REGULATIONS

COMMISSION DELEGATED REGULATION (EU) No 404/2014

of 17 February 2014

amending Annex II to Regulation (EU) No 510/2011 of the European Parliament and of the Council as regards the monitoring of CO₂ emissions from new light commercial vehicles type-approved in a multi-stage process

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 510/2011 of the European Parliament and of the Council of 11 May 2011 setting emission performance standards for new light commercial vehicles as part of the Union's integrated approach to reduce CO₂ emissions from light-duty vehicles ⁽¹⁾, and in particular the second subparagraph of Article 8(9) thereof,

Whereas:

- (1) Annex XII to Commission Regulation (EC) No 692/2008 ⁽²⁾ sets out a new method for determining the CO₂ emissions from and fuel consumption of N₁ vehicles which are type-approved in a multi-stage process (hereinafter referred to as 'multi-stage vehicles'). The new method will apply from 1 January 2014 but may already be applied on a voluntary basis since 1 January 2013.
- (2) Point 7 of Part B of Annex II to Regulation (EU) No 510/2011 provides that the specific emissions of CO₂ of completed vehicles are to be allocated to the manufacturer of the base vehicle. This requires that a completed multi-stage vehicle can be recognised in the monitoring process and that the manufacturer of the base vehicle can be identified. It also requires certain data relating to the base vehicle to be determined in accordance with the methodology set out in Annex XII to Regulation (EC) No 692/2008.
- (3) The manufacturers of the base vehicle have, in accordance with Article 8(5) of Regulation (EU) No 510/2011, the right to verify the data relating to a multi-stage vehicle, on the basis of which their specific CO₂ emissions targets are calculated. It is therefore appropriate to provide the relevant data parameters ensuring that such verification may be effectively performed.
- (4) The methodology set out in Annex XII to Regulation (EC) No 692/2008 applies with regard to incomplete and completed vehicles. However, where a complete vehicle is further transformed prior to the first registration, it should be clarified that it is the mass in running order and the CO₂ emissions of the complete vehicle that is used as a base vehicle that should be monitored and taken into account for the calculation of the specific emissions targets.

⁽¹⁾ OJ L 145, 31.5.2011, p. 1.

⁽²⁾ Commission Regulation (EC) No 692/2008 of 18 July 2008 implementing and amending Regulation (EC) No 715/2007 of the European Parliament and of the Council on type-approval of motor vehicles with respect to emissions from light passenger and commercial vehicles (Euro 5 and Euro 6) and on access to vehicle repair and maintenance information (OJ L 199, 28.7.2008, p. 1).

- (5) It is necessary to specify further the data that should be provided in order to ensure that the CO₂ emission performance of multi-stage vehicles can be adequately and efficiently monitored and verified.
- (6) A vehicle is identified by a vehicle identification number (hereinafter referred to as 'VIN'), i.e. an alphanumeric code assigned to the vehicle by the manufacturer in accordance with Commission Regulation (EU) No 19/2011⁽¹⁾. Directive 2007/46/EC of the European Parliament and of the Council⁽²⁾ provides, in Section 4 of Annex XVII, that the identification number of the base vehicle shall, as the basic rule, be retained during all subsequent stages of the type-approval process to ensure the traceability of the process. Through the VIN it should therefore be possible to link the completed vehicle to a base vehicle and thus determine the base vehicle manufacturer responsible for the CO₂ emissions. Moreover, the VIN should allow the base vehicle manufacturer to verify the relevant data related to the base vehicle. As there are no other parameters that can provide that kind of link, it is appropriate to require Member States to monitor and report VINs of newly registered N₁ vehicles to the Commission through the data collection system of the European Environment Agency (EEA).
- (7) In order to calculate the specific emissions targets with regard to multi-stage vehicles, it is necessary, in accordance with point 7 of Part B of Annex II to Regulation (EU) No 510/2011, to consider the default added mass determined in accordance with point 5.3 of Annex XII to Regulation (EC) No 692/2008. This will require the monitoring and reporting of the mass in running order of the base vehicle and the technically permissible maximum laden mass of that vehicle, through which the default added mass may be determined, or, alternatively, the monitoring and reporting of the default added mass itself. Moreover, in order to determine whether a multi-stage vehicle falls within the scope of Regulation (EU) No 510/2011, it is necessary to verify that the reference mass of the completed vehicle does not exceed the limits referred to in Article 2(1) of that Regulation.
- (8) Where Member States are not able to provide all the parameters required pursuant to Annex II to Regulation (EU) No 510/2011 due to the design of their system for registration of data relating to new light commercial vehicles, those parameters may be provided by the manufacturers concerned in the notification referred to in Article 8(5) of Regulation (EU) No 510/2011.
- (9) For that same reason, manufacturers may, in accordance with Commission Implementing Regulation (EU) No 293/2012⁽³⁾, provide the Commission and the EEA with the VINs they assigned to vehicles sold in the preceding calendar year or for which a warranty was issued in that year.
- (10) VINs may, following the registration of a vehicle for its entry into service in road traffic, be linked to datasets permitting the identification of the owner of the vehicle. The VIN by itself is, however, not a carrier of personal data and the processing of data for the purposes of Regulation (EU) No 510/2011 does not require access to or the processing of any linked personal data. The monitoring and reporting of VINs is therefore not considered as processing of personal data falling within the scope of Directive 95/46/EC of the European Parliament and of the Council⁽⁴⁾ or Regulation (EC) No 45/2001 of the European Parliament and of the Council⁽⁵⁾. Nevertheless, it is recognised that VINs may be considered to be sensitive data, inter alia, with regard to the prevention of vehicle theft, and it is therefore appropriate to ensure that the VINs reported to the Commission and the EEA are not made public.
- (11) By matching the VINs reported by the Member States with those provided by the manufacturers, the Commission, supported by the EEA, should identify the manufacturers and the vehicles concerned and prepare the provisional dataset in accordance with Article 10b of Implementing Regulation (EU) No 293/2012.

