COUNCIL DECISION (EU) 2017/2429
of 5 December 2017
abrogating Decision 2008/713/EC on the existence of an excessive deficit in the United Kingdom

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 126(12) thereof,

Having regard to the recommendation from the European Commission,

Whereas:

(1) On 8 July 2008, following a recommendation from the Commission, the Council decided, by Decision 2008/713/EC (1) in accordance with Article 104(6) of the Treaty establishing the European Community (TEC), that an excessive deficit existed in the United Kingdom. The Council noted that, according to the EDP data notified by the United Kingdom authorities in March 2008, the United Kingdom's general government deficit in 2008-09 was expected to reach 3.2 % of GDP, thus exceeding the 3 %-of-GDP Treaty reference value. Furthermore, following the publication of the March 2008 budget, a policy announcement on 13 May 2008 reducing personal income tax in 2008-09 was expected to further increase the planned deficit in that financial year. Adding this measure to the Commission 2008 spring forecast implied a deficit of 3.5 % of GDP in 2008-09. The excessive deficit was also not considered temporary as the Commission forecast, on the basis of unchanged policies, estimated a deficit in 2009-10 of 3.3 % of GDP. The Council further noted that the general government debt ratio remained well below the 60 % reference value, although it was projected to be on a rising trend up to 2009-10.

(2) On the same date, in accordance with Article 104(7) TEC and Article 3(4) of Council Regulation (EC) No 1467/97 (2), the Council, based on a recommendation from the Commission, addressed a Recommendation to the United Kingdom with a view to bringing the excessive deficit situation to an end by financial year 2009-10 at the latest. The Council also set a deadline of 8 January 2009 for effective action to be taken.

(3) In accordance with Article 104(8) TEC, the Council decided, on 27 April 2009, by Decision 2009/409/EC (3), that the United Kingdom had not taken effective action in response to the Council Recommendation of 8 July 2008.

(4) Recognising that the United Kingdom's budgetary position in 2009-10 resulted from the implementation of measures amounting to around 1.5 % of GDP, which were an appropriate response to the European Economic Recovery Plan, and the free play of automatic stabilisers, on 2 December 2009 the Council issued a revised Recommendation under Article 126(7) of the Treaty on the Functioning of the European Union (TFEU), recommending that the United Kingdom put an end to the excessive deficit situation by 2014-15. Specifically, in order to bring the general government deficit below 3 % of GDP in a credible and sustainable manner, the United Kingdom was recommended to ensure an average annual fiscal effort of 1¼ % of GDP between 2010-11 and 2014-15. In its Recommendation of 2 December 2009, the Council established a deadline of 2 June 2010 for effective action to be taken in line with the Article 3(4) of Regulation (EC) No 1467/97.

(5) On 6 July 2010, the Commission concluded that, based on the Commission 2010 spring forecast, the United Kingdom had taken effective action in compliance with the Council Recommendation of 2 December 2009 under Article 126(7) TFEU.

On 19 June 2015, in accordance with Article 126(8) TFEU, the Council decided that the United Kingdom had not taken effective action in response to the Council Recommendation of 2 December 2009. The Council noted that the United Kingdom had experienced a large fall in real GDP growth as a result of the global economic and financial crisis in 2008 and 2009, which had also affected its public finances. The United Kingdom had subsequently implemented a consolidation plan and the general government deficit had fallen, as a percentage of GDP, each year between the 2009-10 and 2014-15 financial years. In contrast, the general government debt ratio had continued to increase over this period, driven mainly by the headline deficit, but also by financial sector interventions. The Council concluded that, despite a fiscal consolidation programme being set out and implemented, the United Kingdom had not put an end to its excessive deficit by 2014-15. Furthermore, the United Kingdom had not adhered to the average annual fiscal effort of 1 % of GDP that had been recommended by the Council on 2 December 2009.

On 19 June 2015, in accordance with Article 126(7) TFEU and Article 3(4) of Regulation (EC) No 1467/97, the Council, based on a recommendation from the Commission, addressed a Recommendation to the United Kingdom to correct the excessive deficit by financial year 2016-17. Specifically, the United Kingdom was recommended to reach a headline deficit of 4,1 % of GDP in 2015-16 and 2,7 % of GDP in 2016-17, which was projected to be consistent with delivering an improvement in the structural balance of 0,5 % of GDP in 2015-16 and 1,1 % of GDP in 2016-17, based on the updated Commission 2015 spring forecast.

On 16 November 2015, the Commission concluded that the United Kingdom had taken effective action towards correcting the excessive deficit by financial year 2016-17, as recommended by the Council on 19 June 2015.

In accordance with Article 4 of the Protocol (No 12) on the excessive deficit procedure annexed to the Treaty on European Union and to the TFEU, the Commission provides the data for the implementation of the procedure. As part of the application of that Protocol, Member States are to notify data on government deficits and debt and other associated variables twice a year, namely before 1 April and before 1 October, in accordance with Article 3 of Council Regulation (EC) No 479/2009.

The Council takes decisions to abrogate decisions on the existence of an excessive deficit on the basis of notified data. Moreover, a decision on the existence of an excessive deficit should be abrogated only if the Commission forecasts indicate that the deficit will not exceed the Treaty reference value of 3 % of GDP over the forecast horizon.

