 245, 12.10.2006, p. 5).

This appropriation is also intended to cover the cost of studies, workshops, conferences, analyses, evaluations, publications, technical assistance, the purchase and maintenance of databases and software and the part-financing and support of measures relating to:

- economic monitoring, analysis of the combination of measures and coordination of economic policies,
- the external aspects of the economic and monetary union (EMU),
- macroeconomic developments in the euro area,

COMMISSION

TITLE 01 — ECONOMIC AND FINANCIAL AFFAIRS

CHAPTER 01 02 — ECONOMIC AND MONETARY UNION (*cont'd*)01 02 01 (*cont'd*)

- monitoring structural reforms and improving the operation of markets in the EMU,
- coordination with financial institutions and analysis and development of financial markets, and borrowing and lending operations involving Member States,
- the facility providing financial assistance for Member States' balance of payments and the European financial stabilisation mechanism,
- cooperation with economic operators and decision-makers in the abovementioned fields,
- expanding the EMU.

This appropriation is also intended to cover the funding of priority information measures on Union policies on all aspects of the rules and functioning of EMU, as well as on the benefits of closer policy coordination and structural reforms, and to address information needs of citizens, local authorities and enterprises in relation to the euro.

This measure is designed to be an effective channel of communication and dialogue between the people of the European Union and the Union institutions, and to take account of specific national and regional characteristics, in close cooperation with the Member State authorities. Special emphasis is put on preparing citizens in the new Member States for the introduction of the euro.

It includes:

- partnership agreements with Member States that wish to provide information about the euro or the economic and monetary union (EMU),
- close cooperation and networking with all Member States in the framework of the network of Directors of Communication on EMU-related issues,
- the development of communication activities at central level (brochures, leaflets, newsletters, website design, development and maintenance, exhibitions, stands, conferences, seminars, audiovisual products, opinion polls, surveys, studies, promotional material, twinning programmes, etc.),
- communication initiatives in third countries, in particular to point out the international role of the euro and the value of financial integration.

The Commission, when implementing this article, should take duly into account the outcomes of the meetings of the Interinstitutional Group on Information (IGI).

The Commission has set out its communication strategy on the euro in the Communication of 11 August 2004 on the implementation of an information and communication strategy on the euro and Economic and Monetary Union (COM(2004) 552 final). The implementation of the communication strategy takes place in close coordination with the Member States and the European Parliament.

The Commission reports regularly to the European Parliament's relevant committee on the implementation of the programme and on planning for the coming year.

This appropriation is also intended to cover or to temporarily pre-finance costs incurred by the Union in concluding and carrying out operations linked with balance of payment and European financial stabilisation mechanism borrowing and lending operations.

The amount of assigned revenue pursuant to Article 21(3) of the Financial Regulation is estimated at EUR 30 000.

Conditions for releasing the reserve

Lifting the reserve is conditional upon the Commission providing satisfactory information on the need for and effectiveness of the prince programme

Article 122(2) of the Treaty on the Functioning of the European Union provides for the possibility of granting Union financial assistance to a Member State in difficulties or seriously threatened with severe difficulties caused by exceptional occurrences beyond its control.

The guarantee provided by the Union is for borrowings raised on the capital markets or from financial institutions.

In accordance with Article 2(2) of Regulation (EU) No 407/2010, the outstanding amount of loans and credit lines granted to Member States under this stabilisation mechanism is to be limited to the margin available under the Union's own resources for payment appropriations.

This article constitutes the structure for the guarantee provided by the Union. It will enable the Commission to service the debt should debtors default.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. Article 12 of Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities own resources (OJ L 130, 31.5.2000, p. 1) applies.

01 03 02 (*cont'd*)

It is directly linked to the implementation by the recipient countries of macro-financial stabilisation and structural adjustment measures. As a rule, Union actions complement those of the International Monetary Fund, coordinated with other bilateral donors.

The existence of an independent national audit body in the recipient country is a condition for granting macro-financial assistance.

The Commission will inform the budgetary authority regularly of the macro-financial situation of the beneficiary countries and will report extensively on the implementation of this assistance on a yearly basis.

Appropriations under this article will also be used to cover financial aid for the reconstruction in Georgia of the areas affected by the conflict with Russia. The actions should be primarily geared to the macro-financial stabilisation of the country. The total financial allocation for the aid was decided at an international donors' conference in 2008.

Appropriations under this article will also be used to cover or temporarily pre-finance costs incurred by the Union in concluding and carrying out operations linked with macro-financial assistance borrowing and lending operations.

This article constitutes the structure for the guarantee provided by the Union. It will enable the Commission, if necessary, to service the debt (repayment of principal, interest and other costs) should a debtor default.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. In this case, Article 12 of Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities own resources (OJ L 130, 31.5.2000, p. 1) applies.

The maximum amount of Euratom borrowings for the Member States and third countries remains fixed at EUR 4 000 000 000, as indicated in Item 01 04 01 02.

A specific annex to this part of the statement of expenditure in this section gives a summary of borrowing-and-lending operations guaranteed by the general budget, including debt management, in respect of capital and interest.

Legal basis

Council Decision 77/270/Euratom of 29 March 1977 empowering the Commission to contract Euratom loans for the purpose of contributing to the financing of nuclear power stations (OJ L 88, 6.4.1977, p. 9).

For the legal basis for Euratom loans, see also Item 01 04 01 02.

Former Item 01 04 01 06

Pursuant to Council Decision of 8 March 1977, the Union guarantees loans made by the European Investment Bank (EIB) in the context of the Union's financial commitments in respect of the Mediterranean countries.

That decision was the basis for a contract of guarantee between the European Economic Community and the EIB signed in Brussels on 30 October 1978 and in Luxembourg on 10 November 1978, setting up a comprehensive guarantee, equal to 75 % of all the funds available for loan operations in the following countries: Malta, Tunisia, Algeria, Morocco, Portugal (Financial Protocol, emergency aid), Turkey, Cyprus, Syria, Israel, Jordan, Egypt, former Yugoslavia and Lebanon.

TITLE 01 — ECONOMIC AND FINANCIAL AFFAIRS

CHAPTER 01 03 — INTERNATIONAL ECONOMIC AND FINANCIAL AFFAIRS (*cont'd*)01 03 05 (*cont'd*)

Decision 90/62/EEC was the basis for a contract of guarantee between the European Economic Community and the EIB signed in Brussels on 24 April 1990 and in Luxembourg on 14 May 1990 as regards Hungary and Poland and for the extension of that contract to cover Czechoslovakia, Romania and Bulgaria, signed in Brussels and in Luxembourg on 31 July 1991.

Decision 93/696/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 22 July 1994 and in Luxembourg on 12 August 1994.

Pursuant to Decisions 93/115/EEC and 96/723/EC, the Union guarantees loans which may be made individually by the EIB in countries of Latin America and Asia with which the European Community has concluded cooperation agreements. Decision 93/115/EEC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 4 November 1993 and in Luxembourg on 17 November 1993. Decision 96/723/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 18 March 1997 and in Luxembourg on 26 March 1997.

Pursuant to Decision 95/207/EC, the Union guarantees loans which may be made individually by the EIB in South Africa. Decision 95/207/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 4 October 1995 and in Luxembourg on 16 October 1995.

Decision 97/256/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 25 July 1997 and in Luxembourg on 29 July 1997 setting up a guarantee restricted to 70 % of the aggregate amount of the appropriations opened, plus all related sums. The overall ceiling of the appropriations opened is equivalent to EUR 7 105 000 000.

Decision 2000/24/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 24 January 2000 and in Luxembourg on 17 January 2000, last restated in 2005, setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations opened, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 19 460 000 000. The EIB is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

Decision 2001/777/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 6 May 2002 and in Luxembourg on 7 May 2002 setting up a guarantee at 100 % against losses under a special lending action for selected environment projects in the Baltic Sea basin of Russia under the Northern Dimension. The overall ceiling is EUR 100 000 000.

Decision 2005/48/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Luxembourg on 9 December 2005 and in Brussels on 21 December 2005 setting up a guarantee at 100 % against losses under loans for certain types of projects in Russia, Ukraine, Moldova and Belarus. The overall ceiling is EUR 500 000 000. It covers a period ending on 31 January 2007. At the end of this period, the loans granted by the EIB not having attained the overall amounts referred to above, the period was automatically extended by six months.

Decision 2006/1016/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Luxembourg on 1 August 2007 and in Brussels on 29 August 2007 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations, less amounts reimbursed, plus all related sums. The overall ceiling of the appropriations made available for all countries under the Decision is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of six months. That Decision has been replaced by Decision No 633/2009/EC.

Decision No 633/2009/EC was the basis for an amendment, signed on 28 October 2009, to the contract of guarantee between the European Community and the EIB which was signed in Luxembourg on 1 August 2007 and in Brussels on 29 August 2007. The Union guarantee is restricted to 65 % of the aggregate amount of credits disbursed and guarantees. The maximum ceiling of the EIB financing operations, less amounts cancelled, shall not exceed EUR 27 800 000 000, broken down in a basic ceiling of EUR 25 800 000 000 and an optional mandate of EUR 2 000 000 000. It covers a period ending on 31 October 2011.

COMMISSION

Decision No 1080/2011/EU was the basis for a contract of guarantee between the European Union and the EIB signed in Luxembourg and in Brussels on 22 November 2011. The Union guarantee is restricted to 65 % of the aggregate amount of credits disbursed and guarantees less amounts reimbursed, plus all related amounts. The maximum ceiling of the EIB financing operations, less amounts cancelled, shall not exceed EUR 29 484 000 000, broken down into a general mandate of EUR 27 484 000 000 and a Climate Change mandate of EUR 2 000 000 000. It covers a period beginning on 1 February 2007 and ending on 31 December 2013 with an extension until the entry into force of a new decision.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. In this case, Article 12 of Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities own resources (OJ L 130, 31.5.2000, p. 1) applies.

This article constitutes the structure for the guarantee provided by the Union. It will enable the Commission, if necessary, to service the debt (repayment of principal, interest and other costs) should a debtor default on the loans granted by the EIB.

Former Item 01 04 09 01

This item is intended to cover the financing of the provision of paid-up shares of the capital subscribed by the Union.

The European Investment Fund (EIF) was created in 1994. Its founder members were the European Community, represented by the Commission, the European Investment Bank (EIB) and a number of financial institutions. Union membership of the EIF is governed by Decision 94/375/EC.

Pursuant to Article 3 of Decision 94/375/EC, the position of the Union on a possible increase in the capital of the EIF and on its participation in that increase shall be decided unanimously by the Council, acting on a proposal from the Commission and after consulting the European Parliament.

This article constitutes the structure for the guarantee provided by the Union. It will enable the Commission to service the debt should debtors default.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. In this case, Article 12 of Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities own resources (OJ L 130, 31.5.2000, p. 1) applies.

A specific annex to this part of the statement of expenditure in this section gives a summary of borrowing-and-lending operations guaranteed by the general budget, including debt management, in respect of capital and interest.

Legal basis

Council Decision 77/270/Euratom of 29 March 1977 empowering the Commission to contract Euratom loans for the purpose of contributing to the financing of nuclear power stations (OJ L 88, 6.4.1977, p. 9).

Council Decision 77/271/Euratom of 29 March 1977 on the implementation of Decision 77/270/Euratom empowering the Commission to contract Euratom loans for the purpose of contributing to the financing of nuclear power stations (OJ L 88, 6.4.1977, p. 11).

Council Decision 80/29/Euratom of 20 December 1979 amending Decision 77/271/Euratom on the implementation of Decision 77/270/Euratom empowering the Commission to contract Euratom loans for the purpose of contributing to the financing of nuclear power stations (OJ L 12, 17.1.1980, p. 28).

Council Decision 82/170/Euratom of 15 March 1982 amending Decision 77/271/Euratom as regards the total amount of Euratom loans which the Commission is empowered to contract for the purpose of contributing to the financing of nuclear power stations (OJ L 78, 24.3.1982, p. 21).

Council Decision 85/537/Euratom of 5 December 1985 amending Decision 77/271/Euratom as regards the total amount of Euratom loans which the Commission is empowered to contract for the purpose of contributing to the financing of nuclear power stations (OJ L 334, 12.12.1985, p. 23).

Council Decision 90/212/Euratom of 23 April 1990 amending Decision 77/271/Euratom on the implementation of Decision 77/270/Euratom empowering the Commission to contract Euratom loans for the purpose of contributing to the financing of nuclear power stations (OJ L 112, 3.5.1990, p. 26).

This appropriation is intended to cover payments in respect of commitments remaining to be settled from previous years.

Even though the end of the commitment period has been reached, the facilities have to be operated for several years during which time payments will be needed for investments and in order to honour guarantee obligations. Therefore reporting and monitoring requirements will continue until the end of the facility periods.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. In this case, Article 12 of Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities own resources (O) L 130, 31.5.2000, p. 1) applies.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates, for participating in Union programmes and entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue generated on Trust Accounts entered in Article 5 2 3 of the statement of revenue will give rise to the provision of additional appropriations to be entered in this article, in accordance with the Financial Regulation.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from contributions from third parties entered in Item 6 0 3 3 of the statement of revenue will give rise to the provision of additional appropriations to be entered in this Item in accordance with the Financial Regulation.

The establishment plan of the Agency is set out in Annex 'Staff' to this section.

New article

This appropriation is intended to strengthen the competitiveness of enterprises, in particular that of small and medium-sized enterprises (SMEs), and to encourage entrepreneurship and foster the creation and growth of SMEs.

The implemented measures will include:

- networks bringing together a variety of stakeholders,
- market replication projects,
- policy analyses, development and coordination with participating countries,
- information sharing, dissemination and awareness raising,
- support to joint actions of Member States or regions, as well as other measures under the Cosme programme.

COMMISSION
TITLE 02 — ENTERPRISE AND INDUSTRYCHAPTER 02 02 — COMPETITIVENESS OF ENTERPRISES AND SMALL AND MEDIUM-SIZED ENTERPRISES (COSME) (*cont'd*)02 02 01 (*cont'd*)

The Union will provide support to activities such as the Enterprise Europe Network and entrepreneurship promotion. It will also support projects concerned with the first applications or market replication of techniques, practices or products (e.g. new business concepts for consumer goods) of Union relevance that have already been technically demonstrated with success but, owing to residual risk, have not yet significantly penetrated the market. Those projects will be designed to promote wider use within the participating countries and facilitate market uptake.

Projects will also seek to improve the framework conditions in order to ensure that Union enterprises are competitive and sustainable, including in the tourism sector, by supporting coherence and consistency in implementation, as well as informed policy-making at Union level. In addition, projects will be put in place to support the implementation of the Small Business Act for Europe.

Sustainable tourism activities will receive a special focus with initial priority given to soft mobility, cycling networks, eco-tourism and nature protection. Accessibility for all, particularly for people with reduced mobility and for socially disadvantaged people is also of high importance in this context.

The Erasmus for Entrepreneurs programme aims to encourage European entrepreneurship, the sharing of knowledge and best practices, and the creation of valuable networks and partnerships.

Due to the currently difficult economic situation it is indispensable to support European enterprises, in particular young innovative start-ups, and to foster entrepreneurship by assigning enough funds to programmes like the Program for the competitiveness of enterprises and small and medium-sized enterprises (COSME). In particular the Program 'Erasmus for young entrepreneurs' has been very successful and can contribute successfully to fight unemployment across Europe.

The financial means for the 'Erasmus for young Entrepreneurs' program must be increased in particular due to the following reasons:

- the program helps fostering European entrepreneurship, the sharing of knowledge and best-practices as well as the creation of valuable networks and partnerships;
- the program is very successful and has shown an increasing number of participants over the last years which is expected to increase further;
- the program effectively tackles the problem of youth unemployment as it helps young people without work to become self-employed and existing SME to create jobs by expanding and/or internationalising their business;
- the number of applications exceeds by far the possibilities the Commission can fulfil with the financial means currently available.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services — CESES — and its Member Associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. For that to be achieved, EU authorising officers are encouraged to make full use of the possibilities offered by the new financial regulation, notably taking into account in-kind financing by CESES as contribution to EU projects.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

New article

This appropriation is to be used to improve access to finance for SMEs in the form of equity and debt in their start-up, growth and transfer phase.

A loan guarantee facility (LGF) shall provide counter-guarantees, direct guarantees and other risk sharing arrangements for debt financing which shall reduce the particular difficulties that viable SMEs face in accessing finance either due to their perceived higher risk or their lack of sufficient available collateral and for securitisation of SME debt finance portfolios.

An equity facility for growth (EFG) shall allow investments in risk capital funds which invest in SMEs in the expansion and growth stage, and in particular in those operating cross-borders. The possibility shall exist to invest in early stage funds in conjunction with the equity facility for RDI under Horizon 2020. In cases of joint investments in multi-stage funds, investments will be provided on a pro-rata basis from the EFG of Cosme and the equity facility for RDI under Horizon 2020. Support from the EFG shall be (a) either directly by the European Investment Fund (EIF) or other entities entrusted with the implementation on behalf of the Commission or (b) by funds-of-funds or investment vehicles investing across borders.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any repayment from financial instruments pursuant to Article 140(6) of the Financial Regulation, including capital repayments, guarantees released, and repayment of the principal of loans, paid back to the Commission and entered in Item 6341 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Articles 21(3)(i) of the Financial Regulation.

Remarks

Former Item 02 02 08 04

This appropriation is intended to cover commitments remaining to be settled from previous years under this preparatory action.

Under the Treaty of Lisbon, the Union was granted competence in the field of tourism for the first time. This preparatory action seeks to support cross-border thematic tourism products which reflect in particular common European cultural and industrial heritage and local traditions and will seek to draw on previous actions in this area and on the consolidated experience of other international partners and organisations, such as the Council of Europe, the United Nations World Tourism Organization (UNWTO), the European Travel Commission (ETC), etc.

In particular, to help encourage the European tourism sector to become more competitive, this preparatory action will promote the diversification of the supply of tourism products. There is excellent potential for growth in a number of transnational thematic tourism products and services as, for example, in cultural and industrial itineraries crossing several regions or Member States. Those European and transnational tourism products should also be promoted in third countries in close cooperation with the ETC, in order to enhance the image of Europe as a unique destination on long-haul markets.

The preparatory action has the following main objectives:

- by funding cross-border tourism projects, to help improve the quality of tourism products and destinations as a whole across the Union,
- to further develop cultural products and tourism as an integral part of a sustainable economy and to support regional economies,
- to promote tourism in regions in reconversion, in order to boost employment and growth in these regions,
- to establish a network of regional, national and Union-level stakeholders and decision-makers, in particular in the fields of cultural and industrial tourism,
- to promote the value of cultural products and cultural tourism within Europe and to reinforce the image of Europe as the number one destination for tourists worldwide,
- to support transnational cultural or industrial themes and products which help to foster a greater sense of European identity.

Under this preparatory action, support for projects related to European cultural routes (recognised by the Council of Europe and others) should be continued.

As these routes cross several regions or countries, they are a good basis for promoting European cultural tourism in all its variety and complexity.

Cultural routes have strong tourism potential still largely unexplored. They are both transnational and representative of Europe's common heritage and values. They are also regarded as a sustainable, ethical and social model because they build on local knowledge, skills and heritage assets, often promoting less well known European destinations.

*Remarks**Former Item 02 02 08 05*

This appropriation is intended to cover commitments remaining to be settled from previous years under this preparatory action.

Following the entry into force of the Lisbon Treaty, tourism has been added to the competences given to the Union, which can coordinate and complement Member States' actions in this field. In order to foster this new important task of the Union, a preparatory action, launched in 2012, aimed at preparing the ground for future initiatives in the field of tourism and accessibility has been proposed. Its main aim is to develop a better awareness of accessibility in tourism, with a special focus on the disability issue and special needs of certain categories of people. In fact, despite the UN Convention on the Rights of Persons with Disabilities, signed by all Member States, a large number of disabled persons are still facing problems in accessing services in the tourism and transport field.

The preparatory action has the following main objectives:

- raising public awareness, including through information campaigns, to the accessibility of tourism products and services, as well as improving dialogue and collaboration between organisations representing disabled persons, people with special needs in general and the tourism industry, in order to favour a more inclusive society and guarantee high quality free movement of people in Europe,
- contributing to facilitating the development of specific training for staff on disability awareness, in particular in the field of fire prevention and safety of accommodation in general,
- developing skilled, trained and well-informed citizens and professionals on the concept of hospitality in relation to accessibility, including through close cooperation and synergies with universities and schools,
- incentivising and rewarding European destinations which make accessibility a key priority in their promotional offers,
- incentivising better use of innovation in order to improve accessibility in tourism services for all,
- incentivising adaptation of tourist products to the needs of persons with reduced mobility and people with special needs in general,
- contributing to the creation of a favourable and accessible environment for disabled persons, persons with reduced mobility and people with special needs in all fields, notably in transport (mobility), accommodation, catering and tourism services in general,
- increasing campaigns and information actions with regard to the rights of persons with reduced mobility, and people with special needs when travelling abroad, in order to guarantee that customers have better information and better access,
- enhancing cross-border cooperation to develop accessible tourism within the industry in order to guarantee the exercise of rights for both European citizens and third-country visitors, in particular those with disabilities and special needs,
- contributing to the development, in the long term, of common minimum accessibility standards, based on quality, for all fields related to tourism and addressed to all citizens, including disabled persons, persons with reduced mobility and people with special needs.

Former Article 02 02 10

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

This preparatory action aims to increase the growth and competitiveness of young entrepreneurs, investment and innovation networks from Europe and four associated Mediterranean countries (Egypt, Lebanon, Tunisia and Morocco), to develop leaders in high-potential markets.

Capacity building:

- training on the internationalisation of SMEs will be performed to empower more than 150 entrepreneurs and 500 incubators, investors or entrepreneurs networks followed up by online conferences ('webinars') and technical assistance — two specific mentoring networks will be created (to engage senior entrepreneurs to help other entrepreneurs): one women entrepreneurs mentoring programme and one involving entrepreneurs from the Mediterranean diasporas in Europe. Business development actions in three key sectors: IT/media, energy-environment and agro-food,
- business-to-business meetings during business events to connect the best start-ups with potential clients and investors with a follow-up on their presence,
- investment workshops will be held during major international fairs not only to connect start-ups and innovation clusters with top customers, but also to promote the Euro-Mediterranean integrated offer on innovation and build an international network of ambassadors with the support of Mediterranean diasporas,
- actions on access to finance will be developed to improve the impact and efficiency of European funding to Mediterranean SMEs,
- business-to-business meetings will be planned to connect the best start-ups with potential investors,
- tools will be developed to identify the risks and opportunities in the Mediterranean region for European investors,
- investment workshops will be organised putting together European and Mediterranean entrepreneurs, investors and coaching networks (incubators, senior entrepreneurs) to improve cost and general efficiency.

Remarks

This pilot project will explore scenarios for the reindustrialisation of Europe and employment-related issues in line with the aim of increasing industry's share of European GDP from its current level of around 16 % to 20 % by 2020.

It will further implement of the Commission's recommendations, facilitate the exchange of best practice, drawing on Eurofound expertise and assistance, and will also support performance monitoring as part of the European Semester and country-specific recommendations.

This pilot project will have a key focus on manufacturing — a priority of the Commission's Industrial Policy Communication Update, which sets out a detailed strategy for addressing some of the factors that can contribute to economic recovery. Beyond its industrial policy context, the project will have a very clear employment dimension, addressing questions related to job creation and reintegration into the labour market, restructuring trends, the gender dimension, skills/reskilling, entrepreneurship, and SME engagement in markets outside the Union.

This pilot project will look into and put into practice methods for predicting the future of manufacturing. In particular, the pilot project will:

- support a European reindustrialisation strategy capable of responding to the rapid changes brought by globalisation;
- explore the key drivers which will support positive developments in manufacturing, where the employment impact will be central; the case for a European manufacturing renaissance is, in some respects, more economic than technological: because labour-saving technology decreases the need for the productive factor labour, labour costs in manufacturing will be less important for determining location of operations; in addition, the pay gap between Europe and the rest of the world can surely only decline with time;
- involve detailed quantitative exploration of the employment dimension: there is good reason to believe that most of the jobs created by keeping and increasing manufacturing in Europe will in fact be in related non-manufacturing activities, i.e. in business services, R&D, sales and marketing and in other stages in the manufacturing supply chain; this will multiply the positive employment effects;
- include studies to quantify these employment spill-over effects, which will be quantitative analyses estimating substitution and complementarity effects;
- explore how progress in industrial policy and performance can translate into employment growth — to encourage 'job-rich growth';
- involve a large number of case studies exploring why big companies remain in or go back to Europe in order to manufacture, thus creating jobs in core activities and along the supply chain;

- include key emerging dimensions of entrepreneurship, for example with regard to 'Born Global' (i.e. start-ups that immediately have global operations); such companies often have a very high-tech focus on, for example, life sciences and ICT; this ties in closely with the Entrepreneurship 2020 action plan and one of its targets: 25 % of SMEs to engage in markets outside the Union;
- explore what existing spill-over effects mean for male and female jobs today and for gender distribution in the future;
- explore the skills/reskilling issue, in particular as a strategic tool for structural change; an in-depth study on dual and vocational systems for creating a hub of industrial professionals and researchers could be considered in cooperation with Cedefop.

Eurofound, with its European Monitoring Centre on Change, is well placed to carry out the pilot project.

Former Item 02 01 04 01 and Article 02 03 01

This appropriation is intended to cover expenditure on actions to improve the operation of the internal market:

- approximation of standards, and introduction of an information system for technical standards and regulations,
- financing of administrative and technical coordination and of cooperation between the notified bodies,
- examination of the rules notified by Member States and the EFTA States and translation of the draft technical regulations,

COMMISSION

- application of Union legislation on medical devices, cosmetics, foodstuffs, textile products, medicinal products, chemicals, classification and labelling of substances and preparations, cars and safety, toys, legal metrology and pre-packaging and the quality of the environment,
- greater sectorial approximation in the fields of application of the 'new approach' directives, especially the extension of the 'new approach' to other sectors,
- implementation measures for Regulation (EC) No 765/2008, both for the infrastructures and market surveillance,
- implementation measures for Regulation (EC) No 764/2008, for procedures relating to the application of certain national technical rules to products lawfully marketed in another Member State,
- implementation measures for Directive 2009/43/EC simplifying terms and conditions of transfers of defence-related products within the Union,
- organisation of partnerships with the Member States, support for administrative cooperation between the authorities responsible for implementing the legislation on the internal market and for market surveillance,
- grants in support of projects of Union interest undertaken by outside bodies,
- information and publicity measures, greater awareness of Union legislation,
- implementation of the strategic programme on the internal market and market monitoring,
- grants in support of the European Technical Approval Organisation (EOTA),
- grants to the Council of Europe in the framework of the Convention on the Elaboration of a European Pharmacopoeia,
- participation in the negotiation of agreements on mutual recognition and, under European agreements, support for the associate countries to allow them to adopt the *acquis* of the Union,
- implementation measures for Regulation (EC) No 1907/2006, especially those resulting from the REACH review (communication COM(2013) 49 final).

This appropriation is also intended to cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the programme or measures coming under this article, as maintenance, updating and development of informatics systems related to technical regulations, and any other expenditure on technical and administrative assistance not involving public authority tasks.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Former Item 02 03 04 01

In accordance with the general aim of maintaining the proper functioning of the internal market and the competitiveness of European industry, in particular through the mutual recognition of standards and the establishment of European standards in suitable cases, this appropriation is intended to cover:

- financial obligations arising from contracts to be signed with the European standardisation organisations (such as ETSI, CEN and Cenelec), for the development of standards,
- checking and certifying conformity with the standards, and demonstration projects,
- contract expenditure for the execution of the programme and projects indicated above. The contracts in question cover the following: research, association, evaluation, technical operations, coordination, scholarships, grants, training and mobility of scientific staff, participation in international agreements and participation in expenditure on equipment,
- improving the performance of standards bodies,
- promoting quality in standardisation, and the verification thereof,
- supporting the transposition of European standards into national standards, particularly by having them translated,
- measures relating to information, promotion and profile-raising of standardisation and the promotion of European interests in international standardisation,
- secretarial services for the technical committees,
- technical projects in the field of tests for compliance with the standards,
- examination of the compliance of draft standards to the relevant mandates,
- programmes of cooperation with and assistance to third countries,
- carrying out the work needed to apply international information technology standards uniformly throughout the Union,
- specifying methods of certification and laying down technical methods of certification,
- encouraging use of these standards in public procurement contracts,
- coordinating the various operations to prepare the standards and doing more to implement them (user guides, demonstrations, etc.).

Union finance is to be used to frame and implement the standardisation operation in consultation with the main participants: industry, workers' representatives, consumers, small and medium-sized enterprises, the national and European standardisation institutions, the public procurement agencies in the Member States, all users and industrial policymakers at national and Union levels.

In the case of IT equipment, and in support of interoperability, specific provisions are included in Council Decision 87/95/EEC of 22 December 1986 on standardisation in the field of information technology and telecommunications (OJ L 36, 7.2.1987, p. 31) requiring Member States to ensure that, in public procurement orders, reference is made to European or international standards.

This appropriation is intended to cover the costs of the functioning and activities of European non-governmental and non-profit organisations representing the interests of SMEs and consumers, as well as environmental and social interests, in standardisation activities.

Such representation in the standardisation process at European level forms part of the statutory objectives of such organisations, and they have been mandated by national non-profit organisations in at least two thirds of the Member States to represent those interests.

Contributions to such European organisations have previously been covered by the Competitiveness and Innovation Programme, the consumer policy and the Financial Instrument for the environment, LIFE +. In Regulation (EU) No 1025/2012 the actions in the field of standardisation financed by specific programmes have been brought together in a single legal act.

This appropriation is intended to cover the Agency's staff and administrative expenditure (Titles 1 and 2), and operational expenditure in connection with the work programme (Title 3).

The Agency must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this Item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The amounts repaid in accordance with Article 16 of the Commission Regulation (EC, Euratom) No 2343/2002 constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

No Union contribution is foreseen for 2014 as the Agency's operations will be financed with 'Revenue from fees and charges', which are assumed to be widely sufficient to cover for the expected expenditure. Surpluses will be carried over to the following year in order to ensure the continuity of the tasks of the Agency.

CHAPTER 02 03 — INTERNAL MARKET FOR GOODS AND SECTORIAL POLICIES (*cont'd*)02 03 77 (*cont'd*)02 03 77 01 (*cont'd*)

The European polymer converting industry is a major European industry, comprising 50 000 companies, of which 85 % are SMEs, and 1 600 000 employees. Its production reached 45 000 000 tons in 2009 with Germany (23 %), Italy (16 %), France (12 %), Spain (8,5 %), the United Kingdom (8 %) and Poland (5,5 %) being the top European producers of finished plastic parts. Almost two thirds of the plastic scrap created (1 300 000 tons of plastics) is considered as 'final' waste and is either exported to the Far East (essentially China) or landfilled. Recycling 50 % of the current non-recycled plastic scrap would save around 650 000 tons of plastic materials each year. By increasing recycle rates, this preparatory action reaches the target of the Europe 2020 Strategy on resource efficiency. RECAP aims to be a preparatory action for the improvement of internal plastic scrap recycling. It paves the way for the development of new technological solutions to recycle plastic production scrap and for the implementation and structuring of recycling channels based on sustainable solutions and technologies. The project creates competitiveness and employment, extending the lifetime of plastic materials, save crude oil, and make the plastics industry a more responsible industry. A roadmap was established in order to specify the necessary steps to achieve a final sustainable solution: definition of R&D collaborative projects to overcome technological bottlenecks, organisation and structuring of recycling channels, transfer of best practices and technologies towards the community of the Union's plastic converters, demonstration of recycling technologies through pilot equipment and the creation of companies to exploit the intellectual property rights generated. The results are meant to be duplicated in several Union regions presenting a high density of plastic converting activity.

RECAP's first sub-objective is to carry out a benchmark on internal scrap management in several major Union regions from the plastic converting industry in France, Italy, Germany, Spain, the United Kingdom, Austria and Poland. Each of these regions presents the particularity to concentrate plastic converting activities in a reduced geographical perimeter.

From the analysis of the benchmark, RECAP's second sub-objective is to identify best practices and make recommendations for future actions that will be consolidated into a global methodology for internal scrap management. Several scenarios have been established. Each one was split up into structuring (economical, financial and political organisation of recycling channels) and technological objectives (R&D bottlenecks to be overcome). RECAP's third sub-objective is to pre-implement a scenario in one of the regions studied within the project. Actions such as launching R&D projects to overcome the technological bottlenecks identified are part of the pre-implementation phase.

Remarks

These remarks are applicable to all the budget lines in this chapter.

This appropriation will be used for the Horizon 2020 — the Framework Programme for Research and Innovation which covers the 2014 to 2020 period.

Horizon 2020 shall play a central role in the implementation of the Europe 2020 flagship initiative 'Innovation Union' and other flagship initiatives, notably 'Resource efficient Europe', 'An industrial policy for the globalisation era', and 'A digital agenda for Europe', as well as in the development and functioning of the European Research Area (ERA). Horizon 2020 shall contribute to building an economy based on knowledge and innovation across the whole Union by leveraging sufficient additional research, development and innovation funding. It will be carried out in order to pursue the general objectives set out in Article 179 of the Treaty on the Functioning of the European Union, in order to contribute to the creation of a society of knowledge, based on the European Research Area, i.e. supporting transnational cooperation at all levels throughout the Union, taking the dynamism, creativity and the excellence of European research to the limits of knowledge, strengthening human resources for research and for technology in Europe, quantitatively and qualitatively and research and innovation capacities in the whole of Europe and ensuring optimum use thereof.

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Union to investigate new areas of research suitable for Union action, inter alia, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

This appropriation will be used in accordance with Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for participation and dissemination in 'Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020)' and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this chapter. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The possibility of third countries or institutes from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution entered in Items 6 0 1 3 and 6 0 1 5 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from States taking part in the European cooperation in the field of scientific and technical research entered in Item 6 0 1 6 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

CHAPTER 02 04 — HORIZON 2020 — RESEARCH RELATING TO ENTERPRISES *(cont'd)*

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contributions by outside bodies to Union activities entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Additional appropriations will be provided under Item 02 04 50 01.

Administrative appropriations of this chapter will be provided under Chapter 02 01 05.

02 04 02 Industrial leadership

Remarks

This priority of Horizon 2020 aims at making Europe a more attractive location to invest in research and innovation, by promoting activities where businesses set the agenda as well as at accelerating the development of new technologies which will underpin future businesses and economic growth. It will provide major investment in key industrial technologies, maximise the growth potential of European companies by providing them with adequate levels of finance and help innovative SMEs to grow into world-leading companies.

New item

The aim of this appropriation is to:

- foster a competitive and innovative space industry and research community to develop and exploit space infrastructure to meet future Union policy and societal needs. The lines of activities are: enabling European competitiveness, non-dependence and innovation of the European space sector, enabling advances in space technologies, enabling exploitation of space data and enabling European research in support of international space partnerships,
- foster today's industrial forms of production towards more sustainable and low-carbon manufacturing and processing resulting in more innovative products, processes and services. In particular, sustainable and low-carbon technologies in energy-intensive process industries will be targeted to increase the competitiveness of process industries, by drastically improving resource and energy efficiencies and reducing the environmental impact of such industrial activities through the whole value chain, promoting the adoption of low-carbon technologies.

The aim of this appropriation is to help remedy market deficiencies in accessing risk finance for research and innovation. In particular, the equity facility will target investments in risk capital funds which make early stage investments. It shall enable equity investments in, amongst others, seed capital funds, cross-border seed funds, business angel co-investment vehicles and early-stage venture capital funds. The equity facility, which will be demand-driven, shall use a portfolio approach, where venture capital funds and other comparable intermediaries select the firms to be invested in.

Any repayment from financial instruments pursuant to Article 140(6) of the Financial Regulation, including capital repayments, guarantees released, and repayment of the principal of loans, paid back to the Commission and entered in Item 6 3 4 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(3)(f) of the Financial Regulation.

The aim of this appropriation is to:

- provide financing to the Enterprise Europe Network established under the COSME programme for their reinforced services linked to Horizon 2020. The support could range from improved information and advisory services through partner search activities for SMEs wishing to develop cross-border innovation projects, to providing innovation support services,
- support the implementation and complementing the SME specific measures across Horizon 2020, notably to enhance the innovation capacity of SMEs. Activities may include awareness raising, information and dissemination, training and mobility activities, networking and exchange of best practices, developing high quality innovation support mechanisms and services with strong Union added value for SMEs (e.g. intellectual property and innovation management, knowledge transfer), as well as assisting SMEs to connect to research and innovation partners across the Union, allowing them to spin in technology and develop their innovation capacity. Intermediary organisations representing groups of innovative SMEs shall be invited to conduct cross-sectoral and cross-regional innovation activities with SMEs having mutually reinforcing competences, in order to develop new industrial value chains,

- support market-driven innovation in view of enhancing the innovation capacity of firms by improving the framework conditions for innovation as well as tackling the specific barriers preventing the growth of innovative firms, in particular SMEs and enterprises of intermediate size with potential for fast growth. Specialised innovation support (e.g. IP exploitation, networks of procurers, support to technology transfer offices, strategic design) and reviews of public policies in relation to innovation may be supported.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services — CESES — and its member associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. For that to be achieved, EU authorising officers are encouraged to make full use of the possibilities offered by the new Financial Regulation, including CESES contributions in kind to EU projects.

02 04 03 **Societal challenges**

Remarks

This priority of Horizon 2020 responds directly to the policy priorities and societal challenges identified in the Europe 2020 strategy. Those activities will be implemented using a challenge-based approach which brings together resources and knowledge across different fields, technologies and disciplines. The activities will cover the full cycle from research to market, with a new focus on innovation-related activities such as piloting, demonstration, test-beds, support for public procurement, design, end-user driven innovation, social innovation and market take-up of innovations. The activities will support directly the corresponding sectoral policy competences at Union level.

The aim of this appropriation will be to support secure supply of raw materials in order to meet the needs of a growing global population within the sustainable limits of the planet's natural resources. Activities will target the improvement of the knowledge base on raw materials and the development of innovative solutions for the cost-effective and environmentally friendly exploration, extraction, processing, recycling and recovery of raw materials and for their substitution by economically attractive alternatives with a lower environmental impact.

The aim of this appropriation is to:

- support Union policies for internal and external security, whilst at the same time improving the competitiveness and technology base of the Union's security industry and to stimulate cooperation between providers and users of security solutions. Activities will target the development of innovative technologies and solutions that address security gaps and lead to the prevention of security threats. The focus of activities shall be to fight crime and terrorism, including critical infrastructure protection; strengthen security through border management; increase Europe's resilience to crises and disasters whilst protecting personal data and fundamental human rights,
- support the strengthening of the evidence base and support for the Innovation Union and ERA which are needed to foster the development of innovative societies and policies in Europe through the engagement of citizens, enterprises and users in research and innovation and the promotion of coordinated research and innovation policies in the context of globalisation.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services — CESES — and its Member Associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. New article

The Union contribution to the European GNSS programmes is granted with a view to financing activities relating to:

- the completion of the deployment phase of the Galileo programme, consisting of the construction, establishment, protection of the space and ground infrastructure, as well as preparatory activities for the exploitation phase including activities relating to the preparation of service provision,
- the exploitation phase of the Galileo programme, consisting of the management, maintenance, continuous improvement, evolution and protection of the space and ground infrastructure, the development of future generations of the system and the evolution of the services provided by the system, certification and standardisation operations, provision and marketing of the services provided by the system and all other activities needed to ensure that the programme runs smoothly.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(b) and (d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The contribution of Member States for specific elements of the programmes could be added to the appropriations entered in this Article.

The Agency must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The amounts repaid in accordance with Article 20 of Delegated Regulation (EU) No 1271/2013 constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

The establishment plan of the European GNSS Agency is set out in Annex 'Staff' to this section.

The Union contribution for 2014 amounts to a total of EUR 24 651 117. An amount of EUR 64 117, coming from the reserve of surplus, is added to the amount of EUR 24 587 000 entered in the budget.

The aim of this appropriation is to:

- enable operations of Copernicus services, tailored to the needs of users,
- contribute to ensuring availability of the observation infrastructure necessary to enable the Copernicus services,
- create opportunities for increased private sector usage of information sources, thereby facilitating innovation by value-adding service providers.

In particular, the development of Earth monitoring-based services is vital for policy and decision makers in Europe, who require the best available information on the state of the planet and the environment. Moreover, they play a key role in enhancing competitiveness and innovation, although a sustainable provision of Earth monitoring-related services in Europe still requires consistent public intervention.

This is not only because of market failures in answering diverse public needs but also because the downstream market is a non-mature market relying heavily on public funding and whose development has, until today, been significantly curbed by uncertainties about the affordability and long-term availability of the basic services and the data they build upon. Achievement of the specific objectives outlined above will therefore contribute to growth and job creation in an innovative sector, the downstream segment of which is composed mainly of small and medium-sized enterprises.

These services will facilitate access to key data required in policy formulation at Union, national, regional and local level in fields such as agriculture, forest monitoring, water management, transport, urban planning, climate change and many others. This appropriation covers mainly the implementation of delegation agreements for the Copernicus programme, pursuant to Article 58 of the Financial Regulation.

In order to ensure that the rules on competition concerning agreements, decisions by associations of undertakings and concerted practices (Article 101 of the Treaty on the Functioning of the European Union), abuses of a dominant position (Article 102 of the Treaty on the Functioning of the European Union), aids granted by States (Articles 107 and 108 of the Treaty on the Functioning of the European Union) and concentrations between undertakings (Regulation (EC) No 139/2004) are enforced, the Commission is empowered to take decisions, to conduct investigations and to impose penalties or order recovery.

The Commission’s decisions are subject to review by the Court of Justice of the European Union in accordance with the Treaty on the Functioning of the European Union.

As a prudential measure, it is appropriate to take into account the possibility of budgetary implications stemming from rulings of the Court of Justice of the European Union.

This appropriation is intended to cover any expenditure arising from damages awarded by the Court of Justice of the European Union to claimants and resulting from legal proceedings against the Commission’s decisions in the field of competition.

Since a reasonable estimate of the financial impact on the general budget cannot be established beforehand, a token entry (‘p.m.’) appears in this article. If necessary, the Commission will propose to make available the appropriations related to actual needs by means of transfers or through a draft amending budget.

Remarks

This appropriation is intended to cover the European Social Fund (ESF)-funded technical assistance measures provided for in Articles 58 and 118 of Regulation (EU) No 1303/2013. Technical assistance may finance the preparatory, monitoring, evaluation, supervision and management measures required for the implementation of the ESF by the Commission. This appropriation may, in particular, be used to cover:

- support expenditure (representation expenses, training, meetings, missions and translations),
- expenditure on external personnel at headquarters (contract agents, seconded national experts or agency staff) up to EUR 5 000 000, as well as missions relating to that personnel.

This appropriation is intended to cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objectives of the programme or measures falling under this item, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Former Item 04 01 04 13

This appropriation is intended to cover:

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the Commission and beneficiaries,
- expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the Instrument for Pre-Accession Assistance.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers administrative expenditure under Chapter 04 05.

Remarks

Article 175 of the Treaty on the Functioning of the European Union (TFEU) provides that the objectives of economic, social and territorial cohesion set out in Article 174 shall be supported by the action it takes through the Structural Funds, which includes ESF. The tasks, priority objectives and the organisation of the Structural Funds are defined in accordance with Article 177 TFEU.

Article 80 of the Financial Regulation provides for financial corrections in the event of expenditure incurred in breach of applicable law.

Article 39 of Regulation (EC) No 1260/1999, Articles 100 and 102 of Regulation (EC) No 1083/2006 and Articles 85, 144 and 145 of Regulation (EU) No 1303/2013 on criteria for financial corrections by the Commission provide for specific rules on financial corrections applicable to the ESF.

Any revenue from the financial corrections carried out on that basis is entered in Item 6 5 0 0 of the statement of revenue and constitutes assigned revenue in accordance with Article 21(3)(c) of the Financial Regulation.

Article 177 of the Financial Regulation lays down the conditions for the repayment in full, or in part, of pre-financing payments in respect of a given operation.

Article 82 of Regulation (EC) No 1083/2006 provides for specific rules on repayment of pre-financing amounts applicable to the ESF.

Remarks

This appropriation is intended to cover the funding by the ESF of commitments remaining to be settled from the 2000-2006 programming period for innovative actions and technical assistance as provided for in Articles 22 and 23 of Regulation (EC) No 1260/1999. The innovative actions included studies, pilot projects and exchanges of experience. They were intended in particular to bring about a qualitative improvement in Structural Fund measures. Technical assistance covered preparatory, monitoring, evaluation, supervision and management measures required for implementation of the ESF. This appropriation was, in particular, used to cover:

- support expenditure (representation expenses, training, meetings and missions),
- information and publishing expenditure,
- expenditure on information technology and telecommunications,
- contracts for the provision of services and studies,
- grants.

Remarks

Former Articles 04 06 01 (in part) and 04 02 17

This appropriation is intended to cover commitments remaining to be settled for programmes under the ESF convergence objective in the 2007-2013 programming period. That objective is aimed at speeding up the convergence of the least developed Member States and regions by improving conditions for growth and employment.

This appropriation aims to reduce the economic, social and territorial disparities which have arisen, particularly in countries and regions whose development is lagging behind, in connection with the speeding-up of economic and social restructuring and population ageing.

In accordance with Article 105a(1) of Regulation (EC) No 1083/2006, as modified by point 7 of Annex III to the Treaty concerning the Accession of the Republic of Croatia to the European Union (OJ L 112, 24.4.2012), programmes and major projects which, on the date of accession of Croatia, have been approved under Regulation (EC) No 1085/2006 and the implementation of which has not been completed by that date, shall be considered to have been approved by the Commission under Regulation (EC) No 1083/2006, with the exception of the programmes approved under the components referred to in points (a) and (e) of Article 3(1) of Regulation (EC) No 1085/2006.

Remarks

This appropriation is intended to cover commitments remaining to be settled for the PEACE programme under the ESF for the 2007-2013 programming period.

In recognition of the special effort for the peace process in Northern Ireland, a total of EUR 200 000 000 was allocated for the PEACE Programme for the 2007-2013 period. This programme is implemented in full compliance with the principle of additionality of structural fund operations.

Remarks

This appropriation is intended to cover commitments remaining to be settled for the programmes under the ESF regional competitiveness and employment objective during the 2007-2013 programming period. That objective shall, outside the least developed regions, be aimed at strengthening regions' competitiveness and attractiveness as well as employment by taking into consideration the goals set in the Europe 2020 Strategy.

This appropriation aims to reduce the economic, social and territorial disparities which have arisen, particularly in countries and regions whose development is lagging behind, in connection with the speeding-up of economic and social restructuring and population ageing.

Technical assistance covers preparatory, monitoring, evaluation, supervision and management measures required for implementation of the ESF. This appropriation may, in particular, be used to cover:

- support expenditure (representation expenses, training, meetings and missions),
- information and publishing expenditure,
- expenditure on information technology and telecommunications,
- expenditure on support for accessibility for people with disabilities within technical assistance measures,
- expenditure on a high level group to ensure the implementation of overarching principles such as equality between men and women, accessibility for people with disabilities and sustainable development,
- contracts for the provision of services and studies,
- grants.

New article

This appropriation is intended to cover ESF support under the Investment for growth and jobs goal in less developed regions in the 2014-2020 programming period. The catching up process for these economically and socially lagging regions requires long-term sustained efforts. This category of regions concerns those regions whose GDP per capita is less than 75 % of the average GDP of the EU-27.

Remarks

New article

This appropriation is intended to cover ESF support under the Investment for growth and jobs goal in more developed regions in the 2014-2020 programming period. While interventions in the less developed regions will remain the priority for cohesion policy, this appropriation is thus intended to cover important challenges that concern all Member States such as global competition in the knowledge-based economy, the shift towards the low carbon economy and social polarisation exacerbated by the current economic climate. This category of regions concerns those regions whose GDP per capita is above 90 % of the average GDP of the EU-27.

Legal basis

New article

This appropriation is intended to provide additional support to measures against youth unemployment financed by the ESF. It represents the specific allocation to the Youth Employment Initiative under the Investment for growth and jobs goal in regions with a level of youth unemployment exceeding 25 % in 2012 or for Member States where the youth unemployment rate has increased by more than 30 % in 2012, regions that have a youth unemployment rate of more than 20 % in 2012 ('eligible regions'). The additional EUR 3 000 000 000 allocated to this line for the 2014-2020 period is intended to provide match funding to ESF interventions in the eligible regions.

Remarks

Former Article 04 03 05 and Item 04 01 04 08

The objective of this activity is to promote geographic and professional mobility (including the coordination of social security schemes) of workers in Europe in order to overcome the obstacles to free movement of workers and to contribute to the establishment of a real labour market at European level.

This appropriation is intended to cover actions supporting the monitoring of Union law through financing of a network of experts on free movement of workers and social security reporting regularly on the implementation of Union legal acts in the Member States and at Union level, and analysing and evaluating the major trends in legislations of the Member States with regard to the free movement of workers and coordination of social security systems. This appropriation is also intended to cover actions supporting governance of Union legal acts through meetings of the committees, actions for awareness raising and implementation and other specific technical support and the development of Electronic Exchange of Social Security Information (EESSI) system and its implementation.

This appropriation is intended to cover in particular:

- expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objectives of the programme or measures falling under this item, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts,
- the analysis and evaluation of the major trends in legislation of the Member States with regard to the free movement of workers, and coordination of social security systems, as well as the financing of networks of experts in those fields,

- the analysis and research on new policy developments in the domain of free movement of workers linked for example to the end of transitional periods and modernisation of social security coordination provisions,
- support for the work of the Administrative Commission and its sub-groups and follow-up of the decisions taken, as well as support for the work of the Technical and Advisory Committees on free movement of workers,
- support for actions preparing for the application of the new regulations on social security, including transnational exchanges of experience and information and training initiatives developed at national level,
- the financing of actions aimed at providing a better service and raising public awareness, including measures aimed at identifying migrant workers' social security problems, and measures speeding up and simplifying administrative procedures, analysis of the barriers to free movement of workers and lack of coordination of social security systems and their impact on people with disabilities, including adaptation of administrative procedures to new information-processing techniques, in order to improve the system for acquiring rights and the calculation and payment of benefits pursuant to Regulations (EEC) No 1408/71, (EEC) No 574/72, Regulation (EC) No 859/2003 as well as Regulation (EC) No 883/2004, its implementing Regulation (EC) No 987/2009, and Regulation (EU) No 1231/2010,
- the development of information and actions to make members of the public aware of their rights on free movement of workers and coordination of social security schemes,
- the support of the electronic exchange of social security information among Member States, with a view to facilitating the implementation of Regulation (EC) No 883/2004 and its implementing Regulation (EC) No 987/2009. This includes the maintenance of the central node of the EESSI system, testing system components, help desk activities, support for further development of the system and training.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The objective of this activity is to promote better policy responses in the Member States to demographic and social challenges by producing and disseminating comparative information in the context of the implementation of the Europe 2020 Strategy and the identification of future priorities for social policies

This appropriation is intended to cover actions promoting the development of comparative analysis and the exchange of views and experience at all relevant levels (regional, national, Union, international) regarding the social and demographic situation and the socio-economic trends in the Union. This appropriation is also intended to cover actions supporting an Observatory of the Social Situation, the cooperation with relevant activities in Member States and with international organisations and the management of a technical support group for the European Alliance for Families.

This appropriation is intended to cover in particular expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objectives of the programme or measures falling under this item, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

This appropriation is intended to cover in particular expenditure on Commission reports (including an annual report on the social situation and a report on demographic change and its implications every two years, in accordance with Article 159 TFEU), as well as Commission reports on problems concerning the social situation (which can be requested by the European Parliament pursuant to Article 161 TFEU).

This appropriation is also intended to cover expenditure on analysis for the reporting referred to in TFEU, as well as for the dissemination of knowledge on major social and demographic challenges and ways of tackling them. In particular, the following activities can be pursued with due consideration of the gender aspect:

- analysis of the impact of population ageing in the context of a society for all ages, in terms of trends in care and social protection needs, behaviour and flanking policies, including research on elderly minorities or migrants and the situation of informal carers,
- analysis of the impact of demographic change on Union and Member State policies, measures and programmes, and formulation of recommendations for adjustments to economic and other policies, measures and programmes at Union and national levels in order to prevent the ageing of society from having a negative impact,

- analysis of the links between family units and demographic trends,
- analysis of trends in poverty, income and wealth distribution and their broader societal impact,
- identification of the existing relations between technological development (impact on communication technologies, geographical and occupational mobility) and the consequences for households and society in general,
- analysis of the links between disability and demographic trends, analysis of the social situation of people with disabilities and their families and the needs of children with disabilities within their families and communities,
- analysis of trends in social objectives (in terms of safeguarding acquired rights or extending them) regarding both goods and services, taking account of new social challenges as well as demographic trends and changing the relationships between generations,
- development of appropriate methodological tools (sets of social indicators, simulation techniques, data collection on policy initiatives at all levels, etc.), so as to underpin the reports on the social situation, on social protection and social inclusion with a solid quantitative and scientific foundation,
- raising awareness and organising debates on the major demographic and social challenges with the aim of promoting better policy responses,
- the taking account of demographic trends, family life and childhood in the implementation of relevant Union policies, such as the free movement of persons and equality between men and women.

This appropriation is intended to cover expenditure on information and training measures for workers' organisations, including representatives of workers' organisations in the candidate countries, deriving from Union action in the framework of the implementation of the Union social dimension. Those measures should help workers' organisations to address the overarching challenges facing European employment and social policy as laid down in the Europe 2020 Strategy and within the context of Union initiatives to address the consequences of the economic crisis.

This appropriation is intended to cover in particular the following activities:

- support for the work programmes of the two specific trade union institutes, European Trade Union Institute and European Centre for Workers' Questions, which have been established to facilitate capacity-building through training and research at European level, as well as to improve the degree of involvement of workers' representatives in European governance,

Former Article 04 03 15

The European Year for Active Ageing and Solidarity between Generations was intended to raise general awareness of the value of active ageing, to stimulate debate, to exchange information and to develop mutual learning between Member States and stakeholders at all levels, to offer a framework for commitment and concrete action to enable the Union, Member States and stakeholders at all levels to develop innovative solutions, policies and long-term strategies through specific activities and to pursue specific objectives relating to active ageing and intergenerational solidarity, and to promote activities which will help to combat age discrimination.

This appropriation is intended to cover at Union-level activities in line with the European Year's for Active Ageing and Solidarity between Generations objectives and to cover the costs relating to the organisation of the closing Union conference by the incumbent Presidency. Part of this appropriation will also cover the costs relating to the evaluation of the European Year for Active Ageing and Solidarity between Generations.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The general objective of the Union Programme for Employment and Social Innovation (EaSI) is to contribute to the Europe 2020 Strategy and the related headline targets for employment, education and poverty by providing financial support for the Union's objectives.

To achieve the general objectives of EaSI in terms of promoting a high level of employment, guaranteeing adequate social protection, combating social exclusion and poverty and improving working conditions the specific objectives of the Progress axis are to:

- develop and disseminate high-quality comparative analytical knowledge in order to ensure that Union employment and social policy and working conditions legislation are based on sound evidence and are relevant to needs, challenges and conditions in the individual Member States and the other participating countries,
- facilitate effective and inclusive information-sharing, mutual learning and dialogue on Union employment and social policy and working conditions legislation at Union, national and international level in order to assist the Member States and the other participating countries in developing their policies and in implementing Union law,

CHAPTER 04 03 — EMPLOYMENT, SOCIAL AFFAIRS AND INCLUSION (*cont'd*)**04 03 02** (*cont'd*)04 03 02 01 (*cont'd*)

- provide policymakers with financial support to promote social and labour market policy reforms, build up the main actors' capacity to design and implement social experimentation, and make the relevant knowledge and expertise accessible,
- monitoring and evaluating the implementation of the European Employment Guidelines and Recommendations and their impact, notably through the Joint Employment Report, and analysing the interaction between the EES and general economic and social policy areas,
- provide Union and national organisations with financial support to develop, promote and support the implementation of Union employment and social policy and working conditions legislation,
- raising awareness, exchanging good practice, disseminating information and promoting the debate on the key challenges and policy issues in relation to working conditions and the reconciliation of work and family life (e.g. family- and informal care-givers-friendly policies in the workplace, sufficient high quality and affordable childcare, supportive infrastructures for expectant- and working-mothers and those trying to re-enter the labour market, etc.) and the ageing society, including among social partners,
- to encourage job creation, promote youth employment and fight poverty by promoting increased social convergence by means of Social Mark.

The aim of the Social Mark is to promote:

- the application of minimum social standards throughout Europe through the regular monitoring and assessment of the businesses involved,
- the improvement of social convergence at a European level,
- a decline in insecure employment,
- investments in socially responsible businesses.

This project will link in with works of the Expert group on social business, will complement the intermediate report on social business initiative expected for 2014, and will link in with other actions under EaSI and the European Strategy for Corporate Social Responsibility 2014-2020.

Social label is mentioned in 8 texts adopted by the European Parliament (of which, five are legislative texts).

A feasibility study and a high-level conference with stakeholders should explore the opportunities for the establishment of Social Mark — both with regard to political impact in different policy areas and at the level of enterprises. The study should in particular investigate:

- the probable impact and benefits of the Social Mark in different policy areas,
- what types of businesses wish to engage voluntarily in respecting minimum social criteria beyond the existing international, European and national social legislation,
- a possibility of creating a charter of undertaking for businesses with good social values and establish progressive social criteria that must be respected in order for a business to benefit from this Social Mark,
- to study how to assess and monitor the undertakings seeking this Social Mark,
- how to put in place a communication plan (addressing businesses and citizens) with a website of Social Mark, with criteria for award, procedures, the list of companies awarded, etc.

This project should make it possible to simplify marks as a whole by creating a single European mark for consumers and investors for better information and increased transparency.

The general objective of the EaSI is to contribute to the Europe 2020 Strategy and the related headline targets for employment, education and poverty by providing financial support for the Union's objectives.

The EaSI is structured around three complementarity axes: Progress, EURES and Microfinance and Social Entrepreneurship.

To achieve the general objectives of EaSI in particular to promote workers' geographical mobility and boost employment opportunities by developing Union labour markets that are open and accessible to all, the specific objectives of the EURES axis are to:

- ensure that job vacancies and applications, and any related information as well as working conditions and rights are transparent for the potential applicants and the employers; this shall be achieved through their exchange and dissemination at transnational, interregional and cross-border level using standard interoperability forms,
- help ensure that European level job vacancies and mobility options are advertised in parallel to national job vacancies and applications and not only after local or national options are exhausted,
- develop services for the recruitment and placing of workers in employment through the clearance of job vacancies and applications at European level; this shall cover all phases of placement, ranging from pre-recruitment preparation to post-placement assistance, including language skill development options, with a view to the applicant's successful integration into the labour market; such services shall include targeted mobility schemes to fill job vacancies where labour market shortcomings have been identified and/or help particular groups of workers such as young people.
- provide assistance for national and cross-border support activities organised by EURES partners,
- initial and further training of EURES advisers in the Member States,
- contacts between EURES advisers and cooperation between government employment services, including those of candidate countries,
- promotion of EURES among firms and the general public,

CHAPTER 04 03 — EMPLOYMENT, SOCIAL AFFAIRS AND INCLUSION (*cont'd*)**04 03 02** (*cont'd*)04 03 02 02 (*cont'd*)

- development of special structures for cooperation and services in border regions pursuant to point (b) of Article 17(1) of Regulation (EEC) No 1612/68,
- measures to help remove mobility obstacles, particularly in the field of work-related social security.

This programme should also facilitate the matching and placement of apprentices and trainees as a critical element in helping the transition of young people from school to work, as already begun under the preparatory action 'Your first EURES job' and complemented by the Youth Employment Initiative. Companies, particularly small and medium-sized enterprises (SMEs), will be encouraged to recruit more young people, including by financial support.

Target groups:

- young people up to 30 years of age, regardless of their qualifications and work experience as the scheme is not exclusively tailored for labour market entrants,
- all legally established businesses, particularly SMEs, to assist with reducing the costs of international hiring that affect mostly smaller companies.

Eligible jobs under this part of the programme will offer young people apprenticeships, a first work experience or specialised jobs. The scheme will not support situations of job substitution or precarious employment, or in any circumstances be contrary to national labour law.

To be eligible for funding, jobs have also to comply with the following criteria:

- be located in a EURES member country other than the country of origin of the young job seeker (transnational vacancies),
- ensure a work placement for a minimum contractual period of six months.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

In addition support could be provided to actions related to the implementation of the common provisions of EaSI such as monitoring, evaluation, dissemination of results and communication. Article 16 of Regulation (EU) No 1296/2013 describes the types of actions which may be financed.

The general objective of the EaSI is to contribute to the Europe 2020 Strategy and the related headline targets for employment, education and poverty by providing financial support for the Union's objectives.

The EaSI is structured around three complementarity axes: Progress, EURES and Microfinance and Social Entrepreneurship.

To achieve the general objectives of EaSI in particular to promote employment and social inclusion by increasing the availability and accessibility of microfinance for vulnerable groups and micro-enterprises, and by increasing access to finance for social enterprises, the specific objectives of the Microfinance and Social Entrepreneurship axis are to:

- increase access to, and the availability of, microfinance for persons who have lost or are at risk of losing their jobs, or who have difficulty in entering or re-entering the labour market, persons at risk of social exclusion and vulnerable persons who are in a disadvantaged position with regard to access to the conventional credit market and who wish to start up or develop their own micro-enterprises; and for micro-enterprises, especially those which employ these persons as referred to,
- build up the institutional capacity of microcredit providers,
- support the development of social enterprises, in particular by facilitating access to finance.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any repayment from financial instruments pursuant to Article 140(6) of the Financial Regulation, including capital repayments, guarantees released, and repayment of the principal of loans, paid back to the Commission and entered in Item 6 3 4 1 of the statement of revenues may give rise to the provision of additional appropriations in accordance with Article 21(3)(i) of the Financial Regulation.

This appropriation is intended to cover the European Foundation for the Improvement of Living and Working Conditions (Eurofound) staff and administrative expenditure (Titles 1 and 2), and operational expenditure for the work programme (Title 3).

The Eurofound must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

The Union contribution for 2014 amounts to a total of EUR 20 371 000. An amount of EUR 517 000 coming from the recovery of surplus is added to the amount of EUR 19 854 000 entered in the budget.

Part of this appropriation is intended for the work of the European Monitoring Centre for Change, decided upon at the Nice European Council of 7 to 9 December 2000 with a view to identifying, anticipating and managing technological, social (in particular demographic) and economic trends. To that end, high-quality information must be collected, processed and analysed.

Part of this appropriation is intended to cover also work on three topics of importance in relation to family policies:

- family-friendly policies in the workplace (balance between work and family life, working conditions, etc.),
- factors influencing the situation of families with regard to community housing (access to decent housing for families),
- lifelong family support concerning, for example, childcare and other issues that fall within the Foundation's forms of reference.

This appropriation is also intended to cover studies on the impact of new technologies in the workplace and on occupational illnesses.

The Foundation's establishment plan is set out in Annex 'Staff' to this section.

Former Items 04 04 04 02 and 04 04 04 03

This appropriation is intended to cover the European Agency for Safety and Health at Work (Agency) staff and administrative expenditure (Titles 1 and 2), and operational expenditure relating to the work programme (Title 3).

The Agency must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

COMMISSION

TITLE 04 — EMPLOYMENT, SOCIAL AFFAIRS AND INCLUSION

CHAPTER 04 03 — EMPLOYMENT, SOCIAL AFFAIRS AND INCLUSION (*cont'd*)04 03 12 (*cont'd*)

The Agency's objective is to provide the Union institutions, Member States and interested parties with technical, scientific and economic information of use in the area of health and safety at work.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The Union contribution for 2014 amounts to a total of EUR 14 094 900. An amount of EUR 81 000 coming from the recovery of surplus is added to the amount of EUR 14 013 900 entered in the budget.

This appropriation is intended to cover the measures necessary to accomplish the Agency's tasks as defined in Regulation (EC) No 2062/94, and in particular:

- awareness-building and risk anticipation measures, with special emphasis on SMEs,
- setting up a 'risk observatory' based on examples of good practice collected from firms or specific branches of activity,
- also in collaboration with the International Labour Organization, organising exchanges of experience, information and good practices,
- integrating the candidate countries into these information networks and devising working tools which are geared to their specific situation,
- organising the European week on health and safety, focusing on specific risks and needs of users and final beneficiaries.

The Agency's establishment plan is set out in Annex 'Staff' to this section.

Former Article 04 03 13

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

This preparatory action is intended to provide young people with access to more employment opportunities and to encourage and facilitate their work placement throughout the Member States. With the support of EURES work matching, work placement services will be provided, granting access to employment opportunities throughout the Union. This action should be broadened to also facilitate the matching and placement of apprentices and trainees as a critical element in helping the transition of young people from school to work. Companies, particularly SMEs, will be encouraged to recruit more young people, including by financial support.

Target groups:

- young people up to 30 years of age, regardless of their qualifications and work experience as the scheme is not exclusively tailored for labour market entrants,
- all legally established businesses, particularly SMEs, to assist with reducing the costs of international hiring that affect mostly smaller companies.

Eligible jobs:

'Your first EURES job' will offer young people apprenticeships, a first work experience or specialised jobs. The scheme will not support situations of job substitution or precarious employment, or in any circumstances be contrary to national labour law.

To be eligible for funding, jobs have also to comply with the following criteria:

- be located in a EURES member country other than the country of origin of the young job seeker (transnational vacancies),
- ensure a work placement for a minimum contractual period of six months.

The following costs will be covered:

- costs generated by the recruitment process and a recruitment allowance allocated by the EURES member of the country of destination,
- a financial incentive for the employer to cover the mobile worker's integration costs (e.g. induction training, language course, administrative support) after the recruitment process has been concluded,
- the job seeker's travel and subsistence costs for the first interview and the costs of moving abroad.

This appropriation is intended to continue to cover actions with the general objective to ensure the equal treatment and non-discrimination of migrant workers on the host labour market by means of information centres in the Member States to provide information, advice and support, including legal support, to posted workers as well as to migrant workers.

The objective of this preparatory action is to ensure the equal treatment and non-discrimination of migrant workers on the host labour market by means of information centres in the Member States to provide information, advice and support, including legal support, to migrant workers.

This preparatory action is linked to the up-coming Union initiative on the freedom of movement within the Union. This initiative is aimed at improving the enforceability of Regulation (EU) No 492/2011 of the European Parliament and of the Council of 5 April 2011 on freedom of movement for workers within the Union (OJ L 141, 27.5.2011, p. 1). It aims to remove existing barriers to mobility of Union workers by enhancing the enforcement of rights conferred by Union law and providing information and legal support to migrants facing discrimination based on nationality. This preparatory action continues the work done in the framework of the past pilot project 'Working and living conditions of posted workers' (Article 04 03 09).

Actions:

- a study to explore the modalities of organising a network of centres across the Union,
- a stakeholder conference,
- launching 2 to 3 pilot measures to test the network of centres in selected Member States.

The information centres can be based upon established trade union information activities and should with the assistance of the Commission:

- provide immigrant groups with support and information with regard to labour and foreign national issues,
- provide legal services for immigrants who may be the object of exploitation and harassment, and who are entitled to present claims and formal complaints in accordance with current legislation,
- combat discrimination and intolerance, which damage labour and social integration,
- support those in an irregular situation by providing legal assistance with the objective of regularising workers and defending their fundamental rights,
- keep up-to-date and provide permanent legal information, in particular in relation to employment cases, in order to ensure the full recognition of the rights of posted and migrant workers,
- provide legal support in the following cases: deportation orders, migrants in irregular situations, undocumented migrant workers, work and residence permit renewal,
- develop actions that tackle the fight against undeclared work and develop employer's awareness of the issue of undeclared work,
- develop campaigns about labour market shortages and hiring in the country of origin,
- design informative campaigns and hold conferences, seminars, etc.,
- foster cooperation and the exchange of information between employment and immigration services.

The expected results of this preparatory action are: helping a smooth integration of migrant workers in host labour markets while at the same time helping them to protect and enforce their right to equal treatment. In terms of improving the administrative environment, the preparatory action will foster cooperation between employment and immigration services at the level of the Commission and the Member States.

Remarks

Former Article 04 04 17

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

Youth unemployment is a major challenge in Europe. Around 5 500 000 young people within the Union are currently unemployed, one in five persons under the age of 25 is out of a job and 15 % leave school without graduating. The decline in youth employment was more pronounced in 2011 and the youth unemployment rate continued to rise in 2012 reaching 45 % in some Member States. This has severe economic and social consequences for society, as well as for individuals. Studies show that people who are unemployed while young are more likely to fall into long-term unemployment later in life and they are more likely to end up in precarious work. It is consequently of the utmost importance that Member States help all young people to find a job or to pursue their education when unemployed, irrespective of their level of education. In this context, the Europe 2020 Strategy sets clear targets for the Member States to reduce the share of early school leavers to 10 % and raise the employment rate to 75 % and addresses these problems by means of the flagship initiative 'Youth on the Move' calling upon Member States to provide a so-called 'Youth Guarantee' to ensure that all young people are in employment, in further education or that activation measures are taken within four months of leaving school. Youth Guarantee is an important element among the innovative approaches to transition from school to work as reiterated in the Commission communication of 20 December 2011 entitled 'Youth Opportunities Initiative' (COM(2011) 933 final).

