Remarks

This appropriation is intended to cover expenditure on a set of measures designed to:

- carry out the Union's policy on electronic communication networks and services with a view to launching initiatives designed to meet the challenges in this sector;
- promote and monitor the implementation of the regulatory framework for communication services (including the mechanism provided for in Article 7 of Directive 2002/21/EC of the European Parliament and of the Council of 7 March 2002 on a common regulatory framework for electronic communications networks and services (Framework Directive) (OJ L 108, 24.4.2002, p. 33);
- facilitate the transition to the information society, in relation with electronic communications networks and services, particularly as a follow-up to the Lisbon summit;
- enable third countries to pursue a policy of opening up their markets to the same extent as in the Union.

The specific objectives of these measures are:

- the formulation of a Union policy and strategy in the field of communication services and networks (including convergence between electronic communications and audiovisual environments, aspects related to the Internet, etc.);
- the development of radio spectrum policy in the Union;
- the development of activities in the mobile and satellite communications sector, particularly as regards frequencies;
- an analysis of the situation and the legislation adopted in these areas;
- the coordination of these policies and initiatives as regards the international environment (e.g. WRC, CEPT, etc.);
- the development of activities and initiatives in relation to the information society.

These measures consist, inter alia, of preparing analyses and progress reports, consulting stakeholders and the public, preparing an information and communication technologies strategy for the future legislative proposals and monitoring the application of legislation.

This appropriation is intended to cover, in particular, contracts for analysis and expert reports, specific studies, evaluation reports, coordination activities, grants and the part-financing of certain measures.

Remarks

This action is geared, in a balanced manner, to the implementation of operational and technical measures designed to promote safer use of the Internet and other communication technologies, particularly for children, and to fight against illegal content and harmful conduct online. In line with this objective, the programme will focus on practical help for the end user and in particular children, parents, carers, teachers and educators.

The specific objectives of this programme are:

- tackling illegal content and harmful conduct online by supporting actions aiming at reducing the amount of illegal content circulated online and dealing adequately with harmful conduct online, with particular focus on online distribution of child sexual abuse material, grooming and bullying;
- promoting a safer online environment by bringing together stakeholders to find ways to promote a safer online environment and to protect children from content and conduct that may be harmful for them. The aim is to encourage stakeholders to cooperate, take responsibility and develop and implement systems of self-regulation and foster privacy-by-design;
- ensuring public awareness by providing contact points where the public and in particular children, parents, carers, teachers and educators can be informed about opportunities and risks related to the use of online technologies and means of staying safe online;
- establishing a knowledge base in order to set up and continue to develop a base for dealing adequately both with existing and emerging uses, risks and consequences, and mapping both quantitative and qualitative aspects in this context. The acquired knowledge will feed into the implementation of the proposed programme as well as into the design of adequate and proportional actions for ensuring online safety for all users.

The programme will seek to involve and bring together the different stakeholders whose cooperation is essential, but who do not necessarily always come together unless the appropriate structures are put in place.

Those stakeholders include content providers, Internet service providers, mobile network operators, regulators, standards bodies, industry self-regulatory bodies, national, regional and local authorities responsible for industry, education, consumer protection, families, law enforcement, children's rights and child welfare and non-governmental organisations active in consumer protection, families, children's rights and child welfare.

These measures will be implemented by means of the following shared-cost actions:

- pilot projects and best practice actions; ad-hoc projects in areas relevant to the programme, including projects demonstrating best practice or involving innovative uses of existing technology, especially for data protection purposes and the protection of fundamental rights;
- networks and national actions bringing together a variety of stakeholders to ensure action throughout Europe and to facilitate coordination activities and the transfer of knowledge;
- Europe-wide investigation carried out on a comparable basis into the way adults and children use online technologies, the resulting risks for children and the effects of harmful practices on children, and behavioural and psychological aspects with emphasis on child sexual abuse related to the use of online technologies, investigation on upcoming risk situations due to transforming behaviours or technological developments, etc.

Accompanying measures will contribute to the implementation of the programme or the preparation of future activities. Those measures will include:

- benchmarking and opinion surveys to produce reliable data on safer use of online technologies for all Member States collected through comparable methodologies;
- technical assessment of technologies such as filtering designed to promote safer use of the Internet and new online technologies;
- studies in support of the programme and its actions;
- exchange of information through conferences, seminars, workshops or other meetings and the management of clustered activities;
- dissemination, information and communication activities.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18 (1)(d) of the Financial Regulation.

Part of the appropriation under this budget item will be used to support projects for analysing and spreading good practices throughout the Union and reflecting on a framework for the assessment of media literacy levels and activities. Particular attention may be given to projects which analyse media representations and media values, encourage the production and distribution of media literacy related content, stimulate the use of media in order to improve participation in social and community life and concentrate on the implementation of media literacy initiatives bridging the media industry and the education world. Beneficiaries may be organisations from the public and private sectors which have expertise and European experience in media literacy issues.

Remarks

This appropriation is intended to cover the staff and administrative expenditure of the European Network and Information Security Agency (Titles 1 and 2).

The Agency was set up to enhance the capability of the Union, the Member States and, as a consequence, the business community to prevent, address and respond to network and information security problems. In order to achieve this goal, the Agency will be developing a high level of expertise and stimulating broad cooperation between actors from the public and private sectors.

The Agency's aim is to provide assistance and to deliver advice to the Commission and the Member States on issues related to network and information security falling within its competencies and to assist the Commission, where called upon, in the technical preparatory work for updating and developing Union legislation in the field of network and information security.

Ensuring pluralism in Europe is one of the most important goals of the Union's media policies. An effective way to enhance pluralism is to give journalists access to pluralism. This could be achieved by financing exchanges of journalists between different countries and media within the Union. The goal is to enable journalists to gain a broader and more comprehensive understanding of the Union and its different media and cultures.

Remarks

The ICT PSP is one of the three specific programmes under the Competitiveness and Innovation Framework Programme (CIP).

Actions will be stepped up at Union level for stimulating wider uptake of information and communication technologies (ICTs). Synergistic actions at Union level aim to reduce uncertainties and the risks of duplication by sharing and replicating experiences and lessons learned and foster the internal market dimension of services triggered by ICTs promoting interoperability and combating fragmentation. They aim also to stimulate the regulatory and technological environments necessary to promote innovation and to overcome potential barriers (e.g. cultural, linguistic, technical, legal and disability- or 'dys' condition-related).

COMMISSION
TITLE 09 — INFORMATION SOCIETY AND MEDIACHAPTER 09 03 — INFORMATION AND COMMUNICATION TECHNOLOGIES TAKE-UP *(cont'd)*09 03 01 *(cont'd)*

As indicated in the legal basis, the ICT PSP shall provide for the following actions:

- (a) development of the single European information space and strengthening of the internal market for ICT products and services;
- (b) stimulation of innovation through a wider adoption of and investment in ICTs;
- (c) development of an inclusive information society and more efficient and effective services in areas of public interest, and improvement of the quality of life, particularly for persons with disabilities and persons suffering from 'dys' conditions (dyslexia, dyspraxia, dysphasia, dyscalculia, etc.).

This will be done in particular by supporting the development of ICT-based services and the development and use of digital content in areas of public interest, including in the areas of ICT for health and inclusion; ICT for government and governance; ICT for energy efficiency, smart mobility and environment; digital libraries, and publicly accessible online Books in Print catalogues, better exploitation of public sector information, education and learning.

Part of ICT PSP appropriations in the CIP may be used to ensure testing, and support deployment across the Union, of the next-generation 112, innovative services for interoperable emergency services and 112 for all citizens, enabling quicker, more efficient reactions and life-saving, inter alia, through remodelling the traditional technical architecture for emergency calling and lowering its cost and complexity, with the ultimate aim of providing an optimum response to 112 calls made by all citizens, including users with disabilities. Furthermore, dissemination, information and education actions should promote the knowledge and appropriate use of '112'. In addition, an SMS SOS service should be developed and tested to enable people with disabilities to send requests for help to the emergency services.

The ICT PSP in the CIP will stimulate wider uptake of ICT for improved services. It will also ensure that European businesses and in particular small and medium-sized enterprises can benefit from the new opportunities brought by the increasing demand for these ICT-based services. As indicated in the CIP legal basis, the support to the development and use of digital content is fully integrated in the ICT PSP from 2009 on. During a transition phase for 2007 and 2008, this has been done under the eContent plus programme (through its own legal basis).

The main part of the support will go to a limited number of high-impact pilot projects and best practice actions per year. Accompanying measures, such as thematic networks bringing together a variety of stakeholders around specific objectives, will also be launched. They will be complemented by the monitoring of the European information society, by measures providing the background knowledge that is needed for policy decision-making, and by actions for promoting and raising awareness of the benefits brought by ICT to citizens, businesses (in particular small and medium-sized enterprises) or public organisations.

The ICT PSP in the CIP should contribute to testing the design of new financial instruments such as the Project Bond Initiative in the area of ICT, and in particular high-speed broadband. It should contribute to the preparation of new financial instruments for the forthcoming multiannual financial framework 2014-2020. It should in particular, test how private and public long-term investors can invest in favour of the deployment of ICT broadband infrastructure. The Commission is invited to work with the EIB Group as well as other long-term investors to develop innovative ways of attracting funding for infrastructure.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this Article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Remarks

The objective of the Seventh Framework Programme of the European Community for research, technological development and demonstration activities (2007-2013) and the 'Information and Communication Technologies' theme of the specific 'Cooperation' programme is to improve the competitiveness of European industry and to enable Europe to master and shape the future developments in ICTs in accordance with a long-term European ICT strategy so that the demands of its society and economy are met and European standards help shape the global ICT developments rather than being overtaken by other growing global markets.

Activities will strengthen Europe's scientific and technology base and ensure its global leadership in ICTs, help drive and stimulate innovation through ICT use and ensure that ICT progress is rapidly transformed into benefits for Europe's citizens, businesses, industry and governments.

The ICT theme prioritises strategic research around key technology pillars, ensures end-to-end integration of technologies and provides the knowledge and the means to develop a wide range of innovative ICT applications.

The activities leverage industrial and technological advances in the ICT sector and improve the competitive edge of important ICT-intensive sectors — both through innovative high-value ICT-based products and services and from new or improved organisational processes in businesses and administrations alike. The ICT theme also supports other policies of the Union by mobilising ICTs to meet public and societal demands.

Activities cover collaboration and exchange of best practices with a view to setting common standards for the Union that are compatible with, or set, a global standard, networking actions and national programme coordination initiatives. This appropriation is also intended to cover the costs of independent experts assisting in proposal evaluations and project reviews, the costs of events, meetings, conferences, workshops and seminars of European interest organised by the Commission, the costs of studies, analyses and evaluations, the costs of monitoring and evaluation of the specific programmes and of the framework programmes and the costs of measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Part of these appropriations is intended to foster common approaches to key global challenges, such as an ICT strategy that is not only able to compete with rapidly emerging ICT markets (e.g. in Asia), but that can also set standards for global ICT policy-making in the interest of European values, by pooling resources and fostering the exchange of best practices for the advancement of research, development and innovation in the field of ICT. Measures will aim at improving the efficacy of actions by the international community and will be complementary to existing mechanisms and successful working relationships. The appropriations will be used to fund innovative ventures between European and third countries. The scope of such ventures will go beyond what could be undertaken by a single country and will benefit both the Union and its partners in preparing their leading role for setting future ICT standards. In implementing this action, the Commission will ensure a balanced distribution of subsidies. It will help actors at a global level to engage in research partnerships in order to foster innovation in the field of ICT.

The ARTEMIS Joint Undertaking shall contribute to the implementation of the Seventh Framework Programme of the European Community for research, technological development and demonstration activities (2007-2013) and the 'Information and Communication Technologies' theme of the specific 'Cooperation' programme. It shall, in particular:

- define and implement a Research Agenda for the development of key technologies for Embedded Computing Systems across different application areas in order to strengthen European competitiveness and sustainability and allow the emergence of new markets and societal applications,
- support the implementation of research and development (R&D) activities in particular by awarding funding to participants in selected projects following competitive calls for proposals,
- promote a public-private partnership aiming at mobilising and pooling Union, national and private efforts, increasing overall R&D investments in the field of Embedded Computing Systems, and fostering collaboration between the public and private sectors,
- ensure the efficiency and durability of the Joint Technology Initiative on Embedded Computing Systems,
- achieve synergy and coordination of European R&D efforts in the field of Embedded Computing Systems including the progressive integration into the ARTEMIS Joint Undertaking of the related activities in this field currently implemented through intergovernmental R&D schemes (Eureka).

Remarks

The ENIAC Joint Undertaking shall contribute to the implementation of the Seventh Framework Programme for research, technological development and demonstration activities (2007-2013) and the 'Information and Communication Technologies' theme of the specific 'Cooperation' programme.

It shall, in particular:

- define and implement a Research Agenda for the development of key competences for nanoelectronics across different application areas in order to strengthen European competitiveness and sustainability and allow the emergence of new markets and societal applications;
- support the activities required for the implementation of the Research Agenda, in particular by awarding funding to participants in selected projects following competitive calls for proposals;
- promote a public-private partnership aiming at mobilising and pooling Union, national and private efforts, increasing overall R&D investments in the field of nanoelectronics, and fostering collaboration between the public and private sectors;
- achieve synergy and coordination of European R&D efforts in the field of nanoelectronics including, when added value can be created, the progressive integration into the ENIAC Joint Undertaking of the related activities in this field currently implemented through intergovernmental R&D schemes (Eureka);
- promote the involvement of small and medium-sized enterprises in its activities in line with the objectives of the Seventh Framework Programme.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

Investing in knowledge is the best way for Europe to foster sustainable growth in a global economy and the research programme is the cornerstone of Europe's knowledge policy. The specific 'Capacities' programme under the Seventh Framework Programme for research, technological development and demonstration activities (2007-2013) aims to enhance research and innovation capacity throughout Europe through the emergence and reinforcement of multidisciplinary European poles of excellence. In particular, research infrastructures play a key role in supporting the creation of knowledge, its dissemination, application and exploitation, thus fostering innovation.

This activity addresses more specifically the deployment of ICT-based infrastructures, or e-infrastructures. These infrastructures provide services to research communities by bringing the power of distributed ICT-based resources (computing, connectivity, storage, data and instrumentation) to virtual communities. The reinforcement of a European approach in this domain establishes synergies between national infrastructures or initiatives, ensures that critical masses are reached, rationalises new investments, and strives for world leadership. It can make a significant contribution to boosting European research potential and its exploitation, and consolidating e-infrastructures as a cornerstone of the European Research Area, a 'forerunner' of cross-discipline innovation and a driver in changing the way science is conducted.

This appropriation is also intended to cover the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the costs of studies, grants, monitoring and evaluation of the specific programmes and of the framework programmes, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Union to investigate new areas of research suitable for Union action, inter alia, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this Article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Remarks

These remarks apply to all the budget headings in the 'Direct research' policy area (with the exception of Chapter 10 05).

The appropriations cover not only expenditure on operations and staff covered by the Staff Regulations, but also other expenditure on staff, contracting, infrastructure, information and publications and any other administrative expenditure arising from research and technological development operations, including exploratory research.

In accordance with Article 18 of the Financial Regulation, any revenue entered in Items 6 2 2 4 and 6 2 2 5 of the statement of revenue may give rise to the provision of additional appropriations.

Miscellaneous revenue may give rise to the provision of additional appropriations to be used in Chapters 10 02, 10 03 or 10 04 or Article 10 01 05, depending on their purpose.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

The possibility of third countries or organisations from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution will be entered in Item 6 0 1 3 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 18 of the Financial Regulation.

The additional appropriations will be provided under Articles 10 02 02 and 10 03 02.

The appropriations in this title cover the cost of the staff working in the financial and administrative departments of the Joint Research Centre and of the support which they need (approximately 15 % of the cost).

Remarks

This appropriation is intended to cover all expenditure relating to staff occupying posts not on the establishment plan of the Joint Research Centre, i.e. agency staff, seconded national experts, visiting scientists, grant holders and contract staff, for the purposes of implementing the activities of the Centre.

The breakdown of appropriations for external research staff is as follows:

Programme	Appropriations
Framework programme (nuclear)	10 577 100
Framework programme (non-nuclear)	32 400 000
Non-framework programme	p.m.
Total	42 977 100

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

The contributions from EFTA States relate exclusively to their participation in the non-nuclear activities of the framework programme.

Remarks

This appropriation is intended to cover all other staff expenditure not covered by Items 10 01 05 01 and 10 01 05 02. It is intended for expenditure not directly proportional to the staff present.

It also covers expenditure on organising competitions and interviewing candidates, vocational training, missions, receptions and representation, and expenditure on social and medical infrastructure.

This appropriation is also intended to cover expenditure in respect of all resources used for the implementation of the Joint Research Centre activities.

This includes:

- expenditure on scientific and technical support for the institutes of the Joint Research Centre (workshops, computer centres, nuclear support activities, radiation protection, irradiation equipment (reactors, cyclotron, particle accelerators), hot cells, research departments, stores, etc.), including that directly associated with the operation of the scientific divisions,
- all expenditure on administrative and technical infrastructure, including that for the Directorate-General for Joint Research Centre, incurred in providing support for its institutes,
- specific expenditure relating to the units concerned at the Geel, Ispra, Karlsruhe, Seville and Petten sites, including the Directorate-General for Joint Research Centre divided between Brussels and Ispra (purchases of all types and contracts).

The breakdown of appropriations for other management expenditure (research) is as follows:

Remarks

This appropriation is intended to cover the scientific and technical support and research activities carried out by the Joint Research Centre in accordance with the non-nuclear specific programme for the following themes:

- prosperity in a knowledge-intensive society,
- solidarity and the responsible management of resources,
- security and freedom,
- Europe as world partner.

It covers specific expenditure relating to the research and support activities in question (purchases of all types and contracts). This includes expenditure on scientific infrastructure directly incurred for the projects concerned.

This appropriation is also intended to cover expenditure of any type concerning research activities relating to activities under this article entrusted to the Joint Research Centre within the framework of its participation on a competitive basis in indirect actions.

In accordance with Article 18 and Article 161(2) of the Financial Regulation, any revenue entered in Items 6 2 2 3 and 6 2 2 6 of the statement of revenue may give rise to the provision of additional appropriations.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Remarks

This article is intended to receive the appropriations required for the expenditure specific to the various tasks performed on behalf of outside bodies, which is evaluated jointly with the outside body in question in each individual case.

In accordance with Article 18 of the Financial Regulation, any revenue entered in Items 6 2 2 3 and 6 2 2 4 of the statement of revenue may give rise to the provision of additional appropriations.

Additional appropriations will be provided for this article, in accordance with Article 18 and Article 161(2) of the Financial Regulation, to cover specific expenditure for each contract with an outside body to the amount of the revenue to be entered in Item 6 2 2 3 of the statement of revenue.

The services planned are, in particular, the following:

- supplies, the provision of services and work carried out in general against payment,
- the operation, for the benefit of Member States, of facilities or the performance of research that is additional to the specific research programmes,
- the performance of research activities or the provision of services within the industrial clubs for which the partners from industry must pay an enrolment fee and annual subscriptions,
- in-cyclotron irradiation,
- chemical decontamination,
- radiation protection,
- metallography,
- cooperation contracts relating to radioactive waste,
- training,
- outside customers of the Ispra data-processing centre,
- certified reference materials,
- irradiation for outside bodies in the high-flux reactor (HFR) at the Petten establishment of the Joint Research Centre.

Legal basis

Remarks

This appropriation is intended to cover part of expenses of any kind incurred during the implementation of HFR programmes and not covered by the payment appropriations available for previous financial years.

In accordance with Article 18 of the Financial Regulation, any revenue entered in Item 6 2 2 1 of the statement of revenue may give rise to the provision of additional appropriations.

The main objectives of the programme are as follows:

- to ensure over 250 days' operation of the HFR per annum in order to guarantee the availability of neutrons for experimental purposes,
- to ensure the rational use of this reactor according to the needs of research institutes requesting the assistance of the HFR in areas such as:
 - improving the safety of existing nuclear reactors,
 - health, and in particular the development of medical isotopes for medical research and the testing of therapeutic techniques,
 - fusion,
 - basic research and training,
 - waste management, and in particular the possibility of developing nuclear fuels for the elimination of weapons-grade plutonium.

In accordance with Article 18 of the Financial Regulation, this article will, in the course of the financial year, be provided with additional appropriations within the limits of the revenue from Member States concerned (currently the Netherlands, Belgium and France) to be entered in Item 6 2 2 1 of the statement of revenue.

Legal basis

Remarks

The main objectives of the programme are primarily:

- to ensure the safe and reliable operation of the high flux reactor (HFR), in order to guarantee the availability of the neutron flux for experimental purposes,
- to allow an efficient use of HFR by research institutes in a broad range of disciplines: improvement of the safety of existing nuclear reactors, health including the development of medical isotopes to answer the questions of medical research, nuclear fusion, fundamental research and training, and waste management including the possibility to study the safety behaviour of nuclear fuels for the new generation of reactor systems.

In accordance with Article 18 of the Financial Regulation, this item will, in the course of the financial year, be provided with additional appropriations within the limits of the revenue from, notably, the three Member States concerned (currently the Netherlands, Belgium and France) to be entered in Item 6 2 2 1 of the statement of revenue.

Legal basis

Remarks

This appropriation is intended to finance an action programme to reduce and dispose of nuclear liabilities resulting from activities conducted by the Joint Research Centre since its establishment.

It is intended to cover the decommissioning of plants that have been shut down and waste from such plants.

This appropriation is also intended to finance operations undertaken by the Commission on the basis of the powers conferred on it by Article 8 of the Euratom Treaty in conformity with the provisions of the Interinstitutional Agreement of 17 May 2006 between the European Parliament, the Council and the Commission on budgetary discipline and sound financial management (OJ C 139, 14.6.2006, p. 1).

Remarks

This appropriation is intended to finance the following under the action plan for closer dialogue with the fishing industry and those affected by the common fisheries policy and the integrated maritime policy:

- grants to Regional Advisory Councils (RACs) to cover operational costs as well as interpretation and translation costs of RAC meetings,
- grants to European trade bodies for the organisation of internal coordination meetings in preparation for meetings of the Advisory Committee on Fisheries and Aquaculture (ACFA), including the participation of ACFA representatives in the meetings of the RACs in order to ensure coordination of the work of the RACs with that of the ACFA,
- the implementation of measures to provide documentation about and explain the common fisheries policy aimed at the fishing industry and those affected by the common fisheries policy, as well as the integrated maritime policy.

The Commission will continue supporting the functioning of the RACs with a financial contribution and by participating in meetings, preparing relevant documents and ensuring that all RAC opinions are included when drafting new legislation. If the Commission does not include the RAC opinion or only parts of the opinion, the Commission should state why and where it deviates from the RAC opinion. The involvement of people working in fisheries and other interest groups in the common fisheries policy process will be strengthened, so that greater account of specific regional characteristics is taken.

The Commission will furthermore introduce greater flexibility and make the rules governing the financial activities of RACs clearer and more transparent so that these shortcomings no longer prevent RACs from spending their budget allocations in full.

Part of the appropriation is earmarked also for information and communication activities linked to the common fisheries policy and the integrated maritime policy as well as for communication activities addressed to the interested parties. Efforts will continue to be made to inform the stakeholders and the specialised media in the new Member States as well as in the countries joining the European Union in the forthcoming enlargement about the common fisheries policy and the integrated maritime policy.

This appropriation may also cover funding for cooperation and training seminars for third countries in the fight against illegal, unreported and unregulated (IUU) fishing.

Any revenue may give rise to the provision of additional appropriations in accordance with Article 18 of the Financial Regulation.

Remarks

Article 39 of Regulation (EC) No 1260/1999 provides for financial corrections, any revenue from which is entered in Item 6 5 0 0 of the statement of revenue. That revenue may give rise to the provision of additional appropriations, in accordance with Article 18 of the Financial Regulation, in specific instances where they are necessary to cover risks of cancellation or of reductions in corrections previously decided upon.

Regulation (EC) No 1260/1999 determines the conditions for repayment of an advance without having the effect of reducing the contribution from the Structural Funds towards the assistance concerned. Any revenue from the repayment of advances entered in Item 6 1 5 7 of the statement of revenue will give rise to the provision of additional appropriations in accordance with Articles 18 and 157 of the Financial Regulation.

Remarks

This appropriation is intended to cover EFF technical assistance measures as provided for in Article 46 of Regulation (EC) No 1198/2006. The technical assistance measures include studies, evaluations, measures aimed at the partners, measures to disseminate information, installation, operation and interconnection of computerised systems for the management, monitoring, audit, inspection and evaluation, improvements in evaluation methods and the exchange of information on practices in this field and the establishment of trans-national and Union networks of actors in the sustainable development of coastal fishing zones.

Technical assistance covers preparatory, monitoring, audit, evaluation, supervision and management measures required to implement the EFF.

This appropriation may, in particular, be used to cover:

- support expenditure (representation expenses, training, meetings, missions),
- information and publishing expenditure,
- expenditure on information technology and telecommunications,

Remarks

This appropriation is intended to cover the operational programmes of the European Fisheries Fund (EFF) convergence objective for the 2007-2013 programming period.

Particular importance will be attached to the economic diversification of regions affected by a reduction in fishing activity, to the adjustment of fleet capacity and to fleet renewal, without involving an increase in fishing efforts, as well as to the sustainable development of the fishing zones.

Actions financed under this article should take into account the need to maintain a stable and enduring balance between the capacity of the fishing fleets and the resources available, and the need to promote a safety culture within fishing.

This appropriation is also intended to cover the financing of actions to improve fishing gear selectivity.

Remarks

This appropriation is intended to cover the financing of a pilot project to develop collaborative research between scientists and stakeholders and tools for a common governance and sustainable fisheries management. The common fisheries policy reform presented in July 2011 identifies a number of priorities aimed at achieving ecological sustainability as well as orientating governance of fisheries towards a regionalised implementation of principles, defined at Union level. Regulations (EC) No 2371/2002 (OJ L 358, 31.12.2002, p. 59) and (EC) No 1967/2006 (OJ L 409, 30.12.2006, p. 11) set out the need to adopt management plans at national and Union levels. Those management plans should be focused mostly on basins with limited international waters and bordered by both Member States and third countries; basins where the exchange of information and experience among countries has already been undertaken, within multilateral operating entities, and basins where morphological, environmental and economic conditions allow a comparison of similar experiences, according to common parameters. As a good example, the north-central Adriatic area, corresponding to the geographical sub-area (GSA) 17 of FAO classification, demonstrates all three abovementioned basin characteristics.

The objective of this pilot project is to foster collaborative policy-oriented research in the fisheries sector involving scientists and stakeholders, particularly fishermen, at the geographical level of sea-basins and fisheries and aiming at improving the scientific knowledge underpinning decisions on fisheries management strategies and options.

The following tasks could be suitable for support under such a pilot framework:

- collecting, storing and analysing of qualitative and quantitative data and information which would appear to be necessary to carry out assessments on fish stock and fisheries and which would be complementary to those that are compulsory under the Data Collection Framework; to that end, creating an important tool to support decisions of the Union and national governments through the construction of a Geographic Informative System (GIS); with this tool it will be possible to develop models, which should represent best practice, hereby facilitating the activities of regional planning and governance of the basins; the project seeks to ensure the implementation and updating of the GIS, at various stages of acquisition, loading, processing and analysis of data, with definition of procedures for extraction and consultation of the basic components, using all data available from every level, nationally and regionally; the basic requirement of the GIS to unify existing databases held by different governments in order to improve the interconnection and the flow of information now and in the future; the dissemination and access to different levels and contents of the geodatabase will be determined and adjusted on indications of the European Commission: any authorised entity may have a series of information that allow evaluating the temporal variation of different parameters,
- building methodologies, models, approaches, etc. allowing improvements in assessment of fish stocks, assessment of fisheries and evaluation and assessment of management options, and/or further developments to make an ecosystem approach to fisheries management operational and operable,
- running evaluation and assessment processes, particularly when backing the design and the follow-up of multiannual management plans,
- building up of forums where scientists and fishermen can exchange knowledge in order to reduce the gap between their diverging approaches.

CHAPTER 11 07 — CONSERVATION, MANAGEMENT AND EXPLOITATION OF LIVING AQUATIC RESOURCES (*cont'd*)11 07 03 (*cont'd*)

The pilot project should fulfil some specific conditions, such as:

- being built at sea-basin or fishery levels,
- favouring an integrated approach among scientific fields linked to ecology, biology, technology and humanities,
- favouring an inclusive, collaborative and iterative way of working,
- being oriented towards results that are likely to be directly usable in the scientific expertise process and allowing policy-makers to make relevant and reliable choices in the decision-making process,
- not being duplicated with research projects or studies already funded by or eligible for funding by the Seventh Framework programme (FP7) or DG MARE's scientific studies programme.

Legal basis

Remarks

This appropriation is intended to cover expenditure incurred by Member States in implementing the monitoring and control systems applicable to the common fisheries policy for:

- investments relating to control activities carried out by administrative bodies or by the private sector including implementation of new control technologies such as electronic recording systems (ERS), vessel monitoring systems (VMS), automatic identification systems (AIS) connected with vessels detection systems (VDS) and the purchase and modernisation of control means,
- training and exchange programmes for civil servants responsible for monitoring control and surveillance tasks in the fisheries area,
- implementation of pilot inspection and observer schemes,
- cost/benefit analysis, assessment of expenditure and audits incurred by competent authorities in carrying out monitoring, control and surveillance,
- initiatives, including seminars and media tools, aimed at enhancing awareness both among fishermen and other players such as inspectors, public prosecutors and judges, and among the general public of the need to fight irresponsible and illegal fishing and on the implementation of the rules of the common fisheries policy,
- implementation of systems and procedures to enable traceability and instruments to control fleet capacity through the monitoring of engine power,
- pilot projects such as CCTV (closed circuit television).

Remarks

This appropriation is intended to cover study work needed to underpin the developing maritime policy with sound facts and analyses, as far as there are gaps and as far as this is necessary as a basis for impact assessment and the preparation of future policy decisions. This is notably the case regarding socio-economic and legal matters in the maritime domain.

Three cross-cutting areas have been identified so far for potential future action: 'Maritime spatial planning', 'Integration and convergence of marine data collection systems' and 'Maritime surveillance'. This appropriation is also intended to cover expenditure for carrying out feasibility studies with a view to elaborating future proposals in these areas.

This appropriation is also intended to promote integration of various systems for the monitoring and surveillance of the seas, collate scientific data on the sea, and disseminate networks and best practices in the field of maritime policy and the coastal economy.

Legal basis

Preparatory actions within the meaning of Article 49(6)(b) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

This appropriation is intended to cover expenditure arising in connection with measures contributing to the completion of the internal market and its operation and development, and measures contributing, in particular, to:

- greater proximity to citizens and businesses, including the development and strengthening of dialogue with citizens and businesses: via measures intended to make the operation of the internal market more effective, and to ensure that citizens and businesses are able to gain access to the most extensive rights and opportunities resulting from the opening up and deepening of the internal market without borders and able to exercise those rights and opportunities in full; and via monitoring and evaluation measures relating to the practical exercise by citizens and businesses of their rights and opportunities with a view to identifying and facilitating the removal of any obstacles which may be preventing them from exercising those rights in full,
- implementing and monitoring the provisions governing public contracts with a view to ensuring their optimum operation and the genuine openness of tenders, including the awareness-raising and training of the various parties to these contracts; the introduction and use of new technologies in the various fields of operation of these contracts; the continuous adaptation of the legislative and regulatory framework in the light of developments arising from these contracts, particularly the globalisation of markets and existing or future international agreements,
- improvement, through the European business test panel (EBTP), of the legal environment for citizens and businesses, for which promotion activities, awareness-raising and training actions could be envisaged; fostering cooperation, development and coordination of legislation in the field of company law and assistance with the creation of European limited companies and European economic interest groupings,
- strengthening administrative cooperation through, inter alia, the Internal Market Information System (IMI), the deepening of knowledge of internal market legislation in the Member States and its sound application by them, and support for administrative cooperation between the authorities responsible for implementing legislation relating to the internal market with a view to achieving the Lisbon strategic goals as set out in the annual policy strategy,

TITLE 12 — INTERNAL MARKET

CHAPTER 12 02 — INTERNAL MARKET POLICY (*cont'd*)12 02 01 (*cont'd*)

- implementing of the law of the Union and international provisions in the field of money laundering, including participation in intergovernmental or ad hoc measures in this field; contributions relating to Commission participation as a member of the Financial Action Task Force (FATF) on money laundering created under the OECD,
- active participation in meetings held by international associations such as the International Association of Insurance Supervisors (IAIS/AICA) and the International Organisation of Securities Commission (IOSCO); this also comprises expenses related to the Commission's participation as a member of the group,
- development of evaluations and impact studies on the various aspects of the policies covered by this chapter for the purpose of devising new measures or revising existing measures relating to them,
- creation and maintenance of systems directly linked to putting into place and monitoring policies launched within the framework of the internal market for services,
- support of activities which seek to contribute to the achievement of the Union's policy objectives by enhancing supervisory convergence and cooperation, and in the field of financial reporting, both inside and outside the Union.

In order to achieve these objectives, this appropriation covers the costs of consultation, studies, surveys, evaluations, participation, production and the development of publicity, awareness-raising and training materials (printed matter, audiovisual material, assessments, computer tools, the collection and dissemination of information, information and advice measures for citizens and businesses).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Part of this appropriation is intended to cover expenditure incurred by the Commission for ensuring the effective functioning of the European Counterfeiting and Piracy Observatory.

These appropriations are also intended for setting up a central coordination body assisting the Member States with market surveillance cooperation, building on existing structures and experience. This coordination body would support the cooperation, pooling of know-how and sharing of best practices between Member States to ensure the same high level of market surveillance throughout the European Union, in accordance with Regulation (EC) No 765/2008 of the European Parliament and of the Council of 9 July 2008 setting out the requirements for accreditation and market surveillance relating to the marketing of products (OJ L 218, 13.8.2008, p. 30). To this end, regular joint trainings for representatives of national market surveillance authorities from all Member States will be organised, focusing on relevant practical aspects of market surveillance such as follow-up of complaints, monitoring accidents, verifying that corrective action has been taken, follow-up of scientific and technical knowledge concerning safety issues and coordination with customs authorities. Furthermore, exchanges of national officials and joint visit programmes will foster the exchange of experiences between Member States. In addition, comparative data on the resources dedicated to market surveillance in the different Member States will be collected and discussed at the appropriate level with national authorities. The aim is to create awareness for the adequate resources needed to guarantee efficient, comprehensive and consistent market surveillance throughout the internal market, and contribute to the upcoming revision of the Union product safety rules, particularly those concerning market surveillance, and the preparation of the follow-up to the Customs 2013 programme.

Remarks

This appropriation is intended to cover expenditure arising in connection with measures for the management and development of Solvit and for the implementation of the single market assistance services action plan.

The Solvit system has proved to be one of the most effective out-of-court dispute settlement mechanisms.

It can effectively and efficiently deal with problems faced by citizens or businesses, arising as a result of the misapplication of internal market legislation by a public administration in another Member State. Furthermore, the Solvit system is able to produce feedback information by using an online database system which is accessible to all coordination centres and to which citizens and business can directly submit their problems.

However, Solvit like many other public assistance services relating to Union issues is still not widely known among potential users of the system. At the same time citizens and businesses are often very confused about the right address for their requests for information, assistance or problem solving. To remedy this, the Commission has announced, as part of the single market review, that it will endeavour to create a single web-based access point guiding citizens and business to the right service. In October 2010 the Commission launched a new website, Your Europe, which provides citizens and businesses with information, and sends them directly to relevant services such as Solvit in the event that they need help. Your Europe, together with the Europe Direct call centre, represents the single contact point for the Solvit system. The Commission shall inform the competent committee of the European Parliament in a yearly report about the frequency of use of the contact point and possible measures to further improve it.

Member States should be urged to take appropriate measures to notify their citizens about the provision of such a single contact point.

Moreover, in the Commission's action plan of 8 May 2008 on an integrated approach for providing Single Market Assistance Services to citizens and businesses, a range of actions was proposed to increase cooperation between the existing assistance services so that they can offer a better, faster and more streamlined overall service to citizens and businesses.

Promotion of all these services also needs to take place in a more coordinated way to avoid citizens and businesses being confused by too many brand names.

Additionally, the Commission shall inform the competent committee of the European Parliament about the concrete measures which have been undertaken in this field.

Remarks

The Single Market Forum (SMF) is an annual event organised by the Commission with the European Parliament, which takes place in the Member State holding the Union presidency, and brings together representatives of citizens, businesses and consumer organisations as well as representatives of the Member States and the Union institutions in order to improve coordination and better governance of the single market. The debates and workshops held during the SMF should deal with transposition, application and enforcement of single market legislation, and should allow for exchange of best practices between stakeholders and for informing citizens of their rights in the single market.

Remarks

The financial and economic crisis has significantly shaken the confidence of consumers, retail investors and SMEs in the regulations that are meant to protect them from failings in the financial system. Therefore, it is more essential than ever that the concerns of end users and other non-industry stakeholders are taken into account in designing initiatives that aim to restore citizens' confidence in the soundness of the financial sector and in the ability of financial integration to deliver concrete benefits to them.

This pilot project aims to enhance the capacity of civil society organisations to participate in Union policymaking in the area of financial services, with a view to providing policymakers with a counterweight to the lobbies of the financial services sector and inform the wider public of the issues at stake in the regulation of financial markets for consumers, end-users, retail investors and other non-industry stakeholders.

Remarks

The general objective of this programme is to improve the conditions for the functioning of the internal market by supporting the operations, activities or actions of certain bodies in the fields of financial services, financial reporting and auditing.

Union funding is vital in order to ensure the efficient and effective supervision of the internal market in financial services, particularly in view of the recent financial crisis.

The following activities are covered by the programme:

- (a) activities supporting the implementation of Union policies aimed at supervisory convergence, in particular by means of training of personnel of national supervisory authorities and management of information technology projects in the field of financial services;
- (b) activities developing or providing input to the development of standards, applying, assessing or monitoring standards or overseeing standard setting processes in support of the implementation of Union policies in the field of financial reporting and auditing.