Based on data provided by the Commission (Eurostat) in accordance with Article 14 of Regulation (EC) No 479/2009, following the 2017 Convergence Programme, the September 2017 notification by the United Kingdom, and the Commission 2017 autumn forecast, the following conclusions are justified:

— The United Kingdom has met the recommended general government deficit targets in recent years. After peaking at 10 % of GDP in 2009-10, the nominal general government deficit has followed a steadily declining trend, falling to 4 % in 2015-16 and 2,3 % in 2016-17, in line with the Council Recommendation of 19 June 2015. Fiscal consolidation undertaken during the period has largely been expenditure based, with total current expenditure falling from 42,9 % of GDP in 2009-10 to 38 % of GDP in 2016-17. A rise in the government revenue ratio, from 37,4 % of GDP in 2009-10 to 38,6 % of GDP in 2016-17, has also contributed, albeit to a lesser extent.

— The 2016-17 Convergence Programme, submitted by the United Kingdom authorities on 27 April 2017 and covering the period 2016-17 to 2021-22, projected an increase in the general government deficit to 2,8 % of GDP in 2017-18 followed by a fall to 1,9 % of GDP in 2018-19. This forecast was based on a planned general government deficit of 2,7 % in 2016-17, as per the EDP data notified by the United Kingdom authorities in March 2017. Since the submission of the Convergence Programme, the Office for National Statistics (ONS) has revised downwards its estimate of the general government deficit in 2016-17 to 2,3 % of GDP. While the United Kingdom authorities did not subsequently publish an updated forecast for the general
government deficit, the Commission 2017 autumn forecast projects deficits of 2.5% in 2017-18, 1.8% in 2018-19, and 1.3% in 2019-20, based on a no-policy-change assumption. Thus, the deficit is set to remain below the Treaty reference value of 3% of GDP over the forecast horizon.

— According to its 2017 autumn forecast, the Commission estimates the structural balance, which is the general government balance adjusted for the economic cycle and net of one-off and other temporary measures, to have improved by 3.2% of GDP between 2008-09 and 2016-17.

— The United Kingdom’s general government gross debt ratio has increased significantly since the Council decided, on 8 July 2008, that an excessive deficit existed in the United Kingdom. The general government debt ratio increased from 41% of GDP in 2007-08 to 86.8% in 2016-17, reflecting higher nominal general government deficits as well as financial sector interventions during this period. According to the Commission 2017 autumn forecast, the debt-to-GDP ratio is expected to have peaked in 2016-17 and to decrease gradually to 82.9% of GDP in 2019-20.

(12) In accordance with Article 126(12) TFEU, a Council decision on the existence of an excessive deficit is to be abrogated when the excessive deficit in the Member State concerned has, in the view of the Council, been corrected.

(13) In the view of the Council, the excessive deficit in the United Kingdom has been corrected, and Decision 2008/713/EC should therefore be abrogated.

(14) As from 2017-18, which is the financial year following the correction of the excessive deficit, the United Kingdom is subject to the preventive arm of the Stability and Growth Pact and should progress towards the minimum medium-term budgetary objective at an appropriate pace, including respecting the expenditure benchmark, and comply with the debt criterion in accordance with Article 2(1a) of Regulation (EC) No 1467/97.

HAS ADOPTED THIS DECISION:

Article 1

From an overall assessment, it follows that the excessive deficit situation in the United Kingdom has been corrected.

Article 2

Decision 2008/713/EC is hereby abrogated.

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 207 in conjunction with Article 218(9) thereof,

Having regard to the proposal from the European Commission,

Whereas:

(1) The Association Agreement between the European Union and the European Atomic Energy Community and their Member States, of the one part, and Georgia, of the other part (1) (the Agreement), was concluded by the Union by Council Decision (EU) 2016/838 (2) and entered into force on 1 July 2016.

(2) Pursuant to Article 38 of Protocol I to the Agreement (Protocol I), the EU-Georgia Customs Sub-Committee established by Article 74(1) of the Agreement (Customs Sub-Committee) may adopt amendments to the provisions of that Protocol.

2. The Secretariat shall ensure that correspondence addressed to the Joint Committee is forwarded to the Chair and circulated, where appropriate, in accordance with Article 7.

3. Correspondence from the Chair shall be sent to the Parties by the Secretariat on behalf of the Chair. Such correspondence shall be circulated, where appropriate, in accordance with Article 7.

Article 7

Documents

1. Documents shall be circulated through the Secretaries.

2. A Party shall transmit its documents to its Secretary. The Secretary shall transmit those documents to the Secretary of the other Party without undue delay.

3. Each Secretary shall circulate the documents to the responsible representatives of his or her Party, systematically including the Secretary of the other Party in copy.

Article 8

Confidentiality

Unless otherwise decided by the Parties, the meetings of the Joint Committee shall not be public. When a Party submits to the Joint Committee information designated as confidential, the other Party shall treat that information as such.

Article 9

Agendas for the meetings

1. A provisional agenda for each meeting as well as draft operational conclusions as provided for in Article 10 shall be drawn up by the Secretariat on the basis of proposals made by the Parties. The provisional agenda shall include items in respect of which the Secretariat has received a request for inclusion in the agenda by a Party, supported by relevant documents, not later than 21 calendar days before the meeting.

2. The provisional agenda, together with the relevant documents, shall be circulated in accordance with Article 7, not later than 15 calendar days before the meeting date.

3. The agenda shall be adopted by the Joint Committee at the beginning of each meeting. Items other than those appearing on the provisional agenda may be placed on the agenda if the Parties so agree.

4. The Chair of the meeting of the Joint Committee may, on an ad hoc basis and subject to the agreement of the other Party, invite independent experts in a subject-area to attend its meetings in order to provide information on specific subjects. The Parties shall ensure that those observers or experts respect any confidentiality requirements.

5. The Chair of the meeting of the Joint Committee may reduce, in consultation with the Parties, the time limits specified in paragraphs 1 and 2 in order to take account of special circumstances.