Against this backdrop, the objectives of the preparatory action are the following:

- target young people including those who are neither in education, nor in apprenticeship, nor employed (so-called 'NEETs'),
- explore how the Youth Guarantee would work in practice in the Member States,
- aim at establishing innovative action as regards the transition from unemployment to employment of young people and at spreading this knowledge to all Member States,
- ensure a job or further education or activation measures for young people within four months of unemployment.

The preparatory action would therefore include the following measures:

- supporting investigation and collecting the experience of existing projects in Member States where a scheme comparable to the European Youth Guarantee is in force,
- based on the best practices collected, launching two or three pilot projects in Member States to establish a Youth Guarantee locally. This means that relevant stakeholders locally would be supported in providing counselling and help regarding the implementation of a Youth Guarantee,
- designing alternative programmes at local level for early school leavers to develop their skills and, in this context, putting a special focus on networking between relevant stakeholders (companies, schools, youth welfare services) as one important measure to improve the integration of young people into the labour market,
- making use of this experience with a view to the future Union funding schemes relevant to young people and labour market integration.

*Remarks**Former Article 04 04 18*

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

This preparatory action will build on the importance of social innovation and the emergence of social enterprises. Together these serve as drivers of change that operate on the basis of viable business models to further inclusive, socially fairer and environmentally sustainable growth. They also generate jobs through activities that meet social needs in the context of sustainable and inclusive development. The objective of this preparatory action is to identify, develop, promote and disseminate the good practice of national, regional or local governments and of financial intermediaries in assisting young or social entrepreneurs at times of high youth unemployment. As such, the preparatory action will contribute to realising the potential of young and social entrepreneurship, emphasised also in the Annual Growth Survey 2012 and in the Commission communication of 18 April 2012 entitled 'Towards a job-rich recovery' (COM(2012) 173 final). The goal is to improve the economic and social situation at local level, and this preparatory action will show ways in which support for young and social entrepreneurship can be most effectively incorporated into regional, urban and/or local development strategies. Special focus will be on the use that could be made, in the 2014-2020 period, of Union financial instruments, in particular the Structural Funds.

The main task will be to work together with potential finance providers (in particular managing authorities for structural fund programmes, notably those financed by the ESF), and financial intermediaries, including the EIB Group, in a limited number of pilot regions. This will help develop and establish feasible, suitable and reliable schemes or funds providing equity or mezzanine funding (including venture philanthropy). These can be used to support structures providing business development services and networking facilities, with the aim of stimulating and facilitating the green shoots of development and growth in social enterprises. Actions may include feasibility studies, mutual learning, dissemination of good practice, and targeted assistance to the national or regional authorities, where appropriate. Where relevant, such actions may build on the results of previous actions for capacity-building and mutual learning of regional authorities and financial intermediaries, such as the JESSICA Networking Platform ⁽¹⁾. The results of these learning pilots will be beneficial for implementing the relevant Europe 2020 Strategy flagship initiatives ⁽²⁾, and will prepare the ground for effective use of the ESF and other Union funds after 2014.

⁽¹⁾ A learning platform helping national and regional authorities and financial intermediaries develop repayable support schemes for sustainable urban development in the context of the Structural Funds (http://ec.europa.eu/regional_policy/thefunds/instruments/jessica_network_en.cfm).

⁽²⁾ Notably 'Youth on the Move', 'An Agenda for New Skills and Jobs', 'Innovation Union' and 'European Platform against Poverty and Social Exclusion'.

Remarks

This pilot project aims at assessing the feasibility and added value of introducing a European unemployment insurance or benefit scheme possibly taking the form of a minimum unemployment allowance. The ultimate aim would be to pave the way for the concrete implementation of this idea, as a key component of the social dimension of the Economic and Monetary Union.

The following actions/measures to be funded are:

- a detailed study in three part on the options, feasibility and added value of a European insurance scheme. First, the study will examine the different possible options as for the scope and content of the scheme, inter alia a minimum unemployment allowance. Second, the study will test their feasibility with due regard for differing practices, and for collective labour agreements and legislation in the various Member States. Third, the study should assess their European added value and in particular how such scheme could allow economic growth, prevent poverty and serve as a basis for people to live in dignity, play a full part in society and make headway with finding employment, and which will play an automatic stabilising role for the economy,
- the creation of a network to facilitate the exchange of best practices between Member States, local and territorial administrations, trade unions and associations on national unemployment insurance schemes. The information collected and exchanged should also facilitate the drawing up of the study,
- the organisation of a high level conference at the end of the project to communicate and debate the results of the study.

New article

This appropriation is intended to cover the EGF so as to enable the Union to provide temporary and targeted support for workers made redundant as a result of major structural changes in world patterns due to globalisation, trade agreements, or an unexpected crisis and to provide financial support for their rapid reintegration into stable employment.

The actions undertaken by the EGF should be complementary to those of the ESF. There must be no double funding from these instruments and EGF-supported training or transition measures must be tailored to the sector or market requirements to bring any added value.

The rules for entering the appropriations in this reserve and for mobilising the EGF are laid down in point 13 of the Interinstitutional Agreement of 2 December 2013 between the European Parliament, the Council and the Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management (OJ C 373, 20.12.2013, p. 1.).

This appropriation is intended to cover the EGF so as to enable the Union to provide temporary and targeted support for workers made redundant as a result of major structural changes in world trade patterns due to globalisation where these redundancies have a significant adverse impact on the regional or local economy for applications submitted before 31 December 2013. For applications submitted before 31 December 2011, it may also be used to provide support to workers made redundant as a direct result of the global financial and economic crisis.

The actions undertaken by the EGF should be complementary to those of the ESF. There must be no double funding from these instruments.

The rules for entering the appropriations in this reserve and for mobilising the EGF are laid down in point 28 of the Interinstitutional Agreement of 17 May 2006 and in Article 12 of Regulation (EC) No 1927/2006.

Under the Instrument for Pre-accession Assistance (IPA II), this appropriation will address the following specific objectives in the Western Balkans:

- support for political reforms,
- strengthening the ability of beneficiary countries to fulfil the obligations stemming from membership by supporting progressive alignment with and adoption, implementation and enforcement of the Union *acquis*, structural, cohesion, agricultural and rural development funds and policies of the Union.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Remarks

Article 174 TFEU sets out the Union's objective of economic, social and territorial cohesion while Article 175 specifies the role of the Structural Funds in achieving this objective and makes provisions for the adoption of specific actions outside the Structural Funds.

Article 80 of the Financial Regulation provides for financial corrections in the event of expenditure incurred in breach of applicable law.

Articles 53 and 54 of the proposal for a Regulation on the Fund for European Aid to the Most Deprived (COM(2012) 617 final) (FEAD) on criteria for financial corrections by the Commission provide for specific rules on financial corrections applicable to the FEAD.

Any revenue from the financial corrections carried out on that basis is entered in Item 6 5 0 0 of the statement of revenue and constitutes assigned revenue in accordance with Article 21(3)(c) of the Financial Regulation.

Article 177 of the Financial Regulation lays down the conditions for the repayment in full, or in part, of pre-financing payments in respect of a given operation.

Article 41 of the proposed Regulation provides for specific rules on repayment of pre-financing applicable to the FEAD.

Pre-financing amounts repaid shall constitute internal assigned revenue in accordance with Article 21(4) of the Financial Regulation and shall be entered in Item 6 1 5 0 or 6 1 5 7.

*Remarks**New article*

The Fund for European Aid to the Most Deprived (FEAD) replaces the European Union's Food Distribution Programme for the Most Deprived People which was discontinued at the end of 2013.

FEAD shall promote social cohesion, enhance social inclusion and combat poverty in the Union by contributing to achieving the poverty reduction target of at least 20 million of the number of persons at risk of poverty and social exclusion in accordance with the Europe 2020 Strategy, whilst complementing the ESF. FEAD shall contribute to achieving the specific objective of alleviating and eradicating the worst forms of poverty, in particular food poverty, by providing non-financial assistance to the most deprived persons.

FEAD shall contribute to the sustainable eradication of food poverty, offering most deprived persons the prospect of a decent life. That objective and the structural impact of the FEAD shall be qualitatively and quantitatively assessed.

FEAD shall complement and shall not replace or reduce sustainable national poverty eradication and social inclusion programmes, which remain the responsibility of Member States.

Following the political agreement on the Council Regulation (EU, Euratom) No 1311/2013 of 2 December 2013 laying down the multiannual financial framework for the years 2014-2020 (OJ L 347, 20.12.2013, p. 884), it was agreed that provision shall be made for an additional increase of up to EUR 1 billion (on top of the EUR 2,5 billion already agreed) for the whole 2014-2020 period for this program for those Member States wishing to use this increase.

This political agreement was reflected in the budget appropriations entered in Budget 2014. Figures agreed are in 2011 prices.

The Commission and the Member States shall ensure via transitional provisions that activities eligible for support can start as of 1 January 2014, even if operational programmes have not yet been submitted.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services (CESES) and its Member Associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. For that to be achieved, Union authorizing officers are encouraged to make full use of the possibilities offered by the Financial Regulation, in particular taking into account in-kind financing by CESES as contribution to Union projects.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers administrative expenditure under Chapter 05 05.

Remarks

New item

This appropriation is intended to cover other administrative expenditure for all management of research and innovation programmes — Horizon 2020 in the form of indirect action under the non-nuclear programmes, including other administrative expenditure incurred by staff posted in Union delegations.

It is also intended to cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objectives of the programme or measures coming under this item and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

This appropriation is also intended to cover expenditure on technical and administrative assistance relating to the identification, preparation, management, monitoring, audit and supervision of the programme or projects, such as conferences, workshops, seminars, development and maintenance of IT systems, missions, trainings and representation expenses.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The reserve is to be established by applying at the beginning of each year a reduction to agricultural direct aids (Chapter 05 03) with the financial discipline mechanisms in accordance with Article 11 of Regulation (EC) No 73/2009, as amended by Regulation (EU) No 671/2012, as well as Article 26 of Regulation (EU) No 1306/2013 and Article 8 of Regulation (EU) No 1307/2013. When the Commission considers the reserve needs to be called on, in accordance with the relevant legislative act, it shall present to the European Parliament and the Council a proposal for a transfer from the reserve to the corresponding budget lines financing the measure deemed necessary. Any Commission proposal for a transfer to draw on the reserve must be preceded by an examination of the scope for reallocating appropriations. By the end of the financial year, any amount of the reserve not made available for crisis measures shall be reimbursed proportionally as agricultural direct aids to the budget lines from which the reduction was made.

Transfers calling on the reserve and transfers back from the reserve to agricultural direct aids shall be made in accordance with the Financial Regulation.

Remarks

This appropriation is intended to cover the settlement of commitments entered into, in the course of earlier programming periods, in respect of innovative, preparatory, monitoring or evaluation measures, and any similar technical assistance measures provided for in the regulations concerned.

It also funds amounts outstanding from former multiannual measures, in particular those approved and implemented under the other abovementioned regulations, which are not covered by the priority objectives of the Funds.

This appropriation will where applicable also be used to cover amounts payable in respect of the EAGGF Guidance Section for measures for which the corresponding commitment appropriations are neither available nor provided for in the programming for 2000 to 2006.

Remarks

This appropriation is intended to cover the financing of the 2007 to 2013 rural development programmes funded by the European Agricultural Fund for Rural Development (EAFRD).

Of the total commitment appropriations in this item, an amount of EUR 2 355 300 000 results from the compulsory modulation in conformity with Article 9(1) of Regulation (EC) No 73/2009. In addition, an amount of EUR 347 900 000 results from the voluntary modulation in conformity with Regulation (EC) No 378/2007. Rural development measures under all axes will be measured against more refined performance indicators for farming systems and production methods so as to respond to the challenges related to climate change, water protection, biodiversity and renewable energies. Member States shall report on action taken on the new challenges in rural development measures, including the milk sector.

Remarks

This appropriation is intended to cover technical assistance measures as provided for by Article 66(1) of Regulation (EC) No 1698/2005, and in particular the European Network for Rural Development.

Part of this appropriation is intended to steadily expand the European Rural Solidarity Network, which has been in operation for two years now.

1. *Aim: to create a European area of solidarity, prevention and research*

- Phase 1: consolidating the current solidarity network.
- Phase 2: expanding the network to offer other European countries the benefits of its expertise in taking preventive action to safeguard agricultural employment and maintain the economic vitality of rural areas. There is an urgent need to share and standardise the comprehensive support schemes already in use and to exchange views on exactly what being 'in difficulty' means, with a view to detecting people who are in this situation, using common criteria referred to as 'alarm signals'. These prevention tools will help newly established support groups to address the problems faced in rural areas more effectively.

2. *Action to be taken: dissemination of prevention tools*

The following tools need to be disseminated as widely as possible among European farmers:

- 'alarm signals': the basic preventive self-assessment tool to be used by farmers to assess the difficulties they face. This tool will enable farmers to determine exactly how bad their situation is, so that they can seek the assistance of agencies able to help them out of their difficulties at the earliest possible stage,
- 'simplified management tool': this financial self-assessment tool will enable farmers to assess the financial situation of their farms and to anticipate difficulties, determine how much scope they have for investment or diversification and keep to a pre-established recovery plan. Training in the use of the simplified management tool will be provided by the individual support groups at national level. The training will be targeted at people looking after and supporting farmers in difficulty.

New item

Under the Instrument for Pre-accession Assistance (IPA II), this appropriation will address the following specific objectives in the Western Balkans:

- support for political reforms,
- strengthening the ability of beneficiary countries to fulfil the obligations stemming from membership by supporting progressive alignment with and adoption, implementation and enforcement of the Union *acquis*, structural, cohesion, agricultural and rural development funds and policies of the Union.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Remarks

This appropriation is intended to cover the financing of measures for enhancing public awareness of the common agricultural policy by the Union, as provided for in Article 1 of Regulation (EC) No 814/2000 and in Article 45 of Regulation (EU) No 1306/2013.

The measures may take the form of:

- annual work programmes submitted, in particular, by farmers' or rural development organisations, consumers' associations and environmental protection associations,
- specific measures submitted, in particular, by the public authorities of the Member States, the media and universities,
- activities implemented at the Commission's initiative,
- activities for the promotion of family farming.

Part of this appropriation is intended to finance information in schools, at points of sale and at other consumer contact points on the high-quality, food-safety, environmental and animal-welfare standards that European farmers have to meet, as compared with those required in third countries. It should highlight the important contribution made by the common agricultural policy in achieving these high standards and include explanations of the various quality schemes in force, such as denominations of origin and geographical indications.

Part of this appropriation is intended to finance an information campaign to consumers on causes and consequences of waste in food and advice on ways of reducing it, as well as the promotion of benchmarking practices within the different sectors of the food chain.

*Remarks**Former Item 05 04 03 01*

This appropriation is intended to cover the cost of a preparatory action for a third Union programme for the conservation and sustainable use of plant and animal genetic resources in agriculture. Previous programmes based on Council Regulation (EC) No 1476/94 and Council Regulation (EC) No 870/2004 were completed in 2010. First evaluations of projects suggest that there is need for further actions in order to enhance the conservation of genetic diversity and sustainable use of genetic resources within agriculture, contribute to quality products and local food chains; and to support cooperation and exchange of knowledge between researchers, farmers, breeders and networks of engaged citizens and NGOs, involving the end-users and raising consumer awareness in this field.

Building upon the preparatory work of the European Commission in 2013, the preparatory action shall provide support for Europe wide interlinking projects and activities in conservation and sustainable use of genetic resources in the framework of upcoming rural development programmes. It shall contribute to delivering the elements for a third Union genetic resources programme, specifically on the following questions:

- how to improve communication between Member States and their authorities on best practices and harmonisation of efforts in conservation and sustainable use of genetic resources,
- how to enhance networking between key stakeholders including farmers, researchers, gene banks, NGOs and end-users, and to enhance marketing opportunities in the context of quality schemes and short food chains,
- how to improve the exchange of knowledge and research in enhancing genetic diversity within agricultural systems,
- how to adapt breeding methods and legislation to the need for the conservation of genetic diversity and sustainable use of genetic resources,

Remarks

The project is supposed to bring together and promote cross-border agribusiness expertise in rural areas and to form agribusiness competence regions — so-called Agropols, which will offer a sustainable economic perspective to those areas. The Germany-Netherlands cross border region (at least 4 661 German micro and small enterprises (SMEs) in agriculture and horticulture; enterprises in industry; service companies, education and science institutions; administrations; chambers of industry and commerce, chambers of agriculture and associations) as a pioneer for other European agrarian regions illustrates how the on-going challenges of structural change in agriculture and increasing competition in the agricultural sector through cross-sector development into an Agropol can be successfully addressed:

- scientific adaptation of the approach of sectoral economic development for an Agropol,
- composing a strategic plan for developing a common European Agrobusiness-Food-Region,
- mobilization of the stakeholder, particularly administration and economy, for the common aim,
- cooperation becomes successful by the common approach: Resource conservation and efficiency / developing a master-plan are main focal points of the project. The project thereby also contributes towards surmounting global challenges such as climate change, scarcity of raw materials and natural resources as well as food security. Ecologically and economically effective industry and agriculture is supported, balanced rural development is promoted,
- presentation of the transferability to other European regions.

It is expected, that the project will support the European 2020 Strategy and the flagship initiatives Agenda for new Skills and Jobs, Resource efficient Europe, Industrial Competitiveness and ETP 2020.

Remarks

These remarks are applicable to all the budget lines in this chapter.

This appropriation will be used for Horizon 2020 — The Framework Programme for Research and Innovation which covers the 2014 to 2020 period.

Horizon 2020 shall play a central role in the implementation of the Europe 2020 flagship initiative 'Innovation Union' and other flagship initiatives, notably 'Resource efficient Europe', 'An industrial policy for the globalisation era', and 'A digital agenda for Europe', as well as in the development and functioning of the European Research Area (ERA). Horizon 2020 shall contribute to building an economy based on knowledge and innovation across the whole Union by leveraging sufficient additional research, development and innovation funding.

It will be carried out in order to pursue the general objectives set out in Article 179 of the Treaty on the Functioning of the European Union, in order to contribute to the creation of a society of knowledge, based on the European Research Area, i.e. supporting transnational cooperation at all levels throughout the Union, taking the dynamism, creativity and the excellence of European research to the limits of knowledge, strengthening human resources for research and for technology in Europe, quantitatively and qualitatively and research and innovation capacities in the whole of Europe and ensuring optimum use thereof.

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Union to investigate new areas of research suitable for Union action, inter alia, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

This appropriation will be used in accordance with Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for participation and dissemination in 'Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020)' and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

CHAPTER 05 09 — HORIZON 2020 — RESEARCH AND INNOVATION RELATED TO AGRICULTURE (*cont'd*)

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this chapter. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The possibility of third countries or institutes from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution entered in Items 6 0 1 3 and 6 0 1 5 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from States taking part in the European cooperation in the field of scientific and technical research entered in Item 6 0 1 6 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contributions by outside bodies to Union activities entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Additional appropriations will be provided under Item 05 09 50 01.

Administrative appropriations of this chapter will be provided under Article 05 01 05.

05 09 03 Societal challenges*Remarks*

This priority of Horizon 2020 responds directly to the policy priorities and societal challenges identified in the Europe 2020 strategy. Those activities will be implemented using a challenge-based approach which brings together resources and knowledge across different fields, technologies and disciplines. The activities will cover the full cycle from research to market, with a new focus on innovation-related activities such as piloting, demonstration, test-beds, support for public procurement, design, end-user driven innovation, social innovation and market take-up of innovations. The activities will support directly the corresponding sectoral policy competences at Union level.

*Remarks**New item*

This activity will focus on developing more sustainable and productive agriculture and forestry systems, while at the same time developing services, concepts and policies for thriving rural livelihoods. In addition, emphasis will be placed on healthy and safe foods for all as well as competitive food processing methods that use fewer resources and produce fewer by-products. In parallel, efforts will be made on sustainably exploiting aquatic living resources (e.g. sustainable and environmentally friendly fisheries). Low carbon, resource-efficient, sustainable and competitive European bio-based industries will also be promoted.

This appropriation is intended to cover the 'Programme Support Actions' (PSA) defined in Article 2(7) and Article 5(2)(b) of Regulation (EU) No 1316/2013 of the European Parliament and of the Council of 11 December 2013 establishing the Connecting Europe Facility, amending Regulation (EU) No 913/2010 and repealing Regulations (EC) No 680/2007 and (EC) No 67/2010 (OJ L 348, 20.12.2013, p. 129), and directly related to the accompanying measures necessary for the implementation of the Connecting Europe Facility programme and Trans-European Transport Network guidelines (TEN-T). This includes expenditure on studies, meetings of experts, information and publications, supporting actions directly linked to the achievement of the objective of the Connecting Europe Facility.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

New item

The objective of 'Removing bottlenecks and bridging missing links' refers to Article 4(2)(a) of Regulation (EU) No 1316/2013. This objective will be implemented through calls for proposals under the annual and multiannual work programmes constituting financing decisions within the meaning of Article 84 of the Financial Regulation, of the core network transport projects and Union transport corridors, which are defined in the annexes to the Connecting Europe Facility and TEN-T Guidelines. The implementation of this objective is expected to be measured through new and improved cross border connections and removed bottlenecks, which have benefitted from the Connecting Europe Facility.

Legal basis

Regulation (EU) No 1316/2013 of the European Parliament and of the Council of 11 December 2013 establishing the Connecting Europe Facility, amending Regulation (EU) No 913/2010 and repealing Regulations (EC) No 680/2007 and (EC) No 67/2010 (OJ L 348, 20.12.2013, p. 129), and in particular Article 4(2)(a) thereof.

New item

The objective of 'Ensuring sustainable and efficient transport in the long run' refers to Article 4(2)(b) of Regulation (EU) No 1316/2013. This objective will be implemented through calls for proposals under the annual and multiannual work programmes constituting the financing decisions within the meaning of Article 84 of the Financial Regulation.

In the 2014-2020 period, a follow-up of the Marco Polo programme will be implemented by the Connecting Europe Facility within the framework of the revised TEN-T guidelines. In accordance with Article 32 of Regulation (EU) No 1315/2013 of the European Parliament and of the Council of 11 December 2013 on Union guidelines for the development of the trans-European transport network and repealing Decision No 661/2010/EU (OJ L 348, 20.12.2013, p. 1), it will introduce a new approach in support of freight transport services in the Union (indicative budget EUR 70-140 million per year).

The objective of 'Optimising the integration and interconnection of transport modes and enhancing the interoperability, safety and security of transport' refers to Article 4(2)(c) of Regulation (EU) No 1316/2013.

This objective will be implemented through calls for proposals under the annual and multiannual work programmes constituting financing decisions within the meaning of Article 84 of the Financial Regulation.

The achievement of this objective shall be measured by the number of inland and maritime ports and airports connected to the railway network, by the number of improved multimodal logistics platforms, by the number of improved connections through motorways of the sea and by the number of supply points in alternative sources of energy on the core network.

This appropriation is intended to cover the support from the Cohesion Fund under the Investment for Growth and Jobs goal for transport infrastructure under the Connecting Europe Facility in accordance with Article 84(4) of Regulation (EU) No 1303/2013.

In accordance with Article 5(1)(a) of Regulation (EU) No 1316/2013, an amount of EUR 11 305 500 000 in current prices should be transferred from the Cohesion Fund to be spent in line with that Regulation exclusively in Member States eligible for funding from the Cohesion Fund.

In accordance with Article 11, this objective will be implemented through calls for proposals under the annual and multiannual work programmes, which are opened exclusively for the Member States eligible for financing under the Cohesion Fund. These annual and multiannual work programmes constitute financing decisions in the meaning of Article 84 of the Financial Regulation.

In accordance with Articles 2(7) and 5(2), up to 1 % of the financial envelope shall cover expenses pertaining to 'programme support actions'.

New item

This objective of 'Creating an environment more conducive to private investment for transport infrastructure projects' aims to implement the projects of common interests through the financial instruments, based on an *ex-ante* assessment as required by Article 224 of Delegated Regulation (EU) No 1268/2012. About EUR 2 billion are estimated to be available during the next MFF for innovative financing instruments such as the Project Bonds Instrument, the Loan Guarantee Instrument and other instruments such as joint ventures and the equity instruments to combine public and private financial resources to accelerate infrastructure investments in Europe. The financial instruments are intended to facilitate access to private financing and thus to accelerate or to make possible financing of the TEN-T projects eligible under the TEN-T Guidelines and Regulation (EU) No 1316/2013. The financial instruments are intended to be established as 'debt' or 'equity' frameworks and they should address specific market failures and provide appropriate financing solutions. They are intended to be implemented as direct management by the entrusted entities, within the meaning of the Financial Regulation or jointly with the entrusted entities. The entrusted entities must be accredited to provide guarantees to the Commission on the protection of the Union financial interests in line with the requirements of the Financial Regulation.

Any repayment from financial instruments pursuant to Article 140(6) of the Financial Regulation, including capital repayments, guarantees released, and repayment of the principal of loans, paid back to the Commission and entered in Item 6 3 4 1 of the statement of revenues may give rise to the provision of additional appropriations in accordance with Article 21(3)(i) of the Financial Regulation.

This appropriation is intended to cover expenditure on studies and meetings of experts directly linked to the achievement of the objective of the programme or measures coming under this item, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

It is intended to cover expenditure on information and communication, conferences and events promoting activities in the transport sector as well as electronic and paper publications directly linked to the achievement of the objective of transport policy, as well as safety and protection of transport users.

This appropriation is also intended to cover expenditure incurred by the Commission for collecting and processing information of all kinds needed for the analysis, definition, promotion, monitoring, evaluation and implementation of the Union's common transport policy, for all transport modes (road, rail, air, sea and inland waterways) and for all transport sectors (transport safety, internal market of transport with its implementation rules, optimisation of transport network, passengers' rights and protection in all transport modes, the use of alternative fuels in all transport modes, urban mobility, as well as for all other sectors related to transport). The main endorsed actions and objectives are intended to support the Union's common transport policy, including extension to third countries, technical assistance for all transport modes and sectors, specific training, definition of rules of transport safety, simplification of administrative procedures, the use of ICT technologies, promotion of the common transport policy including establishment and implementation of trans-European network orientation endorsed by the Treaty on the Functioning of the European Union as well as strengthening passengers' rights and protection in all transport modes and to improve the application and enforcement of existing Regulations on passenger rights, in particular through awareness-raising activities about the content of those Regulations, targeted at both the transport industry as well as the travelling public.

COMMISSION

TITLE 06 — MOBILITY AND TRANSPORT

CHAPTER 06 02 — EUROPEAN TRANSPORT POLICY (*cont'd*)06 02 05 (*cont'd*)*Maritime transport and logistics*

This appropriation is intended to cover monitoring, evaluation and revision (impact assessment) of Union maritime safety legislation.

These activities should promote and support intermodal barrier-free mobility for persons with reduced mobility.

In connection with Regulation (EC) No 261/2004 of the European Parliament and of the Council of 11 February 2004 establishing common rules on compensation and assistance to passengers in the event of denied boarding and of cancellation or long delay of flights (OJ L 46, 17.2.2004, p. 1), the Commission needs to develop additional measures to make enforcement of the Regulation more efficient.

The implementation of Regulation (EC) No 1371/2007 of the European Parliament and of the Council of 23 October 2007 on rail passengers' rights and obligations (OJ L 315, 3.12.2007, p. 14) requires specific implementation action due to legal reporting requirements of the Commission and due to the complex interaction of regional, national and international (COTIF) administrative structures involved in the implementation.

The implementation of Regulation (EU) No 1177/2010 of the European Parliament and of the Council of 24 November 2010 concerning the rights of passengers when travelling by sea and inland waterway (OJ L 334, 17.12.2010, p. 1), which entered into force on 18 December 2012, and Regulation (EU) No 181/2011 of the European Parliament and of the Council of 16 February 2011 concerning the rights of passengers in bus and coach travel (OJ L 55, 28.2.2011, p. 1), which entered into force on 1 March 2013, requires specific implementation action in order to ensure the correct application and enforcement of these Regulations in the Member States and the compliance by Member States with their legal reporting obligations towards the Commission.

As an important implementation support measure the Commission is conducting a two-year information and awareness raising campaign on passenger rights which started in 2012 and covers all Member States.

These actions and objectives could be supported at different levels (local, regional, national, European and international), for all transport modes and sectors and related to transport, as well as in technical, technological, regulatory, informative, environmental, climatic and political fields and for sustainable development.

Air transport has long been one of the sectors in which the consumer authorities receive most complaints in the Union. The increase in the number of commercial transactions performed electronically (using the Internet or a mobile telephone) has merely resulted in more breaches of Union consumer legislation.

One of the main complaints by Union consumers is that there are no effective means of redress at airports themselves, particularly when disputes arise as a result of failure on the part of airlines and other service providers to meet their obligations. Union consumers and air transport authorities therefore need to work together to secure an immediate improvement in passenger support and information facilities at airports and, at the same time, step up co-regulation in the sector.

Road safety

The Commission communication of 20 July 2010 entitled 'Towards a European road safety area: policy orientations on road safety 2011-2020'(COM(2010) 389 final) presents seven objectives: road user education, enforcement of traffic rules, safe infrastructure, safe vehicles, use of modern technology, post-injury emergency responses and a special focus on vulnerable road users. Work continues on the Commission's proposal, on the new Union driving licences, on the Commission proposal of a road-worthiness package, on the deployment of intelligent transport systems and in-vehicle safety systems and the launch of work towards a strategy on serious road traffic injuries. The Commission's road safety work also includes the management of rules relating to dangerous goods, the maintenance of a European database on road accidents (CARE), the follow-up on the infrastructure management and tunnel safety directives and on various aspects of vulnerable road user safety. The implementation of the Policy Orientations 2011-2020 would also require specific implementation action for the exchange of good practices, road safety campaigns, call of proposals and development of the road safety observatory.

The main activities in the land transport area concern the better implementation, review or planning for new initiatives.

Single European Sky

The full implementation of the Single European Sky (four basic Regulations (EC) No 549/2004, (EC) No 550/2004, (EC) No 551/2004 and (EC) No 552/2004, and more than 20 implementing rules) is a key priority to improve the performance of the air navigation services in terms of safety, cost efficiency of the air navigation service provision, reduction of air traffic flow delays and environmental performance, and hence of air transport in Europe.

The extension of the Single European Sky legislation to the South East States through the Multilateral Agreement on the Establishment of a European Common Aviation Area (ECAA) is an important step for the achievement of the neighbouring policy. This action is based on Article 7 of Regulation (EC) No 549/2004.

*Remarks**Former Item 06 01 04 09 (in part) and former Article 06 02 11*

This appropriation is intended to cover expenditure incurred by the Commission for collecting and processing information of all kinds needed for the analysis, definition, promotion, monitoring, evaluation and implementation of the rules and measures required to improve the security of inland, air and sea transport, including extension to third countries, technical assistance and specific training.

The main objectives are to develop and apply security rules in the field of transport and in particular:

- measures to prevent malicious acts in the transport sector,
- approximation of legislation, technical standards and administrative monitoring practices relating to transport security,
- definition of common indicators, methods and security objectives for the transport sector and collection of the data necessary for such definition,
- monitoring of measures taken on transport security by the Member States, in all modes,
- international coordination on transport security,
- promoting research into transport security.

This appropriation is intended in particular to cover expenditure on the establishment and operation of a corps of inspectors to check compliance with the requirements of Union security legislation of airports, ports and port facilities in the Member States, including extension to third countries, and of ships flying the flag of a Member State. This expenditure includes the subsistence allowances and travel expenses of the Commission inspectors and the expenses of inspectors from the Member States, borne in accordance with the provisions laid down in that legislation. The costs of training inspectors, of preparatory meetings and of the supplies needed for inspections must, in particular, be added to that expenditure.

This appropriation is also intended to cover expenditure on information and communication, as well as electronic and paper publications directly linked to the achievement of the objective of transport policy, as well as safety and protection of transport users.

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The preparatory action aims to connect existing local, regional, national and international traveller information systems as well as to offer the international public information and the possibility of purchasing tickets through a single, multilingual interface. This initiative should aim at:

- creating a European transport information interface which would be easy to access and provide passengers with real-time data for any trip in Europe and for any transport mode; this interface could also provide some information on passenger rights and the environmental footprint of each trip (CO₂ emissions, fuel consumption, etc.) so as to allow a comparison between transport modes,
- creating an online booking tool which would facilitate travelling through Europe, as well as a journey planner, a journey pricing tool, an availability requests management tool and a ticket integration tool,
- connecting international traveller information systems.

The preparatory action should be based on Commission Regulation (EU) No 454/2011 of 5 May 2011 on the technical specification for interoperability relating to the subsystem 'telematics applications for passenger services' of the trans-European rail system (OJ L 123, 12.5.2011, p. 11). In a first stage, the preparatory action should apply only to a limited number of countries, to a limited number of languages and to a limited set of data. It should be based on different scenarios presenting different combination of modes. Particular attention should be paid to the reservation of assistance for persons with reduced mobility.

*Remarks**Former Article 06 02 15*

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

In September 2011, the Commission issued a staff working paper on a 'sustainable waterborne transport toolbox' describing possible measures to minimise the compliance costs for the industry in view of the proposed new sulphur limits on sulphur content of marine fuels. A focus area for the medium to long term is the implementation of clean ship technology and alternative fuels. LNG is seen as a promising solution to comply with this regulation and to respond to ship generated air pollution in general.

Despite its excellent safety record, LNG is perceived as a potential danger by the general public. Action is needed to gain a comprehensive overview and analysis of potential risks and dangers for LNG storage, bunkering and handling (ports and ships). This will also include a generic risk analysis of LNG, i.e. as regards chemical properties, plus the development, in close cooperation with all concerned stakeholders, of information and media material aimed at explaining the risks/advantages of LNG for shipping.

The aim is also to obtain an overview of market developments as regards the introduction of LNG-fuelled ships or 'LNG ready' ships, as well as LNG fuel provision infrastructure (on-shore or by bunker barges) in the Union.

Remarks

The aim of this pilot project is to analyse the main problems concerning rail rolling stock interoperability in the Union and to provide, in consultation with rail stakeholders (shippers, infrastructure managers, rail undertakings, freight companies, economic operators), solutions to increase availability of interoperable/multimodal rail rolling stock, including by optimising market demand, proposing regulatory measures and identifying market needs for new types of rolling stock, containers, etc.

Background

In its White Paper entitled 'Roadmap to a Single European Transport Area — towards a competitive and resource efficient transport system', adopted on 28 March 2011, the Commission announced its vision for the establishment of a Single European Railways Area, with the aim of creating an internal railway market where European railway undertakings can provide services free from unnecessary technical and administrative barriers.

Significant legislative progress has been made, with the opening up of the rail freight market and Regulation (EU) No 913/2010 of the European Parliament and of the Council of 22 September 2010 concerning a European rail network for competitive freight (OJ L 276, 20.10.2010, p. 22). These corridors are a governance instrument that will provide more freight availability and capacity for fluid cross-border operation. The new TEN-T guidelines and Regulation (EU) No 1316/2013 of the European Parliament and of the Council of 11 December 2013 establishing the Connecting Europe Facility, amending Regulation (EU) No 913/2010 and repealing Regulations (EC) No 680/2007 and (EC) No 67/2010 (OJ L 348, 20.12.2013, p. 129) will also contribute by providing Union financial support to address major infrastructure needs in the rail sector (i.e. missing links, bottlenecks, new traffic management systems, etc.), making Union rail corridors a reality and encouraging more operators to shift to rail.

COMMISSION

TITLE 06 — MOBILITY AND TRANSPORT

CHAPTER 06 02 — EUROPEAN TRANSPORT POLICY (*cont'd*)06 02 77 (*cont'd*)06 02 77 05 (*cont'd*)

While these significant steps will provide, in the near future, solutions for infrastructure interoperability — signalling, track gauge, traffic management systems, electrification, etc. — there are still a number of concerns to be addressed in order to make the Single European Railway area a reality.

Gauge remains a major hurdle in this respect. For some areas in Europe, gauge restrictions are a major obstacle to promoting rail freight which the measures referred to above might not remove. For some countries with a very narrow gauge, the hard infrastructure approach might be too expensive. For other Union areas, although there are technological solutions (i.e. low wagons) to some gauge constraints, there is also a lack of low rolling stock despite the demand for it.

This pilot project will look to non-infrastructure solutions to overcome problems involving mainly but not exclusively gauge restrictions in main freight corridors and routes and identify and propose solutions to rolling-stock market failures.

It could focus on:

- analysing availability of interoperable/multimodal rolling stock on routes with major gauge restrictions;
- analysing market demand for low wagons and the used rolling-stock market;
- possible new technological solutions for rolling stock both to address gauge restrictions and also to increase freight use by new types of container or new wagons and loading solutions that could increase rail freight attractiveness for economic operators;
- identifying rolling stock R&D needs to overcome gauge constraints.

The pilot project will identify best practices and will help to identify, for the Parliament and the Commission, regulatory changes, financing and research needs, possible areas of cooperation with existing freight governing structures (rail freight corridor working group, corridor coordinators, etc.).

Remarks

Although the Commission gathers and publishes a large volume of transport-related figures and relevant statistics, general aviation has not been covered. This preparatory action will produce significant data on general aviation in Europe, such as passenger kilometres, workforce, turnover and economic output. As the European Aviation Safety Agency will continue to bring forward new regulations for this sector over the coming years, having a complete database could provide added value for better regulation.

This preparatory action is in line with the European Parliament resolution of 3 February 2009 on an Agenda for Sustainable Future in General and Business Aviation (OJ C 67 E, 18.3.2010, p. 5), which highlights 'a lack of data and statistical information on general and business aviation' (recital C) and calls on the Commission to 'develop and implement a systematic approach to the gathering and sharing of international and European data' (paragraph 27).

The preparatory action also takes into account the Commission communication entitled 'An Agenda for Sustainable Future in General and Business Aviation' (COM(2007) 869 final), which calls for 'development at the European level of the basic set of objective and coherent data'.

Remarks

These remarks are applicable to all the budget lines in this chapter.

This appropriation is intended to be used for Horizon 2020 — The Framework Programme for Research and Innovation which covers the 2014 to 2020 period.

Horizon 2020 shall play a central role in the implementation of the Europe 2020 flagship initiative 'Innovation Union' and other flagship initiatives, notably 'Resource efficient Europe', 'An industrial policy for the globalisation era', and 'A digital agenda for Europe', as well as in the development and functioning of the European Research Area (ERA). Horizon 2020 shall contribute to building an economy based on knowledge and innovation across the whole Union by leveraging sufficient additional research, development and innovation funding. The programme will be carried out in order to pursue the general objectives described in Article 179 of the Treaty on the Functioning of the European Union, in order to contribute to the creation of a society of knowledge, based on the European Research Area, i.e. supporting transnational cooperation at all levels throughout the Union, taking the dynamism, creativity and the excellence of European research to the limits of knowledge, strengthening human resources for research and for technology in Europe, quantitatively and qualitatively and research and innovation capacities in the whole of Europe and ensuring optimum use thereof.

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Union to investigate new areas of research suitable for Union action, inter alia, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

This appropriation is intended to be used in accordance with Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for participation and dissemination in 'Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020)' and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this chapter. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The possibility of third countries or institutes from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution will be entered in Items 6 0 1 3 and 6 0 1 5 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Revenue from States taking part in the European Cooperation in the field of scientific and technical research will be entered in Item 6 0 1 6 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

TITLE 06 — MOBILITY AND TRANSPORT

CHAPTER 06 03 — HORIZON 2020 — RESEARCH AND INNOVATION RELATED TO TRANSPORT (*cont'd*)

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contribution by outside bodies to Union activities will be entered in Item 6 0 3 3 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Additional appropriations will be made available under Item 06 03 50 01.

Administrative appropriations of this chapter will be provided under Article 06 01 05.

06 03 03 Societal challenges*Remarks*

This priority of Horizon 2020 responds directly to the policy priorities and societal challenges identified in the Europe 2020 strategy. Those activities will be implemented using a challenge-based approach which brings together resources and knowledge across different fields, technologies and disciplines. The activities will cover the full cycle from research to market, with a new focus on innovation-related activities such as piloting, demonstration, test-beds, support for public procurement, design, end-user driven innovation, social innovation and market take-up of innovations. The activities will support directly the corresponding sectoral policy competences at Union level.

Funding will be focused on the following challenges:

- smart, green and integrated transport;
- innovation and research, particularly in the areas of behavioural change, modal shift, accessibility for all, integration (inter-connectivity, intermodality, interoperability) and sustainability (climate change, gas and noise emission reduction), which are of crucial importance for the transport and tourism sectors.

*Remarks**New item*

This appropriation is intended to cover Research and Innovation actions that should substantially contribute to shifting transport into a new era of smart mobility. Actions under this item should support the development and take up of the necessary solutions for all transport modes, drastically reducing transport emissions that are harmful to the environment, lowering the dependence of transport on fossil fuels, and hence reducing transport impact on biodiversity and preserve natural resources. This is expected to be achieved by investing in specific activities, notably in the form of large public-private-partnerships, such as making aircraft, trains, vehicles and vessels cleaner and quieter, developing smart equipment, infrastructure and services and improving transport and mobility in urban areas.

Research and Innovation carried under this item is expected to make important contributions to optimise performance and efficiency in the face of growing demands for mobility. Actions under this item will also focus on substantially reducing traffic congestion, substantially improving the mobility of people and freight, developing and applying new concepts of freight transport and logistics and reducing accident rates and fatal casualties and improving security. Actions under this item are indeed intended to contribute to making Europe the safest region for aviation and to move towards the target of zero fatalities in road transport by 2050.

CHAPTER 06 03 — HORIZON 2020 — RESEARCH AND INNOVATION RELATED TO TRANSPORT (cont'd)

06 03 03 (cont'd)

06 03 03 01 (cont'd)

Research and Innovation is expected to play a significant role in achieving global leadership for the European transport industry, staying ahead in new technologies and reducing the costs of existing manufacturing processes, therefore contributing to growth and highly skilled jobs in the European transport industry. In this context, actions to develop the next generation of transport means and explore entirely new transport concepts are expected to be developed and covered by this appropriation.

Socio-economic research and forward looking activities for policy making will also be covered by this appropriation: actions to support policy analysis and development including on socio-economic aspects of transport are necessary to promote innovation and meet the challenges raised by transport.

CHAPTER 07 01 — ADMINISTRATIVE EXPENDITURE OF THE 'ENVIRONMENT' POLICY AREA (*cont'd*)07 01 04 (*cont'd*)07 01 04 01 (*cont'd*)

In accordance with Article 5 of Regulation (EU) No 1293/2013, the LIFE programme shall be open to the participation of the following countries in accordance with the conditions laid down in the respective bilateral or multilateral agreements establishing the general principles for the participation in Union programmes:

- European Free Trade Association (EFTA) States which are parties to the Agreement on the European Economic Area (EEA): the contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget,
- acceding countries, candidate countries and potential candidate countries: any revenue from the contributions from candidate countries and potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation,
- countries to which the European Neighbourhood Policy applies,
- countries which have become members of the European Environmental Agency in accordance with Council Regulation (EC) No 933/1999 of 29 April 1999 amending Regulation (EEC) No 1210/90 on the establishment of the European Environmental Agency and the European environment information and observation network (OJ L 117, 5.5.1999, p. 1): any revenue from the Swiss Confederation's contribution to participation in Union programmes entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

This appropriation may finance activities outside the Union provided those activities are indispensable to achieve Union environmental objectives or to pursue the effectiveness of interventions carried out in the Member States (Article 6 of Regulation (EU) No 1293/2013). A legal person established outside the Union may be able to participate in the action grant projects provided the beneficiary coordinating the project is based in the Union and the activity to be carried out outside the Union is indispensable to achieve Union environmental objectives or to pursue the effectiveness of interventions carried out in the Member States.

*Remarks**New article*

In accordance with Article 10 of Regulation (EU) No 1293/2013, this appropriation is intended to cover in particular projects and activities that aim:

- to develop, test and demonstrate policy or management approaches, best practices, and solutions to environmental challenges, suitable for being replicated, transferred or mainstreamed, including with respect to the link between environment and health, and in support of resource efficiency-related policy and legislation, including the Roadmap to a Resource Efficient Europe,
- to support the application, development, testing and demonstration of integrated approaches for the implementation of plans and programmes pursuant to Union environmental policy and legislation, primarily in the areas of water, waste and air,
- to improve the knowledge base for the development, assessment, monitoring and evaluation of Union environmental policy and legislation, and for the assessment and monitoring of the factors, pressures and responses that impact on the environment within and outside the Union.

In accordance with Article 22 of Regulation (EU) No 1293/2013, this appropriation may finance actions implemented by the Commission in support of the initiation, implementation and mainstreaming of Union environmental policies and legislation for the purpose of achieving the objectives of contributing to the shift towards a resource-efficient, low-carbon and climate resilient economy and to protect and improve the quality of the environment. Such actions may include:

- information and communication, including awareness raising campaigns. Financial resources allocated to communication activities shall also cover corporate communication of the political priorities of the Union,
- studies, surveys, modelling and scenario building,
- preparation, implementation, monitoring, checking and evaluation of projects, policies, programmes and legislation,
- workshops, conferences and meetings,
- networking and best-practice platforms,
- any other activities needed for the purposes of achieving the objectives of the programme.

At least 55 % of the budgetary resources allocated to projects supported by way of action grants under the sub-programme for Environment (i.e. actions grants under Articles 07 02 01, 07 02 02 and 07 02 03) shall be dedicated to projects supporting the conservation of nature and biodiversity (Article 9(3) of Regulation (EU) No 1293/2013).

In accordance with Article 5 of Regulation (EU) No 1293/2013, the LIFE programme shall be open to the participation of the following countries in accordance with the conditions laid down in the respective bilateral or multilateral agreements establishing the general principles for the participation in Union programmes:

- European Free Trade Association (EFTA) States which are parties to the Agreement on the European Economic Area (EEA): the contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget,

- countries to which the European Neighbourhood Policy applies,
- countries which have become members of the European Environmental Agency in accordance with Council Regulation (EC) No 933/1999 of 29 April 1999 amending Regulation (EEC) No 1210/90 on the establishment of the European Environmental Agency and the European environment information and observation network (OJ L 117, 5.5.1999, p. 1): any revenue from the Swiss Confederation's contribution to participation in Union programmes entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

This appropriation may finance activities outside the Union provided those activities are indispensable to achieve Union environmental objectives or to pursue the effectiveness of interventions carried out in the Member States (Article 6 of Regulation (EU) No 1293/2013). A legal person established outside the Union may be able to participate in the action grant projects provided the beneficiary coordinating the project is based in the Union and the activity to be carried out outside the Union is indispensable to achieve Union environmental objectives or to pursue the effectiveness of interventions carried out in the Member States.

In accordance with Article 18 of Regulation (EU) No 1293/2013, action grants may finance the following projects:

- pilot projects,
- demonstration projects,
- best practice projects,

- networking and best-practice platforms,
- any other activities needed for the purposes of achieving the objectives of the programme.

At least 55 % of the budgetary resources allocated to projects supported by way of action grants under the sub-programme for Environment (i.e. actions grants under Articles 07 02 01, 07 02 02 and 07 02 03) shall be dedicated to projects supporting the conservation of nature and biodiversity (Article 9(3) of Regulation (EU) No 1293/2013).

Operating grants shall support certain operational and administrative costs of non-profit making entities which pursue an aim of general European interest, are primarily active in the field of environment or climate action and are involved in the development, implementation and enforcement of Union policy and legislation. The maximum rate of Union co-financing for operating grants shall be 70 % of eligible costs (Article 21 of Regulation (EU) No 1293/2013).

In accordance with Article 18 of Regulation (EU) No 1293/2013, action grants may finance the following projects:

- pilot projects,
- demonstration projects,
- best practice projects,
- integrated projects,
- technical assistance projects,
- capacity-building projects,
- preparatory projects,
- information, awareness and dissemination projects,
- any other projects needed for the purpose of achieving the objectives of the LIFE programme.

In accordance with Article 5 of Regulation (EU) No 1293/2013, the LIFE programme shall be open to the participation of the following countries and such participation shall be done in accordance with the conditions laid down in the respective bilateral or multilateral agreements establishing the general principles for the participation in Union programmes:

- European Free Trade Association (EFTA) States which are parties to the Agreement on the European Economic Area (EEA): the contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget,
- acceding countries, candidate countries and potential candidate countries: any revenue from the contributions from candidate countries and potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation,
- countries to which the European Neighbourhood Policy applies,

- countries which have become members of the European Environmental Agency in accordance with Council Regulation (EC) No 933/1999 of 29 April 1999 amending Regulation (EEC) No 1210/90 on the establishment of the European Environmental Agency and the European environment information and observation network (OJ L 117, 5.5.1999, p. 1): any revenue from the Swiss Confederation's contribution to participation in Union programmes entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

This appropriation may finance activities outside the Union provided those activities are indispensable to achieve Union environmental objectives or to pursue the effectiveness of interventions carried out in the Member States (Article 6 of Regulation (EU) No 1293/2013). A legal person established outside the Union may be able to participate in the action grant projects provided the beneficiary coordinating the project is based in the Union and the activity to be carried out outside the Union is indispensable to achieve Union environmental objectives or to pursue the effectiveness of interventions carried out in the Member States.

TITLE 07 — ENVIRONMENT

CHAPTER 07 02 — ENVIRONMENTAL POLICY AT UNION AND INTERNATIONAL LEVEL *(cont'd)*07 02 77 *(cont'd)*07 02 77 03 *(cont'd)*

This preparatory action concerns a strategic environmental impact assessment of the development of the European Arctic. Its aim is to increase awareness of the Arctic and its changing political, economic and environmental landscape, and the impact of Union policies. Its aim is also to increase awareness of impact assessments and their importance as a tool and a channel for compiling information for use by decision- and policymakers and the related legal processes.

The strategic environmental impact assessment of the development of the European Arctic is carried out as a networked undertaking, by leading Arctic communication and research centres and universities within and outside the Union creating a bridge that should facilitate information exchange between the Union institutions and the Arctic stakeholders and foster contacts between the Union and civil society. Furthermore, the work should facilitate dialogue within the Union, advance Agenda 21 as well as bring in Union perspectives and contributions, and should be closely linked with the assessment activities of the Arctic Council, as laid down at its ministerial meeting in May 2011.

Finally, this preparatory action is intended to advance the establishment of the EU Arctic Information Centre as expressed in the Commission's Communication on the European Union and the Arctic region of 20 November 2008 (COM(2008) 763 final) and in the European Parliament's resolution of 20 January 2011 on a sustainable EU policy for the High North (OJ C 136 E, 11.5.2012, p. 71).

The Council expressed its support for expanded use of strategic impact assessments in its conclusions on Arctic issues of 8 December 2009.

Legal basis

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

This preparatory action contributes to maintaining a Union-level system and collection of comparable and harmonised forest information to serve as a basis for the provision of policy-relevant information on forests in the Union as required under international obligations and key action 8 of the Forest Action Plan (COM(2006) 302 final) in preparation for an upcoming regulation on harmonised Union forest information.

More specifically, this preparatory action consists of collecting quantitative and qualitative forest data relating to climate change, air pollution, biodiversity and forest condition, including soil condition and carbon sequestration, based on existing transnationally harmonised monitoring methods and standards, preferably for large-scale and intensive monitoring plots, ensuring continuity of data series where possible. The action aims at collecting representative forest information throughout the Union.

The pilot project seeks further increase public awareness about sustainable development, biodiversity and nature in the Union as well as environmental protection through a pan-European communication initiative. This could be achieved through the production of films/movies dealing with targeted issues to enrich their knowledge about environmental changes and the impact of human's actions on them and to stimulate further discussion about biodiversity at European level.

Remarks

The pilot project aims at boosting the recycling of electric and electronic waste in the Balkan region. It will insist on the need to develop environmentally friendly infrastructure which will also provide economic and social benefits to local economies. These benefits can translate into profit for local communities through the creation of jobs in a more sustainable way and for the industry with the recycling centre providing better access to raw materials both for the region and for the EU. The project will be a step forward in the process of strengthening regional cohesion and cooperation in the Balkan region as well as an important source of secondary raw materials for EU industries, thus advancing the long-term EU goal of improving its resource efficient use of materials, its higher independence on the import of some raw materials from third countries, and the transition to a circular economy.

*Remarks**Mixed waste: a very important source of resources in Europe*

Recycling of waste is an important pillar of the Resource Efficiency agenda. Yet high quality recycling in Europe is limited and actually only well developed in a few Member States, therefore a huge potential of recoverable resources is currently neglected. Whereas there is a strong focus in Europe on municipal solid waste ('MSW'), this is only a small fraction of all available waste. Dry mixed wastes such as commercial and industrial waste, bulky household waste and construction and demolition waste ('C&DW') contain far more resources which can even be easier extracted than materials out of (wet) MSW. Of these types of waste, C&DW is very significant, due to its volume (it comprises one third of all waste in the EU) and the target currently set for it in the waste framework Directive (70 % recycling).

Development of C&DW recycling (and indeed of the recycling of any type of waste) follows a certain 'generic' path, as shown by the history of well performing countries. This means that general mechanisms for recycling can be identified and best practices can be described. Based on some 30 years of recycling in a few Member States, templates and guidelines should be made available for those Member States where recycling is still in its infancy. It is necessary to stimulate recycling in Europe by the transfer of knowledge and expertise.

Important elements of recycling are for instance good control of waste flows and quality assurance. Recycling industry and authorities in a number of Member States have developed tools for this, for instance a system called Tracemat (tracing materials) and quality assurance schemes including environmental testing and certification.

The recycling of mixed dry wastes needs to be developed. Valuable materials such as wood and plastics can be recovered and made fit for new use. Recycling plants could also be used to treat MSW if the dry fraction is source separated. Building up such sorting capacity is an option in Member States to find a right balance between recycling and incineration.

Goal

The pilot project aims at boosting recycling in Member States, specifically concerning C&DW and related to that of dry mixed wastes, by implementing efficient transfer of knowledge and expertise. It will also assist Member States in reaching the targets under the waste framework Directive. The key success factor is that the recycling industry itself will be involved. Its experts are acknowledged to be the best carriers of such expertise and knowledge. Specifically the project aims at initiating, on an appropriate basis, recycling of C&DW in three (regions in) Member States. Historical experience will serve as an example for Member States where this type of recycling has not taken off. As for other dry mixed wastes the success cases will be analysed and blueprints for other Member States how to get there will be developed. In one (region in a) Member State such recycling will be initiated.

CHAPTER 07 02 — ENVIRONMENTAL POLICY AT UNION AND INTERNATIONAL LEVEL *(cont'd)***07 02 77** *(cont'd)*07 02 77 27 *(cont'd)*

A key issue of the project is to demonstrate the successful implementation of first steps to recycling of C&DW in selected regions in Europe. For this to happen it is required that stakeholders in these regions agree to an implementation plan. This plan describes goals to be achieved and actions to be taken. Those actions for most part will reflect the best practices developed on the basis of experiences in well performing Member States. Stakeholders agree to the actions and parties are assigned to each action. Key issues are the reliable tracing of wastes and quality control of recycled products.

Remarks

These remarks apply to all the budget lines in this title.

Research and innovation activities under this title will contribute to three main research programmes, i.e. Horizon 2020, Euratom and ITER programme. It will also cover research programmes of the research fund for coal and steel.

It will be carried out in order to pursue the general objectives set out in Article 179 of the Treaty on the Functioning of the European Union, in order to contribute to the creation of a society of knowledge, based on the European Research Area, i.e. supporting transnational cooperation at all levels throughout the Union, taking the dynamism, creativity and the excellence of European research to the limits of knowledge, strengthening human resources for research and for technology in Europe, quantitatively and qualitatively and research and innovation capacities in the whole of Europe and ensuring optimum use thereof.

Particular account will be taken of the need to step up efforts to enhance the participation and role of women in science and research.

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Union to investigate new areas of research suitable for Union action, inter alia, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

These appropriations also cover administrative expenditure, including expenditure on staff, whether covered by the Staff Regulations or not, information, publications, administrative and technical operation, and certain other expenditure items relating to internal infrastructure linked with the achievement of the objective of the measure of which they form an integral part, including the action and initiatives necessary for preparation and monitoring of the Union's strategy on research, technological development and demonstration (RTD).

Revenue resulting from cooperation agreements between the European Atomic Energy Community and Switzerland or the multilateral European Fusion Development Agreement (EFDA) will be entered in Items 6 0 1 1 and 6 0 1 2 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

The possibility of third countries or institutes from third countries taking part in European Cooperation in the field of Scientific and Technical Research is envisaged for some of these projects. Any financial contribution will be entered in Items 6 0 1 3 and 6 0 1 5 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Remarks

Horizon 2020 is the Union's new funding programme for research and innovation. It covers the period between 2014 and 2020 and brings together all existing Union research and innovation funding, including the Framework Programme for Research, the innovation related activities of the Competitiveness and Innovation Framework Programme and the European Institute of Innovation and Technology (EIT). The Euratom Research and Training Programme (2014-2018), based on the Euratom Treaty, is also an integral part of Horizon 2020. Horizon 2020 shall play a central role in the implementation of the Europe 2020 flagship initiative 'Innovation Union' and other flagship initiatives, notably 'Resource efficient Europe', 'An industrial policy for the globalisation era', and 'A digital agenda for Europe', as well as in the development and functioning of the European Research Area (ERA). Horizon 2020 shall contribute to building an economy based on knowledge and innovation across the whole Union by leveraging sufficient additional research, development and innovation funding.

This appropriation will be used in accordance with the Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for the participation and dissemination in 'Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020)' and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this chapter. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

08 02 01 *Excellent science**Remarks*

This priority of Horizon 2020 aims to reinforce and extend excellence in the Union's science base and ensure a steady stream of world-class research to secure the Union's long-term competitiveness. It will support the best ideas, develop talent within the Union, provide researchers with access to priority research infrastructure, and make the Union an attractive location for the world's best researchers. Research actions to be funded will be determined according to the need and opportunities of science, without pre-determined thematic priorities. The research agenda will be set in close liaison with the scientific community and research will be funded on the basis of excellence.

New item

The fundamental activity of the European Research Council (ERC) shall be to provide attractive long-term funding to support excellent investigators and their research teams to pursue ground-breaking, high-gain/high-risk research. Particular priority shall be given to assisting excellent starting researchers to make the transition to independence by providing adequate support at the critical stage, when they are setting up or consolidating their own research team or programme. The ERC shall also give support, as necessary, to emerging new ways of working in the scientific world with the potential to create breakthrough results and facilitate exploration of the commercial and social innovation potential of the research which it funds.

New item

Activities under the 'Future and Emerging Technologies' (FET) specific objective shall support fundamental science and technology research exploring new future technologies by challenging current paradigms and venturing into unknown areas. In addition, FET activities shall address a number of promising exploratory research themes with the potential to generate a critical mass of inter-related projects that, together, make up a broad and multifaceted exploration of the themes and build a European pool of knowledge. Finally, FET activities shall support ambitious large-scale, science-driven research aiming to achieve a scientific breakthrough. Such activities will benefit from the alignment of European and national agendas.

Access to risk finance activity will set up two financial facilities, namely a debt facility and an equity facility, in order to help remedy the current market deficiencies in accessing risk finance for research and innovation. The goal of the debt facility is to improve access to debt financing for public and private entities and public-private partnerships engaged in research and innovation activities requiring riskier investments. The goal of the equity facility is in particular to contribute to overcoming the deficiencies of the European venture capital market and provide equity and quasi-equity to cover the development and financing needs of innovating enterprises from the early stage (including seed stage and technology transfer), so that they can grow and expand. In addition to these financial facilities to be implemented in complementarity with Cosme's facilities as far as support to SMEs is concerned, a set of accompanying measures, such as support to investment-readiness schemes, will be provided.

Any repayment from financial instruments pursuant to Article 140(6) of the Financial Regulation, including capital repayments, guarantees released, and repayment of the principal of loans, paid back to the Commission and entered in Item 6 3 4 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Articles 21(3)(i) of the Financial Regulation.

To support the participation of SMEs in Horizon 2020 a dedicated market-oriented instrument will be introduced, which will target all types of innovative SMEs that wish to develop, grow and internationalise. In addition, support will be provided to research intensive SMEs in transnational research projects. Activities enhancing the innovation capacity of SMEs and improving the framework conditions for innovation will also be supported.

08 02 03 **Societal challenges**

Remarks

This priority of Horizon 2020 responds directly to the policy priorities and societal challenges identified in the Europe 2020 strategy. Those activities will be implemented using a challenge-based approach which brings together resources and knowledge across different fields, technologies and disciplines. The activities will cover the full cycle from research to market, with a new focus on innovation-related activities such as piloting, demonstration, test-beds, support for public procurement, design, end-user driven innovation, social innovation and market take-up of innovations. The activities will support directly the corresponding sectoral policy competences at Union level.

Lifelong health and well-being for all, high-quality and economically sustainable health and care systems, and opportunities for new jobs and growth in the health sector and its related industries are the aims of this activity. To that respect activities will focus on effective health promotion and disease prevention (e.g. understanding the determinants of health, developing better preventive vaccines). In addition, emphasis will be placed on managing, treating and curing disease, disability and reduced functionality (e.g. by transferring knowledge to clinical practice and scalable innovation actions, better use of health data,

Furthermore, efforts will be made to improve decision-making in prevention and treatment provision, identify and support the dissemination of best practice in the healthcare sector, and support integrated care and the uptake of technological, organisational and social innovations empowering in particular older persons as well as disabled persons to remain active and independent.

This activity will focus on developing more sustainable and productive agriculture and forestry systems, while at the same time developing services, concepts and policies for thriving rural livelihoods. In addition, emphasis will be placed on healthy and safe foods for all as well as competitive food processing methods that use fewer resources and produce fewer by-products. In parallel, efforts will be made on sustainably exploiting aquatic living resources (e.g. sustainable and environmentally friendly fisheries). Low carbon, resource efficient, sustainable and competitive European bio-based industries will also be promoted.

Part of the appropriations will be used to fund a project on Aquaponics for sustainable, smart and inclusive growth.

Aquaponics is considered a new revolution in food production. Aquaponics is a sustainable food production model, based on the basic principle of organic farming, which combines hydroponics (growing plants in sand, gravel or water) and aquaculture (fish farming). The idea is to combine these two techniques into a single system, so as to reinforce the positive effects of each technique and cancel each other's negative ones.

The major benefits of aquaponics are:

- water recycling and reuse,
- high productivity (measured in terms of quantity/space),
- small environmental footprint.

COMMISSION

TITLE 08 — RESEARCH AND INNOVATION

CHAPTER 08 02 — HORIZON 2020 — RESEARCH (*cont'd*)08 02 03 (*cont'd*)08 02 03 02 (*cont'd*)

There are several aquaponics production systems to produce plants and fish. All systems operate on the same principles, however, they are extremely flexible in both their opportunities and in their design. The main challenge is to find the right balance between the fish population, the nutrients brought, the bacterial population and food produced. Research and development is needed to further find this right balance.

Still marginal in Europe, the potential of this culture system has already convinced many countries. Aquaponics is gaining popularity because of its benefits. More and more people are beginning to realise the immense potential of this technique. Entrepreneurs, innovators and producers are getting into aquaponics.

This food production technique can bring several benefits: strengthen the local food systems, addressing the issue of health and food safety; create employment opportunities, reduce the environmental impact, reduce dependence on imports, provide education and training, to stimulate industry, reducing the carbon footprint.

The project is fully in line with the aim of the Europe 2020 strategy. It intends to contribute to a sustainable, smart and inclusive growth in Union and international development context.

The overall objective is to facilitate the emergence of an innovative, resource efficient and more competitive food production system that combines food security and the sustainable use of resources while ensuring environmental protection.

As part of its efforts to improve food security the Union promotes aquaculture as a means to increase food availability, access to food, jobs and income, including within Horizon 2020. Aquaponics is one of the sustainable ways to achieve this.

Research and innovation in aquaponics at the Union level will support the development of a new industrial sector, opening prospects for new business, associations of actors in the aquaculture and horticultural sectors and the creation of dynamic short circuits in rural and urban areas. In addition aquaponics can contribute to strengthening and transforming communities (e.g. neighbourhoods, hospitals, prisons, nursing homes) and be a catalyst for social innovation.

Further research and innovation in this field may enable Europe to play an important role in the global bio-economy. It can make Europe more present on the international scene with regards to innovative, sustainable and competitive food production systems.

This project is based on a multidimensional approach that takes into account:

- the need to ensure the health and safety of food products through ecological agriculture and increasing aquaculture production,
- the inclusion of nutrition,
- the need for economy of resources (e.g. water, energy, land, capital) and improvements in the use of water, energy and space,
- protecting the environment,
- the importance of market development,
- the organisational and social innovation,
- utility organisations' and companies' social and solidarity economy,
- social inclusion and education,
- the need for creating new skills and new jobs with the aim of modernising labour markets,
- the strengthening of governance (i.e. strengthening the participation of stakeholders in decision-making),
- the importance attached by the Union to territorial cohesion and integrated territorial approach,
- a European context marked by the emergence of a policy of sustainable cities,
- the importance attached by the Union to develop an economy based on knowledge.

08 02 03 02 *(cont'd)*

The project aims at being cross-regional, multi-disciplinary and cross-disciplinary. Activities shall include:

- making an inventory of technologies and organisational models that use aquaponics. The existing information on aquaponics is very scattered and it is therefore necessary to identify the actors, their expertise and mission,
- creating a 'Community of Practice' that pools within a network the expertise and resources in this field and implement a dynamic exchange, sharing and capitalisation of resource. The creation of a community (Technology Platform) including research, scientific, professional and business community and the operation of this network should be promoted.

Support should be provided for this Technology Platform to:

- identify areas of further need for research and innovation,
- coordinate the establishment of collaborative innovation pilot projects,
- increase knowledge transfer and disseminate innovations and best practices, expertise and lessons learned,
- ensure the creation and maintenance of a resources centre for dissemination of knowledge and results.

Efforts to ensure a secure, clean and efficient energy supply will focus on reducing the Union's energy consumption and carbon footprint (for example through affordable systems and components incorporating smart technologies) and securing a low-cost, low-carbon electricity supply (for example through research, development and full-scale demonstration of innovative renewables and carbon capture and storage technologies). There will be a special focus on alternative fuels and mobile energy sources and on developing a single, smart European electricity grid. Activities will also focus on multi-disciplinary research for energy technologies and joint implementation of pan-European research programmes and world-class facilities. Furthermore, tools, methods and models for robust and transparent policy support will be developed and market uptake of energy innovation will be promoted. 85 % of the budget appropriations will be allocated to the renewable and end-use energy efficiency policy areas, including smart grids and energy storage, from 2014 onwards.

Under this activity emphasis will be placed on resource-efficient transport (e.g. accelerating the development and deployment of a new generation of electric and other low or zero emission aircrafts, vehicles and vessels) as well as on better mobility with less congestion and more safety and security (e.g. promoting integrated door-to-door transport and logistics). The focus will also be on reinforcing the competitiveness and performance of European transport manufacturing industries and related services, by, for instance, developing the next generation of innovative transport means and preparing the ground for the following one. Activities which aim to improve the understanding of transport-related socioeconomic trends and prospects, and providing policy makers with evidence-based data and analyses will also be supported.

Part of the appropriations will be used to conduct an evaluation and feasibility study on 'Towards a zero-emission ferry'.

The aim of this project is to evaluate the evolution steps, implementation possibility, and to draw up a feasibility study towards a zero-emission ferry boat, powered by renewable energy sources such as hydrogen in fuel cells.

While the principle use of hydrogen-fuelled fuel cells as power source is proven for smaller transport entities like busses, the utilisation in large ferries boats (e.g. RoPax ferries) should be further evaluated in order to assess implementation possibilities. An evaluation and feasibility study for this type of transport mode and route would provide with a clearer assessment on the risks and opportunities to use hydrogen as transport fuel and fuel cells as energy converters in ferries.

The evaluation and feasibility study should notably focus on the possibilities to use surplus energy from wind farms' night-time operations in order to generate hydrogen fuel, which would then provide energy for vessel propulsion and electricity consumption of on board services. Combined energy sources, such as solar panels and flettner rotors on board supplying the vessel with additional energy should also be assessed, with an overall objective of no carbon, sulphur or nitrogen emissions.

In order to optimise implementation possibilities, the evaluation should focus on short sea shipping routes taking into account the infrastructural and natural prerequisites in order to ensure an efficient supply of alternative energy sources (mainly wind farms), as well as expertise location and the presence of relevant technology centres and potential private sector partners. A mapping of appropriate locations should be realised as a first step, so as to identify possible and optimal routes for zero-emission ferry services in the Union.

The evaluation and feasibility study should include the mapping of necessary steps to take on hybrids, batteries, fuel cells and fuel types on the journey towards zero emission so that efficiency gains can be taken as soon as technologies mature sufficiently, but also to gain experience and envision further development.