⁽¹⁾ Commission Regulation (EU) No 19/2011 of 11 January 2011 concerning type-approval requirements for the manufacturer's statutory plate and for the vehicle identification number of motor vehicles and their trailers and implementing Regulation (EC) No 661/2009 of the European Parliament and of the Council concerning type-approval requirements for the general safety of motor vehicles, their trailers and systems, components and separate technical units intended therefor (OJ L 8, 12.1.2011, p. 1).

⁽²⁾ Directive 2007/46/EC of the European Parliament and of the Council of 5 September 2007 establishing a framework for the approval of motor vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles (OJ L 263, 9.10.2007, p. 1).

⁽³⁾ Commission Implementing Regulation (EU) No 293/2012 of 3 April 2012 on monitoring and reporting of data on the registration of new light commercial vehicles pursuant to Regulation (EU) No 510/2011 of the European Parliament and of the Council (OJ L 98, 4.4.2012, p. 1).

⁽⁴⁾ Directive 95/46/EC of the European Parliament and of the Council of 24 October 1995 on the protection of individuals with regard to the processing of personal data and on the free movement of such data (OJ L 281, 23.11.1995, p. 31).

⁽⁵⁾ Regulation (EC) No 45/2001 of the European Parliament and of the Council of 18 December 2000 on the protection of individuals with regard to the processing of personal data by the Community institutions and bodies and on the free movement of such data (OJ L 8, 12.1.2001, p. 1).

- (12) In order to ensure full parallelism of the monitoring requirements under Regulation (EU) No 510/2011 with those applicable to passenger cars under Regulation (EC) No 443/2009 of the European Parliament and of the Council ⁽¹⁾, it is appropriate to adapt the requirements in Annex II to Regulation (EU) No 510/2011 on the provision of aggregated data and the methodology for determining the CO₂ monitoring information for light commercial vehicles.
- (13) Annex II to Regulation (EU) No 510/2011 should therefore be amended accordingly,

HAS ADOPTED THIS REGULATION:

Article 1

Annex II to Regulation (EU) No 510/2011 is amended in accordance with the Annex to this Regulation.

COMMISSION IMPLEMENTING REGULATION (EU) No 407/2014
of 23 April 2014
approving transfluthrin as an existing active substance for use in biocidal products for product-type 18

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 528/2012 of the European Parliament and of the Council of 22 May 2012 concerning the making available on the market and use of biocidal products ⁽¹⁾, and in particular the third subparagraph of Article 89(1) thereof,

Whereas:

- (1) Commission Regulation (EC) No 1451/2007 ⁽²⁾ establishes a list of active substances to be assessed, with a view to their possible inclusion in Annex I, IA or IB to Directive 98/8/EC of the European Parliament and of the Council ⁽³⁾. That list includes transfluthrin.
- (2) Transfluthrin has been evaluated in accordance with Article 11(2) of Directive 98/8/EC for use in product-type 18, insecticides, acaricides and products to control other arthropods, as defined in Annex V to that Directive, which corresponds to product-type 18 as defined in Annex V to Regulation (EU) No 528/2012.
- (3) The Netherlands was designated as Rapporteur Member State and submitted the competent authority report, together with a recommendation, to the Commission on 13 July 2010 in accordance with Article 14(4) and (6) of Regulation (EC) No 1451/2007.
- (4) The competent authority report was reviewed by the Member States and the Commission. In accordance with Article 15(4) of Regulation (EC) No 1451/2007, the findings of the review were incorporated in an assessment report reviewed within the Standing Committee on Biocidal Products on 13 March 2014.
- (5) According to that assessment report, biocidal products used for product-type 18 and containing transfluthrin may be expected to satisfy the requirements laid down in Article 5 of Directive 98/8/EC, provided that certain specifications and conditions relating to its use are satisfied.
- (6) It is therefore appropriate to approve transfluthrin for use in biocidal products for product-type 18 subject to compliance with such specifications and conditions.
- (7) Since the evaluation did not address nanomaterials, the approval should not cover such materials pursuant to Article 4(4) of Regulation (EU) No 528/2012.
- (8) A reasonable period should be allowed to elapse before an active substance is approved, in order to permit interested parties to take the preparatory measures necessary to meet the new requirements laid down.
- (9) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Biocidal Products,

⁽¹⁾ OJ L 167, 27.6.2012, p. 1.

⁽²⁾ Commission Regulation (EC) No 1451/2007 of 4 December 2007 on the second phase of the 10-year work programme referred to in Article 16(2) of Directive 98/8/EC of the European Parliament and of the Council concerning the placing of biocidal products on the market (OJ L 325, 11.12.2007, p. 3).

Article 1

Transfluthrin shall be approved as an active substance for use in biocidal products for product-type 18, subject to the specifications and conditions set out in the Annex.

Article 2

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

COMMISSION IMPLEMENTING REGULATION (EU) No 408/2014**of 23 April 2014****approving synthetic amorphous silicon dioxide as an existing active substance for use in biocidal products for product-type 18****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 528/2012 of the European Parliament and of the Council of 22 May 2012 concerning the making available on the market and use of biocidal products ⁽¹⁾, and in particular the third subparagraph of Article 89(1) thereof,

Whereas:

- (1) Commission Regulation (EC) No 1451/2007 ⁽²⁾ establishes a list of active substances to be assessed, with a view to their possible inclusion in Annex I, IA or IB to Directive 98/8/EC of the European Parliament and of the Council ⁽³⁾. That list includes silicon dioxide.
- (2) Silicon dioxide has been evaluated in accordance with Article 11(2) of Directive 98/8/EC for use in product-type 18, insecticides, acaricides and products to control other arthropods, as defined in Annex V to that Directive, which corresponds to product-type 18 as defined in Annex V to Regulation (EU) No 528/2012.
- (3) The data submitted for the purpose of the evaluation allowed conclusions to be drawn only regarding a certain form of silicon dioxide, i.e. synthetic amorphous silicon dioxide described as wet silica CAS No 112926-00-8. The evaluation did not allow conclusions to be drawn regarding any other substance complying with the definition of silicon dioxide CAS No 7631-86-9 in the abovementioned list of active substances in Regulation (EC) No 1451/2007. Therefore, only synthetic amorphous silicon dioxide should be covered by the approval.
- (4) France was designated as rapporteur Member State and submitted the competent authority report, together with a recommendation, to the Commission on 16 April 2009 in accordance with Article 14(4) and (6) of Regulation (EC) No 1451/2007.
- (5) The competent authority report was reviewed by the Member States and the Commission. In accordance with Article 15(4) of Regulation (EC) No 1451/2007, the findings of the review were incorporated in an assessment report reviewed within the Standing Committee on Biocidal Products on 13 March 2014.
- (6) According to that assessment report, biocidal products used for product-type 18 and containing synthetic amorphous silicon dioxide may be expected to satisfy the requirements laid down in Article 5 of Directive 98/8/EC, provided that certain specifications and conditions relating to its use are satisfied.
- (7) It is therefore appropriate to approve synthetic amorphous silicon dioxide for use in biocidal products for product-type 18 subject to compliance with such specifications and conditions.
- (8) Since synthetic amorphous silicon dioxide as evaluated is a nanomaterial, the approval should cover such nanomaterials pursuant to Article 4(4) of Regulation (EU) No 528/2012 provided that certain specifications and conditions relating to their use are satisfied.
- (9) A reasonable period should be allowed to elapse before an active substance is approved, in order to permit interested parties to take the preparatory measures necessary to meet the new requirements laid down.
- (10) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Biocidal Products,

Synthetic amorphous silicon dioxide shall be approved as an active substance for use in biocidal products for product-type 18, subject to the specifications and conditions set out in the Annex.