Article 10

Minutes and operational conclusions

1. Draft minutes of each meeting shall be drawn up jointly by the two Secretaries.

2. The minutes shall, as a general rule, indicate in respect of each item on the agenda:

(a) a list of participants, a list of accompanying officials and a list of any observers or experts who attended the meeting;

(b) the documentation submitted to the Joint Committee;
(c) statements which the Joint Committee has asked to be entered in the minutes; and

(d) operational conclusions from the meeting.

3. The draft minutes shall be submitted to the Joint Committee for approval. The Joint Committee shall approve the minutes at its next meeting or, alternatively, in writing.

4. Draft operational conclusions of each meeting shall be drawn up by the Secretary of the Party holding the Chairmanship, and circulated to the Parties together with the agenda, normally not later than 15 calendar days before the meeting. That draft shall be updated as the meeting proceeds so that at the end of the meeting, unless agreed otherwise by the Parties, the Joint Committee adopts the operational conclusions, reflecting follow-up action to be taken by the Parties. Once agreed, the operational conclusions shall be attached to the minutes and their implementation shall be reviewed in any subsequent meeting of the Joint Committee. To that end, the Joint Committee shall adopt a template, allowing for each action point to be tracked against a specific deadline.

Article 11

Decisions and recommendations

1. In the specific cases where the Agreement confers the power to take decisions or where such power has been delegated to it by the Joint Council, the Joint Committee shall take decisions. It shall also make recommendations to the Joint Council. Decisions and recommendations shall be made by mutual agreement between the Parties and on completion of the respective internal procedures. Each decision or recommendation shall be signed by the Chair.

2. The Joint Committee may take decisions or make recommendations by written procedure if the Parties so agree. The written procedure shall consist of an exchange of notes between the two Secretaries, acting in agreement with the Parties. For this purpose, the text of the proposal shall be circulated in accordance with Article 7, with a time limit of no less than 21 calendar days, within which any comments or objections shall be made known. The Chair of the Joint Committee may, in consultation with the Parties, reduce that time limit, in order to take account of special circumstances. Once the text is agreed, the decision or recommendation shall be signed by the Chair.

3. The acts of the Joint Committee shall be entitled ‘Decision’ or ‘Recommendation’, as appropriate, followed by a serial number, the year of their adoption and a description of their subject-matter. Each decision shall enter into force on the date of its adoption unless it provides otherwise.

4. The decisions and recommendations shall be circulated to the Parties.

5. Each Party may decide on the publication of the decisions and recommendations of the Joint Committee in its respective official publication.

Article 12

Reports

The Joint Committee shall report to the Joint Council on its activities and those of its subcommittees at each regular meeting of the Joint Council.

Article 13

1. Each Party shall meet any expenses it incurs as a result of participating in the meetings of the Joint Committee, with regard to both staff, travel and subsistence expenditure and postal and telecommunications expenditure.
2. Expenditure in connection with the organisation of meetings, the reproduction of documents and interpreting at meetings and translation of documents into or from English and Spanish shall be borne by the Party hosting the meeting. Interpreting and translation into or from other languages shall be borne directly by the requesting Party.

Article 15

Amendment of Rules of Procedure

These Rules of Procedure may be amended by a decision of the Joint Council in accordance with Article 11 of the Rules of Procedure of the Joint Council.

Unless decided otherwise, those subcommittees shall work under the authority of the Joint Committee, to which they shall report after each of their meetings.

2. Unless provided otherwise by the Agreement or agreed in the Joint Council, these Rules of Procedure shall be applied mutatis mutandis to any subcommittee established by the Agreement or under paragraph 1.

3. The meetings of the subcommittees may be held as and when the need arises in person, either in Brussels or in Cuba, or, for example, by videoconference. The subcommittees shall be the platform for monitoring progress on approximation in specific areas, discussing certain issues and challenges arising from that process and formulating recommendations and operational conclusions.

4. The Secretariat of the Joint Committee shall be in copy for all relevant correspondence, documents and communications pertaining to the work of a subcommittee.

5. Unless agreed otherwise by the Parties within the Joint Council, the subcommittees shall only have the power to make recommendations to the Joint Committee.

COMMISSION IMPLEMENTING DECISION (EU) 2017/2440

of 18 December 2017

amending Implementing Decision 2014/190/EU as regards the annual breakdown of the resources from the specific allocation for the Youth Employment Initiative by Member State together with the list of eligible regions

(notified under document C(2017) 8300)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1303/2013 of the European Parliament and of the Council of 17 December 2013 laying down common provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund, the European Agricultural Fund for Rural Development and the European Maritime and Fisheries Fund and laying down general provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund and the European Maritime and Fisheries Fund and repealing Council Regulation (EC) No 1083/2006 (*) and in particular Article 91(2) thereof,

Whereas:

(1) Commission Implementing Decision 2014/190/EU (**) sets out, among others, the annual breakdown by Member State of resources from the specific allocation for the Youth Employment Initiative (YEI), together with the list of eligible regions for the YEI pursuant to Article 91(2) of Regulation (EU) No 1303/2013.

(2) By Regulation (EU) 2017/2305 of the European Parliament and of the Council (***) amending Regulation (EU) No 1303/2013, the specific allocation for the YEI has been increased.

(3) The regions eligible for the YEI for the period 2017-2020 are determined in accordance with Article 16 of Regulation (EU) No 1304/2013 of the European Parliament and of the Council (****) by making reference, however, to the latest available annual data on youth unemployment. Pursuant to Article 65(2) of Regulation (EU) No 1303/2013, expenditure under the YEI is eligible until 31 December 2023, both for the regions already listed in Annex IV to Implementing Decision 2014/190/EU and for the regions eligible for the YEI for the period 2017-2020. The existing list should therefore continue to apply. For reasons of clarity and transparency, Annex IV to Implementing Decision 2014/190/EU should therefore include both lists and be amended accordingly.