Remarks

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 114 thereof, as well as to the European Supervisory Authority (European Securities and Markets Authority), established by Regulation (EU) No 1095/2010, the European Supervisory Authority forms part of a European System of Financial Supervision (ESFS). The main objective of the ESFS is to ensure that the rules applicable to the financial sector are adequately implemented to preserve financial stability and to ensure confidence in the financial system as a whole and sufficient protection for the customers of financial services.

This appropriation is intended to cover the Authority's operational expenditure relating to the work programme (Title 3).

The Authority must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure.

TITLE 12 — INTERNAL MARKETCHAPTER 12 04 — FREE MOVEMENT OF CAPITAL, COMPANY LAW AND CORPORATE GOVERNANCE (*cont'd*)12 04 04 (*cont'd*)12 04 04 02 (*cont'd*)

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

The amounts repaid in accordance with Article 16 of Regulation (EC, Euratom) No 2343/2002 constitute assigned revenue (Article 18(1)(f) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

The Union contribution for 2012 amounts to a total of EUR 7 120 000.

Remarks

This appropriation is intended to cover the ERDF-funded technical assistance provided for in Article 45 of Regulation (EC) No 1083/2006. Technical assistance may finance the preparatory, monitoring, administrative and technical support, evaluation, audit and inspection measures necessary for implementing that Regulation.

It may, in particular, be used to cover:

- support expenditure (representation expenses, training, meetings, missions, translations),
- information and publishing expenditure,
- expenditure on information technology and telecommunications,
- contracts for the provision of services,
- expenditure on external staff at headquarters (contract agents, seconded national experts or agency staff) up to EUR 3 060 000, as well as missions relating to this staff.

Remarks

This appropriation is intended to cover the technical assistance measures for the Instrument for Pre-Accession Assistance provided for in Article 16 of Council Regulation (EC) No 1085/2006 of 17 July 2006 establishing an Instrument for Pre-Accession Assistance (IPA) (OJ L 210, 31.7.2006, p. 82):

- expenditure linked to the preparation, appraisal, approval, follow-up, control, audit and evaluation of multiannual programmes and/or individual operations and projects under IPA regional development component. These actions may include technical assistance contracts, studies, short-term expertise, meetings, exchange of experience, networking, information and publicity and awareness creation events, training activities and publications directly linked to the achievement of the objective of the programme and any other support measures carried out at the level of the Commission central services or the delegations in the beneficiary countries,
- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the benefit of beneficiary countries and the Commission,
- expenditure on external staff in delegations (contract agents, local agents or seconded national experts) for the purposes of devolved programme management in the Union delegations in third countries or for internalisation of tasks of phased-out technical assistance offices, as well as for the additional logistical and infrastructure cost, such as cost of training, meetings, missions, information technology and telecommunications and of renting directly caused by the presence in the delegation of the external staff remunerated from the appropriations of this item,
- installation, operation and interconnection of computerised systems for management, inspection and evaluation,
- improvements in evaluation methods and the exchange of information on practices in this field.

This appropriation is also intended to support administrative learning and cooperation with non-governmental organisations and social partners.

This appropriation covers administrative expenditure under Chapter 13 05.

Remarks

Article 39 of Regulation (EC) No 1260/1999 provides for financial corrections for which any revenue is entered in Item 6 5 0 0 of the statement of revenue. This revenue may be used to provide additional appropriations in accordance with Article 18 of the Financial Regulation in specific cases where they are required to cover the risk of corrections adopted earlier being cancelled or reduced. Regulation (EC) No 1083/2006 provides for financial corrections for the period 2007 to 2013.

Regulation (EC) No 1260/1999 lays down the conditions for the repayment of payments on account which does not have the effect of reducing the contribution from the Structural Funds to the operation concerned. Any revenue arising from the repayment of payments on account entered in Item 6 1 5 7 of the statement of revenue will be used to provide additional appropriations in accordance with Articles 18 and 157 of the Financial Regulation. Regulation (EC) No 1083/2006 lays down the conditions for reimbursement of pre-financing for the period 2007 to 2013.

Measures to combat fraud are funded from Article 24 02 01.

Remarks

This appropriation is intended to cover the financing of commitments remaining to be settled from the period 2000 to 2006 for the special programme for peace and reconciliation in Northern Ireland and the border counties of Ireland. The special programme for peace and reconciliation was continued, in accordance with the decisions of the Berlin European Council, mentioned below, to provide EUR 500 000 000 (1999 prices) for the new period of validity of the programme (2000 to 2004). Following the request in the conclusions of the Brussels European Council of 17 and 18 June 2004, an additional EUR 105 000 000, to be allocated in 2005 and 2006, was added to align operations under the programme with the other programmes under the Structural Funds that came to an end in 2006. Additionality is to be fully observed. The Commission is to submit an annual report to the European Parliament on this measure.

This appropriation is intended to cover the ERDF commitments for the innovative measures and technical assistance remaining to be settled from the programming period 2000 to 2006 as provided for in Articles 22 and 23 of Regulation (EC) No 1260/1999. The innovative measures include studies, pilot projects and exchanges of experience. They were intended in particular to bring about a qualitative improvement in Structural Fund measures. Technical assistance covers preparatory, monitoring, evaluation, supervision and management measures required for implementation the ERDF. The appropriation may, in particular, be used to meet:

- support expenditure (representation expenses, training, meetings, missions),
- information and publishing expenditure,
- expenditure on information technology and telecommunications,
- contracts for the provision of services and studies,
- grants.

Remarks

This appropriation is intended to cover commitments remaining to be settled under the Interreg III Community initiative relating to cross-border, transnational and interregional cooperation from the programming period 2000 to 2006.

Special attention will be paid to cross-border activities, in particular with a view to better coordination with the Phare, Tacis, ISPA and MEDA programmes.

This appropriation is also intended to cover the costs of coordinating activities in the field of cross-border labour mobility and skills. Suitable attention will be paid to cooperation with the outermost regions.

These appropriations can be combined with Phare cross-border cooperation appropriations for common projects at the external borders of the Union.

This appropriation is intended to cover, inter alia, preparatory operations for local and regional cooperation between the old and new Member States and the applicant countries in the fields of democracy and social and regional development.

Remarks

This appropriation is intended to cover the PEACE programme under the European territorial cooperation objective of the ERDF.

The PEACE programme shall be implemented as a cross-border cooperation programme within the meaning of Article 3(2)(c) of Regulation (EC) No 1083/2006.

The PEACE programme shall promote social and economic stability in the regions concerned, including notably actions to promote cohesion between communities. The eligible area shall be the whole of Northern Ireland and the border counties of Ireland. This programme will be implemented in full compliance with the principle of additionality of structural fund operations.

Remarks

This appropriation is intended to cover the programmes under the ERDF objective of the regional competitiveness in the programming period 2007 to 2013. This objective shall, outside the least developed regions, be aimed at strengthening regions' competitiveness and attractiveness as well as employment by taking into consideration the goals set in the Europe 2020 Strategy.

Remarks

This appropriation is intended to finance the preparatory, monitoring, administrative and technical support, evaluation, audit and inspection measures necessary for implementing Regulation (EC) No 1083/2006, as provided for in Article 45 of that Regulation. In particular, it may be used to cover:

- support expenditure (representation expenses, training, meetings, missions),
- information and publishing expenditure,
- development of 'how-to guides' and toolkits regarding applications for grants and implementation of projects,
- expenditure on information technology and telecommunications,
- contract for the provision of services and studies,
- grants.

This appropriation is also intended to fund measures approved by the Commission in the context of the preparation of the next programming period.

This appropriation is also intended to support administrative learning and cooperation with non-governmental organisations and social partners.

In order to provide help and support for local actors in the Union involved in running Structural Funds and Cohesion Fund programmes — especially in the new Member States — the Commission should propose a training and mobility scheme which would allow them to strengthen their skills in running programmes and exchange best practices and ideas on the problems they encounter on a regular basis. This would improve overall governance and institutional capacity building for the management of programmes and territorial policies.

The lack of efficient on-the-spot training of local authority and local staff responsible for management of Union funds is a major cause of procedural error, poor control and low absorption rates. Establishing a network of trainers to work locally will increase cost effectiveness and the efficiency of the policy.

Remarks

The aim of the pilot project is to produce a complex analysis based on current understanding of the Roma community's situation in the Union, emphasising the entire complex and synergetic spectrum of education and training, beginning with pre-school children, through the further education of young mothers up to training for older people.

The pilot project should also reflect the proper preparation and implementation of the institutional process in terms of consultations, networking, data collection, evaluation, field visits, research, etc. A number of Member States have taken measures to promote Roma integration. Examples both of good and of bad practice are numerous, alongside a growing corpus of sociological, legal and policy-oriented research.

A Roma Unit could be set up to explore, from a Union policy implementation point of view, sectoral issues and propose appropriate actions and measures to be included in the proposals for a Roma Inclusion Action Plan.

It could also take on the task of examining cross-sector cooperation and use of the existing different financial instruments, proposing pilot projects and detecting transferable and sustainable good practice which can then contribute to producing concrete policy proposals.

In this context, reference can be made to the need for long-term proposals on the housing and urban development aspects (linked to issues of segregation, ghettoisation, etc., when badly prepared) in connection with innovative use of regional funds and EIB/EBRD support, or the huge issue of data collection (and protection), statistics, etc., but also the obviously related issues of combating crime and trafficking, as well as basic registration problems.

Particular attention has to be given to the issue of media coverage and communication in general.

As an essential prerequisite for success, a process of structured dialogue with Roma civil society has to be developed at local, national and Union level.

The European Parliament has been a pioneer in promoting Roma rights; its first resolution on the issue goes back to 1984. During the sixth parliamentary term, the European Parliament has adopted a number of resolutions on the specific situation of Roma in Europe. In particular, in its resolution of 31 January 2008 on a European strategy on the Roma (OJ C 68 E, 21.3.2009, p. 31), the European Parliament urged 'the Commission to develop a European Framework Strategy on Roma Inclusion aimed at providing policy coherence at Union level as regards the social inclusion of Roma and urges the Commission at the same time to comprehensively shape a Community Action Plan on Roma Inclusion with the task of providing financial support for realising the objective of the European Framework Strategy on Roma Inclusion'. Also, in its resolution of 10 July 2008 on the census of the Roma on the basis of ethnicity in Italy (OJ C 294 E, 3.12.2009, p. 54), the European Parliament reiterated those requests and again called on the Commission and the Member States, within the framework of a European Union Roma Strategy and in the context of the Decade of Roma Inclusion 2005-2015, to enact legislation and policies to support Roma communities while promoting their integration in all fields, to launch anti-racism and anti-discrimination programmes in schools, employment and the media and to enhance the exchange of expertise and best practices.

COMMISSION
TITLE 13 — REGIONAL POLICY

CHAPTER 13 03 — EUROPEAN REGIONAL DEVELOPMENT FUND AND OTHER REGIONAL OPERATIONS (cont'd)

13 03 21 (cont'd)

The European Parliament reiterates in this context the importance of developing strategies at Union and national level, making full use of the opportunities provided by Union funds, to abolish Roma segregation in education, to ensure equal access to quality education for Roma children (participation in mainstream education, introduction of special scholarship and trainee programmes, additional and concrete measures to promote pre-school education for Roma children and postgraduate studies at national and international level for Roma students as well as educating an effective group of 'Roma diplomats' able to bridge the gap between Roma communities and public institutions), to ensure and improve Roma access to labour markets, to provide equal access to health care and social security benefits, to combat discriminatory practices in the provision of housing, and to increase the participation of the Roma in social, economic, cultural and political life.

The European Parliament reaffirms the need to set up a network of academic and civil experts with a clear mandate to propose specific pilot projects and elaborate projects triggering immediate changes.

The aim of the pilot project is also to ensure the integrated education of Roma families, focusing simultaneously on the early integration of children in pre-school education, the training of parents and the conducting of community activities for the whole family, also with a view to improving adults' passive skills.

In its conclusions of 14 December 2007, the European Council, 'conscious of the very specific situation faced by the Roma across the Union', invited 'Member States and the Union to use all means to improve their inclusion'. In its conclusions of 19 and 20 June 2008, it stated that '...it looks forward to the results (...) of the forthcoming conference on this issue to be held in September [2008]. It invites the Council to take this into account in its examination of the revised Social Agenda. The European Council will return to this issue before the end of the year'.

Remarks

The objective of this pilot project is to provide help and support for local and regional councils in the Union.

The first principle of the pilot project is to encourage and support the mobility of both elected local and regional representatives within the Union. The second principle of the pilot project is that the mobility element is included in an agreed programme of on-the-spot training and sharing of experience with focus on 'economic and social cohesion'.

Goals are:

- to encourage multilateral cooperation between territorial and local and regional institutions on a political level,
- to support the mobility of elected local and regional representatives,
- to stimulate common research and exchange of ideas on the problems they encounter on a regular basis by means of on-the-spot training and the sharing of experience,
- to promote the exchange of best practices.

The pilot project is thus a tool to enhance the learning and experience of elected local and regional representatives; and to increase the capacity of local and regional councils in regard to the application of concepts, democratic principles and strategies.

This project aims to develop a comprehensive strategy that would promote knowledge of, and experience from, Union regional policy for third countries. This strategy should include the organisation of international events, information activities, network building between regional and local stakeholders, development of joint projects and new regional partnerships, as well as the exchange of good practices between regions. By promoting the Union cohesion policy model as a success story through a number of regional dialogues, the Union will use these actions to exemplify and advance its values, fundamental principles, organisational structures and policies on a global scale. Cooperation with international organisations active in this field (Forum of Global Associations of Regions (FOGAR) and United Cities and Local Government (UCLG)) will prove to be particularly beneficial to that end.

Remarks

The Council has on several occasions (in 2000 and in March 2003) acknowledged the advantages of micro-finance for small firms. The European Council has, for the first time, asked Member States to pay particular attention to using micro-credit to foster the establishment and growth of small firms. Micro-credit was one of the focuses of the European multiannual programme (MAP/2002 to 2006) financial instruments which the Council adopted in December 2001, defining 'micro-loan' as a loan of less than EUR 25 000.

The Competitiveness and Innovation Programme (CIP), which has been in operation since 2006, also deals with micro-credit, including under the second facility (SME Guarantee Facility). This facility, which is administered by the European Investment Fund (EIF), seeks to encourage financial institutions to play a more important role in offering small loans, which normally carry with them proportionally high loan management costs for borrowers unable to provide adequate security. In addition to guarantees and counter-guarantees, financial intermediaries are entitled to subsidies to reduce the high administrative costs associated with micro-loans.

The aim of this preparatory action is to foster the development of micro-credit in Europe, in line with the Europe 2020 Strategy growth and employment targets and the recommendations set out in the European Parliament resolution of 11 July 2007 on financial services policy (2005 to 2010) — White Paper (OJ C 175 E, 10.7.2008, p. 392), with particular reference to the need for a micro-credit action plan.

The purpose of the preparatory action is to:

- ensure that the micro-credit business in Europe becomes self-financing in the medium term by building up the equity of micro-finance institutions, particularly non-banking institutions. The project could be administered by the EIF, the Union financial institution which specialises in small and medium-sized enterprise and micro-enterprise funding and which also administers the Union financial instruments,

- foster greater synergy between existing financial instruments covering inter-related areas (CIP, Joint European Resources for Micro to Medium Enterprises (Jeremie), ERDF, EDF),
- foster social inclusion through entrepreneurship and the economic growth it brings. Associations working with less-favoured groups may be recipients of the funding made available.

The purpose of the appropriation is to cover the implementation of the preparatory action adopted for 2008; it will be used, in particular, to develop a seed fund for non-banking institutions.

The pilot project aims to support the demolition and reconstruction of obsolete and deteriorated buildings within the suburbs of European cities, testing the introduction of innovative and advanced criteria for constructive safety, engineering quality, sustainability and energy efficiency. The main objective is to promote social integration in the suburbs through an intervention in housing policy.

The project should finance:

- the selection of at least five testing suburbs of European cities, highly populated, in which there is a strong need for building regeneration interventions,
- the definition of advanced safety requirements with a view to each specific context (i.e. anti-seismic measures) and of quality requirements for the residential structures, engineering and construction, including the design of private and common spaces, the selection of materials, technical solutions, etc.,
- the definition of energy saving targets and energy mix with a higher usage of renewable sources for the new residential buildings,
- the selection of the most effective mix of financial tools to promote the regeneration of deteriorated urban areas and the innovation in the construction industry (revolving funds, regional aid, tax rates bonification, public-private partnership, etc.),
- the definition of a set of measures to offer temporary housing alternatives to the residents of the testing sites areas and the involvement of them and of the local communities in the redesigning process,
- the definition of an evaluation model to monitor and evaluate the project outcome,
- the start-up of regeneration programmes in the testing areas.

The aim of this preparatory action is to develop a partnership model(s) for towns or cities and rural areas surrounding them, to achieve better cooperation between different actors in developing and implementing common urban-rural initiatives based on the integrated approach. The model(s) could be used in the next programming period for urban-rural development projects co-funded by the Union.

More specifically, the preparatory action should aim to:

- identify common challenges and potentials of urban and rural areas,
- review existing urban-rural partnerships in the Member States, identify areas of cooperation and local/regional actors involved (public, private, non-governmental organisations, etc.),
- identify innovative good practice examples of urban-rural cooperation in existing partnerships,
- create a model/models for an urban-rural partnership and elaborate a practical guide for this partnership to be possibly used in the Commission's Strategic Guidelines on cohesion for the next programming period after 2013.

The preparatory action should be implemented in the years 2011-2012.

This preparatory action aims to develop a comprehensive strategy that would promote knowledge of, and disseminate experience gained from, Union regional policy for third countries, on the basis of the successful implementation of the earlier pilot project, as well as to address the specific needs of the Union's ultra-peripheral territories, which do not have the status of outermost regions. The international dimension of cohesion policy matured considerably in 2009 and 2010 as a result, largely, of the additional opportunities afforded by the resources provided under the pilot project. This preparatory action aims to widen the scope of activities to the Union's ultra-peripheral regions and focus more particularly on developing regional governance, running training programmes in place-based policy design and strategic planning, as well as on procedural questions regarding control mechanisms and good financial management.

Remarks

Starting date of the project: 1 January 2011.

End date of the project: 31 December 2013.

The European Council of 19 June 2009 has formally asked the Commission to present a European Union Strategy for the Danube Region before the end of 2010. The strategy, which will be launched under the Hungarian Presidency of the European Union, at the beginning of 2011, will be accompanied by an action plan, which will be permanently developed and updated taking into account the proposal from the Member States. Article 3 of the Treaty on European Union improves the Union's ability to promote economic, social and territorial cohesion, and solidarity among Member States. This preparatory action is needed in order to develop the necessary capacity building and to speed up the coordination process to ensure the right governance model for the implementation of the European Union Strategy for the Danube Region.

The Danube Region has an established history of networking and co-operation in many policy areas. The strategy and its action plan will offer the opportunity to move from words to action and to deliver real benefits for the region as a whole. There is a need for a common strategic vision to guide future territorial development for the Danube Region. It is clear that no one acting alone can apply the range of measures necessary to confront the challenges and exploit the opportunities of the region. A strategy for the Danube Region, consisting of detailed and consistent actions, with an appropriate financial support are essential to develop the Danube Region and to fully exploit the opportunities open to the region.

The Danube links ten European countries — Germany, Austria, the Slovak Republic, Hungary, Croatia, Serbia, Romania, Bulgaria, the Republic of Moldova and Ukraine — six of which are Member States, and in a broader territorial context the region also comprises the Czech Republic, Slovenia, Bosnia and Herzegovina, and Montenegro.

The Danube region is an important crossover point between the Union's Cohesion Policy programmes, programmes for countries covered by the European Neighbourhood Policy and potential candidates for accession, and therefore represents an area where enhanced synergies between different Union policies can be developed: cohesion, transport, tourism, agriculture, fisheries, economic and social development, energy, environment, enlargement and neighbourhood policy and the European Union Strategy for the Danube Region is to be developed in the following cooperation areas: social development and protection, sustainable economic development, transport and energy infrastructure, environmental protection, culture and education.

COMMISSION

TITLE 13 — REGIONAL POLICY

CHAPTER 13 03 — EUROPEAN REGIONAL DEVELOPMENT FUND AND OTHER REGIONAL OPERATIONS (*cont'd*)13 03 29 (*cont'd*)

The European Union Strategy for the Danube Region should be implemented by making use of all available funding resources, from the Union, Member States and other riparian countries, International Financial Institutions (IFI), as well as private capital. The focus should be on improved, more efficient and effective ways to coordinate the different funding instruments and the proposed specific actions. It is expected that the European Union Strategy for the Danube Region through a better cooperation between Member States and Danube riparian countries, will boost the social and economic development of the region. This will create new business opportunities, will accelerate the development of sustainable, more efficient and intermodal transport system as well as for a sustainable transport and tourism and will improve the quality of life of all citizens living in the Danube river basin with full respect of the environment.

The preparatory action thus shall promote or create a governance model to be implemented in the specific areas concerning the Danube Region.

The funding is intended to finance activities related to the definition of the governance model required by the development and implementation of the European Union Strategy for the Danube Region. The governance model will improve the cooperation between all participant countries and regions to common flagship projects in the field of:

- environmentally friendly use of the Danube by inland navigation, intermodality with other transport modes along the Danube through the improvement of all infrastructures (with priority for the better use of existing infrastructure) and by creating a multi-modal transport system all along the river, environmentally-friendly use of water power along the Danube, preservation and improvement of Danube water quality in accordance with the Directive 2000/60/EC of the European Parliament and of the Council of 23 October 2000 establishing a framework for Community action in the field of water policy (OJ L 327, 22.12.2000, p. 1), stringent vessel safety requirements,
- sustainable tourism: ecotourism, the development of the cycle routes along almost the entire Danube, development of the conventional mass cultural tourism, urban and rural tourism, business and cruise tourism, sports tourism,
- joint projects (to promote and implement) in order to increase cooperation in the field of energy, especially on energy efficiency and renewable energy resources, in the light of the region's potential as a source of bioenergy, and to encourage the use of biomass, solar, wind and hydro energy,
- promoting research infrastructure tailored to the specific strengths of the regions and of specific clusters of excellence for product innovation and marketing,
- a common research and development programme in, and for, the Danube Region and which is aimed at supporting scientific development and innovation by ensuring cooperation between Danube states in fields of environmental research, fisheries, agriculture, infrastructure (including the energy field), transport, training and mobility for researchers and socio-economic aspects,
- university exchange programmes within the region and university networks in order to foster centres of excellence capable of competing at international level and to strengthen the Danube identity through training and improving governance, life long learning,
- ensuring the security of the region.

The European Union Strategy for the Danube Region — Not just a strategy

There must be — concrete, visible actions — to overcome the challenges facing the region. In its action plan, the Commission should insist that Member States and other stakeholders take responsibility as lead partners for specific priority areas and flagship projects, for example, by developing a specific and integrated governance in line with a common and integrated approach to the European Union Strategy for the Danube Region adopted by the Commission on 8 December 2010.

COMMISSION
TITLE 13 — REGIONAL POLICY

CHAPTER 13 03 — EUROPEAN REGIONAL DEVELOPMENT FUND AND OTHER REGIONAL OPERATIONS (cont'd)

13 03 29 (cont'd)

The Commission will fulfil the need for an independent, multi-sector body/approach that can guarantee the necessary co-ordination, monitoring and follow-up of the action plan, as well as a regular updating of the plan and strategy as necessary. The Commission is not proposing additional funding or other resources at this time. However, some of the specific actions and projects will require financial support. A major source is the Structural Funds available in the region — most programmes already allow actions envisaged in the strategy. Programming authorities can review the allocation criteria and facilitate the selection of projects aligned with the strategy. In addition, Member States will examine funding projects and actions aligned with the strategy priorities from their own resources. The European Investment Bank and other international and regional financial institutions could also contribute.

Enhanced efforts through the action plan should be carried out in close coordination with any such ongoing developments (in particular new regulations), including at Union level, to ensure coherence and efficiency.

The on-going economic crisis implies a less-favourable climate for investment, affecting both public sectors and private business generally. This makes it all the more essential that the European Union Strategy for the Danube Region allows the partners in the region to take a longer perspective, recognising that when this crisis has passed the regions that have best prepared will be those best equipped to take advantage of the new opportunities and innovations.

This preparatory action, established on the initiative of the European Parliament, is to have a duration of three years, from January 2011 to December 2013, and the amount to be allocated is EUR 1 500 000 per year.

The above projects will require time-intensive preparations with the Member States concerned and with relevant authorities of the third countries. First disbursements took place in 2011.

Based upon the existing legal framework, this preparatory action, presents solutions for the sustainable cooperation between Member States and other riparian countries. It substantiates the development of the European Union Strategy for the Danube Region and its integration into the overall policy of the Union.

This appropriation should be used to organise or develop:

- training programmes, seminars for young people with the aim of emphasising the common regional identity of the nations living in the Danube macro-region; the programmes should stress civic education and opportunities for cultural exchanges which will contribute to a progressive, sustainable European future-oriented dimension of coexistence by addressing the questions of understanding each other's regional presence, togetherness and the need for cooperation; and by providing scope for dialogues and reconciliation,

- the improvement and development of new solutions for handling expertise by means of accessible common platforms and project information as well as building networks.

The pilot project will promote social and economic stability in the regions concerned, including actions to develop cohesion between communities by means of opening space for familiarising with, and giving due acknowledgement to, each other's cultures and histories and will also highlight the added value of transnational cooperation. This should create a sustainable basis for a common platform giving access to regional expertise and increasing regional cooperation and should in addition allow lessons to be drawn from the experience of a macro-region strategy. The eligible area shall be the Danube macro-region and the surrounding countries in line with the European Neighbourhood Policy. The programmes eligible for funds shall involve participants from at least three Member States from the region.

Remarks

This appropriation is intended to ensure:

- the proper circulation of information through newsletters (including on-line), reports and conferences, and specifically an annual forum,
- the organisation of on-site events to familiarise all interested European regions with the Baltic Sea approach and the principles of macro-regions,
- successful governance of the strategy through the decentralised system that has been established and, in particular, the operation of the system of priority area coordinators and flagship project leaders,
- technical and administrative support for planning and coordination of activities related to the European Union Strategy for the Baltic Sea Region,
- availability of seed money for planning and preparing projects supporting the strategy,
- support for civil society participation,
- the continued helping of priority area coordinators in their coordination activity,
- participation in an implementation facility with the EIB, if requested by Baltic Member States,
- the development of a more ambitious communication strategy on the European Union Strategy for the Baltic Sea Region.

Remarks

Union institutions support the drafting of a European strategy for the Atlantic area. A cross-cutting action plan with concrete priorities needs to be defined in order to implement this strategy from 2014 onwards. Atlantic stakeholders should be involved in the drafting of this action plan.

The action plan should be closely linked to regional policy and the Integrated Maritime Policy, and should also facilitate synergies with other Union policy areas such as trans-European transport networks, the common fisheries policy, climate and environment actions, the research and development framework programme, and energy policy, etc.

The preparatory action will finance a stakeholder dialogue platform, called the Atlantic Forum, to define the priority projects and governance of the Atlantic Strategy.

Funding for the preparatory action will serve to:

- put in place the Atlantic Forum, encouraging key stakeholders to work together within workshops and ensuring adequate publicity and broad participation,
- engage forum members in a process leading to the adoption of the cross-cutting action plan for the Atlantic Strategy in accordance with the needs of the regions concerned and a clear focus on sustainable growth in Atlantic coastal regions and maritime sectors,
- support the technical work necessary to identify, and test the feasibility of, concrete priority actions to be included in the action plan.

A subcontractor will assist stakeholders in drafting the action plan. The subcontractor will be in charge of implementing the preparatory action and will work under the supervision of the Commission.

Legal basis

Preparatory action within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

The plan to change Mayotte's status from overseas country or territory to outermost region is the first of its kind for the Union. The process of making this status change has been simplified by the entry into force of the Treaty on the Functioning of the European Union, Article 355(6) of which provides for a unanimous vote on the matter in the European Council. The French Government is currently drawing up an application for Mayotte to be granted outermost region status from 2014. This places Mayotte in a similar situation to that of pre-accession countries, which are required to carry out essential structural reforms in connection with which the Union provides various types of support intended to facilitate the transposition of the *acquis* and the implementation of Union policies. As a result of the change of status, the local authorities in Mayotte will be required to handle new types of Union funding involving different amounts and different procedures from those applying under the European Development Fund (EDF), their current source of funding. This preparatory action will focus primarily on technical assistance measures for the training of Mayotte administrative staff who will be responsible for drawing up, managing, following up and monitoring future operational programmes. As a territory of a Member State, Mayotte is not entitled to pre-accession instrument funding; at the same time, given that it is not yet a region as referred to in the general provisions on the Structural Funds, it is not entitled to technical assistance either.

The aim of the preparatory action is to provide the department of Mayotte with support with its changeover to the status of outermost region.

A number of measures are needed:

- the training of local staff who will be responsible for drawing up, managing, following up and monitoring future operational programmes,
- carrying out of studies prior to drawing up future operational programmes, plus *ex-ante* evaluation so as to produce an analysis of the area and provide support for local actors in order to lay down a regional strategy and programme priorities,
- organising of general information meetings for elected representatives, local actors and officials on the consequences of the changeover to outermost-region status, and institutional notification arrangements concerning the launch of programmes,
- setting up of a Europe unit within Mayotte's economic and regional affairs secretariat for information gathering and circulation to public partners, for setting up and implementing operational programmes and for informing and supporting project promoters.

This preparatory action may apply to any other territory in a similar position.

Legal basis

Preparatory action within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

The objective of this preparatory action is to provide help and support for local and regional councils in the Union.

The first principle of the preparatory action is to encourage and support the mobility of both elected local and regional representatives within the Union. The second principle of the preparatory action is that the mobility element is included in an agreed programme of on-the-spot training and sharing of experience with focus on 'economic and social cohesion'.

Goals are:

- to encourage multilateral cooperation between territorial and local and regional institutions on a political level,
- to support the mobility of elected local and regional representatives,
- to stimulate common research and exchange of ideas on the problems they encounter on a regular basis by means of on-the-spot training and the sharing of experience,
- to promote the exchange of best practices.

The preparatory action is thus a tool to enhance the learning and experience of elected local and regional representatives, and to increase the capacity of local and regional councils in regard to the application of concepts, democratic principles and strategies.

Legal basis

Preparatory action within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

Annex II to Council Regulation (EC) No 1164/94 of 16 May 1994 establishing a Cohesion Fund (OJ L 130, 25.5.1994, p. 1) determines the conditions under which advances which do not have the effect of reducing the contribution of the Fund to the operation concerned are to be repaid. Any revenue resulting from such repayments of advances entered in Item 6 1 5 7 of the statement of revenue will give rise to the provision of additional appropriations in accordance with Articles 18 and 157 of the Financial Regulation. Regulation (EC) No 1083/2006 lays down the conditions for reimbursement of pre-financing for the period 2007 to 2013.

Remarks

This article is intended to record appropriations resulting from the mobilisation of the European Union Solidarity Fund in the event of major disasters in the Member States. Assistance should be provided mainly in connection with natural disasters, but may also be provided, where warranted by the urgency of the situation, to the Member States concerned, with a deadline being laid down for use of the financial assistance awarded and provision being made for beneficiary states to substantiate the use made of the assistance they receive. Assistance received which is subsequently offset by third-party payments, under the 'polluter pays' principle, for example, or received in excess of the final valuation of damage should be recovered.

Allocation of the appropriations will be decided on in an amending budget with the sole purpose of mobilising the European Union Solidarity Fund.

Remarks

This appropriation is intended to cover expenditure arising in connection with measures contributing to the completion, operation and development of the internal market.

It supports Union customs policy and taxation policy and includes actions which cannot be financed by the Customs 2013 and Fiscalis 2013 programmes.

In the field of taxation and customs, this appropriation is intended primarily to cover:

- the costs of consultations, studies, analyses and impact assessments,
- activities in customs classification, and the acquisition of data,
- investment in software,
- the production and development of publicity, awareness-raising and training materials.

Legal basis

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

This article is intended to cover the finalisation of commitments remaining to be settled from the Customs 2002 and Customs 2007 programmes.

The actions financed include conferences and seminars, technical assistance and information technology support to coordinate the training and technical assistance and cooperation actions carried out by the Community and the Member States with third countries' administrations in order to ensure the consistency of Community actions, both external and internal.

The operating expenditure covers training, technical assistance and cooperation actions for the benefit of:

- candidate countries to enable them to comply with Community customs legislation in the context of the enlargement process; the appropriation is intended in this respect to meet the costs of assistance, conformity tests and interconnecting national systems with Community systems,
- third countries to support them in the modernisation of their administrations.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

Any revenue from the participation of third countries, other than candidate countries and western Balkan potential candidate countries, in customs cooperation agreements entered in Item 6 0 3 2 of the statement of revenue will give rise to the provision of additional appropriations to be entered in this article in accordance with Article 18(1)(d) of the Financial Regulation.

Legal basis

Council Decision of 19 March 2001 authorising the Commission to negotiate on behalf of the European Community an amendment to the Convention creating the Customs Cooperation Council signed in Brussels on 15 December 1950, with a view to European Community membership of the organisation.

Remarks

This appropriation is intended to cover expenditure on the implementation of the Community customs action programme, and in particular the financing of joint actions, information technology actions as well as other actions.

It covers in particular:

- the travel and subsistence expenses of people from participating countries attending seminars and workshops, exchanges of officials, training, follow-up and comparative analysis operations,
- costs involved in organising seminars, workshops and other similar meetings,
- the cost of purchasing and developing any material required for training,
- the maintenance, development and running costs of current information exchange and communication systems, the operating costs of the network and the running costs of Community components installed on Commission premises (or on the premises of a designated subcontractor). The systems and networks concerned are: the common communications network/common systems interface (CCN/CSI) to the extent necessary to support the functioning of the systems listed here, the data dissemination system (DDS), the new computerised transit system (NCTS/NSTI), the information system on the integrated tariff of the Community (TARIC), the information system for transfer of origin stamps and the transmission of transit stamps (TCO/TCT), the European customs inventory of chemical substances (ECICS), the European binding tariff information system (EBTI/RTCE), the tariff quota surveillance management system (TQS), the inward-processing relief system (IPR), the unit values system, the suspensions information system and actions connected with customs computerisation (eCustoms and customs modernisation),
- as regards the communication and information exchange systems, set up by the management procedure laid down in Article 4 of Decision 1999/468/EC: the costs of design, installation, operation and development, principally the hardware, software and network connections which must be common to all Member States to ensure the interconnection and interoperability of the systems,
- the cost of user assistance, maintenance, operation and development of the anti-fraud information system (AFIS),
- costs connected with other actions which may be necessary to meet the objectives of the programme.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

This appropriation is intended to cover expenditure on the implementation of the Customs 2013 programme, and in particular the financing of joint actions, information technology (IT) actions and other actions.

It covers in particular:

- the cost of the acquisition, development, installation, maintenance and day-to-day operation of the Union components of the communication and information exchange systems, which comprise: the common communications network/common systems interface (CCN/CSI), including communication costs relating to the anti-fraud information system (AFIS); the computerised transit system (CTS); the tariff systems, in particular the data dissemination system (DDS), the combined nomenclature (CN), the information system on the integrated tariff of the Community (TARIC), the European binding tariff information system (EBTI), the tariff quota and surveillance system (TQS), the suspensions information system (Suspensions), the specimen management system (SMS), the information system for processing procedures (ISPP), the European customs inventory of chemical substances (ECICS) and the registered exporters system (REX); the system for increasing security set out in Council Regulation (EEC) No 2913/92 of 12 October 1992 establishing the Community Customs Code (OJ L 302, 19.10.1992, p. 1), including the Union's risk management system, the export control system (ECS), the import control system (ICS) and the system for authorised economic operators (AEO); and any new customs-related communication and information exchange systems, including electronic customs systems, established under the legislation of the Union and provided for in the work programme,
- expenses relating to preparatory, monitoring, control, audit and evaluation activities which are required directly for the management of the programme and the achievement of its objectives, and in particular studies, meetings, information and publication actions, and expenses linked to IT networks focusing on information exchange,
- the travel and living expenses incurred by officials from the participating countries relating to benchmarking activities, working visits, seminars, workshops, project and steering groups, training, and monitoring actions,
- the organisational costs of seminars, workshops, and other similar meetings,
- the travel and living expenses incurred due to the participation of ad hoc experts and participants,
- the cost of the acquisition, development, installation, maintenance of training systems and modules in so far as they are common to all participating countries,
- the costs of any other activity required in order to achieve the objectives of the programme.

Remarks

This article is intended to cover expenditure incurred for the implementation of the action programme to improve the operation of taxation systems in the internal market (Fiscalis 2007), more specifically the financing of communication and information exchange systems, joint actions and any other activity agreed under the management procedure laid down in Article 4 of Decision 1999/468/EC.

This appropriation covers in particular:

- the costs involved in keeping existing systems operational, in particular FITS (Fiscalis information system), composed of VIES (VAT information-exchange system), EWSE (the early-warning system for excise) and the excise duty table, and the CCN/CSI (common communications network/common systems interface), consisting mainly of the costs of maintaining, upgrading and running these systems and network operating costs,
- the costs of developing, purchasing, installing, running and upgrading planned new systems, including the excise movement verification system, e-commerce and the Eighth Council Directive 79/1072/EEC of 6 December 1979 on the harmonization of the laws of the Member States relating to turnover taxes — Arrangements for the refund of value added tax to taxable persons not established in the territory of the country (OJ L 331, 27.12.1979, p. 11) (eighth VAT Directive): mainly the common hardware, software and networks to be used by all participating countries to ensure the interconnection and interoperability of systems,
- the cost of feasibility studies for the new systems planned in the field of direct taxation,
- the travel and subsistence expenses of participating countries' officials responsible for indirect taxation taking part in exchanges, seminars or multilateral controls,
- travel and subsistence expenses, and the cost of purchasing and developing any material required for training,
- the organisational costs of seminars and other similar meetings,
- the costs of other activities which will be adopted under the management procedure laid down in Article 4 of Decision 1999/468/EC.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

Remarks

This appropriation is intended to cover expenditure on the implementation of the Fiscalis 2013 programme, and in particular the financing of joint actions, information technology (IT) actions and other actions.