COMMISSION IMPLEMENTING REGULATION (EU) No 410/2014**of 23 April 2014****amending Implementing Regulation (EU) No 293/2012 as regards the monitoring of CO₂ emissions from new light commercial vehicles type-approved in a multi-stage process****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 510/2011 of the European Parliament and of the Council of 11 May 2011 setting emission performance standards for new light commercial vehicles as part of the Union's integrated approach to reduce CO₂ emissions from light-duty vehicles ⁽¹⁾, and in particular the first subparagraph of Article 8(9) thereof,

Whereas:

- (1) Annex XII to Commission Regulation (EC) No 692/2008 ⁽²⁾ sets out a new method for determining the CO₂ emissions from and fuel consumption of N₁ vehicles which are type-approved in a multi-stage process (hereinafter referred to as 'multi-stage vehicles'). That new method is to apply from 1 January 2014 but may be applied on a voluntary basis since 1 January 2013.
- (2) Point 7 of Part B of Annex II to Regulation (EU) No 510/2011 provides that the specific emissions of CO₂ of completed vehicles are to be allocated to the manufacturer of the base vehicle. This requires that completed vehicles can be recognised in the monitoring process and that the manufacturer of the base vehicle can be identified. It also requires certain data relating to the base vehicle to be determined in accordance with the new methodology set out in Annex XII to Regulation (EC) No 692/2008.
- (3) The manufacturers of the base vehicles have, in accordance with Article 8(5) of Regulation (EU) No 510/2011, the right to verify the data relating to a multi-stage vehicle, on the basis of which their specific CO₂ emission targets are calculated. It is therefore appropriate to lay down detailed provisions on the exchange of relevant data between the manufacturers and the Commission.
- (4) Due to the specificities and design of their vehicle registration systems, Member States may however not be able to provide all the data relevant for the monitoring of multi-stage vehicles that are indicated in the detailed data specified in Annex II to Regulation (EU) No 510/2011. As a consequence, the Commission should have the possibility to take into account data provided by manufacturers as part of the verification process pursuant to Article 8(5) of Regulation (EU) No 510/2011 for determining the preliminary specific emissions targets.
- (5) Manufacturers should therefore provide the Commission and the European Environment Agency (EEA) with the vehicle identification numbers (VINs) that they assigned to light commercial vehicles sold in the preceding calendar year or for which a warranty was issued in that year. Manufacturers should also have the possibility to provide the Commission with the detailed data related to those vehicles. In order to take those data into account for the calculation of the provisional targets, manufacturers should provide their data to the Commission and the EEA at the same time as the annual data submission of the Member States.
- (6) By matching the detailed data provided by Member States with those provided by the manufacturers, based on the VINs, the Commission should prepare a provisional dataset for the calculation of the preliminary targets. The provisional dataset to be notified to a manufacturer should include the VINs for those records where the two datasets can be matched. Where necessary, the provisional dataset should also include those records where the Member States' VINs are not matched by VINs delivered by the manufacturer. In that case the records should be transmitted to the manufacturer without the VINs. The provisional dataset, with exception of the VINs, should be made public in accordance with Article 8(4) of Regulation (EU) No 510/2011.

⁽²⁾ Commission Regulation (EC) No 692/2008 of 18 July 2008 implementing and amending Regulation (EC) No 715/2007 of the European Parliament and of the Council on type-approval of motor vehicles with respect to emissions from light passenger and commercial vehicles (Euro 5 and Euro 6) and on access to vehicle repair and maintenance information (OJ L 199, 28.7.2008, p. 1).

- (7) In order to ensure full parallelism of the requirements set out in Commission Implementing Regulation (EU) No 293/2012 ⁽¹⁾ with those applicable to passenger cars set out in Commission Regulation (EU) No 1014/2010 ⁽²⁾, it is appropriate to adapt the requirements for the notification of errors by manufacturers in accordance with the provisions of that Regulation.
- (8) Implementing Regulation (EU) No 293/2012 should be amended accordingly.
- (9) The measures provided for in this Regulation are in accordance with the opinion of the Climate Change Committee,

HAS ADOPTED THIS REGULATION:

Article 1

Implementing Regulation (EU) No 293/2012 is amended as follows:

- (1) In Article 2, point (3) is replaced by the following:

'(3) "detailed monitoring data" means the detailed data specified in Section 2 of Part C of Annex II to Regulation (EU) No 510/2011 which is disaggregated by manufacturer and vehicle series as defined by the type, variant and version or, where applicable, by single vehicle as defined by the vehicle identification number.'