In addition, a market assessment on identified routes could give a clearer picture on the costs of the implementation and operation of a zero-emission ferry, and finally assess whether a ferry service as described above would be economically viable under current market conditions.

The project could be foreseen for a duration of one or two years, selecting one or two appropriate ferry routes.

The aim of this activity is to foster the development of inclusive and innovative societies by enhancing social, economic and political inclusion, promoting smart, sustainable and inclusive growth in Europe and supporting positive inter-cultural dynamics. The results of this research should underpin policies that combat poverty and prevent the development of various forms of divisions, discriminations and inequalities in European societies, such as gender inequalities or innovation divide. This will also include ensuring societal engagement in research and innovation, strengthening the evidence base for the Innovation Union and the European Research Area as well as promoting coherent and effective cooperation with third countries.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services — CESES — and its member associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. Overall objective

The aim of this initiative is to establish the basis for solid cooperation between Europe and Africa on research and innovation in the field of recycling and recovery of raw materials.

Improving waste management and avoiding environmental and health costs can help reduce the financial pressure on African governments and improve supply of raw materials. Private sector participation can significantly reduce the costs and enhance service delivery.

This would be achieved through two seminars organised in 2013 in Europe and Africa respectively.

The specific objectives in the field of recovery of raw materials and waste recycling include:

- providing knowledge exchange at policy and research level,
- providing a forum for European and African entrepreneurs and academia/research,
- engage the European and African Member governments.

The participants of the pilot project are:

- the European Union,
- the African Union,
- industry representatives from the raw materials and waste/recycling sectors,
- academia/research representatives involved in environmental technologies for resource efficiency and recycling.

Conclusions

The European Union has in the past successfully established similar political/research infrastructures with African countries, in a number of fields such as research networks (e-Infrastructures). These initiatives have ensured close links between both continents based always on objectives of mutual interest.

On this basis, the pilot project addresses the following main issues:

- common policy on waste management: waste (raw materials) produced in Europe and exported to Africa should be treated in an effective and environmentally sound manner. In this context, the European Union and the African Union should develop a common waste management plan for these materials,

CHAPTER 08 02 — HORIZON 2020 — RESEARCH (*cont'd*)08 02 77 (*cont'd*)08 02 77 02 (*cont'd*)

- knowledge transfer of innovative recycling technologies: while some solutions would definitely require breakthrough technologies, processes and services, a more urgent priority seems to be the exploitation of existing technologies, knowledge sharing and awareness. Research should encompass the collection, recovery and recycling of valuable materials, including raw materials, from urban and industrial waste streams. African countries need to cope with the waste being shipped for decades in their land and water. European research can help solve some current waste management issues,
- economy and jobs creation: investing in greening the waste sector can generate multiple economic and environmental benefits. For example, recycling creates more jobs than it replaces, making it one of the most important sectors in terms of employment creation. EU waste legislation is one of the most innovative and comprehensive of the world. Implementing it fully would result in cost savings of EUR 72 billion per year, an increase of EUR 42 billion per year in the turnover of waste management and recycling and the creation of 400 000 new jobs.

Remarks

The Research and Training Programme of the European Atomic Energy Community (2014-2018) ('Euratom Programme') is an integral part of Horizon 2020 — the Framework Programme for Research and Innovation. The Euratom Programme shall strengthen the research and innovation framework in the nuclear field and coordinate Member States' research efforts, thereby avoiding duplication, retaining critical mass in key areas and ensuring public funding is used in an optimal way.

The Euratom Programme aims to improve nuclear safety, security and radiation protection and contribute to the long-term decarbonisation of the energy system in a safe, efficient and secure way. It will cover the fusion energy research and development programme, the fission and radiation protection research activities, and the JRC direct actions in nuclear security and

The Euratom activity in the field of fusion will support common research activities undertaken by the fusion stakeholders involved in the implementation of the tasks derived from the fusion roadmap. In addition, it will support joint activities to develop and qualify materials for a demonstration power plant as well as to address reactor operation issues and develop and demonstrate all relevant technologies for a fusion demonstration power plant. The activity will also implement or support knowledge management and technology transfer from the research co-funded by this programme to industry, exploiting all innovative aspects of the research. Furthermore, the activity will support the construction, refurbishment, use and continued availability of key research infrastructures under the Euratom Programme.

The Euratom activity in the field of nuclear fission will provide support to joint research activities concerning the safe operation of reactor systems in use or which may be used in the future in the Union. It will also contribute to the development of solutions for the management of ultimate nuclear waste. In addition, the activity will support joint and/or coordinated research activities, placing emphasis on the risks from low doses from industrial, medical or environmental exposure. Furthermore, Euratom fission will promote joint training and mobility activities between research centres and industry as well as between different Member and Associated States while it will provide support for maintaining multidisciplinary nuclear competences.

The programme covers two thematic areas:

- Fusion research, which offers the prospect of an almost limitless supply of clean energy, with ITER being the crucial next step in the progress towards this ultimate goal. The realisation of the ITER project therefore lies at the heart of the present Union strategy. It must be accompanied by a strong and focused European research and development programme on fusion to prepare for the exploitation of ITER and to develop the technologies and knowledge base that will be needed during ITER operation and beyond,
- Fission research, which aims to establish a sound scientific and technical basis in order to accelerate practical developments for the safer management of long-lived radioactive waste, to promote safer, more resource-efficient and cost-effective nuclear energy and to ensure a robust and socially acceptable system of protection of man and the environment against the effects of radiation.

Remarks

The ITER project aims to demonstrate fusion as a viable and sustainable source of energy by building and operating an experimental fusion reactor as a major step towards the creation of prototype reactors for fusion power stations that are safe, sustainable, environmentally responsible, and economically viable. This programme will contribute to the Europe 2020 strategy and in particular to its Innovation Union flagship initiative as the mobilisation of European high-tech industries, which are involved in the construction of ITER, should provide the Union with a global competitive advantage in this promising sector.

The project brings together seven parties: the European Union, China, India, Japan, South Korea, Russia, and the United States.

Remarks

The Research Fund for Coal and Steel funds every year innovative projects to enhance the safety, efficiency and competitive edge of the Union coal and steel industries. It was created in 2002 to build on the successes of the European Coal and Steel Community. The distribution of the budgets between coal (27,2 %) and steel (72,8 %) is defined in Council Decision 2003/76/EC of 1 February 2003 establishing the measures necessary for the implementation of the Protocol, annexed to the Treaty establishing the European Community, on the financial consequences of the expiry of the ECSC Treaty and on the Research Fund for Coal and Steel (OJ L 29, 5.2.2003, p. 22).

The coal research programme activity aims to reduce the total costs of mining production, improve the quality of the products and reduce the costs of using coal. Research projects shall also aim to achieve scientific and technological progress with a view to gaining a better understanding of the behaviour and control of deposits in relation to rock pressure, gas emissions, the risk of explosion, ventilation and all other factors affecting mining operations. Research projects with these objectives shall present the prospect of results applicable in the short or medium term to a substantial part of Union production.

Former Item 09 01 04 01 and Article 09 02 01

This appropriation is intended to cover expenditure on a set of measures designed to:

- carry out the Union's policy on electronic communication networks and services with a view to launching initiatives designed to meet the challenges in this sector,

COMMISSION

TITLE 09 — COMMUNICATIONS NETWORKS, CONTENT AND TECHNOLOGY

CHAPTER 09 02 — REGULATORY FRAMEWORK FOR THE DIGITAL AGENDA (*cont'd*)09 02 01 (*cont'd*)

- facilitate the implementation of the Digital Agenda for Europe, in actions related to electronic communications networks and services, particularly as a follow-up to the Lisbon summit,
- develop policy and legislation with a particular focus on issues related to access and authorisation of e-communication networks and services notably interoperability, interconnection, civil works, independence of regulators and new measures to strengthen the single market,
- facilitate the monitoring and implementation of relevant legislation in all Member States,
- provide coordination of infringement proceedings,
- develop policy and legislation with a particular focus on issues related to retail and consumer issues notably Net Neutrality, switching, roaming, and universal service,
- develop and implement consistent market-based regulations to be applied by national regulatory authorities and to respond to individual notifications from those authorities, notably regarding relevant markets, competition and appropriate regulatory intervention, in particular for next generation access networks,
- develop policies across the board which will ensure that Member States manage all uses of spectrum, including the different internal market realms such as e-communications, broadband Internet and innovation,
- promote and monitor the implementation of the regulatory framework for communication services (including the mechanism provided for in Article 7 of Directive 2002/21/EC of the European Parliament and of the Council of 7 March 2002 on a common regulatory framework for electronic communications networks and services (Framework Directive) (OJ L 108, 24.4.2002, p. 33),
- enable third countries to pursue a policy of opening up their markets to the same extent as in the Union,
- promote and monitor the implementation of the radio spectrum policy programme (Decision No 243/2012/EU of the European Parliament and of the Council of 14 March 2012 establishing a multiannual radio spectrum policy programme (OJ L 81, 21.3.2012, p. 7)).

The specific objectives of these measures are:

- the formulation of a Union policy and strategy in the field of communication services and networks (including convergence between electronic communications and audiovisual environments, aspects related to the Internet, etc.),
- the development of radio spectrum policy in the Union,
- the development of activities in the mobile and satellite communications sector, particularly as regards frequencies,
- an analysis of the situation and the legislation adopted in these areas,
- the coordination of these policies and initiatives as regards the international environment (e.g. WRC, CEPT, etc.),
- the development of activities and initiatives in relation to the Digital Agenda for Europe,
- the development and maintenance of the database in relation to the radio spectrum policy programme and other actions related to monitoring and the implementation of the programme.

These measures consist, *inter alia*, of preparing analyses and progress reports, consulting stakeholders and the public, preparing legislative proposals and monitoring the application of legislation, and translations of notifications and consultations under Article 7 of Directive 2002/21/EC.

This appropriation is intended to cover, in particular, contracts for analysis and expert reports, specific studies, evaluation reports, coordination activities, grants and the part-financing of certain measures.

This appropriation is intended to cover the staff and administrative expenditure of the European Union Agency for Network and Information Security (Titles 1 and 2), and operational expenditure relating to the work programme only (Title 3).

The Agency was set up to enhance the capability of the Union, the Member States and, as a consequence, the business community to prevent, address and respond to network and information security problems. In order to achieve this goal, the Agency will be developing a high level of expertise and stimulating broad cooperation between actors from the public and private sectors.

The Agency's aim is to provide assistance and to deliver advice to the Commission and the Member States on issues related to network and information security falling within its competencies and to assist the Commission, where called upon, in the technical preparatory work for updating and developing Union legislation in the field of network and information security.

The Agency must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The amounts repaid in accordance with Article 16 of Commission Regulation (EC, Euratom) No 2343/2002 constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

This appropriation is intended to cover the Office's staff and administrative expenditure (Titles 1 and 2), and operational expenditure relating to the work programme only (Title 3).

BEREC acts as a specialised and independent expert advisory body assisting the Commission and the national regulatory authorities in the implementation of the Union regulatory framework for electronic communications in order to promote a consistent regulatory approach across the Union. BEREC is neither a Union body nor has legal personality.

The Office is established as a Union body with legal personality, providing BEREC with professional and administrative support in carrying out the tasks conferred on it by Regulation (EC) No 1211/2009.

The Office must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. *Remarks**Former Article 09 02 07*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

This appropriation is intended for the implementation of the Media Pluralism Tool. The tool was developed through an independent study at the request of the European Commission: 'Indicators for Media Pluralism in the Member States — Towards a Risk-Based Approach'. It is a monitoring tool for assessing risks for media pluralism in Member States and identifying threats to such pluralism based on a set of indicators, covering pertinent legal, economic and socio-cultural considerations.

The specific objective of this action is to launch a further study that update these indicators in light of the growing importance of the internet and that applies the indicators in practice for obtaining a broad understanding of the risks to media pluralism in Member States. The assessment of the risks is best carried out in a transparent manner in consultation with stakeholders.

Legal basis

Pilot project within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

*Remarks**Former Article 33 02 10*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

The proposed European Centre for Press and Media Freedom would follow on from the European Union Charter of Fundamental Rights and the European Charter for Freedom of the Press by acting as a European-level 'drop-in centre' for journalistic organisations or individuals and media actors alleging violations of those Charters. The Centre would monitor and document any such violations. It would also act as an alarm centre for acute cases, for instance by organising support from foreign colleagues for journalists who need help. The Centre would benefit from input from a wide range of sources, including academic centres, regional partners from all over Europe and various journalistic organisations.

CHAPTER 09 02 — REGULATORY FRAMEWORK FOR THE DIGITAL AGENDA *(cont'd)***09 02 77** *(cont'd)*09 02 77 03 *(cont'd)*

The territorial coverage of the centres would be the Member States and the candidate countries.

This project would be complementary to existing actions supported by the Union budget. More specifically, it would constitute the practical hands-on counterpart of the academically oriented 'Centre for Media Pluralism and Media Freedom' based at the European University Institute in Florence. It would furthermore benefit from the momentum created by the High Level Group on Media Freedom and Pluralism set up by the Commission, and the European Parliament resolution of 21 May 2013 on the EU Charter: standard settings for media freedom across the EU.

The pilot project would cover start-up costs for such a centre and co-financing of its annual running costs.

Freedom and pluralism of the media, including independent media governance, are key elements for enabling the exercise of freedom of expression, which constitutes one of the essential foundations of the Union. Media pluralism and freedom is vital for our democratic societies.

This pilot project aims to support journalistic organisations or individuals and media actors, in the Member States and candidate and potential candidate countries which allege violations of the European Charter for Freedom of the Press.

COMMISSION

TITLE 09 — COMMUNICATIONS NETWORKS, CONTENT AND TECHNOLOGY

CHAPTER 09 04 — HORIZON 2020 (cont'd)

Horizon 2020 shall play a central role in the implementation of the Europe 2020 flagship initiative 'Innovation Union' and other flagship initiatives, notably 'Resource efficient Europe', 'An industrial policy for the globalisation era', and 'A digital agenda for Europe', as well as in the development and functioning of the European Research Area (ERA). Horizon 2020 shall contribute to building an economy based on knowledge and innovation across the whole Union by leveraging sufficient additional research, development and innovation funding.

It will be carried out in order to pursue the general objectives set out in Article 179 of the Treaty on the Functioning of the European Union, in order to contribute to the creation of a society of knowledge, based on the European Research Area, i.e. supporting transnational cooperation at all levels throughout the Union, taking the dynamism, creativity and the excellence of European research to the limits of knowledge, strengthening human resources for research and for technology in Europe, quantitatively and qualitatively and research and innovation capacities in the whole of the Union and ensuring optimum use thereof.

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Union to investigate new areas of research suitable for Union action, inter alia, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

This appropriation will be used in accordance with Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for the participation and dissemination in 'Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020)' and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this chapter. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The possibility of third countries or institutes from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution entered in Items 6 0 1 3 and 6 0 1 5 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from States taking part in the European Cooperation in the field of Scientific and Technical Research will be entered in Item 6 0 1 6 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contributions by outside bodies to Union activities entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Additional appropriations will be provided under Item 09 04 50 01.

Administrative appropriations of this chapter will be provided under Article 09 01 05.

CHAPTER 09 04 — HORIZON 2020 (*cont'd*)09 04 01 *Excellent science**Remarks*

This priority of Horizon 2020 aims to reinforce and extend excellence in the Union's science base and ensure a steady stream of world-class research to secure the Union's long-term competitiveness. It will support the best ideas, develop talent within the Union, provide researchers with access to priority research infrastructure, and make the Union an attractive location for the world's best researchers. Research actions to be funded will be determined according to the need and opportunities of science, without pre-determined thematic priorities. The research agenda will be set in close liaison with the scientific community and research will be funded on the basis of excellence.

*Remarks**New item*

The specific objective is to foster radically new technologies by exploring novel and high-risk ideas building on scientific foundations. By providing flexible support to goal-oriented and interdisciplinary collaborative research on various scales and by adopting innovative research practices, the aim is to identify and seize opportunities of long-term benefit for citizens, the economy and society.

Activities under the 'Future and Emerging Technologies' specific objective shall address the entire spectrum of science-driven innovation: from bottom-up, small scale early explorations of embryonic and fragile ideas to building new research and innovation communities around transformative emerging research areas and large and federated research initiatives built around a research agenda aiming to achieve ambitious and visionary goals.

Activities cover collaboration, networking actions and national programme coordination initiatives. Also entered in this item are the costs of independent experts assisting in proposal evaluations and project reviews, the costs of events, meetings, conferences, workshops and seminars of European interest organised by the Commission, the costs of studies, analyses and evaluations, the costs of monitoring and evaluation of the specific programme and of the framework programmes and the costs of measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

The specific objective is to endow Europe with world-class research infrastructure which is accessible to all researchers in Europe and beyond and fully exploit their potential for scientific advance and innovation.

Activities will focus on development, deployment and operation of e-infrastructure. In addition, activities for innovation, strengthening human resources for research infrastructure, policy development and international cooperation are foreseen.

An integrated and service-driven approach will be taken to deliver e-infrastructures that respond to the needs of European science, industry and society in terms of development and deployment of integrated e-infrastructure services for a wide range of research communities (de-siloing). Maximising coordination and synergies with e-infrastructure development at national level and expanding e-infrastructure beyond science as such, to the science-industry-society triangle.

Activities cover collaboration, networking actions and national programme coordination initiatives. Also entered in this item are the costs of independent experts assisting in proposal evaluations and project reviews, the costs of events, meetings, conferences, workshops and seminars of European interest organised by the Commission, the costs of studies, analyses and evaluations, the costs of monitoring and evaluation of the specific programme and of the framework programmes and the costs of measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

09 04 02 Industrial leadership*Remarks*

This priority of Horizon 2020 aims to make the Union a more attractive location to invest in research and innovation, by promoting activities where businesses set the agenda as well as at accelerating the development of new technologies which will underpin future businesses and economic growth. It will provide major investment in key industrial technologies, maximise the growth potential of Union companies by providing them with adequate levels of finance and help innovative SMEs to grow into world-leading companies.

Remarks

New item

The specific objective is to maintain and build global leadership in enabling technologies, which underpin competitiveness across a range of existing and emerging industries and sectors. In line with the Digital Agenda for Europe, the specific objective of ICT research and innovation is to enable Europe to develop and exploit the opportunities brought by ICT progress for the benefits of its citizens, businesses and scientific communities.

ICT underpins innovation and competitiveness across a broad range of private and public markets and sectors, and enables scientific progress in all disciplines. Over the next decade, the transformative impact of digital technologies, ICT components, infrastructures and services will be increasingly visible in all areas of life.

Activities will strengthen the Union's scientific and technology base and insure its global leadership in ICTs, help drive and stimulate innovation through ICT use and ensure that ICT progress is rapidly transformed into benefits for Europe's citizens, businesses, industry and governments. The activities under the 'Leadership in information and communications technology' specific objective will be primarily based on research and innovation agendas defined by industry and business, together with the research community and will have a strong focus on leveraging private sector investment.

Activities cover collaboration, networking actions and national programme coordination initiatives. Also entered in this item are the costs of independent experts assisting in proposal evaluations and project reviews, the costs of events, meetings, conferences, workshops and seminars of European interest organised by the Commission, the costs of studies, analyses and evaluations, the costs of monitoring and evaluation of the specific programme and of the framework programmes and the costs of measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

09 04 03 Societal challenges

Remarks

This priority of Horizon 2020 responds directly to the policy priorities and societal challenges identified in the Europe 2020 strategy. Those activities will be implemented using a challenge-based approach which brings together resources and knowledge across different fields, technologies and disciplines. The activities will cover the full cycle from research to market, with a new focus on innovation-related activities such as piloting, demonstration, test-beds, support for public procurement, design, end-user driven innovation, social innovation and market take-up of innovations. The activities will support directly the corresponding sectoral policy competences at Union level.

*Remarks**New item*

The vision of the eHealth Action Plan 2012-2020 is to utilise and develop eHealth to address several of the most pressing health and health systems challenges of the first half of the twenty-first century, namely:

- to improve chronic disease and multimorbidity (multiple concurrent disease) management and to strengthen effective prevention and health promotion practices,
- to increase the sustainability and efficiency of health systems by unlocking innovation, enhancing patient/citizen-centric care and citizen empowerment and encouraging organisational changes,
- to foster cross-border healthcare, health security, solidarity, universality and equity,
- to improve legal and market conditions for developing eHealth products and services.

ICT-based products and services have demonstrated their capacity to help address these major challenges in the form of personalised health, telehealth and telecare solutions, service robotics for health and care, support for prolonged active and independent living and home based care. It is also a major new growth opportunity as large new markets for ICT-based products and services emerge to address health, demographic change and well-being.

Activities will cover development and exploitation of ICT for health, well-being and ageing well solutions. This will build on the emergence of underpinning technologies arising out of ICT in LEIT such as micro-nano systems, embedded systems, robotics, Internet of the future and cloud technologies. It will also build on further development of security- and privacy-enhancing technologies.

The Ambient Assisted Living Research and Development Joint Programme will also be supported to contribute to market availability and exploitation of ICT-based products and services and the ICT innovation and pilot projects will be further supported in response to the European Innovation Partnership on Active and Health Ageing and the eHealth 2020 action plan.

Activities cover collaboration, networking actions and national programme coordination initiatives. Also entered in this item are the costs of independent experts assisting in proposal evaluations and project reviews, the costs of events, meetings, conferences, workshops and seminars of European interest organised by the Commission, the costs of studies, analyses and evaluations, the costs of monitoring and evaluation of the specific programme and of the framework programmes and the costs of measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services — CESES — and its member associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. For that to be achieved, Union authorising officers are encouraged to make full use of the possibilities offered by the new Financial Regulation, including CESES contributions in kind to Union projects.

*Remarks**New item*

The specific objective is to foster inclusive, innovative and reflective European societies in a context of unprecedented transformations and growing global interdependencies.

Activities will cover four main areas: ICT-driven public sector innovation, understanding and preserving Europe's intellectual basis, learning and inclusion.

ICT-driven public sector innovation refers to the use of ICT for the creation and implementation of new processes, products, services and methods of delivery which result in significant improvements in the efficiency, effectiveness and quality of public services. The future public administrations should be digital and cross-border by default.

The aim of the second challenge is 'to contribute to an understanding of Europe's intellectual basis: its history and the many European and non-European influences; as an inspiration for our lives today'.

The aim of the third challenge is to support the widespread adoption of ICT in schools and for training in Europe.

The fourth challenge is to get the elderly (aged 65 and above), the unemployed and low educated, migrants, people in need of care, people living in remote or poorer areas, persons with disabilities, and the homeless to fully participate in society. Activities focus on empowering them with the necessary digital skills and providing them with access to digital technologies.

Activities cover collaboration, networking actions and national programme coordination initiatives. Also entered in this item are the costs of independent experts assisting in proposal evaluations and project reviews, the costs of events, meetings, conferences, workshops and seminars of European interest organised by the Commission, the costs of studies, analyses and evaluations, the costs of monitoring and evaluation of the specific programme and of the framework programmes and the costs of measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

New item

The Electronic Components and Systems for European Leadership Joint Undertaking (ECSEL) shall contribute to the implementation of Horizon 2020 and in particular the 'Information and communications technology' segment of the priority 'Industrial leadership'. It shall have the objective of keeping Europe at the forefront of electronic components and systems and bridge faster the gap to exploitation.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

At a time when unemployment among the new generations is alarming, Europe must become an innovation driven society in order to get back on the growth path. For this purpose, it is necessary to create new technologies and to reinvent the ways Union citizens can acquire, transfer and co-construct knowledge. Higher education and research are rapidly evolving. Creating new knowledge technologies requires training teachers, students and researchers alike as well as any individual who needs to adapt to new market demands. Given the ever growing flow of data, a capacity is needed to empower Union citizens to access content and to learn anywhere and anytime in an open collaborative learning ecosystem. Many endeavours, such as citizen science, scientific discovery games and Massive Open Online Course (MOOCs), show that — like many other sectors — education and research are rapidly evolving. Europe can only catch up and take the lead provided it invests in the next generation of tools and in the coming generations of individuals willing to reinvent learning, teaching and research tools.

The initiative 'Opening up education' proposed by the Commission aims at creating the basis for a stronger exploitation of ICT in education. The goal is to make access to education easier and increase efficiencies in learning through sharing and opening content to all individuals. While this initiative aims at making content available, there is still a need for mapping and certifying the knowledge acquired.

Given the current youth unemployment that co-exists with a lack of skilled workers in many Members States, the Union clearly lacks an essential component to fill this knowledge gap. The interests and the current knowledge of individuals should be matched not only with the most demanded labour market skills but also with the possible learning roadmaps that can help them acquire the required knowledge and skills.

In order to fully exploit the potential of this new type of learning systems for the labour market, methods are needed that are able to validate the quality of their learning. Consequently, a mechanism has to be found that allows individuals to assess their competencies (create their individual knowledge map), the knowledge required on the labour market and the learning path that can link the two, hence providing the right content to each individual. Only by doing so, it can be assured that the right content is available to the right target group of individuals. In order to be able to track the learning path, a validation of the acquired knowledge, possible through online certificates or badges must be made available.

This type of social and technological innovations can benefit all citizens regardless of their level of resources, the languages they speak, their age, their health or their cultural capital. Such a project will thus contribute to bridging the knowledge gap and reducing unemployment by helping especially the young currently unemployed to maximize their learning and find new career opportunities.

Remarks

This pilot project proposal aims at testing wellbeing and healthcare service applications in Open Access FTTH-Networks. The future delivery of well-being and healthcare services is to rely on FTTH based solutions, and the realisation of a full-scale high-speed eHealth solution would contribute in achieving one of the Union's Digital Agenda targets.

The project will explore, identify and test new and existing eHealth applications to improve profitability and usability of services. The project aims, for instance, to evaluate patient empowerment and ability of wellbeing and healthcare professionals to share digital patient information. Open Access FTTH-Networks have the potential to carry out a range of eHealth solutions, eg. personal health information management, patient in-home monitoring, sending X-rays from the central hospital to the rural area medical centre, and tele-physiotherapy.

The project is to be implemented in rural regions with long distances and with already *existing* co-operative based FTTH-Networks that operate in a real open access principle. Such network exists for instance in Southern Ostrobothnia. Being distant from the physical service providers and having demographic challenges, rural areas should be especially targeted when providing electronic wellbeing and healthcare solutions in the future.

FTTH is the most advanced technology to support specific wellbeing and healthcare service applications with fast symmetric connections and low latencies, notably by providing both high speeds downstream and upstream. Most importantly, open access model enables all service providers to offer their services in the same fibre for free. This fair competition is considered to improve the promotion of services, value for money and accessibility.

This pilot project is unique and not redundant or in conflict with any national or Union programmes. The deployment of broadband networks is not the focus of this pilot project, and therefore it is not overlapping with the existing national or Union programs of deployment of broadband in Member States.

The duration of this pilot project is two years.

Remarks

The pilot project aims to accelerate the full use of Europe's intellectual capital to the benefit of citizens, entrepreneurs and scientists through new media tools.

The aim is to develop an e-infrastructure based on the concepts of social networks, to promote direct communication between researchers, businesses and media within the European Research Area (ERA).

Beginning from the strategic areas around the priority 'Societal challenges', as outlined in Europe 2020 strategy, the pilot project will support the creation of virtual clusters on these key themes creating a direct way for open dialogue between science and society.

The pilot project will promote active interaction between science, citizens and policymakers through the involvement of European media and social media, in order to support participation of citizens in research agenda setting, on-going research processes, as well as in discussions on the results and impacts of research for society, policy and further research.

The objectives of the pilot project are:

- to develop a reliable, non-profit e-infrastructure (similar to social networks) as basic tool to promote stronger communication and dialogue across disciplines, sectors and borders;
- to integrate identity security of researchers and other actors to ensure a reliable and secure environment;
- to connect to existing research databases ensuring a single access point to research results from all countries and disciplines (interoperability) connecting also to existing European initiatives;
- to create virtual clusters on the topics of the 'societal challenges' that brings together researchers, industry, media and policy makers to enhance collaborations on these key themes, starting from the existing European collaborations and creating an easy and useful tool to facilitate dialogue and collaborations;
- to create a direct dialogue between these virtual clusters (see point d) and citizens through the connection to leading European media.

The project intends to respond to some of the needs and concerns outlined in the Digital Agenda and Horizon 2020.

Current issues that the project will address: recent ICT developments have shown how the power of social networks and e-infrastructures can help harness the potential of networks.

CHAPTER 09 04 — HORIZON 2020 (*cont'd*)09 04 77 (*cont'd*)09 04 77 03 (*cont'd*)

In fact the problems of the existing online environment for research e-Infrastructures are:

- size: the majority of existing networks are too small to go beyond the specific field and research group (according to Commission statistics, the average size of an online network of researchers is around 100 users). A large interoperable network is needed that allows researchers and other stakeholders to find the information they are looking for across sectors and disciplines with a familiar tool,
- reach: traditionally, networks bring together users within the same field and sector. In order to unlock the innovation capacity of Europe, the creation of transdisciplinary (inter-sectorial and inter-disciplinary) connections needs to be made easier,
- reliability: one of the major reasons why big networks in research have not been successful is that existing relations are still based on personal connection and the identities on online networks are not trusted. In order to really foster transdisciplinary connections, a system is needed where the identity verification creates a secure environment for all users engaged,
- trust: a pivotal aspect for any network is trust. Based on market studies a European social network/e-infrastructure would need to be developed in collaboration with the different stakeholders, be non-profit and have a clear IP policy developed together with researchers.

Remarks

These remarks apply to all the budget lines in the 'Direct research' policy area (with the exception of Chapter 10 05).

These appropriations are intended to cover expenditure relating to:

- staff occupying posts on the authorised establishment plan of the Joint Research Centre (JRC) and external personnel implementing the Research and Innovation programmes,
- staff-related costs such as missions, training, medical services and recruitment,
- operation and functioning of the JRC institutes, administrative support, safety and security of the sites, IT related expenditure, non-recurrent costs and major research infrastructures,
- research and support activities including exploratory research, scientific and technical equipment, subcontracting of services, etc.,
- research and scientific support tasks relating to activities entrusted to the JRC within the framework of its participation on a competitive basis in support of the Union's policies and on behalf of outside bodies.

In accordance with Article 21 of the Financial Regulation, any revenue entered in Items 6 2 2 4 and 6 2 2 5 of the statement of revenue may give rise to the provision of additional appropriations.

Miscellaneous revenue may give rise to the provision of additional appropriations to be used in Chapters 10 02, 10 03 or 10 04 or Article 10 01 05, depending on their purpose.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

The possibility of third countries or organisations from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution will be entered in Item 6 0 1 3 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

The additional appropriations will be provided under Items 10 02 50 01 and 10 03 50 01.

10 01 05 *(cont'd)*

In accordance with Article 21 of the Financial Regulation, any revenue entered in Items 6 0 1 3 and 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations.

The appropriations could be supplemented by appropriations that the Joint Research Centre will earn by participating on a competitive basis in indirect actions and in scientific and technical activities in support of Union policies. The activities of a competitive nature conducted by the JRC shall consist of:

- activities carried out following grant or procurement procedures,
- activities on behalf of third parties,
- activities undertaken under an administrative agreement with other institutions or other Commission departments for the provision of technical-scientific services.

2013 appropriations from items in Article 10 01 05 automatically carried forward to 2014 will be booked onto the three Horizon 2020 items in this Article.

This appropriation is intended to cover expenditure relating to officials and temporary staff occupying posts on the authorised establishment plan of the Joint Research Centre implementing research and innovation programmes — Horizon 2020, and in particular:

- direct action, consisting of research activities, scientific and technical support activities, and exploratory research activities undertaken in the establishments of the Joint Research Centre,
- indirect action, consisting of programmes implemented as part of the Joint Research Centre's activities conducted on a competitive basis.

Staff costs comprise the basic salary, allowances, miscellaneous indemnities and contributions based on the statutory provisions, including expenses related to the entry into service, change in the place of employment and termination of service.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

These remarks are applicable to all the budget lines in this chapter.

This appropriation will be used for Horizon 2020 — the Framework Programme for research and innovation which covers the 2014-2020 period.

Horizon 2020 shall play a central role in the implementation of the Europe 2020 flagship initiative 'Innovation Union' and other flagship initiatives, notably 'Resource efficient Europe', 'An industrial policy for the globalisation era', and 'A digital agenda for Europe', as well as in the development and functioning of the European Research Area (ERA). Horizon 2020 shall contribute to building an economy based on knowledge and innovation across the whole Union by leveraging sufficient additional research, development and innovation funding.

This appropriation is intended to be used in accordance with Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for participation and dissemination in 'Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020)' and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this chapter. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

New article

This appropriation is intended to cover the scientific and technical support and research activities carried out by the Joint Research Centre in accordance with Part IV of the Specific Programme Implementing Horizon 2020 'Non-nuclear direct actions of the Joint Research Centre (JRC)', in order to provide customer-driven scientific and technical support to European Union policies. The specific priorities are:

- excellent science: the JRC will carry out research to enhance the scientific evidence base for policymaking, to promote understanding of natural processes underlying societal challenges, and to examine emerging fields of science and technology, including through an exploratory research programme,
- industrial leadership: the JRC will contribute to innovation and competitiveness through: continuing to contribute to the strategic orientation and science agenda of relevant instruments of indirect research; support to knowledge and technology transfer; and contributing to facilitate the use, standardisation and validation of space technologies and data,
- societal challenges: the JRC will carry out research on the following themes: health, demographic change and wellbeing; food security, sustainable agriculture, marine and maritime research and the bio-economy; secure, clean and efficient energy; smart, green and integrated transport; climate action, resource efficiency and raw materials; inclusive, innovative and secure societies.

This appropriation covers specific expenditure relating to research and support activities, including the purchase of scientific and technical equipment, subcontracting of scientific and technical services, access to information, acquisition of consumables, etc. This includes expenditure on scientific infrastructure directly incurred for the projects concerned.

It also covers expenditure of any type concerning research and scientific support tasks relating to activities under this article entrusted to the Joint Research Centre within the framework of its participation on a competitive basis in support of the Union policies and on behalf of outside bodies.

In accordance with Article 21 and Article 183(2) of the Financial Regulation, any revenue entered in Items 6 2 2 3 and 6 2 2 6 of the statement of revenue may give rise to the provision of additional appropriations.

Remarks

The Research and Training Programme on European Atomic Energy Community (2014-2018) (Euratom Programme) is an integral part of Horizon 2020, the Framework Programme for Research and Innovation. The Euratom Programme shall strengthen the research and innovation framework in the nuclear field and coordinate Member States' research efforts, thereby avoiding duplication, retaining critical mass in key areas and ensuring public funding is used in an optimal way.

This appropriation will be used in accordance with Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for participation and dissemination in 'Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020)' and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

The Euratom Programme aims to improve nuclear safety, security and radiation protection and to contribute to the long-term decarbonisation of the energy system in a safe, efficient and secure way. It will cover the fusion energy research and development programme, the fission and radiation protection research activities, and the JRC direct actions in nuclear security and safety. By achieving these objectives, the Euratom Programme shall contribute to the outcomes under the three priorities of the Horizon 2020 Framework Programme: excellent science, industrial leadership and societal challenges. These objectives are clearly linked to those of the Europe 2020 and Energy 2020 strategies.

*Remarks**New article*

This appropriation is intended to cover the scientific and technical support and research activities carried out by the Joint Research Centre to implement the Research and Training Programme of the European Atomic Energy Community (2014-2018). The specific objectives are:

- to improve nuclear safety including: nuclear reactor safety, decommissioning; nuclear emergency preparedness and radiation protection; nuclear fuel cycle safety; and radioactive waste management,
- to improve nuclear security including: nuclear safeguards, nuclear non-proliferation, prevention and mitigation of CBRN (chemical, biological, radiological and nuclear) hazards,
- to raise excellence in the science base for standardisation,
- to foster knowledge management, training and education,
- to support the policy of the Union on nuclear safety and security and the related evolving Union legislation.

This appropriation also addresses the activities necessary for implementing safeguards pursuant to Chapter 7 of Title II of the Euratom Treaty and the obligations arising from the Non-Proliferation Treaty and implementation of the Commission's programme to support the International Atomic Energy Agency (IAEA).

It covers specific expenditure relating to research and support activities, including the purchase of scientific and technical equipment, subcontracting of scientific and technical services, access to information, acquisition of consumables, etc. This includes expenditure on scientific infrastructure directly incurred for the projects concerned.

This appropriation also covers expenditure of any type concerning research and scientific support tasks relating to activities under this article entrusted to the Joint Research Centre within the framework of its participation on a competitive basis in support of Union policies and on behalf of outside bodies.

In accordance with Article 21 and Article 183(2) of the Financial Regulation, any revenue entered in Items 6 2 2 3 and 6 2 2 6 of the statement of revenue may give rise to the provision of additional appropriations.

This article is intended to receive the appropriations required for expenditure specific to the various tasks performed on behalf of outside bodies. It includes research and supply of services under contract to third parties, such as industry, national or regional authorities, as well as contracts in the context of Member States' research programmes. This may cover the following:

- the provision of supplies, services and work carried out in general against payment, including certified reference materials,
- the operation of facilities for the benefit of Member States, including the irradiation for outside bodies in the high-flux reactor (HFR) at the Petten establishment of the Joint Research Centre,
- the performance of research activities and the provision of services additional to the specific research programmes, including the industrial clubs for which the partners from industry must pay an enrolment fee and annual subscriptions,
- cooperation agreements with third parties.

In accordance with Article 21 of the Financial Regulation, any revenue entered in Items 6 2 2 3 and 6 2 2 4 of the statement of revenue may give rise to the provision of additional appropriations.

Additional appropriations will be provided for this article, in accordance with Article 21 and Article 183(2) of the Financial Regulation, to cover specific expenditure for each contract with an outside body to the amount of the revenue to be entered in Item 6 2 2 3 of the statement of revenue.

CHAPTER 11 01 — ADMINISTRATIVE EXPENDITURE OF THE 'MARITIME AFFAIRS AND FISHERIES' POLICY AREA (*cont'd*)11 01 04 (*cont'd*)11 01 04 01 (*cont'd*)

It may, in particular, be used to cover:

- expenditure incurred on external personnel at headquarters (contract agents, seconded national experts or agency staff) up to EUR 850 000, including support expenditure (representation expenses, training, meetings, missions relating to the external personnel financed under this line) required for the implementation of the EMFF and the completion of measures under its predecessor the European Fisheries Fund (EFF) relating to technical assistance,
- expenditure on external personnel (contract agent, local agents, or seconded national experts) in the Unions delegations in third countries, as well as for additional logistical and infrastructure costs, such as the cost of training, meetings, missions, IT and telecommunications and of renting directly caused by the presence in the delegation of the external staff remunerated from the appropriations entered in this item,
- expenditure on mission by third country delegations attending meetings to negotiate fisheries agreements and joint committees,
- expenditure on studies, evaluation measures and audits, meetings of experts and the participation of stakeholders in ad hoc meetings, seminars and conferences pertaining to major topics, information and publications in the field of maritime affairs and fisheries,
- expenditure on information technology (IT) covering both equipment and services,
- participation of scientific experts in meetings of Regional Fisheries Management Organisations,
- any other expenditure on non-operational technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

This appropriation may also cover expenditure for preparatory, monitoring, administrative and technical support, evaluation, audit and inspection measures related to fisheries market intervention previously financed under the common agricultural policy in accordance with Article 5(a) to (d) of Regulation (EC) No 1290/2005.

This appropriation is intended to cover the Union's active participation in international fisheries organisations responsible for the long-term conservation and sustainable exploitation of marine fisheries resources. It relates to compulsory contributions, amongst others, to the following regional fisheries management organisations and other international organisations:

- Commission for the Conservation of Antarctic Marine Living Resources (CCAMLR),
- North Atlantic Salmon Conservation Organisation (NASCO),
- International Commission for the Conservation of Atlantic Tunas (ICCAT),
- North-East Atlantic Fisheries Commission (NEAFC),
- Northwest Atlantic Fisheries Organisation (NAFO),
- Indian Ocean Tuna Commission (IOTC),
- General Fisheries Commission for the Mediterranean (GFCM),
- South East Atlantic Fisheries Organisation (SEAFO),
- Southern Indian Ocean Fisheries Agreement (SIOFA),
- Western and Central Pacific Fisheries Commission (WCPFC, ex-MHLC),
- Agreement on the International Dolphin Conservation Program (AIDCP),
- Inter-American Tropical Tuna Commission (IATTC),
- South Pacific Regional Fisheries Management Organisation (SPRFMO).

This appropriation is also intended to cover the Union's financial contributions to the bodies set up by the United Nations Convention on the Law of the Sea, 1982, in particular the International Seabed Authority and the International Tribunal for the Law of the Sea.

Remarks

Article 39 of Regulation (EC) No 1260/1999 provides for financial corrections, any revenue from which is entered in Item 6 5 0 0 of the statement of revenue. That revenue may give rise to the provision of additional appropriations, in accordance with Article 21 of the Financial Regulation, in specific instances where they are necessary to cover risks of cancellation or of reductions in corrections previously decided upon.

Regulation (EC) No 1260/1999 determines the conditions for repayment of an advance without having the effect of reducing the contribution from the Structural Funds towards the assistance concerned. Any revenue from the repayment of advances entered in Item 6 1 5 7 of the statement of revenue will give rise to the provision of additional appropriations in accordance with Articles 21 and 178 of the Financial Regulation.

Article 80 of the Financial Regulation provides for financial corrections in the event of expenditure incurred in breach of applicable law.

Articles 77, 136 and 137 of the amended proposal for a Regulation COM(2013) 246 final on criteria for financial corrections by the Commission provide for specific rules on financial corrections applicable to the EMFF.

Any revenue from the financial corrections carried out on that basis is entered in Item 6 5 0 0 of the statement of revenue and constitutes assigned revenue in accordance with Article 21(3)(c) of the Financial Regulation.

Article 177 of the Financial Regulation lays down the conditions for the repayment in full, or in part, of pre-financing payments in respect of a given operation.

Pre-financing amounts repaid shall constitute internal assigned revenue in accordance with Article 21(4) of the Financial Regulation and shall be entered in Item 6 1 5 0 or 6 1 5 7.

Measures to combat fraud are funded under Article 24 02 01.

Remarks

This appropriation is intended to cover the financing of the commitments remaining to be settled from earlier programming periods relating to EFF technical assistance measures as provided for in Article 46 of Regulation (EC) No 1198/2006. The technical assistance measures include studies, evaluations, measures aimed at the partners, measures to disseminate information, installation, operation and interconnection of computerised systems for the management, monitoring, audit, inspection and evaluation, improvements in evaluation methods and the exchange of information on practices in this field and the establishment of trans-national and Union networks of actors in the sustainable development of coastal fishing zones.

Technical assistance covers preparatory, monitoring, audit, evaluation, supervision and management measures required to implement the EFF.

This appropriation may, in particular, be used to cover:

- support expenditure (representation expenses, training, meetings, missions),
- information and publishing expenditure,
- expenditure on information technology and telecommunications,
- contracts for the provision of services,
- support for networking and exchange of best practices.

*Remarks**Former Article 11 03 03*

This appropriation is intended to cover the Union's voluntary contributions to international organisations active in the field of fisheries and the law of the sea. It may in particular finance:

- preparatory work on new sustainable fisheries agreements,
- contributions and registration fees for meetings of international fisheries organisations in which the Union has observer status (Article 217 of the Treaty on the Functioning of the European Union), i.e. the International Whaling Commission (IWC), and the Organisation for Economic Cooperation and Development (OECD),
- support for the follow-up and implementation of some regional projects, in particular by contributing to specific joint international control and inspection activities. This appropriation should also cover surveillance programmes to be negotiated in West Africa and the Western Pacific,
- financial contributions to preparations for new international fisheries organisations which are of interest to the Union,
- financial contributions to scientific work carried out by international fisheries organisations which is of special interest to the Union,
- financial contributions to any activity (including working, informal or extraordinary meetings of contracting parties) which upholds the interests of the Union in international organisations and strengthens cooperation with its partners in these organisations. In this connection, when the presence of representatives of third countries in negotiations and meetings within international forums and organisations becomes necessary for the Union interests, the EMFF shall bear the costs of their participation,
- grants to regional bodies in which coastal states are involved in the subregion concerned.

Remarks

Former Article 11 04 01

This appropriation is intended to finance the following activities under the action plan for closer dialogue with the fishing industry and those affected by the Common Fisheries Policy and the Integrated Maritime Policy:

- grants to (Regional) Advisory Councils (after the reformed CFP regulation is adopted, existing Regional Advisory Councils (RACs) will be transformed in Advisory Councils (ACs) and new ones will be created) to cover operational costs as well as interpretation and translation costs of (R)AC meetings,
- the implementation of measures to provide documentation about and explain the Common Fisheries Policy aimed at the fishing industry and those affected by the Common Fisheries Policy, as well as the Integrated Maritime Policy.

The Commission will continue supporting the functioning of the ACs with a financial contribution. It will participate in meetings when appropriate and analyse the recommendations issued by the ACs which may provide an input when drafting legislation. Through the consultation of stakeholders in the (R)ACs, the involvement of people working in fisheries and other interest groups in the common fisheries policy process will be strengthened, so that greater account of specific regional characteristics is taken.

Part of the appropriation is earmarked also for information and communication activities linked to the Common Fisheries Policy and the Integrated Maritime Policy as well as for communication activities addressed to the interested parties. Efforts will continue to be made to inform the stakeholders and the specialised media in the new Member States as well as in the countries joining the Union in the forthcoming enlargement about the Common Fisheries Policy and the Integrated Maritime Policy.

Any revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

New article

This appropriation is intended to cover EMFF technical assistance measures as provided for in Article 91 of the proposal for a Regulation of the European Parliament and of the Council on the European Maritime and Fisheries Fund (COM(2011) 804 final).

Technical assistance covers preparatory, monitoring, audit, evaluation, supervision and management measures required to implement the EMFF.

It may, in particular, be used to cover:

- studies, evaluations and expert reports,
- actions to disseminate information, support networking, carry out communication activities, raise awareness and promote cooperation and exchange of experience, including with third countries,
- the installation, operation and interconnection of computerised systems for management, monitoring, audit, control and evaluation,
- actions to improve evaluation methods and the exchange of information on evaluation practices,
- actions related to audit,
- the establishment of trans-national and Union networks of actors in the sustainable development of coastal fishing zones.

This appropriation is intended to cover the Agency's staff and administrative expenditure (Titles 1 and 2), and operational expenditure relating to the work programme (Title 3).

The Agency must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure.

The amounts repaid in accordance with Article 16 of Commission Regulation (EC, Euratom) No 2343/2002 constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

The establishment plan of the Agency is set out in Annex 'Staff' to this section.

The Union contribution for 2014 amounts to a total of EUR 9 217 150. An amount of EUR 500 250, coming from the recovery of surplus, is added to the amount of EUR 8 716 900 entered in the budget.

Commercial designations fall within the remit of each Member State's national authorities; a single instrument should be put in place to give European consumers guarantees that the various designations are transparent and coherent, and to make it easier to verify the information concerned.

The purpose of a pilot project would be to set up:

- a database containing all information in connection with commercial designations (codes from FAO nomenclatures, combined nomenclatures, customs nomenclatures, health nomenclatures or INN); the scientific names of species according to the FishBase system; names of species in the official languages of the Member States and, possibly, accepted regional or local designations),
- an expert system to analyse consistency between the various designations and nomenclatures,
- a dedicated Internet site.

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

This appropriation is intended to be used to:

- assess the feasibility for making the best possible use of active fishing vessels which need to be decommissioned from the Union fleet and of fishermen's experience and practical know-how to benefit both of the fishermen themselves and society at large,
- test under close to real-life conditions the technical and economic viability of redeploying — from fishing to maritime activities — individuals who have been active in the sector as crew members and who can no longer make their living from fishing and possess maritime experience and knowledge at risk of being lost in case alternative sources of income are sought in land-based activities,
- test under close to real-life conditions the feasibility of converting fishing vessels into vessels operating as a platform for a number of environmental and maritime activities outside fishing, in particular collecting marine litter,
- identify under close to real-life conditions the necessary operating costs of a vessel operating under such conditions and the potential sources of funding; however, any such funding should be limited to supporting the start-up of activities that are self-sustaining in the long term,
- identify the appropriate training needed for fishermen in order to perform new duties and achieve useful results,
- support reduction of fishing capacity in line with CFP reform objectives by providing positive incentives for vessel-owners and fishermen who leave the sector and encouraging them to find/develop alternative activities at sea and/or in coastal areas,
- encourage activities complementing fishing for those fishermen staying in the sector,
- identify the necessary administrative and legal framework for collaborating with the relevant authorities and/or relevant administrative bodies and for coordinating 'Guardians of the Sea' activities with them,
- test under close to real-life conditions the implementation of the 'Guardians of the Sea' concept in the next programming period.

Remarks

This appropriation is intended to finance support measures for small-scale fishing which will help coordinate actions and channel funds from other instruments, with a view to dealing with the specific problems in this part of the fisheries sector.

The pilot project will involve:

- analysing the EU's small-scale fishing sector;
- identifying the EU instruments and funding sources that could be used by this sector;
- establishing the uses to which the instruments, actions, measures and funding available are being put by the small-scale fishing sector;
- analysing the extent to which existing instruments can meet the needs of the small-scale fishing sector and, on the basis of that analysis, proposing any adjustments that may be necessary;
- supporting fishermen's groups, professional organisations and NGOs associated with small-scale fishing, with a view to their coordination, preparation and participation in advisory councils.

The intention is to lay the foundations for an EU support programme for small-scale inshore fishing and artisanal fishing which will help coordinate actions and channel funds from other instruments, with a view to dealing with the specific problems in this sector of the fishing industry.

Remarks

Former Item 12 01 04 01 and former Article 12 02 01

This appropriation is intended to cover expenditure arising in connection with measures contributing to the completion of the internal market and its operation and development, and measures contributing, in particular, to:

- greater proximity to citizens and businesses, including the development and strengthening of dialogue with citizens and businesses: via measures intended to make the operation of the internal market more effective, and to ensure that citizens and businesses are able to gain access to the most extensive rights and opportunities, resulting from the opening up and deepening of the internal market without borders and are able to exercise those rights and opportunities in full; and via monitoring and evaluation measures relating to the practical exercise by citizens and businesses of their rights and opportunities with a view to identifying and facilitating the removal of any obstacles which may be preventing them from exercising those rights in full,
- implementing and monitoring the provisions governing public contracts with a view to ensuring their optimum operation and that tenders are genuinely open, including the awareness-raising and training of the various parties to these contracts; the introduction and use of new technologies in the various fields of operation of these contracts; the continuous adaptation of the legislative and regulatory framework in the light of developments arising from these contracts, particularly the globalisation of markets and existing or future international agreements,
- improvement, through the European business test panel (EBTP), of the legal environment for citizens and businesses, for which promotion activities, awareness-raising and training actions could be envisaged; fostering cooperation, development and coordination of legislation in the field of company law and assistance with the creation of European limited companies and European economic interest groupings,
- strengthening administrative cooperation through, inter alia, the Internal Market Information System (IMI), the deepening of knowledge of internal market legislation in the Member States and its sound application by them, and support for administrative cooperation between the authorities responsible for implementing legislation relating to the internal market with a view to achieving the Lisbon strategic goals as set out in the annual policy strategy,
- the setting-up of a system that can effectively and efficiently deal with problems faced by citizens or businesses, arising from the misapplication of internal market legislation by a public administration in another Member State; production of feedback information through the Solvit system by means of an online database system which is accessible to all coordination centres and which will also be made accessible to citizens and businesses; support for the initiative through training measures, promotion campaigns and targeted actions with a particular focus on the new Member States,
- interactive policymaking, in so far as it concerns the completion, development and operation of the internal market, makes up part of the Commission's governance and of the regulatory policy initiatives to better respond to the demands of citizens, consumers and businesses. The appropriations entered under this article will also cover training, awareness-raising and network actions to the benefit of such participants with a view to making Union policymaking on the internal market more comprehensive and effective, and as part of the process of assessing the actual impact of internal market policies (or the lack of them) on the ground,

- a comprehensive review of regulations with a view to making necessary changes and producing an overall analysis of the effectiveness of the measures taken with a view to the sound operation of the internal market and the evaluation of the overall impact of the internal market on businesses and the economy, including the purchase of data and access by Commission departments to external databases, as well as targeted actions aimed at improving understanding of the functioning of the internal market and rewarding active participation in fostering the functioning of the internal market,
- guaranteeing the completion and management of the internal market, especially in the fields of pensions, free movement of services, recognition of professional qualifications, and intellectual and industrial property: the development of proposals for putting in place a Union patent,
- broadening the strategy regarding the development of statistics on service sectors and statistical development projects in cooperation with Eurostat and the Organisation for Economic Cooperation and Development (OECD),
- monitoring the effects of removing obstacles to the internal market for services,
- the development of a unified area for security and defence, with action working towards the coordination of public procurement procedures for these products at Union level; appropriations may cover devising studies and awareness-raising measures regarding the application of the legislation adopted,
- strengthening and developing financial and capital markets and financial services provided to businesses and private individuals; adapting the market framework especially as regards the monitoring and regulation of the activities of operators and of transactions, so as to take account of changes at Union and global levels, of the reality of the euro and of new financial instruments, by putting forward new initiatives intended to consolidate, and provide a detailed analysis of, the results of the first Financial Services Action Plan,
- improvement of payment systems and retail financial services in the internal market; reduction in the cost of, and time needed for, such transactions, taking into account the internal market dimension; development of the technical aspects so as to establish one or more payment systems on the basis of the follow-up in respect of Commission communications; carrying out studies in this area,
- developing and strengthening the external aspects of the directives applicable in respect of financial institutions, the mutual recognition of financial instruments vis-à-vis third countries, international negotiations and assistance for third countries in establishing a market economy,
- implementing the many measures put forward in the Action Plan on Company Law and Corporate Governance which could lead to studies on a number of targeted subjects, with a view to drawing up the necessary legislative proposals,
- analysis of the effect of measures in place as part of the follow-up to the progressive liberalisation of postal services, coordination of Union policies on postal services with regard to international systems and in particular with regard to participants in Universal Postal Union (UPU) activities; cooperation with central and eastern European countries; practical implications of the application of the General Agreement on Trade (GATS) provisions to the postal sector and overlap with UPU regulations,
- implementing the law of the Union and international provisions in the field of money laundering, including participation in intergovernmental or ad hoc measures in this field; contributions relating to Commission participation as a member of the Financial Action Task Force (FATF) on money laundering created under the OECD,
- active participation in meetings held by international associations such as the International Association of Insurance Supervisors (IAIS/AICA) and the International Organisation of Securities Commission (IOSCO); this also comprises expenses related to the Commission's participation as a member of the group,
- development of evaluations and impact studies on the various aspects of the policies covered by this chapter for the purpose of devising new measures or revising existing measures relating to them,

COMMISSION
TITLE 12 — INTERNAL MARKET AND SERVICESCHAPTER 12 02 — A SINGLE MARKET POLICY AND FREE MOVEMENT OF SERVICES (*cont'd*)12 02 01 (*cont'd*)

- creation and maintenance of systems directly linked to putting into place and monitoring policies launched within the framework of the internal market for services,
- support of activities which seek to contribute to the achievement of the Union's policy objectives by enhancing supervisory convergence and cooperation, and in the field of financial reporting, both inside and outside the Union.

In order to achieve these objectives, this appropriation covers the costs of consultation, studies, surveys, evaluations, participation, production and the development of publicity, awareness-raising and training materials (printed matter, audiovisual material, assessments, computer tools, the collection and dissemination of information, information and advice measures for citizens and businesses).

Part of this appropriation is intended to cover expenditure incurred by the Commission for ensuring the effective functioning of the European Observatory on Infringements of Intellectual Property Rights.

This appropriation is also intended to cover setting up a central coordination body assisting the Member States with market surveillance cooperation, building on existing structures and experience. This coordination body would support the cooperation, pooling of know-how and sharing of best practices between Member States to ensure the same high level of market surveillance throughout the Union, in accordance with Regulation (EC) No 765/2008 of the European Parliament and of the Council of 9 July 2008 setting out the requirements for accreditation and market surveillance relating to the marketing of products (OJ L 218, 13.8.2008, p. 30). To this end, regular joint training for representatives of national market surveillance authorities from all Member States will be organised, focusing on relevant practical aspects of market surveillance such as follow-up of complaints, monitoring accidents, verifying that corrective action has been taken, follow-up of scientific and technical knowledge concerning safety issues and coordination with customs authorities. Furthermore, exchanges of national officials and joint visit programmes will foster the exchange of experience between Member States. In addition, comparative data on the resources dedicated to market surveillance in the different Member States will be collected and discussed at the appropriate level with national authorities. The aim is to create awareness about the need to have adequate resources to guarantee efficient, comprehensive and consistent market surveillance throughout the internal market, and contribute to the upcoming revision of the Union product safety rules, particularly those concerning market surveillance, and the preparation of the follow-up to the Customs 2013 programme.

This appropriation is intended to cover expenditure on studies, surveys, meetings of experts, information activities and publications directly linked to the achievement of the objective of the programme or measures coming under this article, plus any other expenditure on technical and administrative assistance.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

This appropriation is intended to cover expenditure arising in connection with measures for the management and development of Solvit and for the implementation of the single market assistance services action plan.

The Solvit system has proved to be one of the most effective out-of-court dispute settlement mechanisms.

It can effectively and efficiently deal with problems faced by citizens or businesses, arising as a result of the misapplication of internal market legislation by a public administration in another Member State. Furthermore, the Solvit system is able to produce feedback information by using an online database system which is accessible to all coordination centres and to which citizens and businesses can directly submit their problems.

However, Solvit like many other public assistance services relating to Union issues is still not widely known among potential users of the system. At the same time citizens and businesses are often very confused about the right address for their requests for information, assistance or problem solving. To remedy this, the Commission has announced, as part of the single market review, that it will endeavour to create a single web-based access point guiding citizens and businesses to the right service. In October 2010 the Commission launched a new website, Your Europe, which provides citizens and businesses with information, and refers them directly to relevant services such as Solvit in the event that they need help. Your Europe, together with the Europe Direct call centre, represents the single contact point for the Solvit system. The Commission is to inform the competent committee of the European Parliament in a yearly report about the frequency of use of the contact point and possible measures to further improve it.

Member States should be urged to take appropriate measures to notify their citizens about the existence of the single contact point.

Moreover, in the Commission's action plan of 8 May 2008 on an integrated approach for providing single market assistance services to citizens and businesses, a range of actions was proposed to increase cooperation between the existing assistance services so that they can offer a better, faster and more streamlined overall service to citizens and businesses.

Promotion of all these services also needs to take place in a more coordinated way to avoid citizens and businesses being confused by too many brand names.

Additionally, the Commission is to inform the competent committee of the European Parliament about the concrete measures which have been undertaken in this field.

The Single Market Forum should be an annual event held preferably in the Member State which holds the EU Council Presidency. It could be preceded by a number of regional content-oriented preparatory events organised jointly by the Commission, the European Parliament and the Member State which holds the Presidency of the Council of the Union. This event should be an important platform for the exchange of best practice between stakeholders, informing citizens about their rights in the Single Market and examining the state of the Single Market. It should bring together representatives of citizen, business and consumer organisations as well as representatives of the Member States and the Union's institutions in order to establish a clear commitment to transpose, apply and enforce Single Market legislation. This should be a platform for discussing the Commission's legislative proposals in the area of the Single Market and for presenting citizens', businesses' and other stakeholders' expectations with regard to future legislative proposals. The aim of this event should also be to tackle incorrect transposition, misapplication and non-enforcement of Single Market legislation by improving coordination and governance of the Single Market. A steering committee should be created, comprised of Members of the European Parliament and representatives of the Commission and the EU Council Presidency-in-Office at the time of the event, which should work out the organisational arrangements for the Single Market Forum.

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

This pilot project implements the main conclusions of the public hearing held in the European Parliament on 22 March 2012, which underlined the need to collect accurate data about the different national legislation on employee ownership and participation. This data collection will be aimed at setting up a European Centre for Employee Ownership in each Member State, to deliver information, training and advice to employees, enterprises and the public in order to facilitate the promotion and implementation of appropriate legislation to better develop employee ownership and participation in the Union, the benefits of which to society are underlined in the European Economic and Social Committee's own-initiative opinion Soc/371 on employee financial participation in Europe.

Remarks

The financial and economic crisis has significantly shaken the confidence of consumers, retail investors and SMEs in the legislative and regulatory framework that is meant to protect them from failings in the financial system. Therefore, it is more essential than ever that the concerns of end users and other non-industry stakeholders should be taken into account in designing initiatives that aim to restore citizens' confidence in the soundness of the financial sector and in the ability of financial integration to deliver concrete benefits to them.

This preparatory action, which follows on from a successful pilot project, aims to enhance the capacity of civil society organisations to participate in Union policy-making in the area of financial services, with a view to providing policy-makers with a counterweight to financial services sector lobbies, and to inform the wider public of the issues at stake in the regulation of financial markets for consumers, end users, retail investors and other non-industry stakeholders.

Legal basis

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

New article

This appropriation is intended to cover expenditure arising in connection with the programme to support specific activities in the field of financial services, financial reporting and auditing.

The general objective of this programme is to improve the conditions for the functioning of the internal market by supporting the operations, activities or actions of certain bodies in the fields of financial services, financial reporting and auditing.

Union funding is vital in order to ensure the efficient and effective supervision of the internal market in financial services, particularly in view of the recent financial crisis.

Activities such as developing or providing input to the development of standards, applying, assessing or monitoring standards or overseeing standard-setting processes in support of the implementation of Union policies in the field of financial reporting and auditing are covered by the programme.

Former Items 12 04 02 01 and 12 04 02 02

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 114 thereof, as well as to the European Supervisory Authority (European Banking Authority), established by Regulation (EU) No 1093/2010, the European Supervisory Authority is to form part of a European System of Financial Supervision (ESFS). The main objective of the ESFS is to ensure that the rules applicable to the financial sector are adequately implemented to preserve financial stability and to ensure confidence in the financial system as a whole and sufficient protection for the customers of financial services.

This appropriation is intended to cover the Authority's staff and administrative expenditure (Titles 1 and 2), and operational expenditure relating to the work programme (Title 3).

The Authority must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The amounts repaid in accordance with Article 20 of Commission Delegated Regulation (EU) No 1271/2013 of 30 September 2013 on the framework financial regulation of the bodies referred to in Article 208 of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council (OJ L 328, 7.12.2013, p. 42) constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

Remarks

This appropriation is intended to cover technical assistance measures for the Instrument for Pre-Accession Assistance:

- expenditure linked to the preparation, appraisal, approval, follow-up, control, audit and evaluation of multiannual programmes and/or individual operations and projects under IPA regional development component. These actions may include technical assistance contracts, studies, short-term expertise, meetings, exchange of experience, networking, information and publicity and awareness creation events, training activities and publications directly linked to the achievement of the objective of the programme and any other support measures carried out at the level of the Commission central services or the delegations in the beneficiary countries,
- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the benefit of beneficiary countries and the Commission,
- installation, operation and interconnection of computerised systems for management, inspection and evaluation,
- improvements in evaluation methods and the exchange of information on practices in this field.

This appropriation is also intended to support administrative learning and cooperation with non-governmental organisations and social partners.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers administrative expenditure under Chapter 13 05.

Remarks

Article 175 of the Treaty on the Functioning of the European Union provides that the objectives of economic, social and territorial cohesion set out in Article 174 shall be supported by the action it takes through the Structural Funds, which includes the European Regional Development Fund (ERDF). According to Article 176, the ERDF is intended to help redress the main regional imbalances in the Union. The tasks, priority objectives and the organisation of the Structural Funds are defined in accordance with Article 177.

Article 80 of the Financial Regulation provides for financial corrections in the event of expenditure incurred in breach of applicable law.

Article 39 of Regulation (EC) No 1260/1999, Articles 100 and 102 of Regulation (EC) No 1083/2006 and Articles 85, 144 and 145 of Regulation (EU) No 1303/2013 on criteria for financial corrections by the Commission provide for specific rules on financial corrections applicable to the ERDF.

COMMISSION

TITLE 13 — REGIONAL AND URBAN POLICY

CHAPTER 13 03 — EUROPEAN REGIONAL DEVELOPMENT FUND AND OTHER REGIONAL OPERATIONS (*cont'd*)

Any revenue from the financial corrections carried out on that basis is entered in Item 6 5 0 0 of the statement of revenue and constitutes assigned revenue in accordance with Article 21(3)(c) of the Financial Regulation.

Article 177 of the Financial Regulation lays down the conditions for the repayment in full, or in part, of pre-financing payments in respect of a given operation.

Article 82 of Regulation (EC) No 1083/2006 provides for specific rules on repayment of pre-financing applicable to the ERDF.

Pre-financing amounts repaid shall constitute internal assigned revenue in accordance with Article 21(4) of the Financial Regulation and shall be entered in Item 6 1 5 0 or 6 1 5 7.

Measures to combat fraud are funded from Article 24 02 01.

Remarks

This appropriation is intended to cover the ERDF commitments for the innovative measures and technical assistance remaining to be settled from the 2000-2006 programming period as provided for in Articles 22 and 23 of Regulation (EC) No 1260/1999. The innovative measures include studies, pilot projects and exchanges of experience. They were intended in particular to bring about a qualitative improvement in Structural Fund measures. Technical assistance covers preparatory, monitoring, evaluation, supervision and management measures required for implementation the ERDF. The appropriation may, in particular, be used to meet:

- support expenditure (representation expenses, training, meetings, missions),
- information and publishing expenditure,
- expenditure on information technology and telecommunications,
- contracts for the provision of services and studies,
- grants.

This appropriation is also intended to fund measures taken by partners in preparation for the 2014-2020 programming period.

*Remarks**Former Articles 13 03 16 and 13 05 02 (in part)*

This appropriation is intended to cover commitments remaining to be settled for programmes under the ERDF objective of the convergence in the 2007-2013 programming period. This objective is aimed at speeding up the convergence of the least-developed Member States and regions by improving conditions for growth and employment.

Part of this appropriation is intended to be used to address intra-regional disparities so as to ensure that the overall state of development of a given region does not hide poverty loops and disadvantaged territorial units.

In accordance with Article 105a(1) of Regulation (EC) No 1083/2006 as modified by point 7 of Annex III to the Treaty concerning the Accession of the Republic of Croatia to the European Union (OJ L 112, 24.4.2012), programmes and major projects which, on the date of accession of Croatia, have been approved under Regulation (EC) No 1085/2006 and the implementation of which has not been completed by that date, shall be considered to have been approved by the Commission under Regulation (EC) No 1083/2006, with the exception of the programmes approved under the components referred to in points (a) and (e) of Article 3(1) of Regulation (EC) No 1085/2006.

Remarks

This appropriation is intended to cover commitments remaining to be settled for the PEACE programme under the European territorial cooperation objective of the ERDF of the 2007-2013 programming period.

The PEACE programme shall be implemented as a cross-border cooperation programme within the meaning of Article 3(2)(c) of Regulation (EC) No 1083/2006.

The PEACE programme shall promote social and economic stability in the regions concerned, including notably actions to promote cohesion between communities. The eligible area shall be the whole of Northern Ireland and the border counties of Ireland. This programme will be implemented in full compliance with the principle of additionality of structural fund operations.

It is intended to cover commitments from the 2007-2013 programming period remaining to be settled to ensure:

- the proper circulation of information through newsletters (including online), reports and conferences, and specifically an annual forum,
- the organisation of on-site events to familiarise all interested European regions with the Baltic Sea approach and the principles of macro-regions,
- successful governance of the strategy through the decentralised system that has been established and, in particular, the operation of the system of priority area coordinators and flagship project leaders,
- technical and administrative support for planning and coordination of activities related to the European Union Strategy for the Baltic Sea Region,
- availability of seed money for planning and preparing projects supporting the strategy,
- support for civil society participation,
- the continued helping of priority area coordinators in their coordination activity,
- participation in an implementation facility with the EIB, if requested by Baltic Member States,
- the development of a more ambitious communication strategy on the European Union Strategy for the Baltic Sea Region.

The continuation of the support to the technical assistance action should be used to:

- keep on helping priority area coordinators in their coordination activity,
- participate in an implementation facility with EIB, if requested by Baltic Member States,
- develop a more ambitious communication strategy on the European Union Strategy for the Baltic Sea Region.

Reflows and amounts left-over after the completion of an operation covered by a risk sharing instrument may be reused within the risk-sharing instrument if the Member State still meets the conditions set out in Article 77(2) of Regulation (EC) No 1083/2006. If the Member State no longer meets those conditions, reflows and amounts left-over shall be considered to be assigned revenue.

Any assigned revenue resulting from repayment of reflows or amounts left-over entered in Item 6 1 4 4 of the statement of revenue shall give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation. At the request of the Member State concerned, additional commitment appropriations generated by this assigned revenue shall be added the following year to the cohesion policy financial allocation of the Member State concerned.

Legal basis

Council Regulation (EC) No 1083/2006 of 11 July 2006 laying down general provisions on the European Regional Development Fund, the European Social Fund and the Cohesion Fund and repealing Regulation (EC) No 1260/1999 (OJ L 210, 31.7.2006, p. 25), and in particular Article 36a thereof.