(4) In accordance with Annex VIII to Regulation (EU) No 1303/2013 the breakdown by Member State of the additional resources should follow the same steps applied for the initial allocation. The annual breakdown of the specific allocation for the YEI set out in 2011 prices in Annex III to Implementing Decision 2014/190/EU should therefore be amended accordingly.

(5) In order to allow Member States to plan ahead, the annual breakdown should also be provided in current prices to reflect the indexation of 2 % per year in accordance with Article 91(1) of Regulation (EU) No 1303/2013. Annex X to Implementing Decision 2014/190/EU should therefore be amended accordingly.

(6) Implementing Decision 2014/190/EU should therefore be amended.

(**) Commission Implementing Decision 2014/190/EU of 3 April 2014 setting out the annual breakdown by Member State of global resources for the European Regional Development Fund, the European Social Fund and the Cohesion Fund under the Investment for growth and jobs goal and the European territorial cooperation goal, the annual breakdown by Member State of resources from the specific allocation for the Youth Employment Initiative together with the list of eligible regions, and the amounts to be transferred from each Member State’s Cohesion Fund and Structural Funds allocations to the Connecting Europe Facility and to aid the most deprived for the period 2014-2020 (OJ L 104, 8.4.2014, p. 13).
HAS ADOPTED THIS DECISION:

Article 1

Implementing Decision 2014/190/EU is amended as follows:

(1) Annexes III and IV are replaced by the text set out in Annex I to this Decision;

(2) Annex X is replaced by the text set out in Annex II to this Decision.

Article 2

This Decision is addressed to the Member States.

COMMISSION IMPLEMENTING DECISION (EU) 2017/2441
of 21 December 2017
on the equivalence of the legal and supervisory framework applicable to stock exchanges in Switzerland in accordance with Directive 2014/65/EU of the European Parliament and of the Council

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the functioning of the European Union,

Whereas:

(1) Article 23(1) of Regulation (EU) No 600/2014 of the European Parliament and of the Council (2) requires investment firms to ensure that the trades they undertake in shares admitted to trading on regulated markets, or traded on trading venues should take place on regulated markets, multilateral trading facilities (MTFs) or systematic internalisers, or third-country trading venues assessed by the Commission as equivalent in accordance with Article 25(4)(a) of Directive 2014/65/EU.

(2) Article 23(1) of Regulation (EU) No 600/2014 only applies a trading obligation in respect of shares. The trading obligation does not comprise other equity instruments, such as depositary receipts, ETFs, certificates and other similar financial instruments.

(3) The equivalence procedure for trading venues established in third countries set out in Article 25(4)(a) of Directive 2014/65/EU aims to allow investment firms to undertake trades in shares that are subject to the trading obligation in the Union, on third-country trading venues recognised as equivalent. The Commission should assess whether the legal and supervisory framework of a third country ensures that a trading venue authorised in that third country complies with legally binding requirements which are equivalent to the requirements resulting from Regulation (EU) No 596/2014 of the European Parliament and of the Council (3), from Title III of Directive 2014/65/EU, from Title II of Regulation (EU) No 600/2014 and from Directive 2004/109/EC of the European Parliament and of the Council (4), and which are subject to effective supervision and enforcement in that third country. This should be read in the light of the objectives pursued by that act, in particular its contribution to the establishment and functioning of the internal market, market integrity, investor protection and ultimately, but no less importantly, financial stability.

(4) In accordance with the fourth subparagraph Article 25(4)(a) of Directive 2014/65/EU, a third-country legal and supervisory framework may be considered equivalent where that framework fulfils at least the conditions that (a) the markets are subject to authorisation and to effective supervision and enforcement on an ongoing basis, (b) have clear and transparent rules regarding the admission of securities to trading so that such securities are capable of being traded in a fair, orderly and efficient manner, and are freely negotiable, (c) security issuers should be subject to periodic and ongoing information requirements ensuring a high level of investor protection, and (d) market transparency and integrity should be ensured by the prevention of market abuse in the form of insider dealing and market manipulation.

The purpose of this equivalence assessment is to assess inter alia whether the legally binding requirements which are applicable in Switzerland to stock exchanges established and authorised therein under the supervision of the Swiss Financial Market Supervisory Authority (FINMA) are equivalent to the requirements resulting from Regulation (EU) No 596/2014, from Title III of Directive 2014/65/EU, from Title II of Regulation (EU) No 600/2014 and from Directive 2004/109/EC, which are subject to effective supervision and enforcement in that third country.

As regards the conditions that the stock exchanges are subject to authorisation and to effective supervision and enforcement on an ongoing basis, Article 26(b) of the Federal Act on Financial Market Infrastructures and Market Conduct in Securities and Derivatives Trading (Financial Market Infrastructure Act, ‘FMIA’) defines a stock exchange as an institution for multilateral securities trading where securities are listed, whose purpose is the simultaneous exchange of bids between multiple participants and the conclusion of contracts based on non-discretionary rules. A stock exchange does not enjoy discretion over how it executes trades and is not allowed to trade on its own account or engage in matched principal trading. Furthermore, a stock exchange must provide participants with impartial and non-discriminatory access to its markets and services. To this effect, a stock exchange is required to have rules in place that prescribe the means by which a securities dealer or other parties supervised by FINMA as well as foreign participants authorised by FINMA may apply to become a participant. Pursuant to Article 27(4) FMIA in conjunction with Article 25(1) of the Ordinance on Financial Market Infrastructures and Market Conduct in Securities and Derivatives Trading (Financial Market Infrastructure Ordinance’, ‘FMIO’), FINMA reviews and approves regulations and their amendments on the admission, duties and exclusion of participants to a stock exchange. A stock exchange must deny membership to a participant that is not authorised by FINMA and may deny membership to any participant that is subject to a statutory disqualification.