- (2) Article 8 is replaced by the following:

'Article 8

Vehicles not covered by EC type-approval

Where light commercial vehicles are subject to national type-approval of small series in accordance with Article 23 of Directive 2007/46/EC or to individual approvals in accordance with Article 24 of that Directive, Member States shall inform the Commission of the respective numbers of such vehicles registered in their territory.

In completing the detailed monitoring data, the competent authority shall indicate the name of the manufacturer in the column "Manufacturer name in Member State registry" in the format set out in Part C of Annex II to Regulation (EU) No 510/2011, and in the column "Manufacturer name EU standard denomination" either of the following:

- (a) "AA-IVA" for reporting vehicle types approved individually;
- (b) "AA-NSS" for reporting vehicle types approved nationally in small series.'

- (3) Article 10 is amended as follows:

- (a) In paragraph 1, the following subparagraph is added:

'Where data is transmitted in accordance with paragraph 3 of this Article, the contact person indicated by the manufacturer shall also be given the right to upload the detailed data to the Data Repository of the European Environment Agency.'

- (b) The following paragraphs 3 and 4 are added:

'3. For the purpose of the verification of the provisional data, manufacturers shall submit to the Commission, at the latest by 28 February each year, the vehicle identification numbers of any light commercial vehicle (complete, completed or incomplete) they sold in the preceding calendar year in the Union, or for which they issued a warranty in that year. Manufacturers may at the same time provide the Commission with the detailed data specified in Annex II to Regulation (EU) No 510/2011 relating to those vehicles.

The data shall be transmitted via electronic data transfer to the Data Repository managed by the European Environmental Agency.

4. Where manufacturers do not submit the vehicle verification numbers and detailed data referred to in paragraph 3, the provisional specific emissions target shall be calculated on the basis of the detailed data as provided by the Member States.'

⁽¹⁾ Commission Implementing Regulation (EU) No 293/2012 of 3 April 2012 on monitoring and reporting of data on the registration of new light commercial vehicles pursuant to Regulation (EU) No 510/2011 of the European Parliament and of the Council (OJ L 98, 4.4.2012, p. 1).

⁽²⁾ Commission Regulation (EU) No 1014/2010 of 10 November 2010 on monitoring and reporting of data on the registration of new passenger cars pursuant to Regulation (EC) No 443/2009 of the European Parliament and of the Council (OJ L 293, 11.11.2010, p. 15).

(4) The following Articles 10a and 10b are inserted:

Article 10a

Notification of errors by manufacturers

1. Manufacturers that notify errors in accordance with Article 8(5) of Regulation (EU) No 510/2011 shall use the provisional dataset notified by the Commission pursuant to Article 8(4) as a basis for their notification.

The error notification shall include all datasets relating to vehicle registrations for which the notifying manufacturer is responsible. In the case of completed vehicles, the responsible manufacturer is the manufacturer responsible for the EC type approval of the base vehicle.

The error shall be indicated by a separate entry in the dataset for each version, entitled “Manufacturer comments”, in which one of the following codes shall be specified:

- (a) Code A, where the records have been changed by the manufacturer;
- (b) Code B, where the vehicle is unidentifiable;
- (c) Code C, where the vehicle falls out of the scope of Regulation (EU) No 510/2011 or is out of production;
- (d) Code D, where the manufacturer to which a specific record has been attributed is the manufacturer of the completed vehicle but not the incomplete base vehicle.

For the purposes of point (b), a vehicle is unidentifiable where the manufacturer cannot identify the vehicle on the basis of the vehicle identification number provided by the Member State, or if the record does not contain such a number and the vehicle cannot otherwise be identified.

For the purposes of point (d), the final vehicle manufacturer shall also indicate the name of the base vehicle manufacturer in a separate entry entitled “Manufacturer notes”.

2. Where a manufacturer has not notified errors to the Commission in accordance with paragraph 1, or where the notification is submitted after the expiry of the three-month period provided for in Article 8(5) of Regulation (EU) No 510/2011, the provisional values notified in accordance with Article 8(4) of that Regulation shall be considered as final.