New article

This appropriation is intended to cover ERDF support under the investment for growth and jobs goal in less developed regions in the 2014-2020 programming period. The catching up process for these economically and socially lagging regions requires long-term sustained efforts. This category of regions includes regions with a GDP per capita less than 75 % of the average GDP of the Union.

Legal basis

Remarks

New article

This appropriation is intended to cover ERDF support under the investment for growth and jobs goal in the 2014-2020 period in a new category of region — 'transition regions' — that replaces the 2007-2013 phasing-out and phasing-in system. This category of regions includes regions with a GDP per capita between 75 and 90 % of the average GDP of the Union.

Legal basis

Regulation (EU) No 1301/2013 of the European Parliament and of the Council of 17 December 2013 on the European Regional Development Fund and on specific provisions concerning the Investment for growth and jobs goal and repealing Regulation (EC) No 1080/2006 (OJ L 347, 20.12.2013, p. 289).

Remarks

New article

This appropriation is intended to cover ERDF support under the investment for growth and jobs goal in more developed regions in the 2014-2020 programming period. While interventions in the less developed regions will remain the priority for cohesion policy, this appropriation is thus intended to cover important challenges that concern all Member States such as global competition in the knowledge-based economy, the shift towards the low carbon economy and social polarisation exacerbated by the current economic climate. This category of regions includes regions with a GDP per capita above 90 % of the average GDP of the Union.

Legal basis

Regulation (EU) No 1301/2013 of the European Parliament and of the Council of 17 December 2013 on the European Regional Development Fund and on specific provisions concerning the Investment for growth and jobs goal and repealing Regulation (EC) No 1080/2006 (OJ L 347, 20.12.2013, p. 289).

Remarks

New article

This appropriation is intended to cover the specific additional ERDF support under the Investment for growth and jobs goal to outermost and sparsely populated regions in the 2014-2020 period. This additional funding is intended to take into account the specific challenges faced by the outermost regions identified by Article 349 of the Treaty on the Functioning of the European Union and the northern sparsely populated regions fulfilling the criteria laid down in Article 2 of Protocol No 6 to the Treaty of Accession of Austria, Finland and Sweden.

New article

This appropriation is intended to cover ERDF support under the European territorial cooperation goal in the 2014-2020 programming period. It shall finance cross-border cooperation between adjacent regions, transnational cooperation over larger transnational territories and interregional cooperation. It shall also include support for cooperation activities at the external borders of the Union, which is to be supported under the European Neighbourhood and Partnership Instrument and the Instrument for Pre-Accession Assistance.

Remarks

This appropriation is intended to support the preparatory, monitoring, administrative and technical assistance, evaluation, audit and control measures necessary for implementing Regulation (EU) No 1303/2013 as provided for in Articles 58 and 118 of that Regulation. In particular, it may be used to cover support expenditure (representation expenses, training, meetings, missions).

This appropriation is also intended to support inter alia the elaboration of:

- tools for electronic project application and reporting, unification and standardisation of documents and procedures for the management and implementation of operational programmes,
- a peer review of each of the Member States' financial management and quality performance,
- standard tender documentation on public procurement,
- a common system of results and impact indicators,

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

Union institutions support the drafting of a European strategy for the Atlantic area. A cross-cutting action plan with concrete priorities needs to be defined in order to implement this strategy from 2014 onwards. Atlantic stakeholders should be involved in the drafting of this action plan.

The action plan should be closely linked to regional policy and the Integrated Maritime Policy, and should also facilitate synergies with other Union policy areas such as trans-European transport networks, the common fisheries policy, climate and environment actions, the research and development framework programme, and energy policy, etc.

The preparatory action finances a stakeholder dialogue platform, called the Atlantic Forum, to define the priority projects and governance of the Atlantic Strategy.

Funding for the preparatory action serves to:

- put in place the Atlantic Forum, encouraging key stakeholders to work together within workshops and ensuring adequate publicity and broad participation,
- engage forum members in a process leading to the adoption of the cross-cutting action plan for the Atlantic Strategy in accordance with the needs of the regions concerned and a clear focus on sustainable growth in Atlantic coastal regions and maritime sectors,
- support the technical work necessary to identify, and test the feasibility of, concrete priority actions to be included in the action plan.

A subcontractor assists stakeholders in drafting the action plan. The subcontractor is in charge of implementing the preparatory action and works under the supervision of the Commission.

The preparatory action has financed a platform for stakeholder dialogue (the Atlantic Forum), with a view to defining the priority projects and governance of the Atlantic Strategy.

After adoption of the action plan at the end of 2012, the Forum sought to prepare stakeholders to implement that plan. It was therefore necessary to extend the preparatory action until 2013.

The preparatory action funding serves to:

- put in place the Atlantic Forum by encouraging key stakeholders to work together within workshops, and by ensuring adequate publicity and broad participation,
- engage Forum members in a process leading towards the adoption of the transversal action plan, to be provided for by the Atlantic Strategy, in accordance with the needs of the regions and a clear focus on sustainable growth in the coastal regions and the maritime sectors in the Atlantic,
- support the technical work necessary to identify and test the feasibility of concrete priority actions to be included in the action plan,
- prepare stakeholders to implement the action plan.

TITLE 13 — REGIONAL AND URBAN POLICY

CHAPTER 13 03 — EUROPEAN REGIONAL DEVELOPMENT FUND AND OTHER REGIONAL OPERATIONS (*cont'd*)13 03 77 (*cont'd*)13 03 77 10 (*cont'd*)

The plan to change Mayotte's status from overseas country or territory to outermost region is the first of its kind for the Union. The process of making this status change has been simplified by the entry into force of the Treaty on the Functioning of the European Union, Article 355(6) of which provides for a unanimous vote on the matter in the European Council. The French Government is currently drawing up an application for Mayotte to be granted outermost region status from 2014. This places Mayotte in a similar situation to that of pre-accession countries, which are required to carry out essential structural reforms in connection with which the Union provides various types of support intended to facilitate the transposition of the *acquis* and the implementation of Union policies. As a result of the change of status, the local authorities in Mayotte will be required to handle new types of Union funding involving different amounts and different procedures from those applying under the European Development Fund (EDF), their current source of funding. This preparatory action will focus primarily on technical assistance measures for the training of Mayotte administrative staff that will be responsible for drawing up, managing, following up and monitoring future operational programmes. As a territory of a Member State, Mayotte is not entitled to pre-accession instrument funding; at the same time, given that it is not yet a region as referred to in the general provisions on the Structural Funds, it is not entitled to technical assistance either.

The aim of the preparatory action is to provide the department of Mayotte with support with its changeover to the status of outermost region.

A number of measures are needed:

- the training of local staff who will be responsible for drawing up, managing, following up and monitoring future operational programmes,
- carrying out of studies prior to drawing up future operational programmes, plus *ex-ante* evaluation so as to produce an analysis of the area and provide support for local actors in order to lay down a regional strategy and programme priorities,
- organising of general information meetings for elected representatives, local actors and officials on the consequences of the changeover to outermost-region status, and institutional notification arrangements concerning the launch of programmes,
- setting up of a Europe unit within Mayotte's economic and regional affairs secretariat for information gathering and circulation to public partners, for setting up and implementing operational programmes and for informing and supporting project promoters.

This preparatory action may apply to any other territory in a similar position.

Remarks

Former Article 13 03 34

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The objective of this preparatory action is to provide help and support for local and regional councils in the Union.

The first principle of the preparatory action is to encourage and support the mobility of both elected local and regional representatives within the Union. The second principle of the preparatory action is that the mobility element is included in an agreed programme of on-the-spot training and sharing of experience with focus on 'economic and social cohesion'.

Goals are:

- to encourage multilateral cooperation between territorial and local and regional institutions on a political level,
- to support the mobility of elected local and regional representatives,
- to stimulate common research and exchange of ideas on the problems they encounter on a regular basis by means of on-the-spot training and the sharing of experience,
- to promote the exchange of best practices.

The preparatory action is thus a tool to enhance the learning and experience of elected local and regional representatives, and to increase the capacity of local and regional councils in regard to the application of concepts, democratic principles and strategies.

CHAPTER 13 03 — EUROPEAN REGIONAL DEVELOPMENT FUND AND OTHER REGIONAL OPERATIONS *(cont'd)*13 03 77 *(cont'd)*13 03 77 12 *(cont'd)*

The objective of the preparatory action is to organise or develop:

- training programmes, seminars for young people with the aim of emphasising the common regional identity of the nations living in the Danube macro-region; the programmes should stress civic education and opportunities for cultural exchanges which will contribute to a progressive, sustainable European future-oriented dimension of coexistence by addressing the questions of understanding each other's regional presence, togetherness and the need for cooperation; and by providing scope for dialogues and reconciliation,
- the improvement and development of new solutions for handling expertise by means of accessible common platforms and project information as well as building networks.

The preparatory action will promote social and economic stability in the regions concerned, including actions to develop cohesion between communities by means of opening space for familiarising with, and giving due acknowledgement to, each other's cultures and histories and will also highlight the added value of transnational cooperation. This should create a sustainable basis for a common platform giving access to regional expertise and increasing regional cooperation and should in addition allow lessons to be drawn from the experience of a macro-region strategy. The eligible area shall be the Danube macro-region and the surrounding countries in line with the European Neighbourhood Policy. The organisation of programmes should involve non-governmental organisations, civil society organisations, in order to ensure that reconciliation efforts go also beyond the governmental sphere. The programmes eligible for funds shall involve participants from at least three Member States from the region.

Remarks

This project is centred on the provision of support to enhance the value of two key EU funding sources for research, development and innovation (The European Structural and Investment Funds and Horizon 2020) by actively promoting their combination. The project would have two main objectives, namely:

The provision of assistance to new Member States in closing the innovation gap, in order to promote excellence in all regions and Member States of the European Union;

Stimulating the early and effective implementation of national and regional Smart Specialisation Strategies

COMMISSION

13 03 77 (cont'd)

13 03 77 13 (cont'd)

Scope of the project:

Building excellence in a given area of research and innovation often takes years if not decades of sustained efforts. The development of good national/regional research and innovation strategies for smart specialisation (RIS3) is considered essential for sustaining efforts at regional/national level over time. Therefore, the support by the Smart Specialisation Platform established jointly by DGs JRC and REGIO (costing approx. 1.6 M euro per year) to Member States and regions to design and upgrade their RIS3 is essential. This will allow regions/MS from new MS to identify a limited number of areas of good quality research and industrial activities with high innovation potential in their territory that will be further reinforced and developed using European Structural and Investment Funds (ESIF) to become more excellent and become more competitive in H2020 calls. This will also increase the absorption capacity of New Member States of results generated by leading research and innovation actors in other (often old) Member States in the context of past Framework Programme projects. As a result good RIS3 which are implemented properly will increase the absorption capacity of New Member States of the very large resources to be allocated to innovation by the ESIF.

With the resources of the EP pilot project to the Commission, the JRC will sign a new administrative agreement with DG REGIO, to launch a new activity within the Smart Specialisation Platform (S3P) in order to support New Member States and regions to develop and exploit the synergies between H2020 and ESIF, building on and exploiting the synergies with the S3P.

North Sea Region as an engine for growth

The North Sea Region has the potential to act as an engine for growth in Europe, add value to the European Union and contribute to the objectives of the EU2020 strategy.

Whereas the EU has developed a regional strategy for the Baltic Sea area and work has begun on developing strategies for the Atlantic and Arctic regions, such a process has not yet started for the North Sea Region. A regional strategy for the North Sea Region is the missing link between the macro regional areas in the north-east and north-west of Europe.

The aim of this preparatory action is to analyse the region's growth potential and use the findings to investigate the added value of having a future shared macro regional strategy for the North Sea area, given the fact that a strong North Sea Region has the potential to act as an engine for growth in Europe and contribute to the objectives of the EU2020 strategy.

CHAPTER 13 03 — EUROPEAN REGIONAL DEVELOPMENT FUND AND OTHER REGIONAL OPERATIONS (*cont'd*)13 03 77 (*cont'd*)13 03 77 14 (*cont'd*)*North Sea Region 2020 strategy paper*

The North Sea Commission General Assembly has developed the North Sea Region 2020 strategy paper in consultation with members and stakeholders in the North Sea Region. The strategy paper regards the North Sea Region as a territorial cooperation area, and its strategic focus is on the major challenges and common characteristics where transnational action and collaborative working is considered to give added value.

The strategy paper identifies five strategic priorities that are closely linked to the EU2020 objectives and contributes to the implementation of several (if not all) of the EU2020 flagship initiatives:

- Managing maritime space
- Increasing accessibility and clean transport
- Tackling climate change
- Attractive and sustainable communities
- Promoting innovation and excellence

The North Sea region strategy paper is a first step towards analysing the challenges and opportunities for the North Sea area and exploring the potential for regional growth in support of the EU2020 strategy.

North Sea Region Preparatory Action

To fully explore the regional growth potential in support of the EU2020 strategy and lay the grounds for a strong macro region, there is a need to carry out more in-depth analysis of the five strategic priorities identified in North Sea Region 2020 strategy paper and their added value in a European community context.

Activities

The preparatory action will finance a number of well coordinated initiatives over a three year period (2014-2017) and focus on:

- In-depth analyses/studies of the five priorities identified in the North Sea Region 2020 paper
- Stakeholder conferences to address the issues of commitment, cooperation and content
- Follow-up dialogue with all stakeholders, including EU Commission, Member States, and regional authorities

The activities should be closely linked to the EU regional policy and should also facilitate synergies with other Union policy areas and programmes.

Output

The final output will be an in-depth analysis of the North Sea macro region's growth potential, including possible intervention areas, and a white book to the EU and member States about the added value of a shared regional strategy and cooperation for the North Sea Region.

Implementation

The appropriations for this preparatory action could be inserted in the EU budget under title 13 'Regional policy', given the regional nature of the intended activities. DG REGIO should be responsible for implementing the preparatory action in cooperation with the North Sea Commission.

Remarks

The international dimension of EU regional and urban policy gains on importance over the last years. Memoranda of Understanding on regional cooperation has been signed with China, Russia, Brazil and Ukraine; further cooperation has been developed with Moldova, Georgia, Chile, Argentina, Peru, South Africa, Uruguay and Japan. The dialogue in the field of regional and urban policy, being one of the components of the Union's diplomatic relations with third countries, requires further support. Moreover, the cooperation with third countries should focus on certain issues in relation to the reform of cohesion policy, namely its enhanced urban dimension.

The aim of the preparatory action is to promote the exchange of experience and best practice between the European Union and third countries on the theme of territorial development with particular reference to urban development, urban-rural partnership and urban cross-border cooperation.

The scope of this preparatory action should include:

- organisation of study visits for urban policy actors,
- organisation of seminars and workshops aiming at exchange of experience between EU and third countries in relation to urban development, urban-rural partnership and urban cross-border cooperation,
- illustrating innovative good practice examples of cooperation between European Union and third countries cities and towns in different thematic areas,
- development and implementation of an internet based tool kit enabling European Union cities and towns to look for a partner for cooperation in third countries in relation to selected topics.

TITLE 13 — REGIONAL AND URBAN POLICY

CHAPTER 13 03 — EUROPEAN REGIONAL DEVELOPMENT FUND AND OTHER REGIONAL OPERATIONS (*cont'd*)13 03 77 (*cont'd*)13 03 77 16 (*cont'd*)*Rationale*

Given that an important preparatory work has been already carried out by the Commission to incite Greece and its Regions to start designing an adequate Regional Innovation Smart Specialisation Strategy, the challenge still remains in development and implementation. Exchange of best practices is not sufficient to build competitive advantage by developing and matching research and innovation strengths with business needs of a particular territory. Therefore it is very important to strengthen current efforts by direct, professional and tailor made assistance to a Greek region heavily hit by the crisis.

Current fragmentation and lack of coordination efforts between central and regional governments does not guarantee that a proper entrepreneurial discovery process will be carried out in Greek regions. Therefore it is crucial to set up a sound and inclusive governance structure with relevant experience and human resources to plan and implement R & D and Innovation measures in one of Greek regions as an example. To facilitate and accelerate the development process, an exchange of expertise with a specialist on economic geography and change processes from other European regions should assist one of the Greek regions in the entrepreneurial discovery process. This help would also lower the burden on human resources of the Greek Authorities who need to build expertise. This expertise needs to be created with the help of best practice exchange on administration and regional economic development with a strong involvement of competent and experienced European specialists in the field of regional economic transformation based on knowledge.

Scope

The aim of this preparatory action is to capture the economic potential in a selected region, and secondly, to explore the possibilities of its innovation potential and its expansion. The Region proposed is one of the poorest in Greece and in the European Union, the Region of Easter Macedonia and Thrace. The Region of Easter Macedonia and Thrace is a Convergence Region strongly hit by the crisis and the fierce competition of low labour cost neighbouring countries. Despite the presence of a University and a Technological Institute and other Research bodies in the Region, the links of the R & D & I activities with the needs of the local entrepreneurs are almost non-existent. The preparatory action should show the example that growth based on innovation and export orientation of the local productive forces is feasible.

This should serve as a growth paradigm for other regions of convergence in Greece and in Europe.

The funding available from the European Union should support development and implementation of the regional smart specialisation strategy, concentrating in particular on:

- 1) Creating and/or strengthening the links between the Regional outward looking Industry/Manufacturing with the Greek regional R & D & I bodies (preferably within the same Region but outside the Region as well),
- 2) Supporting Greek regional institutional R & D & I bodies creating/strengthening links with the Regional outward oriented companies in providing concrete solutions to the technological needs of the exporting companies of the Region,
- 3) Stopping the brain drain by fully exploiting available technological equipment in the Technological Institute of the Region and the use of such equipment by local specialised personnel to provide technological solutions for the selected exporting companies and by creating a pool of highly qualified locals in business, trade and exports to assist and advise potential foreign investors,
- 4) Encouraging cooperation between the Managing Authority of the Regional Programme and geographic economists of the Region and other geographic economists successfully implementing a RIS3 policy in a given Region in another European Member State, e.g. Germany.

Duration — Form of assistance

The duration of this preparatory scheme should not exceed one year from its launching and should not exceed the initially allocated funding either.

Proposal for preparatory action in the Region of Eastern Macedonia — Thrace

Considering the actions undertaken so far in the Region of Eastern Macedonia — Thrace (R-AMTH) on the 'smart specialisation strategy' the launching of pilot action is recommended to help shaping better the smart specialisation strategy of the Region, in particular, the selection of the priorities on which financing should concentrate. Hence, the following preparatory scheme is proposed:

- activation of an Industrial Research and Technology development program directed to the needs of activities identified in the entrepreneurial discovery process. Up to now RIS3 — Regional Assessment: Eastern Macedonia — Thrace indicated some sectors where the region could have a competitive advantage like: geothermal energy, agriculture, livestock, fisheries and biotechnology, extraction and processing of marble and ICTs and automation,
- strengthening of cooperation and networking between Researchers and Research Institutions of the R-AMTH with the productive forces of the Region. Research bodies should demonstrate (e.g. under memoranda of understanding) their contribution to developing solutions for existing and potential users' needs for exploiting the results of tailor made research and development projects (focusing on the Industrial Research and experimental development),
- stopping brain drain by (a) enabling a mobility research training program and optimise use of the research equipment of TEI Kavala and (b) creating a pool of highly qualified locals in business, trade and exports to assist and advise potential foreign investors,
- supporting the cooperation, the exchange of best practices and twining of the Managing Authority of the Regional Operational Programme and geographic economists for Eastern Macedonia and Thrace with a Managing Authority as well as geographic economists successfully implementing a RIS3 policy in a given Region in another European Member State.

Monitoring and evaluation

This one year preparatory scheme will be monitored by the Managing Authority of the Regional Programme for Eastern Macedonia and Thrace. A limited number of specific output and result indicators should be set before the start of the preparatory scheme, measuring at least growth of turnover, growth of exports and jobs safeguarded and created.

A short evaluation study should be commissioned at the end of the preparatory scheme.

The results of the preparatory scheme should be presented in the Region, in Athens in a special seminar to be organised by the European Parliament Representation in Athens and in the European Parliament in Brussels.

Implementation of the preparatory action

In order to maximise the synergies between the project and the work currently being done by the Joint Research Centre on smart specialisation in European regions, the Commission would possibly implement the project through the Joint Research Centre, with the support of DG REGIO.

Legal basis

Article 177, second paragraph, of the Treaty on the Functioning of the European Union provides that a Cohesion Fund is to be set up to support projects in the fields of the environment and trans-European networks in the area of transport infrastructure.

Article H of Annex II to Council Regulation (EC), No 1164/94 of 16 May 1994, establishing a cohesion Fund, Articles 100 and 102 of Council Regulation (EC) No 1083/2006 of 11 July 2006 laying down general provisions on the European Regional Development Fund, the European Social Fund and the Cohesion Fund, and Articles 85, 144 and 145 of Regulation (EU) No 1303/2013 on criteria for financial corrections by the Commission provide for specific rules on financial corrections applicable to the Cohesion Fund.

Article 80 of the Financial Regulation provides for financial corrections in the event of expenditure incurred in breach of applicable law. Any revenue from the financial corrections carried out on that basis is entered in Item 6 5 0 0 of the statement of revenue and constitutes assigned revenue in accordance with Article 21(3)(c) of the Financial Regulation.

Article 177 of the Financial Regulation lays down the conditions for the repayment in full, or in part, of pre-financing payments in respect of a given operation.

Article 82 of Regulation (EC) No 1083/2006 provides for specific rules on repayment of pre-financing applicable to the Cohesion Fund.

Pre-financing amounts repaid shall constitute internal assigned revenue in accordance with Article 21(4) of the Financial Regulation and shall be entered in Item 6 1 5 0 or 6 1 5 7.

Remarks

This appropriation is intended to cover commitments to be settled for the Cohesion Fund from the 2007-2013 programming period.

This appropriation is also intended to cover commitments remaining to be settled from the preparatory, monitoring, administrative and technical support, evaluation, audit and inspection measures necessary for implementing Regulation (EC) No 1083/2006, as provided for in Article 45 of that Regulation. In particular, it may be used to cover:

- support expenditure (representation expenses, training, meetings),
- information and publishing expenditure,
- expenditure on information technology and telecommunications,
- contract for the provision of services and studies,
- grants.

This appropriation is also intended to cover commitments remaining to be settled for measures approved by the Commission in the context of the preparation of the 2014-2020 programming period.

In accordance with Article 105a(1) of Regulation (EC) No 1083/2006 as modified by point 7 of Annex III to the Treaty concerning the Accession of the Republic of Croatia to the European Union (OJ L 112, 24.4.2012), programmes and major projects which, on the date of accession of Croatia, have been approved under Regulation (EC) No 1085/2006 and the implementation of which has not been completed by that date, shall be considered to have been approved by the Commission under Regulation (EC) No 1083/2006, with the exception of the programmes approved under the components referred to in points (a) and (e) of Article 3(1) of Regulation (EC) No 1085/2006.

Legal basis

13 04 03 (cont'd)

Reflows and amounts left-over after the completion of an operation covered by a risk sharing instrument may be reused within the risk-sharing instrument if the Member State still meets the conditions set out in Article 77(2) of Regulation (EC) No 1083/2006. If the Member State no longer meets those conditions, reflows and amounts left-over shall be considered to be assigned revenue.

Any assigned revenue resulting from repayment of reflows or amounts left-over entered in Item 6 1 4 4 of the statement of revenue shall give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation. At the request of the Member State concerned, additional commitment appropriations generated by this assigned revenue shall be added the following year to the cohesion policy financial allocation of the Member State concerned.

Legal basis

Council Regulation (EC) No 1083/2006 of 11 July 2006 laying down general provisions on the European Regional Development Fund, the European Social Fund and the Cohesion Fund and repealing Regulation (EC) No 1260/1999 (OJ L 210, 31.7.2006, p. 25), and in particular Article 36a thereof.

Regulation (EU) No 423/2012 of the European Parliament and of the Council of 22 May 2012, amending Council Regulation (EC) No 1083/2006 as regards certain provisions relating to risk-sharing instruments for Member States experiencing or threatened with serious difficulties with respect to their financial stability (OJ L 133, 23.5.2012, p. 1).

Remarks

New article

This appropriation is intended to cover Cohesion Fund support under the Investment for growth and jobs goal in the 2014-2020 programming period. The Cohesion Fund will continue to support Member States with gross national income (GNI) per capita of less than 90 % of the Union average. The appropriation, while ensuring an appropriate balance and according to the investment and infrastructure needs specific to each Member State, is intended to support:

- investments in the environment, including areas related to sustainable development and energy which present environmental benefits,
- trans-European networks in the area of transport infrastructure, in compliance with the guidelines adopted by Decision No 661/2010/EU.

Legal basis

Regulation (EU) No 1300/2013 of the European Parliament and of the Council of 17 December 2013 on the Cohesion Fund and repealing Council Regulation (EC) No 1084/2006 (OJ L 347, 20.12.2013, p. 281).

Regulation (EU) No 1303/2013 of the European Parliament and of the Council of 17 December 2013 laying down common provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund, the European Agricultural Fund for Rural Development and the European Maritime and Fisheries Fund and laying down general provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund and the European Maritime and Fisheries Fund and repealing Council Regulation (EC) No 1083/2006 (OJ L 347, 20.12.2013, p. 320).

Remarks

This appropriation is intended to support the preparatory, monitoring, administrative and technical assistance, evaluation, audit and control measures necessary for implementing the Regulation (EU) No 1303/2013 as provided for in Articles 58 and 118 of that Regulation. In particular, it may be used to cover support expenditure (representation expenses, training, meetings, missions).

This appropriation is also intended to support inter alia the elaboration of:

- tools for electronic project application and reporting, unification and standardisation of documents and procedures for the management and implementation of operational programmes,
- a peer review of each of the Member States' financial management and quality performance,
- standard tender documentation on public procurement,
- a common system of results and impact indicators,
- a best practices manual to optimise the absorption process and decrease the error rate.

New item

Under the Instrument for Pre-accession Assistance (IPA II), this appropriation will address the following specific objectives in the Western Balkans:

- support for political reforms,
- strengthening the ability of beneficiary countries to fulfil the obligations stemming from membership by supporting progressive alignment with and adoption, implementation and enforcement of the Union *acquis*, structural, cohesion, agricultural and rural development funds and policies of the Union.

Part of this appropriation will be used for measures to help the beneficiary countries meet the requirements stemming from visa-free travel to and from the Schengen countries, or, in the case of Kosovo, measures to speed up the visa liberalisation process.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Remarks

This article is intended to record appropriations resulting from the mobilisation of the European Union Solidarity Fund in the event of major disasters in the Member States. Assistance should be provided mainly in connection with natural disasters, but may also be provided, where warranted by the urgency of the situation, to the Member States concerned, with a deadline being laid down for use of the financial assistance awarded and provision being made for beneficiary states to substantiate the use made of the assistance they receive. Assistance received which is subsequently offset by third-party payments, under the 'polluter pays' principle, for example, or received in excess of the final valuation of damage should be recovered.

Allocation of the appropriations will be decided on in an amending budget with the sole purpose of mobilising the European Union Solidarity Fund.

New article

This appropriation is intended to cover expenditure on the implementation of the Customs 2020 programme, and in particular the financing of joint actions, IT capacity building and human competency building.

It covers in particular:

- the cost of the acquisition, development, maintenance, operation and quality control of Union components of European Information Systems. The Union components of the European Information Systems are: (1) IT assets such as the hardware, the software and the network connections of the systems including the associated data infrastructure; (2) IT services necessary to support the development, maintenance, improvement and operation of the systems; (3) and any other elements which, for reasons of efficiency, security and rationalisation, are identified by the Commission as common to participating countries,
- expenses related to seminars, workshops, project groups, working visits, monitoring activities, expert teams, administration capacity building and supporting actions, studies, and communication projects,
- the costs related to implementation of provisions for common training actions,
- expenses pertaining to preparatory, monitoring, control, audit and evaluation activities, required for the management of the programme and the achievement of its objectives,
- the costs of any other activity in support of the objectives and activity areas of the programme.

This appropriation is intended to cover expenses pertaining to preparatory, monitoring, control, audit and evaluation activities which are required for the management of the programme and the achievement of its objectives; in particular, studies, meetings of experts, information and communication actions, including corporate communication of the political priorities of the Union as far as they are related to the general objectives of this item, expenses linked to IT focusing on information processing and exchange, together with all other technical and administrative assistance expenses incurred by the Commission for the management of the Programme.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contribution from the Swiss Confederation for participating in Union programmes entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Remarks

This appropriation is intended to cover the costs of in-service traineeships for graduates. This traineeship is designed to provide them with an overview of the objectives set and the challenges faced by the Union, an insight into how its institutions work and an opportunity to enhance their knowledge through work experience at the Commission.

This appropriation covers the payment of grants and other related costs (supplement for persons with disabilities, accident and sickness insurance, contribution to travelling costs linked to the traineeship, at the beginning and at the end of the traineeship, costs of events organised in the framework of the traineeship programme, e.g. visits, hosting and reception costs). It also covers the costs of evaluation in order to optimise the programme and communication and information campaigns.

The selection of trainees is based on objective and transparent criteria.

The amount of related assigned revenue pursuant to Article 21(2) to (3) of the Financial Regulation is estimated at EUR 985 000.

New item

In line with the general objective in particular the objectives of the ET 2020 strategic framework for European cooperation in education and training, as well as in support of the sustainable development of third countries in the field of higher education, this appropriation is intended to pursue the following specific objectives in the field of education and training:

- to improve the level of key competences and skills with particular regard to their relevance for the labour market and contribution to a cohesive society, notably through increased opportunities for learning mobility and strengthened cooperation between the world of education and training and the world of work,
- to foster quality improvements, innovation excellence and internationalisation at the level of education and training notably through enhanced transnational cooperation between education and training providers and other stakeholders,
- to promote the emergence and raise awareness of a European lifelong learning area, to complement policy reforms at national level and to support the modernisation of education and training systems, notably through enhanced policy cooperation, better use of Union transparency and recognition tools and the dissemination of good practices,
- to enhance the international dimension of education and training, notably through cooperation between Union and third country institutions in the field of vocational education and training (VET) and in higher education, by increasing the attractiveness of the European higher education institutions and supporting the Union's external action, including its development objectives through the promotion of mobility and cooperation between the Union and third country higher education institutions and targeted capacity building in third countries,
- to improve the teaching and learning of languages and to promote the Union's broad linguistic diversity and intercultural awareness, including minority and endangered languages, for example by supporting projects and networks providing educational materials, teachers training, use of endangered language as educational media, language regeneration and exchange of best practices, etc.

Part of these appropriations are intended to be used for operations carried out by senior volunteer experts of the Confederation of European Senior Expert Services (CESES) and its member associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. For that to be achieved, Union authorising officers are encouraged to make full use of the possibilities offered by the new financial regulation, notably taking into account in-kind financing by CESES as contribution to Union projects.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

*Remarks**New item*

In line with the general objective, this appropriation is intended to pursue the following specific objectives in the area of youth:

- to improve the level of key competences and skills of young people, including those with fewer opportunities, as well as to promote participation in democratic life in Europe and the labour market, active citizenship, intercultural dialogue, social inclusion and solidarity, notably through increased learning mobility opportunities for young people, those active in youth work or youth organisations and youth leaders, and through strengthened links between the youth field and the labour market,
- to foster quality improvements in youth work, notably through enhanced cooperation between organisations in the youth field and/or other stakeholders,
- to complement policy reforms at local, regional and national level and to support the development of knowledge and evidence-based youth policy as well as the recognition of non-formal and informal learning, notably through enhanced policy cooperation, better use of Union transparency and recognition tools and the dissemination of good practices,
- to enhance the international dimension of youth activities and the role of youth workers and organisations as support structures for young people in complementarity with the Union's external action, notably through the promotion of mobility and cooperation between the Union and third country stakeholders and international organisations and through targeted capacity building in third countries.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. In line with the general objective, this appropriation is intended to cover support of the implementation of Union policies in areas that correspond to the Chapter's specific objectives (Article 11) and activities (Article 12).

The Sport Chapter of the 'Erasmus+' programme pursues the following specific objectives in the area of sport:

- to tackle transnational threats to sport such as doping, match fixing, violence, racism and intolerance,
- to support good governance in sport and dual careers of athletes,
- to promote social inclusion, equal opportunities and health-enhancing physical activity through increased participation in sport.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

This appropriation is intended to cover completion costs of measures supported as special annual sport events.

Special Annual Event: The European MOVE Week

Commitments: EUR 1 000 000; Payments: EUR 1 000 000.

The European MOVE Week is a European-wide flagship event promoting grassroots sport and physical activity and their positive impact on European citizens and societies.

As part of the vision to get 100 million more Europeans to be active in sport and physical activity by 2020, the MOVE Week 2014 is a bottom-up approach, involving local communities, sports clubs, schools, workplaces and cities in a large-scale celebration of sport and physical activity. It is an integrated part of the European NowWeMove campaign and thus a sustainable contribution to more physically active and healthy European citizens.

MOVE Week 2014 will feature a minimum of 300 events from all 28 Member states and a minimum of 150 cities, introducing new sport and physical activity initiatives and highlighting the myriad of successful existing actions.

Special Annual Event: European Special Olympics Summer Games in Antwerp, Belgium 2014

Commitments: EUR 2 000 000; Payments: EUR 2 000 000.

This appropriation is intended to cover costs of measures supported as special annual events. The amount of EUR 2 000 000 is allocated to co-finance the multiannual event of The European Special Olympics Summer Games in Antwerp, Belgium (13 to 20 September 2014). This funding will also allow participating athletes from all 28 Member states to train, to prepare and to attend the games in Belgium.

This event will see 2 000 athletes and their delegations from 58 countries competing over 10 days. More than 4 000 volunteers will help to make this multi-sport event unique. Along with the Sports Programme, other scientific, educational and family programmes will be set up. 30 Belgian cities will host the athletes and Antwerp will host the event. Many special events will be organised before, during, and after the Games.

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

It is intended to cover the costs of studies for persons coming from the ENP countries and those specialising in the European Neighbourhood Policy (ENP) and for related academic activities including the sustainable functioning of the ENP Chair in the College of Europe, Natolin campus and other educational modules

The recently revised European Neighbourhood Policy, in the light of the Arab Spring, as projected by the Commission, the Council and the European Parliament in their respective decisions and resolutions, and in view of the Union for the Mediterranean and the Eastern Partnership, both of which relate directly to the Southern and Eastern Neighbourhood respectively, requires preparing, on a regular basis future European and neighbouring countries interlocutors, i.e. personnel for EU-ENP-related jobs. They should be fully and professionally acquainted on regular basis with the substance and spirit of Union policies, Union law and Union institutions and the *acquis communautaire*, and thus the ENP. This necessitates a focused and sophisticated offer, which can be delivered only by a highly recognised academic institution already specialising in this field that is the College of Europe. The two campuses of the College of Europe — one in Bruges, Belgium, close to the Brussels institutions and expertise, the other in Natolin/Warsaw, Poland, specialising in neighbourhood and border policies (with the Frontex agency being based in Warsaw) in the framework of the ENP Chair, already established thanks to the Union funding, are best-placed to offer tailor-made programs and other educational modules in this regard.

In a view of the accumulated and positive experience of this preparatory action the European Commission should guarantee that under new Multiannual Financial Framework this budgetary line with its own specific aims will continue in a sustainable way.

CHAPTER 15 02 — ERASMUS+ (*cont'd*)15 02 77 (*cont'd*)15 02 77 08 (*cont'd*)

This preparatory action will prepare for a programme in the field of sport for the period after 2013. It will test the feasibility and usefulness of existing ideas and concepts, with a view to creating a European dimension in sport.

The objective of this preparatory action is to test European partnerships, networks and the exchange of good practices. It will, in particular, focus on the following:

- fairness in sport competitions by supporting measures that prevent phenomena such as match-fixing,
- the physical and moral integrity of sportsmen and sportswomen, and training conditions for minors,
- the role of sport as an health-enhancing physical activity, in particular for elderly people,
- awareness-raising for the protection of the health of young athletes through monitoring and medical check-ups,
- mobility in sport, namely of volunteers, coaches and staff of non-profit sport organisations,
- awareness-raising activities as regards the social and educational function of sport,
- cross-border joint sport competitions in neighbouring regions and Member States,
- raising awareness of, and gathering of information on, 'indigenous sports' that form part of the shared cultural heritage in Europe,
- social inclusion and projects that support the local community; a sport organisation can prove its added value also outside sports-related issues.

In all of these areas, local needs with regard to population and age structure, inclusion, integration, accessibility, social isolation, fitness and health must be taken into consideration.

Part of this appropriation should support the European Capital of Sport initiative, set up by ACES Europe (Association of European Capitals and Cities of Sport), namely with a view of improving the governance of the organisation, especially the selection and award procedures, enlarging the geographical coverage and raising the profile of this initiative.

Remarks

This preparatory action will develop an e-platform for ENP countries' administrations, local authorities, academic centres and civil society, allowing for flexible yet targeted exchange of know-how and knowledge in Union affairs and *acquis communautaire*.

The E-Platform for Neighbourhood will foster exchanges tailored to the profiles, requirements and limitations of the participants in the ENP countries, based on a rigorous pre-implementation, development and testing stages. E-Platform will use innovative, Internet-based and interactive solutions, building on experience acquired by Central and Eastern Europe (CEE) countries during times of democratic transition. It will be complemented with a number of face-to-face communications, fostering contact between ENP nationals and academic centres and administrations in the Union, allowing for feedback and network-building to ensure capacity-building objectives are being achieved. The e-platform will allow for the involvement of top experts, provision of high quality content, active communication methods and the building of communities of practice.

The preparatory action will be implemented by the College of Europe (Natolin Campus) which possesses unique knowledge about processes of democratic transition and structural transformations towards the Union as well as extensive experience in ENP issues, which is important for the preparatory action's success. In particular, Natolin is the seat of the Union-funded ENP Chair whose academic staff can support the implementation of the E-Platform for Neighbourhood.

This appropriation will be used for Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020) of the European Union.

COMMISSION
TITLE 15 — EDUCATION AND CULTURECHAPTER 15 03 — HORIZON 2020 (*cont'd*)

The Programme shall play a central role in the implementation of the Europe 2020 flagship initiative 'Innovation Union' and other flagship initiatives, notably 'Resource efficient Europe', 'An industrial policy for the globalisation era', and 'A digital agenda for Europe', as well as in the development and functioning of the European Research Area (ERA). Horizon 2020 shall contribute to building an economy based on knowledge and innovation across the whole Union by leveraging sufficient additional research, development and innovation funding.

It will be carried out in order to pursue the general objectives set out in Article 179 of the Treaty on the Functioning of the European Union, in order to contribute to the creation of a society of knowledge, based on the European Research Area, i.e. supporting transnational cooperation at all levels throughout the Union, taking the dynamism, creativity and the excellence of European research to the limits of knowledge, strengthening human resources for research and for technology in Europe, quantitatively and qualitatively and research and innovation capacities in the whole of Europe and ensuring optimum use thereof.

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Union to investigate new areas of research suitable for Union action, inter alia, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

This appropriation will be used in accordance with Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for participation and dissemination in 'Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020)' and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this chapter. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The possibility of third countries or institutes from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution entered in Items 6 0 1 3 and 6 0 1 5 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from States taking part in the European cooperation in the field of scientific and technical research entered in Item 6 0 1 6 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contributions by outside bodies to Union activities entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Additional appropriations will be provided under Item 15 03 50 01.

Administrative appropriations of this chapter will be provided under Article 15 01 05.

CHAPTER 15 03 — HORIZON 2020 (*cont'd*)15 03 01 *Excellent science**Remarks*

This priority of Horizon 2020 aims to reinforce and extend the excellence in the Union's science base and ensure a steady stream of world-class research to secure Europe's long-term competitiveness. It will support the best ideas, develop talent within Europe, provide researchers with access to priority research infrastructure, and make Europe an attractive location for the world's best researchers. Research actions to be funded will be determined according to the need and opportunities of science, without pre-determined thematic priorities. The research agenda will be set in close liaison with the scientific community and research will be funded on the basis of excellence.

*Remarks**New item*

Europe needs a strong and creative human resource base, mobile across countries and sectors, and has to be attractive for the best researchers, European and non-European. This will be achieved by structuring and raising excellence in a substantial share of the high-quality initial training of early stage researchers and doctoral candidates and by supporting attractive career opportunities for experienced researchers in both public and private sectors worldwide. Researchers are encouraged to move between countries, sectors and disciplines to enhance their creative and innovative potential.

This appropriation is intended to cover staff and administrative expenditure, and operational expenditure relating to the work programme of the European Institute of Innovation and Technology (EIT), including the knowledge and innovation communities (KIC) designated by the EIT.

The EIT must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure. The Commission, if requested by the EIT, undertakes to notify the budgetary authority of transfers made between operational and administrative appropriations.

COMMISSION
TITLE 15 — EDUCATION AND CULTURECHAPTER 15 03 — HORIZON 2020 (*cont'd*)15 03 05 (*cont'd*)

In the framework of the EIT's Strategic Innovation Agenda (SIA) and Regulation (EU) No 1292/2013 of the European Parliament and of the Council of 11 December 2013 amending Regulation (EC) No 294/2008 establishing the European Institute of Innovation and Technology (OJ L 347, 20.12.2013, p. 174), the EIT will contribute to the general objective and priorities of 'Horizon 2020 — The Framework Programme for Research and Innovation', with the specific objective of integrating the knowledge triangle of higher education, research and innovation. The EIT aims to give Europe's innovation capacity a much needed boost and its overall goal is to create a new European way of delivering essential economic growth and societal benefits through innovation by helping transform innovative ideas into products and services that create sustainable growth and jobs.

Knowledge and innovation communities are the operational base of the EIT. They are excellence-driven partnerships, which bring together the whole innovation web in order to offer new opportunities for innovation in Europe and generate real impact in terms of new business creation and societal benefits. They address focused innovation topics and integrate public and private research organisations, innovative industries, higher education institutions, investors, start-ups and spin-offs. The first three KICs were designated in December 2009 and address the following societal challenges: climate change mitigation and adaptation (through Climate-KIC), sustainable energy (through KIC InnoEnergy) and future information and communication society (through EIT ICT Labs).

The EIT aims to generate tangible impact in the following areas:

- addressing key societal challenges: The KICs combine expertise from across disciplines to ensure innovative and global responses to complex societal challenges,
- setting a clear business-friendly framework: Turning new ideas into tangible new products, services or business opportunities will be the main benchmark of the EIT's and the KICs' success,
- enhancing the free flow of knowledge through co-location: The KICs are organised around co-location centres — geographical locations where most or the whole innovation chain is in close proximity. The emphasis is on people from diverse backgrounds (industry, SMEs, academia, nationality, gender, discipline, etc.) working together with face-to-face contact, thus leading to great mobility of knowledge,
- creating a new generation of entrepreneurs: people with an entrepreneurial mind-set are the drivers of innovation, thereby keeping our economies and societies moving. The EIT promotes entrepreneurship education as a key feature of KICs' Masters and doctoral programmes by shifting the emphasis from 'learning about' to 'learning by doing'. The Master and PhD programmes will provide students with the entrepreneurial skills they need to succeed in the knowledge economy, focusing on learning outcomes and the use of innovative teaching methods.

The EIT's strategic objectives for this period are to consolidate and synergise its operations and to prepare for achieving the priorities set out in the Strategic Innovation Agenda (2014-2020): firstly, by incentivising growth, impact and sustainability by continuing to strengthen its partnership with the three existing KICs whilst creating new KICs. By following an incremental development path in establishing new KICs, the EIT will ensure leading up to a total portfolio of nine KICs in the period 2014-2020 (equalling the set-up of 40-50 co-location centres across the Union); secondly, by enhancing the EIT's impact by fostering entrepreneurship-driven innovation across the Union through wide dissemination of novel innovation models attracting and developing talent from across Europe; and thirdly, by introducing new means of achieving impact, alongside results-oriented monitoring.

The establishment plan of the EIT is set out in Annex 'Staff' to this section.

New article

This appropriation is intended to cover the following measures relating to Cross-sectoral strand of the Creative Europe programme.

The cultural and creative sector facility will target the cultural and creative sectors and will have the following priorities: facilitate access to finance for small- and medium-sized enterprises and organisations in the European cultural and creative sectors; improve the capacity of financial institutions to assess cultural and creative projects, including technical assistance and networking measures.

This will be achieved through:

- providing guarantees to appropriate financial intermediaries from any country participating in the Creative Europe Programme,
- providing financial intermediaries with additional expertise and capacity to evaluate risks associated with operators in the cultural and creative sectors.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contribution from the Swiss Confederation for participating in Union programmes entered under Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

New article

This appropriation is intended to cover the following measures relating to the Culture Strand of the Creative Europe programme:

- supporting actions providing operators with skills and knowhow encouraging the adaption to digital technologies, including testing new approaches to audience building and business models,
- supporting actions enabling operators to internationalise their careers in Europe and beyond,
- providing support to strengthen European operators and international cultural networks in order to facilitate access to professional opportunities.

The priorities in the field of promoting transnational circulation shall be the following:

- supporting international touring, events and exhibitions,
- supporting the circulation of European literature,
- supporting audience building as a means of stimulating interest in European cultural works.

Support measures of the Culture Strand

The Culture Strand shall provide support for the following measures:

- transnational cooperation measures bringing together operators from different countries to undertake sectoral or cross-sectoral activities,
- activities by European bodies comprising networks of operators from different countries,
- activities by organisations providing a promotional European platform for the development of emerging talent and stimulating the circulation of artists and works, with a systemic and large scale effect,

Remarks

Former Item 15 04 66 03

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

Its objective is the provision of information on the degree of complementarity between the different platforms of distribution available to European films: cinema release, VOD, DVD and, potentially, television.

This preparatory action will test the impact of a simultaneous, or semi-simultaneous release on all available platforms of distribution and in several territories. In order for this type of experiment to be useful, two criteria must be respected:

- focus on films where the release windows are ill-adapted, that is, works for which cinema release appears problematic (absence of a distributor, release on a limited number of prints, first film, etc.),
- involvement of a minimum number of films (at least 30 films) and a significant number of territories. This dimensional criterion is essential if meaningful conclusions are to be drawn from this preparatory action.

Legal basis

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

Fostering European integration through culture is a crucial issue in a digitalised European economy. In this context, it is urgent that Union officials assist European cultural stakeholders find new tools to help dissemination of audiovisual content. Digital revolution offers a tremendous opportunity for cross-border online dissemination of content for European stakeholders but this dissemination is often practically slowed down by linguistic borders. By providing new and diverse subtitled versions of selected TV programmes across all Europe, this project aims to assess the impact of linguistic differences on the transnational digital dissemination of audiovisual cultural content. This project includes a scientific evaluation to measure and compare the outreach of content and the audience with and without different languages versions, both in and outside Europe. The project allows a transparent selection of programmes to be supported and gives all European stakeholders the opportunity to use its experience and results. The objective is clearly to develop new business models for European media stakeholders and to enable Union institutions to base future policy initiatives on the outcome.

The general objective of the European Year was to enhance awareness and knowledge of the rights and responsibilities attached to Union citizenship, in order to help citizens to make full use of their right to move and reside freely within the territory of the Member States.

In this context, the European Year also promoted the enjoyment by Union citizens of the other rights attached to Union citizenship.

On this basis, the specific objectives of the European Year were:

- to raise Union citizens' awareness of their right to move and reside freely within the Union and, in that context, of all other rights guaranteed to Union citizens, without discrimination, including their right to vote in local and European elections in any Member State in which they reside,

- to raise awareness among Union citizens, including young people, about how they can tangibly benefit from Union rights, as well as about policies and programmes that exist to support the exercise of those rights,
- to stimulate a debate about the impact and potential of the right of freedom of movement and residence, as an inalienable aspect of Union citizenship, with a view to stimulating and strengthening active civic and democratic participation of Union citizens, in particular in civic forums on Union policies and European Parliament elections, thereby reinforcing societal cohesion, cultural diversity, solidarity, equality between women and men, mutual respect and a sense of a common European identity among Union citizens, based on the core values of the Union, as enshrined in the TEU and the TFEU and in the Charter of Fundamental Rights of the European Union.

This appropriation is intended also to cover payments for an assessment of the results of this initiative.

COMMISSION

TITLE 16 — COMMUNICATION

CHAPTER 16 02 — FOSTERING EUROPEAN CITIZENSHIP *(cont'd)*16 02 77 *(cont'd)*16 02 77 01 *(cont'd)*

The pilot project aimed to initiate a process in which central figures and opinion makers from the creative sector will be brought together to formulate a new narrative on Europe. The task is to qualify and reinterpret the existing narrative of peace through trade across borders — to identify a new vision for the European Union that is not solely about economy and growth, but also about cultural unity (community) and values. The task is also to identify the European values and cultural aspects that unite citizens. This is needed if citizens are to believe in the Union project and if public support is to be strengthened.

The group examines what the current perception of Europe is and come up with concrete suggestions on how to create a new identity for Europe containing a new narrative. This narrative should correspond to the history and core values of the Union and describe the cultural aspects that unite citizens in Europe.

The process should be administered professionally so as to make sure that the work of the group is carried out in a controlled manner, with the aim of coming up with a charter.

Aims of the pilot project:

- to produce a new narrative on Europe founded on the narrative of peace through trade,
- to create a narrative which will place Europe in a global context according to the new world order,
- to revive the European spirit and bring the Union closer to its citizens,
- to show the value of the Union to its citizens,
- to identify the cultural values that unite citizens across borders,
- to finally formulate this narrative in a charter.

The European Parliament and the Council included in the Union budget for 2013 a pilot project to create a new narrative for Europe. The aim of this project was to mobilise eminent persons and opinion formers from the creative, cultural and scientific sectors to formulate a new narrative in a charter to be published in advance of the 2014 European elections.

Further to its decision C(2013)289 of 25 January 2013, the Commission is implementing this project. A permanent committee of eminent persons from the creative, cultural and scientific world assists and advises the Commission in implementing the project. The committee is also in charge of drafting the charter. Three groups from the creative, cultural and scientific sectors will provide input for this work and discuss the various proposals in order to maximise cross-fertilisation for the project.

The initial outcomes have established:

- the relevance and timeliness of the project, especially in view of the trend decline in public support for the Union in recent years;
- the need to discuss and draft a contemporary narrative for Europe which must be founded on the fundamental principles of the Union — peace, democracy and prosperity enriched with a future-oriented vision for a shared destiny;
- the relevance of highlighting the role of the Union in an increasingly global and interdependent world, as well as taking into account cultures from other regions of the world.

As the charter is going to be released in the first quarter of 2014, the results should be disseminated ahead of the forthcoming European elections. A cross-cutting approach should be taken, with networks of citizens, cultural institutions and organisations spreading knowledge to the public and inviting citizens to play a role. Furthermore, a corps of ambassadors should be established. The task of the ambassadors should be to interact with citizens in the ongoing debate about the new narrative and to engage with the European public.

It is also important to ensure the sustainability of the project, since a narrative is an ongoing process.

Therefore, the appropriation will be mainly used for:

- organising a major event marking the adoption and public launching of the charter,
- conducting dissemination actions to publicise the charter on the New Narrative for Europe in all the Member States, mainly via the ambassadors,
- testing the way in which this initiative could have a long-lasting impact, through networks, involving cultural, scientific and citizens' organisations.

Remarks

Former Article 16 05 09

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The objective of the preparatory action is to enable the establishment in Brussels of a European Civil Society House (ECSH) as a cost-efficient resource centre and advice bureau on European rights and civic participation for citizens and civil society organisations. In order to achieve this goal there is a need to:

- broaden the ECSH partnership base with key organisations at Union and national level,
- consult local authorities and other stakeholders to grow support for and develop the concept of the ECSH,
- plan the use of the physical premises of the ECSH in terms of a Union citizens' advice bureau shared by many similar organisations, generating economies of scale.

Remarks

In 1984, the Fontainebleau European Council introduced the concept of a People's Europe. The Council considered 'essential that the Community should respond to the expectations of the people of Europe by adopting measures to strengthen and promote its identity and its image both for its citizens and for the rest of the world'. Thirty years later the time has come to assess how Europeans perceive the Union. What is its added value? Why are we together?

The initial purpose of the European Union — to secure peace, to spread democracy and to bring prosperity — has been achieved. Today, however, many parts of Europe are in severe crisis, with heated discussions on the purpose of Union membership. The focal point of these discussions often seems to be the burning question: Why are 'we' together with 'them'?

Under Article 2 of the Treaty on the European Union, the right for every Union citizen to find his or her own path within the Union should be respected. Therefore, Union action must be linked to an understanding of local values and constitutions. In short, the promise of the Union has to be explained in terms of its added value for countries and citizens.

CHAPTER 16 02 — FOSTERING EUROPEAN CITIZENSHIP (*cont'd*)**16 02 77** (*cont'd*)16 02 77 05 (*cont'd*)

All Member States will have gone through a painstaking decision-making process prior to joining the Union — an emotional process followed by ongoing political discussions about both economic and ethical issues, with most countries involving citizens through referendums on major issues. Following accession, each country's membership has evolved. This pilot project will describe the relationship of each Member State with the Union to see if there are common perceptions about the Union in the various Member States.

This will be done by interviewing citizens from all walks of life in every country. The aim of the interviews will be to understand how the Union is perceived in everyday life by its citizens. These findings will be compiled in a report in order to identify each country's specific relationship with the Union and thereby gain a clearer picture of the different national perceptions of the Union. These national profiles will then be compared in order to ascertain the extent to which there are shared perceptions of the EU among 'real people' in Member States. In short, the question to be answered is: what do people think are the most positive aspects of the Union, both now and for the future? Is there a common perception of the Union rather than 28 different perceptions? And if so, what is that perception?

The work of mapping out perceptions of the Union will be closely coordinated with ongoing similar initiatives, such as the pilot project 'The New Narrative on Europe', the 'Citizens' Dialogue' and the initiative 'A Soul for Europe'.

It is therefore suggested that a start be made with a pilot project, discovering and mapping the perceptions about the Union within at least five Member States, with the aim of outlining common perceptions about the Union, if any, which go beyond the unique relationship that each country has with the Union.

The results of the Citizens' Dialogues could serve as a basis for the work of this pilot project. The results so far suggest that citizens expect a clear vision about three central questions:

- How much unity is wanted/needed and what are the areas where integration should take place?
- What would make the Union more democratic and how can Union politicians be made accountable for the decisions they make?
- What is the right balance between responsibility and solidarity?

Therefore the appropriation will be mainly used for:

- setting up focus groups composed of citizens from all Member States that would develop proposals as to how the Union can deliver on these visions,
- disseminating and further discussing the outcomes of the focus group meetings in traditional and social media,
- the results will be published in a report and serve as follow-up to and additional input for the 'New Narrative on Europe' as well as for targeted Union communication efforts.

Remarks

Former Article 16 02 02

This appropriation is intended to fund general information to citizens on operations concerning the Union, for the purpose of increasing the visibility of the work of the Union institutions, the decisions taken and the stages in the building of Europe. It concerns essentially the funding or co-funding of the production and/or dissemination of multimedia (radio, TV, internet, etc.), information products, including pan-European networks made up of local and national media, as well as the tools necessary to develop such a policy. This appropriation also covers evaluation expenditure. The new amount should be used for pan-European networks made up of local and national media (radio, TV, internet, etc.).

The amount of assigned revenue pursuant to Article 21(3) of the Financial Regulation is estimated at EUR 50 000.

The Commission, when implementing this item, should take duly into account the outcome of the meetings of the Interinstitutional Group of Information (IGI).

This appropriation is intended to fund general information to citizens and covers the expenditure on decentralised communication. The aim of local communication activities is in particular to provide target groups with the tools to gain a better understanding of burning topical issues.

These activities are implemented in the Member States through:

- communication operations linked to specific annual or multiannual communication priorities,
- ad hoc communication operations on a national or international scale that fit in with the communication priorities,
- seminars and conferences,
- organisation of or participation in European events, exhibitions and public-relations activities, organisation of individual visits, etc.,
- direct communication measures targeted at the general public (e.g. citizens' advice services),
- direct communication measures targeted at opinion multipliers, in particular stepped-up measures involving the regional daily press, which is a major information outlet for a large number of Union citizens,
- the management of information centres for the general public in the Commission Representations.

Communication operations can be organised in partnership with the European Parliament and/or the Member States in order to create synergies between the means of each partner and to coordinate their information and communication activities on the European Union.

This appropriation is intended to fund general information to citizens and cover specifically the opening and management of 'European Public Spaces' (EPS) in the Europe Houses that are formally hosting the EPS. The Commission is to manage the logistical arrangements for the EPS for the benefit of both institutions (the European Parliament and the Commission), including operational costs and the organisation of contracted services. The EPS must be run jointly by the two institutions on the basis of an assessment report on the management and the functioning of the EPS, as well as of a working programme for the year to come. Both these documents, which are drafted jointly by the two institutions and constitute the fundamental elements for allocation of funds for the following year, are to be presented to the budgetary authority in time to be taken into account in the budgetary procedure.

Remarks

Former Item 16 04 02 01

This appropriation is intended to cover online multimedia and written information and communication tools concerning the Union, for the purpose of providing all citizens with general information on the work of the Union institutions, the decisions taken and the stages in the building of Europe. Online tools make it possible to gather citizens' questions or reactions on European issues. This is a public service task. The information covers all the Union institutions. These tools must be made accessible to people with disabilities, in accordance with Web Accessibility Initiative (WAI) guidelines.

The main types of tool concerned are:

- the Europa site, which must constitute the main point of access to the existing information and websites concerning the administrative information which Union citizens might need in their daily lives and which therefore must be better structured and made more user-friendly,
- complementary online channels like social media, blogs and other web 2.0 technologies,
- the *Europe Direct* contact centre (00800-67891011),
- the internet sites, multimedia and written products of the Commission Representations in the Member States,
- online press releases, speeches, memos, etc. (RAPID).

This appropriation is also intended to:

- fund the restructuring of the Europa site in a more coherent way and to professionalise the use of other online channels like social media, blogs and web 2.0. This includes all types of training actions for various groups of stakeholders,
- support the exchange of best practices, knowledge transfer and professionalization by financing visits of digital communication experts and practitioners,
- cover information campaigns for facilitating access to these sources of information, especially for the operation of the Europe Direct Contact Centre, the general multilingual information service about EU matters,
- cover the expenditure relating to the production for various target groups of written publications concerning the Union's activities that are often distributed through a decentralised network, mainly:
 - the Representations' publications (paper newsletters and periodicals): each Representation produces one or more publications that are distributed among multipliers and cover various fields (social, economic and political),
 - the dissemination (also through a decentralised network) of specific basic information on the European Union (in all the official Union languages) for the general public, coordinated from headquarters, and promotion of the publications.

Remarks

Social media and the internet have fundamentally changed access to information and communication between people. Union institutions should improve the way they use these ground-breaking tools. Union institutions can use social media networks and online platforms in more innovative ways. Union institutions have no joint communication policy on the use of these tools. Moreover, these tools are still too often used simply to spread a message, whereas they offer the opportunity for conversation between politicians and the people they serve and represent. In contrast to other media (television, radio, newspapers), the internet (and social media in particular) should be used to allow citizens to interact: to provide policy makers with ideas and to start discussion on policy proposals or projects.

The Union must adapt to online reality in its communication strategy. The Union must allow its citizens to interact and to contribute. Regrettably Union communication is currently still very much a top-down process which is neither interactive nor in tune with what the new media can do. Although the social network take-up rate (among Europe's internet users) is about 90 %, the Union's communication strategy does not yet embrace social networks, the internet and mobile services to improve access to information on Union policies or to involve Union citizens. Some Members of Parliament and Commissioners may be using social networks very actively, yet the main Union institutions can do a lot to open up, to include citizens better and to make information available, searchable and shareable.

'Share Europe Online' has successfully run as a pilot project since 2012, with positive responses from stakeholders at both the central institutional level and from the national offices implementing the project.

COMMISSION

TITLE 16 — COMMUNICATION

CHAPTER 16 03 — COMMUNICATION ACTIONS (*cont'd*)16 03 77 (*cont'd*)16 03 77 05 (*cont'd*)

The pilot project sought to improve the way in which Union institutions use these new media, focusing on their local offices in Member States. The project introduced the practice of social media community management in European Parliament Information Offices and Commission Representations in order to improve the provision of information to citizens online and make EU-related information more accessible. An important objective was to build the offices' capacity for enhanced activity on social media by upgrading their staff's skill base through training and coaching by the community managers appointed.

The pilot project has helped to narrow the gap in Union institutional communication via social networks in local languages and on local platforms, thanks to increased and more coordinated activity by the offices involved. The provision of EU-related content which is appealing, relevant to the national community and optimised for social sharing is leading to increased levels of interaction. This is fostering dialogue not only between the Union and its citizens, but also between citizens themselves.

The reach and influence of the institutions' activities are increasing thanks to more targeted communication and partnerships with opinion leaders and local actors, including grassroots and civil society organisations, extending the debate on European issues to a much wider public and broadening the European public sphere.

Through better insight into the conversations taking place on social media, the institutions are also improving their ability to listen and take stock of the concerns of citizens, who are increasingly organising themselves on these networks. 'Share Europe Online' aims to facilitate interaction and access to information, and not to send out opinions about the Union in a top-down manner, which would risk being perceived as propaganda.

The budget of the 'Share Europe Online' preparatory action should serve to consolidate the positive practice started under the pilot project in order to complete the upgrading of skills and facilitate further organisational change. The aim is to bring the European Parliament Information Offices and Commission Representations up to the level of expertise required to take full advantage of the social media so as to foster interaction with citizens.

As in the pilot project, the preparatory action should involve people within the Union institutions as well as outside experts, civil society and grassroots organisations. Its implementation should be based on working methods jointly agreed between the Union institutions involved.

The rise of social networks has led businesses to create the job of 'community manager'. Community managers act as an interface between a company and its clients; they 'spread the good word about the company in a language that is specific to social networks, they manage virtual communities and understand and respond to their needs' (http://www.colpis.cat/files/documents/388_material.pdf). With this preparatory action, the 'EU community managers' introduced as part of the 'Share Europe Online' pilot project could continue to make information about the Union accessible and to represent the various Union institutions and provide independent information about the Union and its proceedings.

'Share Europe Online' should integrate parts of existing programmes such as Europe Direct, Euronews, the various web platforms, communication strategies and Union information archives. Furthermore, the preparatory action could continue the work already carried out under the 'Share Europe Online' pilot project.

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

New article

This appropriation is intended to cover expenditure for achieving the objectives established through the multiannual consumer programme for the years 2014-2020. The aim of the programme is to ensure a high level of consumer protection and to empower consumers in the heart of the internal market within the framework of an overall strategy for smart, sustainable and inclusive growth, by contributing to the protection of the health, safety, legal and economic interests of consumers, as well as to the promotion of their right to information, education and to organise themselves in order to safeguard their interests, supporting the integration of such consumer interests into other policy areas. The programme will complement, support and monitor the policies of Member States.

This general objective shall be pursued through the following four specific objectives:

— safety: to consolidate and enhance product safety through effective market surveillance throughout the Union,

COMMISSION
TITLE 17 — HEALTH AND CONSUMER PROTECTION

CHAPTER 17 02 — CONSUMER POLICY (*cont'd*)

17 02 01 (*cont'd*)

- information and education and support to consumer organisations: to improve consumers' education, information and awareness of their rights, to develop the evidence base for consumer policy and to provide support to consumer organisations, also taking into account the specific needs of vulnerable consumers,
- rights and redress: to develop and reinforce consumer rights, in particular through smart regulatory action, and to improve access to simple, efficient, expedient and low-cost redress including alternative dispute resolution,
- enforcement: to support enforcement of consumer rights by strengthening cooperation between national enforcement bodies and by supporting consumers with advice.

The new programme also needs to take into account new societal challenges which have grown in importance in recent years. They include: the increased complexity of consumer decision-making, the need to move towards more sustainable patterns of consumption, the opportunities and threats that digitalisation brings, an increase in social exclusion and the number of vulnerable consumers and an ageing population.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

1. *Objective*

This appropriation is intended to cover expenditure for setting up the European consumer travel application, 'Your Europe Travel'. The objective of this application is to establish a one-stop shop that offers information on consumer rights and cross-border issues, and to help travellers when they encounter problems while they are abroad and have limited access to information and advice services.

It will provide practical information for consumers and focus on real-life, cross-border situations, on topics ranging from travel and visa information, passenger and consumer rights, health cards, payment systems, road signs, and the European Consumer Centres (ECCs) that can provide assistance and advice in each of the Member States and in Norway and Iceland.

The strategy relating to the content of this 'smart' application will be defined by the Commission with the active involvement of the European Parliament. The strategy should be revised once a year to take into account new developments.

The application will make menus available which allow users to quickly find the information they need during a trip within the Union. It will be fully multilingual, i.e. available in any of the official Union languages. General Union information will also be available in all the official languages, detailed information in the language(s) of each Member State plus English, French and German.

The goal of this project is to develop a service concept and later an application that can be used by the citizens within the Union on mobile devices to assist them with travel issues, questions and problems. This intelligent application shall, answer most questions based on a semantic analysis of the question and of the content available. It shall also offer the possibility of asking further questions, via the Europe Direct service, in the event that the first-line system provides an incomplete reply. Replies via Europe Direct will be given within its established deadlines, in accordance with its quality charter, and in the language of the consumer. The service will be free of charge, except for telecommunications costs.

The content will mostly syndicate existing content from the Commission's Your Europe and ECC Network websites so that it is adapted to each national context. In addition to information, it will include an interactive part/module to help solve disputes with traders. This will give consumers some quick tips to help them solve the issue in question by themselves while they are abroad. More complex issues will be signposted into the normal workflow of the ECC Network and relevant alternative dispute resolution/online dispute resolution options.

In addition to development and production costs, this appropriation is intended to cover the maintenance, running costs and publicity costs of the project for the next 5 years.

2. *Implementation*

The project should as a starting point draw on knowledge of the current situation with regard to communication with citizens on Union affairs, and should also research state-of-the-art relevant communication technologies.

The project should then apply a collaborative and participative approach to create concepts such as an interactive platform and captioning service by involving the citizens from all over Europe through a behavioural study, resulting in a basic service concept of the application that is created by actual end users.

CHAPTER 17 02 — CONSUMER POLICY (*cont'd*)17 02 77 (*cont'd*)17 02 77 03 (*cont'd*)

The project will make the best possible use and/or integrate other relevant applications for mobile devices (Passenger rights, European Health Insurance card), websites for citizens (such as Your Europe, Travelling in Europe, European Youth Portal Travel Section), and services to citizens (such as Europe Direct), to ensure that duplication of efforts is avoided.

Finally, the project should implement the developed concept into a launched application, resulting in the 'European Consumer Travel Application' that can be accessed free of charge for the users from mobile devices.

3. Forecast for 2014

This pilot project is estimated to have an overall timeline of 22 months and to have a total budget of EUR 650 000, which includes full implementation of the IT application and building up of the service platform. The completion of the project, including testing, is scheduled for November 2015.

An Editorial Board composed of the Commission and representatives of the ECC Network will be responsible for the editorial policy, including language and priorities for content selection.

New article

This appropriation is intended to cover expenditure for achieving the objectives established through the multiannual 'Public Health' programme for the 2014-2020 period.

The general objectives of the programme shall be to complement, support and add value to the policies of the Member States to improve the health of Union citizens and reduce health inequalities by promoting health, encouraging innovation in health, increasing the sustainability of health systems and protecting Union citizens from serious cross-border health threats.

The 'Public Health' programme 2014-2020 focuses on four specific objectives:

- supporting public health capacity building and contributing to innovative, efficient and sustainable health systems: identify and develop tools and mechanisms at Union level to address shortages of resources, both human and financial, and facilitate the voluntary up-take of innovation in public health intervention and prevention strategies,
- facilitating access to better and safer healthcare for Union citizens: increase access to medical expertise and information for specific conditions also beyond national borders, facilitate the application of the results of research and develop tools for the improvement of healthcare quality and patient safety through, inter alia, actions contributing to improve health literacy,
- promoting health, preventing diseases, and fostering supportive environments for healthy lifestyles: identify, disseminate and promote the up-take of evidence-based and good practices for cost-effective disease prevention and health promotion measures by addressing in particular the key lifestyle related risk factors with a focus on the Union added value,
- protecting citizens from serious cross-border health threats: identify and develop coherent approaches and promote their implementation for better preparedness and coordination in health emergencies.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

This appropriation is intended to cover the Centre's personnel and administrative expenditure. In particular, Title 1 covers the salaries of permanent staff and seconded experts, the costs relating to recruitment, interim services, staff training and mission expenses; Title 2 'Expenditure' relates to the renting of the Centre's office facilities, the fitting-out of premises, information and communication technology, technical installations, logistics and other administrative costs.

This appropriation is also intended to cover operational expenditure relating to the following target areas:

- improving surveillance of communicable diseases in the Member States,
- strengthening the scientific support provided by the Member States and the Commission,
- enhancing the preparedness of the Union against emerging threats from communicable diseases, especially hepatitis B, including threats related to intentional release of biological agents, and diseases of unknown origin, and coordinating the response,
- strengthening the relevant capacity in the Member States through training,
- communicating information and building partnerships.