It covers in particular:

- the cost of the acquisition, development, installation, maintenance and day-to-day operation of the Union components of the communication and information exchange systems, which comprise: the common communications network/common systems interface (CCN/CSI); the VAT information exchange system (VIES); excise systems; the excise movement control system (EMCS); and any new tax-related communication and information exchange systems set up under the legislation of the Union and provided for in the work programme,
- expenses relating to preparatory, monitoring, control, audit and evaluation activities which are required directly for the management of the programme and the achievement of its objectives, in particular studies, meetings, information and publication actions, and expenses linked to IT networks focusing on information exchange,

CHAPTER 14 05 — TAXATION POLICY (*cont'd*)**14 05 03** (*cont'd*)

- the travel and living expenses incurred by officials from the participating countries relating to multilateral controls, working visits, seminars and project groups,
- the organisational costs relating to seminars and other similar meetings,
- the travel and living expenses incurred for the participation of ad hoc experts and participants,
- the cost of the acquisition, development, installation, and maintenance of training systems and modules in so far as they are common to all participating countries,
- the costs of any other activity required in order to achieve the objectives of the programme.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

Any revenue from the participation of third countries, other than candidate countries and western Balkan potential candidate countries, in customs cooperation agreements entered in Item 6 0 3 2 of the statement of revenue will give rise to the provision of additional appropriations to be entered in this article in accordance with Article 18(1)(d) of the Financial Regulation.

Remarks

This appropriation is intended to cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objectives of the programme or measures coming under this budget heading, plus any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 18(1)(d) of the Financial Regulation.

Remarks

This appropriation is intended to cover the operating costs of the Education, Audiovisual and Culture Executive Agency incurred because of the Agency's participation in managing the programmes under Heading 3b of the 2007 to 2013 financial framework and the completion of actions supported before 2007.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 18(1)(d) of the Financial Regulation.

Any revenue from the contribution from the Swiss Confederation for participating in Union programmes entered under Item 6 0 3 3 of the statement of revenue may be used for additional expenditure, applying the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 18(1)(d) of the Financial Regulation.

The Agency's establishment plan is set out in the Part entitled 'Establishment plan staff' of Section III — Commission (Volume 3).

Remarks

This appropriation is intended to cover the costs of in-service traineeships intended for graduates and is designed to provide them with an overview of the objectives set and the challenges faced by the Union, an insight into how its institutions work and an opportunity to enhance their knowledge through work experience at the Commission.

This appropriation covers the payment of grants and other related costs (supplement for dependent persons or for trainees, persons with disabilities, accident and sickness insurance, etc.; reimbursement of travelling costs arising from the traineeship, particularly at the start and the close of the traineeship, as well as the costs of organising events stemming from the traineeship programme, e.g. visits, hosting and reception costs). It also covers the costs of evaluation in order to optimise the programme of traineeships and communication and information campaigns.

The selection of trainees is based on objective, transparent criteria and reflects a geographical balance.

The amount of related assigned revenue pursuant to Article 18(1) of the Financial Regulation is estimated at EUR 870 000 per year.

Remarks

This appropriation is intended to cover the Erasmus Mundus II programme (2009-2013), as well as the completion of actions started during the previous phase of the Erasmus Mundus programme 2004-2008. The objectives of the Erasmus Mundus II programme are:

- to foster structured cooperation between higher education institutions and academic staff in Europe and third countries with a view to creating poles of excellence and providing highly trained human resources,
- to contribute to the mutual enrichment of societies by developing a pool of well-qualified, open-minded and internationally experienced women and men through promoting mobility in order for the most talented students and academics from third countries to obtain qualifications and/or experience in the Union and for the most talented European students and academics to do the same in third countries,

- to contribute to the development of human resources and the international cooperation capacity of higher education institutions in third countries through increased mobility streams between the Union and third countries,
- to improve accessibility and enhance the profile and visibility of European higher education in the world as well as its attractiveness for third-country nationals,
- to foster cooperation between higher education institutions and to improve exchanges of academic staff and students in Europe and European Neighbourhood Policy countries — equally from the South and East.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this Article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

Remarks

In accordance with the decision for an integrated programme in the field of lifelong learning, this appropriation is intended to cover the following specific programmes and horizontal actions:

- Comenius: for general education activities concerning schools up to and including upper-secondary level,
- Erasmus: for education and advanced training activities at higher education level, increase in the number of scholarships and funding for them under the Erasmus programmes,
- Leonardo da Vinci: for all aspects of vocational education and training,
- Grundtvig: for adult education,
- Jean Monnet: projects stimulating teaching, research and debate on the European integration process at higher education institutions and operating grants to certain key institutions and associations,
- a cross-cutting programme: incorporating four key activities to cover policy issues, to make specific provision for language learning and activity related to information and communication technologies where these fall outside the specific programmes, and to provide a better dissemination service.

Special education needs for persons suffering from disabilities or 'dys' conditions can be addressed in all the abovementioned sectoral programmes.

COMMISSION

TITLE 15 — EDUCATION AND CULTURE

CHAPTER 15 02 — LIFELONG LEARNING, INCLUDING MULTILINGUALISM (*cont'd*)15 02 22 (*cont'd*)

Part of this appropriation is intended to cover, inter alia, supplementary expenditures relating to the activities of the European University Institute (EUI) in accordance with Article 36(2)(b) of Decision No 1720/2006/EC. A complementary contribution should be allocated to the Global Governance programme. This increase will improve and broaden the PhD training with respect to global governance and world affairs at the EUI; further develop the European Academy of Global Governance devoted to top-level training, discussion and debates; enlarge the community of junior and senior post-doctoral fellows specialised in these areas; attract a significant number of senior scholars to the EUI from the faculties of other Member States' universities and research centres, and from international institutions; continue development of the different strands of basic and applied research on issues of global governance; promote and support a variety of events, conferences and seminars on issues of global governance, and create a European network of Global Governance. This represents an extension and enhancement of an action already covered in the general budget for the year 2010.

In addition, part of this appropriation is intended to finance a Young Innovators Mobility (YIM) action. It is generally recognised that professional mobility is essential to the development of a versatile workforce, to a sense of European citizenship, and to reinforcing Europe's competitiveness. Innovative ideas should not stop at national borders, they should grow through cross-fertilisation, testing and validation within the widest European pool of talent, facilities, infrastructure and financing. Just as European students benefit from the mobility experience of the Erasmus programme, young researchers from the Marie Curie actions, and young entrepreneurs from Erasmus for Entrepreneurs, young innovators too deserve the opportunity for cross-border mobility to the benefit of innovation in Europe. Existing mobility programmes do not match the scope covered by the YIM, which focuses on the Innovation process of developing new early-stage ideas into demonstrators. For instance, this project differentiates itself from Erasmus for Young Entrepreneurs which is mainly a business exchange programme focussed on the post-innovation stage, enabling new entrepreneurs to learn or improve their business-related skills. By combining the benefits of mobility, the need to narrow the innovation gap and the need to change the mindset to promote innovation, the proposal for a YIM constitutes a concrete step towards the implementation of the Europe 2020 Strategy for growth and jobs and the 'Innovation Union' as well as 'Youth on the Move' flagship initiatives in particular. The YIM action aims to support a minimum of 100 young innovators. YIM would operate as a borderless mobility and innovation residency programme, enabling young (25 to 36 years old) and potential innovators (18 to 24 years old) to work on their own early-stage idea as a 'young innovator in residence' at a host organisation which could be a large or small company, start-up, laboratory, university, institute, government agency or NGO.

Part of these appropriations should go to improved educational models for tackling early school leaving. The Europe 2020 Strategy aims to address the issue of early school leaving by setting it as one of the headline targets for Member States to follow so as to reduce the average rate of early school leavers to no more than 10 %. Within this framework, Member States are also encouraged to exchange best practices in order to solve this issue at national and European level. This matter links closely with another objective of the Europe 2020 Strategy which places improving the quality of education in all Member States at the heart of the Union's journey towards creating a smart, sustainable and inclusive economy.

For this reason, European partnerships should be set up and best practices exchanged in the area of early school leaving with the main objectives of:

- impacting directly upon the early school leaving rate by identifying and targeting children from disadvantaged social and economic backgrounds from a very early stage in their education,
- by exchanging best practices and, using different educational models, offering children that are most likely to be affected by this phenomenon, the necessary incentives to stay in school,
- providing a platform for teachers and school administrators to share ideas and experiences with the goal of developing improved policies and stimulating new innovative education practices,

- supporting children from an ethnic minorities background (including Roma) throughout their early education years so as to prevent school drop-outs later on,
- improving the educational outcomes and increase performance in both the less performing and better performing countries within the Union, since it is anticipated that all participants stand to gain considerably from this process of cooperation.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

This appropriation is intended to cover the costs of studies for students coming from the European Neighbourhood Policy (ENP) countries and for the related academic activities.

The new enhanced ENP, as projected by the Council and the European Parliament in their respective decisions and resolutions, especially in the light of the two major neighbourhood political projects, the Union for the Mediterranean and the Eastern Partnership, necessitates preparing future European and neighbouring countries interlocutors, i.e. personnel for EU-ENP-related jobs. They should be fully and professionally acquainted with the substance and spirit of Union policies, law and institutions and the *acquis* of the Union. That requires a focused and sophisticated offer, which can be delivered only by a highly recognised academic institution already specialising in this field that is the College of Europe. The two campuses of the College of Europe — one in Bruges, Belgium, close to the Brussels institutions and expertise, the other in Natolin/Warsaw, Poland, specialising in non-Union neighbourhood and border policies (the Frontex Agency being based in Warsaw) — are best-placed to offer tailor-made programmes.

Remarks

This appropriation is intended to cover the completion of measures supported before 2007 under the following budget headings:

- European Bureau for Lesser-Used Languages and Mercator,
- subsidies for European interest organisations,
- framework programme in support of culture,
- completion of previous programmes and measures,
- preparatory actions for cooperation in cultural matters,
- promotion and safeguarding of regional and minority languages and cultures.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this Item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

Remarks

This pilot project would aim to create an 'open laboratory' to test innovative approaches to deal with content for innovation and digital sharing and distribution. It would therefore be a way to explore new business models respecting 'diversity' in the production and distribution chain.

It seeks to answer the questions posed by the Digital Agenda for Europe, namely how, in a 'globalised' digital environment where the trend is to simplify, unify and reduce the diversity of innovative potential to one main line (linguistic for example), to ensure and maintain a diversity of approaches and creative processes, creative industries on small scales, while exploiting in full the potential of digital communication technologies for economic and social development in the framework of the Europe 2020 Strategy.

This 'laboratory' would also provide a larger scale of skills and tools for young people to be actively included in the innovation trend.

A certain number of partners from different Member States should be associated and provide a broad scale of results at European level.

Remarks

In accordance with the 'Culture programme 2007-2013', this appropriation is intended to cover the following measures:

- support for cultural cooperation projects in all artistic and cultural fields including those by young people (performing arts, plastic and visual arts, literature, heritage, cultural history),
- support for projects in the area of intercultural dialogue,
- support for work to analyse, collect and disseminate information in the field of cultural cooperation,
- support for European endangered languages, regardless of whether these languages are considered official languages by the Union, such as projects and networks providing educational material, teacher training, use of endangered languages as education media, language regeneration and exchange of best practice, etc.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. Remarks

‘Creative districts’ is an expression which seeks to merge the traditional meaning of ‘industrial district’ with the sense of ‘creative industries’ as defined in the Commission’s Green Paper on unlocking the potential of cultural and creative industries of 27 April 2010: a local territorial area, characterised by an intense concentration of medium, small and micro-enterprises characterised by their particular specialised production and the close linkage with the resident population, where their outputs, although mainly functional, have a cultural or creative dimension.

The ‘creative districts’ are industrial districts in which:

- products and connected services are deeply linked with the enhancement of creative potential of the involved human capital, via close linkage with products and connected services throughout the production process;
- products and connected services are characterised by their high added value;
- enterprises, civil society, educational system, and institutions have traditionally experienced and developed strong cohesion and interrelationship;
- both dimensions of aesthetics and working ethics meet in a continuous and dynamic dialectic, depending on economic needs of the social context to which they relate;
- the established unique ‘know-how’ expresses itself in ‘crafts of beauty’ — i.e. related to wood products, ceramics, leather manufacturing, etc. — and its long life is based on tradition and the chance of becoming a heritage;
- cultural, craft and manufacturing traditions need to find new forms of transmission so as to preserve the cultural and material heritage of excellence and to ensure sustainable economic and social development.

The project aims at realising a set of coordinated actions:

- definition of common parameters valuable in showing a specific culture and the common features of creative districts’ products or services, through the research and the analysis of all experiences;
- creation of a network of European creative districts, in order to define the exchange of information and best practices;
- creation of a common brand to represent and communicate the originality of the creative districts and their ‘crafts of beauty’;

COMMISSION

TITLE 15 — EDUCATION AND CULTURE

CHAPTER 15 04 — DEVELOPING CULTURAL AND AUDIOVISUAL COOPERATION IN EUROPE (*cont'd*)15 04 51 (*cont'd*)

- development of innovative intervention plans focused on the protection of creative districts' products and services against the risk of counterfeiting;
- promotion of the partnership between creative districts in order to develop the exchange of young students and trainees within Member States to mix experiences and to value differences;
- enhancement of social cohesion and know-how communication between generations through innovative actions of exchange and sharing;
- strengthening of network building capability of creative districts, through the development of synergies between companies, institutions and social bodies of their working area.

European creative districts represent one of the clearest examples of the excellence of European productive culture. The development of human capital's creativity, high quality products and the strong interaction between all players involved — economic system, society and institutions — are their specific features.

Remarks

This appropriation is intended to cover the following measures:

- support for the pre-production phase:
 - favour the acquisition of skills and qualifications for audiovisual professionals in the fields of scriptwriting, management and new technologies. For example: support the mobility of trainers; scholarships for professionals from the new Member States,
 - support the development of audiovisual works, in respect of the creative (scripts) as well as economical aspects (production strategies, distribution and promotion). For example: support the development of individual projects or catalogues of projects; support intended to facilitate access to financing by small and medium-sized enterprises, including the MEDIA Production Guarantee Fund,
- support for the post-production phase:
 - support the transnational distribution of European works, to improve the circulation of non-national European works. For example: support cinema and video distribution of non-national European films; automatic and selective support for distributors of non-national European films, support for promotion kits, support to digitisation,
 - improve the promotion of European works. For example: ensuring access by professionals to European and international markets; ensuring access by the audience to works reflecting European cultural diversity,
- support innovation and enable the programme to adapt to technological changes. Action: support pilot projects, notably in respect of digital technologies, including support to the digitisation of cinema theatres,

Remarks

This item is intended to finance a preparatory action that will have as its objective the provision of information on the degree of complementarity between the different platforms of distribution available to European films: cinema release, VOD, DVD and, potentially, television.

This preparatory action will test the impact of a simultaneous, or semi-simultaneous release on all available platforms of distribution and in several territories. In order for this type of experiment to be useful, two criteria must be respected:

- focus on films where the release windows are ill-adapted, that is, works for which cinema release appears problematic (absence of a distributor, release on a limited number of prints, first film, etc.),
- involvement of a minimum number of films (at least 30 films) and a significant number of territories. This dimensional criterion is essential if meaningful conclusions are to be drawn from this preparatory action.

Legal basis

Preparatory action within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

This appropriation is intended to cover completion costs of measures supported as special annual events.

Special annual events supported are the following:

— the 5th Tafisa World Sport for All Games 2012

The 5th Tafisa World Sport for All Games 2012 will be held in Šiauliai, Lithuania, from 5 to 11 July 2012. The first Tafisa World Sport for All Games were organised in Bonn (Germany) in 1992 and this is the second time that this remarkable sports event has been organised in the Union, which also provides a great opportunity for promoting European values worldwide. The 5th Tafisa World Sport for All Games 2012 encompasses the education of children and youth, programmes for strengthening family values, promoting healthy lifestyle, multisectoral cooperation, cultural heritage and sports in general. It truly is a unique opportunity for the public to discover both the traditional and modern games, and sports from different cultural backgrounds. As mentioned above, the sports programme involves not only traditional sports and games, but also demonstration sports, sports for disabled people, day of nations and mass sports events such as cycling, Nordic walking, gymnastics for all and many others.

The European Union Committee of the Regions, the Unesco, the International Olympic Committee (IOC) and the World Health Organization (WHO) are official patrons of the 5th Tafisa World Sport for All Games 2012.

CHAPTER 15 05 — ENCOURAGING AND PROMOTING COOPERATION IN THE FIELD OF YOUTH AND SPORTS (*cont'd*)15 05 06 (*cont'd*)

The 5th Tafisa World Sport for All Games 2012 will contribute substantially to broader European objectives. First and foremost, this event will contribute to the implementation of the 'Europe-2020' Strategy and to the aims set out in the Commission's 2007 White Paper on Sport, as well as to the European Council's Nice Declaration on Sport in 2000. It will also promote social mobility and inclusion within Europe as well as worldwide. More than 30 000 guests — including roughly 10 000 participants — are expected to attend the 5th Tafisa World Sport for All Games 2012, representing sports enthusiasts from various social groups. The sports for disabled people is one of the key elements of the Games' programme as it promotes social inclusion, which is one of the key values of the event. In addition, voluntary activities in sports will also be promoted: it is estimated that approximately 1 500 volunteers will be involved in the event, which encourages active citizenship at local and European level.

Finally, Tafisa World Sport for All Games 2012 will create wider possibilities for the promotion and exchange of the values of the Union, as participants from nearly 100 States of the world will gather together in the event.

— *European Youth Olympic Winter Festival 2013 Romania (EYOWH)*

The importance of sport has become more widely recognised at the European level, and the Union has gained more competence with the Lisbon Treaty. However, in terms of funding, there are still very few opportunities available at Union level for this field. Consequently, the European Youth Olympic Winter Festival 2013 Romania, the largest European multisport winter competition yet, is in need of funding for the event organisation aspect. Based on previous experiences where countries such as the Czech Republic, Spain or Poland have received funding through the European Parliament budget proposals in the special events line, the current proposal aims to help support all aspects relating to the organisational matters linked to the European Youth Olympic Winter Festival 2013 Romania (EYOWH). The host city and main action centre for this event will be Brasov.

As such, for the event, the following measures would be necessary:

- taking care of the logistical aspects that are linked to the EYOWH by providing offices, transport facilities, equipment for volunteers, necessary electronics systems, real time reporting electronics system, medical insurances for participants;
- providing support for the organisation of the opening and closing ceremonies of the festival, including all logistical and advertising matters linked to them;
- providing the marketing and advertising for the event, including an advertising campaign, a website, media centres, advertising material, such as publications, gadgets, leaflets and brochures.

— *The European Games of Disabled Youth 2012 (Brno, Czech Republic)*

The European Games of Disabled Youth take place in June 2012 in Brno, Czech Republic. This is a special annual event which importance goes far beyond the borders of South Moravia and Czech Republic. The European Games of Disabled Youth are organised in cooperation with European Paralympics Committee. The main goal of this special event is to encourage and promote the integration of disabled youth via the sports activities into major society. Youth from 30 countries around Europe are expected to participate. These sports will be conducted on the games: swimming, athletics, boccia, tennis, table tennis, basketball, cycling and archery. The competition is divided into three categories: masters, open and mixed. The mixed category is meant for disabled and non-disabled youth and this combination provides a huge field for social inclusion.

Remarks

This preparatory action will prepare for a programme in the field of sport for post-2013. It will test the feasibility and usefulness of existing ideas and concepts, aiming at creating a European dimension in sport.

The objective of this preparatory action is to test European partnerships, networks and the exchange of good practices. It will, in particular, focus on the following:

- fairness in sport competitions by supporting measures that prevent phenomena such as match-fixing;
- physical and moral integrity of sportsmen and sportswomen, and training conditions of minors;
- the role of sport as health-enhancing physical activity, in particular for elderly people;
- awareness-raising activities on the social and educational function of sport through different events and initiatives such as the European Capital of Sport;
- trans-border joint sport competitions in neighbouring regions and the Member States;
- awareness-raising and gathering information on 'indigenous sports' that form part of the shared cultural heritage in Europe;
- social inclusion and projects that support the local community; a sport organisation can prove its added value also outside sport-related issues.

In all of these areas, local needs with regard to population and age structure, inclusion, integration, accessibility, social isolation, fitness and health need to be taken into consideration.

This preparatory action will also include a feasibility study on a possible mobility programme 'Erasmus for sports', facilitating the exchange of athletes enrolled at universities and other institutes. Opportunities to train in foreign teams, sport academies and sports club would not only give the students the possibility to learn new training methods but also help them improve their language skills and cultural awareness.

Remarks

In accordance with the 'Youth in Action programme 2007-2013', this appropriation is intended to cover the following measures:

- Youth for Europe: the aim of this action is to support exchanges between young people in order to increase their mobility and youth initiatives, projects and activities concerning participation in democratic life, in order to develop young people's citizenship and mutual understanding,
- European Voluntary Service: the aim of this action is to boost young people's participation in various forms of voluntary activities, both within and outside the Union,
- Youth of the World: the aim of this action is to support projects with the partner countries mentioned in Article 5 of Decision No 1719/2006/EC, in particular exchanges of young people and youth workers, and to support initiatives that reinforce young people's mutual understanding, sense of solidarity and the development of cooperation in the field of youth and civil society in these countries,
- youth workers and support systems: the aim of this action is to support bodies active at European level in the field of youth, in particular the operation of youth non-governmental organisations, their networking, the exchange, training and networking of youth workers, encouraging innovation and quality in the action undertaken, providing young people with information and developing the structures and activities needed for the programme to meet these goals,
- support for policy cooperation: the aim of this action is to organise dialogue between the various actors in the field of youth, in particular the young people themselves, youth workers and policymakers, to contribute to the development of policy cooperation in the youth field and to take the necessary steps and establish the networks necessary to better understand youth,
- addressing the special needs of youth in the European Neighbourhood Policy countries, both to the south and to the east, in order to boost mutual understanding, cooperation and exchanges and to build networks enhancing the capacity of youth NGOs.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Remarks

Europe needs to become more attractive to researchers, in order to increase Europe's capacity and performance in research and technological development and to consolidate and further develop the European Research Area. Against the background of growing competition at world level, the development of an open and competitive European labour market for researchers with diversified, attractive career prospects is needed.

The added value of the support provided by the specific 'People' programme is the promotion of the international and inter-sectoral mobility of researchers as a key driver for European Innovation. Marie Curie Actions also foster stronger cooperation between education, research and businesses from different countries in the training and career development of researchers to broaden their skills and prepare them for the jobs of tomorrow. A closer partnership between education and businesses should be further reinforced in order to increase knowledge transfers and enhance PhD training adapted to the needs of industry. By promoting employment conditions in line with the European researcher's charter and code, they contribute to making a career in research in Europe more attractive.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

This appropriation will also cover expenditure corresponding to revenue giving rise to the making available of additional appropriations from (non-European Economic Area) third parties or third countries participating in projects in the field of research and technological development.

Any revenue entered in Items 6 0 1 3, 6 0 1 5, 6 0 1 6, 6 0 3 1 and 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18 of the Financial Regulation.

CHAPTER 15 07 — PEOPLE — PROGRAMME FOR THE MOBILITY OF RESEARCHERS (cont'd)

15 07 77 (cont'd)

In addition, part of this appropriation is intended to finance a Young Innovators Mobility (YIM) action. It is generally recognised that professional mobility is essential to the development of a versatile workforce, to a sense of European citizenship, and to reinforcing Europe's competitiveness. Innovative ideas should not stop at national borders, they should grow through cross-fertilisation, testing and validation within the widest European pool of talent, facilities, infrastructure and financing. Just as European students benefit from the mobility experience of the Erasmus programme, young researchers from the Marie Curie actions, and young entrepreneurs from Erasmus for Entrepreneurs, young innovators too deserve the opportunity of cross-border mobility to the benefit of innovation in Europe. Existing mobility programmes do not match the scope covered by the YIM, which focuses on the Innovation process of developing new early-stage ideas into demonstrators. For instance, this project differentiates itself from Erasmus for Young Entrepreneurs which is mainly a business exchange programme focussed on the post-innovation stage, enabling new entrepreneurs to learn or improve their business-related skills. By combining the benefits of mobility, the need to narrow the innovation gap and the need to change the mindset to promote innovation, the proposal for a YIM constitutes a concrete step towards the implementation of the Europe 2020 Strategy for growth and jobs and the 'Innovation Union' as well as 'Youth on the Move' flagship initiatives in particular.

The YIM action aims to support a minimum of 100 young innovators. YIM would operate as a borderless mobility and innovation residency programme, enabling young (25 to 36 years old) and potential innovators (18 to 24 years old) to work on their own early-stage idea as a 'young innovator in residence' at a host organisation which could be a large or small company, start-up, laboratory, university, institute, government agency or NGO.

Remarks

This appropriation is intended to fund general information operations concerning the Union, for the purpose of increasing the visibility of the work of the Union institutions, the decisions taken and the stages in the building of Europe. It concerns essentially the funding or co-funding of the production and/or dissemination of multimedia (radio, TV, Internet, etc.), information products, including pan-European networks made of local and national media, as well as the tools necessary to develop such a policy.

The amount of assigned revenue in accordance with Article 18(1)(e) to (j) of the Financial Regulation is estimated at EUR 30 000.

Irrespective of the beneficiary, no administrative expenditure against this article is authorised.

The Commission, when implementing this budget line, should take duly into account the outcome of the meetings of the Inter-institutional Group on Information (IGI).

The results of the journalistic investigation selected will be published in at least all the Member States involved.

For this purpose, a feasibility study will be set-up in order to find new ways to launch this project. The study must look at ways in which independent, critical journalism can be funded by the EU, while ensuring the independence of information.

Remarks

Social media and the internet have drastically changed access to information and communication between people. The Union institutions should improve the way they use these groundbreaking tools. The Union institutions are not, as yet, very present on social media networks such as Twitter and Facebook (all Members of Parliament together have 900 000 fans on Facebook while President Obama alone has around 21 000 000 fans) and there is no joint communication policy between the various institutions on the use of these tools. Moreover these tools are still too often used as a way to simply spread a message, while these tools offer the opportunity of horizontal conversation between politicians and the people they serve. In contrast to other communication tools such as traditional media (TV, radio, newspapers), the internet (and social media in particular) should be used to allow citizens to interact: to provide policymakers with ideas and to prompt discussion on the different visions on policy proposals or projects.

COMMISSION
TITLE 16 — COMMUNICATIONCHAPTER 16 02 — COMMUNICATION AND THE MEDIA (*cont'd*)16 02 07 (*cont'd*)

The Union must adapt to the 2.0 social web reality in its communication strategy. The Union must allow its citizens to interact and to contribute. Regrettably, Union communication is currently still very much a top-down process that lacks interaction and adaptation to the possibilities offered by new media. Despite the user rate of social networks in Europe being 84,4 % (among internet users), the Union's communication strategy is not yet embracing social networks, internet and mobile services to improve access to information on Union policies or to involve European citizens in sharing their Union experience and to involve European citizens in the Union's decision making process. Some Members of Parliament and Commissioners may be using social networks very actively, yet the main Union institutions can do a lot to open up, to better include citizens and to make information available, searchable and sharable. With the pilot project 'Connecting Europe', budget will be invested in a joint new media strategy on access to information and communication by the three main Union institutions: the European Parliament, the Council and the Commission. The strategy should be implemented with the involvement of people within the Union institutions as well as outside experts, civil society and grass roots. The rise of social networks has led businesses to create the job of 'community manager'. Community managers act as an interface between a company and its clients, they 'spread the good word about the company in a language that is specific to social networks, they manage virtual communities and understand and respond to their needs'. With this pilot project, the Union 'community managers' could be introduced to make information about the Union accessible and to represent the various Union institutions or disseminate independent knowledge about the Union on the web. Such a strategy will allow the Union to be more efficient, to save on budgets, to better reach out to young citizens and to be better informed about what citizens of the Union expect or want. Through the increase of interaction, a dialogue will be fostered not only between the Union and its citizens but also between the citizens themselves. It would connect the Union's institutions to citizens and make the Union more accessible to the rest of the world. Such a strategy must also include the release and use of open data. Open data is information that was acquired with public funds and that can be released back to the public so that new ways of using it can be developed. Information that is public should be digitised, machine readable and searchable. By making information about the Union more accessible, the EU could reach out to a much larger public and broaden the public sphere. The Union should recognise that citizens themselves are now able to use data effectively to hold elected leaders accountable. In many cases citizens can even collect data from the civic environment themselves and build new tools, techniques, and platforms that go beyond simple e-government interaction but herald a new era of 'we-government' innovation.

'Connecting Europe' should integrate (parts of) existing programmes such as Europe Direct, Euronews, the various web platforms, communication strategies and archives of Union information.

Remarks

This appropriation is intended to cover the Union’s expenditure on decentralised communication. The aim of local communication activities is in particular to provide target groups with the tools to gain a better understanding of burning topical issues.

These activities are implemented mainly via the Commission Representations in the Member States through:

- seminars and conferences,
- organisation of or participation in European events, exhibitions and public-relations activities, organisation of individual visits, etc.,
- direct communication measures targeted at the general public (e.g. citizens’ advice services),
- direct communication measures targeted at opinion multipliers, in particular stepped-up measures involving the regional daily press, which is a major information outlet for a large number of European citizens,
- the management of information centres for the general public in the Commission Representations.

This appropriation also covers the repayment of travel and related expenses of persons invited to follow the work of the Commission.

The amount of assigned revenue in accordance with Article 18(1)(e) to (j) of the Financial Regulation is estimated at EUR 5 000.

Conditions for releasing the reserve

The amount in the reserve will be released once the Commission submits the assessment report on the management and functioning of the European Public Spaces (EPS), together with the working programme for the year to come, as referred to in the budgetary remarks on the EPS, and makes a clear commitment to effectively improve interinstitutional cooperation as regards the EPS.

Remarks

This appropriation is intended to cover specifically the opening and management of ‘European Public Spaces’ (EPS) in the Europe Houses that are formally hosting the EPS. The Commission is to manage the logistical arrangements for the EPS for the benefit of both institutions (the European Parliament and the Commission), including operational costs and the organisation of contracted services. The EPS must be run jointly by the two institutions on the basis of an assessment report on the management and the functioning of the EPS, as well as of a working programme for the year to come. Both these documents, which are drafted jointly by the two institutions and constitute the fundamental elements for allocation of funds for the following year, are to be presented to the budgetary authorities in time to be taken into account in the budgetary procedure.

Remarks

This appropriation is intended to fund communication activities mainly around communication priorities at Commission level and at Union level.

This appropriation is intended primarily to cover the provision of information to citizens, as far as possible in their mother tongue, about the Union's present and future options and involving them in a debate on this subject.

It covers in particular activities such as:

- communication operations linked to specific annual or multiannual communication priorities,
- ad hoc communication operations on a national or international scale that fit in with the communication priorities,
- communication operations organised in partnership with the European Parliament and/or the Member States in order to create synergies between the means of each partner and to coordinate their information and communication activities on the European Union. One of the privileged tools to address this approach is the management partnership.

This appropriation also covers the repayment of travel and related expenses of persons invited to follow the work of the Commission.

Implemented in close cooperation between the Union institutions and the authorities in the Member States and/or civil society, these activities take account of specific national and regional features.

The Interinstitutional Group on Information (IGI), co-chaired by the European Parliament, the Council and the Commission, lays down common guidelines for interinstitutional cooperation in matters of the Union's information and communication policy. It coordinates the central and decentralised public information activities on European topics. Each year the IGI gives its opinion on the priorities for the following years based on a report drawn up by the Commission.

Irrespective of the beneficiary, no administrative expenditure against this article is authorised.

The amount of assigned revenue in accordance with Article 18(1)(e) to (j) of the Financial Regulation is estimated at EUR 40 000.

Conditions for releasing the reserve

To release the reserve, the Commission must submit a communication to the European Parliament and the Council on inter-institutional cooperation on communication with a view to the 2014 European elections. The communication will outline the Commission's views on how interinstitutional cooperation could be organised as regards budget funding and key activities in Brussels and the Member States. The Commissioner must give an undertaking in writing that the communication will be submitted in the first half of 2012.

Legal basis

Tasks resulting from the Commission's prerogatives at institutional level, as provided for in Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

This appropriation is intended to cover the analysis of trends in public opinion, mainly by means of opinion polls (e.g. general-public 'Eurobarometer' surveys, 'flash' surveys, by telephone, of specific populations on particular subjects, at regional, national, or European level, or qualitative surveys), together with quality control of these surveys.

It also covers qualitative media monitoring analysis.

The Commission, when implementing this budget line, should take duly into account the outcome of the meetings of the Inter-institutional Group on Information (IGI).

Remarks

This appropriation is intended to cover online multimedia and written information and communication tools concerning the European Union, for the purpose of providing all citizens with general information on the work of the Union institutions, the decisions taken and the stages in the building of Europe. Online tools make it possible to gather citizens' questions or reactions on European issues. This is a public service task. The information covers all the Union institutions. These tools must be made accessible to people with disabilities, in accordance with Web Accessibility Initiative (WAI) guidelines.

The main types of tool concerned are:

- the Europa site, which must constitute the main point of access to the existing information and websites concerning the administrative information which European citizens might need in their daily lives and which therefore must be better structured and made more user-friendly,
- the *Europe Direct* contact centre (00800-67891011),
- the Internet sites, multimedia and written products of the Commission Representations in the Member States,
- online press releases, speeches, memos, etc. (RAPID).

This appropriation is intended to fund the restructuring of the Europa site in a more coherent way. It is also intended to cover information campaigns for facilitating access to these sources of information, especially for the Europe Direct telephone number.

This appropriation also covers the expenditure relating to the production for various target groups of written publications concerning the Union's activities that are often distributed through a decentralised network, mainly:

- the Representations' publications (paper newsletters and periodicals): each Representation produces one or more publications that are distributed among multipliers and cover various fields (social, economic and political),
- the dissemination (also through a decentralised network) of specific basic information on the Union (in all the official Union languages) for the general public, coordinated from headquarters, and promotion of the publications.

Publishing costs cover, among other things, preparation and drafting (including authors' fees), freelance editing, use of documentation, reproduction of documents, data purchase or management, editing, translation, revision (including checking the concordance of texts), printing, posting on the Internet or installation in any other electronic medium, distribution, storage, dissemination and promotion of the publications.

The Commission, when implementing this budget line, should take duly into account the outcomes of the meetings of the Inter-institutional Group on Information (IGI).

The amount of assigned revenue in accordance with Article 18(1)(e) to (j) of the Financial Regulation is estimated at EUR 5 000.

Irrespective of the beneficiary, no administrative expenditure against this item is authorised.

Remarks

Decision No 1926/2006/EC establishes a general framework for financing Union action in support of consumer policy (2007-2013) as defined in the multiannual strategy. The decision and the strategy entail two strategic objectives in the medium term:

- ensuring a high level of consumer protection, notably through improved evidence, better consultation and better representation of consumers' interests, and
- ensuring the effective application of consumer protection rules notably through enforcement cooperation, information, education and redress.

The consumer programme consolidates and expands the action areas of the 2002-2006 consumer programmes. It considerably expands Union activities on developing the knowledge and evidence base, enforcement cooperation, market surveillance and product safety, consumer education and capacity building for consumer organisations.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Remarks

The purpose of the pilot project is to promote consumer empowerment, efficiency and stability of European financial markets, notably through consumer empowerment in financial services via training actions and the provision of advice to consumers.

The project includes:

- the mapping in each Member State of the non-profit entities that provide general advice on financial services to consumers, including the assessment of best practices for the provision of general financial advice,
- the identification of training needs relating to the financial advice of those entities,
- training courses in financial services for consumer associations and other interested non-profit parties who provide information and advice to end users of financial services.

Remarks

This appropriation is intended to cover the Centre's personnel and administrative expenditure. In particular, Title 1 covers the salaries of permanent staff and seconded experts, the costs relating to recruitment, interim services, staff training and mission expenses. Title 2 'Expenditure' relates to the renting of the ECDC office facilities, the fitting-out of premises, information and communication technology, technical installations, logistics and other administrative costs.

The Centre must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure.

During the budgetary procedure and even during the financial year, when an amending letter or an amending budget is submitted, the Commission shall inform the budgetary authority beforehand of any changes in the Centre's budget, in particular concerning the establishment plans published in the budget, for which the budgetary authority's prior agreement is required. Such a procedure is in accordance with the provisions on transparency set out in the Interinstitutional Declaration of 17 November 1995 and implemented in the form of a code of conduct agreed by the European Parliament, the Commission and the agencies.

The Centre's establishment plan is set out in the Part entitled 'Establishment plan staff' of Section III — Commission (Volume 3).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

The amounts repaid in accordance with Article 16 of the Framework Financial Regulation for the bodies referred to in Article 185 of the Financial Regulation constitute assigned revenue (Article 18(1)(f) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

Remarks

The second health programme replaces the previous programme established by Decision No 1786/2002/EC and covers the period 2008-2013.

Since 2008, as far as the health area is concerned, the programme has been focusing on three pillars where action at Union level is essential:

(1) Health information

The objective of this pillar is to strengthen the collection, analysis, exchange and dissemination of health-related information in the Union — including on disabilities and 'dys' conditions — which is necessary to provide a solid foundation for health policymaking and is also needed by professionals for their work and by citizens to enable them to make healthy lifestyle choices.

Actions will further include research into multiple sclerosis, with special attention being paid to identifying the factors behind the difference in the incidence of the disease between northern and southern parts of Europe.

Actions should also include measures to help boost research into the possible causes of amyotrophic lateral sclerosis (ALS), with particular attention being paid to professional sports and the possible influence of substance abuse in the world of sport.

(2) Health security

The overall objective is to protect citizen against health threats.

An effective rapid response capability is needed to avoid threats to public health, for example arising from communicable diseases or chemical or biological attacks. Tackling such threats needs to be coordinated effectively at Union level. Union integration based on the principle of free movement increases the need for vigilance, in order to respond to major cross-border health threats such as avian flu, or bioterrorism.

(3) Promote health to improve prosperity and solidarity

The overall objective is to contribute to the prosperity of the Union by fostering healthy ageing and bridging inequalities as well as to enhance solidarity between national health systems.