The four conditions set out in the fourth subparagraph of Article 25(4)(a) of Directive 2014/65/EU must be fulfilled in order to determine that the legal and supervisory arrangements of a third country regarding the trading venues authorised therein are equivalent to those laid down in Directive 2014/65/EU.

According to the first condition, third-country trading venues must be subject to authorisation and to effective supervision and enforcement on an ongoing basis.

A stock exchange must be authorised by FINMA before it may begin operations. Pursuant to Articles 4 and 5 of the FMIA, FINMA grants authorisation if it finds that the applicable conditions and requirements with respect to the applicant are satisfied. The authorisation requirements are set out in the FMIA and the associated ordinances, which have force of law. The FMIA requires that a stock exchange has in place arrangements to address all of the types of conduct and activity that an applicant wishes to engage in. According to Article 27(1) of the FMIA, a stock exchange shall establish under FINMA’s supervision its own regulatory and supervisory organisation which is appropriate for its activity. With FINMA’s approval, the stock exchange’s self-regulation becomes binding and enforceable regulation. According to Article 27 of the FMIA in conjunction with Article 24(1) of the FMIO an appropriate regulatory and supervisory organisation requires the establishment of a body that fulfils regulatory tasks, a trading supervisory body, a body responsible for the admission of securities to trading and an appeal body. These bodies must be independent of the stock exchange’s business management, both organisationally and with respect to personnel. As part of the self-regulatory and supervisory organisation the respectively responsible body monitors and enforces compliance of the stock exchange’s rules and regulations by the stock exchange’s participants.

Furthermore, Article 18 of the FMIA requires stock exchanges to grant participants and market makers non-discriminatory and open access. FINMA ensures both during the authorisation process and on an ongoing basis that exchange rules comply with this requirement (see sections 3 to 5 of the SSX Rule Book in conjunction with the SSX Directive 1 and sections 3-5 of the BX Swiss Rule Book). Denial of access is only permissible on safety and efficiency grounds and subject to a stringent proportionality test (Art. 18 of the FMIA, 17 of the FMIO). Applicants who have been denied access may lodge an appeal with an independent appeal board (section 8 of the SSX Rule Book and section 15 of the BX Swiss Rule Book). Compliance of exchanges with Article 18 of the FMIA and Article 17 of the FMIO is subject to FINMA’s supervision. The adoption of rules and amendments thereto require FINMA’s ex ante approval, their implementation may be scrutinised by FINMA staff, audits, requests for information, or remedial action pursuant to Articles 24 ff. of the Federal Act on the Swiss Financial Market Supervisory Authority (‘Financial Market Supervision Act’, ‘FINMASA’).

As regards effective supervision, the FINMASA, the Federal Act on Stock Exchanges and Securities Trading (Stock Exchange Act, ‘SESTA’) and the FMIA constitute the main pieces of the primary legislation which establishes...
Once a stock exchange has been authorised, FINMA monitors on an ongoing basis whether it continues to comply with the conditions and duties associated with the authorisation (Article 83 of the FMIA). A stock exchange is legally required to notify FINMA of any changes to the circumstances on which its authorisation or approval was originally based. If the changes are material, the financial market infrastructure must obtain prior authorisation or approval from FINMA to pursue its activities (Article 7 of the FMIA). Key requirements are the compliance with organisational requirements; the existence and effectiveness of the internal control system; the appropriateness of IT systems; and proper business conduct. FINMA’s supervision extends to all bodies of the stock exchange including its trading surveillance and sanctioning functions. Pursuant to Article 24, 24a of the FINMASA, FINMA may carry out audits directly, or indirectly through licensed audit companies, both on-site and off-site. Articles 27, 30 and 34 of the FMIA also require all authorised stock exchanges to be able to enforce compliance by their issuers, participants and persons associated with their participants with the provisions of the FMIA and FMIO, associated acts and regulations, and their own rules and regulations. As part of its duty to enforce compliance by its members, the stock exchange is responsible for investigating and disciplining any breaches of the applicable laws and rules.

As regards the effective enforcement, FINMA has a range of administrative mechanisms for enforcing its powers and authority. Where breaches of the law or irregularities are identified, FINMA takes the necessary corrective measures, which may involve administrative enforcement proceedings. With due regard to the principle of proportionality, FINMA imposes the measures it deems most appropriate to ensure compliance with the law. The measures available include reprimands, specific instructions to restore compliance with the law, prohibitions on individuals practising their profession, prohibitions on dealers conducting business, and the revocation of licenses. FINMA may also confiscate illegally generated profits or illegally avoided losses and may order publication of a final and binding ruling. To restore compliance of a stock exchange with applicable provisions, FINMA may use its administrative powers also for the removal of board members or staff whose irreplaceable business conducts is in doubt. FINMA’s own administrative mechanisms are backed up by provisions for criminal sanctions in relation to the offences described in Chapter 4 of FINMASA. Provisions for criminal sanctions are also included in Articles 147 ff. of the FMIA and Articles 42a and 43 of the SESTA. FINMA hands these cases on to the competent prosecution authorities. FINMA and the competent prosecuting authority coordinate their investigations, as far as this is practicable and necessary. In general, the Federal Department of Finance Legal Services both prosecutes and judges violations of the criminal provisions of FINMASA and of the financial markets acts. However, the Federal Attorney General’s Office is competent for the prosecution of insider trading and price manipulation offences under FMIA.

It can therefore be concluded that Swiss stock exchanges are subject to authorisation and to effective supervision and enforcement on an ongoing basis.