3. Article 10b

Preparation of the provisional data

1. Where manufacturers submit data to the Commission in accordance with Article 10(3), the provisional dataset to be notified to a manufacturer shall include the following records:

- (a) the records including vehicle identification numbers, in those cases where the vehicle identification numbers submitted by the manufacturer in accordance with Article 10(3) are matched by those submitted by the Member States as specified in Part C Section 2 of Annex II to Regulation (EU) No 510/2011;

- (b) the records that can be attributed to the manufacturer, but excluding the vehicle identification numbers, in those cases where the vehicle identification numbers provided by the Member States are not matched by those submitted by the manufacturers.

The provisional dataset prepared including the records referred to in points (a) and (b) shall be notified to manufacturers in accordance with the second subparagraph of Article 8(4) of Regulation (EU) No 510/2011.

The central register of the data referred to in the first subparagraph of Article 8(4) shall not include any data on vehicle identification numbers.

2. The processing of the vehicle identification numbers shall not include the processing of any personal data that could be linked to those numbers or any other data that could permit the linking of vehicle identification numbers with personal data.'

- (5) Annex I is replaced by the text in the Annex to this Regulation.

Article 2

- (1) Regulation (EU) No 374/2014 of the European Parliament and of the Council ⁽²⁾ provides for preferential arrangements for 2014 as regards customs duties for the import of certain goods originating in Ukraine. In accordance with Article 3 of that Regulation agricultural products listed in Annex III thereto are to be admitted for import into the Union within the limits of the quotas as set out in that Annex. The quotas referred to in Annex III to Regulation (EU) No 374/2014 are to be administered by the Commission in accordance with Article 184(2)(b) of Regulation (EU) No 1308/2013.

In this way, operators that have obtained import rights should be able to decide, during the quota period, the moment when they wish to apply for import licences, in view of their actual trade flows.
- (3) Commission Regulation (EC) No 376/2008 ⁽⁴⁾ and Commission Regulation (EC) No 382/2008 ⁽⁵⁾ should apply to import licences issued in accordance with this Regulation, save where derogations are appropriate.
- (4) Furthermore, the provisions of Regulation (EC) No 1301/2006 which concern applications for import rights, the status of applicants and the issue of import licences should apply to import licences issued pursuant to this Regulation, without prejudice to additional conditions laid down in this Regulation.
- (5) For appropriate administration of the tariff quotas, a security should be lodged at the time of submission of an import rights application.
- (6) In order to oblige operators to apply for import licences for all the import rights allocated, it should be provided that such obligation constitutes a primary requirement within the meaning of Commission Implementing Regulation (EU) No 282/2012 ⁽⁶⁾.
- (7) Since the quotas referred to in Annex III to Regulation (EU) No 374/2014 are open only until 31 October 2014, this Regulation should enter into force as soon as possible.
- (8) The measures provided for in this Regulation are in accordance with the opinion of the Committee for the Common Organisation of the Agricultural Markets,

⁽²⁾ Regulation (EU) No 374/2014 of the European Parliament and of the Council of 16 April 2014 on the reduction or elimination of customs duties on goods originating in Ukraine (OJ L 118, 22.4.2014, p. 1).

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1308/2013 of the European Parliament and of the Council of 17 December 2013 establishing a common organisation of the markets in agricultural products and repealing Council Regulations (EEC) No 922/72, (EEC) No 234/79, (EC) No 1037/2001 and (EC) No 1234/2007 ⁽¹⁾, and in particular points (a), (c) and (d) of Article 187 thereof,

- (5) For appropriate administration of the tariff quotas, a security should be lodged at the time of submission of an import rights application, and at the time of issue of an import licence.
- (6) In order to oblige operators to apply for import licences for all the import rights allocated, it should be provided that such obligation constitutes a primary requirement within the meaning of Commission Implementing Regulation (EU) No 282/2012 ⁽⁵⁾.

The new CN codes should therefore be reflected in Annex I to this Regulation.
- (8) Since the quotas referred to in Annex III to Regulation (EU) No 374/2014 are open only until 31 October 2014, this Regulation should enter into force as soon as possible.