COMMISSION

TITLE 17 — HEALTH AND CONSUMER PROTECTION

CHAPTER 17 03 — PUBLIC HEALTH (*cont'd*)17 03 06 (*cont'd*)

Actions will include initiatives to increase healthy life years and promote healthy ageing, to explore health's impact on productivity and labour participation, and to support the reduction of inequalities between Member States and investment in health, thus contributing to the Europe 2020 Strategy, and to productivity and growth. Actions will also enhance solidarity between health systems, including cooperation on shared challenges, thus facilitating the development of a Union framework for safe, high-quality and efficient health services. Actions should also include initiatives to evaluate, by independent organisations, the quality of service provided by emergency medical services from the moment an alert is launched by citizens (e.g. through emergency call numbers) until the victim is transferred to hospital care; the aim is to help improve emergency medical services on the basis of comparable data and the identification of best practices to be exchanged between Member States.

Actions will further include the promotion of health by tackling environmental, addiction and lifestyle determinants.

Non-governmental organisations are key players in the implementation of the programme. Therefore, they should be allocated adequate funds.

Actions will also include appropriate initiatives to follow up on the recommendations obtained through the Green Paper consultation on mental health, and in particular on strategies to prevent suicide across the lifespan.

The objective is also for the Commission to implement the Health In All Policies strategy under the Structural Funds. Such a project should cover proposals for methods on how health issues could be incorporated — in accordance with the Health In All Policies strategy — into regional development projects. The project aims to enhance overall health in the Union by means of capacity building in the context of regional development agencies.

The budget should cover training courses, international events, exchange of experiences, good practices, and international collaboration with a view to the practical use of Health Impact Assessment (HIA) both for local government and development agencies and for individuals or companies willing to apply for a grant provided by the Union.

With regard to the crucial importance of small and medium-sized enterprises in the Union, they should be provided with professional support for compliance with environmental health rules, and to help them make positive changes to environmental health affecting company operation.

A European database on health issues and a database on environment issues should be interconnected so that further research could be improved for analysing the link between environment quality and state of health.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

This appropriation is intended to fund initiatives which help deal with the new employment situation in the health sector, particularly in relation to professional qualifications and duties carried out by healthcare workers, healthcare assistants and lower-skilled nurses and which help examine the effects of cross-border mobility both in the host country and the country of origin. Measures covered will include:

- analysing factors and policies with a view to better meeting the need for measures to increase the supply and improve the qualifications of health care staff in the long run,
- promoting exchanges on policies and best practices with a view to coping with the increase in care consumption due to demographic change,
- funding initiatives which help examine cross-border effects on health services,
- paying attention to the effects of different levels of remuneration, which may come to light in this context,
- studies, meetings with experts and information campaigns; a solution should also be found to maintain the level of care in national healthcare systems,
- analysing the relationship between healthcare and social care and work on producing comparable data. A solid database, which also includes gender and diversity aspects, will be crucial to enhance the open method of coordination when it has been extended to healthcare.

Remarks

Environment and health are important cross-sector fields in the European Environment and Health process connecting environmental policies and approaches. This process is vital for good quality of life and sustainable development. The objectives of the project are that the nine countries involved (Austria, Bosnia and Herzegovina, Finland, Hungary, Italy, the Netherlands, Norway, Serbia and Slovakia) should:

- assess the associations between the school environment and children's (respiratory) health,
- assess the associations between the impact of transport on the school environment and children's (respiratory) health,

- assess the associations between the impact of climate change on the school environment and children's (respiratory) health,
- issue recommendations for improving the quality of the school environment for the better health of children and a Guideline for Healthy European Schools.

This article has had no new commitment allocations since 2009. The funded initiatives are currently ongoing and completion is expected by the end of 2012.

Remarks

This appropriation is intended to cover the Agency's staff and administrative expenditure (Titles 1 and 2), including expenditure following the adoption of Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use (OJ L 378, 27.12.2006, p. 1).

The Agency must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure.

During the budgetary procedure and even during the financial year, when an amending letter or an amending budget is submitted, the Commission shall inform the budgetary authority beforehand of any changes in the budget of the agencies, in particular concerning the establishment plans published in the budget. Such a procedure is in accordance with the provisions on transparency set out in the Interinstitutional Declaration of 17 November 1995 and implemented in the form of a code of conduct agreed by the European Parliament, the Commission and the agencies.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The amounts repaid in accordance with Article 16 of the framework Financial Regulation for the bodies referred to in Article 185 of the Financial Regulation constitute assigned revenue (Article 18(1)(f) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

The Agency's establishment plan is set out in the Part entitled 'Establishment plan staff' of the Section III — Commission (Volume 3).

Remarks

The pilot project aims at underlining the importance of a correct and healthy diet with a focus on the ageing population.

The ageing of the population of Europe is a demographic phenomenon that is due to a decrease in fertility and to an increase of life expectancy among European citizens.

The population of Europe is expected to age over the next 40 years and this phenomenon is closely related to nutrition issues.

As recognised in various studies, nutrition has a strong and important impact in the treatment and prevention of several diseases and in maintaining good health and quality of life in an ageing population.

With advancing age, there is a high incidence of chronic diseases. Evidence points to the important effect of nutrition and, in particular, of a balanced and healthy diet based on fruit and vegetables, and on one's susceptibility to such diseases and their development and outcome.

This project also seeks to provide parents and children with information on nutrition. It will focus on the early years of life, and could therefore cover prenatal nutrition, breastfeeding, and childhood nutrition. The project has two main objectives, namely to educate parents on the importance of good nutrition for their children, and to educate children so they consciously make healthy lifestyle choices throughout their lives. The project will operate within the framework of the Health Programme and will specifically address two of the programme's overarching objectives: that of promoting health and reducing health inequalities, and that of disseminating health information.

This pilot project will try to reach its target audiences through a range of channels, such as pre-natal classes, hospitals, nurseries and pre-school establishments, and schools. It should involve appropriate civil society organisations, such as health-orientated NGOs, as well as healthcare professionals such as, for instance, paediatric doctors and midwives, and national and regional health authorities. Cooperation between these different actors should aim to deliver targeted education about nutrition, independently of the food industry, to both parents and children. Information campaigns could be launched in the form of leaflets (to be given, for example, to pregnant mothers by midwives, or to parents by paediatric doctors) or presentations in schools.

Remarks

Diabetes mellitus type 2 is a chronic disease and one of Europe's biggest public health challenges. Over 30 000 000 European citizens are living with diabetes and this number clearly indicates that diabetes has reached the dimensions of a social and economic disaster. The average Union prevalence rate in the adult population of the Union is of 8,6 % and it is expected to grow to over 10 % by 2025. Diabetes is one of the top ten causes of disability, and leads to devastating complications such as cardiovascular disease, blindness and renal failure. As a result, a large proportion of healthcare budgets in the Union is currently spent on treating and managing diabetes and its complications. For example in 2010, an average of 10 % of the healthcare budgets in the Union was spent on diabetes.

Both the occurrence and consequences of type 2 diabetes have been shown to be preventable through various measures, such as timely identification of people at risk, development of awareness campaigns and educational programmes focused on encouraging healthy living habits and good quality preventive care. However, to ensure success in preventing diabetes, the burden of this growing epidemic must be addressed in a collaborative manner by all relevant stakeholders — healthcare professionals, people with diabetes, the general population, the media, the food industry, local market chains, and policymakers.

This pilot project proposes a two-phase innovative approach for diabetes prevention. The first phase will include the development of systematic approaches to the early diagnosis of people who already have diabetes and for the identification of those at risk, such as those with the metabolic syndrome. The second phase will consist of the development and evaluation of structured action programmes for diabetes prevention for those at risk.

TITLE 17 — HEALTH AND CONSUMER PROTECTION

CHAPTER 17 03 — PUBLIC HEALTH (*cont'd*)17 03 13 (*cont'd*)

1. Population screening will be carried out on a small scale (3 000 to 10 000 people), meaning that screening will involve the whole population living in a certain village or town within five selected Member States. This innovative approach is proposed in order to:

- ensure maximum precision of the data evaluation,
- avoid the burden of administrative approvals that may be necessary for population screening at national level,
- efficiently manage the data acquired via screening and the impact of the implemented prevention measures,
- generate local enthusiasm towards the project's objectives and engage the attention of all relevant stakeholders.

2. All relevant local stakeholders will be involved in the project and will work together in a coordinated manner:

- healthcare professionals will be involved in screening, monitoring/data collection, and in the development of educational programmes,
- the local population will be encouraged to develop a collaborative and an open attitude towards the screening programmes and to actively participate in educational activities on diabetes,
- the media will be involved in developing awareness campaigns and will help to disseminate the information about the objectives and status of the project,
- the food industry and local market chains will promote and encourage the consumption of food products with low content of saturated fats, trans-fats, salt and sugar,
- local government policymakers will translate the results of the project into guidelines and strategies for the prevention of diabetes.

Objectives:

- to establish a coordinated collaboration between physicians and other healthcare professionals (nurses, nutritionists, psychologists, researchers), the general population, the food industry, local market chains, the media and local policymakers with a view to preventing type 2 diabetes,
- to develop small-scale screening programmes for the early diagnosis of people with diabetes and for the timely identification of people at risk. Population screening will be divided into four groups:
 - new-born screening for babies at risk (e.g. blood tests if one or both parents have diabetes),
 - screening of all school children and teenagers (e.g. blood tests, clinical examinations, evaluation of dietary habits, evaluation of physical activity, smoking, alcohol consumption, excess of fast-food, and others to be determined),
 - screening of the whole adult population (e.g. blood tests, clinical examinations, evaluation of food habits and relevant lifestyle factors),
 - screening of elderly people,
- to identify innovative approaches in order to involve the food industry and local public administration in the educational programmes,
- to develop educational programmes for the general population and especially for people diagnosed with type 2 diabetes, for those at risk and for the parents of new-borns or children suffering from diabetes or who are at risk,
- to establish standard screening programmes by identifying and selecting the best indicators/parameters to be measured, such as blood tests, food habits, physical activity, and others to be determined,
- to create a local food market which contribute to preventing the consumption of foods and drinks with high levels of sugar, salt, saturated fats and trans-fats,

COMMISSION

TITLE 17 — HEALTH AND CONSUMER PROTECTION

CHAPTER 17 03 — PUBLIC HEALTH (*cont'd*)17 03 13 (*cont'd*)

- to organise workshops and seminars in order to educate the local population on the importance of food quality and food content. The activities of the workshops and seminars can be linked to campaigns promoting the consumption of fruit and vegetables. For instance, local market chains could sponsor such events by offering fruit and vegetables to participants.

Involved regions or countries: a selection of five towns or villages (3 000 to 10 000 citizens) from five Member States.

Expected outcomes

The overall project goal is to identify and develop best practices for the prevention of type 2 diabetes. It is expected that some of the villages or towns participating in the project will be able to develop and implement a successful local strategy for preventing type 2 diabetes. The most successful strategies may be then translated or incorporated into future Union and national initiatives on diabetes (e.g. guidelines or recommendation on diabetes, National Diabetes Plans). The impact of the prevention measures developed during the project can be only assessed after a period of approximately two years from the beginning of the project. This impact assessment will be done by closely monitoring the health status of the local population participating in the project.

Starting date of the project: June 2012.

End date of the project: June 2014.

Remarks

In 2009, based on bacteria most frequently isolated from blood cultures in Europe, the European Centre for Disease Prevention and Control estimated that each year these selected multidrug-resistant bacteria resulted in about 25 000 patient deaths and in extra healthcare costs and productivity losses of at least EUR 1,5 billion each year. Over the past few decades, the irresponsible and incorrect use of antibiotics has accelerated this trend. Antimicrobial resistance is therefore a phenomenon which clearly has cross-border implications and the occurrence of an outlier effect, which would most probably not be manageable with the current resources and knowledge, cannot be excluded.

Aims of the preparatory action:

- to study the issue of the inappropriate use and sale of antimicrobial agents with or without prescription throughout the chain — from the doctor and the pharmacist to the patient — in terms of behaviour of all actors involved, by choosing as study-cases the key Member States with the highest degree of access to antibiotics without prescription. The action will seek to better evaluate the reasons for the inappropriate use of antibiotics, assess the level of antibiotics sold without prescription in the target countries (including the countries where the enforcement of legislation is poor), identify the reasons for such high levels of sales without prescription, assess whether there is enough information reaching the relevant actors, identifying their motives, incentives, practices and the perception of the overall threat of antimicrobial resistance and make recommendations on how to best address this situation,
- to contribute and lead to a comprehensive and integrated Union policy against AMR.

Remarks

This appropriation is intended to cover the creation of a Union network of experts that will promote and sustain innovative and adapted care structures for adolescents with psychological problems (houses for teens). It will collect, exchange, develop and share experience, knowledge and best practices in this field. The network must be seen as a follow-up action to the European Mental Health Pact and the series of conferences organised by the Commission in this field (on the agenda of the interministerial meeting of employment, social policy, health and consumers affairs of 6 and 7 June 2011).

The objectives of the Union network are:

- to collect, exchange, develop and share expertise, experience, knowledge and best practices,
- to promote, support and offer practical help for the creation of adapted care structures for adolescents,
- to facilitate reciprocal staff training, including study visits and traineeships,
- to raise the awareness of the general public and of national and European authorities,
- to promote a medical specialisation in adolescentology,
- to provide representation of its members in the European and international institutions.

Remarks

The Union's financial assistance helps accelerate the eradication or control of animal diseases by providing funds to supplement national financial resources and contributes to harmonising measures at Union level. The bulk of these diseases or infections are zoonoses communicable to man (BSE, brucellosis, avian influenza, salmonellosis, tuberculosis, etc.). Moreover, the persistence of the diseases in question hampers the smooth operation of the internal market; fighting them helps to improve the level of public health and to boost food safety in the Union.

Remarks

This appropriation is intended to cover the setting up of a European coordinated network for animal welfare, as called for by the Paulsen report on the evaluation and assessment of the Animal Welfare Action Plan 2006-2010 (PE 430.922 v02-00, A7-0053/2010). It should perform the tasks referred to in the Commission communication of 28 October 2009 on options for animal welfare labelling and the establishment of a European Network of Reference Centres for the protection and welfare of animals (COM(2009) 584).

Legal basis

Pilot project within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

This appropriation is intended to cover the Union's contribution to measures for eliminating obstacles to the free movement of goods in these sectors, for veterinary support and as back-up action.

It consists in providing financial assistance:

- for the purchase, storage and formulation of foot-and-mouth antigens and of different vaccines,
- for an information policy in the field of animal protection, including information campaigns and programmes to inform the public about the harmlessness of consumption of meat from vaccinated animals, as well as information campaigns and programmes emphasising the humane aspects of vaccination strategies in the fight against contagious animal diseases,
- for the monitoring of compliance with animal-protection provisions during the transport of animals for slaughter,
- for the development of marker vaccines or tests that can distinguish between sick and vaccinated animals,
- for the establishment and maintenance of a rapid alert system, including a worldwide rapid alert system, for the notification of direct or indirect risks to human and animal health deriving from food or feed,
- for technical and scientific measures necessary to develop Union veterinary legislation and for the development of veterinary education or training,

Remarks

The outbreak of some animal diseases in the Union could possibly have a major impact on the operation of the internal market and on the Union's commercial relations with third countries. Thus, it is important for the Union to make a financial contribution in order to allow the fastest eradication possible of any outbreak of a serious infectious disease in Member States by deploying Union resources to fight these diseases.

Remarks

This preparatory action was launched in 2008 to cover the costs of developing improved control posts (resting points) for animals during long journeys. In the interests of animal health and welfare, it has been necessary to introduce specific measures to avoid stress, for example, when animals are unloaded and reloaded, and to prevent the spread of infectious diseases.

The budgetary authority allocated new credits to pursue this action in 2009 and 2010.

Remarks

This appropriation is intended to cover the Agency's staff and administrative expenditure (Titles 1 and 2), including those stemming from the revision of the Agency's mandate, notably the establishment of the European Border Guard Teams, the task of providing fundamental rights training, the creation of a post of Fundamental Rights Officer and the setting up of a consultative forum.

The Agency must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure.

During the first half of 2012 the budget of the Agency shall be subject to an amendment in order to provide sufficient resources for the Agency to fulfil its new tasks under the new Regulation which will be coming into force and also for the possible establishment of Frontex operational offices.

The amounts repaid in accordance with Article 16 of the framework Financial Regulation for the bodies referred to in Article 185 of the Financial Regulation constitute assigned revenue (Article 18(1)(f) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

Any revenue from the contributions of Iceland, Norway, Switzerland and Liechtenstein entered in Item 6 3 1 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

The Agency's establishment plan is set out in the Part entitled 'Establishment plan staff' of Section III — Commission (Volume 3).

Any revenue from the contributions of Iceland, Norway, Switzerland and Liechtenstein entered in Item 6 3 1 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

The Union contribution for 2012 amounts to a total of EUR 88 500 000.

The appropriations foreseen in the operational budget would enable the Agency to sustain the commitment to permanent missions, notably at the southern borders of the Union (Hera, Nautilus and Poseidon), as from 2010 and to assist Member States with implementing the operational aspects of external border management, including return of third-country nationals illegally present in the Member States in accordance with common standards guaranteeing that they are returned with dignity and full respect for their human rights.

Conditions for releasing the reserve

The appropriations put into the reserve or parts of it shall be released in case this is necessary for the Agency to ensure the continuation of operations in the Mediterranean and at the border between Turkey and Greece.

CHAPTER 18 02 — SOLIDARITY — EXTERNAL BORDERS, RETURN, VISA POLICY AND FREE MOVEMENT OF PEOPLE (*cont'd*)18 02 06 (*cont'd*)

- operating equipment,
- means of transport for the surveillance of external borders, such as vehicles, vessels, helicopters, and light aircraft, specially equipped with electronic equipment for the surveillance of the border and the detection of persons in means of transport,
- equipment for the real-time exchange of information between relevant authorities,
- information and communication technology systems,
- programmes for the detachment and exchange between Member States of staff such as border guards, immigration officers and consular officers,
- training and education of staff in relevant authorities, including language training,
- investments in the development, testing and instalment of state of the art technology,
- studies and pilot projects implementing recommendations, operational standards and best practices resulting from operational cooperation between Member States in the field of border control,
- studies and pilot projects designed to stimulate innovation, facilitate exchanges of experience and good practice and improve the quality of the management of activities organised by the consular and other services of the Member States in third countries as regards the flow of third-country nationals in the territory of the Member States and cooperation between Member States in this regard,
- create a common Schengen visa Internet site in order to improve the visibility and uniform image of the common visa policy.

In the framework of the Kaliningrad Transit Scheme, this appropriation is intended to cover foregone fees from transit visas and additional costs (investment in infrastructures, training of border guards and rail staff, additional operational costs) incurred in implementing the Facilitated Transit Document and Facilitated Rail Transit Document scheme in accordance with Council Regulation (EC) No 693/2003 (OJ L 99, 17.4.2003, p. 8) and Council Regulation (EC) No 694/2003 (OJ L 99, 17.4.2003, p. 15).

At the Commission's initiative, it is also intended to cover transnational actions or actions of interest to the Union as a whole (Union actions) serving the general objective of contributing to the improvement of the activities organised by the consular and other services of the Member States in third countries as regards the flow of third-country nationals into the territory of the Member States and cooperation between Member States in this regard, including the activities of Asylum Liaison Officers and Immigration Liaison Officers, and the objective of promoting the progressive inclusion of customs, veterinary and phytosanitary controls in integrated border management activities according to policy developments in this field. These actions can also be used to provide supporting services to Member States in duly substantiated emergency situations requiring urgent action at the external borders of the Member States.

Moreover, each year the Commission will draw up a list of specific actions to be implemented by the Member States and, where appropriate, in cooperation with the Agency, that contribute to the development of the common integrated border management system by addressing weaknesses at strategic border points identified in risk analyses carried out by the Agency.

Any revenue from the contributions of Iceland, Norway, Switzerland and Liechtenstein entered in Item 6 3 1 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

Remarks

This appropriation will provide support for Member State measures to improve the management of return in all its dimensions while respecting fundamental rights through the use of the concept of integrated management, taking account of Union legislation in this field, in the following areas:

- the introduction and improvement of the organisation and implementation of integrated return management by Member States,
- the enhancement of the cooperation between Member States in the framework of integrated return management and its implementation,
- the promotion of an effective and uniform application of common standards on return according to the policy development in the field, with priority for voluntary return schemes,
- the organisation of information campaigns in countries of origin and of transit for prospective displaced persons, refugees and asylum seekers. These campaigns can take place in the framework of better cooperation with third countries that combat irregular migration and promote legal migration.

At the Commission's initiative, this appropriation is also intended to cover transnational actions or actions of interest to the Union as a whole (Union actions) concerning return policy. Studies to determine the existence of and evaluate mechanisms to support reintegration in selected third countries and examine the patterns of social and professional reintegration in the most relevant countries of origin, specifically in immediate eastern and southern neighbourhoods, are also covered.

This appropriation is also intended to finance a Union action to compile data for collaboration and exchange of best practices among childcare workers in closed detention centres for asylum seekers and immigrants.

Remarks

This appropriation is intended to cover earlier commitments.

The purpose of the action is to test hypotheses in the field of migration management. On the basis of its evaluation, it could lead to the development of a global approach, an objective set by the Union. The action will be based on three related components.

Component 1: Financial assistance for the employment of immigrants returning to their countries of origin with which there are readmission agreements.

Component 2: Organising information campaigns, in countries of origin, for applicants for immigration into the Union so as to inform them in particular about the dangers of illegal immigration.

Component 3: Reception in dignity and solidarity — Assistance to Member States in coping with the reception of irregular migrants arriving by sea. Measures would:

- assist Member States affected by sudden arrivals of migrants, e.g. by improving and exchanging good/best practices and providing interpreters and medical and legal teams,
- assist Member States to enhance reception quality and capacity, including temporary capacity, reception of irregular migrants at arrival points, e.g. by providing first aid and transport to adequate reception centres and improving/increasing reception facilities and conditions at those facilities,
- assist Member States in pooling resources to address particular pressures on their asylum systems, in particular through activities where specific expertise is needed, sharing knowledge and promoting joint approaches to address mass arrivals of asylum seekers at the external border of the Union.

Remarks

This appropriation is intended to finance, as regards structural measures, projects and measures concerning the reception of refugees, displaced persons and asylum seekers which meet the conditions governing eligibility for Union financial aid.

It is intended to support Member States' efforts to integrate refugees and other persons granted supplementary support, and to allow displaced persons to lead a life for which they themselves are responsible, through measures taken chiefly in the following areas:

- facilitating access to employment, including vocational training,
- acquisition of knowledge of the language, society, culture and institutions of the host country,
- facilitating access to housing and to the medical and social infrastructure of the host country,
- support for persons in particular need of protection, such as women refugees, unaccompanied minors and torture victims, including victims of forced abortion, female genital mutilation or coerced sterilisation and rape victims,
- integration into local structures and activities,
- improvement in public awareness and understanding of refugees' situation,
- analysis of the situation of refugees in the Union,
- training on gender issues and child protection for officials, healthcare workers and police officers at reception centres,
- separate accommodation for single women and girls.

Moreover, it is intended to support efforts of the voluntary burden sharing operations by Member States, such as the resettlement, reception and integration by Member States of refugees coming from third countries and recognised by UNHCR and transfers of applicants and beneficiaries of international protection from one Member State to another which grants them equivalent protection.

Part of this appropriation will be used for supporting the Member States in direct cooperation with United Nations humanitarian and other agencies which on a voluntary basis extend resettlement in a flexible manner in acute refugee situations. The focus will be on the most vulnerable groups and cases where other durable solutions are regarded as having been ruled out.

Particular attention should be given to when the appropriation can be used to demonstrate a significant and tangible act of solidarity at European level which can produce added value as part of a broader approach on delivery of humanitarian support to a country or region.

At the Commission's initiative, this appropriation is also intended to cover transnational actions or actions of interest to the Union as a whole (Union actions) concerning asylum policy and measures applicable to the target population of the Fund, in particular to offer adequate support to joint efforts by Member States to identify, share and promote best practices and establish effective cooperation structures in order to enhance the quality of decision making.

This appropriation is also intended to cover earlier commitments from ERF I and II, including those regarding voluntary repatriation.

It is also intended to finance a Union action to compile data for collaboration and exchange of best practices among childcare workers in closed detention centres for asylum seekers and immigrants.

COMMISSION

TITLE 18 — HOME AFFAIRS

CHAPTER 18 03 — MIGRATION FLOWS — COMMON IMMIGRATION AND ASYLUM POLICIES (*cont'd*)18 03 03 (*cont'd*)

A solidarity mechanism will be established to facilitate the voluntary reallocation of refugees and beneficiaries of international protection from Member States which are facing severe pressure from immigration flows to other Member States. The mechanism would be established at Union level and brought into operation on a trial basis so that it may eventually be continued under a Common European Asylum System. Member States would freely determine all aspects of the selection process on a voluntary basis. The Commission would set the framework, issue guidelines, encourage participation and facilitate management and coordination.

The mechanism should be established in line with the European Council Conclusions of 18 and 19 June 2009. The conclusions note that, in view of the present humanitarian emergency, concrete measures need to be quickly put in place and implemented. The European Council called for the coordination of voluntary measures for internal reallocation of beneficiaries of international protection present in the Member States exposed to specific and disproportionate pressures and highly vulnerable persons and welcomed the intention of the Commission to take initiatives in this respect, starting with a pilot project.

Remarks

In the event of mass influxes of refugees or displaced persons, emergency measures in the following areas can be taken under this article:

- reception and accommodation,
- provision of subsistence funds,

- medical, psychological and other assistance, aimed in particular at minors and including specialised assistance to women and girls who have fallen victim to harassment in any form or to criminal acts (rape, violence or specific forms of torture such as forced abortion, female genital mutilation or coerced sterilisation) or have suffered because of poor conditions as refugees,
- necessary staffing and administrative costs in connection with reception and carrying out the measures,
- expert missions and ancillary technical assistance for the identification of displaced persons,
- logistical and transport costs.

Under this provision, emergency measures can also be taken to address situations of particular pressure, characterised by the sudden arrival at particular points on the borders of a large number of third-country nationals who may be in need of international protection, where this places exceptionally heavy and urgent demands on the reception facilities, the asylum system or the infrastructure of the Member State(s) concerned and may give rise to risks to human life, well-being or access to protection provided for under Union legislation.

The duration of such measures must not exceed six months. Besides the measures listed above, emergency measures may include legal aid and language assistance and the provision of translation and interpretation services, country of origin information or expertise and other measures contributing to the rapid identification of persons who may be in need of international protection and to the fair and efficient processing of asylum applications.

Legal basis

Remarks

In view of the general objective of supporting the efforts of Member States to enable third-country nationals to fulfil the conditions of residence and to facilitate their integration into European societies, in accordance with the Common Basic Principles for immigrant integration policy in the European Union as adopted by the Council in November 2004 and with Parliament's resolution of 6 July 2006 on strategies and means for the integration of immigrants in the European Union, this appropriation will support measures in the following areas:

- facilitating the development and implementation of admission procedures relevant to and supportive of the integration process of third-country nationals,
- developing and implementing the integration process for third-country nationals in Member States,

Remarks

The main objective of this pilot project is to establish a network of contacts and discussion between targeted municipalities and local authorities in Member States which have just started a resettlement programme, or wish to participate in the near future, and Member States which are experienced in resettlement, drawing on UNHCR and non-governmental organisation (NGO) experiences and best practices in the resettlement and reintegration of refugees. The pilot project will cover the following actions:

- identifying municipalities or local authorities in Member States that have just started resettlement programmes (e.g. Portugal, Romania) or are about to do so (e.g. Spain) and arranging meetings with selected municipalities or local authorities in resettlement countries (e.g. the UK and the Netherlands) with a view to strengthening 'new' resettlement programmes and ensuring that they are of a high quality and sustainable,
- identifying municipalities or local authorities or NGOs in Member States not yet participating in resettlement programmes, but wishing to join the network with a view to future participation in such programmes,

COMMISSION

- holding meetings of representatives of the targeted local authorities and municipalities involved, along with the UNHCR, participating NGOs and representatives of resettled refugees, to lay down the activities to be developed jointly, including visits, exchanges of experience, training and thematic meetings focusing on issues such as housing, education and employment,
- designing a form for collecting information from the various stakeholders on procedures, types of monitoring prior to resettlement, types of information collected on the refugees to be resettled (including cultural, health and educational issues and diet), infrastructure, human resources, accommodation, reception, actions taken after resettlement for the integration of refugees, community participation in the process, any economic, legal or educational aid, the role of refugees already resettled in the integration process, and cooperation with NGOs,
- creating a task force, with the necessary human and technical resources, to make the practical arrangements for the project and in particular to provide for the necessary meetings, collect available information, create a website and content for it, thus increasing the exchange of information between the stakeholders in the resettlement process, and create links with existing resettlement-related projects and/or websites. This website will also allow information on past and future meetings between municipalities or local authorities to be made available to all interested parties on a systematic basis,
- collating the information gathered by the task force, which will then circulate it for discussion on the network, in order to draw conclusions on best practices.

The experience gained from the pilot project will be recorded and passed on to the Resettlement Unit in the European Asylum Support Office (EASO) once it has been set up.

The main objective of this pilot project is to create a new line of funding for the final benefit of victims of torture (EU or non-EU citizens) present in the Union. The pilot project will cover the following actions:

- to create rehabilitation centres for victims of torture or to support the existing ones by providing funds for their rehabilitation costs (premises, therapeutical staff, administrative staff, etc.) and their other activities (prevention, advocacy, training, legal support, etc.),

- to provide access to multidisciplinary support and counselling, including physical and psychotherapeutic treatment, psycho-social counselling, legal services, and socio-economic support to the victims,
- to support international networking between rehabilitation centres (within and outside the Union) in order to build capacities, support the exchange of good practices among specialists, allow peer supervision as a means of prevention of vicarious trauma, etc.,
- to support activities which aim to empower torture victims themselves and, in general, to support the ability of torture victims to integrate into society in European countries.

Remarks

This preparatory action aims to create a new line of funding to support the resettlement of refugees in emergency conditions that are not covered by the current European Refugee Fund (ERF) rules, and will not be covered in the near future as the current Fund, in its third iteration (ERF III), lapses in 2014. The activities carried out in the framework of this preparatory action, and the experiences collected within that framework, could then be integrated in the revision of the ERF planned for 2014.

The following actions are covered by this preparatory action:

- to support persons already recognised as refugees by UNHCR and ERF falling victim to natural disasters, armed attacks, etc.,
- to support emergency action in the case of groups of refugees, identified as priorities according to ERF and UNHCR rules, who are under armed attack, that have been victims of a natural disaster, or that face other conjunctures of extreme vulnerability and of a life-threatening nature,
- to fund rapid resettlement procedures of the Member States in conditions replicated from the routine resettlement activities funded by the ERF,
- to guarantee financing for emergency procedures without disruption of the ongoing ERF resettlement procedures,
- to provide, where needed, extra financial support during emergencies to the Office of the United Nations High Commissioner for Refugees (UNHCR) and to its liaison organisations in the Member States and at Union level,
- to strengthen the activities of the European Asylum Support Office, whose Resettlement Unit is expected to become operational during 2012, as a focal point during these emergency procedures.

Legal basis

Remarks

The aim of this pilot project is to identify good practices on prevention, reception, protection and integration policies for unaccompanied minors. The child may be returned to his or her country of origin where it will be necessary to guarantee reintegration or may be given the status of international protection or other legal status that allows the child to integrate in the Member State of residence; alternatively, the child may be resettled in the Union. In all these cases it is important that the interests of the child will be guaranteed. The pilot project should contribute to the implementation of the 2010 Commission action plan on unaccompanied minors (2010-2014) and actions specified thereof:

- identifying prevention actions and policies vis-à-vis the group to which the unaccompanied minors belong (e.g., asylum seekers, victims of trafficking, children who enter illegally into the Union) and/or the country or region of origin,
- identifying best practices on child reception and protection, and in particular on issues such as procedures at first encounter, legal representation, appointment of a guardian, access to and adequacy of reception facilities, initial interviews, education and medical care,
- identifying good practices in specific measures and procedural guarantees for unaccompanied minors in the Union,
- evaluating the various experiences of combating the phenomenon of missing children and identifying best practices,
- identifying best practices on restoring family unity and reintegration of unaccompanied minors in their countries of origin.

Remarks

Regarding the prevention and preparedness to terrorist attacks, this appropriation is intended to support the following areas:

- to stimulate, promote, and support risk and threat assessments on critical infrastructure, including evaluations on site, to identify possible targets of terrorist attacks and the possible need for upgrading their security,
- to promote and support the development of common security standards including cyber security, and an exchange of know-how and experience on protection of critical infrastructure,
- to promote and support Union wide coordination and cooperation on critical infrastructure protection.

Regarding the consequence management in case of terrorist attacks, this appropriation is intended to support the following areas:

- to stimulate, promote and support the exchange of know-how, experience and technology on the potential consequences of terrorist attacks,
- to stimulate, promote and support the development of relevant methodology and contingency plans, including with regard to a European cyber security strategy,
- to ensure real-time input of specific expertise on terrorism matters within overall crisis management, rapid alert and civil protection mechanisms.

In particular, this appropriation is intended to cover the following actions:

- actions on operational cooperation and coordination (strengthening networking, mutual confidence and understanding, development of contingency plans, exchange and dissemination of information, experience and best practice),
- analytical, monitoring, evaluation, audit and inspection activities,

Remarks

This appropriation is intended to support the following areas:

- to promote and develop coordination, cooperation and mutual understanding among law enforcement agencies, and other institutions (in particular organisations active in preventing violence and crime), other national authorities and related Union bodies,
- to stimulate, promote and develop horizontal methods and tools necessary for strategically preventing and fighting crime and cybercrime, such as prevention of urban violence, in particular urban violence affecting minors, or measures to prevent and combat juvenile delinquency through exchanges of best practice, networking of the authorities responsible and the implementation of pilot projects, also in the field of rehabilitation of minors former prisoners, public-private partnerships, best practices in crime prevention, comparable statistics and applied criminology,
- to improve cooperation as regards the confiscation and seizure of assets and of proceeds from illegal activities of criminal organisations between the national agencies competent for the recovery of assets, and
- to promote and develop best practices for the protection of crime victims and witnesses.

In particular, this appropriation is intended to cover the following actions:

- actions on operational cooperation and coordination (strengthening networking, mutual confidence and understanding, exchange and dissemination of information, experience and best practices),

*Remarks**Former Article 18 08 01 (in part)*

This appropriation is intended to cover the funding of priority information measures in the field of justice and home affairs.

It covers information and communication measures in the field of justice and home affairs in relation to the establishment of an area of freedom, security and justice (internal web sites, public events, communication products, Eurobarometer surveys, etc.). These measures are designed to be an effective channel of communication and dialogue between the people of the Union, stakeholders, and the Union institutions and take account of specific national, regional and local characteristics, in close cooperation with the Member State authorities.

The Commission has adopted a series of communications to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions on a new framework for cooperation in activities concerning the information and communication policy of the European Union (COM(2001) 354 and COM(2002) 350). These communications propose an interinstitutional framework for cooperation extended to Member States for the development of a communication and information policy strategy for the Union.

The Interinstitutional Group on Information (IGI), co-chaired by the European Parliament, the Council and the Commission, lays down common guidelines for interinstitutional cooperation in matters of Union information and communication policy. It coordinates the central and decentralised public information activities on European topics. Each year the IGI gives its opinion on the priorities for the following years on the basis of information provided by the Commission.

This appropriation is intended to cover the funding of an awareness-raising campaign by the Commission, in cooperation with civil society, on Union citizens' rights under Articles 18 to 25 of the Treaty on the Functioning of the European Union.

It is also intended to cover the funding of the information campaigns with regards to new transparency measures based on Article 15 of the Treaty on the Functioning of the European Union and Regulation (EC) No 1049/2001 of the European Parliament and of the Council of 30 May 2001 regarding public access to European Parliament, Council and Commission documents (OJ L 145, 31.5.2001, p. 43).

Legal basis

Tasks resulting from the Commission's prerogatives at institutional level, as provided for in Article 49(6) of the Financial Regulation.

Remarks

This appropriation is intended to cover:

- expenditure on technical and administrative assistance which the Commission may delegate to an implementing agency governed by Union law,
- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the beneficiaries and the Commission,
- expenditure on external staff at headquarters (contract agents, seconded national experts or agency staff) intended to take over the tasks previously conferred on dismantled technical assistance offices; expenditure on external staff at headquarters is limited to EUR 4 558 500; this estimate is based on a provisional annual unit cost per man-year, of which 93 % is accounted for by remuneration for the staff concerned and 7 % by the additional cost of training, meetings, missions, information technology (IT) and telecommunications relating to those staff members,
- expenditure on external staff in Union delegations (contract agents, local agents or seconded national experts) for the purposes of devolved programme management in the Union delegations in third countries or for internalisation of tasks of phased-out technical assistance offices, as well as the additional logistical and infrastructure cost, such as the cost of training, meetings, missions, IT and telecommunications and of renting directly caused by the presence in the delegation of the external staff remunerated from the appropriations in this item,
- expenditure on studies, meetings of experts, information systems and publications directly linked to the achievement of the objective of the programme.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 18(1)(aa) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers administrative expenditure under Chapters 19 02, 19 09 and 19 10.

Remarks

As part of the rationalisation and simplification of the instruments for external actions for the Financial Framework 2007-2013, the Aeneas programme, which provides for financial and technical assistance to third countries in the areas of migration and asylum, and was adopted on 10 March 2004 — and which followed the preparatory actions for 2001 to 2003 and the Communication from the Commission to the Council and the European Parliament of 3 December 2002 entitled 'Integrating migration issues in the European Union's relations with third countries' (COM(2002) 703 final) — was replaced by a thematic programme for cooperation with third countries in these fields under the financing instrument for development cooperation (DCI) (Regulation (EC) No 1905/2006).

The general aim of the DCI is to make the Union's external assistance more effective. Under this programme, the objective of the thematic programme on cooperation with third countries in the areas of migration and asylum is to support third countries in their efforts to ensure better management of migratory flows in all their dimensions. Appropriations are used to provide, in a specific and complementary way, technical and financial assistance for third countries to support them in these efforts.

The Union programme for the cooperation with third countries and regions of origin and transit has the objective of fostering the links between migration and development, as well as to mitigate the brain drain from south to north in the process, to promote well-managed labour migration, to fight illegal migration, to fight smuggling and the trafficking of human beings and facilitate re-admission, to protect migrants and to help third countries to improve their capacities to fulfil their international obligations in the field of asylum and migration.