According to the second condition, third-country trading venues must have clear and transparent rules regarding admission of securities to trading so that such securities are capable of being traded in a fair, orderly and efficient manner, and are freely negotiable.

Swiss law requires that stock exchanges issue regulations on the admission of securities to trading (Articles 35 and 36 of the FMIA). These regulations have to be approved by FINMA. The regulations shall take account of recognised international standards and in particular shall contain provisions on the tradability of securities; the publication of information on which investors rely for assessing the characteristics of securities and the quality of
the issuer; the duties of the issuer, its representatives and third parties for the entire duration of the listing or admission of securities to trading; the obligation, regarding the admission of equity securities, to comply with Articles 7 and 81 of the Federal Act of 16 December 2003 on the Licensing and Oversight of Auditors. The admission to trading of securities and the listing, a qualified form of an admission to trading, of securities on stock exchanges are governed primarily by Listing Rules and Additional Rules for Listing and Admission to Trading. The stock exchange reviews the application filed by the issuer for each security and verifies that all pertinent requirements are fulfilled. For each application, the stock exchange releases a written decision. The information on an admission decision is publicly available. With the listing of a security, the issuer is subject to maintenance obligations concerning periodic reporting obligations as, for example, financial reporting and corporate governance obligations, but also occurrence-based reporting obligations such as regular reporting obligations, disclosure of management transactions and ad hoc publicity. According to Article 35(3) of the FMIA, the stock exchange monitors the issuer's compliance with these rules and imposes the sanctions provided for contractually in the event of violations. According to Article 33(1) of the FMIO, a stock exchange shall guarantee that all securities admitted to trading and all listed securities can be traded in a fair, efficient and orderly manner. With regard to equity securities, the Listing Rules provide for free float requirements to ensure that such securities can be traded efficiently. The independent bodies of the stock exchange may temporarily suspend the trading of securities if unusual circumstances, and specifically the breach of important disclosure obligations by the issuer, indicate that such a suspension is advisable. They may cancel the listing of securities, if the solvency of the issuer is in serious doubt, or insolvency or liquidation proceedings have already commenced. FINMA may also compel a stock exchange to suspend trading in a given security by using its powers under Article 31 of the FINMASA with a view to restoring compliance with the provisions of the FMIA or responding to other irregularities.

(17) The Swiss regulatory framework includes requirements for providing pre-trade information to market participants. Pre-trade transparency has its legal basis in Article 29(1) of the FMIA which stipulates that the stock exchange shall publish the five best bid and offer prices for each share and other security in real time, as well as the sizes of the trading positions at these prices. The same also applies for actionable indications of interest (Article 27(3) of the FMIO). Waivers are available for reference price systems, systems that exist only to formalise transactions already negotiated, orders held in an order management facility of the stock exchange pending disclosure and orders that are large in scale compared with normal market size. The Swiss regulatory framework also includes requirements for providing post-trade information. Post-trade transparency has its basis in Article 29(2) of the FMIA that stipulates that the stock exchange shall immediately publish information on the transactions carried out on- and off-exchange for all securities admitted to trading. In particular, the price, volume and time of the transactions must be published. The exemptions from post-trade transparency are the same as for pre-trade transparency. Information on certain atypical transactions will also be published with delay. The stock exchange pre- and post-trade data services are fully transparent and offered to all exchange participants on a non-discriminatory basis. Delayed data is available to all users free of charge.

(18) It can therefore be concluded that Swiss stock exchanges have clear and transparent rules regarding the admission of securities to trading so that such securities are capable of being traded in a fair, orderly and efficient manner and are freely negotiable.

(19) According to the third condition, security issuers must be subject to periodic and ongoing information requirements ensuring a high level of investor protection.

(20) The stock exchange's regulations on the admission to trading must set out the information to be published to allow investors to assess the characteristics of the securities and the quality of the issuer to ensure a high level of investor protection. Issuers whose securities are admitted to trading on a Swiss stock exchange are required to publish annual and interim financial reports. The issuer must make its annual financial statements available on its website. Securities admitted to trading on a Swiss stock exchange may also be traded on another venue. The reporting obligation applicable to issuers applies regardless of the venue on which trading takes place. The disclosure of comprehensive and timely information about security issuers allows investors to assess the business performance of issuers and ensures appropriate transparency for investors through a regular flow of information.

(21) It can therefore be concluded that issuers whose securities are admitted on Swiss stock exchanges are subject to periodic and ongoing information requirements ensuring a high level of investor protection.
According to the fourth condition, the third-country legal and supervisory framework must ensure market transparency and integrity by preventing market abuse in the form of insider dealing and market manipulation.

Articles 142 and 143 of the FMIA prohibit insider trading and market manipulation by any person. In addition, under the conditions of Articles 154 and 155 of the FMIA, the exploitation or the attempted exploitation of insider information and price manipulation constitute criminal offences. The stock exchange must issue regulations regarding the disclosure of inside information by issuers. Under the Listing Rules of a stock exchange, the issuer must inform the market of any price-sensitive facts which have arisen, or are about to arise, in its sphere of activity, as soon as it becomes aware of such information. Price-sensitive facts are facts which are capable of triggering a significant change in market prices. Disclosure must be made so as to ensure the equal treatment of all market participants. Further, under Article 31(1) of the FMIA, Swiss stock exchanges are required to monitor price formation and the transactions executed on the stock exchange with a view to detecting insider trading, price and market manipulation and other breaches of statutory and regulatory provisions. To this end, a stock exchange must also review transactions which are conducted outside of the trading venue and which are reported to it or brought to its attention in some other way (Article 31(1) of the FMIA). This supervisory task must be carried out by an independent body of the stock exchange. Issuers must be able to provide FINMA upon request with an insider list based on their duty to provide information, including all additional information and documents that FINMA requires to carry out its tasks (Article 29(1) of the FINMASA in conjunction with Article 145 of the FMIA). A stock exchange must notify FINMA of any suspected breaches of the law or other irregularities. If the breaches in question involve criminal offences, it must also inform the competent prosecuting authority without delay (Article 31(2) of the FMIA). FINMA investigates on information about violations of the law received from stock exchanges, as well as based on its own market monitoring with the aim of enforcing the provisions of supervisory law that prohibit market abuse.