This appropriation is also intended to cover the maintenance of the emergency facility (Emergency Operations Centre) linking the Centre online with national communicable disease centres and reference laboratories in Member States in the event of major outbreaks of communicable diseases or other illnesses of unknown origin.

The Centre must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

The Centre's establishment plan is set out in the Annex 'Staff' to this section.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. Former Article 17 03 14

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

In 2009, based on bacteria most frequently isolated from blood cultures in Europe, the European Centre for Disease Prevention and Control estimated that each year these selected multidrug-resistant bacteria resulted in about 25 000 patient deaths and in extra healthcare costs and productivity losses of at least EUR 1,5 billion each year. Over the past few decades, the irresponsible and incorrect use of antibiotics has accelerated this trend. Antimicrobial resistance is therefore a phenomenon which clearly has cross-border implications and the occurrence of an outlier effect, which would most probably not be manageable with the current resources and knowledge, cannot be excluded.

Aims of the preparatory action:

- to study the issue of the inappropriate use and sale of antimicrobial agents with or without prescription throughout the chain — from the doctor and the pharmacist to the patient — in terms of behaviour of all actors involved, by choosing as study-cases the key Member States with the highest degree of access to antibiotics without prescription. The action will seek to better evaluate the reasons for the inappropriate use of antibiotics, assess the level of antibiotics sold without prescription in the target countries (including the countries where the enforcement of legislation is poor), identify the reasons for such high levels of sales without prescription, assess whether there is enough information reaching the relevant actors, identifying their motives, incentives, practices and the perception of the overall threat of antimicrobial resistance and make recommendations on how to best address this situation,
- to contribute and lead to a comprehensive and integrated Union policy against AMR.

Specific actions:

- thorough surveys in the groups to which this preparatory action is addressed,
- in-depth discussions,
- identification of study-cases in each key Member State.

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The objective is the creation of a Union network of experts that will promote and sustain innovative and adapted care structures for adolescents with psychological problems (houses for teens). It will collect, exchange, develop and share experience, knowledge and best practices in this field. The network must be seen as a follow-up action to the European Mental Health Pact and the series of conferences organised by the Commission in this field.

The objectives of the Union network are:

- to collect, exchange, develop and share expertise, experience, knowledge and best practices,
- to promote, support and offer practical help for the creation of adapted care structures for adolescents,
- to facilitate reciprocal staff training, including study visits and traineeships,
- to raise the awareness of the general public and of national and Union authorities,
- to promote a medical specialisation in adolescentology,
- to provide representation of its members in the Union and international institutions.

This appropriation is intended to cover the extension of this pilot project.

Of those affected by intellectually debilitating diseases, children suffering from autistic spectrum disorders (ASD) are most likely to benefit from a Union added value, and should therefore constitute a primary focus for action. At present, the lack of Union and national efforts regarding ASD patients who have reached adulthood and who are first diagnosed in adulthood is having a negative impact on the 'Healthy Life Years' and potential for 'active ageing' of that specific subpopulation.

COMMISSION
TITLE 17 — HEALTH AND CONSUMER PROTECTIONCHAPTER 17 03 — PUBLIC HEALTH (*cont'd*)17 03 77 (*cont'd*)17 03 77 08 (*cont'd*)

The creation of a shared European perspective on autism spectrum disorders necessitates the encouragement of advocacy, trans-cultural and cost-effective clinical practices, research, and exchange of information and expertise. The ability of adults with autism to take care, or even provide for themselves depends on their intellectual capacities and their ability to cope with the social and communicative demands of modern society. Patients first diagnosed in adulthood tend to have high intellectual capacities but still fail due to poor social and communicative skills. Specific support relies on the existence of tested protocols in order to detect the ASD symptoms/behavioural patterns that arise not only in severe forms of autism generally diagnosed in childhood but also in milder forms first diagnosed in adulthood. If properly taught social responses and accepted behaviours, autistic adults can function as contributing members of society. Presently, the majority of such high-functioning autistic adults live in a socially isolated manner and rely on social support due to a lack of recognition of the specific form of high-functioning autism affecting them and lack of specific means to support them.

Aim of the project

The objectives of this project should focus on the major issue surrounding ASD in adulthood, namely early detection of high functioning ASD and developments of means to support such people. The strategic objective is the improvement of the quality of life, social and vocational reintegration of individuals affected by ASD and avoidance of social disintegration and early retirement.

Description of the project

The proposed action will build on the progress yielded by the European Autism Information System (EAIS) project (<http://www.eais.eu/>) through the implementation of the protocols developed. This proposal is particularly focused on applying a public health model to ASD, with work packages on prevalence, screening, diagnosis and intervention.

There are three specific objectives to be reached for this project. They are as follows:

- (1) To estimate the prevalence of ASD in 6 to 9 pilot areas, to be located in different Member States, using the harmonised European Autism Prevalence Protocol developed by the EAIS project, and to validate aforementioned protocol in different languages and cultural settings. This will lead to the first continental study of autism prevalence and will ideally supply the European Commission with an accurate estimate of the number of ASD-afflicted individuals in Europe.
- (2) To implement and, as much as possible validate a strategy for early identification of ASD in 6 to 9 pilot areas via the utilisation of the harmonised protocol developed by the EAIS project. This is to include a component of translating and adapting autism screening tools into different languages and cultural settings and to compare the results. Furthermore, this objective will aim to increase awareness of autism amongst public and professional communities, and aid in the training of healthcare professionals in order to improve their familiarity with, and ability to recognise ASD in childhood and also high-functioning variants in adulthood.

COMMISSION

TITLE 17 — HEALTH AND CONSUMER PROTECTION

CHAPTER 17 03 — PUBLIC HEALTH (*cont'd*)17 03 77 (*cont'd*)17 03 77 08 (*cont'd*)

- (3) To review current best practices on early intervention, diagnosis and clinical management on ASD, to collaborate with partners in order to review what is currently delivered by their services regarding early intervention for children and adults with ASD, and to identify specific needs and to then design a training program in intervention appropriate for that community and to make recommendations about staff training.

At the end of the project period, a clear picture of comparable, population-based prevalence rates in the Member States will exist. Moreover, the medical community will have guidelines on how to recognize ASD at an early stage and low and high-functioning variants, and how best to diagnose and to medically intervene in order to assure best individually possible outcomes. The envisaged multicultural, polylingual experience will provide a unique opportunity for future expansion, both in Europe and worldwide, in order to improve the quality of life of people suffering from ASD. This project will lay a strong focus on disseminating the findings of this holistic public health approach broadly across European member countries, so that the potential benefits may be reaped by as many afflicted individuals and families as possible.

*Remarks**Former Article 17 03 17*

This appropriation is intended to cover commitments remaining to be settled from previous years under this pilot project.

The focus of this project is: the identification of the cost, benefit of self-care oriented healthcare systems in Europe, exchange of best practices, and potential areas for collaboration. The project will also seek to develop a deeper understanding of the opportunity offered by self-care in the current economic and social context in the Union and identify barriers to present uptake. The project will test the possibility of implementing best practices in certain Member States.

The project's objective is to put in place a framework for action to enhance self-care at Union level and to develop strategies to support the broader implementation of effective self-care. Those strategies will involve:

(1) the Commission undertaking an independent cost/benefit analysis of self-care in the Union and the current frameworks in place to enhance self-care and patients' empowerment:

- the Commission will launch a call for tenders to conduct the study and the mandate should be attributed to a respected academic,

COMMISSION
TITLE 17 — HEALTH AND CONSUMER PROTECTIONCHAPTER 17 03 — PUBLIC HEALTH (*cont'd*)17 03 77 (*cont'd*)17 03 77 09 (*cont'd*)

- the objectives of the study are to:
 - review available studies and data,
 - analyse self-care in the Union and Member States,
 - identify advantages and barriers of patient empowerment uptake,
 - assess the level of healthcare systems resources dealing with minor and self-limiting conditions that could be effectively managed through self-care by motivated, empowered, and informed patients given the right support,
 - identify best practices on self-care between Member States and testing of transferability.

Based on the result of the study the Commission should identify different opportunities for action to promote self-care.

(2) Creation of a platform of experts in self-care and healthcare gathering cross-functional stakeholders.

Model:

- Union and national policy makers, policy influencers, governments, academics, healthcare professionals, patient groups, consumer associations, industry, public and private healthcare insurers to take part,
- agenda with clear objectives, deliverables, and timeline,
- platform to be set up by the organisation selected in the call for tenders,
- objective of the platform:
 - identification of the gaps in the available data and the information that hinder present understanding of self-care,
 - review and identification of the opportunities and barriers as identified in the Commission study,
 - identification of the scope and the priorities for action:
 - disease areas where the promotion of a self-care system could bring an added value in the prevention and effective management of the disease,
 - relevant tools and mechanisms to promote a self-care model,
 - publication of Union guidelines by the platform on how to promote self-care, on the agreed scope, taking into account the results of the testing of best practices transfers in different Member States,
 - proposal of scenarios for Union collaboration in this field,
 - preparation of adapted communication tools to patient/consumers on prevention and disease management: awareness leaflets, interactive tools at the point of healthcare delivery,
 - increase access to diagnosis tools at the point of healthcare delivery, e.g.: blood pressure meter, spirometer, diet evaluation tools.

Remarks

Prolongation of this pilot project as adopted for the budget 2013.

Coronary artery disease (CAD) is one of the most frequent killers in women and men in Europe. This pilot project will involve a study aimed at establishing a best practice scheme across the Union, improving diagnosis and therapy by considering gender-specific manifestations of the disease. This will largely improve diagnosis and treatment in women and men and basic principles may be translated to other diseases.

The objectives of the program are for the involved countries:

- to increase medical and public awareness about gender differences in CAD regarding clinical manifestations and incidence,
- to establish Union guidelines on gender specific manifestations of CAD and treatments,
- to examine gender implications on health determinants and risk factors,
- to disseminate the best practice plan in Member States.

Remarks

This appropriation is intended to cover the establishment of a pilot project to improve knowledge sharing and actions to reduce health inequalities in the Union — particularly in Member States and regions with the greatest needs, and those in receipt of cohesion funds.

It will establish a network of exchange between experts and policy advisers across the Union, focusing on support and training for the development and implementation of policies, as well as specific activities, addressing health inequalities at national and subnational/regional level.

Priorities for the network will include, in particular, development of expertise in issues related to effectiveness of prevention policies, differences and discrimination in access to healthcare, as well as strategies to alleviate the social, environmental and behavioural factors contributing to health inequalities.

The pilot project will also carry out a review and evaluations of activities addressing health inequalities already supported through Union structural funds and programmes. Specific activities carried out under this pilot project will be defined after a consultation process among Member States involved and stakeholders in the field of public health and healthcare policies.

This pilot project will be aimed at improving the awareness and knowledge in key target groups for policy about the importance of addressing health inequalities and the opportunities to do so, in particular through the structural funds. It will also review and evaluate actions taken through the structural funds and programmes in this matter, thus promoting the development of better policy making in future.

Remarks

Across the Member States the occurrence of non-communicable diseases (NCDs) is increasing at an unprecedented speed. At the same time, more and more Europeans are struggling with problems concerning e.g. obesity and mental health. Isolated and vulnerable persons in particular struggle with problems linked to deteriorating health. Both men and women suffer from such health decline but their health issues are not the same and should be addressed differently.

In 2011 the Commission published a comprehensive report on the state of the health of European men which showed important inequalities between women's and men's health. One of the key statements in the report is 'Improving men's health also has both direct and indirect benefits for women and children'. In 2009 the Commission published a similar report on the state of the health of European women.

There seems to be a growing recognition of the fact that men's and women's health problems are to be treated from different angles and therefore this project has the following objectives:

- (1) to gather and assess — e.g. through European Community Health Indicators (ECHI) — existing information on the differences of men's and women's (in particular the isolated and vulnerable) health in the participating Member States and on existing practices to address this issue;
- (2) to increase the knowledge base on the life styles and attitudes towards individual (including mental) health, prevention, treatment, and rehabilitation of especially isolated and vulnerable persons, and identify the reasons why there seems to be greater reluctance in this specific group of people to change lifestyles and to seek the help of doctors or other health services. The studies can be both disease-specific and population-based;
- (3) to analyse health systems across different Member States to identify what the causes of the relative under-utilisation of health services by less advantaged groups are and what can be done to address it;
- (4) on basis of the evidence collected to develop and test (gender) targeted strategies to improve the health of these people, to facilitate their access to health services and to prevent health problems from occurring in the first place;
- (5) to disseminate the results and best practice examples to Member States, in particular health providers in the primary sector, and to encourage follow up on the results.

Remarks

This preparatory action is intended to continue the project which aims at underlining the importance of a correct and healthy diet with a focus on the ageing population.

The ageing of the population of Europe is a demographic phenomenon that is due to a decrease in fertility and to an increase of life expectancy among European citizens.

The population of Europe is expected to age over the next 40 years and this phenomenon is closely related to nutrition issues.

As recognised in various studies, nutrition has a strong and important impact in the treatment and prevention of several diseases and in maintaining good health and quality of life in an ageing population.

With advancing age, there is a high incidence of chronic diseases. Evidence points to the important effect of nutrition and, in particular, of a balanced and healthy diet based on fruit and vegetables, and on one's susceptibility to such diseases and their development and outcome.

This project also seeks to provide parents and children with information on nutrition. It will focus on the early years of life, and could therefore cover prenatal nutrition, breastfeeding, and childhood nutrition. The project has two main objectives, namely to educate parents on the importance of good nutrition for their children, and to educate children so they consciously make healthy lifestyle choices throughout their lives. The project will operate within the framework of the Health Programme and will specifically address two of the programme's overarching objectives: that of promoting health and reducing health inequalities, and that of disseminating health information.

This preparatory action will try to reach its target audiences through a range of channels, such as pre-natal classes, hospitals, nurseries and pre-school establishments, and schools. It should involve appropriate civil society organisations, such as health-orientated NGOs, as well as healthcare professionals such as, for instance, paediatric doctors and midwives, and national and regional health authorities. Cooperation between these different actors should aim to deliver targeted education about nutrition, independently of the food industry, to both parents and children. Information campaigns could be launched in the form of leaflets (to be given, for example, to pregnant mothers by midwives, or to parents by paediatric doctors) or presentations in schools.

Remarks

Epilepsy is a disorder of the brain characterised by an enduring predisposition to generate epileptic seizures, and by the neurobiological, cognitive, psychological, and social consequences of this condition. The latter include premature death, stigmatisation, social exclusion, and reduced quality of life. While effective treatments are available, barriers exist in relation to the access to health care, resulting in a significant treatment gap. A European survey completed more than a decade ago indicated that there were insufficient resources and marked disparities in the availability of epilepsy care among Member States, but the situation at present is unknown. Adding to the difficulties in allocation of adequate resources, estimates of the prevalence and cost of epilepsy in Europe vary considerably. A recent review by the European Brain Council estimated that 2,6 million people in Europe have epilepsy whereas a WHO/ILAE/IBE report estimates that 6 million people in Europe suffer from epilepsy. The true prevalence rate of epilepsy can probably vary somewhat between countries and regions, and possibly also over time. It is unclear, however, if the reasons for the pronounced variability, both between countries and within countries, in reported prevalence rates in Europe is explained by true differences in prevalence, by differences in methodology and lack of reliable data, or by a combination.

The burden of epilepsy in Europe is thus a field characterised by considerable knowledge gaps with major un-researched countries and regions, and by conflicting observations in countries where such research has been carried out. There is therefore an urgent need for a more definitive European-wide comprehensive study of the burden of epilepsy and of access to health care using appropriate and standardised methodology. Information derived from this study will be essential for action plans including decisions on allocation of resources for the provision of sustainable, adequate, equal, and cost-effective epilepsy care across Europe. A targeted approach to the delivery of care is especially important for a condition like epilepsy which reports a high burden of disease. Configuring the delivery of health care services to alleviating this burden throughout Europe requires accurate data not only on those needing treatment, on attitudes towards epilepsy in society and on existing barriers for access to health care, but in addition on the economic cost of care.

It is expected that a study on this scale will have a major impact on identifying if there are areas in Europe where epilepsy can be definitively assessed as being more prevalent than others. It is hoped that the study will also provide conclusive evidence of the prevalence rate of epilepsy in the Union which would have a major impact on how the disease is viewed in terms of policy decision making. Similarly a cost study would allow for better planning to manage the disease. The study is expected to identify deficiencies in what is currently perceived as fragmented epilepsy care with pronounced differences in resources between Member States and furthermore the need for education of public and health care workers to combat the stigma associated with epilepsy. The proposed unique European study will facilitate a coordinated pan-European action to ensure equal epilepsy care and quality of life for people with epilepsy. It will also demonstrate the need for individual Member States to improve accessibility of epilepsy care, ultimately improving the life of people with epilepsy in Europe and reducing the costs of the disease.

CHAPTER 17 03 — PUBLIC HEALTH (cont'd)

17 03 77 (cont'd)

17 03 77 15 (cont'd)

Aim of the project

The aim of the project is to assess the burden of epilepsy as well as the available epilepsy health care in the Union to build a coordinated information platform across Member States involving NGOs, stakeholders and government organisations with regard to the burden of epilepsy. Good practices will be identified and recommendations made for better epilepsy care throughout the Union.

The strategic objective is to provide the necessary data for allocation of adequate resources for high-quality epilepsy care equal in all Member States thus closing the treatment gap, preventing the devastating consequences of epilepsy, reducing unemployment, stigma, and isolation, and securing improved quality of life for people with epilepsy, all in line with the recommendations of the European Parliament's Written Declaration on Epilepsy.

Description of the project

This project would first define a standardised methodology appropriate for the study of the stigma and public attitudes relating to epilepsy and its incidence, prevalence, and cost, and access to and organisation of epilepsy care. The proposed action is a standardised, prospective population-based study carried out in representative regions in 8-12 EU Member States. These will be selected to represent all Union regions, East, West, North, and South, and to include, in the main, countries where no data are available. Some countries where data are available from previous research will also be included to enable validation of the current methodology. Research teams will be established in the participating countries. These will utilise a multi-source methodology searching, in a defined geographical area, relevant hospitals, institutions, general practitioners, EEG-laboratories to ascertain cases meeting the criteria for epilepsy as defined by the International League Against Epilepsy. The aim is to capture all age groups, disease duration, and severity. Direct health-care cost and non-medical costs as well as indirect costs will be determined prospectively over a one year period for each case with epilepsy as well as for matched controls without epilepsy. The analysis will include assessments of stigma, quality of life, employment and access to health care. The local research teams will use validated questionnaires to assess knowledge and attitudes towards epilepsy among the public and health care professionals in their regions as well as survey the regional health organisation for epilepsy care.

The results will be used to formulate recommendations to policy makers including methods for follow-up of their implementation and sustainability.

The Union's financial assistance helps accelerate the eradication or control of animal diseases by providing funds to supplement national financial resources and contributes to harmonising measures at Union level. The bulk of these diseases or infections are zoonoses communicable to man (BSE, brucellosis, avian influenza, salmonellosis, tuberculosis, etc.). Moreover, the persistence of the diseases in question hampers the smooth operation of the internal market; fighting them helps to improve the level of public health and to boost food safety in the Union.

This appropriation is also intended to cover the Union's contribution to measures for eliminating obstacles to the free movement of goods in these sectors, for veterinary support and as back-up action.

It consists in providing financial assistance:

- for the purchase, storage and formulation of foot-and-mouth antigens and of different vaccines,
- for the development of marker vaccines or tests that can distinguish between sick and vaccinated animals.

The outbreak of some animal diseases in the Union could possibly have a major impact on the operation of the internal market and on the Union's commercial relations with third countries. Thus, it is important for the Union to make a financial contribution in order to allow the fastest eradication possible of any outbreak of a serious infectious disease in Member States by deploying Union resources to fight these diseases.

This appropriation is intended to cover curative actions to combat the pests and diseases threatening agricultural and horticultural crops, forests and landscape, among them the spread of exotic invasive species and diseases (such as pine nematode and others), which are becoming more frequent and are spreading.

The final output of the pilot project will be an analysis of the different practices on assessment of the animals in order to bring the best practices to light. Based on this analysis the project will establish standard operating procedures for transporting animals and a strategy to disseminate those procedures among stakeholders including possibly training courses as necessary.

Animal transport — background information

Every year nearly 40 million farmed animals are transported between Member States. This transport of animals is necessary for farms specialised in breeding, rearing, fattening and for slaughterhouses.

However, there are a lot of different practices in the Member States, among others because of poor compliance of some requirements with Regulation (EC) No 1/2005 on the protection of animals during transport — e.g. conflicting veterinary assessments in animal transport.

Regulation (EC) No 1/2005 requires that animals are checked by the competent authority for fitness before they are transported on long journeys between Member States (and with third countries). Also for short or national journeys an assessment of the animal's fitness must be made.

A veterinarian/farmer at a farm might assess the animal's condition and approve the transport. Once the animal has arrived at e.g. the slaughterhouse, the veterinarian then might declare the animal unsuitable for transport. Situations like these are not satisfactory for either the animals or the drivers.

Remarks

It is extremely important for small cheesemaking to continue and for the sector to expand, in view of the growing consumer demand for high-quality local produce. Small cheesemaking provides jobs and offers a way in to farming — in particular for young people — that does not call for the investment of very large sums of money.

Cheesemaking is governed, in the main, by Union rules which apply to farmers and food processing undertakings alike, including very small undertakings. Regrettably, in many cases those rules are applied by national and regional authorities in too rigid a manner, without paying any heed to the principles of adaptability and flexibility clearly established in the relevant legislation.

This project accordingly seeks to ensure that proper account is taken of small cheesemakers' need for flexibility and to secure final validation by the Commission, thus sending out a positive message about Union legislation and the Union in general, not just to farmers and cheesemakers but also to consumers.

CHAPTER 17 04 — FOOD AND FEED SAFETY, ANIMAL HEALTH, ANIMAL WELFARE AND PLANT HEALTH (*cont'd*)17 04 77 (*cont'd*)17 04 77 04 (*cont'd*)

The HACCP approach seeks to capitalise on experience in order to improve processes and thus ensure that a closer check is kept on food safety. It is an approach that normally draws on quality control resources of the kind only large companies are able to put in place. Under this project, small producers will come together to draw up guidelines for proper hygienic practice as a first step in a response to this need for continuous improvement that will be at least as effective, and in all probability more transparent.

One of the project's aims is to produce guidelines for proper hygienic practice validated by the Commission that can serve as a reference for all those working in this area.

The guidelines will therefore be based on how the professionals in the sector actually work, rather than on theory. The fact that they will be drawn up by the 11 trade organisations making up the FACE network, with the assistance of research centres operating in related sectors, will ensure that proper account is taken of traditional know-how in the various regions and that the knowledge and experience of implementing HACCP approaches tailored to small processing facilities that various groups have accumulated over a number of years are pooled and put to good use.

This innovative approach, based on self-organisation at European level and the participation of relevant partners, is also in line with the idea of professionals in each sector taking responsibility for health and hygiene issues that is put forward in the relevant legislation, with the legislative authorities setting the ultimate objectives and the professionals making the arrangement required in order to meet those objectives.

In view of the various challenges facing it (languages, logistics, organisational requirements, etc.), this ambitious multi-partner project is in need of financial support.

Remarks

New item

This appropriation shall support a common visa policy to facilitate legitimate travel, ensure equal treatment of third country nationals and tackle irregular migration and, to support border management, to ensure, on the one hand, a high level of protection of external borders and, on the other hand, the smooth crossing of the external borders in conformity with the Schengen *acquis*.

It is intended to cover the expenditure related to actions in or by Member States and in particular the following:

- border crossing infrastructure, buildings and systems required at border crossing points and for surveillance between border crossing points and the effective tackling of illegal crossings of the external borders,
- operating equipment, means of transport and communication systems required for effective border control and the detection of persons, such as fixed terminals for VIS, SIS and the European Image Archiving System (FADO), including state-of-the-art technology,

COMMISSION

CHAPTER 18 02 — INTERNAL SECURITY (*cont'd*)18 02 01 (*cont'd*)18 02 01 01 (*cont'd*)

- IT systems for the management of migration flows across borders,
- infrastructure, buildings and operating equipment required for the processing of visa applications and consular cooperation,
- studies, pilot projects and actions aiming to foster interagency cooperation within Member States and between Member States, and implementing the recommendations, operational standards and best practices resulting from the operational cooperation between Member States and Union Agencies.

This appropriation is also intended to cover the expenditure related to actions in relation to and in third countries and in particular the following:

- information systems, tools or equipment for sharing information between Member States and third countries,
- actions aiming to foster operational cooperation between Member States and third countries, including joint operations,
- studies, events, training, equipment and pilot projects to provide ad hoc technical and operational expertise to third countries,
- studies, events, training, equipment and pilot projects implementing specific recommendations, operational standards and best practices, resulting from the operational cooperation between Member States and Union agencies in third countries.

A Member State may use up to 50 % of the amount allocated under the instrument to its national programme to finance operating support to the public authorities responsible for accomplishing the tasks and services which constitute a public service for the Union.

This appropriation is also intended to cover foregone fees from visas issued for the purpose of transit and additional costs incurred in implementing the Facilitated Transit Document (FTD) and the Facilitated Rail Transit Document (FRTD) scheme in accordance with Council Regulation (EC) No 693/2003 of 14 April 2003 establishing a specific Facilitated Transit Document (FTD), a Facilitated Rail Transit Document (FRTD) and amending the Common Consular Instructions and the Common Manual (OJ L 99, 17.4.2003, p. 8) and Council Regulation (EC) No 694/2003 of 14 April 2003 on uniform formats for Facilitated Transit Documents (FTD) and Facilitated Rail Transit Documents (FRTD) provided for in Regulation (EC) No 693/2003 (OJ L 99, 17.4.2003, p. 15).

At the Commission's initiative, this appropriation may be used to finance transnational actions or actions of particular interest to the Union. To be eligible for funding, those actions shall in particular pursue the following objectives:

- to support the preparatory, monitoring, administrative and technical support, development of an evaluation mechanism, required to implement external borders and visa policies, including to implement Schengen governance as determined by the Schengen evaluation and monitoring mechanism as established by the Council Regulation (EU) No 1053/2013 of 7 October 2013 establishing an evaluation and monitoring mechanism to verify the application of the Schengen *acquis* and repealing the Decision of the Executive Committee of 16 September 1998 setting up a Standing Committee on the evaluation and implementation of Schengen (OJ L 295, 6.11.2013, p. 27).
- to improve the knowledge and understanding of the situation prevailing in the Member States through analysis, evaluation and close monitoring of policies,
- to support the development of statistical tools and methods and common indicators,
- to support and monitor the implementation of Union law and Union policy objectives in the Member States, and assess their effectiveness and impact,
- to promote networking, mutual learning, identification and dissemination of good practices and innovative approaches at European level,
- to enhance awareness of Union policies and objectives among stakeholders and the general public, including corporate communication on the political priorities of the Union,
- to boost the capacity of European networks to promote, support and further develop Union policies and objectives,

CHAPTER 18 02 — INTERNAL SECURITY (*cont'd*)**18 02 01** (*cont'd*)18 02 01 01 (*cont'd*)

- to support particularly innovative projects developing new methods and/or technologies with a potential for transferability to other Member States, especially projects which aim to test and validate research projects,
- to support certain actions in relation to and in third countries as referred to in Article 4(2).

This appropriation shall also cover financial assistance to address urgent and specific needs in the event of an emergency situation which means a situation of urgent and exceptional pressure where a large or disproportionate number of third-country nationals cross or are expected to cross the external border of one or more Member States.

This appropriation will provide for reimbursement of the costs incurred by the Commission and Member States experts for the on-the-spot evaluation visits (travel cost and accommodation) regarding the application of the Schengen *acquis*. The cost of supplies and equipment needed for the on-the-spot evaluation visits and for their preparation and follow-up must be added to these costs.

Any revenue from the contributions of Iceland, Norway, Switzerland and Liechtenstein entered in Item 6 3 1 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) of the Financial Regulation.

Remarks

Match fixing poses a serious threat to the integrity of sport and may be a way of laundering money for criminal groups. The aim of this pilot project is to ensure fair sports betting, to reduce corruption in sport and to prevent gambling from being used for criminal purposes. A range of expertise and experience should be combined in order to establish new integrated mechanisms that could involve cooperation between law enforcement authorities, online and offline betting operators, gambling organisations, sports federations, gambling regulators, sports clubs and athletes. Stepped-up information sharing between private actors and law enforcement authorities, as well as between police forces from different Member States, could lead to better prevention and faster response to suspicious activities at both national and international level.

Actions:

- collecting and analysing information from qualified sources: online and offline betting operators, gambling organisations, sports federations, gambling regulators and law enforcement authorities,
- developing risk indicators to be used at both national and Union level,
- assessing potential sports betting threats,
- enhancing information sharing and cooperation between private operators and police forces and between law enforcement authorities of different Member States,
- identifying sports events that could be targeted by corrupt athletes and/or criminals for match fixing purposes, including by monitoring the media, the internet and social networks,
- warning all stakeholders about specific risks of match fixing by disclosing information in an appropriate and timely manner,
- supporting competent authorities in undertaking investigations, where necessary, both within sport and in criminal circles,
- creating working groups or round tables at national level to promote the exchange of views and best practices between stakeholders,
- establishing mechanisms for anonymous reporting to national contact points.

Legal basis

Pilot project within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

This appropriation is intended to cover the Office's staff and administrative expenditure (Titles 1 and 2), and operational expenditure relating to the work programme (Title 3).

The Office must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

The amounts repaid in accordance with Article 20 of Commission Delegated Regulation (EU) No 1271/2013 constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

Any revenue from the contributions of Iceland, Norway, Switzerland and Liechtenstein entered in Item 6 3 1 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

The Office's establishment plan is set out in Annex 'Staff' to this section.

The Union contribution for 2014 amounts to a total of EUR 14 656 000. An amount of EUR 138 000 coming from the recovery of surplus is added to the amount of EUR 14 518 000 entered in the budget.

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The preparatory action aims to create a new line of funding to support the resettlement of refugees in emergency conditions that are not covered by the current European Refugee Fund (ERF) rules, and will not be covered in the near future as the current Fund, in its third iteration (ERF III), lapses in 2014. The activities carried out in the framework of this preparatory action, and the experiences collected within that framework, could then be integrated in the revision of the ERF planned for 2014.

The following actions are covered by this preparatory action:

- to support persons already recognised as refugees by the United Nations High Commissioner for Refugees (UNHCR) and ERF falling victim to natural disasters, armed attacks, etc.,

- to support emergency action in the case of groups of refugees, identified as priorities according to ERF and UNHCR rules, who are under armed attack, that have been victims of a natural disaster, or that face other conjunctures of extreme vulnerability and of a life-threatening nature,
- to fund rapid resettlement procedures of the Member States in conditions replicated from the routine resettlement activities funded by the ERF,
- to guarantee financing for emergency procedures without disruption of the ongoing ERF resettlement procedures,
- to provide, where needed, extra financial support during emergencies to the Office of the UNHCR and to its liaison organisations in the Member States and at Union level,
- to strengthen the activities of the European Asylum Support Office.

TITLE 18 — HOME AFFAIRS

CHAPTER 18 03 — ASYLUM AND MIGRATION (*cont'd*)18 03 77 (*cont'd*)18 03 77 08 (*cont'd*)

The main objective of this preparatory action is to establish a network of contacts and discussion between targeted municipalities and local authorities in Member States which have just started a resettlement programme, or wish to participate in the near future, and Member States which are experienced in resettlement, drawing on the United Nations High Commissioner for Refugees (UNHCR) and non-governmental organisation (NGO) experiences and best practices in the resettlement and reintegration of refugees. The preparatory action will cover the following actions:

- identifying municipalities or local authorities in Member States that have just started resettlement programmes (e.g. Portugal, Romania) or are about to do so (e.g. Spain) and arranging meetings with selected municipalities or local authorities in resettlement countries (e.g. the UK and the Netherlands) with a view to strengthening 'new' resettlement programmes and ensuring that they are of a high quality and sustainable,
- identifying municipalities or local authorities or NGOs in Member States not yet participating in resettlement programmes, but wishing to join the network with a view to future participation in such programmes,
- holding meetings of representatives of the targeted local authorities and municipalities involved, along with the UNHCR, participating NGOs and representatives of resettled refugees, to lay down the activities to be developed jointly, including visits, exchanges of experience, training and thematic meetings focusing on issues such as housing, education and employment,
- designing a form for collecting information from the various stakeholders on procedures, types of monitoring prior to resettlement, types of information collected on the refugees to be resettled (including cultural, health and educational issues and diet), infrastructure, human resources, accommodation, reception, actions taken after resettlement for the integration of refugees, community participation in the process, any economic, legal or educational aid, the role of refugees already resettled in the integration process, and cooperation with NGOs,
- creating a task force, with the necessary human and technical resources, to make the practical arrangements for the project and in particular to provide for the necessary meetings, collect available information, create a website and content for it, thus increasing the exchange of information between the stakeholders in the resettlement process, and create links with existing resettlement-related projects and/or websites. This website will also allow information on past and future meetings between municipalities or local authorities to be made available to all interested parties on a systematic basis,
- collating the information gathered by the task force, which will then circulate it for discussion on the network, in order to draw conclusions on best practices.

The experience gained from the preparatory action will be recorded and passed on to the Resettlement Unit in the European Asylum Support Office (EASO) once it has been set up.

Legal basis

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

The main objective of this preparatory action is to create a line of funding for the final benefit of victims of torture whether EU citizens and/or migrants present in the European Union. It will enable rehabilitation centres to offer victims of torture as full rehabilitation as possible thus empowering torture victims to function properly in the society and to integrate faster in the European economies.

The preparatory action will cover the following actions:

- to provide victims with access to holistic rehabilitation such as multi-disciplinary support and counselling, including physical and psychotherapeutic treatment, legal services, and socio-economic support, by providing funds for the costs of rehabilitation centres for victims of torture (new or existing ones),
- to support the capacity building of rehabilitation centres via networking activities (in and outside Europe), research, training, development of common tools, exchange of good practices, peer supervision as a prevention of vicarious trauma, etc.,
- to support activities aiming at the empowerment of torture victims themselves and, in general, at supporting the integration capacities of torture victims in European countries,
- to support advocacy actions aiming at ensuring that Member States comply with the right to rehabilitation as defined in General Comment 3 to Article 14 of Convention Against Torture.

Since 2011, the implementation of the approved pilot project has been a success. The first call for proposals has been launched in October 2011 and resulted in 31 applications received from centres in 14 EU countries. The total of EU requested grants amounted to EUR 6 000 000, showing the great need for financial support among rehabilitation centres. Out of the 31 proposals, only 4 projects have been financed.

The second call for proposal was launched in July 2012 with 25 applications submitted from various countries. As EUR 2 000 000 were available in 2012 (compared to only EUR 1 000 000 in 2011), 7 projects have been selected.

The funds needed to support all the projects which applied for funding amounted to approximately EUR 8 000 000, showing the relevance of the fund and the needs to be covered.

The number of applications received so far demonstrates the needs in the European Union for supporting the rehabilitation of torture victims.

Former Item 19 01 04 03 (in part)

This appropriation is intended to cover:

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the Commission and beneficiaries,
- expenditure on external personnel in Union delegations (contract agents, local agents or seconded national experts) for the purposes of devolved programme management in the Union delegations in third countries or for internalisation of tasks of phased out technical assistance offices, as well as the additional logistical and infrastructure cost, such as the cost of training, meetings, missions, information technology and telecommunications and of renting directly caused by the presence in the delegation of the external personnel remunerated from the appropriations entered in this item,
- expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the programme.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers support expenditure under Chapter 19 02.

Former Item 19 01 04 04

This appropriation is intended to cover support for implementation of CFSP measures for which the Commission lacks the required experience or needs additional support. The appropriation is intended to cover:

- expenditure on technical and administrative assistance which the Commission may delegate to an implementing agency governed by Union law,
- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the Commission and beneficiaries. This includes the costs associated with the update and maintenance of the 'electronic-Consolidated Targeted Financial Sanctions List (e-CTFSL)' necessary for the application of financial sanctions applied in pursuit of the specific CFSP objectives set out in the Treaty of the European Union.
- expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the programme.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. This appropriation is intended to cover:

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the Commission and beneficiaries,
- expenditure on external personnel (contract agents, seconded national experts or agency staff) at headquarters intended to take over the tasks previously conferred on dismantled technical assistance offices. Expenditure on external personnel at headquarters is limited to EUR 336 727. This estimate is based on a provisional annual unit cost per man-year, of which 95 % is accounted for by remuneration for the personnel concerned and 5 % by the additional cost of training, meetings, missions, information technology (IT) and telecommunications relating to those staff members,

Remarks

New article

This appropriation is intended to swiftly contribute to stability by providing an effective response to help preserve, establish or re-establish the conditions essential to the proper implementation of the Union's external policies and actions in accordance with Article 21 of the Treaty on the European Union. The technical and financial assistance may be undertaken in response to a situation of urgency, crisis or emerging crisis, a situation posing a threat to democracy, law and order, the protection of human rights and fundamental freedoms, or the security and safety of individuals, or a situation threatening to escalate into armed conflict or severely to destabilise the third country or countries concerned.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter and may be complemented by contributions for EU Trust Funds.

Remarks

The High Representative of the Union for Foreign Affairs and Security Policy must ensure that the European Parliament is closely involved in all stages of the decision-making process. The joint consultation meetings provided for under point 25 of the Inter-institutional Agreement of 2 December 2013 between the European Parliament, the Council and the Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management (OJ C 373, 20.12.2013, p. 1), which are to be further intensified on the basis of the Declaration by the High Representative on political accountability (OJ C 210, 3.8.2010, p. 1), must enhance a continuous dialogue between the High Representative and the European Parliament on the main choices for and aspects of the Union's CFSP, including consultations prior to the adoption of mandates and strategies. In order to enhance interinstitutional CFSP coherence and provide up-to-date expert advice to all institutions as a means of developing a more coherent and effective CFSP, expert policy-relevant research will be provided, when appropriate, by the European Union Institute for Security Studies and others.

Remarks

Former Article 19 03 05

This appropriation is intended to cover the financing of preparatory measures to establish the conditions for Union actions in the field of the CFSP and the adoption of the necessary legal instruments. It may cover evaluation and analysis measures (*ex ante* evaluation of means, specific studies, organisation of meetings, fact-finding on the ground). In the field of Union crisis management operations and for European Union Special Representatives (EUSRs), in particular, preparatory measures may, inter alia, serve to assess the operational requirements for an envisaged action, to provide for a rapid initial deployment of personnel and resources (e.g. mission expenses, purchase of equipment, pre-financing of running and insurance costs in the start-up phase), or to take the necessary measures on the ground to prepare for the launching of the operation. It may also cover experts supporting Union crisis management operations on specific technical issues (e.g. identification and assessment of procurement needs) or security training for staff to be deployed to a CFSP mission/EUSR team.

It also covers follow-up measures and audits of Common Foreign and Security Policy measures and the financing of any expenditure on the regularisation of previously closed measures.

This appropriation is also intended to cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the measures coming under Articles 19 03 01 01, 19 03 01 02, 19 03 01 03, 19 03 01 04 and 19 03 01 07.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Remarks

Former Article 19 03 06

This appropriation is intended to cover all the expenditure connected with the appointment of European Union Special Representatives (EUSRs) in accordance with Article 33 of the Treaty on European Union.

EUSRs should be appointed with due regard for gender equality and gender mainstreaming policies, and the appointment of women EUSRs should therefore be promoted.

This appropriation covers expenditure on the salaries of EUSRs and on setting up their teams and/or support structures, including staff costs other than those relating to staff seconded by Member States or Union institutions. It also covers the costs of any projects implemented under the direct responsibility of an EUSR.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

New article

This appropriation covers financial support for building confidence in, and enhancing the reliability and transparency of, democratic electoral processes through deployment of EU election observation missions and support for observation capacity at regional and national level.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Reference acts

Remarks

New article

This appropriation is intended to cover cooperation with third countries to advance and promote Union and mutual interests under the Partnership Instrument, in particular with developed and developing countries which play an increasingly prominent role in the world affairs, including foreign policy, international economy and trade, multilateral forums, global governance and in addressing challenges of global concern or where the Union has significant interests. This cooperation includes measures supporting the Union's bilateral, regional or multilateral relationships in addressing challenges of global concern, the implementation of the international dimension of the 'Europe 2020' strategy, trade and investment opportunities and public diplomacy and outreach activities.

Remarks

The preparatory action aims at increasing a broader transatlantic dialogue and cooperation involving Northern and Southern Atlantic countries in order to address common global challenges. The aim is to look into the feasibility of implementing common short and longer term goals in fields such as economic cooperation, global governance, development cooperation, climate change, security and energy. This preparatory action should serve to strengthen a triangular dialogue, or even an extended Atlantic dialogue, as well as to promote the idea of a wider Atlantic Community.

Legal basis

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

Former Article 19 11 02

This appropriation is intended to cover expenditure on information outreach on the Union's external relations. The information activities to be carried out under this article fall into two broad categories: horizontal activities and logistical support from headquarters, and activities carried out by Union delegations in third countries and vis-à-vis international organisations.

Measures carried out from headquarters:

- the European Union visitors programme (EUVP), carried out jointly by the European Parliament and the Commission, provides some 170 participants a year, chosen by the Union delegations, with the opportunity of experiencing contact with the Union by visiting the European Parliament and the Commission as part of a made-to-measure individual programme of visits based on a theme,
- the production and distribution of publications on priority themes as part of an annual programme,
- the production and dissemination of audiovisual material,
- the development of information delivered via electronic media (the Internet and electronic message systems),
- the organisation of visits for groups of journalists,
- the support for the information activities of opinion leaders that are consistent with the Union's priorities.

The Commission will continue to fund news broadcasts in Farsi.

Decentralised measures carried out by Union delegations in third countries and vis-à-vis international organisations:

In accordance with the communication goals laid down for each region and each country, the Union delegations propose an annual communication plan, which, once approved by headquarters, is assigned a budgetary allocation covering the following activities:

- websites,
- relations with the media (press conferences, seminars, radio programmes, etc.),
- information products (other publications, graphic material, etc.),
- organisation of events, including cultural activities,
- newsletters,
- information campaigns.

This appropriation is intended to cover the following actions:

Activities supporting the conduct of ongoing and new multi- and bilateral trade negotiations

Actions aim to strengthen the Union's negotiating position in ongoing multilateral trade negotiations (in the context of the Doha Development Agenda) as well as ongoing and new bilateral and regional trade negotiations, to ensure that Union policy conception is based on comprehensive and up-to-date expert information and to build coalitions for their successful completion, including:

- meetings, conferences and seminars in connection with the preparation of policy and negotiating positions and with the conduct of ongoing as well as new trade negotiations,
- development and implementation of a consistent and comprehensive communication and information strategy, promoting the Union's trade policy and raising awareness of the detail and objectives of the Union's trade policy and ongoing negotiation positions, both within and outside the Union,
- information activities and seminars for State and non-State actors (including civil society and business actors) to explain the state of play of ongoing negotiations and of the implementation of existing agreements.

Studies, evaluations and impact assessments in relation to trade agreements and policies

Actions to ensure that the Union's trade policy is underpinned by, and takes proper account of, *ex-ante* and *ex-post* evaluation results, including:

- impact assessments carried out in view of possible new legislative proposals and sustainable impact assessments carried out in support of ongoing negotiations in order to analyse the potential economic, social and environmental benefits of trade agreements and, where necessary, to propose flanking measures to combat any negative outcomes for specific countries or sectors,
- evaluations of the policies and practices of the Directorate-General for Trade to be carried out following its multiannual evaluation plan,
- expert, legal and economic studies related to ongoing negotiations and existing agreements, policy developments and trade disputes.

TITLE 20 — TRADE

CHAPTER 20 02 — TRADE POLICY (*cont'd*)20 02 01 (*cont'd*)*Trade-related technical assistance, training and other capacity-building actions towards third countries*

Actions aiming to strengthen the capacity of third countries to participate in international, bilateral or bi-regional trade negotiations, to implement international trade agreements and to participate in the world trading system, including:

- projects involving training and capacity-building actions aimed at developing country officials and operators, mainly in the field of sanitary and phyto-sanitary measures,
- reimbursement of the expenses of participants in forums and conferences designed to build awareness and expertise in trade affairs among developing country nationals,
- management, further development and promotion of the Export Helpdesk that provides industry in developing countries with information on access to Union markets, and facilitates efforts by such industry to take advantage of market access opportunities offered by the international trading system,
- trade-related technical assistance programmes arranged in the forum of the World Trade Organisation (WTO) and other multilateral organisations, in particular WTO Trust Funds, in the framework of the Doha Development Agenda.

Market access activities supporting the implementation of the Union's market access strategy

Actions in support of the Union's market access strategy, which aims at removing or lowering barriers to trade, identifying trade restrictions in third countries and, where appropriate, removing obstacles to trade. These actions may include:

- maintenance and further development of the market access database, available to economic operators via the Internet, listing trade barriers and other information affecting Union exports and Union exporters; purchase of the necessary information, data and documentation for this database,
- specific analysis of the various obstacles to trade in key markets, including analysis of the implementation by third countries of their obligations under international trade agreements in connection with the preparation of negotiations,
- conferences, seminars and other information activities (e.g. production and distribution of studies, information packs, publications and leaflets) to inform businesses, Member States officials and other actors about trade barriers and trade policy instruments aimed at protecting the Union against unfair trading practices such as dumping or export subsidies,
- support to the European industry for the organisation of activities specifically geared towards market access issues.

Activities supporting the implementation of existing rules and monitoring of trade obligations

Actions to support the implementation of existing trade agreements and the enforcement of related systems that enable effective implementation of these agreements as well as the conduct of investigations and inspection visits to ensure third countries are respecting the rules, including:

- exchange of information, training, seminars and communication activities to support the implementation of existing Union legislation in the area of dual use export controls,
- activities to facilitate investigations carried out in the context of the trade defence investigations with the aim of defending Union producers against unfair trade practices by third countries (anti-dumping, anti-subsidy and safeguards instruments) that can be harmful to the economy of the Union. In particular, activities will focus on the development, maintenance and security of information technology systems supporting trade defence activities, the production of communications tools, the purchase of legal services in third countries and the conducting of expert studies,
- activities supporting the advisory group on monitoring the implementation of the EU-Korea Free Trade Agreement and other free trade agreements such as the Central America Association Agreement and the Columbia-Peru Free Trade Agreement. This includes financing of the members' and experts' travel expenses and accommodation,

CHAPTER 20 02 — TRADE POLICY (*cont'd*)**20 02 01** (*cont'd*)

- activities with a view to promoting the Union's external trade policy through a process of structured dialogue with key opinion formers of civil society and stakeholders, including small and medium-sized enterprises, on external trade issues,
- activities related to the promotion and communication on trade agreements, both within the Union and in the partner countries. This will primarily be implemented by means of production and dissemination of audiovisual, electronic and graphical support and printed publications, subscriptions to trade media and database, translation of communication materials into non-Union languages, media-oriented actions, including new media products,
- development and maintenance of information systems in support of the operational activities in the 'Trade' policy area such as: Integrated Statistical Database (ISDB), Dual Use e-system, Market Access Data Base, Export Helpdesk, Export Credit Database, SIGL and SIGL Wood, Civil Society, EPA Monitoring, Anti-Counterfeiting Rapid Intelligence Service System (ACRIS).

Legal and other expert assistance required in implementation of existing trade agreements

Actions to ensure that the Union's trading partners effectively adhere to and comply with obligations arising under the WTO and other multilateral and bilateral agreements, including:

- expert studies, including inspection visits, as well as specific investigations, and seminars on implementation by third countries of their obligations under international trade agreements,
- legal expertise, especially on questions of foreign law, required to facilitate defence by the Union of its position in WTO dispute-settlement cases, other expert studies necessary for the preparation, management and follow-up to WTO dispute settlement cases,
- arbitration costs, legal expertise and fees incurred by the Union as party to the disputes arising from the implementation of international agreements concluded under Article 207 of the Treaty on the Functioning of the European Union.

Investor to state dispute settlement as established by international agreements

The following expenditure is to support:

- arbitration costs, legal expertise and fees incurred by the Union as party to the disputes arising from the implementation of international agreements concluded under Article 207 of the Treaty on the Functioning of the European Union,
- payment of a final award or of an award settlement paid to an investor in the context of such international agreements.

Activities supporting trade policy

This appropriation is also intended to cover general expenditure on translations, press events, information and publications directly linked to the achievement of the objective of the programme or measures coming under this article, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts, such as the maintenance of the Directorate-General for Trade's Internet site.

Any revenue in the context of the management by the Union of the financial responsibilities linked to investor-state dispute settlement may give rise to the provision of additional appropriations in accordance with Article 21(4) of the Financial Regulation.

Remarks

This appropriation is intended to fund multilateral programmes and initiatives in the field of trade-related assistance to strengthen the capacity of developing countries to participate effectively in the multilateral trading system and regional trading arrangements and to improve their trade performance.

Multilateral initiatives and programmes to be funded under this appropriation will support the following actions:

Assistance for trade policy, participation in negotiations and implementation of trade agreements

Actions to strengthen the capacity of developing countries to formulate their trade policy and to strengthen the institutions involved in trade policy, including comprehensive and updated trade reviews and assistance in integrating trade into their respective policies for economic growth and development.

Actions to strengthen the capacity of developing countries to participate effectively in international trade negotiations and to implement international trade agreements.

Research to advise policymakers how best to ensure that the specific interests of small producers and workers in developing countries are reflected across all policy areas and promote an enabling environment for producers' access to trade-related sustainability assurance schemes.

This assistance is primarily targeted at the public sector.

Trade development

Actions to reduce supply-side constraints which impact directly on the ability of developing countries to exploit their international trading potential, including, in particular, private-sector development.

CHAPTER 20 02 — TRADE POLICY (*cont'd*)**20 02 03** (*cont'd*)

This appropriation complement the Union's geographical programmes and should only cover multilateral initiatives and programmes that offer real added value to the Union's geographical programmes, in particular the Integrated Framework for Least Developed Countries.

The Commission will provide a bi-annual report on implementation and results obtained and on the main outcomes and effects of aid for trade assistance. The Commission will provide information on a total figure for all aid for trade finance coming from within the general budget of the Union, and a total figure for aid for trade from within all 'trade-related assistance' provided.

Legal basis

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

- expenditure on external personnel in Union delegations (contract agents, local agents or seconded national experts) for the purposes of devolved programme management in the Union delegations in third countries or for internalisation of tasks of phased-out technical assistance offices, as well as the additional logistical and infrastructure cost, such as the cost of training, meetings, missions, IT and telecommunications and of renting directly caused by the presence in the Union delegation of the external personnel remunerated from the appropriations entered in this item,
- expenditure on studies, meetings of experts, information systems and publications directly linked to the achievement of the objective of the programme.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers support expenditure under Chapter 21 02.

This appropriation is intended to cover:

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the Commission and beneficiaries,
- expenditure on external personnel (contract agents, seconded national experts or agency staff) at headquarters intended to take over the tasks previously conferred on dismantled technical assistance offices. Expenditure on external personnel at headquarters is limited to EUR 1 613 273. This estimate is based on a provisional annual unit cost per man-year, of which 95 % is accounted for by remuneration for the staff concerned and 5 % by the additional cost of training, meetings, missions, information technology (IT) and telecommunications relating to those staff members,
- expenditure on external personnel in Union delegations (contract agents, local agents or seconded national experts), for the purposes of devolved programme management in the Union delegations in third countries or for internalisation of tasks of phased-out technical assistance offices, as well as the additional logistical and infrastructure cost, such as the cost of training, meetings, missions, IT and telecommunications and of renting directly caused by the presence in the delegation of the external personnel remunerated from the appropriations entered in this item,
- expenditure on studies, meetings of experts, information systems and publications directly linked to the achievement of the objective of the programme.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers support expenditure under Chapter 21 04.

Remarks

The primary objective of the Union's development policy is poverty reduction, as laid down in the Treaty. The European Consensus on Development provides the general policy framework, guidance and the focus to direct implementation of the DCI regulation.

Appropriations in this chapter will be used for the pursuit of poverty reduction, sustainable development and establishment and enjoyment of human rights, including those reflected in the Millennium Development Goals and in the emerging post-2015 international development framework. In support of this, part of the appropriation will be used for the promotion and consolidation of democracy, the rule of law and good governance. Synergies with other Union external instruments shall be sought where appropriate, without any loss of focus on the above basic objectives.

100 % of expenditure in the geographic programmes and at least 95 % of expenditure in the thematic programmes must conform to the OECD/DAC criteria for Official Development Assistance (ODA).

As a general rule, at least 20 % of appropriations should be used for basic social services.

21 02 07 *Global public goods and challenges and poverty reduction, sustainable development and democracy*

Remarks

This programme is intended to benefit primarily the poorest and least developed countries and the most disadvantaged sections of the population in countries covered by the DCI regulation.

This appropriation is intended to cover poverty reduction and fostering sustainable development as a component under the Global Public Goods and Challenges (GPGC) thematic programme. The objective of the programme is to support inclusive sustainable development by addressing the main global public goods and challenges in a flexible and cross-cutting manner. The main areas of action include environment and climate change, sustainable energy, human development (including health, education, gender, equality, identity, employment, skills, social protection, social inclusion, and economic-development-related aspects such as growth, jobs, trade and private-sector engagement), food and nutrition security, sustainable agriculture, and migration and asylum. This thematic programme will also enable a swift response to be made to unforeseen events and global crises affecting the poorest populations. By promoting synergies across the various sectors, the GPGC programme will reduce fragmentation of Union development cooperation and increase coherence and complementarity with other Union programmes and instruments.

Remarks

This appropriation is intended to provide financial support to actions under the 'Environment and climate change subtheme', of the 'Global public goods and challenges' thematic programme.

It shall be used in particular to support protection of biodiversity and ecosystems, sustainable management of land and waters and resilience in relation to climate change related phenomena such as more frequent occurrence of extreme weather conditions. Attention shall be paid to relevant governance issues and support be given to the pursuit of relevant global targets, such as sustainability goals set within a post-2015 development framework.

Part of this appropriation is to be used for the mainstreaming of disaster risk reduction, based on ownership and national strategies of disaster-prone countries.

Part of these appropriations are intended to be used for operations carried out by senior volunteer experts of the Confederation of European Senior Expert Services (CESES) and its member associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. For that to be achieved, Union authorising officers are encouraged to make full use of the possibilities offered by the new financial regulation, notably taking into account in-kind financing by CESES as contribution to Union projects.

In order to ensure full financial transparency pursuant to Articles 53 to 56 of Council Regulation (EC, Euratom) No 1605/2002, the Commission, when concluding or modifying agreements on the management and implementation of projects by international organisations, will make all efforts that they commit to sending all their internal and external audits to the European Court of Auditors and to the Internal Auditor of the Commission regarding the use of Union funds.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. These contributions pursuant to Article 6 3 3 of the statement of revenue constitutes assigned revenue in accordance with Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter and may be complemented by contributions for Union Trust Funds.

Where assistance is delivered via budget support, the Commission shall support efforts of partner countries to develop parliamentary oversight, audit capacities and transparency in line with Article 25(1)(b) of Regulation (EC) No 1905/2006. Appropriations under this article are subject to evaluations as established in Article 33 of Regulation (EC) No 1905/2006. These evaluations shall include aspects of input activities and chain of results (output, outcome, impact). The findings of the evaluations shall be used in the formulation of subsequent measures financed with these appropriations.

Remarks

This appropriation is intended to support initiatives in developing countries carried out by local authorities originating in the Union and partner countries in the area of development as well as to strengthen their capacity in the policymaking process, so as to:

- promote an inclusive and empowered society in order to: (i) favour populations out of reach of mainstream services and resources and excluded from policymaking processes; (ii) strengthen the capacity of local and regional authorities in partner countries, with a view to facilitating their participation in defining and implementing sustainable development strategies; and (iii) facilitate interaction between state and local and regional authorities in different contexts, and support an increased role for local authorities in decentralisation processes,
- increase Europeans' awareness of development issues and mobilise active public support in the Union and acceding countries for poverty reduction and sustainable development strategies in partner countries and for fairer relations between developed and developing countries, including raising awareness of North-South trading relations and Union consumers' purchasing decisions and their impact on sustainable development and poverty reduction, and reinforce the roles of local and regional authorities for these purposes,
- achieve more efficient cooperation, foster synergies and ensure structured dialogue among local and regional authorities associations and with civil society, within their organisations and with Union institutions.

These initiatives may also include:

- support to advocacy activities to inform policymakers at all levels on policies that best benefit marginalised producers and workers in developing countries,
- developing and strengthening associations and cooperatives in developing countries so that they can build institutional and productive capacities to be able to develop added value products and scale up.

Remarks

The overarching purpose of this appropriation is to contribute to the creation of conditions for sustainable and inclusive economic and social development, social cohesion, democratisation and the improvement of people's lives. Emphasis shall be put on support food security and sustainable agriculture, water and sanitation, the provision of health and education services and access to sustainable energy security, with a steady focus on those most in need. Disaster preparedness and climate change adaptation are of great relevance.

Possibilities to stimulate creation of employment opportunities and to promote decent working conditions shall receive attention. Support for SME development can be given, with a view in particular to promote economic diversification and social development.

When and where governance reform efforts of a meaningful nature and genuine democratisation processes exist, providing support for them shall be a priority. Similarly, allocations to border management and anti-drugs programmes shall depend on the outlook for achieving significant results.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Remarks

This article is intended to cover the reduction and, in the long term, the eradication of poverty, fostering sustainable economic, social and environmental development, the promotion of democracy, rule of law, good governance and respect for human rights, as a component of the Pan-African Programme that is being set up to implement the Joint Africa-EU Strategy (JAES).

In particular the Pan-African programme shall be used to provide specific support to development cooperation activities of trans-regional, continental and trans-continental nature, as well as relevant JAES initiatives in the global arena. The Pan-African Programme will work in close cooperation/concertation with other instruments, notably the European Neighbourhood Instrument (ENI), the European Development Fund (EDF) and the thematic programmes under the DCI, and will concentrate on specific initiatives agreed in the framework of JAES and its Action Plans for which no alternative source of funding can be mobilised, thus ensuring the necessary coherence and synergy and preventing duplications and overlaps.

The instrument should be clearly focused on development cooperation activities and not include activities that could be covered by other instruments such as the Stability instrument. The target of this instrument should be more clearly defined to avoid overlapping and the use of DCI money for other activities not related to development cooperation.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter and may be complemented by contributions for Union Trust Funds. Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services — CESES — and its Member Associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. For that to be achieved, Union authorising officers are encouraged to make full use of the possibilities offered by the new financial regulation, notably taking into account in-kind financing by CESES as contribution to Union projects.

A small part of this appropriation is intended to implement the Participatory Rangeland Management (PRM) tool in three different rangeland areas in Kenya, Uganda and Tanzania.

The pastoral livestock production system depends on mobility, access to grazing and water in order to manage both seasonal resource variability and periodic drought. However, with growing concerns in the Horn of Africa, large scale land interests, loss of biodiversity, climate change impact, food insecurity, population growth and the lack of coherent policies in relation to management of and the decision-making in the rangelands, the livelihood systems in the rangelands and their productivity are undermined. Therefore, there is an urgent need for setting up a comprehensive approach of the management of Eastern Africa's rangelands.

This pilot project should be composed of three stages.

Stage 1: Investigating PRM and mapping livestock tracking routes — devoted to gathering and mapping information about different resources and their uses found in the rangelands, stakeholders and users.

Stage 2: Negotiating PRM and facilitating legal support for livestock tracking routes — devoted to identifying rangeland management institutions and negotiating with them, via participatory rangeland resource assessment, the geographical area for which they should be responsible, drafting the rangeland management plan, including monitoring and evaluation and adaptive management.

Stage 3: Implementing PRM — devoted to the implementation of the rangeland management plan and adherence to the rangeland management agreement by the rangeland users, supported by the appropriate government office providing necessary technical advice and legal backing.

Remarks

The purpose of development cooperation under this article is primarily its contribution to support the promotion of democracy, good governance, equality, respect for human rights and for the rule of law, and fostering sustainable development and economic integration, as well as to achieving the Millennium Development Goals.

This appropriation is intended to cover cooperation schemes in developing countries, territories and regions in Latin America in order to:

- contribute to the achievement of MDGs targets in the region,
- support trade union, non-governmental organisations and local initiatives to monitor the impact to the investments on the national economy, particularly respect for labour, environmental, social and human right standards,
- support gender equality through supporting actions to combat harmful traditional practices such as FGM/C and Child marriage,
- foster the development of civil society,
- combat poverty and social exclusion and promote social cohesion,
- contribute to improve social standards with focus on education, including education and vocational training for employment, and health, and to the improvement of social protection schemes,
- promote a more favourable climate for economic expansion and enhanced productive sector, encourage the transfer of know-how, promote contact and collaboration between business players bi-regionally,
- promote private sector development, incl. an SME-friendly business climate via i.e. legal property rights, reducing unnecessary administrative burden, improving access to credit, improving associations of small and medium-sized enterprises,
- support efforts towards food security and combat malnutrition,
- support regional integration; in Central America, foster region's development via enhanced benefits derived from the EU-Central America association agreement,
- promote the sustainable use of natural resources, including water, and the combating of climate change (mitigation and adaptation),
- support efforts for improving good governance and help consolidate democracy, human rights and the rule of law,
- promote policy reform particularly in the area of justice and security and support related actions to enhance development of countries and regions,
- gender quality and the empowerment of women.

Where assistance is delivered via budget support, the Commission shall support efforts of partner countries to develop parliamentary oversight and audit capacities and transparency.

COMMISSION
TITLE 21 — DEVELOPMENT AND COOPERATION

CHAPTER 21 02 — DEVELOPMENT COOPERATION INSTRUMENT (DCI) (cont'd)

21 02 12 (cont'd)

The Commission must continue to report annually on the benchmark, used in the past, for assistance to developing countries to be allocated to social infrastructure and services, recognising that the Union contribution must be seen as part of the overall donor support to the social sectors and that a degree of flexibility must be the norm. Moreover, also in accordance with that Commission Declaration, the Commission will endeavour to ensure that a benchmark of 20 % of its allocated assistance under country programmes covered by the DCI will be dedicated to basic and secondary education and basic health, through project, programme or budget support linked to these sectors, taking an average across all geographical areas and recognising that a degree of flexibility must be the norm, such as in cases where exceptional assistance is involved.

Appropriations under this Item are subject to evaluations that shall include aspects of input activities and chain of results (output, outcome, impact). The findings of the evaluations shall be used in the formulation of subsequent measures financed with these appropriations.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services — CESES — and its Member Associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. For that to be achieved, Union authorising officers are encouraged to make full use of the possibilities offered by the new financial regulation, notably taking into account in-kind financing by CESES as contribution to Union projects.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter and may be complemented by contributions for Union Trust Funds.

Remarks

The appropriation for 2014 is intended to assist South Africa in strengthening its education, training and research system so that it can contribute to improved economic performance of the country.

COMMISSION

TITLE 21 — DEVELOPMENT AND COOPERATION

CHAPTER 21 02 — DEVELOPMENT COOPERATION INSTRUMENT (DCI) (*cont'd*)21 02 13 (*cont'd*)

The education, training and research system has been identified as one of three areas in South Africa's recently developed National Development Plan 2030 as being critical to improving overall economic performance (the other areas being employment and building a capable state) by providing people with the skills necessary to enhance both the individuals' and the economy's prospects. The support can therefore be expected to contribute to improving the performance of the public sector system in areas such as improving the performance of teachers; improving school management and accountability; ensuring that innovation exists in the classroom; promotion of early childhood education; improving mathematics and science teaching; providing after-school assistance to children.

Also, the overall objective of this programme is to contribute to the implementation of the South Africa's recently developed National Development Plan 2030 and the accompanying outcome-based approach, which aim to improve the conditions of life of South Africans including halving poverty and unemployment, while being aligned with the Millennium Development Goals (MDGs). The programme purpose is to contribute to the overall objective in the areas of decent employment creation through inclusive economic growth and the establishment of an efficient, effective and development oriented public service and an empowered, fair and inclusive citizenship. Areas that impact in these two key outcomes relate to job opportunities for a skilled and capable workforce; employment creation to enhance environment assets and natural resources; and creating a responsible, accountable, effective and efficient local government system that will enhance a development oriented public service.

The appropriation is also intended to contribute to the fight against poverty and achieving the Millennium Development Goals, taking into account the needs of the previously disadvantaged communities and integrate gender and environmental dimensions of development.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services — CESES — and its Member Associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. For that to be achieved, Union authorising officers are encouraged to make full use of the possibilities offered by the new financial regulation, notably taking into account in-kind financing by CESES as contribution to Union projects.

Work is likely to be in the form of pilots in a number of districts, which could then be replicated with Government resources.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter and may be complemented by contributions for Union Trust Funds.

Remarks

The appropriation is intended to cover the financing of development schemes in Asian developing countries, in particular in countries where the poorest people live, aimed at improving human and social development as well as tackling macroeconomic and sectoral problems. Emphasis is placed on operations influencing economic organisation and institutional development, improving the human rights situation, including freedom of worship, the strengthening of civil society, including operations concerning democratisation, education, vocational training, lifelong learning, academic and cultural exchange, scientific and technological exchange, the environment, tropical forests, anti-drugs campaigns, regional cooperation, disaster prevention and reconstruction measures, as well as the promotion of sustainable energy and information and communications technology.

It is also intended to cover support for the development of civil society and, in particular, support for the activities of non-governmental organisations promoting and defending the rights of vulnerable groups, such as women, children, ethnic minorities and people with disabilities.

This appropriation is also intended to cover the promotion of an SME-friendly business climate through legal property rights, cutting red tape and improving access to credit as well as improving associations of small and medium-sized enterprises.

Utilisation of this appropriation is dependent on observance of the principles underpinning Union action. Appropriate consideration shall be given to the areas described below, reflecting jointly-agreed strategies, partnerships, cooperation and trade agreements. Priorities will be established in accordance with the European Consensus for development and the Agenda for change and with the subsequent conclusions of the Council.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services — CESES — and its Member Associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. For that to be achieved, Union authorising officers are encouraged to make full use of the possibilities offered by the new financial regulation, notably taking into account in-kind financing by CESES as contribution to Union projects.

This appropriation is intended to include actions related to inclusive and sustainable growth for human development. Sectors that may be addressed include:

- social protection and jobs, and universal access to health and, education,
- business environment, regional integration and world markets,
- sustainable agriculture, nutrition and energy,
- climate change and environment,
- encouraging social cohesion, in particular social inclusion, fair income distribution, decent work and equity and gender equality,
- establishing inclusive partnerships around trade, investment, aid, migration, civil registration, research, innovation and technology,
- supporting an active and organised civil society for development and fostering public private partnerships,
- supporting climate change mitigation and adaptation, the promotion of sustainable consumption and production as well as investments in clean technologies, sustainable energies, transport, sustainable agriculture and fisheries, the protection of and enhancement of biodiversity and ecosystem services, including water, sanitation and forests, and decent job including creation for young people and women, in the green economy,
- encouraging greater regional integration and cooperation in a result-oriented way through support to different processes of regional integration and dialogue,

COMMISSION

- contributing to preventing and responding to health risks, including those originating at the interface between animals, humans and their various environments,
- supporting disaster preparedness and post disaster long term recovery, including in the field of food and nutrition security and assistance to uprooted people,
- strengthening the capacity to provide universal access to basic social services particularly in health and education.

This appropriation will address actions related to:

- democracy, human rights including children and women rights and the rule of law,
- gender equality and the empowerment of women and girls,
- public sector management,
- tax policy and administration,
- corruption and transparency,
- civil society and local authorities,
- building and strengthening legitimate, effective and accountable public institutions and bodies, through promotion of institutional reforms (including on good governance and anti-corruption, public financial management, taxation and public administration reform) and legislative, administrative and regulatory reforms in line with international standards, in particular in fragile states and countries in conflict and post-conflict situations,
- in the context of the security and development nexus, fighting against corruption and organised crime, production, consumption and trafficking of drugs and against other forms of trafficking, and supporting efficient border management and cross-border co-operation and improving civil registration.

The purpose of development cooperation under this heading is primarily its contribution to achieving the Millennium Development Goals as well as the promotion of democracy, good governance, respect for human rights and for the rule of law, fostering sustainable development and economic integration and promoting conflict prevention, conflict resolution and reconciliation.

Moreover, also in accordance with that Commission Declaration, the Commission will endeavour to ensure that a benchmark of 20 % of its allocated assistance under country programmes covered by the DCI will be dedicated to basic and secondary education and basic health, through project, programme or budget support linked to these sectors, taking an average across all geographical areas and recognising that a degree of flexibility must be the norm, such as in cases where exceptional assistance is involved.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter and may be complemented by contributions for Union Trust Funds.

Remarks

This appropriation is intended to cover Union operations in the framework of the Afghanistan reconstruction process. It is supplemented by expenditure from other chapters and articles, to which different procedures apply.

The Commission will monitor compliance with the conditions for the Union contribution to this process, notably full implementation of the post-Bonn process. It will keep the budgetary authority informed on its findings and conclusions.