This Union cooperation programme will finance appropriate actions which will join in a coherent way national and regional Union cooperation and development strategies regarding the third countries concerned and complete the actions — in particular in the fields of migration, asylum, border control, refugees and displaced people — provided for in the implementation of these strategies and financed from other Union instruments in the field of cooperation and development.

This thematic programme will, in the context of its new strategy, also take into account migration that results from climate change. The respect of democratic principles and the rule of law, as well as of human rights and of fundamental freedoms, will constitute an essential element for the application of this instrument. If necessary, and as far as possible, the actions financed will be associated with measures aimed at strengthening democracy and the rule of law and compliance with international instruments in this field, including the 1951 Geneva Convention relating to the status of refugees.

Partners eligible for financial support under this appropriation may include regional and international organisations and agencies (in particular, United Nations agencies), non-governmental organisations or other non-State actors, federal, national, provincial and local governments of third countries, their departments and agencies, institutes, associations and public and private operators.

COMMISSION
TITLE 19 — EXTERNAL RELATIONSCHAPTER 19 02 — COOPERATION WITH THIRD COUNTRIES IN THE AREA OF MIGRATION AND ASYLUM (*cont'd*)19 02 01 (*cont'd*)

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 18(1)(aa) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Appropriations under this article are subject to evaluations as established in Article 33 of Regulation (EC) No 1905/2006. These evaluations shall include aspects of input activities and chain of results (output, outcome, impact). The findings of the evaluations shall be used in the formulation of subsequent measures financed with these appropriations.

Legal basis

Remarks

The High Representative of the Union for Foreign Affairs and Security Policy must ensure that the European Parliament is closely involved in all stages of the decision-making process. The joint consultation meetings provided for under point 43 of the Inter-institutional Agreement of 17 May 2006 between the European Parliament, the Council and the Commission on budgetary discipline and sound financial management (OJ C 139, 14.6.2006, p. 1), which are to be further intensified on the basis of the Declaration by the High Representative on political accountability (OJ C 210, 3.8.2010, p. 1), must enhance a continuous dialogue between the High Representative and the European Parliament on the main choices for and aspects of the Union's CFSP, including consultations prior to the adoption of mandates and strategies.

19 03 01 ***Crisis management operations, conflict prevention, resolution and stabilisation, monitoring and security processes***

Remarks

Common Foreign and Security Policy (CFSP) crisis management measures and operations in the area of monitoring and verification of peace processes, conflict resolution and other stabilisation activities, rule of law and police missions fall under this article. Operations may be established to monitor border crossings, peace or cease-fire agreements or more generally political and security developments. As with all actions financed under the budget chapter, relevant measures must be civilian in nature.

Remarks

This appropriation is intended to cover the financing of preparatory measures to establish the conditions for Union actions in the field of the CFSP and the adoption of the necessary legal instruments. It may cover evaluation and analysis measures (*ex ante* evaluation of means, specific studies, organisation of meetings, fact-finding on the ground). In the field of Union crisis management operations and for European Union Special Representatives (EUSRs), in particular, preparatory measures may, inter alia, serve to assess the operational requirements for an envisaged action, to provide for a rapid initial deployment of personnel and resources (e.g. mission expenses, purchase of equipment, pre-financing of running and insurance costs in the start-up phase), or to take the necessary measures on the ground to prepare for the launching of the operation. It may also cover experts supporting Union crisis management operations on specific technical issues (e.g. identification and assessment of procurement needs) or security training for staff to be deployed to a CFSP mission/EUSR team.

It also covers follow-up measures and audits of common foreign and security policy measures and the financing of any expenditure on the regularisation of previously closed measures.

This appropriation is also intended to cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the measures coming under Articles 19 03 01, 19 03 02 and 19 03 06.

Legal basis

Preparatory action within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

This appropriation is intended to cover all the expenditure connected with the appointment of European Union Special Representatives (EUSRs) in accordance with Article 33 of the Treaty on European Union.

EUSRs should be appointed with due regard for gender equality and gender mainstreaming policies, and the appointment of women EUSRs should therefore be promoted.

It covers expenditure on the salaries of EUSRs and on setting up their teams and/or support structures, including staff costs other than those relating to staff seconded by Member States or Union institutions. It also covers the costs of any projects implemented under the direct responsibility of an EUSR.

Remarks

The general objective will be to contribute to the development and consolidation of democracy and respect for human rights, in accordance with Union policies and guidelines and in close cooperation with civil society.

Key areas of activity will include:

- enhancing respect for human rights and fundamental freedoms in countries and regions where they are most at risk, as well as promoting the rule of law,
- strengthening the role of civil society in promoting human rights and democratic reform, while ensuring the protection of human rights defenders and defenders of freedom of speech and freedom of the press, in supporting the peaceful conciliation of group interests and in consolidating political participation and representation,
- supporting actions on human rights and democracy issues in areas covered by Union guidelines, including on human rights dialogues, on human rights defenders, on the death penalty, on torture, including forced abortion, female genital mutilation or coerced sterilisation and on childhood and armed conflicts,
- strengthening the international framework for the protection of human rights, the rule of law and the promotion of democracy, in particular international criminal justice mechanisms and core legal instruments, with part of this support being provided to give legal advice and investigate the murders of human rights defenders and defenders of freedom of speech.

In order to ensure full financial transparency under Articles 53 to 56 of the Financial Regulation, the Commission, when entering into joint management with international organisations, will — upon request — undertake to make available to its Internal Auditor as well as to the European Court of Auditors all internal and external audits which concern the use of Union funds.

COMMISSION

TITLE 19 — EXTERNAL RELATIONS

CHAPTER 19 04 — EUROPEAN INSTRUMENT FOR DEMOCRACY AND HUMAN RIGHTS (EIDHR) (*cont'd*)19 04 01 (*cont'd*)

Part of this appropriation will be devoted to the European Inter-University Centre for Human Rights and Democratisation, providing a European Master's Degree in Human Rights and Democratisation and an EU-UN Fellowship Programme, beyond the expiry by the end of 2006 of Decision No 791/2004/EC of the European Parliament and of the Council of 21 April 2004 establishing a Community action programme to promote bodies active at European level and support specific activities in the field of education and training (OJ L 138, 30.4.2004, p. 31).

Part of this appropriation will be devoted to fund independent initiatives promoting Internet freedom, including the development of circumvention technologies and software to distribute to (online) human rights defenders with the goal of protecting themselves; to fund training for human rights defenders about technologies and human rights, and to organise regular and systematic contacts between Union politicians, the business community and civil society members to share knowledge and discuss policy plans related to technologies and human rights.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 18(1)(aa) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation is also intended to finance support for non-governmental organisations and human rights defenders working in the North Caucasus.

It is also intended to support organisations which, like the Club of Madrid, actively engage in fostering democratic leadership and values through high-level dialogue and peer-to-peer counsel with leaders in countries undergoing reform and transition towards democracy, as well as by addressing issues of global concern from a democratic perspective.

Part of this appropriation will be used for reinforced support for neighbouring countries that are members of the Council of Europe to meet Council of Europe standards on democracy and the rule of law, including support on strengthening the organisation of free and fair elections.

Part of this appropriation will be used to assist neighbouring countries that are members of the Council of Europe to abide by and adjust their legal and judicial systems in line with rulings of the European Court of Human Rights.

Part of this appropriation is intended to finance a European Union Global Internet Freedom Fund which would aim:

- to foster recognition that new communication technologies are used to advance tolerance and freedom of expression but can also be instrumental in repression or violence. To highlight that Internet freedom is a major force in international affairs and should become an integral and mainstreamed part of the Union's foreign and security, trade and other relevant policy areas,
- to fund successful independent initiatives which develop circumvention technologies and software to distribute to human rights defenders with the goal of protecting themselves,
- to fund training for human rights defenders on technologies and human rights,
- to organise regular and systematic contacts between Union politicians, the business community and civil society members to share knowledge and discuss policy plans related to technologies and human rights.

Remarks

This appropriation covers completion of former cooperation under the European Initiative for Democracy and Human Rights.

This appropriation covers support for the establishment and maintenance of rehabilitation centres for torture victims — taking into account the gender-specific aspects of torture against women and girls — and their families and for other organisations offering concrete help to victims of human rights abuses. Support for the rehabilitation of torture victims must remain a priority. Projects may also include prevention activities when relevant.

This appropriation is intended to cover grant aid to projects undertaken in third countries and in the Union with the following objectives:

- the promotion and defence of human rights and fundamental freedoms,
- support for the democratisation process, strengthening of the rule of law and good governance,
- support for measures promoting respect for human rights and democratisation,
- support for efforts to foster the establishment of groupings of democratic countries within United Nations bodies, specialised agencies and regional organisations.

This appropriation covers financial support for building confidence in, and enhancing the reliability and transparency of, democratic electoral processes through deployment of European Union Election Observation Missions and support for observation capacity at regional and national level.

It is also intended to enable, in the Staff Regulations, the use of external staff providing support to electoral observation missions, including the financing of the chief observer contract with the Commission as special adviser under Articles 5 and 82 of the Conditions of Employment of Other Servants of the European Communities.

19 04 05 (*cont'd*)

This appropriation is intended to cover the financing of measures designed to improve the functioning of the United Nations International Court for the former Yugoslavia and the International Criminal Court for Rwanda, as well as support to the Special International Court for Sierra Leone.

It is also intended to cover funding for the operation of the International Criminal Court, including support for international, regional or local organisations, including non-governmental organisations, in order to promote further ratifications of the Statute of the Court, to provide legal expertise to transpose the Statute into national legislation, to enhance public support for the Court and to provide training regarding the Court's developments.

Legal basis

Council Regulation (EC) No 975/1999 of 29 April 1999 laying down the requirements for the implementation of development cooperation operations which contribute to the general objective of developing and consolidating democracy and the rule of law and to that of respecting human rights and fundamental freedoms (OJ L 120, 8.5.1999, p. 1).

Council Regulation (EC) No 976/1999 of 29 April 1999 laying down the requirements for the implementation of Community operations, other than those of development cooperation, which, within the framework of Community cooperation policy, contribute to the general objective of developing and consolidating democracy and the rule of law and to that of respecting human rights and fundamental freedoms in third countries (OJ L 120, 8.5.1999, p. 8).

Remarks

The aim of the EU-Russia Civil Society Forum is to establish regular and systematic contacts between civil society and non-governmental organisations in Russia and counterparts in the Member States. The forum will give the European and Russian civil society actors an opportunity to make their voice heard on topics of common interest. Forum meetings are to be held on the fringes of the biannual EU-Russia summits. The pilot project is intended to enhance a bottom-up approach in European and Russian policy processes.

Legal basis

Remarks

Cooperation with industrialised and other high-income countries and territories is aimed at engaging with partners which share similar political, economic and institutional structures and values to the Union and which are important bilateral partners and players in multilateral fora and in global governance. The cooperation also covers newly industrialised or high-income countries and territories with whom the Union has a strategic interest in promoting links.

Specific attention shall be paid to measures, which may include a regional dimension, in the following areas of cooperation:

- the promotion of cooperation, partnerships and joint undertakings between economic, academic and scientific actors in the Union and partner countries,
- the stimulation of bilateral trade, investment flows and economic partnerships,
- the promotion of dialogue between political, economic and social actors and other non-governmental organisations in relevant sectors in the Union and partner countries,
- the promotion of people-to-people links, education and training programmes and intellectual exchanges and the enhancement of mutual understanding between cultures and civilisations,
- the promotion of cooperative projects in areas such as research, science and technology, energy, transport and environmental matters — including climate change, customs and financial issues and any other matter of mutual interest between the Union and the partner countries,
- the enhancement of awareness about and understanding of the Union and of its visibility in partner countries,
- support for specific initiatives, including research work, studies, pilot schemes or joint projects destined to respond in an effective and flexible manner to cooperation objectives arising from developments in the Union's bilateral relationship with the partner countries or aiming to provide impetus to the further deepening and broadening of bilateral relationships with them.

COMMISSION

TITLE 19 — EXTERNAL RELATIONS

CHAPTER 19 05 — RELATIONS AND COOPERATION WITH INDUSTRIALISED THIRD COUNTRIES (*cont'd*)19 05 01 (*cont'd*)

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 18(1)(aa) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Part of this appropriation will be used to organise a 'Bridge to Europe Day' in 2012 in Silicon Valley, as a first one-time event, to be repeated, if successful. For decades, thousands of entrepreneurs have been attracted to Silicon Valley, a region with a unique innovation ecosystem building on world-class universities, the abundance of capital and a spirit of networking and entrepreneurship. Many European entrepreneurs have established their own successful companies there, have generated knowledge and invested worldwide. A mechanism to bring back and share the knowledge and experience acquired in Silicon Valley should be established at Union level. This initiative should benefit both entrepreneurs as well as decision-makers in exploring how to further foster innovation opportunities in Europe.

Overall objective:

- to build a stronger bridge between European experts and Europe by bringing European expats, who have founded new businesses or who work as researchers in Silicon Valley, together with representatives from European institutions and companies to exchange experience and practices.

The specific objectives include:

- providing knowledge-exchange platforms for European entrepreneurs and researchers on their experience in entrepreneurship and innovation in Silicon Valley,
- providing a forum for entrepreneurs to present and advertise their business ideas and open up ways and means to share their ideas in Europe,
- engaging the European and the Member States' umbrella organisations present in Silicon Valley and national representatives organisation into a European-wide initiative.

Participants to the activities:

- European and Member States' umbrella organisations established in Silicon Valley aimed at supporting European businesses play an active role,
- European consulates in California should be included in the event,
- the Commission including via its Representation in Washington, which should be instrumental to the organisation,
- European companies located in Silicon Valley should contribute and invite leading European entrepreneurs from Europe.

India organises a similar conference (TiECon Conference), which takes place every year in Silicon Valley, in order to build a stronger bridge between Indian experts (based in Silicon Valley) and their homeland. Thousands of Indian entrepreneurs and CEOs from important Indian players regularly visit TiECon. The implementation should involve the appropriate directorates in Directorate-General for Enterprise and Industry and Directorate-General for Research and Innovation and should be organised in collaboration with the Union Delegation to the United States.

Legal basis

Remarks

This pilot project is intended to foster common transatlantic approaches to key international policy challenges. Measures under this pilot project will aim at improving the efficacy of actions by the international community and be complementary to existing mechanisms. The pilot project will be used to fund innovative ventures between European and US policymakers that are beyond the scope of the current tools available under existing legal instruments. In implementing this action the Commission will ensure a balanced distribution of subsidies. It will also help engage the US administration to strengthen the transatlantic partnership. Finally, it will provide an opportunity for presenting Union thinking to US academics.

Legal basis

Remarks

The quick release of financing through the Instrument for Stability is designed to address situations of urgency, crisis or emerging crisis, a situation posing a threat to democracy, law and order, to the protection of human rights and fundamental freedoms, to the security and safety of individuals, situations threatening to escalate into armed conflict or to destabilise the country concerned and where such situations are likely to jeopardise the beneficial effects of assistance and cooperation policies and programmes, their effectiveness and/or conditions for their proper implementation.

This appropriation is intended to cover an integrated programme of response measures designed to re-establish the minimum conditions necessary for the conduct of assistance under the Union's long-term assistance instruments. Such programmes will ensure a smooth link between relief, rehabilitation and development. They shall also provide complementary measures falling under Community competence relating to measures adopted under the CFSP, as part of a comprehensive Union approach to crises.

Part of this appropriation is intended to cover activities to be organised in cooperation with the UN Under-Secretary-General, Special Representative for Children and Armed Conflict and the UN Special Representative of the Secretary-General on Violence against Children.

The appropriation is also intended to cover response measures to prevent and reduce climate-change-induced hazards, in particular management of water resources, in cases where these hazards risk escalating into security threats.

Operations covered will include:

- technical and logistical support for the efforts of international and regional organisations, state and non-state actors in promoting confidence-building, mediation, dialogue and reconciliation,
- the relaunch of basic public services and economic activity,
- the initial physical and operational rehabilitation of basic infrastructure, including mine clearance,
- social reintegration, in particular of refugees, displaced persons and demobilised combatants,
- the restoration of the institutional capacities needed for good governance and ensuring the rule of law and democracy,

- assisting with the special needs of women and children affected by armed conflict, particularly rehabilitation of children affected by war, including child soldiers, also in cooperation with the UN under Under-Secretary-General, Special Representative for Children and Armed Conflict,
- preparedness measures aimed at strengthening the capacity of international, regional and sub-regional organisations, state and non-state actors in relation to their efforts in promoting early warning, confidence-building, mediation and reconciliation and addressing emerging inter-community tensions, and in improving post-conflict and post-disaster recovery. In this regard, the Commission will also enhance the capacity of civil society organisations, building upon previous support under the conflict prevention network preparatory action, namely in cooperation with the UN Special Representative of the Secretary-General on Violence against Children,
- support for international criminal tribunals and ad hoc national tribunals, truth and reconciliation commissions, and mechanisms for the legal settlement of human rights claims,
- support for measures to address, in the context of Union cooperation policies and their objectives, the impact on the civilian population of the illicit use of and access to firearms,
- support for measures to promote and defend respect for human rights,
- support for measures to support the development and organisation of civil society.

Implementing partners may include authorities of the Member States or of beneficiary countries and their agencies, regional and international organisations and their agencies, non-governmental organisations, public and private operators and individual organisations or operators (including staff seconded from Member State administrations) with appropriate specialised expertise and experience.

Part of this appropriation will be used to improve the stability of South-Sudan.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 18(1)(aa) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Legal basis

It is also intended to cover actions aimed at the rehabilitation of victims of anti-personnel mines.

It is intended to cover a whole range of actions such as mine clearance, stockpile destruction, mine risk education, survey of suspected areas and victim assistance.

It also includes financing of activities of non-governmental organisations to raise the issue of the landmine problem with non-State armed groups which are 'part of the problem' and therefore should also be 'part of the solution'.

Legal basis

Remarks

This appropriation is intended to cover actions aiming to help safeguard countries and populations against critical technological threats. This may, inter alia, include:

- the promotion of civilian research activities as an alternative to defence-related research, and support for the retraining and alternative employment of scientists and engineers having formerly been employed in weapons-related areas,
- support for measures to enhance safety practice related to civilian facilities where sensitive chemical, biological, radiological or nuclear materials or agents are stored, or are handled in the context of civilian research programmes,
- support, within the framework of Union cooperation policies and their objectives, for the establishment of civil infrastructure and relevant civilian studies necessary for the dismantlement, remediation or conversion of weapons-related facilities and sites where these are declared as no longer belonging to a defence programme,
- strengthening the capacity of the competent civilian authorities involved in the development and enforcement of effective control of the trafficking in chemical, biological, radiological and nuclear materials or agents (including the equipment for their production or delivery), including through the installation of modern logistical evaluation and control equipment,
- the development of the legal framework and institutional capacities for the establishment and enforcement of effective export controls on dual-use goods, including measures of regional cooperation,
- the development of effective civilian disaster preparedness, emergency planning, crisis response, and capabilities for clean-up measures in relation to possible major environmental incidents in this field.

Remarks

This appropriation is intended to cover new actions aimed at furthering cooperation between the Union and third countries in relation to global and regional trans-border challenges affecting the security and fundamental rights of the citizen.

Measures in the field of counter terrorism shall fully respect a third country's international human rights obligations and applicable humanitarian law in line with the Commission's declaration annexed to Regulation (EC) No 1717/2006.

Such measures will cover:

- strengthening the capacity of law enforcement and judicial and civil authorities involved in the fight against terrorism and organised crime, including illicit trafficking of people, drugs, firearms and explosive materials, and in the effective control of illegal trade and transit,

- support for measures to address threats to international transport, and critical infrastructure, including passenger and freight traffic,
- ensuring an adequate response to major threats to public health, such as epidemics with a potential trans-national impact,
- support for measures aimed at fostering the implementation of, and compliance with, the Ottawa Convention on Anti-Personnel Landmines (APL) and the Oslo Convention on Cluster Munitions (CCM); part of this appropriation is to be used for actions to control and remove anti-personnel landmines, cluster munitions and explosive remnants of war (ERW), including research, education, training and assistance to victims.

Such measures may be adopted under this instrument in the context of stable conditions, where they aim to address specific global and trans-regional threats having a destabilising effect, and only to the extent that an adequate and effective response cannot be provided under related Union instruments for external assistance. This appropriation is also intended to cover completion of payments for measures funded under former budget line 19 02 11 'North-south cooperation schemes in the campaign against drugs and drug addiction'.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Remarks

This appropriation is intended to cover the financing of:

- the promotion of an effective nuclear safety culture at all levels, in particular through:
 - continuous support for regulatory bodies, technical support organisations, and the reinforcement of the regulatory framework, notably concerning licensing activities,
 - drawing notably on the experience of the operators, on site and external assistance programmes as well as consulting and related activities aiming at safety improvements of the design, operation and maintenance of nuclear power plants that are currently licensed and other existing nuclear installations so that high safety levels can be achieved,
 - support for the safe transport, treatment and disposal of spent nuclear fuel and radioactive waste, and
 - the development and implementation of strategies for decommissioning existing installations and the remediation of former nuclear sites,

- the promotion of effective regulatory frameworks, procedures and systems to ensure adequate protection against ionising radiations from radioactive materials, in particular from high activity radioactive sources, and their safe disposal,
- the establishment of the necessary regulatory framework and methodologies for the implementation of nuclear safeguards, including for the proper accounting and control of fissile materials at State and operators level,
- the establishment of effective arrangements for the prevention of accidents with radiological consequences as well as the mitigation of such consequences should they occur, and for emergency-planning, preparedness and response, civil protection and rehabilitation measures,
- measures to promote international cooperation (including in the framework of relevant international organisations, notably IAEA) in the abovementioned fields, including the implementation and monitoring of international conventions and treaties, exchange of information and training and research.

This appropriation is also intended for monitoring and investigating the consequences of the Chernobyl accident on human health and the environment in the neighbouring countries, especially Ukraine and Belarus, as well as its socioeconomic impact.

Remarks

This appropriation is intended to cover logistical support operations for Member States' missions within the framework of consular cooperation, particularly in the event of a crisis. These operations are based on Article 20(2)(c) and Article 23 of the Treaty on the Functioning of the European Union, concerning the protection of Union citizens not represented in third countries by their Member State, and on Article 35 of the Treaty on the European Union, providing a role for Union delegations in the implementation of Article 20(2)(c) of the Treaty on the Functioning of the European Union in cooperation with the Member States' missions.

Legal basis

Tasks resulting from specific powers directly conferred on the Commission by the Treaties, in accordance with Article 49(6)(d) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

This appropriation, which is complementary to the capacity building activities as provided for by the Peacebuilding Partnership under the Instrument for Stability, is intended to finance a programme of NGO-led peacebuilding activities in order to support the Union's commitments to prevent conflict and build peace outside its borders.

Activities to be financed under this pilot project will include: research on and analysis of specific conflicts; support for peace processes, mediation and dialogue; support to disarmament, demobilisation and reintegration (DDR) processes and broader post-conflict economic development; support to local actor participation in peace settlements; civil society involvement in security sector reform (SSR), justice sector reform and transitional justice processes; promotion of conflict-sensitive development practices; international and national-level advocacy work to encourage peacebuilding and the prevention of violent conflict; the development and management of early warning systems; the promotion of the role of women in peacebuilding; unarmed civilian peacekeeping; and the deployment of professionals to sustain local actors by reducing and preventing violence, and by supporting dialogue, sustainable peace and a conflict-resilient society.

The pilot project could also serve as a test case for Union support for NGO-led peacebuilding activities and could thus lead to the eventual establishment of a permanent mechanism for short-, medium- and long-term financing in this area.

Legal basis

Pilot project within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

The Union aims to establish an area of prosperity and friendly neighbourliness involving Member States and the neighbouring partner countries ⁽¹⁾. To that effect the Union has established agreements with most neighbouring countries as well as European Neighbourhood Policy Action Plans to implement such agreements. This negotiated framework is aimed at developing a stronger and deeper relation based on shared values and mutual interest and involving a significant degree of economic integration and political cooperation. The Union has also engaged with Russia in a genuine strategic partnership, founded on common interests and shared values and based on the creation of four 'common spaces'. The appropriations under this chapter are intended to cover cooperation measures aimed at supporting the implementation of such agreements. Cooperation with those countries with whom such agreements are not yet signed or do not exist — such as for Belarus, Libya or Syria — will be based on Union policy objectives.

Remarks

This appropriation is intended in particular to finance cooperation measures aimed primarily at supporting the implementation of the Multi Annual Indicative Programmes covering periods 2007-2010 and 2011-2013 of the ENP Action Plans concluded with the Union's Mediterranean neighbours. It will also be used to support the implementation of the Regional Indicative Programme for 2011-2012 as well as certain measures in the framework of the Union for the Mediterranean which was launched at the Paris summit on 13 July 2008. This will cover, inter alia, the following areas of cooperation:

- promoting political dialogue and reform,
- promoting legislative and regulatory approximation and encouraging the progressive participation of partner countries in the internal market and the intensification of trade,
- strengthening the national institutions responsible for the elaboration and implementation of policies in the areas covered by the association agreements,

⁽¹⁾ This includes 17 countries, of which seven (Armenia, Azerbaijan, Belarus, Georgia, Moldova, the Russian Federation and Ukraine) located to the east of the Union and 10 (Algeria, Egypt, Jordan, Israel, Lebanon, Libya, Morocco, the Palestinian Authority, Syria and Tunisia) located to the south of the Union.

- promoting respect for human rights and fundamental freedoms and enhanced respect for minority rights, promoting gender equality and non-discrimination, and promoting good governance,
- promoting sustainable development and contributing to poverty reduction,
- supporting the modernisation of the economy, promoting investments in the region and strengthening small- and medium-sized enterprises,
- establishing better transport and energy interconnections between the Union and neighbouring countries and among neighbouring countries themselves and addressing threats to our common environment,
- promoting actions contributing to conflict resolution,
- fostering the development of civil society, inter alia, to promote social inclusion and encourage under-represented groups to gain a voice and participate in civil society and the political system,
- promoting people-to-people contacts and exchanges in the field of education, research and culture,
- contributing to the financing of the operations of the United Nations Relief and Works Agency for Palestine Refugees (UNRWA) in Lebanon, Syria and Jordan, in particular its health, education and social services programmes,
- supporting regional integration within the context of the Euro-Mediterranean Partnership and in particular the promotion of regional cooperation, the creation of networks and partnerships of public and private not-for-profit organisations with a view to exchanging knowledge and best practices in all the relevant fields,
- supporting actions in the field of migration, designed inter alia to promote links between migration and development, to combat illegal immigration and to facilitate readmission. These actions will be supplemented by actions financed from the ENPI allocation from Article 19 02 01 01 'Cooperation with third countries in the areas of migration and asylum'.

Horizontal visibility of Union assistance and information actions and measures directly linked to achievement of the objectives of Union action in Mediterranean third countries.

Should there be a serious deterioration in a given country in the field of liberty, democracy, respect for fundamental rights and fundamental freedoms and the rule of law, Union assistance may be scaled down and used primarily to support non-state actors for measures aimed at promoting human rights and fundamental freedoms. With the exception of humanitarian aid, and implementation aid by NGOs, the United Nations' agencies or by impartial operators, assistance to governments should not be provided if the governments are responsible for a clear worsening of the situation in the field of democracy, the rule of law and respect for fundamental rights and freedoms.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 18(1)(aa) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

The new enhanced European Neighbourhood Policy, as projected by the European Parliament and the Council in their respective decisions and resolutions, especially in the light of the two major neighbourhood political projects, namely the Union for the Mediterranean and the Eastern Partnership, makes it necessary to prepare future Union contact points, i.e. personnel for EU-ENP-related jobs in the neighbourhood countries from Morocco to Belarus. They should be made fully acquainted in a professional manner with the substance and spirit of Union policies and institutions and the *acquis* of the Union.

19 08 02 **Cross-border cooperation (CBC) — European Neighbourhood and Partnership Instrument (ENPI)***Remarks*

Cross-border cooperation on the Union's external borders is a key priority both in the European Neighbourhood Policy and in the Union's Strategic Partnership with Russia, as well as within the Black Sea Synergy. The adoption of the European Neighbourhood and Partnership Instrument (ENPI) has considerably enhanced the scope for cross-border cooperation, both qualitatively and quantitatively. Under the new approach, cross-border cooperation programmes established on the Union's external border will draw on funds from both the external and internal headings of the general budget of the Union and be implemented in accordance with a single set of rules, namely those established under Regulation (EC) No 1638/2006 of the European Parliament and of the Council of 24 October 2006 laying down general provisions establishing a European Neighbourhood and Partnership Instrument (OJ L 310, 9.11.2006, p. 1). The global amounts of the contributions from the two headings are provided in the two budget Items presented under this article.

CHAPTER 19 08 — EUROPEAN NEIGHBOURHOOD POLICY AND RELATIONS WITH RUSSIA (*cont'd*)

19 08 02 (*cont'd*)

This appropriation is intended to fund a number of cross-border cooperation programmes, established along all the land and maritime borders. Such programmes will provide a tangible signal that the Union does not want to establish new dividing lines and they will also strengthen the partnership among border regions of the Union and neighbouring countries and help them to deal with common development problems. They will focus on the following five main objectives:

- promoting economic and social development in regions on both sides of common borders,
- working together to address common challenges, in fields such as the environment, public health and the prevention of and the fight against organised crime,
- ensuring efficient and secure borders,
- promoting local, cross-border ‘people-to-people’ actions,
- fostering the development of civil society, inter alia, to promote social inclusion.

Appropriations under this article will also be used for actions aimed at improving the level and capacity of implementation as well as for actions aimed at informing the general public and the potential beneficiaries of assistance and at increasing the visibility of Union assistance.

Should there be a serious deterioration in a given country in the field of liberty, democracy, respect for fundamental rights and fundamental freedoms and the rule of law, Union assistance may be scaled down and used primarily to support non-state actors for measures aimed at promoting human rights and fundamental freedoms. With the exception of humanitarian aid, and implementation aid by NGOs, the United Nations’ agencies or by impartial operators, assistance to governments should not be provided if the governments are responsible for a clear worsening of the situation in the field of democracy, the rule of law and respect for fundamental rights and freedoms.

Remarks

The purpose of development cooperation under this heading is primarily its contribution to support the promotion of democracy, good governance, respect for human rights and for the rule of law, and fostering sustainable development and economic integration, as well as to achieving the Millennium Development Goals.

In accordance with the Commission Declaration concerning Article 5 of Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation (OJ L 378, 27.12.2006, p. 41) (DCI), for countries defined as Official Development Assistance (ODA) recipients by the OECD Development Assistance Committee (DAC), the Commission will continue to report annually on the benchmark, used in the past but now superseded, of 35 % of assistance to developing countries to be allocated to social infrastructure and services, recognising that the Union contribution must be seen as part of the overall donor support to the social sectors and that a degree of flexibility must be the norm. Moreover, also in accordance with that Commission Declaration, the Commission will endeavour to ensure that a benchmark of 20 % of its allocated assistance under country programmes covered by the DCI will be dedicated, by the end of 2009, to basic and secondary education and basic health, through project, programme or budget support linked to these sectors, taking an average across all geographical areas and recognising that a degree of flexibility must be the norm, such as in cases where exceptional assistance is involved.

Before July each year, the Commission will provide to the European Parliament and the Council an annual report on the Union's development policy and external assistance, meeting all the Commission's regulatory reporting requirements and giving full details of development cooperation, especially the extent to which it has met its objectives. In particular, the report will:

- present the strategic objectives of the Union's development policy and its contribution towards the previous 35 % benchmark for social infrastructure and services and the current 20 % benchmark for basic and secondary education and basic health, in the context of the geographical cooperation under the DCI, and assess the efficiency and effectiveness of cooperation, including progress made in coordinating aid, in improving the coherence of the Union's strategy in its external actions, and in integrating the cross-cutting issues such as gender, human rights, conflict prevention and the environment,
- present the main results of evaluation and monitoring reports, as an indication of the extent to which its actions are achieving their objectives,
- summarise the key features and events of cooperation in each geographical region, and
- provide financial information on the support given to each sector, in accordance with OECD reporting criteria.

Remarks

This appropriation is intended to cover cooperation schemes in developing countries in Latin America in order to:

- assist institutional support to good governance and help consolidate democracy, human rights and the rule of law,
- promote social cohesion, combat poverty and social exclusion, with particular attention being paid to the poverty trap faced by people with disabilities,
- promote an SME-friendly business climate through legal property rights, cutting red tape and improving access to credit as well as improving associations of small and medium-sized enterprises,
- support regional integration,
- improve the standard of education and health,
- promote the increased use of information and communications technologies,
- support capacity-building, in particular in the least-developed countries, to help them to integrate better into the multilateral trading system, including improving their ability to participate in the WTO,
- encourage the transfer of know-how and promote contact and collaboration between business players on both sides,
- promote a more favourable climate for economic expansion and hence development in the countries concerned,
- promote the sustainable use of natural resources, sustainable energy and the combating of climate change,
- support disaster prevention and risk reduction, including climate-change-related hazards,
- support trade unions, non-governmental organisations (NGOs) and local initiatives to monitor the impact of European investments on the national economy, particularly codes of conduct and sector agreements incorporating respect for labour, environmental, social and human rights standards,
- foster the development of civil society, encourage less well represented groups to gain a voice and participate in civil society and the political system, combat all forms of discrimination, and strengthen the rights of women and children and other particularly vulnerable groups, including persons with disabilities and older persons,

Part of this appropriation is intended to be used to fund international programmes in favour of gender equality and the empowerment of women, including through the framework of UN WOMEN.

With the exception of humanitarian aid, assistance to governments should not be provided if the governments are responsible for clear worsening of the situation in the field of democracy, the rule of law and respect for fundamental rights and freedoms.

This appropriation also covers capacity-building actions to assist agricultural producers in developing countries to meet Union sanitary and phytosanitary standards necessary for access to the Union market.

Where assistance is delivered via budget support, the Commission shall support efforts of partner countries to develop parliamentary oversight and audit capacities and transparency in line with Article 25(1)(b) of Regulation (EC) No 1905/2006. Part of this appropriation is intended to support, amongst others, initiatives such as the EU-ALC Foundation (decided at the summit of EU-ALC Heads of States and Governments) and the Biarritz Forum.

TITLE 19 — EXTERNAL RELATIONS

CHAPTER 19 09 — RELATIONS WITH LATIN AMERICA (*cont'd*)

19 09 01 (*cont'd*)

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 18(1)(aa) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Part of this appropriation is intended to be used, with due regard for the Financial Regulation, for operations carried out by senior volunteer experts from the Union who come under the European Senior Services Network (ESSN), including technical assistance, advisory services and training in selected public or private sector enterprises.

Appropriations under this article are subject to evaluations as established in Article 33 of Regulation (EC) No 1905/2006. These evaluations shall include aspects of input activities and chain of results (output, outcome, impact). The findings of the evaluations shall be used in the formulation of subsequent measures financed with these appropriations.

With the exception of humanitarian aid, and implementation aid by NGOs or by the United Nations' agencies or by impartial operators, assistance to governments should not be provided if the governments are responsible for clear worsening of the situation in the field of democracy, the rule of law and respect for fundamental rights and freedoms.

Legal basis

Remarks

This appropriation is intended to cover cooperation measures for middle income countries and other developing countries in Latin America.

This appropriation is intended to finance cooperation measures which do not fulfil the criteria for Official Development Assistance (ODA) as established by the Development Assistance Committee of the Organisation for Economic Cooperation and Development (OECD/DAC) and which therefore fall outside the scope of Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation (OJ L 378, 27.12.2006, p. 41) (Article 2(4)), in particular measures for cooperation in sectors capable of developing independently, the result being that the investment from the general budget of the Union makes no contribution towards combating poverty in Latin American countries.

19 10 01 *Cooperation with developing countries in Asia**Remarks*

This appropriation is intended to cover development schemes in Asian developing countries, in particular the poorest of them, aimed at improving human and social development as well as tackling macroeconomic and sectoral problems. Emphasis is placed on operations influencing economic organisation and institutional development, the strengthening of civil society, including operations concerning democratisation, education, vocational training, lifelong learning, academic and cultural exchange, scientific and technological exchange, the environment, tropical forests, anti-drugs campaigns, regional cooperation, disaster prevention and reconstruction measures, as well as the promotion of sustainable energy and information and communications technology.

The Commission produces an annual report covering all its external aid activities.

Also charged to this article is expenditure on operations and other measures of a horizontal nature to enhance the profile or increase awareness of Union cooperation with Asian developing countries.

It is also intended to cover support for the development of civil society and, in particular, support for the activities of non-governmental organisations promoting and defending the rights of vulnerable groups, such as women, children, ethnic minorities and people with disabilities.

This appropriation is also intended to cover the promotion of an SME-friendly business climate through legal property rights, cutting red tape and improving access to credit as well as improving associations of small and medium-sized enterprises.

Utilisation of this appropriation is dependent on observance of the principles underpinning Union action.

The appropriation is also intended, with a view to the mutual interest of the Union and its partners, to cover various kinds of operation involving technical assistance, training, technology transfer and institutional back-up in the fields of trade promotion, energy (notably renewable energy), environment, management, etc., in order to:

- improve the economic, social, cultural, legal and regulatory context and facilitate economic relations and trade between the Union and Asia,
- foster regional integration,

- support capacity-building, in particular in the least developed countries, to help them to better integrate into the multilateral trading system, including their abilities to participate in the WTO,
- encourage the transfer of know-how and promote contact and collaboration between business players on both sides,
- promote a more favourable climate for economic expansion and hence development in the countries concerned,
- promote social development, social cohesion and fair income distribution,
- promote the increased use of information and communications technologies.

This appropriation is also intended to cover future Union initiatives to support and promote a continuous dialogue and cooperation between the private sector and research communities in the Union and India in a wide range of fields, by strengthening and encouraging partnership and exchanges and supporting joint initiatives and by improving the information flow with regard to market access in trade and investment, most notably in the context of a future EU-India free-trade agreement.

It also covers education for children affected by war or natural disasters.

These measures may be financed jointly with non-governmental organisations and international organisations.

This appropriation is also intended to support disaster prevention and risk reduction, including climate-change-related hazards.

This appropriation is intended to also cover Union operations in the framework of the Afghanistan reconstruction process.

The Commission will monitor compliance with the conditions for the Union contribution to this process, notably full implementation of the letter and the spirit of the Bonn-Petersberg Agreement. It will keep the budgetary authority informed about its findings and conclusions.

