

COMMISSION IMPLEMENTING REGULATION (EU) 2016/872**of 1 June 2016****concerning the non-renewal of approval of the active substance isoproturon, in accordance with Regulation (EC) No 1107/2009 of the European Parliament and of the Council concerning the placing of plant protection products on the market, and amending Commission Implementing Regulation (EU) No 540/2011****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1107/2009 of the European Parliament and of the Council of 21 October 2009 concerning the placing of plant protection products on the market and repealing Council Directives 79/117/EEC and 91/414/EEC ⁽¹⁾, and in particular Article 20(1) and Article 78(2) thereof,

Whereas:

- (1) Commission Directive 2002/18/EC ⁽²⁾ included isoproturon as an active substance in Annex I to Council Directive 91/414/EEC ⁽³⁾.
- (2) Active substances included in Annex I to Directive 91/414/EEC are deemed to have been approved under Regulation (EC) No 1107/2009 and are listed in Part A of the Annex to Commission Implementing Regulation (EU) No 540/2011 ⁽⁴⁾.
- (3) The approval of the active substance isoproturon, as set out in Part A of the Annex to Implementing Regulation (EU) No 540/2011, expires on 30 June 2016.
- (4) An application for the renewal of the inclusion of isoproturon in Annex I to Directive 91/414/EEC was submitted in accordance with Article 4 of Commission Regulation (EU) No 1141/2010 ⁽⁵⁾ within the time period provided for in that Article.
- (5) The applicant submitted the supplementary dossiers required in accordance with Article 9 of Regulation (EU) No 1141/2010. The application was found to be complete by the rapporteur Member State.
- (6) The rapporteur Member State prepared a renewal assessment report in consultation with the co-rapporteur Member State and submitted it to the European Food Safety Authority (hereinafter 'the Authority') and the Commission on 28 February 2014.
- (7) The Authority communicated the renewal assessment report to the applicant and to the Member States for comments and forwarded the comments received to the Commission. The Authority also made the supplementary summary dossier available to the public.

⁽¹⁾ OJ L 309, 24.11.2009, p. 1.

⁽²⁾ Commission Directive 2002/18/EC of 22 February 2002 amending Annex I to Council Directive 91/414/EEC concerning the placing of plant-protection products on the market to include isoproturon as an active substance (OJ L 55, 26.2.2002, p. 29).

⁽³⁾ Council Directive 91/414/EEC of 15 July 1991 concerning the placing of plant protection products on the market (OJ L 230, 19.8.1991, p. 1).

⁽⁴⁾ Commission Implementing Regulation (EU) No 540/2011 of 25 May 2011 implementing Regulation (EC) No 1107/2009 of the European Parliament and of the Council as regards the list of approved active substances (OJ L 153, 11.6.2011, p. 1).

⁽⁵⁾ Commission Regulation (EU) No 1141/2010 of 7 December 2010 laying down the procedure for the renewal of the inclusion of a second group of active substances in Annex I to Council Directive 91/414/EEC and establishing the list of those substances (OJ L 322, 8.12.2010, p. 10).

- (8) On 5 August 2015 the Authority communicated to the Commission its conclusion ⁽¹⁾ on whether isoproturon can be expected to meet the approval criteria provided for in Article 4 of Regulation (EC) No 1107/2009. The Authority concluded that there is a high potential for the representative uses assessed to result in groundwater exposure above the parametric drinking water limit of 0,1 µg/l by the relevant metabolites of isoproturon in situations represented by all pertinent groundwater scenarios. In addition, a high long-term risk to birds and wild mammals and a high risk to aquatic organisms from isoproturon were identified.
- (9) Based on these identified risks, it has not been established with respect to one or more representative uses of at least one plant protection product that the approval criteria provided for in Article 4 of Regulation (EC) No 1107/2009 are satisfied. It is therefore appropriate not to renew the approval of isoproturon in accordance with Article 20(1)(b) of Regulation (EC) No 1107/2009.
- (10) Additionally, isoproturon is classified as carcinogenic category 2 in accordance with Regulation (EC) No 1272/2008 of the European Parliament and of the Council ⁽²⁾ and in the conclusion of the Authority it is indicated that during the peer review it was proposed that isoproturon should be classified as toxic for reproduction category 2.
- (11) Given the concerns detailed in recital 8, the derogation provided for in Article 4(7) to Regulation (EC) No 1107/2009 does not apply. The application of that derogation is also excluded on the grounds that it has not been established that any of the criteria set out in point 3.6.3, 3.6.4, 3.6.5 or 3.8.2 of Annex II to Regulation (EC) No 1107/2009 are not satisfied.
- (12) The Commission invited the applicant to submit its comments on the conclusion of the Authority and, in accordance with Article 17(1) of Regulation (EU) No 1141/2010, on the draft review report. The applicant submitted its comments, which have been carefully examined.
- (13) However, despite the arguments put forward by the applicant, the concerns related to the substance could not be eliminated.
- (14) Member States should be provided with time to withdraw authorisations for plant protection products containing isoproturon.
- (15) For plant protection products containing isoproturon, where Member States grant any grace period in accordance with Article 46 of Regulation (EC) No 1107/2009, that period should, at the latest, expire on 30 September 2017.
- (16) This Regulation does not prejudice the submission of a further application for isoproturon in accordance with Article 7 of Regulation (EC) No 1107/2009.
- (17) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Non-renewal of approval of active substance

The approval of the active substance isoproturon is not renewed.

⁽¹⁾ EFSA (European Food Safety Authority), 2015. Conclusion on the peer review of the pesticide risk assessment of the active substance isoproturon. EFSA Journal 2015;13(8):4206, 99 pp. doi:10.2903/j.efsa.2015.4206.

⁽²⁾ Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 (OJ L 353, 31.12.2008, p. 1).

*Article 2***Transitional measures**

Member States shall withdraw authorisations for plant protection products containing isoproturon as active substance by 30 September 2016.

*Article 3***Grace periods**

Any grace period granted by Member States in accordance with Article 46 of Regulation (EC) No 1107/2009 shall be as short as possible and shall expire on 30 September 2017 at the latest.

*Article 4***Amendments to Implementing Regulation (EU) No 540/2011**

In Part A of the Annex to Implementing Regulation (EU) No 540/2011, row 28 on isoproturon is deleted.

*Article 5***Entry into force**

This Regulation shall enter into force on 1 July 2016.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 1 June 2016.

For the Commission
The President
Jean-Claude JUNCKER