This appropriation is intended to support basic social services and economic development in Afghanistan.

This appropriation is also intended to support the Afghanistan national drug control strategy, including halting the production of opium in Afghanistan, and the disruption and destruction of the opium networks and illegal export routes to European countries.

A relevant part of this appropriation must be exclusively devoted to fund the start-up of the five-year plan for phasing out opium cultivation by replacing it with alternative production in order to obtain a verifiable outcome in this field, in line with the demands expressed in the European Parliament resolution of 16 December 2010 on a new strategy for Afghanistan (OJ C 169 E, 15.6.2012, p. 108).

This appropriation is also intended to support the Union contribution to the processes for the return of Afghan refugees and displaced persons to their country and regions of origin in accordance with the commitments entered into by the European Community at the Tokyo Conference in January 2002.

This appropriation is also intended to finance activities of women's organisations which have worked for a long time for Afghan women's rights.

The Union should increase its financial assistance in Afghanistan for areas such as health (construction and renovation of hospitals, prevention of child mortality) and small and medium-sized infrastructure projects (repairing of road network, embankments, etc.), as well as effectively implementing job security and food security schemes.

Part of this appropriation is intended to be used for mainstreaming of disaster risk reduction, based on ownership and national strategies of disaster-prone countries.

Part of this appropriation is intended to be used, with due regard for the Financial Regulation, to improve the situation of women, with priority for actions in the fields of health and education, and to support their active involvement in all areas and at all levels of decision-making.

Particular attention will also be paid to the situation of women and girls in all other actions and projects supported by this appropriation.

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

This appropriation is intended to fund the establishment of an East-African regional network of Millennium Development Goal 5 organisations, bringing together existing national CSO platforms of advocacy and service-delivery organisations from Kenya, Ethiopia, Somalia, Tanzania, Uganda, Rwanda and Burundi — all countries with some of the worst maternal and reproductive health indicators worldwide. This Millennium Development Goal 5 network will aim at providing an informal forum for the exchange of ideas, information and experience in the field of maternal and reproductive health and at providing opportunities for member organisations to explore possibilities for multi-country collaboration and cooperation to highlight the urgent need for increased political and financial attention on Millennium Development Goal 5.

Activities carried out under this project include the establishment of a network secretariat in one of the member organisations, the establishment of virtual platform to disseminate and share information and best practices as well as the organisation of regional events with the aim of improving maternal and reproductive health outcomes in the region.

Former Item 21 05 01 09

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The preparatory action is intended to train Congolese physicians in both general gynaecological surgery and in critical procedures such as repairing fistulas and pelvic reconstruction.

The preparatory action concerning sexual violence in the DRC is currently in its second year. It may be continued for a third and final year in 2014.

Objectives

This project is being funded from appropriations for the second year of preparatory action 21 05 01 09 and covers seven health districts in eastern DRC, where the situation has markedly deteriorated. The project focuses on providing training in treating victims of sexual violence (repairing fistulas) and in gynaecological and obstetric procedures.

The appropriations are to be used for:

- overall objective: helping to improve the health care given to victims of sexual violence in North Kivu and the Eastern Province,
- specific objective:

building the capacity of health care facilities and staff in North Kivu and the Eastern Province to repair genital fistulas and carry out gynaecological and obstetric surgery.

Implementation

The project is being funded under the preparatory action and implemented on the basis of direct centralised management by the Commission through the Union delegation to the DRC, under a funding agreement concluded with the DRC.

Legal basis

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

*Remarks**Former Article 21 03 04*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

Two fundamental issues the people and countries in the Horn of Africa suffer from are (1) the absence of participatory government and stability and (2) the absence of democracy and democratic processes and genuine participation of the people. Both are related to a fundamental and lasting crisis in governance in all countries of the Horn. In fact the impact of this crisis is felt in the whole of North-East Africa and as well as in Europe. Unless the issues are addressed by the Union and others with a comprehensive perspective, there is no hope for sustainable livelihoods, economic growth and a peaceful and stable region. An Arab Spring scenario in this region, without a long-term vision and long-term investment from the international community to underpin it, will lead nowhere.

The proposed pilot project addresses these issues with a two-part strategy, each part building on the other. Both are essential in order to develop long-term, credible alternatives to the Horn's military dictatorial regimes.

(1) Ensure sufficient space for civil society, coupled with strategic investment in genuine civil society actors. Civil society in the Horn of Africa and its diaspora in Africa faces increasing challenges in terms of ability to function and human rights abuses. Government policy in the countries in the Horn is increasingly based on distrust and focused on control and containment rather than support or facilitation of civil society. Authorities in the Horn view civil society as a threat, if not a direct opponent, and do not allow their policies to be complemented, let alone challenged, by civil society. However civil society plays a key part in democratic systems and processes. The tightening environment for civil society therefore needs to be challenged at national and regional level to allow civil society to be part of democratic processes. Civil society actors themselves need to be strengthened to effectively deal with this increasingly difficult environment to operate in as well as deal with future democratic processes.

COMMISSION
TITLE 21 — DEVELOPMENT AND COOPERATIONCHAPTER 21 02 — DEVELOPMENT COOPERATION INSTRUMENT (DCI) (*cont'd*)21 02 77 (*cont'd*)21 02 77 15 (*cont'd*)

(2) Strengthen youth and youth movements in the Horn of Africa with a view to effectively preparing them for future democratic changes. Young people, both in the Horn and in the diaspora in Africa, are the future for their countries but lack skills and knowledge, as well as life experience in a peaceful and democratic environment. They also lack the means to develop those skills and their governments hardly invest in young people. They are often housed in refugee camps. The displacement and often unclear legal status mean that learning opportunities pass them by. In order to train future leaders and senior government officials and establish genuine democratic processes, external investment in the Horn's youth is essential. Investment in their skills, tapping effectively into their enthusiasm, dreams and hopes for the future is more strategic than investment in changing the current establishment.

This pilot project invests in the following countries: Sudan and South Sudan, Eritrea, Ethiopia, Somalia (Somaliland, Puntland) and Djibouti. It will invest at national as well as (sub-)regional level but assumes that a regional approach takes primacy.

People in the Horn of Africa suffer from the absence of participatory government, stability, democracy and genuine participation. Unless these issues are addressed comprehensively, there is no hope for sustainable livelihoods, economic growth, peace and stability in the region.

The pilot project aims to contribute to long-term, credible alternatives to military dictatorial regimes in the Horn, by ensuring sufficient space for civil society and strengthening youth and youth movements.

Djibouti: The actions proposed by the project are needed because CSOs in Djibouti are underdeveloped and play only a marginal role in the development process of the country. The project could also focus on providing support to reinforce the lack of familiarity of CSOs with participatory processes and the number of increase of implementing partner in the country.

Ethiopia: Support to CSOs and to democratisation in Ethiopia is particularly appropriate, given the difficult environment for CSOs at the moment. However, it is recommended that the project is re-designed to focus on the youth component as other components are already covered by other instruments and budget lines (EDF, DCI-CSO/LA thematic programme, EIDHR). The project could also focus on providing support to reinforce the lack of familiarity of CSOs with participatory processes and the number of increase of implementing partner in the country.

Eritrea: for Eritrea the support to democratisation and youth is most important. At the same time, one should take into account that the space for CSOs to work in Eritrea is extremely limited.

Soudan and South Sudan: Overlap with the geographical programmes is avoided by providing capacity building to different Government structures, in particular the Judiciary, under the governance/rule of law component. Synergies with other instruments, such as EIDHR and the CSO/LA thematic programme of the DCI, should be encouraged.

Regional perspective: The regional component of this project is particularly useful, as it is not covered by any existing instrument.

The project should also formulate complementary activities such as increased capacity building to youth associations and set up of additional networks between targeted organisations in the benefiting countries, as well as to extend the duration of the action in order to ensure the sustainability of the project.

Remarks

Despite collaboration between the World Organisation for Animal Health (OIE) and the Union on the evaluation of the performance of veterinary services (PVS), on the governance of animal health services and on avian influenza, there is a very urgent need to strengthen and fund veterinary services in developing countries, as explained below.

- (a) Animal diseases are responsible for a 20 % loss of livestock output globally and a 30 % loss in developing countries. Almost one billion people in developing countries (Sub-Saharan Africa and South-East Asia) rely on livestock for their survival. Livestock health is critical to poverty reduction. However, problems can only be dealt with at source if recognised quickly and professionally.

Therefore, as stated in *Nature News*, on 5 July 2012:

'Developing countries need help to develop reporting and surveillance networks and training for farmers and veterinarians in spotting and reporting incidents of disease,' says Bernard Vallat, Director-General of the OIE in Paris.

Recent international efforts to address animal and human influenza have clearly highlighted the need to further encourage a cross-sectoral approach to good governance, to strengthen public health and animal health systems to comply with international standards, and to promote alliances between the public and private sectors in those fields.

The burden of animal diseases, including their economic impact (on primary production, on trade and on processed products) as well as the need to address all animal diseases, both zoonotic (e.g. tuberculosis, brucellosis, rabies and anthrax) and non-zoonotic (e.g. foot-and-mouth disease, *peste des petits ruminants*) must be taken into account in order to protect consumers, pets (which can transmit diseases to humans) and livestock in the Union as well. Additional work is required in neighbouring countries, in developing countries and in transition economies, notably in Sub-Saharan Africa, to prevent and control emerging diseases and to improve biosecurity. This will support the delivery of global public goods and will contribute to ultimately ensuring food security, food safety, public health and poverty alleviation. Enabling good governance of public and private components of veterinary services and better cooperation between them and public health services is key to a better and safer world.

Some 125 countries have already benefited from an initial evaluation of the performance of their national veterinary services (PVS evaluation) on the basis of international standards for the quality and evaluation of veterinary services. PVS pathway follow-up actions are part of a continuous process and aim to sustainably improve compliance of veterinary services with international quality standards, and also act as an efficient permanent safeguard for animals, humans and agricultural production throughout the world. These actions need to be implemented in developing countries, notably in Sub-Saharan Africa, as well as in neighbouring countries in order to monitor the progress made and help strengthen veterinary services and animal health systems on the basis of national needs and priorities (PVS gap analysis).

The PVS pathway facilitates and improves the development of appropriate legislation for national animal health systems, early detection, global transparency as regards national sanitary status through the notification of animal diseases including zoonoses, rapid response to outbreaks, biosecurity measures, compensation for farmers in the event of compulsory slaughter, vaccination (if necessary) and capacity-building for and cooperation between the public and private sectors (notably farmers, pastoralists, and private veterinarians), as well as guarantees that quality drugs are used.

Unfortunately, PVS evaluations completed to date have demonstrated worrying weaknesses and major shortcomings in more than 100 countries. This situation threatens early detection and global transparency as regards national sanitary status and zoonoses and increases dramatically the global cost on fighting pandemics and animal diseases, with disastrous effects on the billion people directly dependent on livestock.

Objectives

This appropriation is intended to fund the establishment of a Europe wide network bringing together MNCs with activities in developing countries and headquarters in Europe and organisations providing family planning services. The project will select most specifically companies factories based most notably in countries with a high unmet need for family planning. This Europe wide network will aim to provide a forum for the exchange of ideas, information and experiences in the field of family planning linked to corporate social responsibility (CSR) and at providing opportunities for collaboration between companies and family planning organisations to increase access to family planning for factory workers in countries with a high unmet need for family planning.

Ultimately the appropriation will establish one pilot project exploring the linkages between CSR and the provision of voluntary family planning services in factories.

Project activities

Phase 1: Mapping of MNCs present in the Union employing high levels of female factory workers in developing countries with high unmet need for family planning.

Phase 2: Setting up a forum for the exchange of ideas, information and experience in the field of family planning linked to CSR.

Phase 3: Supporting the implementation of a voluntary family planning CSR pilot in one factory.

Phase 4: Document and disseminate the outcome of this pilot.

Remarks

This pilot project should aim at reactivating the Cauca area's small-scale farming economy in order to continue creating a viable path for the small communities to exit the armed and social conflicts of the region. To this aim the pilot project should ensure the construction, development and maintenance of physical infrastructure facilities and the creation of a distribution centre to commercialise the agricultural products produced by these communities and their further distribution at local and regional level, as well as facilitate potential conflict-settlement like in other hot spot areas in Colombia.

Remarks

Northern Mali and Northern Niger are subject to recurrent health crises with some of the lowest health indicators especially on sexual and reproductive health. Although the post-crisis situations in these two countries are quite different, the root causes of low health indicators are similar: large rural areas, sociocultural barriers, inadequate health infrastructure, lack of health competencies and capacities notably on the number of medical professionals, and the low retention rate of skilled medical staff. While these challenges are common across Sub-Saharan Africa, the largely nomadic population in the target area of this project have additional needs that are currently not met by the health system. Indeed the health system often fails to address the mobile nature of these pastoralist groups. This results in increased vulnerability of these groups which is already affected by a lack of adequate nutrition, gender inequalities, maternal and child mortality rates and low access to quality of healthcare services and information.

The parallel post-crisis situation in these two regions would help drawing lessons learnt and best practices on resilience and linking relief, rehabilitation and development (LRRD) that would be highly relevant for the Union in the framework of the AGIR initiative, and best practices from this pilot project could be replicated within this and other initiatives.

Using the health sector as an example with particular emphasis on sexual and reproductive health, the preparatory action will aim to establish baselines, draw operational recommendations on resilience and LRRD and capitalise on them to impulse reinforcing health capacities of communities as regard the needs of nomadic groups in the context of post-crisis in Mali and Niger.

21 02 77 19 (cont'd)

Objectives

The overall objective of the project is to build capacity of health workers to provide quality services targeted to the specific needs of nomadic groups (in a post-crisis situation), with a particular emphasis on sexual and reproductive health. Using the health sector as an example, the preparatory action will evaluate and compile best practices on resilience building and linking relief rehabilitation and development in the context of post-crisis in Northern Mali and Northern Niger. Finally, it would also develop innovative methods as well as improve health training curriculum addressing the needs of nomadic groups. Expected results from this project will be reliable and comprehensive health data collected at community and local levels, in order to improve health programming and increase the accountability of the national and local health systems; best practices with regards to building resilience and LRRD will be shared and disseminated and health training curriculum will be developed to enhance local capacity to address health needs of the nomadic groups.

The primary target group is the nomadic population in rural Northern Mali and Northern Niger, and in particular the most vulnerable and most-at-risk groups of this population (women, girls and infants below five). The secondary target group include professional and community health workers in the same regions.

The action will be implemented by local CSOs and humanitarian actors that have local staff present in the region, in alignment with national priorities and government plans (including reaching UN Millennium Development Goals 4 and 5, as both Mali and Niger are countdown countries ⁽¹⁾) and in close coordination with all actors present in the regions: the local and national authorities, local and national health facilities and training facilities, the communities, as well as the development actors (EU, donors, UN agencies, the private sector, NGOs, authorities and community health and medical workers), taking into account efforts under the AGIR initiative.

Project activities

The preparatory action will have three phases.

First phase: conduct an operational research to determine health baselines of nomadic groups

The action will aim to establish baselines on health indicators and study the determinants to access to quality healthcare (geographical, financial, socio cultural, etc.) of nomadic local populations, and in particular for the most vulnerable and most-at-risk groups (women, girls and infants below five). It will also map out the existing health capacities and initiatives (including the AGIR and other international initiatives, government-run health facilities and trainings centres but also traditional and community health workers). Eventually, the research will evaluate the provision of basic health care to nomadic groups needs and prevention information and services (including maternal, and child care, vaccination, nutrition, reproductive health, gender-based violence, etc.) ⁽²⁾.

Second phase: provide operational recommendations and compile best practices for LRRD and resilience building for knowledge transfer to the AGIR and other related initiatives

Based on the assessment, the action will analyse how the nomadic group's needs have been addressed in the emergency response and the post-crisis phase (coordination and warning mechanisms) by all development actors (EU actors, donors, UN agencies, the private sector, NGOs, authorities and community health and medical workers). It will highlight best practices in both countries notably combining mobile and static health services and the provision of dual animal and human interventions, drawing on the similarities and different approaches taken in each country.

⁽¹⁾ Both Mali and Niger are so-called 'countdown countries' meaning that progress is needed to reach the MDGs by 2015, in particular on MDG 4 and 5 (infant mortality and maternal mortality).

⁽²⁾ By basic care we mean: maternal and child health, vaccination and nutrition (specifically acute under-nourished children and lactating mothers), reproductive healthcare (emergency obstetric care, antenatal and post-partum care, access to family planning methods, prevention of unsafe abortion, etc.) surveillance for epidemics and treatment of diseases (including HIV/AIDS), medical care, early psychological and clinical management especially of gender-based violence (sexual aggression, early and forced marriage, FGM/C, etc.).

CHAPTER 21 02 — DEVELOPMENT COOPERATION INSTRUMENT (DCI) (cont'd)

21 02 77 (cont'd)

Finally it will provide operational recommendations for future Union involvement notably in the context of AGIR on how to maintain a long-term resilience-oriented perspective towards nomadic groups also during crisis and emergency response interventions without destabilising the local and national formal and informal structures.

Third phase: build and retain capacity to address nomadic groups health needs among professional and community health workers for resilient health systems

The action will leverage some of the lessons learnt by considering health capacity to address health needs of nomadic groups. This phase will focus on developing a specialised training curriculum based on the needs of nomadic communities and documenting evidence-based intervention strategies which have demonstrated results and ownership among nomadic groups. This will be done in partnership of training facilities as well as local and national authorities. The training will include the full range of basic health care and prevention including the reference of pregnant women to health centres. It will also contain training on the collection and monitoring of data on health status of nomadic groups. The training will target health workers with a special focus on women community based health workers and traditional birth attendants in order to increase access to health services for nomadic groups. Trainings will be aligned with national priorities and in support of existing institutions.

Remarks

Owing to a long history of crisis in the region, extreme poverty is rife in South Kivu Province in the east of the Democratic Republic of Congo (DRC).

With 84,7 % of its inhabitants living below the poverty line, this is one of the DRC's three poorest provinces (the others are Équateur and Bandundu).

The situation is no better in Luhwindja than in any other of the province's 18 chiefdoms. In the past, more than 90 % of the chiefdom's population lived on artisanal mining.

Today, almost all of the mines are run by the Banro Corporation, whose industrial-scale operations make it difficult for other activities which could be of greater benefit to the local communities to be carried out.

In order to survive, those communities are obliged to dig for gold at other sites that are deemed dangerous, often with disastrous consequences. The school non-attendance rate is alarmingly high, with large numbers of young girls and boys from poor families giving up their studies to go to work in the mines.

Article 53(f) of the Act of 10 January 2009 on the protection of children prohibits all forms of labour which, owing to their nature or the conditions under which they are carried out, are likely to be harmful to the health, growth, safety, development, dignity or morals of children.

Girls as young as 13 and women who have become heads of household are obliged to engage in prostitution in order to keep the local community on an even keel, given, in particular, that most of the men have no source of income.

Prostitution and its attendant problems, including physical violence and drug taking, are rife in the mines in operation in Luhwindja chieftdom.

Efforts need to be made by the government, civil society and the UN agencies to find ways of ensuring that Millennium Development Goal 1 (eradication of extreme poverty and hunger) is met in this area.

Objectives

The prevalence of child labour and of prostitution (involving both women and girls) in Luhwindja's mines is clearly indicative of the level of poverty in the area.

The overall aim of this project is to help improve living conditions for the inhabitants of Luhwindja chieftdom, with special emphasis being placed on providing the young people who have given up their studies to work in the mines with the guidance they require.

Special attention will be paid to the sex workers (women and girls) living at the mines, most of whom contract HIV/Aids and other sexually transmitted diseases at an early age, and to the issue of unwanted pregnancies. Work in this area will be carried out in cooperation with Panzi Hospital, which is run by Dr Denis Mukwege.

There will also be close cooperation with local and national authorities, local communities and other development stakeholders (donors, UN agencies, private sector bodies and NGOs).

Project activities

There will be three main stages:

Stage 1: opening a remedial education centre for children between the ages of five and 15 working at mines in Luhwindja (USD 800 000):

- Raising awareness among local people of national and international child protection legislation and agreements.
- Building a remedial education centre for children rescued from the mines, some of whom have never been to school.
- Fitting the centre out with the necessary equipment. Once built, the centre will need to have the teaching and other materials required to give the children the best possible learning environment and offer them a chance to continue their studies afterwards.
- Recruiting the necessary staff. Staff with the specific qualifications and teaching skills required to handle 'outlaw' children will be recruited. The staff will also be responsible for enrolling children from the mines, with the assistance of their parents.
- Providing psycho-social counselling. Given that they come from dangerous, atypical backgrounds, once enrolled the children will first spend three months at a psycho-social guidance centre. A psychologist will be recruited for this purpose.
- Streaming the children on the basis of their level of schooling. There will be three different levels: Level 1 will be for children who have never been to school and those who left school in the first and second years of primary school. These children will be taught to second-year primary level.
- The second level will be for children who went no further than the third or fourth year of primary school. These children will be taught to fourth-year primary level.
- The third level will be for children who went no further than the fifth year of primary school or failed the sixth year. These children will be taught to sixth-year primary level.

At the end of each school year, all the children at sixth-year level will take the TENAFEP (national primary school leaving test), in preparation for going on to secondary school.

School meals will be provided to encourage children to attend classes and dissuade parents from sending them to work in the mines.

The money which the children earned in the mines helped to cover household expenses. With a view to putting an end to this practice, provision has been made for the families of the children at the centre each to be given a food package (a bag of rice and a small can of oil) every month.

- Assessing the project's impact on the basis of the number of children enrolled from the mines, their progress to secondary school, whether local or situated elsewhere, the degree of involvement of the local community and local authorities in dealing with the problem of child labour in the mines, and the quality of the education provided to the children.

Stage 2: setting up a vocational training centre for adolescents (16 to 18 year-olds) from the Luhwindja mines (USD 1 150 000):

- Raising awareness among local people of national and international child protection legislation and agreements. The adolescents involved need to be apprised of their rights and obligations.
- Building the vocational training centre. In line with local circumstances, the following courses will be offered: clothes making, building, carpentry, improved cooking facilities, and fitting and welding.
- Fitting the centre out with the necessary equipment. The skills learned at the centre will be backed up by practical experience gained on traineeships with local NGOs, state-owned companies, etc.
- Recruiting the necessary staff. Staff qualified to teach the various courses will be recruited either locally or from outside the area.
- Providing psycho-social counselling. Experience shows that various forms of social deviancy, including drug taking and prostitution, are common in this age group.
- Helping the young people to choose a course. Following psycho-social counselling, the young people will be helped to choose a course. The aim is to raise their sense of self-worth and enable them to make a contribution to society.
- Assessing the project's impact on the beneficiaries and determining whether the training provided has helped to address local problems. Assessments and reports will be drafted and sent to donors.

Stage 3: helping sex workers (women and girls) living at mines in Luhwindja to find other means of earning a living (USD 760 000):

- Recruiting the necessary staff. Technicians and other staff specialised in dealing with 'marginalised' women and girls will be recruited for the project.
- Making the sex workers aware of their human rights. During the information sessions, screening for HIV/Aids and similar diseases will be offered to project beneficiaries on a voluntary basis.

The tests will be performed by nurses at Panzi Hospital, run by Dr Denis Mukwege. If necessary, referrals for psycho-medical care will be made.

- Providing the sex workers with information on issues relating to the management of income-generating activities and birth control.

In view of the extreme socio-economic conditions in which they live, they will be taught various birth control strategies. The association could even sign agreements with the sex workers with a view to limiting the number of births and keeping the women and girls away from the mines.

- Setting up a team to monitor compliance with the agreements, including the undertaking not to go back to the mines. A sizeable proportion of the children born to sex workers live and work at the mines.
- Helping the young women to find income-generating activities (farming jobs, small retail jobs, etc.) that will enable them to support their households. The aim is to empower them.

Remarks

This preparatory action is intended to contribute to the Union's strategy to support the welfare of the people of Eastern Africa and to help lift them from poverty into self-sustaining economic growth.

It aims at strengthening capacities, ownership and political commitment of local actors to initiate structural change to support the development of social enterprises which constitute an important pillar of the social economy and civil society. These enterprises will in particular produce and deliver goods and services in the fields of sustainable agricultural and livestock production, natural resource management, energy efficiency, culture and education, as well as health and care services

Social enterprises, together with cooperatives, are operators in the social economy that are trading goods and services to achieve a social impact ⁽¹⁾ rather than make a profit for their owners or shareholders, and that are managed in an open and responsible manner and, in particular, involve employees, consumers and stakeholders affected by their commercial activities ⁽²⁾. The ILO has made significant efforts to highlight the importance of their role for promoting economic sustainability, social justice, ecological balance, decent work political stability, conflict resolution and gender equality ⁽³⁾, and the Preparatory Action will integrate the lessons learnt from ILO's work.

The process of starting, developing and replicating social enterprises and co-operatives will often need to be based on the innovative use and combination of resources to pursue opportunities to catalyse social change and/or address social needs, propelled by social entrepreneurs.

⁽¹⁾ Social impact is generated through solidarity action with the disadvantaged and the excluded; with the young generation and with the elderly, solidarity with future generations (through e.g. using natural resources efficiently, or reducing emissions and waste) Increasing the quality of life for all through producing services and products that meet collective needs and contribute to community and social capital development, through e.g. producing and distributing healthy and affordable food, or facilitating access to and delivering education and lifelong learning.

TITLE 21 — DEVELOPMENT AND COOPERATION

CHAPTER 21 02 — DEVELOPMENT COOPERATION INSTRUMENT (DCI) (*cont'd*)21 02 77 (*cont'd*)21 02 77 21 (*cont'd*)

The innovative approach of this preparatory action is based on bringing together under-utilised resources and drivers for local development, and will develop and test new ways and means to develop sustainable communities in two Eastern African countries (Kenya and Ethiopia) with strong roots in the social economy, by

- mobilising and empowering social entrepreneurs to move from informal entrepreneurship to social businesses that allow the development of skills, self-esteem, mutual responsibility, income and welfare,
- establishing local development partnerships of key institutions, stakeholders and personalities that promote and support the creation and development of social enterprises, embedded in an eco-system conducive for their development and sustainability, that are based on the principles of participation, co-ownership and democratic management,
- mobilising and involving diaspora communities living in Europe that play a significant economic role in the flow of capital into Eastern Africa, but also have socio-political links with the region,
- facilitating learning from peers by exploiting and utilising the experience and expertise of social economy actors in the new member states of the Union that have managed to develop new social economy structures and new business models for social enterprises in the transformation period from state controlled economies to social market economies.

To this end, the preparatory action will apply an experimental approach, and test the conditions for success under different configurations:

- it will involve partnership between local social economy initiatives in Eastern Africa with diaspora communities in Europe and social economy actors in the new member states,
- it will identify and empower local development partnerships in different European countries and in at least two Eastern African countries that could collaborate in establishing social enterprises and developing a social economy eco-system in the communities of the African partners,
- the transnational local partnerships will be established and developed between local social economy initiatives in big cities, medium-sized towns and rural villages.

The preparatory action will include analytical work (participative baseline assessment and strategy developments, feasibility assessments); organisational work (coordination cells to prepare and provide technical assistance to the activities of the partners), the establishment of learning spaces (through study visits, learning seminars, secondments, cooperation between social enterprises, etc.) and the development of an infrastructure and the activation of an eco-system for social enterprises, community-based cooperatives, and producer groups. It will result in launching transnational partnerships between local social economy initiatives from Eastern Africa and Eastern Europe, assisted by diaspora communities and experienced social economy actors from the new member states.

It is expected that the development of social economy initiatives will enhance local community development in Eastern Africa and strengthen the processes of poverty prevention, notably through the reduction of informal employment, access to co-ownership of the means of production and the development of an infrastructure for boosting the social economy.

Legal basis

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

This appropriation is intended to cover operations for the benefit of the Palestinian people and the occupied Palestinian territories of the West Bank and the Gaza Strip, in the context of the Middle East peace process.

The operations are primarily aimed at:

- supporting State-building and institutional development,
- promoting social and economic development,
- mitigating the effects on the Palestinian population of the deteriorating economic, fiscal and humanitarian conditions through the provision of essential services and other support,
- contributing to reconstruction efforts in Gaza,
- contributing to the financing of the operation of the United Nations Relief and Works Agency for Palestine Refugees (UNRWA) and in particular its health, education and social services programmes,
- financing preparatory operations aimed at promoting cooperation between Israel and its neighbours in the context of the peace process, notably with regard to institutions, economic matters, water, the environment and energy,
- financing activities designed to create a public opinion favourable to the peace process,
- financing information, including in Arabic and Hebrew, and disseminating information on Israeli-Palestinian cooperation,
- promoting respect for human rights and fundamental freedoms, promoting enhanced respect for minority rights, combating anti-Semitism and promoting gender equality and non-discrimination,
- fostering the development of civil society, inter alia, to promote social inclusion.

TITLE 21 — DEVELOPMENT AND COOPERATION

CHAPTER 21 03 — EUROPEAN NEIGHBOURHOOD INSTRUMENT (ENI) (*cont'd*)21 03 51 (*cont'd*)

It is also intended to cover the completion of the financial protocols with Mediterranean countries, including, inter alia, support for the Euro-Mediterranean Investment Facility within the European Investment Bank and covers the execution of non-EIB financial aid provided for in the third and fourth generation of financial protocols with the southern Mediterranean countries. The protocols cover the period 1 November 1986 to 31 October 1991 for the third generation of financial protocols and the period 1 November 1991 to 31 October 1996 for the fourth generation of financial protocols.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Part of this appropriation will be allocated for additional support to EU Baltic Sea Strategy objectives, either directly or through relevant actors and partners in the region.

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

In the framework of the emerging democratisation in the Southern Mediterranean neighbours, the two-way flow of young professionals from both sides of the Mediterranean at professional level is an essential feature for the consolidation of democracy and the inclusion of young professionals in the job market.

The main aim of the preparatory action is to promote and enhance the mutual exchange of young professionals on both sides of the Mediterranean. The activities will also cover vocational traineeships.

Remarks

As diversity and complexity of national legislations in requested states and limited legal expertise and institutional capacities in requesting states remain major obstacles in the field of asset recovery to Arab Spring countries in transition, it is of crucial importance to offer substantial legal and technical assistance to Southern Mediterranean partner countries concerned.

This preparatory action, based on existing Union initiatives supporting Egyptian and Tunisian authorities engaged in the recovery of misappropriated assets stolen by former dictators and their regimes, aims to strengthen Union action in this field through capacity-building as well as promoting cooperation and expertise and information sharing between requesting and requested states, and the revision of national legislations as appropriate.

This preparatory action covers start-up costs for and finances annual running costs of this support mechanism.

Remarks

New article

The general objective will be to contribute to the development and consolidation of democracy and respect for human rights, in accordance with Union policies and guidelines and in close cooperation with civil society.

Key areas of activity will include:

- enhancing respect for and observance of human rights and fundamental freedoms, as proclaimed in the Universal Declaration of Human Rights and other international and regional human rights instruments, and strengthening their protection, promotion and monitoring, mainly through support to relevant civil society organisations, human rights defenders, and victims of repression and abuse.

COMMISSION

CHAPTER 21 04 — EUROPEAN INSTRUMENT FOR DEMOCRACY AND HUMAN RIGHTS (*cont'd*)21 04 01 (*cont'd*)

- supporting and consolidating democratic reforms in third countries, by enhancing participatory and representative democracy, strengthening the overall democratic cycle, and improving the reliability of electoral processes.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter and may be complemented by contributions for Union Trust Funds.

Remarks

New article

This appropriation covers the long-term component of the IFS 'assistance in the context of stable conditions for cooperation', defined in Article 5 of the proposal for a Regulation of the European Parliament and of the Council, submitted by the Commission on 7 December 2011, establishing an Instrument for Stability (COM(2011) 845 final) and covers global and trans-regional threats under the 2014-2020 period.

This appropriation is intended to cover actions aiming to help safeguard countries and populations against risks either of an intentional, accidental or natural origin. This may, inter alia, include:

- the promotion of civilian research activities as an alternative to defence-related research, and support for the retraining and alternative employment of scientists and engineers having formerly been employed in weapons-related areas,
- support for measures to enhance safety practice related to civilian facilities where sensitive chemical, biological, radiological or nuclear materials or agents are stored, or are handled in the context of civilian research programmes,

COMMISSION

TITLE 21 — DEVELOPMENT AND COOPERATION

CHAPTER 21 05 — INSTRUMENT FOR STABILITY (IFS) — GLOBAL AND TRANS-REGIONAL THREATS (*cont'd*)21 05 01 (*cont'd*)

- support, within the framework of Union cooperation policies and their objectives, for the establishment of civil infrastructure and relevant civilian studies necessary for the dismantlement, remediation or conversion of weapons-related facilities and sites where these are declared as no longer belonging to a defence programme,
- strengthening the capacity of the competent civilian authorities involved in the development and enforcement of effective control of the trafficking in chemical, biological, radiological and nuclear materials or agents (including the equipment for their production, or delivery or effective border controls), including through the installation of modern logistical evaluation and control equipment. The actions relate to natural and industrial disasters as well as criminal activities,
- support to IAEA to upgrade their technical capacity to detect the illicit trafficking of radioactive materials,
- the development of the legal framework and institutional capacities for the establishment and enforcement of effective export controls on dual-use goods, including measures of regional cooperation,
- the development of effective civilian disaster preparedness, emergency planning, crisis response, and capabilities for clean-up measures in relation to possible major environmental incidents in this field.

Other measures in the field of global and trans-regional threats will cover:

- strengthening the capacity of law enforcement and judicial and civil authorities involved in the fight against terrorism—countering violent extremism— and organised crime, including illicit trafficking of people, drugs, firearms and explosive materials, cyber crime, falsified medicine and in the effective control of illegal trade and transit. A new priority is to address global and trans-regional effects of climate change with a potentially destabilising impact,
- support for measures to address threats to international transport, and critical infrastructure, including passenger and freight traffic, energy operations and energy distribution, electronic information and communication networks,
- ensuring an adequate response to major threats to public health, such as pandemics with a potential trans-national impact.

Such measures may be adopted under this instrument in the context of stable conditions, where they aim to address specific global and trans-regional threats having a destabilising effect, and only to the extent that an adequate and effective response cannot be provided under related Union instruments for external assistance.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter and may be complemented by contributions for Union Trust Funds.

New article

This appropriation is intended to cover the financing of the promotion of an effective nuclear safety and nuclear security culture at all levels, in particular through:

- continuous support for regulatory bodies, technical support organisations, and the reinforcement of the regulatory framework, notably concerning licensing activities in order to establish strong independent regulatory oversight,
- support for the safe transport, treatment and disposal of spent nuclear fuel and radioactive waste both from nuclear power plant and from other (orphan) sources, (medical applications, uranium mining),
- the development and implementation of strategies for decommissioning existing installations and the remediation of former nuclear sites,
- the promotion of effective regulatory frameworks, procedures and systems to ensure adequate protection against ionising radiations from radioactive materials, in particular from high activity radioactive sources, and their safe disposal,
- the financing of stress tests based on the *acquis*,
- the establishment of the necessary regulatory framework and methodologies for the implementation of nuclear safeguards, including for the proper accounting and control of fissile materials at State and operators level,
- the establishment of effective arrangements for the prevention of accidents with radiological consequences as well as the mitigation of such consequences should they occur, and for emergency-planning, preparedness and response, civil protection and rehabilitation measures,

COMMISSION

TITLE 21 — DEVELOPMENT AND COOPERATION

CHAPTER 21 06 — INSTRUMENT FOR NUCLEAR SAFETY COOPERATION (INSC) (*cont'd*)21 06 01 (*cont'd*)

- measures to promote international cooperation (including in the framework of relevant international organisations, notably IAEA) in the abovementioned fields, including the implementation and monitoring of international conventions and treaties, exchange of information and training and research,
- the enhancement of emergency preparedness in case of nuclear accidents, as well as training and tutoring inter alia to increase the capacities of the regulators.

This appropriation is intended also to fund health and environmental projects as regards the consequences of the Chernobyl accident, which affect human health and the environment, especially in Ukraine and Belarus.

Priority will be given to address the needs in the countries being part of the European Neighbourhood Policy.

Relevant work previously carried out under the Instrument for Pre-accession Assistance (IPA) will be taken over by the INSC in order to ensure a comprehensive approach.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Former Items 19 01 04 05 and 21 01 04 03, and former Articles 19 11 01 and 21 08 01

This appropriation is intended to cover the financing of *ex ante* and *ex post* evaluations, monitoring and support measures during the programming, preparation and implementation stages of development operations, strategies and policies, including the following:

- effectiveness, efficiency, relevance, impact and viability studies and the development of impact measurements and indicators for development cooperation,
- monitoring of operations in the course of implementation and after their completion,
- support measures to improve the quality of monitoring systems, methodologies and practices concerning ongoing operations and the preparation of future operations,
- feedback of information and information activities on findings, conclusions and recommendations of evaluations into the decision-making cycle,
- methodological developments to improve the quality and utility of evaluations, including research, feedback, information and training activities thereon.

This appropriation also covers the financing of audit activities concerning the management of programmes and projects implemented by the Commission in the external aid field, and the financing of training activities, based on the special rules governing Union external aid and organised for external auditors.

This appropriation is moreover intended to cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the programme or measures coming under this article, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts, as well as capacity-building and training activities for the principal players involved in the design and implementation of external aid programmes.

Finally, this appropriation is intended to cover expenditure on studies and elaboration of methodological tools, meetings of experts, information and publications, as well as knowledge-sharing and training activities concerning the design and implementation of external assistance programmes, in particular on the project and programme cycle management and on capacity development.

Remarks

Former Item 21 01 04 04 and former Articles 19 11 03 and 21 08 02

Budget financing provides the Commission with the means of support it needs to prepare, formulate and follow up coordination measures under its development policy. Policy coordination is crucial to the consistency, complementarity and aid and development effectiveness.

Coordination measures are essential in defining and shaping the Union development policy at a strategic and programming level. The specific nature of the Union development policy is directly enshrined in the Treaties (Articles 208 and 210 of the Treaty on the Functioning of the European Union). Union aid and the national policies of the Member States in the sphere of development cooperation need to complement and reinforce each other and this cannot work without coordination. Article 210 of the Treaty on the Functioning of the European Union calls on the Commission to act as coordinator of the Member States' and the Union's development policies and of action in development cooperation.

Coordination is not only a major factor in the Commission's value added vis-à-vis the policies of the Member States but also a priority in the work schedule at the point where the agendas of the Union and the international community intersect. It therefore reflects a steadily growing demand from the other European institutions, as recognised by the Member States and by the European Parliament at the European Council in Barcelona in March 2002.

This appropriation covers various forms of action:

Action A: Coordination at European and international levels:

- effectiveness, efficiency, relevance, impact and viability studies in the area of coordination, meetings of experts and exchanges between the Commission, Member States, and other international actors (US, emerging donors, etc.) and international forums such as South-South cooperation,
- monitoring of policies and operations in the course of implementation,
- support measures to improve the quality of the monitoring of ongoing operations and the preparation of future operations,
- measures to support external initiatives in the sphere of coordination,
- the preparation of common positions, statements and initiatives,
- the organisation of events relating to coordination,
- the Commission's membership fees to the international organisations and networks,
- the dissemination of information through the production of publications and the development of information systems.

COMMISSION
TITLE 21 — DEVELOPMENT AND COOPERATIONCHAPTER 21 08 — DEVELOPMENT AND COOPERATION WORLDWIDE (*cont'd*)21 08 02 (*cont'd*)

This appropriation will also cover the financing of the initiative entitled 'Mobilising European Research on Development Policies' which aims to provide added value to the Union policymaking process on development issues by improving the quality and forward-looking perspective of Union policy formulation. The initiative seeks to enhance synergies between European researchers and policymakers by bringing them together in one common project. The main output of this initiative is the publication, on an annual basis, of a 'European Report on Development' (ERD). The ERD, together with other intermediary products (background papers, seminars and workshops), will play a catalytic role in strengthening and refining the European perspective on key development challenges and its influence on the international development agenda on the basis of independent knowledge excellence and innovative policy recommendations. This initiative is financed jointly by the Commission and Member States through contributions on a voluntary basis. In addition, the appropriation will finance the publication of the ERD, including its translation, printing, dissemination and a promotional campaign to disseminate the policy recommendations of the ERD to development actors.

Action B: Raising awareness

This appropriation covers the financing of activities designed to draw attention to action by the Union and the Member States in the development field and to raise public awareness of development issues. It will also provide the necessary financing for preparing, launching and promoting the 'European Year for Development 2015' which has been proposed by the Commission following an initiative by the European Parliament. In this respect the Commission may co-finance, as in previous European Years, awareness-raising activities with Member States, in particular aiming at those countries where development cooperation (as a donor) does not have a long established tradition, and with civil society organisations. This European Year should lead to additional activities to be financed within Europe and in third countries in the context of the international process deciding on and launching the global post 2015 development framework which will replace the Millennium Development Goals. Every activity financed pursuant to this action must include the following two components, which are complementary in the Commission's view:

- an 'information' component, designed to promote the various activities which the Union undertakes in the development aid field and the activities which it conducts in partnership with the Member States and other international institutions,
- an 'awareness-raising' component, covering public opinion in the Union, and in developing countries.

These activities consist mainly, though not exclusively, of financial support for schemes in the audiovisual, publications, seminars and events fields as applied to development, the production of information material, the development of information systems, and also the Lorenzo Natali prize for journalism in the development field.

These activities are directed at public and private sector partners, and at the Union's representations and delegations in the Member States.

This appropriation is moreover intended to cover the funding of priority information and communication activities directed towards the citizens of the Union and dealing with the Union's external policies as a whole.

The areas which will be covered by information activities include those below, but may embrace other aspects of the Union's external relations, particularly in relation to the future of the Union's external policy:

- addressing the weak public perception of external assistance. The objective is to make clear that external assistance is an integral part of what the Union does and is one of the crucial policies that define the Union and its role in the world, and to raise awareness of the fact that the Union is delivering tangible results on behalf of Union citizens to fight poverty and to provide high-quality sustainable development worldwide,
- the 'European Neighbourhood Policy' (ENP). The ENP was launched on the basis of a communication from the Commission to the Council and the European Parliament of 11 March 2003 entitled 'Wider Europe — Neighbourhood: A new framework for relations with our eastern and southern neighbours' (COM(2003) 104 final). The actions which are part of this activity will continue to provide information on the activities of the Union in the framework of its European Neighbourhood Policy,

- information activities, to be carried out in cooperation with the Council, on the aims and development of the common foreign and security policy,
- the organisation of visits for groups of representatives of civil society.

The Commission has adopted two communications to the European Parliament, the Council, the Economic and Social Committee and the Committee of the Regions on a new framework for cooperation in activities concerning the information and communication policy of the European Union (COM(2001) 354 final and COM(2002) 350 final). They propose an interinstitutional framework for cooperation between the institutions and with the Member States for the development of a communication and information policy strategy for the Union.

The Interinstitutional Group on Information (IGI), co-chaired by the European Parliament, the Council and the Commission, lays down common guidelines for interinstitutional cooperation in matters of Union information and communication policy. It coordinates the central and decentralised public information activities on European topics. Each year the IGI gives its opinion on the priorities for the following years on the basis of information provided by the Commission.

Finally, this appropriation is intended to cover:

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the Commission and beneficiaries,
- expenditure on printing, translation, studies, meetings of experts, information and the purchase of information material directly linked to the achievement of the objective of the programme.

It also covers the costs of publication, production, storage, distribution and dissemination of information material, in particular via the Publications Office of the European Union, and other administrative costs related to coordination.

Legal basis

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Tasks resulting from specific powers directly conferred on the Commission pursuant to Article 210 of the Treaty on the Functioning of the European Union.

Regulation (EC) No 1049/2001 of the European Parliament and of the Council of 30 May 2001 regarding public access to European Parliament, Council and Commission documents (OJ L 145, 31.5.2001, p. 43).

Former Items 22 01 04 01, 22 01 04 02 and 22 01 04 04

This appropriation is intended to cover administrative costs directly linked to the implementation of the Instrument for Pre-Accession Assistance (IPA), the phasing out of pre-accession assistance, TAIEX and the support to the economic development of the Turkish Cypriot community, in particular:

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the Commission and beneficiaries,

- expenditure on external personnel at headquarters (contract agents, seconded national experts or agency staff), limited to EUR 7 019 624. This estimate is based on a provisional annual unit cost per man-year, of which an estimated of 90 % is accounted for by remuneration for the personnel concerned and 10 % by the additional cost of training, meetings, missions (including long-term missions), information technology (IT) and telecommunications relating to that personnel,
- expenditure on external personnel in Union delegations (contract agents, local agents, or seconded national experts) for the purposes of devolved programme management in Union delegations in third countries or for internalisation of tasks of phased out technical assistance offices, as well as in the Commission Post-accession Transitions Teams remaining in the new member states during the phasing-out period (contract agents, agency staff) working on tasks directly related to the completion of the accession programmes. In both cases, it also covers additional logistical and infrastructure cost, such as the cost of training, meetings, missions, IT and telecommunications and of renting directly attributable to the presence in the Union delegation of the external personnel remunerated from the appropriations entered in this item,
- expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objectives of the programme.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers expenditure on administrative management under Chapters 22 02 and 22 03.

Former Item 22 01 04 30

This appropriation is intended to cover the operating costs of the Education, Audiovisual and Culture Executive Agency relating to the management of programmes in the 'Enlargement' policy area. The mandate of the agency was extended for the 2007-2013 programming period to all the Youth, Tempus and Erasmus Mundus programmes in which IPA beneficiaries are involved. It will also cover, under the 'Erasmus for All' programme, the operating costs of certain actions of that programme in order to promote the international dimension of higher education and other actions.

New item

Under the Instrument for Pre-accession Assistance (IPA II), this appropriation will address the following specific objectives in the Western Balkans:

- support for political reforms,
- strengthening the ability of beneficiary countries to fulfil the obligations stemming from membership by supporting progressive alignment with and adoption, implementation and enforcement of the Union *acquis*, structural, cohesion, agricultural and rural development funds and policies of the Union.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Remarks

Former Item 22 02 07 03

This appropriation is intended to cover the continuation of aid under Regulation (EC) No 389/2006 to facilitate the reunification of Cyprus by encouraging the economic development of the Turkish Cypriot community with particular emphasis on economic integration covering the areas specified in that Regulation, notably actions for rural development, restructuring of infrastructure, reconciliation and confidence building measures and scholarships in Member States for Turkish Cypriot students. The TAIEX instrument will be used for the preparation of legal texts to prepare for the application of the Union *acquis* immediately following any political settlement for reunification.

The appropriations will also allow for the continuation of Union financial support and acceleration of the work of the Committee on Missing Persons, as well as the implementation of the decisions of the bicomunal Technical Committee on Cultural Heritage, including projects of the minorities.

This appropriation is to be used, amongst others, to sustain the outcome of works, supplies and grants being funded under earlier allocations. In addition, grant schemes addressed to a large variety of beneficiaries within the civil society of the community (non-governmental organisations, students and teachers, schools, farmers, small villages, the private sector) may continue. These activities aim at socio-economic development and are reunification driven. Priority should be given, where possible, to reconciliation projects which create bridges between the two communities and build confidence. These measures underline the strong desire and commitment of the Union to a Cyprus settlement and reunification.

Legal basis

Council Regulation (EC) No 389/2006 of 27 February 2006 establishing an instrument of financial support for encouraging the economic development of the Turkish Cypriot community (OJ L 65, 7.3.2006, p. 5).

Remarks

This appropriation is intended to cover support expenditure directly linked to the achievement of the objectives of the humanitarian aid policy. This covers, inter alia:

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts,
- fees and reimbursable expenses incurred through service contracts to undertake audits and evaluations of Directorate-General for Humanitarian Aid partners and actions,
- expenditure on studies, information and publications, on public awareness and information campaigns, and on any other measure highlighting the Union character of the aid,

- expenditure on external personnel at headquarters (contract agents, seconded national experts or agency staff), limited to EUR 1 800 000. This personnel is intended to take over the tasks that were entrusted to external contractors handling the administration of individual experts and to manage programmes in third countries. That amount, based on an estimated annual cost per person/year, is intended to cover the remuneration of the external personnel in question and training, meetings, missions, information technology (IT) expenditure and telecommunications expenditure related to their tasks,
- expenditure related to the purchase and maintenance of security, specialised IT and communication tools and technical services necessary for the establishment and functioning of the Emergency Response Centre. This centre ('crisis room') will be operational on a 24-hour basis and responsible for the coordination of the EU's civilian disaster response, in particular to ensure full consistency and efficient cooperation between humanitarian aid and civil protection,
- expenditure on the development and operation of information systems, accessible via the Europa website or via a secured website at the Data Centre, intended to improve coordination between the Commission and other institutions, national administrations, agencies, non-governmental organisations, other partners in humanitarian aid, and Directorate-General for Humanitarian Aid experts in the field.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers administrative expenditure under Articles 23 02 01 and 23 02 02.

Remarks

Former Article 23 02 01 and 23 02 02

This appropriation is intended to cover the financing of humanitarian aid and food aid operations of a humanitarian nature to help people in countries outside the Union who are the victims of conflicts or disasters, both natural and man-made (wars, outbreaks of fighting, etc.), or comparable emergencies, for as long as is necessary to meet the humanitarian needs that such situations give rise to. It will be carried out in accordance with the rules on humanitarian aid under Council Regulation (EC) No 1257/96.

The aid is granted to victims without discrimination on the grounds of race, ethnic origin, religion, disability, sex, age, nationality or political affiliation. That assistance is provided as long as it is necessary to meet the humanitarian needs to which such situations give rise.

This appropriation is also intended to cover the purchase and delivery of any product or equipment needed for the implementation of humanitarian aid operations, including the building of homes or shelters for affected groups of people, short-term rehabilitation and reconstruction work, particularly of infrastructure and facilities, the costs associated with external, expatriate or local staff, storage, international or national shipment, logistic support and distribution of relief and any other action aimed at facilitating freedom of access to the recipients of the aid.

This appropriation may be used to finance the purchase and delivery of food, seeds, livestock or any product or equipment needed for the implementation of the humanitarian food aid operations.

This appropriation may also cover any other costs directly linked to the implementation of humanitarian aid operations and the cost of the measures that are essential for implementing food aid operations of a humanitarian nature within the requisite timescale and in a way which meets the needs of the recipients, satisfies the requirement to achieve the greatest possible degree of cost-effectiveness and provides greater transparency.

It covers, inter alia:

- feasibility studies on humanitarian operations, evaluations of humanitarian aid projects and plans, visibility operations and information campaigns linked to humanitarian operations,
- the monitoring of humanitarian aid projects and plans, the promotion and development of initiatives intended to increase coordination and cooperation so as to make aid more effective and improve the monitoring of projects and plans,

COMMISSION

TITLE 23 — HUMANITARIAN AID AND CIVIL PROTECTION

CHAPTER 23 02 — HUMANITARIAN AID, FOOD AID AND DISASTER PREPAREDNESS (*cont'd*)23 02 01 (*cont'd*)

- the supervision and coordination of the implementation of aid operations forming part of the humanitarian and food aid concerned, in particular the terms for the supply, delivery, distribution and use of the products involved, including the use of counterpart funds,
- measures to strengthen Union coordination with the Member States, other donor countries, international organisations and institutions (in particular those forming part of the United Nations), non-governmental organisations and organisations representing the latter,
- the financing of technical assistance contracts to facilitate the exchange of technical know-how and expertise between Union humanitarian organisations and agencies or between such bodies and those of third countries,
- studies and training linked to the achievement of the objectives of the humanitarian and food aid policy area,
- action grants and running cost grants in favour of humanitarian networks,
- humanitarian mine-clearance operations including public awareness campaigns for local communities on anti-personnel mines,
- expenditure incurred by the network on humanitarian assistance (NOHA), pursuant to Article 4 of Regulation (EC) No 1257/96. This is a one-year multidisciplinary postgraduate diploma in the humanitarian field designed to promote greater professionalism amongst humanitarian workers and involving several participating universities,
- the transport and distribution of aid, including any related operations such as insurance, loading, unloading, coordination, etc.,
- back-up measures that are essential for the programming, coordination and optimum implementation of the aid, the cost of which is not covered by other appropriations, e.g. exceptional transport and storage operations, processing or preparation of foodstuffs on the spot, disinfection, consultants' services, technical assistance and equipment directly involved in providing the aid (tools, utensils, fuel, etc.),
- pilot schemes concerning new forms of transport, packaging or storage, studies of food aid operations, visibility operations linked to the humanitarian operations, and information campaigns to increase public awareness,
- the storage of food (including administrative costs, futures operations, with or without options, training of technicians, purchase of packaging and mobile storage units, cost of maintaining and repairing stores, etc.),
- the technical assistance necessary for the preparation and implementation of humanitarian aid projects, in particular expenditure incurred covering the cost of contracts of individual experts in the field and the infrastructure and logistics costs, covered by imprest accounts and expenditure authorisations, of the Directorate-General for Humanitarian Aid and Civil Protection units deployed throughout the world.

In order to ensure full financial transparency under Articles 58 to 62 of the Financial Regulation, the Commission, when concluding or modifying agreements on the management and implementation of projects by international organisations, will make every effort to commit to sending all their internal and external audits regarding the use of Union funds to the European Court of Auditors and to the Internal Auditor of the Commission.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation is intended to cover expenditure on actions in the field of civil protection. It aims to support, coordinate and supplement the actions of the Member States, EFTA States and candidate countries having signed a memorandum of understanding with the Union in the field of preparedness and prevention with regard to natural and man-made disasters, including acts of terrorism and technological, radiological or environmental accidents, marine pollution and acute health emergencies, occurring inside the Union. It also aims to facilitate closer cooperation between the Member States in the field of civil protection.

It covers, in particular:

- actions in the field of prevention aimed at supporting and promoting Member States' risk assessment and mapping activity, such as the sharing of good practice, the compilation and dissemination of information from Member States on risk management activity including through peer reviews,
- the creation and management of a 24/7 emergency response centre. This covers, amongst others, the purchase and maintenance of security, specialised IT and communication tools and technical and human services necessary for the establishment and functioning of the emergency response centre. This centre ('crisis room') will be operational on a 24-hour basis seven days a week and responsible for the coordination of the Union's civilian disaster response, in particular to ensure full consistency and efficient cooperation between humanitarian aid and civil protection. The centre needs advanced technology to maximise the gathering of information and facilitate the dissemination of information to various stakeholders, partners and teams in the field during major emergencies. In a crisis situation, more information rapidly available to decision-makers translates into saved lives,
- the creation of a 'European emergency response capacity', a 'stand-by' capability for resources and equipment to be made available to a Member State in the event of an emergency,
- the development and management of a certification and registration process for the 'European emergency response capacity'. This includes also the development of capacity goals and quality requirements,
- the identification of significant response capacity gaps in the 'European emergency response capacity' and support to the development of required capacities,
- the identification of intervention experts, modules and other support available in Member States for assistance interventions in case of emergencies,
- the development and maintenance of a network of trained experts of Member States to assist at headquarters level in the monitoring, information and coordination tasks of the emergency response centre,

- a programme of lessons learnt from civil protection interventions and exercises in the framework of the Union Civil Protection Mechanism,
- a training programme for intervention teams, external personnel and experts, to provide the knowledge and tools needed to participate effectively in Union interventions and to develop a common European intervention culture,
- the set up and management of a training network open to training centres for civil protection and emergency management personnel and other relevant actors to provide guidance on Union and international civil protection training,
- the set up and management of an exercises programme including command post exercises, full-scale exercises and exercises for civil protection modules to test interoperability, train civil protection officials and create a common intervention culture,
- exchanges of experts to enhance understanding of Union civil protection and to share information and experience,
- information and communication (ICT) systems, in particular CECIS (Common Emergency Communication and Information System), facilitating the exchange of information with Member States during emergencies, to improve efficiency and to enable the exchange of 'EU classified' information. This covers the costs of development, maintenance, operation and support (hardware, software and services) of the systems. It also covers the cost of project management, quality control, security, documentation and training linked to the implementation of such systems,
- the study and development of civil protection modules within the meaning of Article 4 of Decision No 1313/2013/EU including support to improve their interoperability,
- the study and development of disaster detection and early warning systems,
- the study and development of scenario-building, asset mapping and plans for the deployment of response capacities,
- workshops, seminars, projects, studies, surveys, modelling, scenario-building and contingency planning, capacity-building assistance, demonstration projects, technology transfer, awareness-raising, information, communication and monitoring, assessment and evaluation,
- other supporting and complementary actions necessary in the framework of the Union Civil Protection Mechanism to achieve a high level of protection against disasters and enhance the Union's state of preparedness to respond to disasters.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

This appropriation is intended to cover expenditure on actions in the field of civil protection. It aims to support, coordinate and supplement the actions of the Member States, EFTA States, acceding countries, (potential) candidate countries having signed a memorandum of understanding with the Union in the field of preparedness and prevention with regard to natural and man-made disasters, including acts of terrorism and technological, radiological or environmental accidents, marine pollution and acute health emergencies, occurring in third countries. It covers in particular the mobilisation of experts to assess prevention and preparedness needs in third countries in the event of disasters, and the basic logistical support for such experts.

It also aims to provide financial support for certain actions covered under Articles 21 and Article 22 of Decision No 1313/2013/EU to candidate countries not participating in the Union Civil Protection Mechanism and countries under the European Neighbourhood Policy to the extent that they complement funding available from the Instrument for Pre-Accession Assistance and European Neighbourhood Instrument.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. This appropriation is intended to cover expenditure related to civil protection intervention within the Union under the Union Civil Protection Mechanism:

- the provision of support to Member States in obtaining access to equipment and transport resources,
- the provision of additional transport resources and associated logistics, necessary for ensuring a rapid response to major emergencies and complementing the transport provided by the Member States,
- the mobilisation of experts to assess assistance needs and facilitate Union assistance in Member States in the event of disasters, and the basic logistical support for such experts,
- the deployment of trained experts from Member States to the emergency response centre in order to assist in the monitoring, information and coordination tasks of that centre,
- any supporting and complementary action in order to facilitate the coordination of response in the most effective way.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

This appropriation is intended to cover expenditure related to civil protection intervention in third countries under the Union Civil Protection Mechanism:

- mobilisation of experts to assess assistance needs and facilitate European assistance in third countries in case of disasters,
- the provision of support to Member States in obtaining access to equipment and transport resources,
- the provision of European civil protection assistance, including the provision of relevant information on means of transport, as well as associated logistics, in the event of disaster,
- support for consular assistance to the citizens of the Union in major emergencies in third countries regarding civil protection activities, upon request from the consular authorities of the Member States,
- any supporting and complementary action in order to facilitate the coordination of response in the most effective way.

Implementing partners may include authorities of the Member States or of beneficiary countries and their agencies, regional and international organisations and their agencies, non-governmental organisations, public and private operators and individual organisations or operators (including staff seconded from Member State administrations) with appropriate specialised expertise and experience.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

New article

This appropriation is intended to cover the establishment of a European Voluntary Humanitarian Aid Corps ('EU Aid Volunteers'), which is provided for by Article 214(5) of the Treaty on the Functioning of the European Union.

Its objective is to express the Union's humanitarian values and solidarity with people in need through the promotion of an effective and visible EU Aid Volunteers initiative. It shall contribute to strengthening the Union's capacity to respond to humanitarian crises and to building the capacity and resilience of vulnerable or disaster-affected communities in third countries. The Union has to ensure adequate humanitarian aid capacity in the face of the increased number and magnitude of humanitarian crises, both natural disasters and man-made crises. Well-prepared volunteers can contribute to the Union's capacity to cope with these additional humanitarian needs.

This appropriation is intended to cover the following measures and items of expenditure:

- standards governing volunteer management of EU Aid Volunteers,
- certification mechanisms for sending and hosting organisations,
- identification and selection of candidate volunteers,
- training and pre-deployment preparation of volunteers,
- register of EU Aid Volunteers,
- deployment of EU Aid Volunteers in third countries,
- capacity building of hosting organisations,
- the EU Aid Volunteers' Network,
- communication, awareness raising and visibility.

*Remarks**Former Article 25 01 10*

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The purpose of this preparatory action is to set up an interinstitutional system identifying long-term trends on major policy issues that the Union faces. The intention is to provide common analyses of probable outcomes on major issues and make those analyses available to policymakers. Furthermore, to achieve this goal, it would now be appropriate to explore in detail the design of specific mechanisms for promoting closer working cooperation between the research departments of the various Union institutions and bodies which are devoted to the analysis of medium- and long-term policy trends.

The aim of this preparatory action will be:

- to create a European strategy and policy analysis system (ESPAS) with all Union institutions included by 2014 on the basis of a proposal from the Commission (Article 54 of the Financial Regulation). The European Union Institute for Security Studies (EUISS) could continue to provide facilities and technical back-up until such time as the system becomes operational. The system:
 - will be interinstitutional, focusing on global long-term trends, both external and internal, relating to the Union,

- should be designed to provide regular input to the Union's institutions to nourish long-term and medium-term strategic thinking, including reaching out to academics and other stakeholders to provide a broad perspective:
 - this input would include a detailed appraisal of long-term global trends and the submission of a report to the incoming presidents of the Union's institutions looking at challenges options for the period 2014-2019,
 - further reports could include documents for the Union's institutions for debate on forward-looking topics, helping foster and deepen cooperation between the Union's institutions,
- should develop links with other countries undertaking global trends work in order to benefit from their expertise and provide its own expertise to other countries trying to get to grips with strategic trends and changes,
- to build and maintain an open website, as a global repository for all relevant information, to facilitate citizens' access, and linked to other working websites on long-term trends across the globe.

Remarks

This appropriation is intended to cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the programme or measures coming under this item, as well as any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts, as the contracts of technical assistance offices expire during subsequent years.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Legal basis

See Chapter 26 03.

Remarks

Decision No 922/2009/EC established a programme on 'Interoperability solutions for European public administrations' (ISA) as a successor to the IDABC programme, which came to an end in December 2009.

The ISA programme aims at facilitating the efficient and effective electronic cross-border and cross-sector interaction between European public administrations in support of the delivery of electronic public services.

In order to do so, the ISA programme must contribute to establishing the related organisational, financial and operational framework by ensuring the availability of common frameworks, common services and generic tools and by increasing the awareness of information and communication technology aspects of Union legislation.

The ISA programme thus contributes to the reinforcement and implementation of Union policies and legislation.

The programme is implemented in close cooperation and coordination with Member States and sectors, via studies, projects and accompanying measures.

Remarks

This appropriation is intended to cover any expenditure incurred during a declared crisis which has activated one or more business continuity plans, and the nature and/or the amount of which has not made it possible to post it on the other administrative budget lines of the Commission.

The budgetary authority will be informed of the incurred expenditure at the latest three weeks after the crisis has ended.

Activities with no budget line:

- promotion of good financial management,
- administrative support and management of the Directorate-General for Budget,
- multiannual financial framework and budgetary procedure,
- policy strategy and coordination for the Directorate-General for Budget.

Remarks

This appropriation is intended to cover budgetary adjustments:

- for imprest accounts, where all appropriate measures have been taken by the authorising officer to deal with the situation and where the adjustment expenditure cannot be booked to another specific budget line,
- in situations where a claim is cancelled in full or in part after it has been booked to the accounts as revenue (in particular in the event of offsetting against a debt),
- in cases where VAT has not been recovered and where it is no longer possible to book the amount to the line that covered the principal expenditure,
- for any interest relating to the above cases, where it cannot be booked to another specific budget line.

This item is also intended to accommodate, if necessary, an appropriation to cover any losses resulting from the liquidation or cessation of activities of a bank with which the Commission has accounts for the purposes of imprests.

Remarks

In accordance with Article 18 of the Financial Regulation, the balance from each financial year is to be entered in the budget for the following financial year as revenue in the case of a surplus or as a payment appropriation in the case of a deficit.

The estimates of such revenue or payment appropriations are entered in the budget during the budgetary procedure and in a letter of amendment submitted pursuant to Article 39 of the Financial Regulation. They are drawn up in accordance with Regulation (EC, Euratom) No 1150/2000.

After the close of accounts for each financial year, any discrepancy with the estimates is entered in the budget for the following financial year through an amending budget.

A surplus is entered in Article 3 0 0 of the statement of revenue.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the Swiss Confederation's contribution for participation in Union programmes entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Remarks

Former Article 29 02 05

This appropriation is intended to cover the following:

- statistical data collection and surveys, studies and development of indicators and benchmarks,
- quality studies and activities designed to improve the quality of statistics,
- the processing, dissemination, promotion and marketing of statistical information,
- the development and maintenance of statistical infrastructure and statistical information systems,
- the development and maintenance of IT infrastructure supporting the reengineering of the statistical production process,
- risk-based control work at the sites of entities involved in the production of statistical information in Member States, especially to support the economic governance of the Union,

COMMISSION
TITLE 29 — STATISTICS

CHAPTER 29 02 — THE EUROPEAN STATISTICAL PROGRAMME (*cont'd*)

29 02 01 (*cont'd*)

- support to collaborative networks and support to organisations having as their primary objectives and activities the promotion and support for the implementation of the European Statistics Code of Practice and the implementation of new methods of production of European statistics,
- services rendered by external experts,
- statistical training courses for statisticians,
- the cost of purchasing documentation,
- subsidies and subscriptions to international statistical associations.

It is also intended to ensure the gathering of the information necessary to draw up an annual summary report on the economic and social state of the Union on the basis of economic data and structural indicators and benchmarks.

This appropriation is also intended to cover costs incurred in connection with the training of national statisticians and the policy of cooperation in the field of statistics with third countries; expenditure relating to exchanges of officials, the costs of information meetings, and expenditure on payment for services rendered in connection with the adjustment of the remuneration of officials and other staff.

Also charged to this article is expenditure on the purchase of data and access for Commission departments to outside databases.

In addition, funding should be used to develop new, modular techniques.

This appropriation is also intended to cover the provision of the necessary statistical information, at the request of the Commission or of the other institutions of the Union, for the assessment, monitoring and evaluation of the Union's expenditure. This will improve the implementation of financial and budgetary policy (drawing-up of the budget and periodic review of the Multiannual Financial Framework) and make it possible to compile medium and long-term data for the financing of the Union.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the Swiss Confederation's contributions for participation in Union programmes entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Since expenditure on staff and buildings is included in the appropriations entered in Items XX 01 01 01 and XX 01 03 01 and Article 26 01 23, the Commission contribution, together with the Agency's own revenue, is intended to cover expenditure incurred by the Agency in its activities.

At its 23rd session on 1 and 2 February 1960, the Euratom Council proposed unanimously that the Commission postpone not only the levying of the charge (intended to cover the operating expenditure of the Euratom Supply Agency) but also the actual introduction of that charge. Since then a subsidy has been included in the budget to balance the revenue side against the Agency expenditure figures shown in the statement of estimates.

New item

This appropriation is intended to cover the cost of the Union contribution to financial instruments established under the Connecting Europe Facility to enable or facilitate access to long term financing or private investors' resources and thus to accelerate or to make possible the financing of projects of common interest eligible under Regulation (EU) No 347/2013 of the European Parliament and of the Council of 17 April 2013 on guidelines for trans-European energy infrastructure and repealing Decision No 1364/2006/EC and amending Regulations (EC) No 713/2009, (EC) No 714/2009 and (EC) No 715/2009 (OJ L 115, 25.4.2013, p. 39). The financial instruments will be set up as 'debt' or 'equity' frameworks following an ex-ante assessment as required by Article 224 of Commission Delegated Regulation (EU) No 1268/2012. They are intended to be implemented under direct management mode by the entrusted entities, within the meaning of the Financial Regulation, or jointly with the entrusted entities.

Any repayment from financial instruments pursuant to Article 140(6) of the Financial Regulation, including capital repayments, guarantees released, and repayment of the principal of loans, paid back to the Commission and entered in Item 6 3 4 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Articles 21(3)(i) of the Financial Regulation.

Former Article 32 04 03 and former Items 32 01 04 01 and 32 01 04 05

This appropriation is intended to cover expenditure incurred by the Commission for collecting and processing information of all kinds needed for the analysis, definition, promotion, monitoring, evaluation and implementation of a competitive, safe and sustainable European energy policy, of the internal energy market and its extension to third countries, of all aspects of energy supply security in a European and global perspective as well as the strengthening of the rights and protection of energy users by supplying quality services at transparent and comparable prices.

The principal endorsed objectives are to set up a progressive common European policy ensuring continuous energy supply security, good functioning of the internal energy market and access to transport networks of energy, observation of energy market, analysis of modelling including scenarios on the impact of considered policies and the strengthening of the rights and protection of energy users, based on general and particular knowledge of global and European energy markets for all energy types.

This appropriation is also intended to cover experts' expenditure directly linked to the collection, validation and analysis of necessary information on energy market observation (peer review).

This appropriation is intended to cover expenditure incurred by the Commission for collecting and processing information of all kinds needed for the analysis, definition, promotion, monitoring, evaluation and implementation of the rules and measures required to improve the security of the energy sector, technical assistance and specific training.