This appropriation is also intended to support the Afghanistan national drug control strategy, including halting the production of opium in Afghanistan, and the disruption and destruction of the opium networks and illegal export routes to European countries.

Part of this appropriation is intended to be used, with due regard for the Financial Regulation, to improve the situation of women, with priority for actions in the fields of health and education, and to support their active involvement in all areas and at all levels of decision-making.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 18(1)(aa) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Appropriations under this article are subject to evaluations as established in Article 33 of Regulation (EC) No 1905/2006. These evaluations shall include aspects of input activities and chain of results (output, outcome, impact). The findings of the evaluations shall be used in the formulation of subsequent measures financed with these appropriations.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

This appropriation is also intended to cover measures promoting conflict prevention, conflict resolution and reconciliation.

This appropriation is also intended to cover expenditure on operations and other measures of a horizontal nature to enhance the profile or increase awareness of Union cooperation with Asian developing countries.

It is also intended to cover support for the development of civil society and, in particular, support for the activities of non-governmental organisations promoting and defending the rights of vulnerable groups, such as women, children, ethnic minorities and people with disabilities.

It is also intended to cover support for microcredit schemes.

This appropriation is also intended to cover capacity-building actions to assist agricultural producers in developing countries to meet Union sanitary and phytosanitary standards necessary for access to the Union market.

Utilisation of this appropriation is dependent on observance of the principles underpinning Union action.

It is also intended to cover measures influencing economic organisation and institutional development.

This appropriation is also intended to cover technical assistance, training, technology transfer and institutional back-up in the fields of trade promotion, energy (notably renewable energy), environment, management, etc., in order to:

- foster regional integration,
- support capacity-building, in particular in the least developed countries, to help them to better integrate into the multilateral trading system, including their abilities to participate in the WTO,
- encourage the transfer of know-how and promote contact and collaboration between business players on both sides,
- promote social development, social cohesion and fair income distribution,
- promote the increased use of information and communications technologies,
- foster the development of civil society, encouraging less well-represented groups to gain a voice and participate in civil society and the political system, combating all forms of discrimination, and strengthen the rights of women and children and other particularly vulnerable groups, including persons with disabilities and older persons.

It is also intended to cover education for children affected by war or natural disasters.

These measures may be financed jointly with non-governmental organisations and international organisations.

Part of this appropriation is intended to be used, with due regard for the Financial Regulation, to improve the situation of women, with priority for actions in the fields of health and education, and to support their active involvement in all areas and at all levels of decision-making.

Part of this appropriation is intended to be used for actions to control and remove anti-personnel landmines (APL), explosive remnants of war (ERW) and illicit small arms and light weapons (SALW).

Where assistance is delivered via budget support, the Commission shall support efforts of partner countries to develop parliamentary oversight and audit capacities and transparency in line with Article 25(1)(b) of Regulation (EC) No 1905/2006. Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 18(1)(aa) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Part of this appropriation is intended to be used on the improvement of the position of Christian and other religious minorities in Pakistan.

Part of this appropriation is intended to be used, with due regard for Financial Regulation, for operations carried out by senior volunteer experts from the Union who come under European Senior Services Network (ESSN), including technical assistance, advisory services and training in selected public or private enterprises.

Appropriations under this article are subject to evaluations as established in Article 33 of Regulation (EC) No 1905/2006. These evaluations shall include aspects of input activities and chain of results (output, outcome, impact). The findings of the evaluations shall be used in the formulation of subsequent measures financed with these appropriations.

Part of this appropriation is intended to be used to fund international programmes in favour of gender equality and the empowerment of women, including through the framework of UN WOMEN.

Remarks

This appropriation is intended to cover Union operations in the framework of the Afghanistan reconstruction process. It is supplemented by expenditure from other chapters and articles, to which different procedures apply.

The Commission will monitor compliance with the conditions for the Union contribution to this process, notably full implementation of the post-Bonn process. It will keep the budgetary authority informed on its findings and conclusions.

This appropriation is intended to support basic social services and economic development in Afghanistan.

This appropriation is also intended to support the Afghanistan national drug control strategy, including halting the production of opium in Afghanistan, and the disruption and destruction of the opium networks and illegal export routes to European countries.

A relevant part of this appropriation must be exclusively devoted to fund the start up of the five-year plan for phasing out opium cultivation by replacing it with alternative production in order to obtain a verifiable outcome in this field, in line with the demands expressed by the European Parliament in its report 'A new strategy for Afghanistan' approved on 16 December 2010.

This appropriation is also intended to support the Union contribution to the processes for the return of Afghan refugees and displaced persons to their country and regions of origin in accordance with the commitments entered into by the European Community at the Tokyo Conference in January 2002.

This appropriation is also intended to finance activities of women's organisations which have worked for a long time for Afghan women's rights.

The Union should increase its financial assistance in Afghanistan for areas such as health (construction and renovation of hospitals, prevention of child mortality) and small and medium-sized infrastructure projects (repairing of road network, embankments, etc.), as well as effectively implementing job security and food security schemes.

Part of this appropriation is intended to be used for mainstreaming of disaster risk reduction, based on ownership and national strategies of disaster-prone countries.

Part of this appropriation is intended to be used, with due regard for the Financial Regulation, to improve the situation of women, with priority for actions in the fields of health and education, and to support their active involvement in all areas and at all levels of decision-making.

Particular attention will also be paid to the situation of women and girls in all other actions and projects supported by this appropriation.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Remarks

This preparatory action is intended to support exchanges between European and Indian businesses and industries, as well as research institutions. This is important in the context of improving links between Union businesses and researchers in fast-growing economies such as India. The action is in line with paragraph 4 of the European Parliament resolution of 18 May 2006 on the 2007 budget: the Commission's Annual Policy Strategy report (APS) (OJ C 297 E, 7.12.2006, p. 357), which noted that 'insufficient attention has been given ... to the vast and very rapid changes underway in the global economy, notably in emerging economies such as India and China'.

Legal basis

Preparatory action within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

This appropriation is intended to cover cooperation measures, in middle income countries and other developing countries in Asia, which do not fulfil the criteria for Official Development Assistance (ODA) as established by the Development Assistance Committee of the Organisation for Economic Cooperation and Development (OECD/DAC) and which therefore fall outside the scope of Article 2(4) of Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation (OJ L 378, 27.12.2006, p. 41), in particular measures for cooperation in sectors capable of developing independently, the result being that the investment from the general budget of the Union makes no contribution towards combating poverty in Asian countries.

Legal basis

Preparatory action within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

This appropriation is intended to cover the financing or part-financing of assistance measures at government, institutional, non-governmental organisation and private sector level designed to support poverty reduction, promotion and protection of human rights, transition to a market economy, strengthen democracy and the rule of law and promoting conflict prevention, conflict resolution and reconciliation in the partner States.

The abovementioned measures cover, inter alia, support for institutional, legal and administrative reform, support to the private sector and assistance for economic development, support in addressing the social consequences of transition, including social sectors reforms, the development of infrastructure networks, the promotion of environmental protection and management of natural resources, sustainable energy, the combat against climate change, disaster prevention and risk reduction, including climate-change-related hazards and development of the rural economy.

This appropriation is also intended to cover actions in the areas of basic social services, including basic education, basic health, reproductive health, including HIV/AIDS, combating forced abortion, female genital mutilation and coerced sterilisation, basic drinking water supply and basic sanitation.

Part of this appropriation is to be used, with due regard for the Financial Regulation, for the promotion of democracy and the rule of law.

Part of this appropriation is to be used for actions to control and remove anti-personnel landmines (APL), explosive remnants of war (ERW) and illicit small arms and light weapons (SALW).

This appropriation also covers capacity-building actions to assist agricultural producers in developing countries to meet Union sanitary and phytosanitary standards necessary for access to the Union market.

Where assistance is delivered via budget support, the Commission shall support efforts of partner countries to develop parliamentary oversight, audit capacities and transparency in line with Article 25(1)(b) of Regulation (EC) No 1905/2006. Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations.

Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 18(1)(aa) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Appropriations under this article are subject to evaluations as established in Article 33 of Regulation (EC) No 1905/2006. These evaluations shall include aspects of input activities and chain of results (output, outcome, impact). The findings of the evaluations shall be used in the formulation of subsequent measures financed with these appropriations.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Part of this appropriation is intended to be used, with due regard for the Financial Regulation, for operations carried out by senior volunteer experts from the Union who come under European Senior Services Network (ESSN), including technical assistance, advisory services and training in selected public or private enterprises.

Remarks

This appropriation is intended to cover actions in Iraq, Yemen and further to the Commission's current analysis into the area, potentially, targeted actions concerning human and social development in Iran. With regard to Iraq, this appropriation is intended to cover Union operations in the framework of the Iraqi reconstruction process. Concerning Yemen, actions will be centred on promoting good governance and the fight against poverty (support to social sectors and the private sector).

This appropriation also covers capacity-building actions to assist agricultural producers in developing countries to meet Union sanitary and phytosanitary standards necessary for access to the Union market.

Remarks

This appropriation is intended to cover the financing of evaluations, monitoring and support measures during the programming, preparation, implementation and evaluation stages of development operations, strategies and policies, including the following:

- effectiveness, efficiency, relevance, impact and viability studies,
- monitoring of operations in the course of implementation and after their completion,
- support measures to improve the quality of the monitoring of ongoing operations and the preparation of future operations,
- feedback of and information activities on findings, conclusions and recommendations of evaluations into the decision making cycle,
- methodological advancements to improve the quality and utility of evaluations,
- feedback of and information activities on methodological advancements to improve the quality and utility of evaluations,
- research into possible ways of evaluating programmes based on non-structural measures, such as all measures relating to peace-making, education for peace, reconciliation, etc.

This appropriation also covers the financing of audit activities concerning the management of programmes and projects implemented by the Commission in the external aid field. It will also cover the financing of training activities, based on the special rules governing Union external aid and organised for external auditors.

Furthermore, this appropriation is also intended to support continued efforts to develop further development cooperation impact measurements and indicators.

Remarks

The information activities to be carried out under this budget line fall into two broad categories: horizontal activities and logistical support from headquarters, and activities carried out by Union delegations in third countries and vis-à-vis international organisations.

Measures carried out from headquarters:

- the European Union visitors programme (EUVP), carried out jointly by the European Parliament and the Commission, provides some 170 participants a year, chosen by the Union delegations, with the opportunity of experiencing contact with the Union by visiting the European Parliament and the Commission as part of a made-to-measure individual programme of visits based on a theme,
- the production and distribution of publications on priority themes as part of an annual programme,
- the production and dissemination of audiovisual material,
- the development of information delivered via electronic media (the Internet and electronic message systems),
- the organisation of visits for groups of journalists,
- the support for the information activities of opinion leaders that are consistent with the Union’s priorities,

The Commission will continue to fund news broadcasts in Farsi.

Decentralised measures carried out by Union delegations in third countries and vis-à-vis international organisations

In accordance with the communication goals laid down for each region and each country, the Union delegations propose an annual communication plan, which, once approved by headquarters, is assigned a budgetary allocation covering the following activities:

- websites,
- relations with the media (press conferences, seminars, radio programmes, etc.),
- information products (other publications, graphic material, etc.),
- organisation of events, including cultural activities,
- newsletters,
- information campaigns.

Remarks

This appropriation is intended to cover the funding of priority information and communication activities directed towards the citizens of the Union and dealing with the Union's external policies as a whole.

The areas which will be covered by information activities include those below, but may embrace other aspects of the Union's external relations, particularly in relation to the future of the Union's external policy:

- addressing the weak public perception of external assistance. The objective is to make clear that external assistance is an integral part of what the Union does and is one of the crucial policies that define the Union and its role in the world, and to raise awareness of the fact that the Union is delivering tangible results on behalf of Union citizens to fight poverty and to provide high-quality sustainable development worldwide,
- the 'European Neighbourhood Policy' (ENP). The (ENP) was launched on the basis of a communication from the Commission to the Council and the European Parliament of 11 March 2003 entitled 'Wider Europe — Neighbourhood: A new framework for relations with our eastern and southern neighbours' (COM(2003) 104 final). The actions which are part of this activity will continue to provide information on the activities of the Union in the framework of its 'European Neighbourhood Policy',
- information activities, to be carried out in cooperation with the Council, on the aims and development of the common foreign and security policy,
- the organisation of visits for groups of representatives of civil society.

The Commission has adopted two communications to the European Parliament, the Council, the Economic and Social Committee and the Committee of the Regions on a new framework for cooperation in activities concerning the information and communication policy of the European Union (COM(2001) 354 final and COM(2002) 350 final). They propose an interinstitutional framework for cooperation between the institutions and with the Member States for the development of a communication and information policy strategy for the Union.

The Interinstitutional Group on Information (IGI), co-chaired by the European Parliament, the Council and the Commission, lays down common guidelines for interinstitutional cooperation in matters of Union information and communication policy. It coordinates the central and decentralised public information activities on European topics. Each year the IGI gives its opinion on the priorities for the following years on the basis of information provided by the Commission.

Irrespective of the beneficiary of the measure, no administrative expenditure against this article is authorised.

Regulation (EC) No 1049/2001 of the European Parliament and of the Council of 30 May 2001 regarding public access to European Parliament, Council and Commission documents (OJ L 145, 31.5.2001, p. 43).

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

This preparatory action concerns a strategic environmental impact assessment on the development of the European Arctic. Its aim is to increase awareness of the Arctic and its changing political, economic and environmental landscape, and the impact of Union policies. Its aim is also to increase awareness of impact assessments and their importance as a tool and a channel to put together information for the use of decision and policymakers and the related legal processes.

The strategic environmental impact assessment on the development of the European Arctic will be carried out as a networked undertaking, by leading Arctic communication and research centres and universities within and outside the Union creating a bridge that should facilitate a two-way information exchange between the Union institutions and the Arctic stakeholders and foster EU-civil society contacts. Furthermore, the work should facilitate dialogue within the Union, advance Agenda 21 as well as bring in the Union perspectives and contributions and be closely linked with the assessment activities of the Arctic Council, as laid down in its ministerial meeting in May 2011.

Finally, this preparatory action is intended to advance the future establishment of the EU Arctic Information Centre as expressed in the Commission's Communication on the European Union and the Arctic region of 20 November 2008 and in the European Parliament's resolution of 20 January 2011 on a sustainable EU policy for the High North.

The Council expressed its support for expanded use of strategic impact assessments in its conclusions on Arctic issues of 8 December 2009.

Legal basis

Preparatory action within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

This appropriation is intended to support the following actions:

Activities supporting the conduct of ongoing and new multi- and bilateral trade negotiations

Actions aim to strengthen the Union's negotiating position in ongoing multilateral trade negotiations (in the context of the Doha Development Agenda) as well as ongoing and new bilateral and regional trade negotiations, to ensure that Union policy conception is based on comprehensive and up-to-date expert information and to build coalitions for their successful completion, including:

- expert studies and seminars in connection with the preparation of policy and negotiating positions and with the conduct of ongoing/new trade negotiations,
- development and implementation of a consistent and comprehensive communication and information strategy, promoting the Union's trade policy and raising awareness of the detail and objectives of the Union's trade policy and ongoing negotiation positions, both within and outside the Union.

Studies, evaluations and impact assessments in relation to trade agreements and policies

Actions to ensure that the Union's trade policy is underpinned by, and takes proper account of, ex-ante and ex-post evaluation results, including:

- impact assessments carried out in view of possible new legislative proposals and sustainable impact assessments carried out in support of ongoing negotiations and designed to assess the impact of trade negotiations on sustainable development and, where necessary, propose flanking measures to combat any negative outcomes for specific countries or sectors,
- evaluations of DG Trade's policies and practices to be carried out following the DG's multiannual evaluation plan.

Trade-related technical assistance, training and other capacity-building actions towards developing countries

Actions aiming to strengthen the capacity of developing countries to participate in international, bilateral or bi-regional trade negotiations, to implement international trade agreements and to participate in the world trading system, including:

- projects involving training and capacity-building actions aimed at developing country officials and operators, mainly in the field of sanitary and phytosanitary measures,

COMMISSION

TITLE 20 — TRADE

CHAPTER 20 02 — TRADE POLICY (*cont'd*)20 02 01 (*cont'd*)

- expenditure incurred by Member State experts advising developing country officials and operators on compliance with sanitary, phytosanitary and other trade-related measures,
- reimbursement of the expenses of participants in forums and conferences designed to build awareness and expertise in trade affairs among developing country nationals,
- management, further development and promotion of the Exports helpdesk that provides industry in developing countries with information on access to Union markets, and facilitates efforts by such industry to take advantage of market access opportunities offered by the international trading system,
- trade-related technical assistance programmes arranged in the forum of the World Trade Organisation (WTO) and other multilateral organisations, in particular WTO Trust Funds,
- information and promotion activities and seminars in developing countries for State and non-State actors (including civil society and business actors) to explain the state of play of ongoing negotiations and/or implementation of existing agreements,
- research on the impact of trade-related sustainability assurance schemes on producers and workers in developing countries (including comparative analysis of costs and benefits of certification schemes), as well as their perception by consumers,
- provision of technical assistance and capacity-building for producers and producer associations or cooperatives with a view to increasing market access (for instance with regard to compliance with standards and regulations),
- provision of advice to policymakers on how best to ensure that the specific interests of small producers and workers in developing countries are reflected across all policy areas and promotion of an enabling environment for producers' access to trade-related sustainability assurance schemes.

Market access activities supporting the implementation of the Union's market access strategy

Actions in support of the Union's market access strategy, which aims at removing or lowering barriers to trade, identifying trade restrictions in third countries and, where appropriate, removing obstacles to trade. These actions may include:

- maintenance and further development of the market access database, available to economic operators via the Internet, listing trade barriers and other information affecting Union exports and Union exporters; purchase of the necessary information, data and documentation for this database,
- specific analysis of the various obstacles to trade in key markets, including analysis of the implementation by third countries of their obligations under international trade agreements in connection with the preparation of negotiations,
- conferences, seminars and other information activities (e.g. production and distribution of studies, information packs, publications and leaflets) to inform businesses, Member States officials and other actors about trade barriers and trade policy instruments aimed at protecting the Union against unfair trading practices such as dumping or export subsidies,
- support to the European industry for the organisation of activities specifically geared towards market access issues.

Activities related to the management of the SIGL system (Système Intégré de Gestion de Licences — Integrated system for the management of licences for imports of textiles, clothing, footwear and steel to the Union)

Actions relate to the implementation of the action programme for administering quantitative restrictions and surveillance measures, and in particular the financing of measures for monitoring licence management systems and the coordinated development of the use of computerised procedures (SIGL system). This support will take the form of the financing of expenditure on the implementation and operation of common systems and the definition of common guidelines for training and technical assistance for implementation. The operating expenditure also covers contributions to the functioning of systems (hardware, software, maintenance), the financing of information and training measures for system users, the financing of technical assistance as well as the provision of helpdesk facilities, which are mainly used by Member States.

CHAPTER 20 02 — TRADE POLICY (*cont'd*)**20 02 01** (*cont'd*)*Activities supporting the implementation of existing rules and monitoring of trade obligations*

Actions to support the implementation of existing trade agreements and the enforcement of related systems that enable effective implementation of these agreements as well as the conduct of investigations and inspection visits to ensure third countries are respecting the rules, including:

- exchange of information, training, seminars and communication activities to support the implementation of existing Union legislation in the area of dual use export controls and in particular of the new rules introduced in Council Regulation (EC) No 428/2009 of 5 May 2009 setting up a Community regime for the control of exports, transfer, brokering and transit of dual-use items (OJ L 134, 29.5.2009, p. 1),
- activities to facilitate investigations carried out in the context of the trade defence investigations with the aim of defending Union producers against unfair trade practices by third countries (anti-dumping, anti-subsidy and safeguards instruments) that can be harmful to the economy of the Union. In particular, activities will focus on the development, maintenance and security of information technology systems supporting trade defence activities, the production of communications tools, the purchase of legal services in third countries and the conducting of expert studies.

Activities with a view to promoting the Union's external trade policy through a process of structured dialogue with key opinion formers, civil society and other stakeholders (including small and medium-sized enterprises)

Action to support the Union's trade policy by the organisation of specific forums and meetings with a view to promoting dialogue with key opinion formers, civil society and other stakeholders (including small and medium-sized enterprises) on external trade issues.

The Commission support for these actions may involve conference or event-related services, as well as the reimbursement of the travel expenses incurred by individuals taking part in these actions, especially in the context of DG Trade's Civil Society Dialogue as well as seminars and meetings with Member States, third countries, small and medium-sized enterprises and business stakeholders to exchange views on trade policy, in particular in the area of trade defence policy.

Legal and other expert assistance required in implementation of existing trade agreements

Actions to ensure that the Union's trading partners effectively adhere to and comply with obligations arising under the WTO and other multilateral and bilateral agreements, including:

- expert studies, including inspection visits, as well as specific investigations, and seminars on implementation by third countries of their obligations under international trade agreements,
- legal expertise, especially on questions of foreign law, required to facilitate defence by the Union of its position in WTO dispute-settlement cases, other expert studies necessary for the preparation, management and follow-up to WTO dispute settlement cases.

Legal basis

Council Decision 98/552/EC of 24 September 1998 on the implementation by the Commission of activities relating to the Community market access strategy (OJ L 265, 30.9.1998, p. 31).

Tasks resulting from the Commission's prerogatives at institutional level, as provided for in Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

This appropriation is intended to fund multilateral programmes and initiatives in the field of trade-related assistance to strengthen the capacity of developing countries to participate effectively in the multilateral trading system and regional trading arrangements and to improve their trade performance.

Multilateral initiatives and programmes to be funded under this appropriation will support the following actions:

Assistance for trade policy, participation in negotiations and implementation of trade agreements

Actions to strengthen the capacity of developing countries to formulate their trade policy and to strengthen the institutions involved in trade policy, including comprehensive and updated trade reviews and assistance in integrating trade into their respective policies for economic growth and development.

Actions to strengthen the capacity of developing countries to participate effectively in international trade negotiations and to implement international trade agreements.

Research to advise policymakers how best to ensure that the specific interests of small producers and workers in developing countries are reflected across all policy areas and promote an enabling environment for producers' access to trade-related sustainability assurance schemes.

This assistance is primarily targeted at the public sector.

Trade development

Actions to reduce supply-side constraints which impact directly on the ability of developing countries to exploit their international trading potential, including, in particular, private-sector development.

This appropriation complement the Union's geographical programmes and should only cover multilateral initiatives and programmes that offer real added value to the Union's geographical programmes, in particular the Integrated Framework for Least Developed Countries.

The Commission will provide a bi-annual report on implementation and results obtained and on the main outcomes and effects of aid for trade assistance. The Commission will provide information on a total figure for all aid for trade finance coming from within the general budget of the Union, and a total figure for aid for trade from within all 'trade-related assistance' provided.

Legal basis

Tasks resulting from the Commission's prerogatives at institutional level, as provided for in Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

Union assistance should not be given to any authority, organisation or programme which supports or participates in the management of an action which involves such human rights abuses as coercive abortion, involuntary sterilisation or infanticide, especially where such actions apply their priorities through psychological, social, economic or legal pressure, thus finally implementing the specific Cairo International Conference on Population and Development (ICPD) prohibition on coercion or compulsion in sexual and reproductive health matters. The Commission should present a report on the implementation of the Union's external assistance covering this programme.

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the beneficiaries and the Commission,
- expenditure on external staff at headquarters (contract agents, seconded national experts or agency staff) intended to take over the tasks previously conferred on dismantled technical assistance offices; expenditure on external staff at headquarters is limited to EUR 3 653 300. This estimate is based on a provisional annual unit cost per man-year of which 93 % is accounted for by remuneration for the staff concerned and 7 % by the additional cost of training, meetings, missions, information technology (IT) and telecommunications relating to those staff members,
- expenditure on external staff in Union delegations (contract agents, local agents or seconded national experts) for the purposes of devolved programme management in the Union delegations in third countries or for internalisation of tasks of phased-out technical assistance offices, as well as the additional logistical and infrastructure cost, such as cost of training, meetings, missions, IT and telecommunications and of renting directly caused by the presence in the Union delegation of the external staff remunerated from the appropriations of this item,
- expenditure on studies, meetings of experts, information systems and publications directly linked to the achievement of the objective of the programme.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Such contributions pursuant to Article 6 3 3 of the statement of revenue constitute assigned revenue in accordance with Article 18(1)(aa) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers administrative expenditure under Chapters 21 02, 21 03, 21 04, 21 05 and 21 06.

- to poverty and food insecurity reduction in chronic food-insecure developing countries,
- to mitigate the effects of crisis on the most vulnerable population.

As a bridging instrument between the short-term (crisis situations) and the long-term (development), the scope of this article includes protracted crises, rehabilitation and tackling structural food insecurity as a first step towards long-term poverty reduction.

More specifically, this appropriation is intended to contribute to the strategic priorities of the food security thematic programme including:

- research, technology and innovation related to food security,
- research to collect data on the impact of Fair Trade for marginalised producers and workers in the South, share best practices and carry out supply chain analyses, traceability and accountability assessments,
- research to advise policy-makers how best to ensure that the specific interests of marginalised producers and poor workers in the South are reflected across all policy areas,
- food security governance at global, continental and regional levels, including linking information and decision-making to improve food security response strategies,
- addressing food security in exceptional situations of transition, and in fragile and failed states.
- support marginalised producers in developing countries to have access to prefinancing to help fund inputs and grants to work towards compliance with standards and regulations.

CHAPTER 21 02 — FOOD SECURITY (*cont'd*)21 02 01 (*cont'd*)

This programme is intended to benefit primarily the countries covered by the Financing instrument for development cooperation (DCI).

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. These contributions pursuant to Article 6 3 3 of the statement of revenue constitute assigned revenue in accordance with Article 18(1)(aa) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Where assistance is delivered via budget support, the Commission shall support efforts of partner countries to develop parliamentary oversight, audit capacities and transparency in line with Article 25(1)(b) of Regulation (EC) No 1905/2006. Appropriations pursuant to this article are subject to evaluations as established in Article 33 of Regulation (EC) No 1905/2006. These evaluations shall include aspects of input activities and chain of results (output, outcome, impact). The findings of the evaluations shall be used in the formulation of subsequent measures financed with these appropriations.

In order to ensure full financial transparency pursuant to Articles 53 to 56 of the Financial Regulation, the Commission, when concluding or modifying agreements on the management and implementation of projects by international organisations, will make every effort to commit to sending all their internal and external audits to the European Court of Auditors and to the Internal Auditor of the Commission regarding the use of Union funds.

Remarks

This appropriation is intended to support a rapid and direct response to the increased food prices in developing countries, addressing the period between emergency aid and medium- to long-term development cooperation. The primary objectives of the assistance and cooperation shall be to encourage a positive supply response of the agricultural sector in targeted countries and regions, to support activities to respond rapidly and to mitigate directly the negative effects of high food prices in line with global food security objectives and to strengthen the productive capacities and the governance of the agricultural sector to enhance the sustainability of interventions.

Taking into account the specific country-level conditions, the eligible support measures are:

- measures to improve access to agricultural inputs and services, including fertilisers and seeds, paying special attention to local facilities and availability,
- safety net measures aiming at maintaining or improving the agricultural productive capacity, and at addressing the basic food needs of the most vulnerable populations, including children,
- other small-scale measures aiming at increasing production based on country needs: microcredit, investment, equipment, infrastructure and storage; developing and strengthening associations and cooperatives so that they can build institutional and productive capacities; support for marginalised producers in developing countries so that they have access to pre-financing to help fund inputs and grants to work towards compliance with standards and regulations; as well as vocational training and support to professional groups in the agricultural sector.

The assistance shall benefit developing countries and their populations. Resources are concentrated on a limited list of 50 high-priority target countries.

Remarks

This pilot project is intended to facilitate access to smallholder farmers to financial resources which should be used to stimulate agricultural production in developing countries. These appropriations should be channelled through organisations specialised in microfinance, including local banks and associations, which conform to recognised international standards of transparency, accountability and financial probity.

Taking into account the worldwide economic crisis, microfinance is needed more than ever before. The Union should take responsibility and attach importance to facilitating microfinance in developing countries.

Remarks

This appropriation is intended to support initiatives in developing countries carried out by civil society organisations originating in the Union and partner countries in the area of development as well as to strengthen their capacity in contributing to the policymaking process, so as to:

- promote an inclusive and empowered society in order to (i) favour populations out of reach of mainstream services and resources and excluded from policymaking processes, (ii) strengthen the capacity of civil society organisations in partner countries, with a view to facilitating their participation in defining and implementing sustainable development strategies, (iii) facilitate interaction between state and non-state actors in different contexts,
- increase Europeans' awareness of development issues and mobilise active public support in the Union and acceding countries for poverty reduction and sustainable development strategies in partner countries and for fairer relations between developed and developing countries, and reinforce civil society's role as a factor of progress and transformation,
- achieve more efficient cooperation, foster synergies and ensuring a structured dialogue between civil society networks, within their organisations and with Union institutions.

These initiatives may also include:

- support to advocacy activities to inform policy-makers at all levels on policies that best benefit marginalised producers and workers in developing countries,
- developing and strengthening associations and cooperatives in developing countries so that they can build institutional and productive capacities to be able to develop added value products and scale up,
- support to Southern Fair Trade producer networks which represent the voice of marginalised Fair Trade producers.

This programme is intended to benefit primarily the countries covered by the Financing instrument for development cooperation (DCI). However, in line with Article 38 of Regulation (EC) No 1905/2006 allocating an amount to finance activities that benefit the European Neighbourhood and Partnership Instrument (ENPI) countries under the thematic programmes, an envelope equivalent to 3,9 % of this programme is foreseen for such countries.

Remarks

This appropriation is intended to fund the establishment of an East-African regional network of Millennium Development Goal 5 organisations, bringing together existing national CSO platforms of advocacy and service-delivery organisations from Kenya, Tanzania, Uganda, Rwanda and Burundi — all countries with some of the worst maternal and reproductive health indicators worldwide. This Millennium Development Goal 5 network will aim at providing an informal forum for the exchange of ideas, information and experience in the field of maternal and reproductive health and at providing opportunities for member organisations to explore possibilities for multi-country collaboration and cooperation to highlight the urgent need for increased political and financial attention on Millennium Development Goal 5.

Activities carried out under this project include the establishment of a network secretariat in one of the member organisations, the establishment of virtual platform to disseminate and share information and best practices as well as the organisation of regional events with the aim of improving maternal and reproductive health outcomes in the region.

CHAPTER 21 04 — ENVIRONMENT AND SUSTAINABLE MANAGEMENT OF NATURAL RESOURCES, INCLUDING ENERGY (*cont'd*)21 04 01 (*cont'd*)

Financial support is provided to actions in five priority areas: (1) working upstream on Millennium Development Goal 7: promoting environmental sustainability; (2) promoting implementation of Union initiatives and helping developing countries to meet internationally agreed commitments; (3) improving expertise for integration and coherence; (4) strengthening environmental governance and Union leadership; and (5) supporting sustainable energy options in partner countries and regions.

Part of this appropriation is to be used for the mainstreaming of disaster risk reduction, based on ownership and national strategies of disaster-prone countries.

Support for sustainable energy options in partner countries and regions also includes appropriations to cover the Union contribution to the Global Energy Efficiency and Renewable Energy Fund (GEEREF). The objective of GEEREF is to mobilise public and private finance to help solve the financing gridlock for economic renewable energy projects and businesses, in developing countries and in (non-Union) economies in transition.

Support for climate change adaptation in partner countries and regions includes a contribution to further strengthen the implementation of the European Union's Action Plan on Climate Change and Development through the Global Climate Change Alliance (GCCA). The GCCA is instrumental to enhance the cooperation between the Union and developing countries on climate change, particularly in the area of adaptation towards the impacts of climate change, which is most acute for many poor developing countries.

This programme is intended to benefit primarily the countries covered by the Financing instrument for development cooperation (DCI). However, in line with Article 38 of Regulation (EC) No 1905/2006 allocating an amount to finance activities that benefit the European Neighbourhood and Partnership Instrument (ENPI) countries under the thematic programmes, an envelope of EUR 63 000 000 is foreseen for such countries. This appropriation is also intended to cover the completion of payments for actions funded under the former Article 21 02 05 'Environment in Developing Countries'.

In order to ensure full financial transparency pursuant to Articles 53 to 56 of the Financial Regulation, the Commission, when concluding or modifying agreements on the management and implementation of projects by international organisations, will make all efforts that they commit to sending all their internal and external audits to the European Court of Auditors and to the Internal Auditor of the Commission regarding the use of Union funds.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. These contributions pursuant to Article 6 3 3 of the statement of revenue constitutes assigned revenue in accordance with Article 18(1)(aa) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Where assistance is delivered via budget support, the Commission shall support efforts of partner countries to develop parliamentary oversight, audit capacities and transparency in line with Article 25(1)(b) of Regulation (EC) No 1905/2006. Appropriations under this article are subject to evaluations as established in Article 33 of Regulation (EC) No 1905/2006. These evaluations shall include aspects of input activities and chain of results (output, outcome, impact). The findings of the evaluations shall be used in the formulation of subsequent measures financed with these appropriations.

CHAPTER 21 04 — ENVIRONMENT AND SUSTAINABLE MANAGEMENT OF NATURAL RESOURCES, INCLUDING ENERGY (*cont'd*)21 04 01 (*cont'd*)

Millions of refugees around the world rely on direct Union and Union-sponsored aid in order to survive and build up a sustainable future. It is the Union's policy to ensure that refugees become self-reliant and are eventually able to leave the camp and start their lives again. In practice this self-reliance aim encounters various problems, one of them being that refugees need to travel in order to make a living outside of the camp and once they leave, they need to build up a new existence elsewhere. Decent lighting is crucial to facilitate this process. Traditional lighting in unelectrified areas is usually done with kerosene lights. People breathe toxic air, there is severe risk of burning accidents and kerosene lighting fuels are expensive. It makes people less mobile and consumes productive time when supplies need to be replenished. Supporting refugees in their self reliance will prevent them from returning to the refugee camp and asking for additional (financial) aid. Solar LED lights have a direct impact on expenditures (saving up to 20 % of their income) and they provide light all night long without any operational costs allowing people to work longer, study longer and to travel safely, thus improving their livelihoods. Various research projects have already determined the impact on school results and costs savings are evident. Distributed in the refugee camps, solar LED lights will decrease the reliance on diesel generators for electricity. Since the lights are mobile, they are expected to drastically increase the actual safety level and perceived safety in the camps. Solar LED lights will enhance livelihood and allow for safe, non-toxic light at night for various activities. With the action 'Refugee self-reliance through sustainable lighting' budget will be invested in sustainable futures for refugees as well as refugee camp safety and livelihood. If results are satisfactory according to predetermined success variables, Union institutions should take measures to add sustainable lighting to the basic necessities in refugee camps. For this action, light weight, durable and low-cost solar lamps can be used. There is already an efficient solar lamp in the low-cost price category allowing for 16 hours of reading light, 80 hours of safety night light on a single charge and 8 hours of very bright light. It is mobile, compact and has a long battery life, exceeding two years. For this action it is proposed to start with two large refugee camps in different geographical locations. After a baseline study of monthly expenditures, refugee return ratios, camp livelihood and camp safety, solar LED lights will be distributed to facilitate the entire camp. Previously measured variables will be monitored and after a significant amount of time, conclusions will be drawn in order to support further Union policies in this field. With EUR 600 000 approximately 75 000 lights can be distributed, which will be shared by camp inhabitants. This budget includes monitoring and reporting.

Remarks

This appropriation will be used to support the creation of the Global Energy Efficiency and Renewable Energy Fund (GEEREF), which aims at providing risk capital to different types of renewable energy and energy efficiency investment projects in developing countries, Europe and its neighbouring countries.

In the context of climate change, the Union needs to take the lead as regards measures to reduce the effects and causes of climate change. The exchange of good practices between the Member States in the area of energy efficiency will enable the Union to act in a coordinated fashion, thus helping to lay down joint energy policy strategies and actions. The Union should consider promoting energy efficiency as an instrument to combat the consequences of climate change and also stimulate the use of renewable energy resources in developing countries so as to make them less energy-dependent.

Appropriations under this article are subject to evaluations as established in Article 33 of Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation. (OJ L 378, 27.12.2006, p. 41). These evaluations shall include aspects of input activities and chain of results (output, outcome, impact). The findings of the evaluations shall be used in the formulation of subsequent measures financed with these appropriations.

Legal basis

Preparatory action within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

This appropriation is intended to cover the promotion of water management in developing countries and, in particular, to enhance cooperation between developing countries sharing transboundary waters.

It is intended to cover the development and improvement of tools for water management and, in particular, to enhance cooperation between developing countries.

Part of this appropriation may be used to give technical assistance for the implementation of agreements on water management between developing countries.

It is also intended to cover multi-stakeholder dialogue and coordination to improve efficiency and effectiveness of water management and, in particular, with a view to cooperation between developing countries.

Measures include support to African regions suffering from acute water shortage.

This appropriation is also intended to cover measures to support the dissemination and exchange of results and best practices in developing countries.

CHAPTER 21 05 — HUMAN AND SOCIAL DEVELOPMENT (*cont'd*)21 05 01 (*cont'd*)21 05 01 01 (*cont'd*)

Financial support is provided to actions in four priority areas: (1) combating poverty and neglected diseases, targeting communicable diseases and diseases that can be prevented by vaccination; (2) improving maternal health, reproductive and sexual health in developing countries; (3) improving equitable access to health providers, commodities and health services; and (4) keeping a balanced approach between prevention, treatment and care, with prevention as a key priority.

This appropriation may not be made available to the Global Fund to Fight Aids, Tuberculosis and Malaria (GFATM). Part of the appropriation will be provided for technical aid in recipient countries. This allocation will complement the financing role of the GFATM by ensuring that a coordinated and effective technical support mechanism is in place, resulting in effective implementation of Global Fund appropriations.

This programme is intended to benefit primarily the countries covered by the Development Cooperation Instrument (DCI). However, in line with Article 38 of Regulation (EC) No 1905/2006 allocating an amount to finance activities that benefit European Neighbourhood and Partnership Instrument (ENPI) countries under the thematic programmes, an envelope equivalent to 6 % of this programme over the period 2007-2013 is foreseen for such countries.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. These contributions under Article 6 3 3 of the statement of revenue constitutes assigned revenue in accordance with Article 18(1)(aa) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter. This appropriation is also intended to cover zinc supplementation and other micronutrients for the treatment and prevention of diarrhoea and malnutrition in developing countries.