It can therefore be concluded that the Swiss legal and supervisory framework ensures market transparency and integrity by preventing market abuse in the form of insider dealing and market manipulation.

It can therefore further be concluded that the legal and supervisory framework governing stock exchanges as set out in the Annex to this Decision and operated in Switzerland under the supervision of FINMA complies with the four conditions for legal and supervisory arrangements and hence should be considered to provide for an equivalent system to the requirements for trading venues laid down in Directive 2014/65/EU, Regulation (EU) No 600/2014, Regulation (EU) No 596/2014 and Directive 2004/109/EC.

Given that a significant number of shares that are issued and admitted to trading in Switzerland are also traded on trading venues in the EU, it is appropriate to ensure that all investment firms subject to the trading obligation as set out in Article 23(1) of Regulation (EU) No 600/2014 preserve the ability to undertake trades in shares admitted to trading on the Swiss exchanges where their primary liquidity resides. As the primary liquidity of shares admitted to trading on the Swiss exchanges resides in these exchanges, the recognition of the legal and supervisory framework of Switzerland would allow investment firms to trade shares admitted to trading in Switzerland on Swiss exchanges and to fulfil their best execution obligation towards their clients.

The decision is based on data that demonstrates that overall EU trading in a multitude of shares admitted on the Swiss exchanges is of such frequency that MiFID firms could not avail themselves of the exception set out in Article 23(1) (a) of Regulation (EU) No 600/2014. This implies that the trading obligation set out in Article 23(1) of Regulation (EU) No 600/2014 would apply to a significant number of shares admitted to trading in Switzerland.

The decision will also be complemented by cooperation arrangements to ensure the effective exchange of information and coordination of supervisory activities between the national competent authorities and FINMA.

This Decision is based on the legally binding requirements applicable to Swiss stock exchanges at the time of the adoption of this Decision. The Commission should continue monitoring on a regular basis the evolution of the legal and supervisory arrangements for Swiss stock exchanges and the fulfilment of the conditions on the basis of which this Decision has been taken.
This Decision also takes into account the Council conclusions of 28 February 2017 in accordance with which a precondition for further developing the sectoral approach with Switzerland is the establishment of a common institutional framework for existing and future agreements through which Switzerland participates in the Single Market of the Union. To ensure the integrity of financial markets in the Union, this Decision should expire on 31 December 2018, unless extended by the Commission before that date. When deciding on whether to extend the applicability of this decision, the Commission should in particular consider progress made towards the signature of an Agreement establishing that common institutional framework.

The Commission should conduct regular reviews of the legal and supervisory arrangements applicable to stock exchanges in Switzerland. Those reviews are without prejudice to the possibility of the Commission to undertake a specific review at any earlier time, where relevant developments make it necessary for the Commission to re-assess the equivalence granted by this Decision and, in particular, the progress made towards the establishment of a common institutional framework for existing and future agreements through which Switzerland participates in the Single Market of the Union. Any re-assessment could lead to the repeal of this Decision.

The measures provided for in this Decision are in accordance with the opinion of the European Securities Committee.

Considering that Regulation (EU) No 600/2014 and Directive 2014/65/EU apply from 3 January 2018, it is necessary that this decision enters into force on the day following the day of publication in the Official Journal of the European Union.

HAS ADOPTED THIS DECISION:

Article 1

For the purposes of Article 23(1) of Regulation (EU) No 600/2014 the legal and supervisory framework applicable to stock exchanges in Switzerland set out in the Annex to this Decision shall be considered to be equivalent to the requirements resulting from Directive 2014/65/EU, Regulation (EU) No 600/2014, Regulation (EU) No 596/2014 and Directive 2004/109/EC and to be subject to effective supervision and enforcement.

Article 2

This Decision shall enter into force on the day following that of its publication in the Official Journal of the European Union.

It shall expire on 31 December 2018.

Association Agenda between the European Union and Georgia 2017-2020

On 27 June 2014 the European Union, its Member States and Georgia (‘the Parties’) signed an ambitious and innovative Association Agreement (AA), including a Deep and Comprehensive Free Trade Area (DCFTA). The agreement contains binding, rule-based provisions and provides for an enhanced cooperation, going further than in traditional agreements and covering all areas of interest. Following completion of the ratification process the full application of the Association Agreement started on 1 July 2016.

On 26 June 2014, the EU and Georgia agreed an Association Agenda, to prepare and facilitate implementation of the Association Agreement. The Agenda provides a framework for identification of priorities for joint work in the period 2014-16 to achieve the objectives of political association and economic integration set by the Association Agreement. The present document updates and refocuses the 2014-2016 Association Agenda and sets new priorities for joint work for the period 2017-2020. It distinguishes between short-term priorities (which should be achieved or on which significant progress should be made by end 2018) and medium-term priorities (which should be achieved or on which significant progress should be made by end 2020).

The fact that the Association Agenda focuses upon a limited number of priorities is without prejudice to the scope or the mandate of existing dialogue under other relevant Agreements or under the multilateral track of the Eastern Partnership. It also does not prejudice implementation of commitments made in the AA/DCFTA since its entry into force on 1 July 2016.