COMMISSION IMPLEMENTING REGULATION (EU) No 414/2014**of 23 April 2014****opening and providing for the administration of Union import tariff quotas for fresh and frozen pigmeat originating in Ukraine**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1308/2013 of the European Parliament and of the Council of 17 December 2013 establishing a common organisation of the markets in agricultural products and repealing Council Regulations (EEC) No 922/72, (EEC) No 234/79, (EC) No 1037/2001 and (EC) No 1234/2007 ⁽¹⁾, and in particular points (a), (c) and (d) of Article 187 thereof,

Whereas:

- (1) Regulation (EU) No 374/2014 of the European Parliament and of the Council ⁽²⁾ provides for preferential arrangements for 2014 as regards customs duties for the import of certain goods originating in Ukraine. In accordance with Article 3 of that Regulation agricultural products listed in Annex III thereto are to be admitted for import into the Union within the limits of the tariff quotas as set out in that Annex. The quotas referred to in Annex III to that Regulation are to be administered by the Commission in accordance with Article 184(2)(b) of Regulation (EU) No 1308/2013.
- (2) While the quota concerned should normally be managed through the use of import licences, it is however appropriate to attribute import rights as a first step and to issue import licences as a second, as provided for in Article 6(3) of Commission Regulation (EC) No 1301/2006 ⁽³⁾. In this way, operators that have obtained import rights should be able to decide, during the course of the quota period, the moment when they wish to apply for import licences, in view of their actual trade flows.
- (3) Commission Regulation (EC) No 376/2008 ⁽⁴⁾ should apply to import licences issued under this Regulation, save where derogations are appropriate.
- (4) Furthermore, the provisions of Regulation (EC) No 1301/2006 which concern applications for import rights, the status of applicants and the issue of import licences, should apply to import licences issued pursuant to this Regulation, without prejudice to additional conditions laid down in this Regulation.
- (5) For appropriate administration of the tariff quotas, a security should be lodged at the time of submission of an import rights application and at the time of issue of an import licence.
- (6) In order to oblige operators to apply for import licences for all the import rights allocated, it should be provided that such obligation constitutes a primary requirement within the meaning of Commission Implementing Regulation (EU) No 282/2012 ⁽⁵⁾.
- (7) Since the quotas referred to in Annex III to Regulation (EU) No 374/2014 are open only until 31 October 2014, this Regulation should enter into force as soon as possible.
- (8) The measures provided for in this Regulation are in accordance with the opinion of the Committee for the Common Organisation of the Agricultural Markets,

⁽¹⁾ OJ L 347, 20.12.2013, p. 671.

⁽²⁾ Regulation (EU) No 374/2014 of the European Parliament and of the Council of 16 April 2014 on the reduction or elimination of customs duties on goods originating in Ukraine (OJ L 118, 22.4.2014, p. 1).

⁽³⁾ Commission Regulation (EC) No 1301/2006 of 31 August 2006 laying down common rules for the administration of import tariff quotas for agricultural products managed by a system of import licences (OJ L 238, 1.9.2006, p. 13).

⁽⁴⁾ Commission Regulation (EC) No 376/2008 of 23 April 2008 laying down common detailed rules for the application of the system of import and export licences and advance fixing certificates for agricultural products (OJ L 114, 26.4.2008, p. 3).

⁽⁵⁾ Commission Implementing Regulation (EU) No 282/2012 of 28 March 2012 laying down common detailed rules for the application of the system of securities for agricultural products (OJ L 92, 30.3.2012, p. 4).

COMMISSION IMPLEMENTING REGULATION (EU) No 415/2014**of 23 April 2014****amending and derogating from Regulation (EC) No 2535/2001 as regards the management of the tariff quotas for dairy products originating in Ukraine**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1308/2013 of the European Parliament and of the Council of 17 December 2013 establishing a common organisation of the markets in agricultural products and repealing Council Regulations (EEC) No 922/72, (EEC) No 234/79, (EC) No 1037/2001 and (EC) No 1234/2007 ⁽¹⁾, and in particular points (a) and (c) of Article 187 thereof,

Whereas:

- (1) Regulation (EU) No 374/2014 of the European Parliament and of the Council ⁽²⁾ provides for preferential arrangements for 2014 as regards the customs duties for the import of certain goods originating in Ukraine. In accordance with Article 3 of that Regulation the agricultural products listed in Annex III thereto are to be admitted for import into the Union within the limits of the tariff quotas as set out in that Annex. The quotas referred to in Annex III to Regulation (EU) No 374/2014 are to be administered by the Commission in accordance with Article 184(2)(b) of Regulation (EU) No 1308/2013.
- (2) Annex III to Regulation (EU) No 374/2014 includes tariff quotas for milk and milk products. It is necessary to include those quotas in Annex I to Commission Regulation (EC) No 2535/2001 ⁽³⁾ and to insert in Article 19 of that Regulation a reference to the relevant rule on the proof of origin which is required to import under those quotas.
- (3) Since the quotas referred to in Annex III to Regulation (EU) No 374/2014 are open only until 31 October 2014, the period of lodging import licence applications and the period of validity of import licences should be specified.
- (4) According to Article 10(1) of Commission Regulation (EC) No 2535/2001, importers approved in May 2013 can import under quotas only during the period from 1 July 2013 to 30 June 2014. As the quotas opened for Ukraine are exceptionally running over two consecutive six-months periods, approved importers could only import until 30 June 2014 whilst the concerned quotas are open until 31 October 2014. It is therefore appropriate to enable those importers to import under the quotas referred to in Annex III to Regulation (EU) No 374/2014 until 31 October 2014.
- (5) Commission Implementing Regulation (EU) No 1001/2013 ⁽⁴⁾, has replaced some CN codes in Annex I to Council Regulation (EEC) No 2658/87 ⁽⁵⁾ by new CN codes which now differ from those referred to in Regulation (EU) No 374/2014. The new CN codes should therefore be reflected in Annex I to Regulation (EC) No 2535/2001.
- (6) Regulation (EC) No 2535/2001 should therefore be amended accordingly.
- (7) Since the quotas referred to in Annex III to Regulation (EU) No 374/2014 are open only until 31 October 2014, this Regulation should enter into force as soon as possible.
- (8) The measures provided for in this Regulation are in accordance with the opinion of the Committee for the Common Organisation of the Agricultural Markets,

⁽¹⁾ OJ L 347, 20.12.2013, p. 671.

⁽²⁾ Regulation (EU) No 374/2014 of the European Parliament and of the Council of 16 April 2014 on the reduction or elimination of customs duties on goods originating in Ukraine (OJ L 118, 22.4.2014, p. 1).

⁽³⁾ Commission Regulation (EC) No 2535/2001 of 14 December 2001 laying down detailed rules for applying Council Regulation (EC) No 1255/1999 as regards the import arrangements for milk and milk products and opening tariff quotas (OJ L 341, 22.12.2001, p. 29).

⁽⁴⁾ Commission Implementing Regulation (EU) No 1001/2013 of 4 October 2013 amending Annex I to Council Regulation (EEC) No 2658/87 on the tariff and statistical nomenclature and on the Common Customs Tariff (OJ L 290, 31.10.2013, p. 1).

⁽⁵⁾ Council Regulation (EEC) No 2658/87 of 23 July 1987 on the tariff and statistical nomenclature and on the Common Customs Tariff (OJ L 256, 7.9.1987, p. 1).

COMMISSION IMPLEMENTING REGULATION (EU) No 416/2014**of 23 April 2014****opening and providing for the administration of import tariff quotas for certain cereals originating in Ukraine**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1308/2013 of the European Parliament and of the Council of 17 December 2013 establishing a common organisation of the markets in agricultural products and repealing Council Regulations (EEC) No 922/72, (EEC) No 234/79, (EC) No 1037/2001 and (EC) No 1234/2007 ⁽¹⁾, and in particular Article 187(a) and (c) thereof,

Whereas:

- (1) Regulation (EU) No 374/2014 of the European Parliament and of the Council ⁽²⁾ provides, inter alia, for the opening of import tariff quotas for certain cereals originating in Ukraine until 31 October 2014. - (2) To ensure that imports of cereals originating in Ukraine within these tariff quotas are orderly and not speculative, they should be made subject to the issue of import licences. Therefore Regulations (EC) No 1301/2006 ⁽³⁾, (EC) No 1342/2003 ⁽⁴⁾ and (EC) No 376/2008 ⁽⁵⁾ should apply, without prejudice to any derogations provided for by this Regulation.
- (3) To ensure the proper management of these quotas, deadlines for the submission of import licence applications should be laid down and the information to be included in applications and licences should be specified.
- (4) Commission Implementing Regulation (EU) No 1006/2011 ⁽⁶⁾ replaced the CN codes of the cereals referred to in Annex I to Council Regulation (EEC) No 2658/87 ⁽⁷⁾ by new codes that differ from the codes referred to in Regulation (EU) No 374/2014. Annex I to this Regulation should therefore refer to the new CN codes.
- (5) As the quotas referred to in Annex III to Regulation (EU) No 374/2014 are open only until 31 October 2014, this Regulation should enter into force as soon as possible.
- (6) The measures provided for in this Regulation are in accordance with the opinion of the Committee for the Common Organisation of Agricultural Markets,