The main objectives are to develop and apply security rules in the field of energy and in particular:

- measures to prevent malicious acts in the energy sector, with particular reference to the installations and infrastructure of the European system of energy generation and transmission,
- approximation of legislation, technical standards and administrative monitoring practices relating to energy security,

This appropriation is intended to cover the Agency's staff and administrative expenditure (Titles 1 and 2), and operational expenditure relating to the work programme (Title 3).

The Agency must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The amounts repaid in accordance with Article 16 of Commission Regulation (EC, Euratom) No 2343/2002 constitute assigned revenue under Article 21(3)(c) of the Financial Regulation to be charged to Item 6 6 0 0 of the general statement of revenue.

The establishment plan of the Agency for the Cooperation of Energy Regulators is set out in the Annex 'Staff' to this section.

The Union contribution for 2014 amounts to a total of EUR 10 880 000. An amount of EUR 692 000 coming from the recovery of surplus is added to the amount of EUR 10 188 000 entered in the budget.

Remarks

Former Article 32 04 19

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

In the framework of Directive 2009/28/EC of the European Parliament and of the Council of 23 April 2009 on the promotion of the use of energy from renewable sources (OJ L 140, 5.6.2009, p. 16), which sets national targets for the share of renewable energy sources in gross final energy consumption, a new mechanism is proposed for achieving the national targets, under which Member States can make use of national support schemes and of the cooperation mechanisms provided in the context of Directive 2009/28/EC. These mechanisms, which introduce flexibility for Member States on a voluntary cooperation basis, refer to statistical transfers between Member States (Article 6), joint projects between Member States (Articles 7 and 8), joint projects between Member States and third parties (Articles 9 and 10) and joint support schemes between Member States (Article 11).

This preparatory action aims to examine all the conditions for the successful implementation of these cooperation mechanisms and their interaction with other mechanisms or national support schemes, and to assess the need to develop a specific framework for the operation of this mechanism. Development of this operation framework should be given priority in Member States with limited cross-border network capacities as well as in areas that exhibit high potential for specific renewable energy sources projects.

This pilot project aims to increase the total efficiency of district heating and cooling networks, in developing a next generation district heating and cooling, through:

- intelligent use and control of distributed energy storage systems in the network,
- improved design and smart control of substations in the building working at low-temperature heating and high-temperature cooling, and
- intelligent control of the overall network including renewable sources (primarily solar thermal, geothermal, waste heat), thermal energy demand of the connected buildings and both distributed and collective thermal energy storage systems.

The first wave of deliverables provides the initial study work (2014/2015) and includes:

- a smart control algorithm for distributed thermal energy storage and substations,
- a low-cost system to determine the state of charge of compact distributed thermal energy storage systems in the buildings,
- improved low-temperature substation design, and
- an overall control scheme to cope with the imbalance between multiple (unpredictable) renewable heat sources and thermal energy needs of the connected buildings.

The global aim is to increase the overall efficiency of the thermal network and to reduce the primary energy consumption of the back-up system for heating (gas-fired boiler) and cooling (chiller) by at least 20 %.

The second wave consists of the implementation on a site of approximately 60 buildings, some of which are to be connected within the framework of the pilot project in 2014/2015. Total emission savings because of network optimization (= storage + substations + control) are estimated at 1 021 tonnes per year. The emission savings of using renewables have not (yet) been included in the calculations, as the focus is on the next-generation network.

Legal basis

Pilot project within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Former Article 32 05 01

This appropriation is intended to cover, in particular:

- expenses for missions by inspectors carried out in accordance with pre-established six-monthly programmes, short-notice inspections (daily subsistence allowances and travel expenses),
- training of inspectors, and meetings with Member States and nuclear operators,
- purchases of equipment for use in inspections, particularly purchases of monitoring equipment such as digital video systems, gamma, neutron and infrared measurement devices, electronic seals and seal reader systems,
- procurement and renewal of information technology hardware for inspections,
- specific information technology projects for inspections (development and maintenance),
- replacement of monitoring and measurement devices which have reached the end of their service life,
- maintenance of equipment, including insurance of specific equipment at the Canberra, Ametek, Fork and GBNS sites,
- technical infrastructure measures, including waste management and sample transport,
- on-site analyses (labour costs and mission expenses for analysts),
- agreements on working premises on site (laboratories, offices, etc.),
- day-to-day management of on-site installations and central laboratories (repairs, maintenance, information technology hardware, purchases of supplies and consumables, etc.),

Remarks

Former Article 32 05 02

This appropriation is intended to cover:

- expenditure incurred by the Commission for collecting and processing information of all kinds needed for the analysis, definition, promotion, monitoring, evaluation and implementation of the common policy on nuclear safety and security, particularly in the new Member States and of the rules and measures in the field of radiation protection,
- expenditure on measures and actions relating to monitoring and protection against the effects of ionising radiation and aimed at ensuring the health protection of the population and the protection of the environment against the dangers of radiation and radioactive substances. These actions relate to specific tasks provided for under the Treaty establishing the European Atomic Energy Community,

CHAPTER 32 03 — NUCLEAR ENERGY (*cont'd*)**32 03 02** (*cont'd*)

- expenditure on the establishment and operation of a corps of inspectors to check protection against ionising radiation in the Member States. This expenditure includes, in addition to subsistence allowances and travel (mission) expenses, costs for training, for preparatory meetings and for purchases of equipment to be used for inspections,
- expenditure linked to the implementation of the Commission's tasks referred to in point 31 of the European Council conclusions of 24 and 25 March 2011.

This appropriation may also cover expenditure on information and publications directly linked to the achievement of the objectives coming under this article.

Legal basis

Task resulting from specific powers directly conferred on the Commission by the Treaty establishing the European Atomic Energy Community under Chapter 3 of Title II and Article 174.

Remarks

Former Article 32 05 03

This appropriation is intended to cover payments in respect of commitments remaining to be settled from previous years.

Legal basis

Task resulting from specific powers directly conferred on the Commission by the Accession Treaty of 2003 (Protocol No 4 on the Ignalina nuclear power plant in Lithuania and Protocol No 9 on Unit 1 and Unit 2 of the Bohunice V1 nuclear power plant in Slovakia, both annexed to the Accession Treaty of 2003).

Task resulting from specific powers directly conferred on the Commission by the Treaty establishing the European Atomic Energy Community under Article 203.

The task concerning the Kozloduy nuclear plant in Bulgaria is similarly directly conferred upon the Commission by Article 30 of the 2005 Act of Accession.

Council Regulation (EC) No 1990/2006 of 21 December 2006 on the implementation of Protocol No 4 on the Ignalina nuclear power plant in Lithuania to the Act of accession of the Czech Republic, Estonia, Cyprus, Latvia, Lithuania, Hungary, Malta, Poland, Slovenia and Slovakia 'Ignalina Programme' (OJ L 411, 30.12.2006, p. 10).

Remarks

These remarks are applicable to all the budget lines in this chapter.

This appropriation will be used for Horizon 2020 — the Framework Programme for Research and Innovation, in the field of energy under the European Strategic Energy Technology Plan (SET-Plan), which covers the 2014 to 2020 period.

COMMISSION

TITLE 32 — ENERGY

CHAPTER 32 04 — HORIZON 2020 — RESEARCH AND INNOVATION RELATED TO ENERGY (*cont'd*)

Horizon 2020 activities relevant to energy under the SET-Plan, in particular the societal challenge 'Secure, Clean and Efficient Energy', but also relevant parts of other sections of the programme, including 'Access to Finance' will contribute primarily to the Europe 2020 Flagship Initiative 'Innovation Union' and other flagship initiatives, notably 'Resource Efficient Europe', 'An industrial policy for the globalisation era', and 'A digital agenda for Europe', as well as in the development and functioning of the European Research Area (ERA). Horizon 2020 will contribute to building an economy based on knowledge and innovation across the whole Union by leveraging sufficient additional research, development and innovation funding.

Horizon 2020 will be carried out in order to pursue the general objectives described in Article 179 of the Treaty on the Functioning of the European Union, in order to contribute to the creation of a society of knowledge, based on the European Research Area, i.e. supporting transnational cooperation at all levels throughout the Union, taking the dynamism, creativity and the excellence of European research to the limits of knowledge, strengthening human resources for research and for technology in Europe, quantitatively and qualitatively, and research and innovation capacities in the whole of Europe and ensuring optimum use thereof.

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Union to investigate new areas of research suitable for Union action, *inter alia*, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

This appropriation will be used in accordance with Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for the participation and dissemination in 'Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020)' and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this chapter. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The possibility of third countries or institutes from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution will be entered in Items 6 0 1 3 and 6 0 1 5 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from States taking part in the European Cooperation in the field of Scientific and Technical Research will be entered in Item 6 0 1 6 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes, entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contribution by outside bodies to Union activities entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Additional appropriations will be made available under Item 32 04 50 01.

Administrative appropriations of this chapter will be provided under Article 32 01 05.

CHAPTER 32 04 — HORIZON 2020 — RESEARCH AND INNOVATION RELATED TO ENERGY (*cont'd*)

32 04 03 Societal challenges

Remarks

This priority of Horizon 2020 responds directly to the policy priorities and societal challenges identified in the Europe 2020 strategy. Those activities will be implemented using a challenge-based approach which brings together resources and knowledge across different fields, technologies and disciplines. The activities will cover the full cycle from research to market, with a new focus on innovation-related activities such as piloting, demonstration, test-beds, support for public procurement, design, end-user driven innovation, social innovation and market take-up of innovations. The activities will support directly the corresponding sectoral policy competences at Union level.

This appropriation is intended to support the European Strategic Energy Technology Plan (SET-Plan) objectives and initiatives. These are primarily: wind, solar, bioenergy, carbon capture and storage, smart cities and electricity grids. In recognition of their important contribution to future sustainable energy systems, at least 85 % of the budget appropriations will be allocated to the renewable and end-use energy efficiency policy areas, including smart grids and energy storage, from 2014 onwards.

Remarks

The new Rights and Citizenship programme is the successor to three previous programmes: Fundamental Rights and Citizenship, Daphne III, and the Antidiscrimination and Diversity and Gender Equality sections of the Programme for Employment and Social Solidarity (Progress). The objective of the programme is to contribute to the creation of an area in which the rights of individuals are promoted and protected by enhancing the exercise of rights deriving from Union citizenship, promoting the principles of non-discrimination and equality as well as protection from all forms of violence, contributing to the protection of personal data, and enhancing protection for the rights of the child and the rights deriving from Union consumer law.

New article

This appropriation is intended to contribute to enhancing the exercise of rights deriving from the citizenship of the Union, to ensuring a high level of protection of personal data, to enhancing the respect of the rights of the child, to contribute to the protection and combating of all forms of violence against women, to empowering consumers and businesses to trade and purchase in trust within the internal market by enforcing the rights deriving from the Union consumer law and by supporting the freedom to conduct business in the internal market through cross-border transactions.

CHAPTER 33 02 — RIGHTS AND CITIZENSHIP (*cont'd*)**33 02 01** (*cont'd*)

In this context, this appropriation is intended to support actions which will focus on the following areas:

- enhancing public awareness and knowledge of Union law and policies,
- supporting the implementation of Union law and policies in the Member States,
- promoting transnational cooperation and the building of mutual knowledge and mutual trust among all stakeholders involved,
- improving the knowledge and understanding of potential issues affecting the exercise of rights and principles guaranteed by the Treaty, the Charter of Fundamental Rights and secondary Union legislation with a view to ensuring evidence-based policy making and legislation.

In particular, this appropriation is intended to cover the following types of action:

- analytical activities, such as collection of data and statistics; development of common methodologies and, where appropriate, indicators or benchmarks; studies, researches, analyses and surveys; evaluations and impact assessments; elaboration and publication of guides, reports and educational material; monitoring and assessment of the transposition and application of Union legislation and of the implementation of Union policies; workshops, seminars, experts meetings, conferences,
- training activities, such as staff exchanges, workshops, seminars, train-the-trainers events, development of online/other training modules,
- mutual learning, cooperation, awareness raising and dissemination activities, such as identification of, and exchanges on, good practices, innovative approaches and experiences, organisation of peer review and mutual learning; organisation of conferences and seminars; organisation of awareness-raising and information campaigns, media campaigns and events, including corporate communication of the political priorities of the Union; compilation and publication of materials to disseminate information as well as results of the programme; development, operation and maintenance of systems and tools using information and communication technologies,
- support for main actors, such as support for Member States when implementing Union law and policies; support for key European level networks the activities of which are linked to the implementation of the objectives of the programme; networking among specialised bodies and organisations, national, regional and local authorities at European level; funding of experts' networks; funding of European level observatories.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from acceding countries, candidate countries and potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

New article

This appropriation is intended to contribute to promoting the effective implementation of the principles of non-discrimination on the grounds of sex, racial or ethnic origin, religion or belief, disability, age or sexual orientation, including equality between women and men and the rights of persons with disabilities and of the elderly.

In this context, this appropriation is intended to support actions which will focus on the following areas:

- enhancing public awareness and knowledge of Union law and policies,
- supporting the implementation of Union law and policies in the Member States,
- promoting transnational cooperation and the building of mutual knowledge and mutual trust among all stakeholders involved,
- improving the knowledge and understanding of potential issues affecting the exercise of rights and principles guaranteed by the Treaty, the Charter of Fundamental Rights and secondary Union legislation with a view to ensuring evidence-based policy making and legislation.

In particular, this appropriation is intended to cover the following types of actions:

- analytical activities, such as collection of data and statistics; development of common methodologies and, where appropriate, gender sensitive and gender budgeting approaches, indicators or benchmarks; studies, researches, analyses and surveys; evaluations and impact assessments; elaboration and publication of guides, reports and educational material; monitoring and assessment of the transposition and application of Union legislation and of the implementation of Union policies; workshops, seminars, experts meetings, conferences,
- training activities, such as staff exchanges, workshops, seminars, train-the-trainers events, development of online/other training modules,
- mutual learning, cooperation, awareness raising and dissemination activities, such as identification of, and exchanges on, good practices, innovative approaches and experiences, organisation of peer review and mutual learning; organisation of conferences and seminars; organisation of awareness-raising and information campaigns, media campaigns and events, including corporate communication of the political priorities of the Union; compilation and publication of materials to disseminate information as well as results of the programme; development, operation and maintenance of systems and tools using information and communication technologies,
- support for main actors, such as support for Member States when implementing Union law and policies; support for key European level networks the activities of which are linked to the implementation of the objectives of the programme; networking among specialised bodies and organisations, national, regional and local authorities at European level; funding of experts' networks; funding of European level observatories.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. This appropriation is intended to cover the Agency's staff and administrative expenditure (Titles 1 and 2).

This appropriation is also intended to cover the operational expenditure (Title 3) of the Agency, which is responsible for providing the relevant Union institutions and authorities of the Member States when implementing Union law with assistance and expertise relating to fundamental rights in order to support them when they take measures or formulate courses of action within their respective spheres of competence to fully respect fundamental rights.

The Agency can be expected to achieve the following operational objectives/tasks:

- provision of assistance to Union institutions and the Member States,
- promotion of networking of stakeholders and dialogue at European level,
- promotion and dissemination of information and awareness-raising activities to enhance visibility on fundamental rights,
- effective functioning of the management structure and implementation of operations.

The Agency must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure.

The amounts repaid in accordance with Article 20 of Commission Delegated Regulation (EU) No 1271/2013 constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

The Agency's establishment plan is set out in Annex 'Staff' to this section.

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

The European Charter for Equality of Women and Men in Local Life demonstrates the potential for action by local authorities in the field of gender equality. To be politically effective, the various objectives stated in the Charter need to be defined in terms of relevant indicators, that are specifically and clearly measurable, thorough and comprehensive, realistic and modifiable, and that allow the current state of implementation to be benchmarked against the objectives of the Charter. The pilot project should finance actions geared towards the development of such indicators so as to assess implementation of the Charter (similar to the Union's follow-up to the UN Beijing process). In cooperation with local authorities, the European Institute for Gender Equality could be involved because of its expertise in developing indicators. The pilot project should last for two years, with a total budget of EUR 1 million, and enable local actors to better monitor implementation of the Charter.

TITLE 33 — JUSTICE

CHAPTER 33 02 — RIGHTS AND CITIZENSHIP (cont'd)

33 02 77 (cont'd)

33 02 77 07 (cont'd)

The goal of this project is to develop a service concept and later a technology platform and service that can be used by any deaf or hard-of-hearing citizen within the Union to assist them with real-time live sign language interpretation by a certified sign language interpreter or a real-time captioning service (financed by the respective Member State or Union institution) in order to enable independent communication with the Union institutions, such as the European Parliament or the Commission. This entails that the overall goal is to develop an internet- and hand-held-device-based service and IT application that connects deaf and hard-of-hearing people to accredited sign language interpreters and captioners during their interaction with the Union institutions, such as the European Parliament and the Commission.

Justification for the project relates to the fact that there is currently no direct communication access for deaf citizens, including deaf or hard-of-hearing MEPs and administrators, with the institutions of the Union, and a sign language interpreter is almost always needed to enable a deaf or hard-of-hearing citizen to access the institutions. Usually an interpreter would accompany such citizens during a visit to the institution, requiring huge organisational efforts and incurring very high costs for everyone involved.

This pilot project shall ensure the direct communication access to all Union institutions for the almost one million deaf citizens and 60 to 80 million hard-of-hearing people using different sign languages in all Member States.

This pilot project is in line with the European Parliament resolutions of 18 July 1988 on sign language for the deaf (OJ C 187, 18.7.1988, p. 236), the resolution of 18 November 1998 on sign languages (OJ C 379, 7.12.1998, p. 66) and of 25 October 2011 on mobility and inclusion of people with disabilities and the European Disability Strategy 2010-2020 (OJ C 131 E, 8.5.2013, p. 9).

Remarks

This pilot project will give relevant actors in relevant Member States an opportunity to develop a web-based knowledge platform on female genital mutilation (FGM). This platform should be developed for and by professionals in the field of health, child protection, asylum, migration, police and judiciary who are dealing with women and girls living with, or at risk of, FGM and for the media. Other important partners include national and regional authorities, as well as civil society organisations. Such a platform will give easily accessible information and support to professionals so as to deliver victim support more effectively, help prevent FGM and protect women and girls living with, or at risk of, FGM. In addition, it will contribute to implementing Directive 2012/29/EU of the European Parliament and of the Council of 25 October 2012 establishing minimum standards on the rights, support and protection of victims of crime (OJ L 315, 14.11.2012, p. 57) and Directive 2013/32/EU of the European Parliament and of the Council of 26 June 2013 on common procedures for granting and withdrawing international protection (OJ L 180, 29.6.2013, p. 60), with particular reference to eligibility and reception conditions.

CHAPTER 33 02 — RIGHTS AND CITIZENSHIP (cont'd)

33 02 77 (cont'd)

33 02 77 08 (cont'd)

An all-encompassing web-based knowledge platform on FGM for professionals in Europe will be developed on the basis of e-learning tools with separate modules for each government body and authority. It will be developed in the languages of the participating countries, with common information for all Member States and country-specific legislation and contact points. Modules will be developed for police and judicial authorities and professionals in a wide range of areas (social workers, child protection, reception centres, migration services, education and media). This could be complemented by guidelines for professionals in need of immediate advice. This tool will help improve knowledge of the practice, prevent stigmatisation in the media and protect women and girls living with, or at risk of, FGM.

Remarks

The EU Framework for National Roma Integration Strategies calls upon Member States to include strong monitoring mechanisms and involve civil society, including Roma organisations, in the implementation and monitoring of the strategies. Capacity-building is needed to prepare local Roma civil society organisations to contribute to the planning and implementation of the programmes. The pilot project would contribute to the creation and capacity building of local Roma civil society as well as a monitoring mechanism regarding Roma integration and inclusion especially the production and dissemination of 'shadow reports' where civil society coalitions could supplement or present alternative information and data to the reports submitted by Member States concerning the implementation of their strategies. These shadow reports could provide local knowledge to national and Union policy processes and reflect on the real social impact of government measures. The monitoring would focus on the local implementation of strategies in the four priority areas (employment, education, housing, health), in the fields of anti-discrimination and gender equality and would also provide information on the level of involvement of civil society, the use of Union funds and mainstreaming of Roma inclusion measures.

Remarks

Former Article 33 03 09

According to the latest data available, 300 000 couples of different nationalities get married every year in Europe; 129 000 of these marriages end in a divorce or separation.

This phenomenon has led to a dramatic increase in recent years in conflicts of jurisdiction on the custody of children born to bi-national couples and an increase in cases of international abduction of minors.

CHAPTER 33 03 — JUSTICE (*cont'd*)**33 03 77** (*cont'd*)33 03 77 03 (*cont'd*)

The goal of the project is to create an information instrument for all bi-national couples on parental responsibilities and the rights of children in cases of separation or divorce of parents.

This instrument aims to provide 'informed consent' to highlight the differences between the legal systems of Member States with regard to the consequences of separation and divorce, rules on the custody of minors under international conventions and the consequences of international child abduction, especial as concerns the impact on the children involved.

The experience of the European Parliament Mediator for cases of international child abduction has shown that a wide range of situations arise from the uncertainty of applicable law, conflicts of jurisdiction and the totally inadequate knowledge and awareness of rights and obligations of bi-national couples.

Actions:

- comparison of national laws of Member States as regards separation, divorce and child custody,
- development of information instruments (e.g. vade mecum, practical guides, brochures, etc.) to provide all necessary information (rights, duties and responsibilities of parents and towards the children),
- involvement of all the competent authorities of Member States in the distribution of this information,
- instruments to increase knowledge and awareness among bi-national couples.

Remarks

The aim is to fund projects at Union level which raise the awareness of children of their rights in the context of civil, criminal and administrative judicial proceedings

To this effect projects should develop and roll out comprehensive awareness-raising programmes in schools targeting secondary school children. In particular this could include interactive activities (such as mock trials/moot courts) that allow secondary school students to understand their rights, with some degree of customisation for each participating country to take account of the national context. Projects should enable children to experience the phases of mock criminal, civil or administrative cases, and improve their understanding of the various roles and responsibilities (e.g. child subject to proceedings, witness, guardian, parent, lawyer, prosecutor, judge, social worker, police officer, etc.) as well as their own rights.

The financial allocation for the LIFE Programme may cover expenses pertaining to preparatory, monitoring, control, inspection, audit and evaluation activities which are required for the management of the programme and the achievement of its objectives; in particular, studies, meetings of experts, information and communication actions, including corporate communication of the political priorities of the Union in so far as they are related to the general objectives of the LIFE programme, expenses linked to IT networks focusing on information processing and exchange, together with all other technical and administrative assistance expenses incurred by the Commission for the management of the programme. Cooperation with relevant international organisations, their institutions and bodies, will be possible where needed for the purpose of achieving the climate action objectives.

This appropriation is also intended to cover:

- hosting, maintenance, security, quality assurance, operation and support (hardware, software and services) of information technology (IT) systems directly linked to the achievement of the policy objectives of the sub-programme for climate action under the LIFE programme, in particular the EU Single Registry, EU Transaction Log and IT systems related to the implementation of legislation on the protection of the ozone layer, such as the Ozone Depleting Substances (ODS) database,
- expenditure on workshops and conferences directly linked to the achievement of the objectives of the LIFE programme or measures coming under this item in the area of climate action.

In accordance with Article 5 of Regulation (EU) No 1293/2013, the LIFE programme shall be open to the participation of the following countries in accordance with the conditions laid down in the respective bilateral or multilateral agreements establishing the general principles for their participation in Union programmes:

- European Free Trade Association (EFTA) States which are parties to the Agreement on the European Economic Area (EEA): the contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget,
- candidate countries, potential candidates and acceding countries to the Union: any revenue from the contributions from candidate countries, and potential candidates, for participating in Union programmes, and entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation,
- countries to which the European Neighbourhood Policy applies,
- countries which have become members of the European Environmental Agency in accordance with Council Regulation (EC) No 933/1999 of 29 April 1999 amending Regulation (EEC) No 1210/90 on the establishment of the European Environmental Agency and the European environment information and observation network (OJ L 117, 5.5.1999, p. 1). Any revenue from the Swiss Confederation's contribution to participation in Union programmes entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

In accordance with Article 6 of Regulation (EU) No 1293/2013, this appropriation may cover activities outside the Union and in overseas countries and territories in accordance with Decision 2001/822/EC (OJ L 314, 30.11.2001, p. 1), provided those activities are necessary to achieve Union environmental and climate objectives and to ensure the effectiveness of interventions carried out in Member State territories to which the Treaties apply. A legal person established outside the Union may be able to participate in the financed through action grant projects provided the beneficiary coordinating the project is based in the Union and the activity to be carried out outside the Union is necessary to achieve Union environmental and climate objectives and to ensure the effectiveness of interventions carried out in the Member States.

New article

Under the LIFE programme, this appropriation is intended to cover measures to support the Commission's role in developing policy and legislation and monitor its implementation in the area of climate action, taking into account the following priorities:

- ensuring the implementation of the European Union commitments under the Kyoto Protocol to the United Nations Framework Convention on Climate Change (UNFCCC),

COMMISSION

TITLE 34 — CLIMATE ACTION

34 02 01 (*cont'd*)

- developing new policies and further implementation of the 'Climate and Energy' package,
- ensuring the implementation and use of market-based instruments, in particular greenhouse gas emission trading, in order to achieve, via a cost-efficient emission reduction, the '20/20/20' climate/energy targets of the Europe 2020 Strategy and the 2030 Framework on climate and energy policies, and the Roadmap 2050 supporting the transition towards a low-carbon economy/society.

This appropriation is intended to cover in particular expenditure incurred by the Commission through:

- action grants to integrated, technical assistance, 'best practice', information, awareness and dissemination, preparatory, pilot and/or integrated and/or demonstration projects via an annual call for proposals, including the development or dissemination of best practice techniques, know-how and technologies in the domain of mitigating climate change and reducing greenhouse gas emissions,
- studies and evaluations, economic analyses and modelling of scenarios,
- administrative arrangements with DG JRC,
- cooperation with Eurocontrol on the implementation of aviation and ETS,
- designing innovative and integrated support mechanisms to develop innovative low carbon policies and strategies, including possible new financial instruments to fully exploit the potential of new technologies or leverage more funding for implementation of Union climate policy,
- supporting the development of 'climate proofing' tools, risk-based assessments of programmes and measures to enhance adaptive capacity and resilience to climate change support and of 'climate tracking' methodologies to monitor climate-related expenditure under the mainstreaming objective in the next multiannual financial framework 'to increase the proportion of climate mainstreaming to at least 20 % of the future total budget of the Union', with contributions from different policies,
- services for ensuring the implementation of environmental policy and legislation in the area of climate action,
- services for monitoring the mainstreaming/integration of climate action in other policy areas/programmes,
- conferences, seminars and workshops with experts and stakeholders,
- developing and maintaining networks, databases and information and computer systems directly linked to the implementation of Union climate policy and legislation, in particular when improving public access to environmental information. The expenditure covered will include the costs of development, maintenance, operation and support (hardware, software and services) of policy support systems, in particular the EU Single Registry, the EU Transaction Log and the Ozone Depleting Monitoring System (ODS). It will also cover the cost of project management, documentation and training linked to the implementation of these systems.

Cooperation with relevant international organisations, their institutions and bodies, shall be possible where needed for the purpose of achieving the climate action objectives

The measures financed by LIFE may be implemented through grants, financial instruments or procurement procedures. The LIFE programme shall finance measures and projects with European added value.

- developing new policies under the 2030 Framework for Climate and Energy,
- ensuring the adaptation of the Union economy and society to the adverse impact of climate change and mitigating that impact,
- ensuring the implementation and use of market-based instruments, in order to achieve via a cost-efficient emission reduction, the '20/20/20' climate/energy targets of the Europe 2020 strategy supporting the transition towards a low-carbon economy/society,
- promoting non-governmental organisations (NGOs) primarily active in the field of climate action at a European level and involved in the development and implementation of Union policy and legislation aiming to strengthen the participation of NGOs in the dialogue process of climate action policy making and in its implementation and in the European standardisation process to ensure balanced stakeholder representation and the systematic integration of climate-related aspects.

This appropriation is intended to cover expenditure incurred by the Commission through:

- action grants to technical assistance, 'best practice', information, awareness and dissemination, preparatory, pilot and/or innovative projects via an annual call for proposals, including to promote the development or dissemination of best practices and policy approaches, support the communication, management and dissemination of climate relevant information, solutions and practices, including developing cooperation platforms, and promote awareness and education on climate matters in the area of climate mitigation and adaptation and resilience to climate change,
- operating grants to support the operational activities/work programme of non-governmental organisations (NGOs) that are primarily active in the field of climate action at European level and involved in the development and implementation of Union policy and legislation,
- conferences, seminars and workshops with experts and stakeholders,
- developing and maintaining networks, databases and information and computer systems directly linked to the promotion and awareness raising of development and implementation of Union climate policy and legislation. The expenditure covered will include the costs of development, maintenance, operation and support (hardware, software and services) of such policy support systems. It will also cover the cost of project management, documentation and training linked to the implementation of these systems,
- information, publication and dissemination activities, including events, exhibitions, audio-visual productions and similar awareness raising measures to promote climate action objectives, the transition towards a low-carbon economy/society.

The measures financed by LIFE may be implemented through action grants to projects and operating grants to NGOs or procurement procedures. The LIFE programme shall finance measures and projects with European added value.

Cooperation with relevant international organisations, their institutions and bodies, shall be possible where needed for the purpose of achieving the climate action objectives.

This appropriation is intended to cover payments in respect of commitments remaining to be settled from previous years.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

The Union has committed significant resources, providing positive incentives to developing countries to reduce emissions from global deforestation and forest degradation (REDD+). The Union, if the contributions of its Member States are also taken into account, is the biggest funding partner for this programme.

Early evaluations suggest that the lack of common methodologies and sufficient resources (human, technical and financial) to forecast, measure, report, verify and compare (FMRVC) forest emissions over time and between countries are a major weak point of REDD+.

This pilot project will use existing roads and expansion of accessibility, through the opening of new roads, as an early performance indicator for projects to reduce greenhouse gas emissions from deforestation and to strengthen Forest Law Enforcement, Governance and Trade (FLEGT). At the same time the pilot project will incorporate information on accessibility (e.g. road networks) into harmonised FMRVC methodologies as a way of improving the efficiency and reliability of REDD+ reporting, thus laying the groundwork for the post-2020 climate regime to be agreed at UNFCCC COP-21 in Paris in December 2015.

In tropical areas, satellite and land-based data indicate that the opening of a new road through a forest is generally followed by the building of secondary roads (paved or unpaved) that will then trigger more degradation and deforestation (conversion to agriculture or ranching). Scientific reports agree that most deforestation, fragmentation and forest degradation occurs in a 'risk zone' around infrastructure and access networks.

Therefore, building new roads is not only a major driver of deforestation and forest degradation; it can also be a cost-efficient indicator of likely forest emissions and biodiversity loss. Maps of roadless areas can be created from spatial information on infrastructure, including roads, and then overlapped with up-to-date forest maps to make an early assessment of the impact of Union sectoral policies and the efficiency of the REDD+ activities supported. This could also help meet a strategic Union target stemming from the UN Convention on Biological Diversity, namely that, by 2020, the rate of loss of all natural habitats, including forests, should be at least halved and, where feasible, brought close to zero, and degradation and fragmentation significantly reduced.

Assessing the impact of accessibility expansion can help in measuring performance in the five activities encompassed by REDD+ (deforestation, forest degradation, conservation, management, and enhancement of forest carbon stock). Additionally, road planning is an easily understandable strategic tool that can be used by both donors and beneficiaries of the REDD+ scheme, and it ties in with the international drivers of deforestation (including imports in the Union).

This appropriation should help deliver and cover the cost of:

- producing an up-to-date global map of roadless areas in forested regions, focusing on tropical forests (based on best available spatial data and satellite images); these maps should be made publicly available on a dedicated website,
- developing a prediction model for deforestation and forest degradation on the basis of existing roads and road-building forecasts in priority areas,

Remarks

The aim of this reserve, in accordance with point 25 of the Interinstitutional Agreement of 17 May 2006, is to allow a rapid response to the specific aid requirements of third countries following events which could not be foreseen when the budget was established, first and foremost for humanitarian operations, but also for civil crisis management and protection where circumstances so require. The annual amount of this reserve is fixed at EUR 280 000 000 for the duration of the multiannual financial framework, in constant prices.

This reserve is entered in the general budget of the Union as a provision. The corresponding commitment appropriations will be entered in the budget, if necessary, over and above the ceilings.

When the Commission considers that this reserve needs to be called on, it will present to the European Parliament and the Council a proposal for a transfer from this reserve to the relevant budget lines.

At the same time as it presents its proposal for a transfer, the Commission will initiate a dialogue procedure, if necessary in a simplified form, to secure agreement of the European Parliament and the Council on the need to use this reserve and on the amount required.

Remarks

The aim of this reserve is to provide additional support for workers who suffer from the consequences of major structural changes in world trade patterns and to assist them with their reintegration into the labour market.

The methods for entering the appropriations in this reserve and for mobilising the Fund are laid down in point 28 of the Inter-institutional Agreement of 17 May 2006 and in Article 12 of Regulation (EC) No 1927/2006 for applications submitted before 31 December 2013 and by point 13 of the Interinstitutional Agreement of 2 December 2013 for applications submitted after 1 January 2014.

ANNEXES

EUROPEAN ECONOMIC AREA

COMMISSION
EUROPEAN ECONOMIC AREA

Under the Agreement establishing the European Economic Area the EFTA States (with the exception of Switzerland) take part in a wide range of Union policies covered by subheading 1a and headings 2, 3, 4 and 5 of the multiannual financial framework in exchange for a financial contribution to operating appropriations calculated by applying a 'proportionality factor'. This proportionality factor is equal to the sum of the ratios obtained by dividing the gross domestic product at market prices of each EFTA State by the gross domestic product at market prices of all the Member States plus that of the EFTA State concerned.

For 2014 the proportionality factor is estimated at 3,03 % (on the basis of 2012 figures), i.e. 2,92 % for Norway, 0,08 % for Iceland and 0,03 % for Lichtenstein.

These financial contributions will not be formally entered into the budget; each budget heading relating to activities in which the EFTA States take part will refer to the EFTA contribution as a memorandum item. A summary table, listing the budget headings concerned and the amounts of the EFTA contribution for each budget heading, is published as an annex to the general budget of the Union. The total EFTA contribution for the operational part for 2014 is estimated at about EUR 14 478 961 in commitment appropriations. The EFTA States will also share in the administrative expenditure directly linked to the implementation of these policies. The figures and budget headings concerning the contributions by the EFTA States are still to be discussed with them and must therefore be regarded as provisional.

*BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE UNION BUDGET (BY WAY OF INDICATION)***A. INTRODUCTION**

This Annex is drawn up in accordance with Article 35(1) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

It provides information on the amounts of the borrowing-and-lending operations guaranteed by the Union budget: loans for balance-of-payments support, borrowing operations to provide macro-financial assistance to third countries, Euratom borrowings to contribute to the financing required for improving the degree of efficiency and safety of nuclear power stations in certain third countries and European Investment Bank loans in certain third countries.

At 31 December 2012, outstanding operations covered by the Union budget totalled EUR 82 277 116 000; of that total EUR 59 177 969 000 was inside the Union and EUR 23 099 147 000 outside (rounded figures and exchange euro rate applicable at 31 December 2012).

Council Decision 2009/459/EC of 6 May 2009 providing Community medium-term financial assistance for Romania (OJ L 150, 13.6.2009, p. 8).

Council Regulation (EC) No 431/2009 of 18 May 2009 amending Regulation (EC) No 332/2002 (OJ L 128, 27.5.2009, p. 1).

Council Decision 2013/531/EU of 22 October 2013 providing precautionary Union medium-term financial assistance to Romania (OJ L 286, 29.10.2013, p. 1).

2. *Description*

In accordance with Regulation (EC) No 332/2002, the Union may grant loans to Member States which are experiencing, or are seriously threatened with, difficulties in their balance of current payments or capital movements. Only Member States which have not adopted the euro may benefit from this facility. The outstanding amount of loans is limited to EUR 12 000 000 000 in principal.

On 2 December 2008, the Council decided to extend the facility to EUR 25 000 000 000.

On 4 November 2008, the Council decided to provide Community medium-term financial assistance for Hungary in the form of a medium-term loan of a principal of up to EUR 6 500 000 000 for a maximum average maturity of 5 years.

On 20 January 2009, the Council decided to provide Community medium-term financial assistance for Latvia in the form of a medium-term loan of a principal of up to EUR 3 100 000 000 for a maximum average maturity of 7 years.

On 6 May 2009, the Council decided to provide Community medium-term financial assistance for Romania in the form of a medium-term loan of a principal of up to EUR 5 000 000 000 for a maximum average maturity of 5 years.

On 18 May 2009, the Council decided to extend the facility to EUR 50 000 000 000.

On 22 October 2013, the Council decided to make available to Romania precautionary medium-term assistance amounting to a maximum of EUR 4 000 000 000 in the form of a loan with a maximum average maturity of 8 years.

3. *Effect on the budget*

Since both parts of these borrowing-and-lending operations are carried out on identical terms, they affect the budget only if the guarantee is activated in case of default. As at 31 December 2012 the outstanding amount under this instrument is EUR 11 400 000 000.

Council Implementing Decision 2011/344/EU of 30 May 2011 on granting Union financial assistance to Portugal (OJ L 159, 17.6.2011, p. 88).

Council Implementing Decision 2011/682/EU of 11 October 2011 amending Implementing Decision 2011/77/EU on granting Union financial assistance to Ireland (OJ L 269, 14.10.2011, p. 31).

Council Implementing Decision 2011/683/EU of 11 October 2011 amending Implementing Decision 2011/344/EU on granting Union financial assistance to Portugal (OJ L 269, 14.10.2011, p. 32).

2. **Description**

Article 122(2) of the Treaty on the Functioning of the European Union provides for the possibility of the Union granting financial assistance to a Member State which is in difficulties or is seriously threatened with severe difficulties caused, inter alia, by exceptional occurrences beyond its control.

The guarantee provided by the Union is for borrowings raised on the capital markets or from financial institutions.

In accordance with Article 2(2) of Council Regulation (EU) No 407/2010, the outstanding amount of loans and credit lines granted to Member States under the European financial stabilisation mechanism shall be limited to the margin available under the Union's own resources for payment appropriations.

This item constitutes the structure for the guarantee provided by the Union. It will enable the Commission to service the debt should debtors default.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. Article 12 of Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities own resources (OJ L 130, 31.5.2000, p. 1) shall apply.

On 7 December 2010, the Union decided to make available to Ireland a loan amounting to a maximum of EUR 22 500 000 000, with a maximum average maturity of 7,5 years (OJ L 30, 4.2.2011, p. 34).

On 30 May 2011, the Union decided to make available to Portugal a loan amounting to a maximum of EUR 26 000 000 000 (OJ L 159, 17.6.2011, p. 88).

On 11 October 2011, the Council decided to amend Implementing Decisions 2011/77/EU and 2011/344/EU by extending the maturities and applying the reduction of the interest rate margin to all the tranches that have already been disbursed (OJ L 269, 14.10.2011, p. 31 regarding Ireland (2011/682/EU) and p. 32 regarding Portugal (2011/683/EU)).

At 31 December 2012 the outstanding amount under this instrument is EUR 43 800 000 000.

3. **Effect on the budget**

On the expenditure side, the budget is affected if the guarantee is activated in the event of default.

On the revenue side, the provision on the interest income resulting from the interest differential between the loan and borrowing transactions paid by the beneficiary — initially made in Decisions 2011/77/EU and 2011/344/EU applying to each beneficiary country individually in Article 1(5) of those Decisions — has been repealed by Decisions 2011/682/EU and 2011/683/EU.

Council Decision 2007/860/EC of 10 December 2007 providing macro-financial assistance to Lebanon (OJ L 337, 21.12.2007, p. 111).

2. **Description**

On 10 December 2007, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Lebanon in the form of a long-term loan for a maximum amount of EUR 50 000 000 in principal for a maximum duration of 10 years. The first tranche of EUR 25 000 000 was disbursed in 2009.

3. **Effect on the budget**

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default.

Council Decision 1999/732/EC of 8 November 1999 providing supplementary macro-financial assistance to Romania (OJ L 294, 16.11.1999, p. 29).

2. **Description**

On 8 November 1999, the Council decided to grant Romania macro-financial assistance in the form of a long-term loan of a principal of up to EUR 200 000 000 for a maximum period of 10 years (ROMANIA IV). The first tranche of EUR 100 000 000 was paid on 29 June 2000. A second tranche of EUR 50 000 000 was paid on 17 July 2003.

3. **Effect on the budget**

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default.

From 1 January 2007, loans with Bulgaria and Romania cease to be external actions (see Regulation (EC, Euratom) No 2273/2004 (OJ L 396, 31.12.2004, p. 28)) and are therefore covered directly by the Union budget and no longer by the Fund.

2. **Description**

On 17 November 1997, the Council decided to grant a European Union guarantee for an exceptional borrowing-and-lending operation for Georgia and Armenia (a loan to Georgia for a maximum amount of EUR 142 000 000 in principal and a loan to Armenia for EUR 28 000 000), with a maximum duration of 15 years.

The first tranche of EUR 110 000 000 was paid to Georgia on 24 July 1998. The second tranche is no longer to be made.

On 20 March 2000, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Tajikistan. The loan is for a maximum amount of EUR 75 000 000 principal with a maximum duration of 15 years. A loan of EUR 60 000 000 was paid in 2001. The second tranche is no longer to be made.

On 30 November 2009, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Armenia in the form of a long-term loan for a maximum amount of EUR 65 000 000 in principal for a maximum duration of 15 years. The first tranche of EUR 26 000 000 was disbursed in 2011, the second and final one in 2012.

On 12 August 2013, the European Parliament and the Council decided to make macro-financial assistance available to Georgia of a maximum amount of EUR 46 000 000 (up to EUR 23 000 000 in the form of grants and up to EUR 23 000 000 in the form of loans) for a maximum maturity of 15 years. No disbursements have been made.

On 22 October 2013, the European Parliament and the Council decided to make macro-financial assistance available to the Kyrgyz Republic of a maximum amount of EUR 30 000 000 (up to EUR 15 000 000 in the form of grants and up to EUR 15 000 000 in the form of loans) for a maximum maturity of 15 years. No disbursements have been made.

2. **Description**

On 22 July 1997, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for the former Yugoslav Republic of Macedonia (FYROM I).

The loan is for a maximum amount of EUR 40 000 000 in principal for a duration of 15 years.

The first tranche of EUR 25 000 000, for a maximum duration of 15 years, was paid to the former Yugoslav Republic of Macedonia on 30 September 1997. It will be repaid in five equal annual instalments from the 11th year.

The second tranche of EUR 15 000 000 was paid on 13 February 1998. It will be repaid in five equal annual payments from the 11th year.

On 10 May 1999, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Bosnia and Herzegovina in the form of a long-term loan for a maximum amount of EUR 20 000 000 in principal for a maximum duration of 15 years (Bosnia I).

The first tranche of EUR 10 000 000, for a maximum duration of 15 years, was paid to Bosnia and Herzegovina on 21 December 1999. The second tranche of EUR 10 000 000 was paid in 2001.

On 8 November 1999, the Council again decided to grant a European Union guarantee for a borrowing-and-lending operation for the former Yugoslav Republic of Macedonia in the form of a long-term loan for a maximum amount of EUR 50 000 000 in principal for a maximum duration of 15 years (FYROM II).

The first tranche of EUR 10 000 000, for a maximum duration of 15 years, was paid to the former Yugoslav Republic of Macedonia in January 2001, the second tranche of EUR 12 000 000 in January 2002, the third tranche of EUR 10 000 000 in June 2003 and the fourth tranche of EUR 18 000 000 in December 2003.

On 16 July 2001, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for the Federal Republic of Yugoslavia (Serbia and Montenegro I) in the form of a long-term loan for a maximum amount of EUR 225 000 000 in principal for a maximum duration of 15 years. The loan was paid in a single tranche in October 2001.

On 5 November 2002, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Bosnia and Herzegovina in the form of a long-term loan for a maximum amount of EUR 20 000 000 in principal for a maximum duration of 15 years (Bosnia II).

The first tranche of EUR 10 000 000, for a maximum duration of 15 years, was paid to Bosnia and Herzegovina in 2004, and the second tranche of EUR 10 000 000 in 2006.

On 5 November 2002, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Serbia and Montenegro (Serbia and Montenegro II) in the form of a long-term loan for a maximum amount of EUR 55 000 000 in principal for a maximum duration of 15 years.

The first tranche of EUR 10 000 000 and the second tranche of EUR 30 000 000, for a maximum duration of 15 years, were paid to Serbia and Montenegro in 2003, and the third tranche of EUR 15 000 000 in 2005.

The loan to Albania IV of EUR 9 000 000, for a maximum duration of 15 years, was fully disbursed in 2006.

On 30 November 2009, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Serbia in the form of a long-term loan for a maximum amount of EUR 200 000 000 in principal for a maximum duration of 8 years. The first tranche of EUR 100 000 000 was paid in 2011.

On 30 November 2009, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Serbia in the form of a long-term loan for a maximum amount of EUR 100 000 000 in principal for a maximum duration of 15 years. The two tranches of EUR 50 000 000 each were paid in 2013.

3. *Effect on the budget*

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default.

VII. EUROPEAN UNION GUARANTEE FOR EURATOM BORROWINGS TO IMPROVE THE DEGREE OF EFFICIENCY AND SAFETY OF NUCLEAR POWER STATIONS IN THE COUNTRIES OF CENTRAL AND EASTERN EUROPE AND THE COMMONWEALTH OF INDEPENDENT STATES

1. **Legal basis**

Council Decision 77/270/Euratom of 29 March 1977 empowering the Commission to issue Euratom loans for the purpose of contributing to the financing of nuclear power stations (OJ L 88, 6.4.1977, p. 9).

2. **Description**

Pursuant to Decision 94/179/Euratom (OJ L 84, 29.3.1994, p. 41), the European Union extends the scope of Euratom borrowings under Decision 77/270/Euratom to the improvement of the degree of efficiency and safety of nuclear power stations in the countries of central and eastern Europe and the Commonwealth of Independent States.

The maximum amount of Euratom borrowings for the Member States and third countries remains fixed at EUR 4 000 000 000.

In 2000 the Commission decided on a loan for Kozloduy in Bulgaria (EUR 212 500 000) and the last instalment was in 2006. In 2000 the Commission granted a loan to K2R4 in Ukraine but reduced the loan amount to the EUR equivalent of USD 83 000 000 in 2004. K2R4 was granted a loan of EUR 39 000 000 (first tranche) in 2007, USD 22 000 000 in 2008, and USD 10 335 000 in 2009 under the 2004 Commission Decision. In 2004 the Commission decided on a loan for Cernavodă in Romania (EUR 223 500 000). A first instalment of EUR 100 000 000 and a second one of EUR 90 000 000 were disbursed in 2005 and the last one of EUR 33 500 000 in 2006.

3. **Effect on the budget**

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default.

From 1 January 2007, loans with Bulgaria and Romania cease to be external actions (see Regulation (EC, Euratom) No 2273/2004 (OJ L 396, 31.12.2004, p. 28)) and are therefore covered directly by the Union budget and no longer by the Fund.

2. **Union budget guarantee**

Pursuant to the Council Decision of 8 March 1977, the Union guarantees loans to be granted by the European Investment Bank as part of the Union's financial commitments towards the Mediterranean countries.

This decision was the basis for the contract of guarantee signed by the European Economic Community and the European Investment Bank on 30 October 1978 in Brussels and 10 November 1978 in Luxembourg introducing a global guarantee of 75 % of all appropriations made available for loans in the following countries: Malta, Tunisia, Algeria, Morocco, Portugal (Financial Protocol, emergency aid), Turkey, Cyprus, Egypt, Jordan, Syria, Israel, Greece, former Yugoslavia and Lebanon.

The contract of guarantee is extended for each new Financial Protocol.

Decision 97/256/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 25 July 1997 and in Luxembourg on 29 July 1997 setting up a guarantee restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 1999/786/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 18 April 2000 and in Luxembourg on 23 May 2000 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2000/24/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 19 July 2000 and in Luxembourg on 24 July 2000 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2005/47/EC was the basis for a restated and amended contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 30 August 2005 and in Luxembourg on 2 September 2005 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2006/1016/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Luxembourg on 1 August 2007 and in Brussels on 29 August 2007 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sum. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk-operations).

3. *Description*

Under the Financial Protocols concluded with Mediterranean third countries, global amounts are laid down for loans to be granted by the European Investment Bank from its own funds. The European Investment Bank grants the loans for purposes which may contribute to the economic and social development of the countries in question (transport infrastructures, ports, water supply, production and distribution of energy, agricultural projects and promotion of small and medium-sized businesses).

On 14 April 1997, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in the following Mediterranean countries: Algeria, Cyprus, Egypt, Israel, Jordan, Lebanon, Malta, Morocco, Syria, Tunisia, Turkey, Gaza and the West Bank. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 2 310 000 000 is for the abovementioned Mediterranean countries. It covered a period of three years beginning on 31 January 1997 (with a possible extension of six months).

The European Investment Bank is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 29 November 1999, the Council decided to grant a Community guarantee to the European Investment Bank against losses under loans for projects for the reconstruction of the earthquake-stricken areas of Turkey. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 600 000 000 and covered a period of three years beginning on 29 November 1999 (with a possible extension of six months).

The European Investment Bank is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

On 22 December 1999, the Council, acting on the basis of a Commission proposal and after consulting the European Parliament, decided once again to grant the European Investment Bank the Community guarantee against losses resulting from loans for projects carried out in the following Mediterranean countries: Algeria, Cyprus, Egypt, Israel, Jordan, Lebanon, Malta, Morocco, Syria, Tunisia, Turkey, Gaza and the West Bank. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. The guarantee is limited to 65 % of the total value of the appropriations made available plus all the related amounts. It covers a period of seven years from 1 February 2000 to 31 January 2007. As at the end of that period the loans granted by the European Investment Bank had not reached the abovementioned total values, the period has automatically been extended by six months.

On 4 December 2000, the Council decided to establish a European Investment Bank special action programme in support of the consolidation and intensification of the EC-Turkey Customs Union. The value of those loans is limited to an overall ceiling of EUR 450 000 000.

Decision 2005/47/EC restructured the Mediterranean regional mandate to exclude Cyprus, Malta and Turkey which were included in the South Eastern Neighbours mandate.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans in the following Mediterranean countries: Algeria, Egypt, West Bank and Gaza, Israel, Jordan, Lebanon, Libya (eligibility to be decided by the Council), Morocco, Syria, Tunisia. The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of six months. The Community guarantee is restricted to 65 %.

Decision 2006/1016/EC has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

4. Effect on the budget

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default,
- the granting, in a series of cases, of interest-rate subsidies of 2 % in non-repayable aid, subject to the overall amounts laid down by the Financial Protocols.

Loans with new Member States cease to be external actions (see Regulation (EC, Euratom) No 2273/2004 (OJ L 396, 31.12.2004, p. 28)) and are therefore covered directly by the Union budget and no longer by the Fund.

Decision 90/62/EEC is the basis for the contract of guarantee signed by the European Economic Community and the European Investment Bank on 24 April 1990 in Brussels and 14 May 1990 in Luxembourg concerning loans in Hungary and Poland, and the extension of this contract to loans in Czechoslovakia, Romania and Bulgaria signed on 31 July 1991 in Brussels and Luxembourg.

This contract of guarantee was the subject of an instrument signed in Brussels on 19 January 1993 and in Luxembourg on 4 February 1993 to replace the Czech and Slovak Federal Republic by the Czech Republic and the Slovak Republic from 1 January 1993.

Decision 93/696/EC is the basis for a contract of guarantee signed by the European Community and the European Investment Bank in Brussels on 22 July 1994 and in Luxembourg on 12 August 1994.

Decision 97/256/EC is the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 25 July 1997 and in Luxembourg on 29 July 1997.

Decision 98/348/EC and Decision 98/729/EC are the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 25 July 1997 and in Luxembourg on 29 July 1997.

Decision 2000/24/EC is the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 19 July 2000 and in Luxembourg on 24 July 2000.

Decision 2005/47/EC is the basis for a restated and amended contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 30 August 2005 and in Luxembourg on 2 September 2005 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2006/1016/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Luxembourg on 1 August 2007 and in Brussels on 29 August 2007 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sum. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

3. Description

In response to a call made by the Council on 9 October 1989, the Board of Governors of the European Investment Bank decided on 29 November 1989 to authorise the Bank to provide loans from its own resources to finance investment projects in Hungary and Poland for a total amount not exceeding EUR 1 000 000 000. These loans are granted to finance investment projects which satisfy the Bank's usual requirements for loans from its own resources.

On 14 May 1991 and 15 March 1993, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided that this guarantee should be extended to any loans that the European Investment Bank might make in the other countries of central and eastern Europe (Czechoslovakia, Bulgaria and Romania) over a period of 2 years up to a maximum of EUR 700 000 000.

On 13 December 1993, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew for 3 years the Community guarantee for EUR 3 000 000 000 in European Investment Bank loans for projects in Poland, Hungary, the Czech Republic, the Slovak Republic, Romania, Bulgaria, Estonia, Latvia, Lithuania and Albania.

The budget guarantee covers all aspects of debt-servicing (repayment of capital, interest, related costs) in connection with these loans.

On 14 April 1997, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in Albania, Bulgaria, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovak Republic and Slovenia. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 3 520 000 000 is for the abovementioned countries of central and eastern Europe. It covers a period of 3 years beginning on 31 January 1997. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

On 19 May 1998, the Council decided to grant a Community guarantee to the European Investment Bank against losses under loans for projects in the former Yugoslav Republic of Macedonia. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 1 500 000 000 for a period of 2 years beginning on 1 January 1998. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

On 14 December 1998, the Council decided to amend Decision 97/256/EC in order to extend the Community guarantee to the European Investment Bank to loans for projects in Bosnia and Herzegovina. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is EUR 100 000 000 for a period of two years beginning on 22 December 1998. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

The European Investment Bank is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 22 December 1999, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in Albania, the former Yugoslav Republic of Macedonia, Bosnia and Herzegovina, Bulgaria, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovak Republic and Slovenia. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. It covers a period of seven years beginning on 1 February 2000 and ending on 31 January 2007. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

The European Investment Bank is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

On 7 November 2000, the Council decided to extend the guarantee granted by the Community to the European Investment Bank to loans for projects in Croatia.

On 6 November 2000, the Council decided to extend the guarantee granted by the Community to the European Investment Bank to loans for projects in the Federal Republic of Yugoslavia.

Decision 2005/47/EC restructured the Mediterranean regional mandate to exclude Cyprus, Malta and Turkey which were included in the South Eastern Neighbours mandate.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans in the following candidates: Croatia, Turkey, the former Yugoslav Republic of Macedonia and potential candidate countries: Albania, Bosnia and Herzegovina, Serbia, Kosovo. The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of 6 months. The Community guarantee is restricted to 65 %. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

4. *Effect on the budget*

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default.

Loans with new Member States cease to be external actions (see Regulation (EC, Euratom) No 2273/2004 (OJ L 396, 31.12.2004, p. 28)) and are therefore covered directly by the Union budget and no longer by the Fund.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

3. Description

Pursuant to Decision 93/115/EEC the Union guarantees, on a case-by-case basis, loans made by the European Investment Bank in third countries with which the European Union has concluded cooperation agreements.

Decision 93/115/EEC set an overall limit of EUR 250 000 000 a year for a period of 3 years.

On 12 December 1996 the Council granted the EIB a 100 % Community guarantee for loans for projects of mutual interest in certain third countries (Asian and Latin American developing countries) with which the Community has concluded cooperation agreements. This guarantee was restricted to an overall ceiling of EUR 275 000 000 to be granted in 1996 (with a possible extension of six months).

On 14 April 1997, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in the following countries of Asia and Latin America: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador, Uruguay, Venezuela, Bangladesh, Brunei, China, India, Indonesia, Macao, Malaysia, Mongolia, Pakistan, Philippines, Singapore, Sri Lanka, Thailand and Vietnam. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 900 000 000 is for the abovementioned countries of Asia and Latin America. It covered a period of 3 years beginning on 31 January 1997 (with a possible extension of six months).

The European Investment Bank is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 22 December 1999, the Council decided to renew the Community guarantee to the European Investment Bank for loans for projects in the following countries of Asia and Latin America: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador, Uruguay, Venezuela, Bangladesh, Brunei, China, India, Indonesia, Laos, Macao, Malaysia, Mongolia, Nepal, Pakistan, Philippines, Singapore, South Korea, Sri Lanka, Thailand, Vietnam and Yemen. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. It covers a period of seven years beginning on 1 February 2000 and ending on 31 January 2007. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

The European Investment Bank is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

Decision 2005/47/EC was the basis for a restated and amended contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 30 August 2005 and in Luxembourg on 2 September 2005 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans in the following Latin America countries: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, El Salvador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Uruguay, Venezuela and in the following Asia countries: Afghanistan*, Bangladesh, Bhutan*, Brunei, Cambodia*, China, India, Indonesia, Iraq*, South Korea, Laos, Malaysia, Maldives, Mongolia, Nepal, Pakistan, the Philippines, Singapore, Sri Lanka, Taiwan*, Thailand, Vietnam, Yemen and Central Asia countries: Kazakhstan*, Kyrgyzstan*, Turkmenistan*, Uzbekistan* (*: eligibility to be decided by the Council). The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of six months. The Community guarantee is restricted to 65 %. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

Council Decision 2006/1016/EC of 19 December 2006 granting a Community guarantee to the European Investment Bank against losses under loans and loans guarantees for projects outside the Community (OJ L 414, 30.12.2006, p. 95). This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council (OJ L 190, 22.7.2009, p. 1).

Decision No 1080/2011/EU of the European Parliament and of the Council of 25 October 2011 granting an EU guarantee to the European Investment Bank against losses under loans and loan guarantees for projects outside the Union and repealing Decision No 633/2009/EC (OJ L 280, 27.10.2011, p. 1).

2. *Union budget guarantee*

Decision 95/207/EC is the basis of a contract of guarantee signed by the European Community and the European Investment Bank in Brussels on 4 October 1995 and in Luxembourg on 16 October 1995.

Decision 97/256/EC is the basis for a contract of guarantee between the EC and the European Investment Bank signed in Brussels on 25 July 1997 and in Luxembourg on 29 July 1997.

Decision 2000/24/EC is the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 19 July 2000 and in Luxembourg on 24 July 2000.

Decision 2006/1016/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Luxembourg on 1 August 2007 and in Brussels on 29 August 2007 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sum. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk-operations).

3. *Description*

In accordance with the provisions of Decision 95/207/EC, the Union will guarantee European Investment Bank loans to South Africa up to a maximum total amount of EUR 300 000 000.

The budget guarantee covers all the debt-servicing (repayment of principal, interest and ancillary costs) in connection with these loans.

On 14 April 1997, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in the Republic of South Africa. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 375 000 000 is for the Republic of South Africa. It covered a period of three years beginning on 1 July 1997 (with a possible 6-month extension).

BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE UNION BUDGET (BY WAY OF INDICATION)

The European Investment Bank is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 22 December 1999, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in the Republic of South Africa. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. It covers a period beginning on 1 July 2000 and ending on 31 January 2007. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by 6 months.

The European Investment Bank is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

Decision 2005/47/EC was the basis for a restated and amended contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 30 August 2005 and in Luxembourg on 2 September 2005 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans. The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of 6 months. The Community guarantee is restricted to 65 %. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

4. Effect on the budget

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Fund of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk-operations).

Exchange rate: the amounts in column 2 'Equivalent at date of signature' are converted at the rate applicable on the date of signature. As regards refinancing operations, Table 1 shows both the initial operation (e.g. in 1979) and the replacement operation (e.g. in 1986), the amount for the latter being converted at the rate of the initial operation. The resulting duplication affects the annual figures but is eliminated in the total.

All other amounts are converted at the rate applicable at 31 December 2012.

Column 3 'Initial amount received/paid up to 31 December 2012': with reference to 1986, for example, this column shows the cumulative total of all amounts received up to 31 December 2012 under loans signed in 1986 (Table 1), including refinancing (which produces some duplication).

Column 4 'Amount outstanding at 31 December 2012': these are net figures, with no duplication as a result of refinancing operations. They are obtained by subtracting from the column 3 figure the cumulative total of repayments made up to 31 December 2012, including repayments in respect of refinancing operations (total not given in the tables).

Column 7 = column 4 – column 5.

MFA 2011: following the Loan Agreement signed by Montenegro on 9 February 2010 pursuant to Council Decision 2008/784/EC of 2 October 2008 establishing a separate liability of Montenegro, the loans initially granted to Serbia and Montenegro have been re-initiated with a virtual starting date in 2011 in order to implement the splitting of the countries, which explains the different amounts between loans granted and loans raised, since the contracts with the lending banks were unchanged.

INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH ARTICLE 49(1)(E) OF THE FINANCIAL REGULATION

Introduction

This Annex is drawn up in accordance with Article 49(1)(e) of the Financial Regulation.

It provides information on both the *existing* financial instruments (prior to 2014) with a budgetary impact in terms of commitment and/or payment appropriations available in 2013 and the *new* financial instruments (2014 to 2020) with a budgetary impact starting in 2014 under the Multiannual Financial Framework (MFF) 2014-2020 included in the basic acts or the proposals for basic act.

More detailed information on the instruments can be found in the Working Document on financial instruments accompanying draft budget according to Article 38(5) of the Financial Regulation.

(iii) General description of the financial instruments, including their duration and their impact on the budget

Financial instruments are part of the Entrepreneurship and Innovation Programme (EIP), one of the three specific programmes under the Competitiveness and Innovation Framework Programme (CIP) ⁽¹⁾.

The overall objective of the financial instruments under the CIP is the improvement of access to finance for the start-up and growth of small and medium-sized enterprises (SMEs) in order to support their investment in innovation activities, including eco-innovation. This is done by increasing investment volumes of risk capital funds and other investment vehicles.

The High Growth and Innovative SME Facility (GIF) is implemented by the European Investment Fund (EIF) on behalf of the Commission. It aims to increase the supply of equity for innovative SMEs in their early stages (GIF1) and in the expansion phase (GIF2). Investment proposals by financial intermediaries are selected on the basis of a notice of implementation (OJ C 302, 14.12.2007, p. 8).

As regards the duration, the commitment period for GIF ends on 31 December 2013 but the instruments will exist until the winding up after 2026.

The total budgetary commitments for the CIP financial instruments for the whole period of 2007-2013 were foreseen to be EUR 1,13 billion, with an original indicative split of EUR 620 million for GIF (including eco-innovation) and EUR 510 million for the SME Guarantee Facility.

(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments

The GIF budgetary commitment for 2013 amounts to EUR 103 million.

The leverage effect on GIF is expected to be 5 which means that the impact of the 2013 budgetary commitment on the overall economy is expected to reach EUR 515 million of equity investment in high growth and innovative SMEs.

(iii) General description of the financial instruments, including their duration and their impact on the budget

The Equity Facility for Growth (EFG) shall focus on funds that provide venture capital and mezzanine finance, such as subordinated and participating loans, to expansion and growth-stage enterprises, in particular those operating across borders, while having the possibility to make investments in early stage enterprises in conjunction with the Equity Facility for Research and Innovation (R&I) under Horizon 2020.

In the latter case, the investment from EFG shall not exceed 20 % of the total EU investment except in cases of multi-stage funds and funds-of-funds, where funding from EFG and the Equity Facility for R&I will be provided on a pro rata basis, based on the funds' investment policy.

The EFG may include seed funding, angel funding and quasi-equity financing subject to market demand but excluding asset stripping. The Commission may decide to amend the 20 % threshold in light of changing market conditions.

Support shall be in the form of one of the following investments:

- (a) directly by the European Investment Fund (EIF) or other entities entrusted with the implementation on behalf of the Commission or
- (b) by funds-of-funds or investment vehicles investing across borders established by the EIF or other entities entrusted with the implementation on behalf of the Commission together with private investors and/or national public financial institutions.

The overall policy objective is to provide enhanced access to risk capital for which significant market gaps exist in Europe and to support the development of a pan-European risk capital market. The latter will be achieved by focusing predominantly on those risk capital funds which invest cross-border.

The implementation of the direct investments referred to in point (a) above will be entrusted to the EIF in Luxembourg subject to the successful conclusion of a delegation agreement with the Commission.

The delegation agreement to be signed with the entrusted entity will ensure that the Equity Facility for Growth is accessible for a broad range of financial intermediaries provided that these are professionally and independently managed and display the capacity to successfully support SMEs in their growth.

From a technical point of view, the entrusted entity will be instructed to invest on a pari-passu basis with other private and public investors. Target final recipients are SMEs of all sizes without a specific sector focus.

The duration of the equity instrument will not exceed the year 2035 (until last operations are wound down). Estimated budget allocation for the total programming period is foreseen to be EUR 663 million.

(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments

Estimated budget allocation for 2014: EUR 62 million.

The leverage effect indicated in the COSME programme is in the 4-6 range over the lifetime of the programme.

The target leverage would translate into total amount of venture capital investments mobilised ranging from EUR 250 million to EUR 370 million for the 2014 budget.

(ii) Relevant budget lines

Item 02 04 02 02 — Enhancing access to risk finance for investing in research and innovation (in 2014 budget nomenclature).

(iii) General description of the Financial Instrument including the duration and the impact on budget

A Union-level Equity facility for Research and Innovation ('R&I') is needed to help improve the availability of equity finance for early and growth-stage investments and to boost the development of the Union venture capital market.

The goal is to contribute to overcoming the deficiencies of the European venture capital market and provide equity and quasi-equity to cover the development and financing needs of innovative enterprises from the seed stage through to growth and expansion.

The Equity Facility will focus on early-stage risk capital funds providing venture capital and quasi-equity (including mezzanine capital) to individual portfolio enterprises. The facility will also have the possibility to make expansion and growth-stage investments in conjunction with the Equity Facility for Growth under the programme for the Competitiveness of Enterprises and SMEs (COSME), to ensure a continued support during the start-up and development of companies.

In the latter case, the investment from the Equity Facility of Horizon 2020 shall not exceed 20 % of the total EU investment except in cases of multi-stage funds, where funding from EFG and the Equity facility for R&I will be provided on a pro rata basis, based on the funds' investment policy. Like the EFG, the Equity Facility shall avoid buy-out or replacement capital intended for the dismantling of an acquired enterprise.

The overall policy objective is to provide enhanced access to risk capital for which significant market gaps exist in Europe and to support the development of a pan-European risk capital market.

In terms of Union added value, the Equity Facility for R&I will complement national schemes that cannot cater for cross-border investments in R&I. The early-stage deals will also have a demonstration effect that can benefit public and private investors across Europe. For the growth phase only at European level it is possible to achieve the necessary scale and the strong participation of private investors that are essential to the functioning of a self-sustaining venture capital market.

The implementation of the direct investments under this facility will be entrusted to the European Investment Fund (EIF) in Luxembourg.

The delegation agreement to be signed with the entrusted entity will ensure that the early-stage equity facility under Horizon 2020 is accessible for a broad range of financial intermediaries provided that these are professionally and independently managed and display the capacity to successfully support portfolio companies in their early-stage development and growth.

From a technical point of view, the entrusted entity will be instructed to invest on a pari-passu basis with other private and public investors. The target final recipients are early-stage companies (notably SMEs or small midcaps) without a specific sector focus.

The duration of the equity instrument will not exceed the year 2035 (until last operations are wind-down).

Connecting Europe Facility (CEF) Equity Instrument — 2014 to 2020**(i) Reference to the basic act**

Regulation (EU) No 1316/2013 of the European Parliament and of the Council of 11 December 2013 establishing the Connecting Europe Facility (OJ L 348, 20.12.2013, p. 129).

(ii) Budget lines corresponding to the relevant operation

This instrument will be covered by the following budget lines (in 2014 budget nomenclature):

- Item 06 02 01 05 — Creating an environment more conducive to private investment for transport infrastructure projects,
- Article 09 03 02 — Creating an environment more conducive to private investment for telecommunications infrastructure projects,
- Item 32 02 01 04 — Creating an environment more conducive to private investment for energy projects.

(iii) General description of the financial instruments, including their duration and their impact on the budget*CEF financial instruments*

The objective of the financial instruments under the Connecting Europe Facility is to facilitate infrastructure projects' access to project and corporate financing by using Union funding as leverage. They shall help finance projects of common interest with a clear EU added value, and to facilitate greater private sector involvement in the long-term financing of such projects in the field of transport, energy and telecommunications, including broadband networks.

They shall benefit projects with medium- to long-term financing needs and shall produce greater benefits in terms of market impact, administrative efficiency and resource utilisation.

In addition, these instruments shall provide to infrastructure stakeholders such as financiers, public authorities, infrastructure managers, construction companies and operators a coherent market oriented toolbox of EU financial support.

CEF Equity Instrument: The goal of the CEF Equity Instrument shall be to contribute to overcoming the deficiencies of European capital markets by providing equity and quasi-equity investments to European projects.

The maximum amounts of the Union contribution shall be limited as follows:

- 33 % of the target equity fund size, or
- the co-investment by the Union in a project shall not exceed 30 % of the total equity of a company.