This appropriation is intended to provide financial support to actions in developing countries and in Europe's neighbouring countries under the 'Good health for all' component of the thematic programme 'Investing in people'.

Appropriations under this title and within the second priority (improving reproductive and sexual health in developing countries) should specifically finance interventions in countries with critical indicators in maternal and reproductive health to reduce bottlenecks and promote good practices for the achievement of Millennium Development Goal 5 ('Improve maternal health') by 2015 and the advancement of the full implementation of the ICPD Programme of Action, notably by supporting capacity-building for the design and implementation of national maternal, reproductive health and family planning strategies within health systems strengthening.

Where assistance is delivered via budget support, the Commission shall support efforts of partner countries to develop parliamentary oversight, audit capacities and transparency in line with Article 25(1)(b) of Regulation (EC) No 1905/2006.

Remarks

This appropriation is intended to provide financial support to actions in developing countries and in Europe's neighbouring countries under the 'Education, knowledge and skills' component of the thematic programme 'Investing in people'.

Financial support is provided to actions in seven priority areas: (1) the Millennium Development Goal of achieving universal primary education by 2015 and the Dakar Framework for Action on Education for All; (2) basic, secondary and higher education plus vocational education and training, to improve access to education for all children and, increasingly, for women and men of all ages; (3) promotion of high-quality basic education, with particular focus on access for girls, children in conflict-affected areas and children from marginalised and more vulnerable social groups including children with disabilities; (4) developing ways to measure learning outcomes in order to better assess the quality of education; (5) promoting donor harmonisation and alignment to promote universal, compulsory, free and high quality education through international or multi-country initiatives; (6) supporting an inclusive knowledge-based society and contributing to bridging the digital divide, and knowledge and information gaps; and (7) improving knowledge and innovation through science and technology together with the development of, and access to, electronic communication networks.

The measures should take into consideration the fact that migration is reduced as a result of improved education and hence life prospects in countries of origin.

This programme is intended to benefit primarily the poorest and least developed countries and the most disadvantaged sections of the population in countries covered by Article 1(2) of Regulation (EC) No 1905/2006.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. These contributions pursuant to Article 6 3 3 of the statement of revenue constitutes assigned revenue in accordance with Article 18(1)(aa) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Remarks

This appropriation is intended to provide financial support to actions in developing countries and in Europe's neighbouring countries under the 'Other aspects of human and social development' component of the thematic programme 'Investing in people', which focuses on the core themes of good health for all, knowledge and skills, culture, employment and social cohesion, gender equality, children and youth. Action in the four areas should take into account cross-cutting issues such as gender equality, needs of people with disabilities and environmental protection.

Financial support is provided for actions in three priority areas: (1) culture; (2) employment and social cohesion; and (3) children and youth.

This appropriation is also intended to support Tibetan civil society in China and in exile and the revitalisation of Tibetan communities in exile.

This programme is intended to benefit the poorest and least developed and the most disadvantaged sections of the population in countries covered by Article 1(2) of Regulation (EC) No 1905/2006. In line with Article 38 of Regulation (EC) No 1905/2006 allocating an amount to finance activities that benefit the European Neighbourhood and Partnership Instrument (ENPI) countries under the thematic programmes, a specific indicative envelope is foreseen under priorities (2) and (3) for such countries over the period 2007-2013.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Remarks

This preparatory action was launched in 2008 with the objective of establishing an action programme to:

- support the improvement of pharmaceutical research, development, and production capacity in developing countries,
- provide concrete financial support for pharmaceutical-related transfer of technology and capacity-building for developing countries and local production of pharmaceuticals in all developing countries, especially least developed countries, in line with the obligations established by Article 66(2) of the Agreement on Trade Related Aspects of Intellectual Property Rights (TRIPS).

A study was launched in 2009 and a specific project was financed in 2010 to improve access to technology, develop capacity building and increase local production capacity (including in the area of traditional medicine).

Legal basis

Preparatory action within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

This preparatory action was launched in 2008 and intended to create an action programme to support research and development on poverty-related, tropical and neglected diseases and to support research institutes willing to cooperate with public health initiatives dedicated to these efforts. The research should primarily take place in developing countries in order to help them to develop local knowledge and locally adapted solutions to the lack of access to medicines.

A study was launched in 2009 involving a large consultation of stakeholders on priority-setting, with particular emphasis on the active participation and pivotal roles of developing country scientists, decision-makers and institutions in this process.

In addition, the appropriations have been dedicated in 2009 and 2010 to financing specific actions, such as support to research networks and capacity building in developing countries. In all these projects, the consultation of developing countries' stakeholders (regional, national and local experts, scientists and institutions) and their leading role should be ensured.

Remarks

This appropriation is intended to cover completion of former cooperation under a number of programmes including health, basic education, cultural cooperation, additional contribution for the UN Millennium Development Goals, decentralised cooperation, information and communication technologies, sustainable energy and gender equality.

COMMISSION

TITLE 21 — DEVELOPMENT AND RELATIONS WITH AFRICAN, CARIBBEAN AND PACIFIC (ACP) STATES

CHAPTER 21 05 — HUMAN AND SOCIAL DEVELOPMENT (*cont'd*)21 05 03 (*cont'd*)*Health*

This appropriation is intended to finance actions to improve reproductive and sexual health in developing countries and to secure respect for the rights related thereto.

Financial assistance shall be provided with a view to promoting the recognition of reproductive and sexual rights, safe motherhood and universal access to a comprehensive range of safe and reliable reproductive and sexual health services.

In the allocation of such funding and expertise, priority shall be given to the poorest and least developed countries and the most disadvantaged sections of the population within developing countries and to action that complements and reinforces both the policies and capacities of developing countries and the assistance provided through other instruments of development cooperation.

The purposes of the activities carried out shall be to:

- secure the right of women, men and adolescents to good reproductive and sexual health,
- enable women, men and adolescents to have access to a comprehensive range of safe and reliable reproductive and sexual healthcare services and products,
- reduce maternal mortality rates, with particular reference to the countries and populations where these are highest,
- combat female genital mutilation.

Financial support shall be given to projects or programmes specifically designed to attain the objectives described above.

This appropriation is intended to finance a preparatory action to combat poverty-related diseases other than HIV/AIDS, malaria and tuberculosis. It is in particular intended to contribute to immunisation programmes against illnesses such as measles, diphtheria, tetanus, pertussis, hepatitis B, haemophilus influenzae B, yellow fever, meningitis and pneumococcus-induced diseases by complementing vaccination efforts under way in some developing countries.

The preparatory actions aim through targeted and innovative measures to identify and provide the conditions for better coordination between the Union, the Member States and the main international public-private partnerships involved in the field of public health and immunisation as well as to secure more effective investment in health systems (prevention, education, capacity-building) in developing countries.

This appropriation is intended to cover a Union contribution to the implementation of the Union action programme for targeting the three major communicable diseases, namely HIV/AIDS, malaria and tuberculosis, in developing countries.

Under that programme, the Union shall provide financial assistance and appropriate expertise with a view to promoting investment in health, poverty reduction and equitable economic growth in developing countries.

In the allocation of such funding and expertise, priority shall be given to the poorest and least developed countries and the most disadvantaged sections of the population, especially women and girls, within developing countries, and also to action that complements and reinforces both the policies and capacities of developing countries and the assistance provided through other instruments of development cooperation. These activities ought to contribute to innovative solutions which will improve the performance of current practices related to the fight against poverty-related diseases.

The purpose of all the activities carried out shall be to:

- optimise the impact of existing interventions, services, commodities and information targeted at the major communicable diseases affecting the poorest populations,
- increase the affordability of key pharmaceuticals,
- increase research and development, including vaccines and clinical trials, microbicides and innovative treatments,

COMMISSION

TITLE 21 — DEVELOPMENT AND RELATIONS WITH AFRICAN, CARIBBEAN AND PACIFIC (ACP) STATES

CHAPTER 21 05 — HUMAN AND SOCIAL DEVELOPMENT (*cont'd*)21 05 03 (*cont'd*)

- increase activities in the area of disease prevention, including VCCT testing, targeted information campaigns and counselling among high-risk groups,
- promote awareness-raising campaigns, education, information and communication efforts aimed at reducing risk-taking behaviour,
- integrate gender sensitivity in HIV/AIDS programming and the development of female-initiated and female-controlled prevention methods as well as to integrate men into programmes focusing on the impact on women and girls,
- promote leadership awareness training.

This appropriation is also intended to fund malaria vaccination programmes.

Union financial support shall be given to specific projects designed to further the objectives described above, including support for global initiatives targeting the major communicable diseases in the context of poverty reduction, notably the Global Fund to fight HIV/AIDS, tuberculosis and malaria which came into operation on 29 January 2002.

Basic education

This appropriation is intended as a pilot project to support national programmes of aid for basic education in developing countries through relevant action and analyses.

Cultural cooperation

It is intended to promote cultural diversity by supporting cooperation in the field of culture, including:

- activities supporting mutual understanding between different cultures within partner countries,
- exchanges allowing for greater cultural understanding between developing countries and the Union.

Additional contribution for the UN Millennium Development Goals

This appropriation is intended to finance sectoral budget support targeted at ending school and uniform fees in primary education, especially for girls. The limited number of beneficiary countries will be chosen from the list of countries identified by the UN Millennium Project as potential candidates for Millennium Development Goal fast-tracking and in accordance with the rules applied by the Commission for the countries benefiting from budget support, with particular reference to their ability to fulfil criteria of good governance and sound financial management.

Part of this appropriation is intended to finance preparation of the beneficiary countries to offset the costs of ending the user fees by other means of public financing after the end of this temporary Union action.

This appropriation is intended to finance sectoral budget support targeted at school meals for children in primary schools. This measure complements the Quick Win action to end school and uniform fees and will be conducted with the same countries, chosen from the list of countries identified by the UN Millennium Project as potential candidates for Millennium Development Goal fast-tracking and in accordance with the rules applied by the Commission for the countries benefiting from budget support, in particular their ability to fulfil criteria of good governance and sound financial management.

Part of this appropriation is intended to finance preparation of the beneficiary countries to organise public financing for school meals after the end of this temporary Union action.

This appropriation is intended to finance aid to smallholder farmers for a massive replenishment of soil nutrients on land with nutrient-depleted soils, through free or subsidised distribution of chemical fertilisers and through agroforestry.

The countries benefiting from this action will be chosen from the list of countries identified by the UN Millennium Project as potential candidates for Millennium Development Goal fast-tracking.

COMMISSION

TITLE 21 — DEVELOPMENT AND RELATIONS WITH AFRICAN, CARIBBEAN AND PACIFIC (ACP) STATES

CHAPTER 21 05 — HUMAN AND SOCIAL DEVELOPMENT (*cont'd*)21 05 03 (*cont'd*)*Decentralised cooperation*

This appropriation is intended to increase the capacity of civil society players and local authorities to act, mobilise and organise, to promote dialogue between government and non-governmental players. It is intended to cover the financing of social and economic development operations to benefit the poorest sections of the population in developing countries, in particular vulnerable groups. It supports sustainable development initiatives taken by the local public authorities, community-based organisations and associations or groupings in developing countries, possibly in association with their Union counterparts.

It is intended, in this context, mainly to cover information, educational, capitalisation and communication schemes so as to enable potential agents to better assimilate the decentralised cooperation approach and to take a more active role in consultations regarding Union programmes and in the implementation of decentralised cooperation.

Information and communication technologies and sustainable energy

This appropriation will fund information and communication technologies that can assist with the process of decentralised cooperation.

This appropriation was intended to enable the Commission to establish in 2002 a mechanism to support capacity-building in developing countries for information and communication technologies (ICT) and sustainable energy. The programme should be well coordinated with other donor initiatives on ICT and sustainable energy.

The sustainable energy component is addressed through Article 06 04 02, whereas the ICT component is addressed through national/regional programmes whenever relevant.

The Commission should also use this appropriation to work with the United Nations Development programme on joint pilot projects and ensure that the full benefits of ICT and sustainable energy technologies are explored and properly highlighted.

Gender equality

This appropriation is intended:

- to implement a catalyst role in promoting gender equality in Union development cooperation,
- to provide financial assistance and appropriate expertise, while at the same time reinforcing the gender mainstreaming strategy by supporting specific actions for the empowerment of women.

Remarks

For countries defined as Official Development Assistance (ODA) recipients by the OECD Development Assistance Committee (DAC), a benchmark of 35 % of annual commitments has in the past been allocated to social infrastructure, mainly education and health, but also including macroeconomic assistance with social sector conditionality, recognising that the Union contribution must be seen as part of the overall donor support to the social sectors and that a degree of flexibility should be the norm. The Commission will continue to report on this benchmark.

Moreover, in parallel with the Commission declaration concerning Article 5 of Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation (DCI) (OJ L 378, 27.12.2006, p. 41), the Commission will endeavour to ensure that a benchmark of 20 % of its allocated assistance under country programmes covered by the DCI will be dedicated, by 2009, to basic education and basic health through project programme or budget support linked to these sectors, taking an average across all geographical areas and recognising that a degree of flexibility must be the norm, such as in cases where exceptional assistance is involved.

Before July each year, the Commission will provide the European Parliament and the Council with an annual report on the Union's development policy and external assistance, meeting all the Commission's regulatory reporting requirements and giving full details of development cooperation, especially the extent to which it has met its objectives. In particular, the report will:

- present the strategic objectives of the Union's development policy and its contribution towards the previous 35 % benchmark for social infrastructure and services and the current 20 % benchmark for basic and secondary education and for basic health, in the context of the geographical cooperation under the DCI, and assess the efficiency and effectiveness of cooperation, including progress made in coordinating aid, in improving the coherence of the Union's strategy in its external actions, and in integrating the cross-cutting issues such as gender, human rights, conflict prevention and the environment,
- present the main results of evaluation and monitoring reports, as an indication of the extent to which its actions are achieving their objectives,
- summarise the key features and events of cooperation in each geographical region, and
- provide financial information on the support given to each sector, in accordance with OECD reporting criteria.

COMMISSION

The report should also contain information on how budget support has contributed to the Millennium Development Goals. Budget support will depend on prior demonstration of sufficient institutional capacity and compliance with detailed criteria for the custody and use of funds in the recipient country. The criteria must be stated in the annual report, and compliance there-with must be assessed in the report.

After the report has been presented the European Parliament, the Council and the Commission will enter into a dialogue on the results and on how further progress can be made towards achieving the objectives.

Remarks

This appropriation is in accordance with the Trade, Development and Cooperation Agreement (TDCA) between the European Union and South Africa and Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation (OJ L 378, 27.12.2006, p. 41).

The programme is implemented through Country Strategy Papers (CSPs) and Multiannual Indicative Programmes (MIPs) under the TDCA in 2007-2013 and is financed from the general budget of the Union.

This appropriation is intended primarily to cover the financing of development cooperation projects and programmes with South Africa, which contribute:

- to South Africa's harmonious and sustainable economic and social development through programmes and measures designed to reduce poverty and encourage economic growth which benefits the poor,
- to its continued integration into the world economy,
- to consolidate the foundations laid for a democratic society and a State governed by the rule of law in which human rights and fundamental freedoms are fully respected,
- to improving social services and helping to achieve the Millennium Development Goals.

Programmes shall focus on the fight against poverty and achieving the Millennium Development Goals, taking into account the needs of the previously disadvantaged communities and integrate gender and environmental dimensions of development. Special attention shall be paid to the strengthening of institutional capacities.

Development cooperation focuses mainly on:

- strengthening capacity for and support to service delivery to the poor (including health, HIV/AIDS, education, housing, infrastructures such as water and sanitation, sustainable energy, communication, as well as public finance management reforms at all levels of government, capacity building and strengthened monitoring and evaluation),
- support to sustainable growth, with a specific view to employment generation (addressing both labour demand and supply issues, such as skills development), notably in the field of climate change adaptation and mitigation and, in general, in the green economy,
- support to governance (both in the public and non-public domains),
- regional and Pan-African support (including contributions to actions promoting peace and security, to intra-ACP programmes for science and technology and academic mobility, as well as support to regional interconnectivity through infrastructure and trade development).

CHAPTER 21 06 — GEOGRAPHICAL COOPERATION WITH AFRICAN, CARIBBEAN AND PACIFIC (ACP) STATES (*cont'd*)21 06 02 (*cont'd*)

Given South Africa's environmental challenges and the country's role as the twelfth largest greenhouse gas emitter in the world, development cooperation will include an increased focus on environmental protection and climate-change-related measures.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. These contributions pursuant to Article 6 3 3 of the statement of revenue constitutes assigned revenue in accordance with Article 18(1)(aa) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Appropriations pursuant to this article are subject to evaluations as established in Article 33 of Regulation (EC) No 1905/2006. These evaluations shall include aspects of input activities and chain of results (output, outcome, impact). The findings of the evaluations shall be used in the formulation of subsequent measures financed with these appropriations.

Where assistance is delivered via budget support, the Commission shall support efforts of partner countries to develop parliamentary oversight, audit capacities and transparency in line with Article 25(1)(b) of Regulation (EC) No 1905/2006.

Remarks

This appropriation is intended to cover measures to initiate the return to a normal life for people in developing countries, in particular the ACP States, in the aftermath of critical situations arising out of natural disasters, violent conflicts or other crises.

It also covers the collateral effects of those critical situations in neighbouring ACP countries, for example the Dominican Republic in the case of the earthquake in Haiti.

It covers, in particular, the following operations:

- the relaunch of production on a lasting basis,
- the physical and operational rehabilitation of basic infrastructure, including mine clearance,
- civil reconciliation through non-structural measures in societies which have been prey to a violent conflict,
- social reintegration, in particular of refugees, displaced persons and demobilised troops,
- the restoration of the institutional capacities needed in the rehabilitation period, especially at local level,
- assisting with the needs of children, particularly the rehabilitation of children affected by war, including child soldiers,
- raising awareness of the dangers posed by natural disasters and of measures designed to avoid them or to avoid or reduce their consequences,
- supporting people with disabilities and such people's organisations to further their human rights to ensure that older people benefit from disaster relief and reconstruction interventions and that adequate attention is paid to research and the collection of age-desegregated data to support programming and policies.

This appropriation also covers education for children affected by war or natural disasters.

In particular, operations should cover programmes and projects implemented by non-governmental development organisations and other civil society players favouring the participation of the beneficiary population at every level of the decision-making and implementation process.

Part of this appropriation is to be used for actions to control and remove anti-personnel landmines (APL), explosive remnants of war (ERW) and illicit small arms and light weapons (SALW).

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. This appropriation is intended to enable the meeting of commitments which have been entered into in the context of technical assistance and income support for ACP producers following the introduction of the common organisation of the market in bananas.

It is also intended to support capacity-building in ACP producer States to help them to integrate better into the multilateral trading system, including improving their ability to participate in the WTO.

Also charged to this article from 1 January 1999 is a programme of assistance intended to help ACP banana producers adapt to the new market conditions brought about by changes in the common organisation of the market in bananas.

Appropriations pursuant to this article are subject to evaluations as established in Article 33 of Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation (OJ L 378, 27.12.2006, p. 41). Remarks

This appropriation is intended to cover the financing of evaluations, monitoring and support measures during the programming, preparation, implementation and evaluation stages of development operations, strategies and policies, including the following:

- effectiveness, efficiency, relevance, impact and viability studies,
- monitoring of operations in the course of implementation and after their completion,
- support measures to improve the quality of the monitoring of ongoing operations and the preparation of future operations,
- feedback of information and information activities on findings, conclusions and recommendations of evaluations into the decision-making cycle,
- methodological advancements to improve the quality and utility of evaluations,
- feedback of information and information activities on methodological advancements to improve the quality and utility of evaluations,
- research into possible ways of evaluating programmes based on non-structural measures, such as all measures relating to peace-making, education for peace, reconciliation, etc.

This appropriation also covers the financing of audit activities concerning the management of programmes and projects implemented by the Commission in the external aid field. It will also cover the financing of training activities, based on the special rules governing Union external aid and organised for external auditors.

Furthermore, the appropriation must also support continued efforts to develop further development cooperation impact measurements and indicators.

Legal basis

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

Action A: coordination

Budget financing provides the Commission with the means of support it needs to prepare, formulate and follow up coordination measures under its development policy. Policy coordination is crucial to the consistency, complementarity and effectiveness of aid.

Coordination measures are essential in defining and shaping the Union development policy at a strategic and programming level. The specific nature of the Union development policy is directly enshrined in the Treaties (Articles 208 and 210 of the Treaty on the Functioning of the European Union). Union aid is complementary to the national policies of the Member States in the sphere of development cooperation and complementarity cannot work without coordination. Article 210 of the Treaty on the Functioning of the European Union requires the Commission to act as coordinator of national policies and coordinator of Union objectives with national objectives in the area of development cooperation and assistance.

Coordination is not only a major factor in the Commission's value added vis-à-vis the policies of the Member States but also a priority in the work schedule at the point where the agendas of the Union and the international community intersect. It therefore reflects a steadily growing demand from the other European institutions, as recognised by the Member States and by the European Parliament at the European Council in Barcelona in March 2002.

This appropriation covers various forms of action:

- effectiveness, efficiency, relevance, impact and viability studies in the area of coordination,
- meetings of experts and exchanges between the Commission and Member States,
- monitoring of operations in the course of implementation,
- support measures to improve the quality of the monitoring of ongoing operations and the preparation of future operations,
- research to advise policy-makers how best to ensure that the specific interests of marginalised producers and poor workers in the South are reflected across all policy areas,
- measures to support external initiatives in the sphere of coordination,
- the preparation of common positions, statements and initiatives,
- the organisation of events relating to coordination,
- the dissemination of information through the production of publications and the development of information systems.

Action B: raising awareness

This appropriation covers the financing of activities designed to draw attention to action by the Union and the Member States in the development field and to raise public awareness of development issues. Every activity financed pursuant to this article must include the following two components, which are complementary in the Commission's view:

- an 'information' component, designed to promote the various activities which the Union undertakes in the development aid field and the activities which it conducts in partnership with the Member States and other international institutions,

— an ‘awareness-raising’ component, covering public opinion in the Union and in developing countries.

Part of these funds is intended for campaigns to raise public awareness of North-South trading relations and their impact on sustainable development and poverty reduction, linking in with Union consumers’ purchasing decisions.

These activities consist mainly, though not exclusively, of financial support for schemes in the audiovisual, publications, seminars and events fields as applied to development, the production of information material, the development of information systems, and also the Lorenzo Natali prize for journalism in the development field.

These activities are directed at public and private sector partners, and at the Union’s representations and delegations in the Member States.

Moreover, the appropriation will cover the financing of actions within the initiative ‘Mobilising European Research on Development Policies’. The main output of this initiative is the publication on an annual basis of a ‘European Report on Development’ (ERD). This process will enhance synergies between European research and policymaking by bringing them together in one common project. The European Report on Development, together with other intermediary products (background papers, seminars and workshops), will play a catalytic role in strengthening and refining the European vision on development and its influence in the international development agenda. This initiative is financed jointly by the Commission and by Member States through contributions on voluntary basis.

Irrespective of the beneficiary of the measure, no administrative expenditure against this article is authorised.

Tasks resulting from specific powers directly conferred on the Commission pursuant to Article 210 of the Treaty on the Functioning of the European Union.

Remarks

This appropriation is intended to cover administrative costs directly linked to the implementation of the Instrument for Pre-Accession Assistance (IPA), in particular:

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the beneficiaries and the Commission,
- expenditure on external staff at headquarters (contract agents, seconded national experts or agency staff) intended to take over the tasks previously conferred on dismantled technical assistance offices; expenditure on external staff at headquarters is limited to EUR 1 800 000. This estimate is based on a provisional annual unit cost per man-year, of which 93 % is accounted for by remuneration for the staff concerned and 7 % by the additional cost of training, meetings, missions, information technology (IT) and telecommunications relating to those staff members,
- expenditure on external staff in Union delegations (contract agents, local agents or seconded national experts) for the purposes of devolved programme management in Union delegations in third countries or for internalisation of tasks of phased-out technical assistance offices, as well as the additional logistical and infrastructure cost, such as the cost of training, meetings, missions, IT and telecommunications and of renting directly caused by the presence in the Union delegation of the external staff remunerated from the appropriations in this item,
- expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the programme.

This appropriation covers expenditure on administrative management under Articles 22 02 01, 22 02 02, 22 02 03, 22 02 04, 22 02 05 and 22 02 07, 22 02 08 and 22 04 02.

Remarks

After enlargement, the Commission remains responsible for ensuring that all legal and financial requirements are met, in particular with regard to sound and efficient financial management. In line with their Acts of Accession, all implementing agencies in the 12 new Member States that joined the Union in 2004 and 2007 must operate under the Extended Decentralised Implementation System (EDIS). In Bulgaria and Romania, EDIS was introduced in 2007.

CHAPTER 22 01 — ADMINISTRATIVE EXPENDITURE OF THE 'ENLARGEMENT' POLICY AREA *(cont'd)*22 01 04 *(cont'd)*22 01 04 02 *(cont'd)*

The remaining tasks carried out at headquarters relating to the completion of pre-accession programmes notably concern project follow-up in the context of both monitoring of outcomes and financial management, including payment requests, supervision of implementation under EDIS, and follow-up to post-accession transitional financial aid. Requests to extend programmes and modify project fiches and/or financial allocations must also be duly assessed and an appropriate decision submitted to the Commission.

Due to the large volume of funds still under implementation in Bulgaria and Romania, sufficient capacities in headquarters are still required. Implementation in Bulgaria was highly problematic in 2008. This issue has created high political and public interest. This resulted in extra workload in terms of reporting, monitoring and missions, but also in a postponement of many transactions in 2009.

This appropriation is intended to cover the administrative costs of this remaining part of the phasing-out of the accession assistance programmes in the new Member States, namely:

- expenditure on short-term technical assistance, linked to the achievement of the objective of the programme (or measures coming under this item), as well as any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts,
- expenditure on external staff at headquarters (contract agents, seconded national experts or agency staff) working on tasks directly related to the completion of the accession programmes; expenditure on external staff at headquarters is limited to EUR 980 000. This estimate is based on a provisional annual unit cost per man/year, of which 93 % is accounted for by remuneration for the staff concerned and 7 % by the additional cost of training, meetings, missions, IT and telecommunications relating to those staff members.

This appropriation covers expenditure on administrative management under Items 22 02 05 01, 22 02 05 04 and Article 22 03 01.

Remarks

Under the IPA, this appropriation is intended to cover the component 'transition and institution building' for candidate countries. The main objective is to develop an effective capacity to implement the *acquis* of the Union, in particular by means of:

- strengthening democratic institutions, as well as the rule of law, including its enforcement,
- the promotion and the protection of human rights and fundamental freedoms and enhanced respect for minority rights, the promotion of gender equality and non-discrimination,
- public administration reform, including the establishment of a system enabling decentralisation of assistance management to the beneficiary country in accordance with the rules set down in the Financial Regulation,
- economic reform,

Remarks

Under the IPA, pre-accession financial assistance is available not only for candidate countries but is also extended to potential candidate countries. This appropriation is intended to cover the component 'transition and institution building' for potential candidate countries. The main objective is to support the participation of the potential candidate countries in the stabilisation and association process and their progression towards candidate country status given their enhanced European perspective following the Thessaloniki European Council (19 to 20 June 2003). This will involve supporting the gradual introduction of the *acquis* of the Union for all countries and the implementation of obligations under the Interim Agreement/Stabilisation and Association Agreements, in particular by means of:

- strengthening democratic institutions, as well as the rule of law, including its enforcement,
- the promotion and the protection of human rights and fundamental freedoms and enhanced respect for minority rights, the promotion of gender equality and non-discrimination,
- public administration reform, including the establishment of a system enabling decentralisation of assistance management to the beneficiary country in accordance with the rules set down in the Financial Regulation,
- economic reform,
- the development of civil society and social inclusion, encouraging less well represented groups to gain a voice and participate in civil society, combating all forms of discrimination, and strengthening the rights of women and children and other particularly vulnerable groups, including persons with disabilities and older persons,
- reconciliation, confidence-building measures and reconstruction.

Part of the appropriations will be used for additional support to the authorities in Kosovo to swiftly proceed in meeting criteria and benchmarks for visa liberalisation with the Union, so visa-free travel can be established with Kosovo without undue delay.

The Union is to finance part of the operation of the Office of the High Representative (OHR) in Bosnia and Herzegovina. The financing is in the form of a contribution to its budgets.

The OHR was expected to close down after Bosnia and Herzegovina had fulfilled some important benchmarks, but due to political uncertainty the closure was postponed.

The OHR will report to the European Parliament on the political situation in Bosnia and Herzegovina, in particular as regards its impact on the implementation of Union financial assistance.

Part of this appropriation is intended to be used, with due regard for the provisions of the Financial Regulation, for operations carried out by senior volunteer experts from the Union who come under the ESSN (European Senior Services Network), including technical assistance, advisory services and training in selected public or private sector enterprises.

Remarks

This appropriation is intended to cover technical assistance in the field of approximation of legislation for the entire *acquis* of the Union, helping all bodies involved in the implementation and enforcement of the *acquis*, including non-governmental organisations, to achieve their objectives and to monitor their rate of achievement.

The objective is to provide as rapidly as possible short-term assistance by means of seminars, workshops, study visits and expert visits, training arrangements, provision of tools and products, notably for information gathering and dissemination, translation/interpretation, as well as any other forms of technical assistance in the context of the approximation to the *acquis* of the Union.

The range of beneficiaries comprises representatives from all public and semi-public-sector bodies such as national administrations, parliaments, legislative councils, regional governments, regulatory and supervisory authorities, as well as those from social partners and representatives of commercial, professional and economic groupings which are involved in the transposition, implementation and enforcement of the *acquis* of the Union.

Remarks

This appropriation is intended to cover financial support for encouraging the economic development of the Turkish Cypriot community in order to maintain and deepen results achieved with earlier Union assistance. The assistance will focus particularly on the economic integration of the island and on improving contacts between the two communities and with the Union in order to facilitate the reunification of Cyprus.

The assistance may be used to support:

- the promotion of social and economic development, in particular concerning rural development, human resources development and regional development,
- the development and restructuring of infrastructure,
- reconciliation, confidence-building measures, and support to civil society,
- bringing the Turkish Cypriot community closer to the Union through, inter alia, information on the Union's political and legal order, promotion of youth exchanges and scholarships,
- progressive alignment with, and preparation for, implementation of the *acquis* of the Union,
- the implementation of the decisions of the bicomunal Technical Committee on Cultural Heritage, including projects of the minorities,
- the continuation of Union financial support and acceleration of the work of the Committee on Missing Persons.

Part of this appropriation is also intended to cover the support administrative expenditure necessary for implementation of the programme such as:

- expenditure on technical and administrative assistance which the Commission may delegate to an implementing agency governed by Union law,
- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the beneficiaries and the Commission,
- expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the programme.

The appropriations are to be used, in particular, to sustain the outcome of works, supplies and grants being funded under earlier allocations. In addition, grant schemes addressed to a large variety of beneficiaries within the civil society of the community (non-governmental organisations (NGOs), students and teachers, schools, farmers, small villages, the private sector) will continue. These activities are reunification driven. Priority should be given, where possible, to reconciliation projects which create bridges between the two communities and build confidence. These measures underline the strong desire and commitment of the Union to a Cyprus settlement and reunification.

Legal basis

Council Regulation (EC) No 389/2006 of 27 February 2006 establishing an instrument of financial support for encouraging the economic development of the Turkish Cypriot community (OJ L 65, 7.3.2006, p. 5).

Remarks

This appropriation will be used for supporting non-profit organisations (such as civil society organisations at a local and international level and public institutions) in conducting sustainable preservation, restoration and development of sites concerning valuable cultural objects (churches, mosques, libraries, museums, monuments, etc.) in candidate and potential candidate countries.

Whenever possible, particular attention should be given to projects that support confidence-building processes by involving different ethnic and religious groups in joint projects, as well as competence building and awareness creation on a local and national level.

In the future, experience gained under this pilot project could also serve to develop a permanent legal basis and a wider approach for preserving and restoring cultural heritage in conflict areas in other geographical regions.

The European Parliament resolution of 29 March 2007 on the future of Kosovo and the role of the EU (OJ C 27 E, 31.1.2008, p. 207) stated that a Kosovo settlement should cover 'protection of all cultural and religious sites'.

A huge number of damaged buildings in the Balkans stand as physical reminders of earlier conflicts, creating mistrust. Different ethnic groups and local authorities are today engaged by NGOs in joint restoration projects, thereby promoting respect for the cultural values of others, but no Union funding is available. The IPA programme broadly covers 'reconstruction' and 'cooperation between communities' but does not make specific reference to restoring cultural heritage.

Legal basis

Pilot project within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

This appropriation will be used for supporting preservation and restoration projects for valuable cultural and religious objects (churches, mosques, libraries, museums, monuments, etc.) damaged or destroyed by war or other political conflicts in the Western Balkans. Appropriations may be used to support public organisations as well as NGOs conducting projects in this field. In this context, however, it is important to recognise the key role that NGOs often play in these preservation and restoration projects.

Particular attention should be given to projects that support the confidence-building process by involving different ethnic and religious groups to take part in joint projects and that support local education and development of restoration knowledge and skills of high cultural quality.

Best restoration practice shall serve as a guideline when selecting objects and, in the selection and evaluation of proposals and contractors, restoration expertise shall be allowed to participate.

Experiences from the pilot project 2008/2009, and the preparatory action 2010/2011 should serve to develop a wider approach for preserving and restoring cultural heritage in conflict areas both in the Western Balkans and in other geographical areas.

The intention of this preparatory action is to serve as a basis for integrating preservation and restoration of cultural heritage in conflict areas into existing financial instruments, not only the IPA programme (for the Western Balkans, Turkey, etc.) but also the ENPI programmes (the Middle East, North Africa, etc.).

Legal basis

Preparatory action within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

This appropriation is intended to cover the funding of priority information and communication activities on enlargement, mainly regarding Member States, including evaluation actions.

The amount of the proposed appropriations reflects the information and communication priorities under the enlargement timetable. The aim of the information and communication strategy is to promote support for accession and to raise public awareness across Europe about the enlargement of the Union, but especially in those target countries where public opinion is more sensitive to future enlargement.

The appropriations will finance information and communication actions on priority Union policies such as: an effective dialogue on enlargement and pre-accession between citizens of the Union and the Union's institutions, taking into account each country's specificity and information needs; an informed debate on enlargement and pre-accession among civil society organisations and citizens in the Union and those of candidate countries and potential candidates; informing journalists and other multipliers on the enlargement process; commissioning studies and opinion polls; developing and updating dedicated websites; preparing printed and audiovisual material; organising public events as well as conferences and seminars; and evaluating the information programme.

The Commission, when implementing this budget line, should take duly into account the outcomes of the meetings of the Inter-institutional Group on Information (IGI).

Legal basis

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

This appropriation is intended to cover the funding of priority information and communication activities on enlargement mainly regarding candidate and potential candidate countries, including evaluation actions.

The bulk of this appropriation will be allocated to cover information and communication activities devolved to Union liaison offices/delegations in candidate and potential candidate countries.

Information and communication actions will be directed at the general public, relevant specific audiences, especially youth, media and civil society organisations, and will seek to enhance support among opinion leaders for enlargement as well as the association and stabilisation process. The aim is also to strengthen the Union's profile and political leverage in those countries and generate public support for the reform process during the accession and pre-accession periods.

Remarks

This appropriation is intended to cover support expenditure directly linked to the achievement of the objectives of the humanitarian aid policy. This covers, inter alia:

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts;
- fees and reimbursable expenses incurred through service contracts to undertake audits and evaluations of Directorate-General for Humanitarian Aid partners and actions;
- expenditure on studies, information and publications, on public awareness and information campaigns, and on any other measure highlighting the Union character of the aid;

- expenditure on external staff at headquarters (contract agents, seconded national experts or agency staff), limited to EUR 1 800 000. This staff is intended to take over the tasks that were entrusted to external contractors handling the administration of individual experts and to manage programmes in third countries. That amount, based on an estimated annual cost per person/year, is intended to cover the remuneration of the external staff in question and training, meetings, missions, information technology (IT) expenditure and telecommunications expenditure related to their tasks;
- expenditure on the development and operation of information systems, accessible via the Europa website or via a secured website at the Data Centre, intended to improve coordination between the Commission and other institutions, national administrations, agencies, non-governmental organisations, other partners in humanitarian aid, and Directorate-General for Humanitarian Aid experts in the field.

This appropriation covers administrative expenditure under Articles 23 02 01, 23 02 02 and 23 02 03.

This appropriation is intended to cover:

- expenditure on technical and/or administrative assistance relating to the identification, preparation, management, monitoring, audit, supervision and evaluation of the Civil Protection Financial Instrument and the Community Civil Protection Mechanism;
- expenditure relating to the purchase and maintenance of security, IT and communication tools necessary to make the Monitoring and Information Centre (MIC), installed on Commission premises, fully operational (advanced information systems, including geographic information systems, and communication tools, linking the MIC to all existing disaster alert systems), and hosting of Common Emergency Communication and Information System (CECIS), including on dedicated infrastructure;
- expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objectives of the programme, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 18(1)(d) of the Financial Regulation.

Remarks

This appropriation is intended to cover the financing of humanitarian assistance to help people in countries outside the Union who are the victims of conflicts or disasters, both natural and man-made (wars, outbreaks of fighting, etc.), or comparable emergencies, for as long as is necessary to meet the humanitarian needs that such situations give rise to.

The aid is granted to victims without discrimination on the grounds of race, ethnic origin, religion, disability, sex, age, nationality or political affiliation.

This appropriation is also intended to cover the purchase and delivery of any product or equipment needed for the implementation of humanitarian aid operations, including the building of homes or shelters for affected groups of people, short-term rehabilitation and reconstruction work, particularly of infrastructure and facilities, the costs associated with external, expatriate or local staff, storage, international or national shipment, logistic support and distribution of relief and any other action aimed at facilitating freedom of access to the recipients of the aid.

This appropriation may also cover any other costs directly linked to the implementation of humanitarian aid operations.

It covers, inter alia:

- feasibility studies on humanitarian operations, evaluations of humanitarian aid projects and plans, and visibility operations and information campaigns linked to humanitarian aid operations;
- the monitoring of humanitarian aid projects and plans, the promotion and development of initiatives intended to increase coordination and cooperation so as to make aid more effective and improve the monitoring of projects and plans;
- the supervision and coordination of the implementation of aid operations forming part of the aid concerned;

Remarks

This appropriation is intended to cover food aid operations of a humanitarian nature and will be carried out in accordance with the rules on humanitarian aid under Regulation (EC) No 1257/96.