Furthermore, visa-free travel to the Schengen countries (¹) for Georgian citizens holding a biometric passport entered into force on 28 March 2017, aimed at a substantial enhancement of mobility and people-to-people contacts between the two sides, in a secure and well managed environment, is a fundamental element underpinning the political association and economic integration of Georgia with the European Union as foreseen in the Association Agreement. The EU acknowledges Georgia’s achievement in fulfilling all the required benchmarks of the Visa Liberalisation Action Plan, which led to the adoption by the Commission of a fourth and last progress report on 18 December 2015. This updated Association Agenda also aims at keeping track of and further encouraging sustained results in all VLAP-related areas, thus ensuring continuous fulfilment of all benchmarks of the VLAP as required by the revised visa waiver suspension mechanism.

1. Principles, instruments and resources for implementing the Association Agenda

The following common principles will guide the implementation of the Association Agenda:

— Actions undertaken through the Association Agenda should be implemented in full compliance with the AA/DCFTA, including its preamble;
— The priorities of the Association Agenda complement the responsibilities of the EU and Georgia to implement in full the provisions of the EU-Georgia Association Agreement now that it has fully entered into force;
— The Association Agenda should be implemented in full respect of the principles of transparency, accountability and inclusiveness;
— The Association Agenda involves an engagement from both sides in its implementation;
— The Association Agenda aims to achieve tangible and defined results through the progressive implementation of practical measures;
— The Parties recognise the importance of supporting the agreed priorities through appropriate and sufficient political, technical and financial means; and
— The implementation of the Association Agenda will be subject to annual reporting, monitoring and assessment. Progress made will be reviewed including in the context of the institutional structures set forth by the Association Agreement. Civil society will also be encouraged to focus their monitoring activities on the Association Agenda;

(¹) The EU Member States covered by the visa waiver are:
— the EU Member States which are part of the Schengen area: Austria, Belgium, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Poland, Portugal, Slovakia, Slovenia, Spain and Sweden.
— the EU Member States who not yet fully apply the Schengen acquis (those who are not yet part of the Schengen area without internal borders): Bulgaria, Croatia, Cyprus and Romania.
— The European Union will support Georgia in implementing the objectives and priorities set out in the Association Agenda. It will do so through using all available sources of EU support, as well as expertise and advice, best practices and know-how, the sharing of information, support to capacity-building, institutional strengthening and developing new assistance instruments. It emphasizes that the EU assistance is bound to jointly agreed conditionalities related to the progress on reform. It will also encourage and seek coordination of support from other partners of Georgia. The relevant EU financial instruments will also be available to help in the implementation of the Association Agenda. Notwithstanding this, the latter is not in itself a financial programming document and does not substitute for the programming or formulation exercises undertaken by the Parties.

EU support will be provided in the context of the overall priorities for assistance in favour of Georgia, as outlined in the ENI Single Support Framework (SSF) and in the multi-country programming under the European Neighbourhood Instrument (ENI) as part of the overall funding available for Georgia and in full respect of the relevant implementation rules and procedures of EU external assistance, aiming at the same time to take into account the priorities under the Association Agenda.

The present Association Agenda will be applicable from the moment of its adoption until the end of 2020, for an initial period which may be extended by mutual agreement. It may be amended or updated at any time as necessary by agreement of the EU-Georgia Association Council.

2. Priorities of the Association Agenda

2.1 Key Priorities for Actions

The EU and Georgia consider the implementation of the Association Agreement and the Association Agenda as a key priority to consolidate and promote shared values and principles, as declared by the EU and Georgia.

Since the signature of the Association Agreement, Georgia, has taken substantial steps and carried out substantial reforms towards its effective implementation. The EU acknowledges the progress made by Georgia towards deeper political association and economic integration with the EU.

The EU reiterates its firm support for the sovereignty and territorial integrity of Georgia within its internationally recognised borders, including its policy of non-recognition and engagement in Georgia, as well as its firm commitment to peace, stability and conflict resolution in Georgia. Furthermore, recognising Georgia as an example of state and societal resilience and its leading role as a prosperous, peaceful and stable democracy in the region, the EU is ready to intensify cooperation with Georgia on security matters with the aim to implement its strategic priorities in the neighbourhood, as highlighted in the EU Global Strategy.

In this context, the following reform actions should be addressed as a matter of priority:

In the field of strengthening institutions and good governance

1/ Independence of the judiciary and law enforcement agencies

Continue reforming the justice sector, in particular to ensure the full independence of judges and strengthen the accountability, efficiency, impartiality, integrity and professionalism of the justice system, by implementing key judicial reforms addressing inter alia the High Council of Justice, the Prosecutor Office, transparent and merit-based recruitment, judicial accountability, training of judges, the institutional structure of courts, an effective electronic case management system, legal aid and services, commercial justice and alternative dispute resolution mechanisms. Continue to increase accountability and democratic oversight of law enforcement agencies free from any undue interference. Continue reforming the criminal code of Georgia with the objective of liberalization and modernization of the law and ensuring its full compliance with relevant international standards.

2/ Public Administration Reform and Improvement in Public Services and anti-corruption

Pursue public administration reform in line with the Principles of Public Administration and the newly adopted Law on Civil Service with emphasis on implementation monitoring and fostering an accountable, efficient, effective, transparent public administration system of selection, promotion and dismissal and on building a merit-based and professional civil service, specialised needs-based training for civil servants working in all public administration sectors, agencies as well as in state owned enterprises, on delivering quality public services and on improving management of public finances. Ensure effective implementation of the Anti-corruption National Strategy and Action plan to prevent, detect and address corruption, in particular complex corruption as well as implement the verification of the asset and income declarations of all relevant officials.