With regards to its implementation, it is envisaged to be done through Entrusted Entities selected in accordance with the Financial Regulation.

The Union contribution shall be used:

- towards equity participations, and
- to cover agreed fees and costs associated with the establishment and management of the CEF Equity Instrument, including its evaluation, which have been determined in line with the Financial Regulation and market practice,
- for directly related support actions.

Duration of the CEF Equity Instrument: The last tranche of the Union contribution to the CEF Equity Instrument shall be committed by the Commission no later than 31 December 2020. The actual approval of equity investments by the entrusted entities or the dedicated investment vehicles shall be finalised by 31 December 2022. The actual winding-down of the instrument will probably take place after 2032.

(iv) *Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments*

The CEF instruments will target projects of common interest with a clear EU added value in the field of transport, energy and telecommunications, including broadband networks.

The total amount EU funds available for this instrument are to be defined after completion of the on-going ex-ante assessment.

The expected leverage of the CEF Equity Instrument — defined as the total funding (i.e. the Union contribution plus all contributions from other investors) divided by the Union contribution shall be expected in average to range from 5 to 10, depending on market specificities.

(iii) General description of the financial instruments, including their duration and their impact on the budget

Financial instruments are part of the Entrepreneurship and Innovation Programme (EIP), one of the three specific programmes under the CIP ⁽¹⁾.

The overall objective of the financial instruments under the CIP is the improvement of access to finance for the start-up and growth of small and medium-sized enterprises (SMEs) in order to support their investment in innovation activities, including eco-innovation. This is done by providing leverage to SME debt financing instruments to increase the supply of debt finance to SMEs.

The SME Guarantee Facility (SMEG) is operated by the EIF on behalf of the Commission. It provides counter- or co-guarantees to guarantee schemes and direct guarantees to Financial Intermediaries operating in eligible countries.

As regards the duration, the commitment period for the SME Guarantee facility ends on 31 December 2013 but the instrument will exist until the winding up after 2026.

The total budgetary commitments for the CIP financial instruments for the whole period of 2007-2013 were foreseen to be EUR 1,13 billion, with an original indicative split of EUR 620 million for GIF and EUR 510 million for the SME Guarantee Facility.

(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments

The budgetary commitments for 2013 amount to EUR 134,95 million for the SME Guarantee Facility.

The leverage effect on the SME Guarantee facility is expected to be 29 which means that the impact of this budgetary commitment on the overall economy is expected to reach EUR 3 914 million of lending to beneficiary SMEs.

Decision No 283/2010/EU of the European parliament and of the Council of 25 March 2010 establishing a European Progress Microfinance Facility for employment and social inclusion (OJ L 87, 7.4.2010, p. 1).

Article 04 04 15 — European Progress Microfinance Facility (in 2013 budget nomenclature).

Article 04 03 53 (in part) — Completion of other activities (in 2014 budget nomenclature).

(iii) General description of the financial instruments, including their duration and their impact on the budget

The aim of the European Progress Microfinance Facility is twofold: on the one hand, it increases availability of microfinance for persons wishing to start up or develop their micro-enterprises, including for self-employment, in the sense that it enables microfinance providers in the EU to enlarge their lending volumes to these individuals. On the other hand, Progress Microfinance enhances access to microfinance by reducing microfinance providers' risk. This feature allows microfinance providers to reach out to groups who could normally not be served, for instance, because persons from these groups could not provide sufficient collateral or because the interest rates would have to be very high to justify their actual risk profile.

The Facility shall provide Union resources to increase access to, and availability of, microfinance for:

- (a) persons who have lost or are at risk of losing their job, or who have difficulties entering or re-entering the labour market, as well as persons who are facing the threat of social exclusion or vulnerable persons who are in a disadvantaged position with regard to access to the conventional credit market and who want to start or further develop their own micro-enterprise, including self-employment,
- (b) micro-enterprises, especially in the social economy, as well as micro-enterprises which employ persons referred to in point (a).

The financial contribution from the Union budget for the Facility for the period from 1 January 2010 to 31 December 2013 amounts to EUR 105 million, out of which EUR 25 million for the Microfinance Guarantee Facility (EPMF-G) and EUR 80 million for the EPMF Fonds Commun de Placement — Fons d'Investissements Spécialisé (EPMF FCP-FIS).

The Facility is implemented by using the following types of actions, as appropriate:

- guarantees (EPMF-G),
- debt and equity instruments (FCP-FIS),

Support measures, such as communication activities, monitoring, control, audit and evaluation which are directly necessary for the effective and efficient implementation of Decision No 283/2010/EU and for the achievement of its objectives.

The micro-credit guarantee window shall remain in full force and effect until 31 December 2020.

(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments

EPMF-G budgetary commitments made in 2013 amount to a total of EUR 4,1 million.

The target volumes of lending to beneficiary micro-enterprises are estimated to EUR 47 560 000 for the EPMF Guarantee facility (2013 budgetary commitments of EUR 4,1 million; leverage effect of 11,6).

Regulation (EU) No 1287/2013 of the European Parliament and of the Council of 11 December 2013 establishing a Programme for the Competitiveness of Enterprises and small and medium-sized enterprises (COSME) (2014-2020) (OJ L 347, 20.12.2013, p. 33).

(ii) Budget lines corresponding to the relevant operations

Article 02 02 02 — Improving access to finance for small and middle-sized enterprises (SMEs) in the form of equity and debt (in 2014 budget nomenclature).

(iii) General description of the financial instruments, including their duration and their impact on the budget

The Loan Guarantee Facility (LGF) shall be operated by the EIF or other entities entrusted with the implementation on behalf of the Commission. The facility shall provide:

- counter-guarantees and other risk-sharing arrangements for guarantee schemes,
- direct guarantees and other risk-sharing arrangements for any other financial intermediaries meeting the eligibility criteria.

The Loan guarantee Facility shall consist of the following two actions:

- the first action, debt financing via loans, including subordinated and participating loans, or leasing, shall reduce the particular difficulties that SMEs face in accessing finance either due to their perceived high risk or their lack of sufficient available collateral,
- the second action, securitisation of SME debt finance portfolios shall mobilise additional debt financing for SMEs under appropriate risk-sharing arrangements with the targeted institutions. Support for those transactions shall be conditional upon an undertaking by the originating institutions to use a significant part of the resulting liquidity or the mobilised capital for new SME lending in a reasonable period of time. The amount of this new debt financing shall be calculated in relation to the amount of the guaranteed portfolio risk and shall be negotiated, together with the period of time, individually with each originating institution.

The LGF shall, except for loans in the securitised portfolio, cover loans up to EUR 150 000 and with a minimum maturity of 12 months. The LGF shall be designed in such way that it will be possible to report on the innovative SMEs supported, both in terms of number and volume of loans.

The overall policy objective is to provide enhanced access to finance for SMEs, especially to those SMEs which are unable to obtain financing due to their perceived higher risk or because of a lack of sufficient available collateral.

The implementation of the Loan Guarantee Facility will occur through an entrusted entity, which will be the European Investment Fund (EIF) in Luxembourg, subject to the successful conclusion of a delegation agreement with the Commission.

The delegation agreement to be signed with the entrusted entity will ensure that the Loan Guarantee Facility is accessible for a broad range of financial intermediaries (guarantee societies, national promotional institutes, commercial banks, cooperatives, etc.) which are experienced in financial transactions with SMEs or which have the capacity to enter into financial transactions with SMEs.

From a technical point of view, the entrusted entity will most likely provide guarantees to the financial intermediaries which will cover a portion of expected losses of a portfolio of newly generated SME transactions.

Target final recipients are SMEs of all sizes without a specific sector focus. The range of financial products which can be supported through the guarantees will be kept broad so as to not discriminate amongst the SME population.

The duration of the guarantee instrument will not exceed the year 2035 (until last operations are wound down). Individual guarantee agreements to be signed by the entrusted entity will have a maximum duration of 10 years.

Estimated budget allocation for the total programming period is foreseen to be EUR 718,4 million.

(iv) **Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

Estimated budget allocation for 2014: EUR 100 million, out of which an amount of up to EUR 60 million as contribution in the jointSME initiative.

The leverage effect indicated in the COSME programme is in the 20 – 30 range over the lifetime of the programme.

The target leverage would translate into total amount of financing mobilised ranging from EUR 1,6 billion to EUR 2,51 billion for the 2014 budget.

Regulation (EU) No 1296/2013 of the European Parliament and of the Council of 11 December 2013 on a European Union Programme for Employment and Social Innovation (EaSI)(OJ L 347, 20.12.2013, p. 238.).

(ii) Budget lines corresponding to the relevant operations

Item 04 03 02 03 — Microfinance and Social Entrepreneurship — Facilitating access to finance for entrepreneurs, especially those furthest from the labour market, and social enterprises (in 2014 budget nomenclature).

(iii) General description of the financial instruments, including their duration and their impact on the budget

The purpose of the instrument is to promote employment and social inclusion by increasing the availability and accessibility of microfinance for vulnerable groups and micro-enterprises and by increasing access to finance for social enterprises.

In addition to the general objectives, the specific objectives of the Microfinance and Social Entrepreneurship axis shall be to:

- increase access to, and the availability of, microfinance for:
 - (a) persons who have lost or are at risk of losing their jobs, or who have difficulty in entering or re-entering the labour market, persons at risk of social exclusion and vulnerable persons who are in a disadvantaged position with regard to access to the conventional credit market and who wish to start up or develop their own micro-enterprises,
 - (b) micro-enterprises, especially those which employ persons as referred to in point (a),
- build up the institutional capacity of microfinance providers,
- support the development of social enterprises, in particular by facilitating access to finance.

The Microfinance financial instrument within the scope of the European Union Programme for Employment and Social Innovation will run from 1 January 2014 to 31 December 2020. The duration of the instrument refers to year 2028 (2014 + 10 + 4).

The total financial envelope in terms of budgetary commitments is foreseen to be for the total programming period:

- EUR 83,8 million for the Microfinance component,
- EUR 83,8 million for the Social entrepreneurship component and EUR 18,6 million for cross-cutting issues.

(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments

As far as the microfinance instrument is concerned, the Commission expects similar products as under the current Progress Microfinance, i.e., guarantee, debt and equity products for microfinance providers who on-lend amounts of maximum EUR 25 000 (e.g. microloans) to entrepreneurs. For capacity-building, loans, equity and potential grants to microfinance providers are foreseen.

As far as social entrepreneurship support is concerned, during the negotiations between the European Parliament and the Council on the proposed Regulation for a Programme for Employment and Social Innovation, it was agreed that social enterprises should receive equity, quasi-equity, loan instrument and grants of up to EUR 500 000. As far as the products for intermediaries such as social investment funds are concerned, the investment sizes will thus be generally higher than for microfinance. The EIF, who is currently running a pilot project in this area, expects investment sizes of EUR 10-12 million.

Initially, the Commission had assumed a leverage effect of 5 for microfinance (as for the current instrument) and 3 for social entrepreneurship. The ex-ante evaluations required by the Financial Regulation and its Rules of Application (Commission Delegated Regulation (EU) No 1268/2012) will provide more precise information on the leverage effect according to the options chosen for the design (as not all products have the same leverage).

The indicative target volumes in relation to 2014 amounts are approximately at the level of:

- EUR 65,5 million for the Microfinance component (EUR 13,1 million × 5),
- EUR 39,3 million for the Social entrepreneurship component (EUR 13,1 million × 3).

Article 15 04 01 — Strengthening the financial capacity of the cultural and creative sectors, in particular for SMEs and organisations (in 2014 budget nomenclature).

(iii) General description of the financial instruments, including their duration and their impact on the budget

The general objective of the cultural and creative financial instrument is in line with those of the Creative Europe Programme, which is to:

- foster the safeguarding and promotion of European cultural and linguistic diversity, and
- strengthen the competitiveness of the cultural and creative sector, with a view to promoting smart, sustainable and inclusive growth, in line with the Europe 2020 strategy.

The specific objective of the Facility is to strengthen the financial capacity of the cultural and creative sector. It reflects the specific objectives set for other strands of the Creative Europe Programme, particularly (i) support the capacity of the European cultural and creative sectors to operate transnationally; and (ii) strengthen the financial capacity of the cultural and creative sectors.

The issues it will strive to address are:

- The difficulties for cultural and creative SMEs and projects in accessing bank credits,
- The limited spreading and dissemination of expertise among financial institutions in the area of financial analysis of cultural and creative SMEs and projects throughout the EU.

To respond to these issues, operational objectives will be:

- To provide guarantees to banks dealing with cultural and creative SMEs thereby enabling them easier access to bank credits,
- To provide expertise/capacity building to the financial institutions,
- To increase the number of financial institutions which are willing to work with cultural and creative SMEs,
- To maximise the European geographical diversification of financial institutions willing to work with cultural and creative SMEs.

The EU foresees a contribution of EUR 121 million over the 2015-2020 period from the Creative Europe Programme budget and mandate the management of the fund to a third party- European Investment Fund (EIF). The EIF will sign Guarantee Agreements with financial intermediaries willing to engage with the CCS, which in turn will grant loans to companies of the CCS. These loans portfolios will be partially covered by the Guarantee Facility. At the end of the period, the proceeds remaining in the fund will be returned to the general budget of the Union. The CCS Guarantee Facility will be available to new agreements with banks until 31 December 2020.

The whole duration of the Facility refers to 31 December 2030 under assumption that closing down the Facility and servicing the last loans might still request some additional operational time.

(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments

The Capacity Building Scheme will be launched in 2015, while the CCS Guarantee Facility will be operational in 2016. The projected leverage effect of the guarantee facility is estimated at 5,7..

Student Loan Guarantee Facility (Erasmus for all programme) — 2014 to 2020**(i) Reference to the basic act**

Regulation (EU) No 1288/2013 of the European Parliament and of the Council of 11 December 2013 establishing 'Erasmus+': the Union Programme for education, training, youth and sport (OJ L 347, 20.12.2013, p. 50).

(ii) Budget lines corresponding to the relevant operations

Article 15 02 01 — Promoting excellence and cooperation in European education, training and youth area, its relevance to the labour market and the participation of young people in European democratic life (in 2014 budget nomenclature).

(iii) General description of the financial instruments, including their duration and their impact on the budget

The objective of the 'Erasmus Master' student loan guarantee facility is to foster and support full programme mobility at Master level (second cycle of higher education). In order to do this, the Facility will provide partial guarantees to financial intermediaries who issue loans on favourable conditions to students from Erasmus+ programme countries undertaking a full (one or two year) masters-level programme outside their country of residence, and outside the country where they obtained their Bachelor level qualification.

Guarantees issued through the Facility shall cover new eligible student loans up to a maximum of EUR 12 000 for a one-year Master programme and up to EUR 18 000 for a two-year Master programme.

The Facility thus represents a direct contribution to the EU and Bologna Process Ministerial target to double the proportion of students completing a study or training period abroad to 20 % by 2020.

The management of the Facility at Union level will be entrusted to the European Investment Fund (EIF), which will conclude agreements with financial intermediaries such as banks, national/regional student lending institutions. These participating financial intermediaries will in turn pass on the benefit of the EU investment by making student loans available free of any requirement for student or family collateral and on favourable terms e.g. lower than market rate interest, and safeguards against student hardship to include a 'grace period'. The grace period enables graduates to find employment before beginning loan repayments and a 'payment holiday' whereby they could freeze repayments if needed such as during a spell of unemployment or maternity.

Capital for the loans is leveraged from the participating financial Intermediaries, with the EU acting as part-guarantor against possible student default on loans. Repayment of loans would be via 'normal' bank loan mechanisms, with all operational information and processing taking place at a local level.

The Erasmus+ Programme 2014-2020 foresees a total EU contribution of approximately EUR 520 million (3,5 % of the total programme), which will enable approximately 200 000 students to benefit from loans backed by the Facility.

The duration of the instrument will extend to 2037 (i.e. programme in place until 2020 + 2 years commitment deadline + up to 15 years maturity on the student loans).

The Facility will provide partial guarantees at up to 90 % of the first losses resulting from student defaults with a guarantee cap of 18 % of the loan portfolio. The estimated leverage is 6,17 (i.e. EUR 3,2 billion to be provided as capital for student loans from participating financial intermediaries).

(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments

The budgetary commitments foreseen for 2014 amount to EUR 30,5 million. Based on this, the target volume is estimated at EUR 188 million of loans guaranteed.

Article 08 02 51 (in part) — Completion of previous research framework programme — Seventh Framework Programme — EC indirect action (2007 to 2013) (in 2014 budget nomenclature).

(iii) General description of the financial instruments, including their duration and their impact on the budget

A key objective of the RSFF is to improve access to debt finance for investments in research, development and innovation in the EU, notably by private promoters. It contributes to addressing the financing needs of innovative projects and companies of all size and ownership, including midcaps and SMEs.

The RSFF supports access to finance across the entire Research, Development, Demonstration and innovation (RDI) spectrum, from fundamental research to technological development, demonstration and innovation. The RSFF addresses cross-sector policy goals and related investments needs in a demand-driven, 'first come, first served' way.

The RSFF, co-developed by the European Commission and the EIB, was established in June 2007. The EU and the EIB are risk-sharing partners for loans provided by the EIB directly or indirectly to beneficiaries. The European Union, through FP7 budget resources, and the EIB have set aside a total amount of up to EUR 2 billion (up to EUR 1 billion each) for the period 2007-2013 to cover losses if RSFF loans are not repaid. Through these EU/EIB contributions for risk-sharing and loss coverage, the EIB is able to extend a loan volume of EUR 10 billion to companies and the research community for their investments in R&D and Innovation.

RSFF beneficiaries can be European research-intensive entities (companies, stand-alone-projects) as well as research infrastructures. RSFF loans support RDI investments made by promoters/beneficiaries located in the 28 Member States and in associated Countries.

Risk-sharing between the EU and the EIB was initially made on a loan-by-loan basis (until 2010). Since 2011, following a recommendation by an independent expert group, risk-sharing is made on a portfolio basis, with first-loss-taking by the EU. The EIB is assuming further risks above a certain threshold in case EU risk absorption has been fully used.

In the period 2007-2013, a total amount of EUR 960,73 million has been committed from the general budget of the Union (initial FP7 budget plus additional EFTA and Third Country appropriations to FP7) and paid to the EIB to support RSFF loan finance. The 'expiry date' (duration) of the programme is expected to be in 2020-2022.

In early 2012, a new pilot guarantee facility, RSI (Risk-Sharing Instrument for SMEs and small midcaps, with maximum 499 employees) was launched to improve access loan finance for RDI investments. The RSI guarantee facility is part of the RSFF implementation and is carried out by the European Investment Fund (EIF).

(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments

For the budget year 2013, a total FP 7 contribution of EUR 207,66 million (primary credits/EFTA and Third country appropriation) was allocated to the RSFF and RSI.

The risk-sharing arrangement with the EIB and the EIF (for RSI guarantees) leverages the EU contribution coming from FP7 by a factor of 5 (RSFF loans) and 8 (RSI guarantees), thus generating a high impact on financing available for RDI investments.

In this context, for the budget year 2013, new RSFF loan operations (signatures) of EUR 2 billion were envisaged by the EIB, for approximately 30 new operations..

In total, for the entire period 2007-2013, RSFF loans of EUR 10,5 billion are expected to be signed by the EIB and beneficiaries for approximately 120 operations. Regarding RSI guarantees to financial intermediaries for loans to SMEs and small midcaps, a total guarantee volume of EUR 1,14 billion was signed by the end of November 2013 allowing the extension of loans amounting to EUR 2,28 billion to approximately 4 500 beneficiaries.

Article 06 02 51 (in part) — Completion of Trans-European networks programme (in 2014 budget nomenclature)

(iii) General description of the financial instruments, including their duration and their impact on the budget

The LGTT is a debt instrument for project finance in transport infrastructure jointly established by the Union and the EIB under the Cooperation Agreement of 11 January 2008, as currently amended. Risk-sharing in this context means that both partners share financial risk, to accelerate and implement TEN-T infrastructure projects.

The 'LGTT facilities' are guarantee facilities provided by the EIB under LGTT to the private sector (project sponsors/promoters), to enhance the credit rating of the senior debt by reducing traffic risk. The EIB provides a guarantee in the form of a contingent credit line, which may be drawn upon by the project promoter during the first 5 to 7 years of operation, if the revenues generated by a project are not sufficient to ensure repayment of the senior debt, in case the actual revenues from the project fall below the forecasted level.

In order to be eligible for the financing through the LGTT facilities, the projects must comply with the following criteria:

- the projects must be TEN-T projects and comply with the TEN-T Guidelines and the EU law; the compliance with the TEN-T Guidelines is assessed by DG MOVE,
- they must be, in whole or in part, based on the revenues stemming from traffic. The private sector (the project promoter) takes the risks related to the revenues or losses generated by that infrastructure project,
- they must be financially viable; the financial viability is assessed by the EIB, which assesses, inter alia, the traffic forecasts and the related revenues obtained based on the traffic scenario.

The LGTT instrument was designed in 2008, prior to the global financial crisis. Since then, revenue based projects have become less common due to several reasons: the reluctance of the private sector to take on traffic demand risk and the reluctance of the public sector to engage in traffic demand based projects.

The original legal base sets the Union contribution to the LGTT instrument at EUR 500 million, where the EIB is required to provide an equal amount. Upon entry into force of the Amending Regulation and finalisation of the amendment No 1 to the Cooperation Agreement, EUR 200 million from the funds dedicated to the LGTT have been redeployed to the pilot phase of the Project Bond Instrument. After agreement with the EIB, EUR 50 million has been re-deployed into the TEN-T Programme for grant funding. Therefore, the total amount of the EU contribution currently available to support LGTT projects is EUR 250 million, out of which EUR 205 million was committed till 2012 and EUR 45 million was committed in 2013.

The possibility of modification of the risk-sharing model from *pari passu* to portfolio based risk-sharing between the Commission and the EIB has been decided by the co-legislators in the Amending Regulation and has been guided by the following rationale:

- under the 'portfolio approach', the risk is divided into two tranches. A portfolio first loss piece, to which the EU contributes 95 % and the EIB 5 % and a residual risk tranche which the EIB covers entirely. This allows for moving most of the EIB contribution to LGTT out its special activities sector, which for 2012 was limited to 8,3 % of the Bank's lending,

COMMISSION

INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH ARTICLE 49(1)(E) OF THE FINANCIAL REGULATION

- in a long-term perspective a higher leverage of the EU contribution can be achieved through a portfolio effect, depending on the number of transactions and granularity of the portfolio,
- the maximum EU risk exposure cannot exceed the budget contribution to LGTT independent of the risk-sharing model chosen.

The delegation agreement between EIB and the European Commission is under revision to accommodate this change.

The actual approval of guarantees by the EIB board is to be finalised by end of 2014. Guarantees can be called for the first 5 to 7 years operation, the latest draw down date of a project in the current portfolio is end of 2021. Therefore the instrument will be wound down at the latest end of 2028.

(iv) *Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments*

The budgetary commitments foreseen for 2013 amount to EUR 51,8 million. With the foreseen leverage factor of 15-20, the target volumes are estimated to be between EUR 777 million and EUR 1 036 million.

To date, 7 LGTT operations were signed, of which one operation is undergoing restructuring without having called on the guarantee. Around 50 other projects have been screened by the EIB. LGTT is available for transactions approved by the EIB of Directors by end of 2014. The EIB has presented a list of potential transactions that leads to the realistic assumption that the full amount committed to the LGTT instruments will be used for operations.

EUR 161,9 million of the Commission payments to the LGTT instrument have been absorbed by operations so far. This has resulted into a total amount of LGTT guarantees of EUR 476,9 million supporting investments into TEN-T projects of EUR 11 835 million. Due to the limited number of projects with a range of leverage factors, it is not yet possible to speak of a specific portfolio leverage factor. The Amending Regulation authorises a change of the risk-sharing pattern from *pari passu* to a portfolio first loss piece (PFLP). This change to the risk-sharing will, given the limited number of operations, initially increase the share of the EU Contribution, increasing absorption above the EUR 161,9 million, and will also affect the leverage factor, which is ultimately expected to be of the order of 15-20 when the portfolio is fully built up. The portfolio approach will come into force once the Cooperation Agreement between the Commission and the EIB has been amended.

Article 06 02 51 (in part) — Completion of Trans-European networks programme (in 2014 budget nomenclature).

(iii) General description of the financial instruments, including their duration and their impact on the budget

The pilot phase of the EU-EIB Project Bond Initiative was established by Regulation (EU) No. 670/2012 with the aim to revive and expand capital markets to finance large European infrastructure projects in the fields of transport, energy and information technology.

The scope of this pilot phase was to test the project bond concept during the period of the multi-annual financial framework 2007-2013. The pilot phase of the Initiative began its operations in late 2012 and will be implemented by the European Investment Bank (EIB) (EC-EIB cooperation agreement signed on 7 November 2012). The objectives of the pilot phase of the Initiative are two-fold:

- to stimulate investment in key strategic EU infrastructure in TEN-transport, TEN-energy and broadband;
- to establish debt capital markets as an additional source of financing for infrastructure projects.

Similar to Risk-sharing Finance Facility and Loan Guarantee instrument for TEN-Transport projects, the EU budget is used to provide capital contributions to the EIB in order to cover a portion of the risk the EIB is taking when it finances the eligible projects. While the general budget of the Union will provide some risk cushion for the EIB to finance the underlying projects, the EIB has to cover the remaining risk.

The pilot phase is based on an amendment of the Trans-European Networks (TEN) Regulation (EC) No 680/2007 and the Competitiveness and Innovation Framework Programme (CIP) Decision No 1639/2006/EC and draws on the budget lines of these programmes up to a total of EUR 230 million. EUR 200 million has been re-allocated from the TEN-T budget line, EUR 10 million from the TEN-E budget line and EUR 20 million from the CIP ICT line.

With regards to the duration of this initiative, the projects have to be signed before the end of 2016, with a maximum duration of 30 years (until 2046).

Overall, the objective of the pilot phase 2012-2013 is to help stakeholders to familiarise themselves with the novel financing structures presented in the instrument. Feedback received during the pilot phase will be used to fine-tune parameters of the definitive Project Bond Initiative, which is being developed for the period 2014-2020.

(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments

The budgetary commitment of EUR 130 million foreseen for 2013 may potentially, applying the leverage of 17,4, attract EUR 2 262 million of investments.

The EUR 230 million of EU funds, acting as a first loss piece, could enable EIB to provide around EUR 750 million of Project Bond Credit Enhancement. This could leverage debt financing to infrastructure projects, on a portfolio of PBCE transactions, worth more than EUR 4 billion across the three targeted sectors and result in an estimated leverage factor of 17,4. However, it may vary as a function of the size of PBCE facility provided to a project, but is an approximate average.

Regulation (EU) No 1291/2013 of the European Parliament and of the Council of 11 December 2013 establishing Horizon 2020 — The Framework Programme for Research and Innovation (2014-2020) (OJ L 347, 20.12.2013, p. 104).

Council Decision 2013/743/EU of 3 December 2013 establishing the specific programme implementing Horizon 2020 — The Framework Programme for Research and Innovation (2014-2020) (OJ L 347, 20.12.2013, p. 965).

(ii) **Budget lines corresponding to the relevant operations**

Item 08 02 02 02 — Enhancing access to risk finance for investing in research and innovation (in 2014 budget nomenclature).

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The goal is to improve access to debt financing — loans, guarantees, counter-guarantees and other forms of debt and risk finance — for public and private entities and public-private partnerships engaged in research and innovation activities requiring risky investments in order to come to fruition. The focus shall be on supporting research and innovation with a high potential for excellence.

The target final beneficiaries shall potentially be legal entities of all sizes that can borrow and repay money and, in particular, SMEs with the potential to carry out innovation and grow rapidly; mid-caps and large firms; universities and research institutes; research infrastructures and innovation infrastructures; public-private partnerships; and special-purpose vehicles or projects.

The Loan and Guarantee Service for Research and Innovation will be implemented towards a platform approach offering several products specifically designed to address particular needs.

The funding of the Loan and Guarantee Service for Research and Innovation shall have two main components:

— *demand-driven*, providing loans and guarantees on a first-come, first-served basis, with specific support for beneficiaries such as SMEs and mid-caps. This component shall respond to the steady and continuing growth seen in the volume of RSFF lending, which is demand-led.

This demand-driven component will be supported by the budget of the Horizon 2020 Access to Risk Finance programme.

— *targeted*, focusing on policies and key sectors crucial for tackling societal challenges, enhancing competitiveness, supporting sustainable, low-carbon, inclusive growth, and providing environmental and other public goods. This component shall help the Union address research and innovation aspects of sectorial policy objectives and will be supported by other parts of Horizon 2020, other frameworks, programmes and budget lines in the Union budget, particular regions and Member States that wish to contribute with their own resources (including through Structural Funds) and/or specific entities (such as Joint Technology Initiatives) or initiatives.

The expiry date of the instrument is expected to be in 2027-2030.

(iv) **Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

The foreseen budget for 2014 is EUR 107,80 million

Based on the experience of the RSFF, a leverage effect of 5-6 of the general budget of the Union can be envisaged for direct and indirect loans to beneficiaries under the demand-driven part of the Loan and Guarantee Service for Research and Innovation.

CEF Risk-sharing Instrument (Loan Risk-sharing and Project Bonds) — 2014 to 2020

(i) Reference to the basic act

Regulation (EU) No 1316/2013 of the European Parliament and of the Council of 11 December 2013 establishing the Connecting Europe Facility (OJ L 348, 20.12.2013, p. 129).

Item 32 02 01 04 — Creating an environment more conducive to private investment for energy projects (in 2014 budget nomenclature).

(iii) General description of the financial instruments, including their duration and their impact on the budget

CEF financial instruments

The objective of the financial instruments under the Connecting Europe Facility is to facilitate infrastructure projects' access to project and corporate financing by using Union funding as leverage. They shall help finance projects of common interest with a clear EU added value, and to facilitate greater private sector involvement in the long-term financing of such projects in the field of transport, energy and telecommunications, including broadband networks.

They shall benefit projects with medium- to long-term financing needs and shall produce greater benefits in terms of market impact, administrative efficiency and resource utilisation.

In addition, these instruments shall provide to infrastructure stakeholders such as financiers, public authorities, infrastructure managers, construction companies and operators a coherent market oriented toolbox of EU financial support.

CEF Debt Instrument

The goal of the CEF Debt Instrument shall be to contribute to overcoming deficiencies of the European debt capital markets by offering risk-sharing for debt financing. Debt financing shall be provided by entrusted entities or dedicated investment vehicles in the form of senior and sub-ordinated debt or guarantees.

The CEF Debt Instrument shall consist of a risk-sharing instrument for loans and guarantees and of the Project Bond Initiative. The final recipients (the project promoters) may, in addition, seek equity financing under the Equity Instrument.

— *Risk-sharing instrument for loans and guarantees*

The risk-sharing instrument for loans and guarantees shall be designed to create additional risk capacity in the entrusted entities. This shall allow the entrusted entities to provide funded and unfunded subordinated and senior debt to projects and corporates in order to facilitate promoters' access to bank financing. If the debt financing is sub-ordinated, it shall rank behind the senior debt but ahead of equity and related financing related to equity.

The unfunded subordinated debt financing shall not exceed 30 % of the total amount of the senior debt issued.

Additionally, the senior debt financing provided under the Debt Instrument shall not exceed 50 % of the total amount of the overall senior debt financing provided by the entrusted entity or the dedicated investment vehicle.

— *Project Bond Initiative*

The risk-sharing instrument for project bonds shall be designed as a sub-ordinated debt financing in order to facilitate financing for project companies raising senior debt in the form of bonds. This credit enhancement instrument shall aim at helping the senior debt to achieve an investment grade credit rating.

It shall rank behind the senior debt but ahead of equity and financing related to equity.

COMMISSION

INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH ARTICLE 49(1)(E) OF THE FINANCIAL REGULATION

The subordinated debt financing shall not exceed 20 % of the total amount of the senior debt issued.

For both instruments, the Union contribution shall be used:

- towards risk provisioning,
- to cover agreed fees and costs associated with the establishment and management of the Debt Instrument, including its evaluation, which have been determined in line with the Financial Regulation and market practice,
- for directly related support actions.

It is envisaged that the implementation is done through entrusted entities selected in accordance with the Financial Regulation.

Duration of the CEF Debt Instrument: The last tranche of the Union contribution to the CEF Debt Instrument shall be committed by the Commission no later than 31 December 2020. The actual approval of debt financing by the entrusted entities or the dedicated investment vehicles shall be finalised by 31 December 2022. The actual winding-down of the instrument will probably take place after 2032.

(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments

The CEF instruments will target projects of common interest with a clear EU added value in the field of transport, energy and telecommunications, including broadband networks.

The overall contribution from the Union budget shall not exceed 10 % of the overall financial envelope of the CEF (Article 14(2) of Regulation (EU) No 1316(2013). With regard to the Project Bond Initiative, it shall start up progressively within a ceiling of EUR 230 million during the years 2014 and 2015.

The expected leverage of the CEF Debt Instrument — defined as the total funding (i.e. Union contribution plus contributions from other financial sources) divided by the Union contribution — shall be expected to range from 6 to 15, depending on the type of operations involved (level of risk, target beneficiaries, and the debt financing concerned).

The European Progress Microfinance FCP-FIS (EPMF FCP-FIS) — Prior to 2014

(i) Reference to the basic act

Decision No 283/2010/EU of the European Parliament and of the Council of 25 March 2010 establishing a European Progress Microfinance Facility for employment and social inclusion (OJ L 87, 7.4.2010, p. 1).

(ii) Budget lines corresponding to the relevant operations

Article 04 04 15 — European Progress Microfinance Facility (in 2013 budget nomenclature).

Article 04 03 53 (in part) — Completion of other activities (in 2014 budget nomenclature).

(iii) General description of the financial instruments, including their duration and their impact on the budget

The aim of the European Progress Microfinance Facility is twofold: on the one hand, it increases availability of microfinance for persons wishing to start up or develop their micro-enterprises, including for self-employment, in the sense that it enables microfinance providers in the EU to enlarge their lending volumes to these individuals. On the other hand, Progress Microfinance enhances access to microfinance by reducing microfinance providers' risk. This feature allows microfinance providers to reach out to groups who could normally not be served, for instance, because persons from these groups could not provide sufficient collateral or because the interest rates would have to be very high to justify their actual risk profile.

The Facility provides Union resources to increase access to, and availability of, microfinance for:

- (a) persons who have lost or are at risk of losing their job, or who have difficulties entering or re-entering the labour market, as well as persons who are facing the threat of social exclusion or vulnerable persons who are in a disadvantaged position with regard to access to the conventional credit market and who want to start or further develop their own micro-enterprise, including self-employment,
- (b) micro-enterprises, especially in the social economy, as well as micro-enterprises which employ persons referred to in point (a).

The financial contribution from the Union budget for the Facility for the period from 1 January 2010 to 31 December 2013 amounts to EUR 105 million, out of which EUR 25 million for the EPMF Guarantee Facility (EPMF-G) and EUR 80 million for the FCP-FIS.

The Facility is implemented by using the following types of actions, as appropriate:

- guarantees (EPMF-G),
- debt and equity instruments (FCP-FIS),
- Support measures, such as communication activities, monitoring, control, audit and evaluation which are directly necessary for the effective and efficient implementation of Decision No 283/2010/EU and for the achievement of its objectives.

The micro-credit guarantee window shall remain in full force and effect until 31 December 2020; the FCP-FIS is expected to end on 30 April 2020.

(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments

EPMF budgetary commitments made in 2013 amount to EUR 22 million.

The target volumes are estimated to EUR 81 400 000 for the EPMF FCP-FIS (2013 budgetary commitments of EUR 22 000 000 x leverage effect of 3,7).

Regulation (EC) No 680/2007 of the European Parliament and of the Council of 20 June 2007 laying down general rules for the granting of Community financial aid in the field of the trans-European transport and energy networks (OJ L 162, 22.6.2007, p. 1).

Commission Decision C(2010) 941 of 25 February 2010 on European Union participation in the 2020 European Fund for Energy, Climate Change and Infrastructure (the Marguerite Fund).

(ii) Budget lines corresponding to the relevant operations

Article 06 03 03 — Financial support for projects of common interest in the trans-European transport network (in 2013 budget nomenclature).

Article 06 02 51 (in part) — Completion of Trans-European networks programme (in 2014 budget nomenclature).

(iii) General description of the financial instruments, including their duration and their impact on the budget

The Marguerite Fund is a Pan-European equity fund developed in the context of the financial crisis and in recognition of the need for successful long-term infrastructure investment in Europe. It supports infrastructure investment within the transport (TEN-T), energy (TEN-E) and renewables sectors in Member States and will primarily invest in Greenfield Projects.

The core sponsors include public long term investors from France (CDC), Italy (CdP), Germany (KfW), Spain (ICO) and Poland (PKO) as well as the EIB and the European Commission. The size of the Fund at final close is EUR 710 million.

EC aggregate budgetary commitments: EUR 80 million from the TEN-T budget

Expected results:

- 30 to 40 % of the total commitments invested in the Transport sector,
- 25 to 35 % invested in the Energy sector,
- 35 to 45 % invested in the Renewables Energies sector,
- at least 3,5 times the EC commitment to be invested into TEN-T eligible projects.

The investment period ends in December 2016 (with a possible extension of two more years) while the end-date/maturity of the fund has been set at a maximum term of 20 years from the initial closing (March 2010) but may be extended for up to two additional one-year periods (up to year 2032).

(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments

The total of the EUR 80 million of budgetary commitments for the Fund were made available in 2010. With the multiplier of 29 (as estimated below for 2013), the target volumes are likely to reach EUR 2,3 billion.

The 2013 multiplier calculations below are based on the expected amount of capital calls as estimated on of 30 November 2013 in accordance with the information received from the Marguerite Adviser.

For simplicity, it is estimated that the following two variables remain constant to 2012 levels: the level of administrative costs and the assumed percentage of equity out of the total costs of the projects.

Table 1 — Multiplier calculation (in EUR million)

	2012	2013*
Capital calls	128,9	73,8

Article 32 02 52 (in part) — Completion of energy projects to aid economic recovery (in 2014 budget nomenclature).

(iii) General description of the financial instruments, including their duration and their impact on the budget

On 1 July 2011, EUR 146,3 million from the European Energy Programme for Recovery (EEPR) were allocated to a new European Energy Efficiency Fund — EEEF (in the form of a specialised investment fund (SICAV)). The EEEF invests in energy efficiency, renewable energy projects, particularly in urban settings, achieving at least 20 % energy saving or GHG/CO₂ emission reduction.

The beneficiaries must be public authorities or public or private entities acting on their behalf, including ESCOs (1).

The Fund was launched on 1 July 2011 with an initial fund volume of EUR 265 million: in addition to the EU contribution (EUR 125 million in junior 'C-shares'), the European Investment Bank (EIB) invested EUR 75 million (mainly senior 'A shares'), Cassa Depositi e Prestiti SpA (CDP) EUR 60 million (mainly senior 'A shares'); and the designated investment manager (Deutsche Bank) EUR 5 million (mezzanine 'B shares').

The fund offers a range of non-standard financial products such as senior and junior loans, guarantees, equity participation or forfeiting schemes which can be combined in a flexible way with standard finance.

In addition, about EUR 20 million of the EU funding is available for technical assistance (in the form of grants) to help sponsors make projects bankable for the Fund.

Finally, a EUR 1,3 million programme has been established to raise awareness of financing methods and options for EE and RE among national and regional authorities managing Cohesion/Structural funds. EPEC (2) manages this programme.

In accordance with the amending Regulation, EU funds will have to be allocated to investment projects and Technical assistance (TA) by 31 March 2014. Apart from this, there is no fixed deadline for proposals. The winding down of the instrument will take place probably after 2024.

Fund/Investment Manager

Deutsche Bank (DB) is responsible i.e. for selecting projects and conducting a due diligence process before submitting the projects to the Fund's Investment Committee for advice and to the Management Board for approval. DB also manages the TA component, submitting TA propositions to DG ENER for approval.

Investment Committee

The Investment Committee (IC) is responsible for assessing projects submitted to it by the fund manager and giving recommendations to the Management Board. Two EIB members and one member from CDP were appointed ad interim until the selection criteria and governing principles are agreed.

Management Board

The Management Board (MB) has broad powers to administrate and manage the Fund; it decides on the investments upon recommendation by the IC. However, it cannot decide on major issues (such as change of the statutes and documentation) without approval by the Supervisory Board (SB). It reports quarterly to the SB. It is composed of representatives from the European Commission (1), the EIB (1, the chair) and the CDP (1).

Supervisory Board

The supervisory board's main duties include a permanent supervision of the management of the Fund, giving strategic advice to the MB, proposing the annual Fund business plan for Shareholder approval, and approving changes in the investment guidelines etc. It is composed of representatives from the European Commission (2), the EIB (1) and the CDP (1).

(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments

Current business plan presented by the Fund manager foresees a 2013 pipeline of approximately EUR 100 million of project allocation, resulting in approximately EUR 65 million contribution from the EU (leverage of 1,5).

Neighbourhood Investment Facility (NIF)

(i) Reference to the basic act

Regulation (EC) No 1638/2006 of the European Parliament and of the Council of 24 October 2006 laying down general provisions establishing a European Neighbourhood and Partnership Instrument (OJ L 310, 9.11.2006, p. 1).

One of the priorities of the European Neighbourhood and Partnership Instrument (ENPI) is promoting investment projects in European Neighbourhood Policy Partner Countries, the scope of which covers the Neighbourhood Investment Facility (NIF).

The EU launched the NIF in 2007. The following eight Commission Decisions have been adopted for this instrument during the period 2007-2012 for a total envelope of EUR 545 million (EUR 324,7 million from ENPI South budget line and EUR 220,3 million from ENPI East budget line): C(2007) 6280, C(2008) 2698, C(2009) 3951, C(2009) 8985, C(2010) 4400, C(2010) 7989, C(2011) 5547 and C(2012) 4533. In addition, a top-up was decided in December 2012 from ENPI Decision (2012) 4533 amounting to EUR 12,7 million from the East budget line and EUR 9,2 million from the South budget line.

The NIF has included since beginning of 2011 a Climate Change Window (CCW) under the Programme on the Environment and the Sustainable Management of Natural Resources including Energy (ENRTP) to support the implementation of projects helping partner countries tackle climate change through mitigation and/or adaptation measures. The NIF CCW is managed in a streamlined way and has in general the same rules and the same financing and implementation modalities as the NIF. An endowment with EUR 17,3 million has already been adopted by the Commission in 2011 [C(2011)9538], to be shared with the Latin America Investment Facility (LAIF).

Item 19 08 01 01 — European Neighbourhood and Partnership financial cooperation with Mediterranean countries (in 2013 budget nomenclature).

Item 19 08 01 03 — European Neighbourhood and Partnership financial cooperation with Eastern Europe (in 2013 budget nomenclature).

Article 21 04 01 — Environment and sustainable management of natural resources including energy (in 2013 budget nomenclature).

(iii) General description of the financial instruments, including their duration and their impact on the budget

Policy objectives and scope

The Financial Instrument of the European Union for the Neighbourhood Region contributes to achieving the objectives of the European Neighbourhood Policy (ENP) or related EU thematic policy priorities by leveraging additional financing for the region.

The NIF overarching objective is to mobilise additional investments to support the establishment of an area of prosperity and good neighbourliness involving the EU and neighbouring countries. In complementarity with other EU-funded programmes, the NIF can foster a sustainable, inclusive growth and a favourable investment climate in our partner countries.

Within this framework, the NIF pursues three strategic objectives, notably:

- establishing better energy and transport infrastructure interconnections between the EU and neighbouring countries and among neighbouring countries themselves,
- addressing threats to our common environment including climate change,
- promoting smart, sustainable and inclusive growth, in particular through support for small and medium size enterprises.

The NIF operations will support the implementation of the ENP Action Plans and focus on five main sectors: Energy, Environment with a particular focus on climate change mitigation and adaptation, Transport, Social and Small and Medium Enterprise development.

COMMISSION

INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH ARTICLE 49(1)(E) OF THE FINANCIAL REGULATION

Geographical coverage and final recipients

European Neighbourhood Policy partner countries directly eligible to the NIF are neighbourhood countries having signed an action plan, except for those that do not qualify because of their level of development. On a case by case basis, other countries which are not directly eligible may benefit from NIF interventions taking into account regional or specific circumstances. Their eligibility will have to be decided unanimously by Member States and the Commission.

Other final beneficiaries will be the private sector and, in particular the SMEs. Both multilateral and national European development finance institutions might be direct beneficiaries and important stakeholders of the facility.

Main technical characteristics

Under the instrument, risk capital (equity and quasi-equity investments), risk-sharing instruments, guarantees, loans, other financing as investment grants, interest rate subsidy and technical assistance can be used.

Implementation of the NIF is possible through the following management modes: Direct, Indirect, Joint and partially Decentralised.

Duration and impact on the budget

The decisions relating to this instrument are valid for the Multiannual Financial Framework 2007-2013 and may be extended further in accordance with the Multiannual Financial Framework 2014-2020.

The final date for contracting (for both regions) is 6 July 2015 relating to decisions from 2012. This is not the date of duration of the facilities but the final date for contracting of the individual decisions establishing the facility. The duration of individual projects is established on a case-by-case basis and is not limited.

The budgetary breakdown of EUR 766,92 million between the two Neighbourhood sub-regions is as follows:

CRIS reference	Cumulated amount of global commitment (maximum envelope 2007-April 2013)	Budget line
Neighbourhood South		
ENPI/2007/019548	158 000 000	19 08 01 01
ENPI/2011/023086	309 220 334	19 08 01 01
Total	467 220 334	
Neighbourhood East		
ENPI/2007/019549	137 000 000	19 08 01 03
ENPI/2011/023087	162 700 000	19 08 01 03
Total	299 700 000	

(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments

In 2013, Commission Implementing Decision (C(2013) 1276) has been adopted on 11 March 2013 for a maximum contribution of EUR 200 million included in the above table.

To estimate the budgetary impact in 2013, one must use assumptions based on the EUR 200 million expected for 2013 (situation in April 2013). The target leverage effect based on historical leverage experience during the period 2008-2012 for NIF is estimated at 31,1 (quotient between the total project cost and the EU contribution during the reference period). Under this hypothesis, the total target volume for 2013 would result in *circa* EUR 6 220 million of total funding that might be mobilized by the facility. These volumes have a solely indicative character as the calculation disregards the time as well as the differentiation effects.

Investment Facility for Central Asia (IFCA) and Asia Investment Facility (AIF)

(i) Reference to the basic act

Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation (OJ L 378, 27.12.2006, p. 41).

Based on the first results from the NIF, the Commission proposed to set up investment facilities targeting countries under the Development Cooperation Instrument (DCI) Regulation, initially in Central Asia, Asia and Latin America. Two facilities were set up for Asia: the Investment Facility for Central Asia (IFCA) in 2010 and the Asian Investment Facility (AIF) in 2011. These two facilities have been modelled on the NIF and have the same types of objectives and scope as those defined in the NIF General Framework agreed in March 2008 (cf. section on NIF).

As of April 2013, there have been two decisions for the IFCA financed through the 2010, 2011 and 2012 budgets and one decision for AIF financed through the 2011 and 2012 budgets.

(ii) Budget lines corresponding to the relevant operations

Article 19 10 02 — Cooperation with developing countries in Central Asia (in 2013 budget nomenclature).

Item 19 10 01 01 — Cooperation with developing countries in Asia (in 2013 budget nomenclature).

(iii) General description of the financial instruments, including their duration and their impact on the budget

Policy objectives and scope

The IFCA's main purpose is to promote additional investments and key infrastructures with a priority focus in the first implementation period on energy and environment. Based on the development of the Central Asia Strategies, a later extension to transport, SMEs and social infrastructure sectors in the Central Asian countries could be envisaged.

The AIF's main purpose is to promote additional investments and key infrastructure with a priority focus on climate change and 'green' investments in the areas of environment and energy as well as in SME's and social infrastructure. A later extension to the transport sector could be envisaged.

Geographical coverage and final recipients

The final beneficiaries of these two facilities are the countries of these two regions. Other final beneficiaries will be the private sector and, in particular SMEs.

Eligible finance institutions might be direct beneficiaries and important stakeholders of these two facilities.

Main technical characteristics

The types of operations to be financed are the following:

- investment co-financing in public infrastructure projects,
- loan guarantee cost financing,
- interest rate subsidy,
- technical assistance,
- risk capital operations.

Possible management modes are centralised (direct and indirect), joint and partially decentralised management.

Duration and impact on the budget

The IFCA and the AIF are established for the duration of the Financial Instrument, i.e., until 31 December 2013 and may be extended further in accordance with the Multiannual Financial Framework 2014-2020.

The final dates for contracting are 2 August 2015 for IFCA and 7 December 2014 for AIF, both related to decisions from 2011. This is not the date of duration of the facilities but the final date for contracting of the individual decisions establishing the facilities. The duration of individual projects is established on a case-by-case basis and is not limited.

COMMISSION

INFORMATION ON FINANCIAL INSTRUMENTS IN ACCORDANCE WITH ARTICLE 49(1)(E) OF THE FINANCIAL REGULATION

The budgetary breakdown of EUR 95 million between the two regions is as follows:

Decision reference	Cumulated amount of global commitment (maximum envelope)	Budget line
Investment Facility for Central Asia (IFCA)		
DCI-ASIE/2010/021-627	20 000 000	19 10 02
DCI-ASIE/2011/023-117	45 000 000	19 10 02
Asia Investment Facility (AIF)		
DCI-ASIE/2011/022-036	30 000 000	19 10 01 01

(iv) **Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

For the IFCA under the Annual Action Plan 2013, it is planned to top-up the current envelope of EUR 28,9 million.

For the AIF under the Annual Action Plan 2013, a non-substantial amendment of the 2011 Commission Decision is planned to reach the maximum envelope of EUR 15 million.

The leverage factor estimated by using historical data (from 2010 to 2012 for IFCA and from 2011 to 2012 for AIF) is 11,4 for IFCA and 6,5 for AIF (quotient between the total project cost and the EU contribution during the reference period). Under these assumptions, the target volumes would be estimated at around EUR 329 million ($28,9 \times 11,4$) for IFCA and EUR 97 million ($15 \times 6,5$) for AIF. These volumes have a solely indicative character as the calculation disregards the time as well as the differentiation effects.

Policy objectives and scope

The LAIF's main purpose will be to promote additional investments and in infrastructures in the transport, energy, and environment sectors and to support social sector such as health and education, and private sector development in the Latin American countries. The Facility will support the growth of SMEs, by making available a range of financial instruments in Latin America.

The LAIF has also included, since the beginning of 2011, a Climate Change Window to support the implementation of projects helping partner countries tackle climate change through mitigation and/or adaptation measures. An endowment of EUR 17,3 million has been approved by Commission implementing Decision in 2011 (C (2011) 9538) under DCI-ENV shared with the NIF as mentioned previously.

Geographical coverage and final recipients

The final beneficiaries will be the Latin American countries foreseen in the DCI Regulation (EC) No 1905/2006.

Other final beneficiaries will be the private sector and in particular SMEs for categories of operations dedicated to private sector development. Eligible finance institutions will be stakeholders of the Financial Instrument's operations.

Main technical characteristics

The types of operations to be financed under the LAIF are the following:

- investment co-financing in public infrastructure projects,
- loan guarantee cost financing,
- interest rate subsidy,
- technical assistance,
- risk capital operations.

Possible management modes are centralised management (direct and indirect), joint management, and partially decentralised management.

Duration and impact on the budget

LAIF is established until 31 December 2013 and the planned budget envelope amounts to EUR 147,150 million. The Facility may be extended further in accordance with the Multiannual Financial Framework 2014-2020.

The final date for contracting is 31 December 2013 relating to decisions from 2012. This is not the date of duration of the facilities but the final date for contracting of the individual decisions establishing the facility. The duration of individual projects is established on a case-by-case basis and is not limited.

The objective of the support to FEMIP is to provide capital to the private sector of Mediterranean partner countries on terms that are not available locally.

Risk capital is invested directly or indirectly in order to (i) support the private sector, i.e. enable the creation, restructuring or growth of enterprises (ii) strengthen the role of the local financial sector by supporting the creation of new institutions or the establishment of new activities for the benefit of the private sector.

Technical assistance is mobilised to strengthen FEMIP operations in the Mediterranean region, with a special focus on private sector development.

Geographical coverage and final recipients

FEMIP covers the 10 Southern Mediterranean States. The beneficiaries of the Risk Capital Facility are the private sector in general and SMEs as well as financial intermediaries. The beneficiaries of technical assistance are private enterprises, public institutions and the financial intermediaries.

Main technical characteristics

This action with the objective of financing Risk Capital and Technical Assistance Operations will be implemented in indirect centralised management with the European Investment Bank.

The European Investment Bank is entrusted to carry out the following operations:

- risk capital operations,
- technical assistance operations,
- loans on special conditions,
- interest rate subsidies.

Duration and impact on the budget

FEMIP is established for the duration of the Multiannual Financial Framework 2007-2013. There has been an annual budgetary commitment of EUR 32 million against budget line 19 08 01 01. Therefore, the total financial envelope for 2007-2013 is EUR 224 million.

Article 21 04 01 — Environment and sustainable management of natural resources, including energy (in 2013 budget nomenclature).

(iii) General description of the financial instruments, including their duration and their impact on the budget

Policy objectives and scope

The GEEREF is an innovative financing vehicle aiming to promote energy efficiency and renewable energy in developing countries and economies in transition. Structured as a Fund-of-Funds, GEEREF's strategy is to invest in — and thus help develop — regional private equity funds whose investments will target small and medium sized energy efficiency and renewable energy projects.

The objectives are to contribute to the expansion of renewable energy, energy efficiency and other related clean energy technologies to markets and services in developing countries and economies in transition (including territories), with the objective to increase access to low carbon, secure and affordable energy, and to help improve the economic and social circumstances of underserved or disadvantaged populations, to encourage sustainable economic development, while promoting the protection of the environment.

Geographical coverage and final recipients

The scope of the GEEREF is to support regional sub-funds for Sub-Saharan Africa, Caribbean and Pacific Island States, the countries of the European Neighbourhood Policy and Russia, Latin America, and Asia (including Central Asia and the Middle East). There will be a special emphasis on serving the needs of the African Caribbean and Pacific (ACP) countries.

Duration and impact on the budget

The end date of the activities under GEEREF was 13 December 2022, as calculated from the date the last commitment was recorded.

(iii) General description of the financial instruments, including their duration and their impact on the budget

The G43 Anatolian Venture Capital Project contributes to achieving the objectives of the Regional Competitiveness Operational Programme (RCOP), which inter alia, aims at creating and developing financing instruments.

Its major objectives are increasing the level of access to finance of SMEs in the target region by introducing an asset class (venture capital).

The instrument will finance investments ultimately aiming at traditional as well as innovative sectors based in Turkey, with particular importance given to manufacturing companies in the textile, agricultural and food processing industries and tourism in the service sector.

The geographical coverage will be the less developed 43 provinces of Turkey located in 12 NUTS II regions having an income per capita below the 75 % of Turkish national average as of 2001 as identified in the RCOP, with a particular focus on the least developed nine provinces in the Southeast Anatolia.

Under the instrument, risk capital (equity investments) and technical assistance can be used.

The Commission will implement the instrument under indirect management in accordance with Article 139 of the Financial Regulation. Under indirect management, the Commission may entrust implementation tasks to the following multilateral development financial institution: European Investment Bank (EIB).

The financial envelope for the instrument amounts to EUR 16 300 000 (of which EUR 13 855 000 or 85 % is the Union contribution, the rest being national public co-financing), which shall leverage a total investment of at least double the size of the Union contribution, targeted as EUR 30 000 000.

The instrument started in August 2011. Following an investment period of maximum 6,5 years (i.e. ending by 31 December 2017), its portfolio will be wound up in a period of maximum 5 years (i.e. by 31 December 2022 at the latest).

(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments

The Fund will target total commitments of EUR 30 million but accept commitments up to a maximum of EUR 40 million. The minimum fund size will be EUR 20 million.

Targeted Leverage effect: EUR 30 million/EUR 16,3 million = 1,84.

Targeted Leverage effect aligned to the definition in the Rules of Application EUR 30 million/EUR 13,855 million (only EU contribution of 85 %) = 2,17.

Number of enterprises benefitting from the financial instruments: min. 8 SMEs.

(iii) General description of the financial instruments, including their duration and their impact on the budget

The Financial Instrument of the European Union for the Greater Anatolia Guarantee Facility contributes to achieving the objectives of the Regional Competitiveness Operational Programme (RCOP), which inter alia, aims at creating and developing financing instruments.

Its major objectives are to increase the level of access to finance of micro enterprises and SMEs in the target region through credit guarantees, which will provide risk-sharing to financial intermediaries and hence increasing the lending capacity of commercial banks to micro enterprises and SMEs, while at the same time reducing collateral burden on the latter. In addition to credit guarantees, the European Investment Bank will make available an SME Global Loan to financial intermediaries for the target region, which will further increase SMEs access to finance and is an integral part of the Project.

The geographical coverage will be the less developed 43 provinces of Turkey located in 12 NUTS II regions having an income per capita below the 75 % of Turkish national average as of 2001 as identified in RCOP in line with the Common Implementing Regulation (Proposal for a Regulation of the European Parliament and of the Council, submitted by the Commission on 7 December 2011, establishing common rules and procedures for the implementation of the Union's instruments for external action COM(2011) 842).

Under the instrument, risk-sharing instruments, guarantees, loans and technical assistance can be used as follows:

- Pillar 1 (Micro Credit Counter-Guarantee component) is a counter-guarantee scheme to be implemented through Kredi Garanti Fonu (KGF), Turkey's sole specialized guarantee institution,
- Pillar 2 (SME Loan Guarantee scheme) to be implemented via five or six commercial banks is directly linked to the SME Greater Anatolia SME Loan Programme to be provided by EIB, and
- Pillar 3 (Capacity Building and Promotion component) whereby the key actors in this Facility are provided with specific training and through which the Facility is also promoted.

The Commission will implement the instrument under indirect management in accordance with Article 139 of the Financial Regulation. Under indirect management, the Commission may entrust implementation tasks to the following multilateral development financial institution: European Investment Fund (EIF).

The financial envelope envisaged for the instrument amounts to EUR 51,2 million which shall leverage a total investment of EUR 937,5 million. EU Commitment: EUR 43 484 210,53 (= payments from the budget) (which corresponds to an EU share of 85 %).

The instrument started in May 2010. Following an investment period of maximum 54 months (i.e. at the latest up to 31 December 2014), its portfolio will be wound up in a period of maximum 92 months (i.e. at the latest by 31 December 2017).

(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments

Amount of loan volume supplied for enterprises via the credit guarantees: EUR 937,5 million.

Number of enterprises benefitting from the financial instruments: 6 000 (1 500 micro + 4 500 SME).

Leverage effect: EUR 937,5 million/EUR 51,2 million = 18,32.

Leverage effect aligned to the definition in the Rules of Application: EUR 937,5 million/EUR 43,5 million (only EU contribution of 85 %) = 21,55.

(iii) General description of the financial instruments, including their duration and their impact on the budget

The Financial Instrument of the European Union for the Guarantee Facility contributes to achieving the objectives of enhancing socio-economic growth of the Western Balkans.

Its major objectives are the creation of preconditions for the emergence and growth of innovative and high-potential companies. The instrument will guarantee SME loan portfolios issued by commercial banks for new SME lending. This will entail improving SME access to lending and potentially lowering the cost of borrowing.

Under the instrument, guarantees of first loss of new loans to targeted SMEs with a guarantee rate of up to 70 % and a guarantee cap of up to 25 % in the overall loan portfolio can be used. Exact guarantee rate and cap will be determined on a case by case basis.

The Commission will implement the instrument under indirect management in accordance with Article 139 of the Financial Regulation. Under indirect management, the Commission may entrust implementation tasks to the European Investment Bank (EIB) Group, including the European Investment Fund (EIF). The Facility is to be implemented under indirect management, with the implementation tasks entrusted to the EIF.

The instrument started in 2013 and will guarantee loans with maturity until 2023. The geographical coverage will be the Western Balkans in line with the Common Implementing Regulation (cf COM(2011) 842).

(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments

The financial envelope envisaged for the instrument amounts to EUR 21,9 million that shall leverage a total investment of EUR 140 million, implying the leverage factor of 6.

The aggregate budgetary commitment of EUR 16,5 million (of which EUR 1,5 million is a provision for fees to the EIF as the Manager whereas EUR 15 million is the guarantee capital) from December 2012 will be increased in the second quarter of 2013 by EUR 5,4 million under DN024091 Multi-beneficiary Programme IPA 2013. Out of this amount, EUR 0,4 million will be a provision for fees to the EIF and EUR 5 million will increase the guarantee capital to the target of EUR 20 million.

**Western Balkans Investment Framework (WBIF) — Platform for future financial instruments under ELARG —
(‘Placeholder’)**

The Western Balkans Investment Framework (WBIF) is a joint initiative of the European Commission, the European Investment Bank (EIB), the European Bank for Reconstruction and Development (EBRD), and the Council of Europe Development Bank (CEB), endorsed by the European Council, to enhance harmonisation and co-operation in investments for socio-economic development of the Western Balkans.

The WBIF is not a Financial Instrument within the meaning of Article 2(p) of the Financial Regulation. Nevertheless, the WBIF can be used for the establishment of new financial instruments during the Multiannual Financial Framework 2014-2020, which ‘may take the form of equity or quasi-equity investments, loans or guarantees or other risk-sharing instruments and may, where appropriate, be combined with grants’.

Furthermore, the WBIF has already been used for the establishment of the following financial instruments:

- Guarantee Facility under the Western Balkan Enterprise Development and Innovation Facility,
- Enterprise Expansion Fund (ENEF) under the Western Balkan Enterprise Development and Innovation Facility,
- Enterprise Innovation Fund (ENIF) under the Western Balkan Enterprise Development and Innovation Facility.

The WBIF aims at streamlining existing facilities and pooling resources from the Commission, the partner International Financial Institutions (IFIs), the Member States and other donors, to enhance support to the Western Balkans beneficiary countries. Hence, the WBIF is securing financing of priority investments to develop and sustain socio-economic growth in the region.

The Framework finance investment projects which support sectors contributing to the socio-economic growth and development (economic, social, and environmental) of the Western Balkans, including:

- Environment: water supply, waste water treatment, sewage systems, solid waste and hazardous waste management, emission control, etc.,
- Energy: renewable energy, interconnection systems, transmission, co-generation, hydro, gas pipelines, etc.,
- Energy Efficiency and savings,
- Transport: railways and inland waterways including river ports, roads, seaports, airports, border facilities, inter modal terminals and urban transport,
- Social sector: schools and education centres, hospitals and health centres, social housing, reclusion centres and other public buildings,
- SMEs, private and financial sector support,
- Other sectors supporting socio-economic development as agreed by the Project Financiers’ Group and the Steering Committee.

The geographical coverage is the territory of one or more of the following beneficiaries in the Western Balkans: Albania, Bosnia and Herzegovina, Croatia, the Former Yugoslav Republic of Macedonia, Montenegro, Serbia and Kosovo in line with the Common Implementing Regulation (cf COM(2011) 842).

Under the WBIF, the grant financing to a specific investment project may take the form of Technical Assistance (TA), investment grants (direct grants for specific project components as well as incentive schemes based on performance of implementing institutions), incentive payments to financial intermediaries, interest rates subsidies (provision of a lump-sum amount to ensure that the loan finance needed for the investment project can be made available at reduced interest rates) and insurance premia (funding of insurance premia necessary to implement the investment projects).

The Commission implements the Framework under direct management (support originating from the Instrument for Pre-accession Assistance (IPA) under the Infrastructure Project Facility Technical Assistance for TA contracts) and indirect management (support originating from the IPA/Infrastructure Project Facility Municipal Window) in accordance with Article 139 of the Financial Regulation. For support provided from the European Western Balkans Joint Fund or the partner IFIs’ grant resources, the ‘lead IFI’ implements the project under indirect management and the Commission may entrust implementation tasks to the following Financial Institutions: European Investment Bank (EIB), European Bank for Reconstruction and Development (EBRD) and the Council of Europe Investment Bank (CIB), KfW Entwicklungsbank (KfW) and associated IFI: World Bank.

The Green for Growth Fund (GGF) is an innovative fund initiated in 2009 by the European Investment Bank (EIB) and the KfW Entwicklungsbank (KfW) with the support of the European Commission. The Fund provides dedicated financing for energy efficiency and renewable energy projects to help the target countries reduce CO₂ emissions and energy consumption.

This is achieved by lending to businesses and households via financial institutions and through direct funding. The Commission is investing in the GGF on behalf of the beneficiaries, to support the stabilisation of financial markets and economies. These investments are made in the Fund's first-loss tranche ensuring that finance remains available to the public and private energy sector and countries keep high their potential to achieve the EU's 20/20/20 energy targets. The activities of GGF are complemented by a Technical Assistance Facility.

Subject to programming 2014-2020.

The Financial Instrument of the European Union for energy efficiency and renewable energies (Green for Growth Fund) contributes to achieving the objectives of the Multi-annual Indicative Planning Document (MIPD) 2010-2013, *i.a.* support for investments in energy efficiency as a potential key driver of recovery from the economic crisis and sustained economic growth.

Its major objectives are to contribute in the form of a public-private partnership with a layered risk/return structure, to enhancing energy efficiency (EE) and renewable energies (RE) in the South-East Europe region predominantly through the provision of dedicated financing to businesses and households via partnering with financial institutions and direct finance.

The instrument finances Financial Institutions (commercial banks and non-bank financial institutions, such as leasing companies) to finance mainly EE and RE investments in private households and small and medium-sized enterprises; direct financing of Energy Service Companies (ESCOs), small renewable energy projects as well as companies and municipal entities. The geographical coverage will be the Western Balkans and Turkey in line with the Common Implementing Regulation (cf COM(2011) 842).

Under the Instrument, medium to long-term senior loans, subordinated loans, syndicated loans, letters of credit, guarantees, mezzanine debt instruments, local debt securities and equity can be used.

The Commission implements the instrument under indirect management in accordance with Article 139 of the Financial Regulation. Under indirect management, the Commission may entrust implementation tasks to the following multilateral Development Financial Institution: European Investment Fund (EIF).

The financial envelope for the instrument amounts to EUR 38,6 million which shall leverage a total investment of EUR 200 million. The instrument started in December 2009. Following an investment period of maximum 6 years, its portfolio will be wound up in a period of maximum 10 years (with the duration until 2025).

(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments

Item 22 02 07 01 — Regional and horizontal programmes (in 2013 budget nomenclature).

(iii) General description of the financial instruments, including their duration and their impact on the budget

The overall objective of the SME Recovery Support Loan for Turkey is to mitigate the crisis impact for SMEs and contribute to the development of the Turkish economy and employment sector. The main objective is to support SMEs with concrete productive investments by providing access to attractive and longer-dated debt financing. The co-financing of loans is to be provided to local commercial banks operating in Turkey (the 'Financial Intermediaries') for the benefit of eligible investments carried out by SMEs. In the context of the Action, the European Investment Bank (EIB) shall extend loans from its own resources together with the Union Contribution loans.

Individual SMEs are eligible for financing from a Financial Intermediary using funding available through the Action (each a 'Sub-Loan') up to a maximum amount of EUR 5 million and a minimum amount of EUR 200 000 and with a minimum maturity of 4 years.

The budget impact is EUR 30 million. It is a joint management action with the European Investment Bank (EIB) who contributes with EUR 120 million. The action will end in December 2016. The whole duration of the recovery support will extend probably to 2026.

(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments

Remarks

This appropriation is intended to cover the cost of information and communication measures undertaken by the Office.

The Office's external information and communication strategy is central to its work. The Office was set up as an independent investigative body and must therefore have its own communications strategy. The Office's work is often too technical to be immediately comprehensible to the general public. The Office has to inform its interlocutors and the public as a whole of its role and tasks. Public perception of the Office's work is of paramount importance.

As a Commission service, the Office also needs to take account of the democratic deficit existing between the Union institutions and the citizens of Europe. The Commission has recognised this deficit and drawn up an action plan to address it.

The communications strategy that the Office has developed and continues to implement must demonstrate its independence.

CHAPTER A4 02 — INTERINSTITUTIONAL COOPERATION, INTERINSTITUTIONAL SERVICES AND ACTIVITIES

A4 02 01 *Interinstitutional cooperation, interinstitutional services and activities*

Remarks

Within the framework of the EPSO Development Programme, the Office has modernised its selection methods with the aim of meeting the institutions' current and future needs in a more cost-effective and efficient way by:

- improving the planning of competitions to select the right staff at the right time and to optimise the use of reserve lists,
- reducing the length of the selection process,
- considerably improving the quality of the selection process so that the institutions can recruit the best staff for a life-long career by selecting candidates on the basis of the competencies needed to do the job, and by professionalising the work of the selection boards,
- establishing a positive and modern image for the institutions as employers so as to enable them to attract the best staff in the context of an increasingly competitive employment market,
- providing all the necessary facilities to enable the participation of applicants with disabilities.