The Union's humanitarian aid provides assistance and relief on a non-discriminatory basis to help people outside the Union, particularly the most vulnerable among them, and as a priority those in developing countries who are the victims of natural disasters, man-made crises, such as wars and outbreaks of fighting, or exceptional circumstances/circumstances comparable to natural or man-made disasters. That assistance is provided as long as it is necessary to meet the humanitarian needs to which such situations give rise.

This appropriation may be used to finance the purchase and delivery of food, seeds, livestock or any product or equipment needed for the implementation of the humanitarian food aid operations.

This appropriation is intended to cover the cost of the measures that are essential for implementing food aid operations of a humanitarian nature within the requisite timescale and in a way which meets the needs of the recipients, satisfies the requirement to achieve the greatest possible degree of cost-effectiveness and provides greater transparency. This includes:

- the transport and distribution of aid, including any related operations such as insurance, loading, unloading, coordination, etc.;
- back-up measures that are essential for the programming, coordination and optimum implementation of the aid, the cost of which is not covered by other appropriations, e.g. exceptional transport and storage operations, processing or preparation of foodstuffs on the spot, disinfection, consultants' services, technical assistance and equipment directly involved in providing the aid (tools, utensils, fuel, etc.);

- the supervision and coordination of food aid operations, notably the terms for the supply, delivery, distribution and use of the products involved, including the use of counterpart funds;
- pilot schemes concerning new forms of transport, packaging or storage, studies of food aid operations, visibility operations linked to the humanitarian operations, and information campaigns to increase public awareness;
- the storage of food (including administrative costs, future operations, with or without options, training of technicians, purchase of packaging and mobile storage units, cost of maintaining and repairing stores, etc.);
- the technical assistance necessary for the preparation and implementation of humanitarian food aid projects, in particular expenditure incurred covering the cost of contracts of individual experts in the field and the infrastructure and logistics costs, covered by imprest accounts and expenditure authorisations, of Directorate-General for Humanitarian Aid units deployed throughout the world.

In order to ensure full financial transparency under Articles 53 to 56 of the Financial Regulation, the Commission, when concluding or modifying agreements on the management and implementation of projects by international organisations, will make every effort to commit to sending all their internal and external audits regarding the use of Union funds to the European Court of Auditors and to the Internal Auditor of the Commission.

Remarks

This appropriation is intended to cover a preparatory action on the establishment of a European Voluntary Humanitarian Aid Corps (EVHAC), which is foreseen by Article 214(5) of the Treaty on the Functioning of the European Union.

In 2012, the Commission plans to adopt a legislative proposal setting up EVHAC. The aim of EVHAC is to create a framework for joint contributions from Europeans to humanitarian aid operations of the Union. It is a way of expressing the Union's solidarity with people in need. EVHAC will add visibility to Europe as a global player showing solidarity with the most vulnerable sections of the world population and ensuring involvement of a wide range of actors. An initial review of the European voluntary humanitarian aid sector identified gaps and areas where the EVHAC will add value. These include the identification and selection of volunteers, training through the development of common standards, good practices and possibly modules and deployment. In addition to giving a European form to the widely dispersed activities carried out by volunteers, the existence of EVHAC will also lead to a more efficient coordination of humanitarian activities, to the standardisation of procedures and practices applying to volunteers and to economies of scale.

This appropriation is intended to cover the following measures and items of expenditure:

- based on the 2011 preparatory work, the Commission will identify the areas requiring in-depth studies. Specific studies and evaluations further exploring issues linked to the establishment of EVHAC will be launched and will allow EVHAC's concrete features to be better defined;
- this work will be followed up by an extensive information and consultation process (publications, workshops, experts meetings, conferences) and the coordination and mobilisation of key stakeholders required by the legislative process. Seminars, working groups and conferences with stakeholders will facilitate the exchange of views on the future direction and structure of European volunteering in humanitarian aid;
- concrete 'pilot' actions in fields not covered in 2011 (e.g. civil protection) will be implemented to test concrete options and to generate lessons learned that will feed into the legislative proposal process;
- follow-up of 2011 concrete actions will be implemented to work with more partners, thereby exploring other options and responding to the expectations raised in 2011.

The implementation of concrete projects will include the technical assistance necessary for the preparation and implementation of projects, in particular the cost of contracts of volunteers and individual experts in the field and, where appropriate, the infrastructure and logistics costs (e.g. security, health, lodgings, insurance, daily and travel allowances) information and awareness-raising activities, including the promotion of volunteering to organisations which are not traditionally associated with this type of activity.

Legal basis

Remarks

This appropriation is intended to cover expenditure on actions in the field of civil protection. It is aimed at supporting and complementing the efforts of the Member States, EFTA States and candidate countries having signed a memorandum of understanding with the Union on response, preparedness and prevention actions with regard to natural and man-made disasters, acts of terrorism and technological, radiological or environmental accidents. It also aims to facilitate closer cooperation between the Member States in the field of civil protection.

It covers, in particular:

- the creation of a 'stand-by' capability for resources and equipment to be made available to a Member State in the event of an emergency;
- the identification of intervention experts, modules and other support available in Member States for assistance interventions in case of emergencies;
- the mobilisation of experts to assess assistance needs and facilitate Union assistance in Member States or third countries in the event of disasters, and the basic logistical support for such experts;
- a programme of lessons learnt from civil protection interventions and exercises in the framework of the Community Civil Protection Mechanism;

- a training programme for intervention teams, external staff and experts, to provide the knowledge and tools needed to participate effectively in Union interventions and to develop a common European intervention culture;
- command post exercises and full-scale exercises to test interoperability, train civil protection officials and create a common intervention culture;
- exchanges of experts to enhance understanding of Union civil protection and to share information and experience;
- information and communication (ICT) systems, in particular CECIS, facilitating the exchange of information with Member States during emergencies, to improve efficiency and to enable the exchange of 'EU classified' information. This covers the costs of development, maintenance, operation and support (hardware, software and services) of the systems. It also covers the cost of project management, quality control, security, documentation and training linked to the implementation of such systems;
- the study and development of civil protection modules within the meaning of Article 3(5) of Decision 2007/779/EC, Euratom;
- the study and development of disaster detection and early warning systems;
- the provision of support to Member States in obtaining access to equipment and transport resources;
- the provision of additional transport resources and associated logistics, necessary for ensuring a rapid response to major emergencies and complementing the transport provided by the Member States, under the conditions laid down in Article 4(2)(c) of Decision 2007/162/EC, Euratom;
- support for consular assistance to the citizens of the Union in major emergencies in third countries regarding civil protection activities, upon request from the consular authorities of the Member States;
- workshops, seminars, projects, studies, surveys, modelling, scenario-building and contingency planning, capacity-building assistance, demonstration projects, technology transfer, awareness-raising, information, communication and monitoring, assessment and evaluation;
- other supporting and complementary actions necessary in the framework of the Community Civil Protection Mechanism.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

The aim of this pilot project is to improve mobilisation of operational resources and emergency support from Member States to assist a Member State in coping with forest fires too numerous and too intense to be handled by that Member State using its own logistical capacity and manpower.

The pilot project's objectives are, in particular, to:

- draw up a schedule of Member State emergency teams and logistical resources which can be mobilised in a contingency situation;
- develop standardised communication and information mechanisms in order to make assistance more effective and exchange information on best practices and best equipment and on drawing up operation plans for using both technical and human contingency resources.

Remarks

This appropriation is intended to cover a preparatory action on a rapid response capability of the Union designed to respond immediately to critical needs arising from major disasters, including forest fires. It may consist of dedicated civil protection modules that Member States make available for European civil protection intervention and/or additional complementary capacities made available by the Monitoring and Information Centre (MIC) through standing arrangements with other parties.

The aim of this preparatory action is also to improve the mobilisation of additional operational resources and emergency support from Member States to assist other Member States or third countries in coping with forest fires too numerous and too intense to be handled within the constraints of national logistical capacity and manpower. It is designed to test innovative arrangements for making assistance available to Member States or third countries facing major forest fires. It covers in particular the setting-up by the Member States of a reserve of fire fighting capacities that may be made available in situations where Member States are unable to provide the assistance because they have engaged all their national fire fighting capacities to respond to forest fires or due to a high risk of forest fires on their territory.

By ensuring that key resources and essential equipment are on standby during relevant periods, in line with scenarios for responding to major disasters, this preparatory action is intended to enhance the collective preparedness of the Union for major disasters and paves the way for the European Union Civil Protection Force.

Remarks

This appropriation is intended to cover expenditure related to civil protection intervention in third countries under the Civil Protection Financial Instrument and the Community Civil Protection Mechanism:

- mobilisation of experts to assess assistance needs and facilitate European assistance in Member States or third countries in case of disasters;
- transportation of European civil protection assistance, including the provision of relevant information on transportation means, in the event of disaster as well as associated logistics.

Implementing partners may include authorities of the Member States or of beneficiary countries and their agencies, regional and international organisations and their agencies, non-governmental organisations, public and private operators and individual organisations or operators (including staff seconded from Member State administrations) with appropriate specialised expertise and experience.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Any revenue from the contribution from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes, entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

Remarks

This appropriation is intended to cover actions or activities organised in the framework of the Hercule II programme in the field of the protection of the Union's financial interests, including in the field of the prevention of and the fight against cigarette smuggling and counterfeiting.

This appropriation covers:

- development and improvement of investigative methods and technical resources in the fight against fraud, and improvement in the quality of technical and operational support for investigations, more particularly technical assistance to national authorities involved in the fight against fraud, including the fight against cigarette smuggling,
- promotion and improvement of cooperation between the Member States and the Union and between practitioners and academics,
- provision of information and support for activities relating to data access.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

Legal basis

Remarks

As foreseen in the Action Plan implementing the Stockholm programme, the Commission envisages presenting a 'Communication on a comprehensive policy against corruption in Member States, including the establishment of an evaluation mechanism as well as presenting modalities of cooperation with the Council of Europe's Group of States against corruption (GRECO) for that purpose'.

The anti-corruption policy and evaluation mechanism at the level of the Union would respond to: (i) the public perception across the Union (2007 and 2009 Eurobarometers: more than 75 % of the European citizens consider that corruption represents a major problem in their own Member State), and (ii) the high public expectation of strengthened Union action (public consultation for Stockholm programme: 88 % of consulted citizens required more Union action in the field of anti-corruption).

A concrete step towards establishing an evaluation mechanism is a pilot project with a particular focus on public procurement involving Union funds that could identify indicators of corruption in the field of public procurement, test them in a limited number of Member States and measure the costs of corruption in particular areas. This particular focus in the pilot project is required given the magnitude of Union funds involved across the Union and the fact that public procurement is a developed area of the *acquis* in which Union competence is well-established.

Considering that corruption has played an important role in the financial crisis and that it slows down the recovery, the pilot project and the action by the Union has become even more urgent.

As a prerequisite, a research component in the pilot project may advance common definitions of corruption in the area of public procurement, so that data in different Member States could be compared, and the costs of corruption could be identified based upon common criteria.

The pilot project could be implemented in a limited number of Member States, selected on the basis of whether the results would be relevant for follow-up at Union level and for future Union policy and legislative action. The findings of the pilot project could then be disseminated throughout the Union.

Legal basis

Pilot project within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

The purpose of this pilot project is to set up an interinstitutional system identifying long-term trends on major policy issues that the Union faces. This system should provide common analyses of probable outcomes on major issues to be available for policy-makers; this is to be coordinated between the Parliament (involving policy departments), the Council and the Commission, using the already well established European Union Institute for Security Studies (EUISS) as a core for the system. This system should be rapidly established to be in full operation by 2012.

Legal basis

Pilot project within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

The purpose of this preparatory action is to set up an interinstitutional system identifying long-term trends on major policy issues that the Union faces. The intention is to provide common analyses of probable outcomes on major issues to be available for policymakers. Furthermore, to achieve this goal, it would now be appropriate to explore in detail the design of specific mechanisms for promoting closer working cooperation between the research departments of the various Union institutions and bodies which are devoted to the analysis of medium- and long-term policy trends.

The aim of this preparatory action will be to:

- create a European strategy and policy analysis system (ESPAS) with all Union institutions included by 2014 on the basis of a proposal from the Commission (Article 49 of the Financial Regulation). The European Union Institute for Security Studies (EUISS) could continue to provide facilities and technical back-up until such time as the system becomes operational,
- the system will be interinstitutional, focusing on global long-term trends, both external and internal, relating to the Union,
- the system should be designed to provide regular input to the Union institutions to nourish long-term and medium-term strategic thinking, including reaching out to academics and other stakeholders to provide a broad perspective:
 - this input would include a detailed appraisal of long-term global trends and the submission of a report to the incoming presidents of the Union institutions looking at challenges and options for the period 2014-2019,
 - further reports could include documents for the Union institutions for debate on forward-looking topics, helping foster and deepen cooperation between the Union institutions,
- the system should develop links with other countries undertaking global trends work in order to benefit from their expertise and provide its own expertise to other countries trying to get a grip on strategic trends and changes,
- build and maintain an open website, as a global repository for all relevant information, to facilitate citizens' access, and linked to other working websites on long-term trends across the globe.

Legal basis

Preparatory action within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

26 01 04 01 (cont'd)

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 18(1)(d) of the Financial Regulation.

Legal basis

See Item 26 03 01 01.

The amount of assigned revenue pursuant to Article 18(1)(e) to (j) of the Financial Regulation is estimated at EUR 407 000.

Conditions for releasing the reserve

The reserve will be released by the budgetary authority only if EPSO has fulfilled the following two conditions:

- the presentation, to the relevant committee of the European Parliament, of a thorough analysis and evaluation of the actual costs of EPSO's activities, describing the allocations and their exact use, including the cost of placing individual candidates on the reserve lists, and an evaluation of its projected costs for the next three years,
- EPSO guarantees full cooperation with the European Parliament, including the prompt addressing of Parliament requests, taking into account EPSO's particular needs in the planning of the open competition, as well as in the design of the open competition and its different phases. In addition, EPSO guarantees that all the members of the selection boards appointed by the European Parliament, for all selection procedures, participate fully at all stages of the given selection procedures. This includes participation in the drafting of all relevant documents for the open competition, access to all relevant documents (including the CBT questions and answers if requested by those members), free access to the EPSO buildings, permanent working space (including PC work stations) and information.

Remarks

On 29 September 2008 the Commission proposed a programme on 'Interoperability Solutions for European Public Administrations' (ISA) as a successor to the IDABC programme, which came to an end in December 2009.

The ISA programme aims at facilitating the efficient and effective electronic cross-border and cross-sector interaction between European public administrations in support of the delivery of electronic public services.

In order to do so, the ISA programme must contribute to establishing the related organisational, financial and operational framework by ensuring the availability of common frameworks, common services and generic tools and by increasing the awareness of information and communication technology aspects of Union legislation.

The ISA programme will thus contribute to the reinforcement and implementation of Union policies and legislation.

The programme is implemented in close cooperation and coordination with Member States and sectors, via studies, projects and accompanying measures.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

In accordance with Article 15 of the Financial Regulation, the balance from each financial year is to be entered in the budget for the following financial year as revenue in the case of a surplus or as a payment appropriation in the case of a deficit.

The estimates of such revenue or payment appropriations are entered in the budget during the budgetary procedure and in a letter of amendment submitted pursuant to Article 34 of the Financial Regulation. They are drawn up in accordance with Regulation (EC, Euratom) No 1150/2000.

After the close of accounts for each financial year, any discrepancy with the estimates is entered in the budget for the following financial year through an amending budget.

A surplus is entered in Article 3 0 0 of the statement of revenue.

Legal basis

Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities' own resources (OJ L 130, 31.5.2000, p. 1).

- expenditure on external staff at headquarters (contract agents, seconded national experts or agency staff), up to EUR 2 300 000. This amount is calculated on the basis of a unit annual cost per person/year, 97 % of the total comprising the remuneration for the staff in question and 3 % the costs of training, meetings, missions, information technology and telecommunications in connection with such staff,
- expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the programme or measures coming under this item, plus any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Any revenue from the Swiss Confederation's contribution for participation in Union programmes entered under Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

Remarks

This appropriation is intended to cover the following:

- statistical surveys, studies and development of indicators/benchmarks,
- quality studies and activities designed to improve the quality of statistics,
- subsidies to national statistical authorities,
- the processing, dissemination, promotion and marketing of statistical information,
- equipment, processing infrastructure and maintenance essential for statistical information systems,
- magnetically recorded statistical analysis and documentation,
- services rendered by external experts,
- joint-financing revenue for the public and private sectors,
- the financing of surveys by commercial undertakings,
- the organisation of advanced statistical technology training courses for statisticians,
- the cost of purchasing documentation,
- subsidies for the International Statistical Institute and subscriptions to other international statistical associations.

It is also intended to ensure the gathering of the information necessary to draw up annually a summary report on the economic and social state of the Union on the basis of economic data and structural indicators/benchmarks.

This appropriation is also intended to cover costs incurred in connection with the training of national statisticians and the policy of cooperation with developing countries, the countries of central and eastern Europe and southern Mediterranean countries; expenditure relating to exchanges of officials, the costs of information meetings, subsidies, and expenditure on payment for services rendered in connection with the adjustment of the remuneration of officials and other staff.

Also charged to this article is expenditure on the purchase of data and access for Commission departments to outside data-banks. In addition, funding should be used to develop new, modular techniques.

CHAPTER 29 02 — PRODUCTION OF STATISTICAL INFORMATION (*cont'd*)**29 02 03** (*cont'd*)

It is also intended to cover the provision of the necessary statistical information, at the request of the Commission or of the other institutions of the Union, for the assessment, monitoring and evaluation of the Union's expenditure. This will improve the implementation of financial and budgetary policy (drawing-up of the budget and periodic review of the financial perspective) and make it possible to compile medium and long-term data for the financing of the Union.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Any revenue from the Swiss Confederation's contribution for participation in Union programmes entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

Remarks

This appropriation is intended to cover expenditure relating to the implementation of the Programme for the Modernisation of European Enterprise and Trade Statistics (MEETS), the objectives of which are to develop target sets of indicators and a review of priorities, to streamline the framework of business-related statistics, to implement a smarter way of collecting data, and to modernise and simplify Intrastat.

This programme will cover the following actions:

- define priority areas and define target sets of indicators,
- identify areas of lesser importance,
- integrate concepts and methods within the legal framework,
- develop statistics on enterprise groups,
- conduct European surveys to minimise the burden on business,
- make better use of data that already exist in the statistical system including the possibility of estimations,
- make better use of data that already exist in the economy,
- develop tools for a more efficient extraction, transmission and treatment of data,
- harmonise methods to improve quality under a simplified Intrastat system,
- make better use of administrative data, and
- improve and facilitate the data exchange for Intrastat.

Remarks

Since expenditure on staff and buildings is included in the appropriations entered in Items XX 01 01 01, XX 01 03 01 and 26 01 23, the Commission contribution, together with the Agency's own revenue, is intended to cover expenditure incurred by the Agency in its activities.

At its 23rd session on 1 and 2 February 1960, the Euratom Council proposed unanimously that the Commission postpone not only the levying of the charge (intended to cover the operating expenditure of the Euratom Supply Agency) but also the actual introduction of the said charge. Since then a subsidy has been included in the budget to balance the revenue side against the Agency expenditure figures shown in the statement of estimates.

Remarks

This appropriation is intended to cover the costs of economic and technical feasibility studies, preparatory and evaluation studies and interest rate subsidies, loan guarantees or direct subsidies, in duly justified cases, for projects of common interest identified under the guidelines laid down in Decision No 1364/2006/EC.

The objective of this measure is to contribute towards the competitive operation of the internal energy market and greater security of energy supply through the establishment of the network infrastructure required, and in particular through the establishment and development of trans-European energy networks, promoting the interconnection and interoperability of the national networks and access to such networks and extending them beyond the Union.

Remarks

This appropriation is intended to cover earlier commitments of the 'Intelligent Energy — Europe' programme (2003 to 2006).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

Remarks

This appropriation is intended to finance actions or measures concerning:

- promotion and dissemination projects:
 - strategic studies on the basis of shared analysis and regular monitoring of market developments and energy trends for the preparation of future legislative measures or for the review of existing legislation, including as regards the functioning of the internal energy market, for the implementation of the medium and long-term strategy in the energy field to promote sustainable development, as well as for the preparation of long-term voluntary commitments with industry and other stakeholders and for the development of standards, labelling and certification systems, where appropriate also in cooperation with third countries and international organisations,
 - creation, enlargement or reorganisation of structures and instruments for sustainable energy development, including local and regional energy management and saving measures, and the development of adequate financial products and market instruments; building on the experience from past and present networks,
 - promotion of sustainable energy systems and equipment in order to further accelerate their penetration of the market and stimulate investment to facilitate the transition from demonstration to marketing of more efficient technologies, awareness campaigns and the creation of institutional capabilities,
 - development of information, education and training structures, the utilisation of results, the promotion and dissemination of know-how and best practices involving all consumers, dissemination of results of the actions and projects and cooperation with the Member States through operational networks,
 - monitoring of the implementation and the impact of Union legislative and support measures,
- market replication projects:
 - support to projects concerned with the market replication of innovative techniques, processes, products or practices of Union relevance which have already been technically demonstrated with success. These will be designed to promote their broader utilisation within the participating countries and facilitate their market uptake.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

Any revenue from contributions from third parties entered in Item 6 0 3 3 of the statement of revenue will give rise to the provision of additional appropriations to be entered in this item, in accordance with the Financial Regulation.

To achieve the 20 % target put forward by the Commission, in its Communication of 10 January 2007 entitled 'An energy policy for Europe' (COM(2007) 1), for renewables in the Union's overall energy mix by 2020 — the current target is 12 % for 2010 — this preparatory action is intended to finance:

- projects to develop integrated renewable energy systems (marine, wind, solar, biomass and biogas) adapted to the climatic and specific socioeconomic conditions of island communities, including hybrid systems and desalination systems,
- projects to assess the social and economic impact of increased penetration and utilisation of renewable energies and energy efficiency measures on local island communities (economic development, employment, keeping young people in island communities, etc.),
- energy technology initiatives suitable for island communities, promoting research projects in the areas of renewable energy and energy efficiency technologies to maximise renewable energy use and to adapt to local circumstances,
- projects to develop efficient and environmentally friendly ways to transport this energy to the mainland, including the inter-connection of peripheral island electricity networks to mainland grids,
- the exchange of best practices between island regions in Europe.

Remarks

This appropriation is intended to cover the costs of gas and electricity infrastructure projects having the highest Union added value.

It should serve to adapt and develop energy networks of particular importance to the Union in support of the operation of the internal energy market and, in particular, to increase interconnection capacity, security and diversification of supply and to overcome environmental, technical and financial obstacles. Special Union support is necessary to develop energy networks more intensively and to accelerate their construction, notably where the diversity of routes and sources of supply is low.

This appropriation should also serve to promote connection and integration of renewable energy resources and to strengthen economic and social cohesion with less-favoured and island regions of the Union.

It is intended to cover the financing of the second step of the economic recovery plan as agreed between the two arms of the budgetary authority on 2 April 2009. Its financing is conditional on an agreement by the budgetary authority and should be made available as provided for in points 21, 22 and 23 of the Interinstitutional Agreement of 17 May 2006 on budgetary discipline and sound financial management (OJ C 139, 14.6.2006, p. 1), without prejudice to the financial envelopes of the codecision programmes and the European Parliament's priorities.

If the Commission's annual report to the European Parliament and to the Council on the implementation of the economic recovery plan identifies serious risks for implementing the priority projects, the Commission shall recommend measures to offset those risks, and shall where appropriate and consistent with the economic recovery plan, make additional proposals for the projects already referred to in Regulation (EC) No 663/2009.

- large-scale storage systems,
- management of wind farms as virtual power plants (more than 1 GW),
- turbines placed further from the shore or in deeper waters (20 to 50 m) than is currently standard,
- novel sub-structure designs,
- innovative features and the demonstration of its implementation,
- processes for assembly, installation, operation and decommissioning and testing of these processes in life-size projects.

This appropriation is intended to cover the financing of the second step of the economic recovery plan as agreed between the two arms of the budgetary authority on 2 April 2009. Its financing is conditional on an agreement by the budgetary authority and should be made available as provided for in points 21, 22 and 23 of the Interinstitutional Agreement of 17 May 2006 on budgetary discipline and sound financial management (OJ C 139, 14.6.2006, p. 1), without prejudice to the financial envelopes of the codecision programmes and the European Parliament's priorities.

If the Commission's annual report to the European Parliament and to the Council on the implementation of the economic recovery plan identifies serious risks for implementing the priority projects, the Commission shall recommend measures to offset those risks, and shall where appropriate and consistent with the economic recovery plan, make additional proposals for the projects already referred to in Regulation (EC) No 663/2009.

Remarks

This appropriation is intended to cover expenditure incurred by the Commission for collecting and processing information of all kinds needed for the analysis, definition, promotion, monitoring, evaluation and implementation of the rules and measures required to improve the security of the energy sector, technical assistance and specific training.

The main objectives are to develop and apply security rules in the field of energy and in particular:

- measures to prevent malicious acts in the energy sector, with particular reference to the installations and infrastructures of the European system of energy generation and transmission,
- approximation of legislation, technical standards and administrative monitoring practices relating to energy security,
- definition of common indicators, methods and security objectives for the energy sector and collection of the data necessary for such definition,
- monitoring of measures taken on energy security by national authorities, operators and other key actors in the field,
- international coordination on energy security, including neighbouring supplier and transit countries and other world partners,
- promoting technology development in energy security.

Legal basis

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 49(6) of the Financial Regulation.

Remarks

This project will have as a general objective the drawing up of proposals to prepare for future action for investment in Member States in small-scale solar energy demonstration installations for heating, cooling and electricity. The specific objective should be to set up residential installations in those Member States and regions where there are no subsidies or very limited subsidies, in order to allow the presentation to a large audience of different technologies and possibilities for the generation of heat, cooling and electricity from the sun. As these are new technologies and the majority of the Union population is not well-informed about their advantages, private residential solar investments can be boosted by creating such demonstration installations closer to their place of residence.

The outcome of the project should be several solar installations installed in residential houses and buildings which are made to be functional and to be visited.

Legal basis

Pilot project within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

This appropriation is intended to fund pilot projects or other support activities aiming at analysing the public acceptance of the exploration and exploitation of shale gas and the introduction of a dialogue on it.

A public debate on shale gas, its merits and negative effects, has started in Europe, but it is not always based on concrete knowledge and information. It is important, therefore, to start a citizens' dialogue and information campaign before industrial production begins.

This appropriation should support this public dialogue on the social, environmental and economic effects of such projects at local, national and European level. Such dialogues should include national authorities, local communities, the general public, businesses and NGOs. The content of planned activities could include public hearings, conciliations, or other new methods of public consultation in the areas of shale gas development and within national capitals.

Legal basis

Pilot project within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

In the framework of Directive 2009/28/EC of the European Parliament and of the Council of 23 April 2009 on the promotion of the use of energy from renewable sources (OJ L 140, 5.6.2009, p. 16), which sets national targets for the share of renewable energy sources in gross final energy consumption, a new mechanism is proposed for achieving the national targets, under which Member States can make use of national support schemes and of the cooperation mechanisms provided in the context of Directive 2009/28/EC. These mechanisms, which introduce flexibility for Member States on a voluntary cooperation basis, refer to statistical transfers between Member States (Article 6), joint projects between Member States (Articles 7 and 8), joint projects between Member States and third parties (Articles 9 and 10) and joint support schemes between Member States (Article 11).

This preparatory action should aim to examine all the conditions for the successful implementation of these cooperation mechanisms and their interaction with other mechanisms or national support schemes, and to assess the need to develop a specific framework for the operation of this mechanism. Development of this operation framework should be given priority in Member States with limited cross-border network capacities as well as in areas that exhibit high potential for specific renewable energy sources projects.

Legal basis

Preparatory action within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

This appropriation is intended to finance, in particular:

- expenses for missions by inspectors carried out in accordance with pre-established six-monthly programmes, short-notice inspections (daily subsistence allowances and travel expenses),
- training of inspectors, and meetings with Member States and nuclear operators,
- purchases of equipment for use in inspections, particularly purchases of monitoring equipment such as digital video systems, gamma, neutron and infrared measurement devices, electronic seals and seal reader systems,
- procurement and renewal of information technology hardware for inspections,
- specific information technology projects for inspections (development and maintenance),
- replacement of monitoring and measurement devices which have reached the end of their service life,
- maintenance of equipment, including insurance of specific equipment at the Canberra, Ametek, Fork and GBNS sites,
- technical infrastructure measures, including waste management and sample transport,
- on-site analyses (labour costs and mission expenses for analysts),
- agreements on working premises on site (laboratories, offices, etc.),
- day-to-day management of on-site installations and central laboratories (repairs, maintenance, information technology hardware, purchases of supplies and consumables, etc.),
- information technology support and tests for applications for inspections.

The following will also give rise to the provision of additional appropriations in accordance with Article 18(1)(e) to (j) of the Financial Regulation:

- paid insurance claims,
- repayment of sums unduly paid by the Commission for goods, work or services.

Remarks

This appropriation is intended to cover:

- expenditure incurred by the Commission for collecting and processing information of all kinds needed for the analysis, definition, promotion, monitoring, evaluation and implementation of the common policy on nuclear safety and security, particularly in the new Member States and of the rules and measures in the field of radiation protection,
- expenditure on measures and actions relating to monitoring and protection against the effects of ionising radiation and aimed at ensuring the health protection of the population and the protection of the environment against the dangers of radiation and radioactive substances. These actions relate to specific tasks provided for under the Treaty establishing the European Atomic Energy Community,
- expenditure on the establishment and operation of a corps of inspectors to check protection against ionising radiation in the Member States. This expenditure includes, in addition to subsistence allowances and travel (mission) expenses, costs for training, for preparatory meetings and for purchases of equipment to be used for inspections.

Remarks

This appropriation is intended to finance the Ignalina (Lithuania), Bohunice (Slovakia) and the Kozloduy (Bulgaria) nuclear power plant decommissioning funds, in accordance with the agreements signed with the Member States concerned.

This expenditure also relates to the collection and processing of information of all kinds needed for the analysis, definition, promotion, monitoring and evaluation of the rules and measures in the field of decommissioning.

The Commission must submit, each year, a report on the implementation of funds committed under this article, as well as updated estimates of the costs and time schedules for operations to decommission the nuclear reactors concerned.

Legal basis

Task resulting from specific powers directly conferred on the Commission by the Accession Treaty of 2003 (Protocol No 4 on the Ignalina nuclear power plant in Lithuania and Protocol No 9 on Unit 1 and Unit 2 of the Bohunice V1 nuclear power plant in Slovakia, both annexed to the Accession Treaty of 2003).

Remarks

These remarks are applicable to all the budget headings in this chapter.

These appropriations will be used for the Seventh Framework Programme for research, technological development and demonstration activities, which covers the period 2007 to 2013.

The programme will be carried out in order to pursue the general objectives described in Article 179 of the Treaty on the Functioning of the European Union, in order to contribute to the creation of a society of knowledge, based on the European Research Area, i.e. supporting transnational cooperation at all levels throughout the Union, taking the dynamism, creativity and the excellence of European research to the limits of knowledge, strengthening human resources for research and for technology in Europe, quantitatively and qualitatively and research and innovation capacities in the whole of Europe and ensuring optimum use thereof.

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Union to investigate new areas of research suitable for Union action, inter alia, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

These appropriations also cover administrative expenditure, including expenditure on staff, information, publications, administrative and technical operation, and certain other expenditure items relating to internal infrastructure for achievement of the objective of the measure of which they form an integral part, including the action and measures necessary for the preparation and monitoring of the Union's strategy for research, technological development and demonstration activities.

The possibility of third countries or institutes from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution will be entered in Items 6 0 1 3 and 6 0 1 5 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 18 of the Financial Regulation.

Any revenue from States taking part in the European cooperation in the field of scientific and technical research entered in Item 6 0 1 6 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18 of the Financial Regulation.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes, entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

Any revenue from the contribution by outside bodies to Union activities entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18 of the Financial Regulation.

Additional appropriations will be made available under Article 32 06 03.

Remarks

This appropriation is intended to support the European Strategic Energy Technology Plan (SET-Plan) objectives and initiatives. These are primarily: wind, solar, bioenergy, carbon capture and storage (CCS) and electricity grids. In recognition of their important contribution to future sustainable energy systems, two thirds of the budgetary appropriations will be allocated to the renewable and end-use energy efficiency policy areas from 2012 onwards.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

The Fuel Cells and Hydrogen Joint Undertaking shall contribute to the implementation of the Seventh Framework Programme for research, technology development and demonstration activities (2007-2013) and in particular the specific themes for 'Energy', 'Nanosciences, Nanotechnologies, Materials and new Production Technologies', 'Environment (including climate change)', and 'Transport (including Aeronautics)' in the 'Cooperation' programme. It shall, in particular: aim at placing Europe at the forefront of fuel cell and hydrogen technologies worldwide and at enabling the market breakthrough of fuel cell and hydrogen technologies, thereby allowing commercial market forces to drive the substantial potential public benefits; support research, technological development and demonstration (RTD) in the Member States and countries associated to the Seventh Framework Programme in a coordinated manner to overcome the market failure and focus on developing market applications and thereby facilitate additional industrial efforts towards a rapid deployment of fuel cells and hydrogen technologies; support the implementation of the RTD priorities of the Fuel Cells and Hydrogen Joint Technology Initiatives, notably by awarding grants following competitive calls for proposals; and aim to encourage increased public and private research investment in fuel cells and hydrogen technologies in the Member States and countries associated to the Seventh Framework Programme.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

This appropriation is intended to cover the Agency's staff and administrative expenditure (Titles 1 and 2).

The Agency must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure.

The amounts repaid in accordance with Article 16 of the framework Financial Regulation for the bodies referred to in Article 185 of the Financial Regulation constitute assigned revenue (Article 18(1)(f) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

The Agency's establishment plan is set out in the Part entitled 'Establishment plan staff' of Section III — Commission (Volume 3).

Regulation (EC) No 168/2007 entered into force on 1 March 2007. On that date, the Agency replaced the European Monitoring Centre on Racism and Xenophobia (EUMC) and legally succeeded it, assuming all the Centre's legal rights and obligations, financial commitments, liabilities, and employment contracts, as laid down in Article 23(4) of Regulation (EC) No 168/2007.

Remarks

This appropriation is intended to cover the operational expenditure (Title 3) of the European Union Agency for Fundamental Rights, which is responsible for providing the relevant Union institutions and authorities of the Member States when implementing Union law with assistance and expertise relating to fundamental rights in order to support them when they take measures or formulate courses of action within their respective spheres of competence to fully respect fundamental rights.

The Agency can be expected to achieve the following operational objectives/tasks:

- provision of assistance to Union institutions and the Member States;
- promotion of networking of stakeholders and dialogue at European level;
- promotion and dissemination of information and awareness-raising activities to enhance visibility on fundamental rights;
- effective functioning of the management structure and implementation of operations.

Remarks

This appropriation is intended to support the following areas:

- to promote the development of a European society based on respect for fundamental rights as recognised in Article 6 of the Treaty on European Union, including rights derived from citizenship of the Union;
- to strengthen civil society and to encourage an open, transparent and regular dialogue with it in respect of fundamental rights;
- to fight racism, xenophobia, anti-Romaism and anti-Semitism and to promote a better inter-faith and intercultural understanding and improved tolerance throughout the Union;
- to improve contacts, exchange of information and networking between legal, judicial and administrative authorities and the legal professions, including by way of support for judicial training, with the aim of better mutual understanding among such authorities and professionals.

In particular, this appropriation is intended to cover the following actions:

- specific actions taken by the Commission, such as studies and research, opinion polls and surveys, formulation of indicators and common methodologies, collection, development and dissemination of data and statistics, seminars, conferences and expert meetings, organisation of public campaigns and events; development and maintenance of websites, preparation and dissemination of information material, support for and management of networks of national experts, analytical, monitoring and evaluation activities;

CHAPTER 33 02 — FUNDAMENTAL RIGHTS AND CITIZENSHIP (*cont'd*)33 02 04 (*cont'd*)

- specific transnational projects of Union interest presented by at least three Member States under the conditions set out in the annual work programmes;
- support to the activities of non-governmental organisations or other entities pursuing an aim of general European interest in accordance with the general objectives of the programme under the conditions set out in the annual work programmes, including activities related to networking of non-governmental organisations promoting children's rights;
- an operating grant to co-finance expenditure associated with the permanent work programme of the Conference of the European Constitutional Courts and the Association of the Councils of States and Supreme Administrative Jurisdictions of the European Union which maintain certain databases providing for a European-wide collection of national judgments relating to the implementation of Union law, in so far as the expenditure is incurred in pursuing an objective of general European interest by promoting exchanges of views and experience on matters concerning the jurisprudence, organisation and functioning of their members in the performance of their judicial and/or advisory functions with regard to Union law.

This appropriation is also intended to cover an awareness campaign concerning Union anti-discrimination legislation.

This appropriation is also intended to promote and support Union action on detention conditions, in response to the dilapidated state of many prisons in the Member States and the difficult conditions in which inmates are having to live, owing, in particular, to overcrowding.

Thus it is also intended to cover:

- pooling of good practice among public, private and non-profit organisations working in the sector in the Member States;
- support measures (e.g. comparative studies within the Union) for Union action in this crucial sector, in line with the measures to be taken by the Commission (submission, on 14 June 2011, of a Green Paper on the application of EU criminal justice legislation in the field of detention), as set out in the Stockholm Action Plan.

Remarks

This appropriation is intended to support the following areas:

- to contribute to the protection of children, young people and women against all forms of violence and to attain a high level of health protection, well-being and social cohesion;
- to contribute, especially where children, young people and women are concerned, to the development of Union policies and, more specifically, to policies on public health, human rights and equality between men and women, to actions aimed at the protection of children's rights, and to the fight against forced abortion, coerced sterilisation, sex-selective abortion, female genital mutilation, forced marriage, trafficking of human beings and sexual exploitation.

CHAPTER 33 02 — FUNDAMENTAL RIGHTS AND CITIZENSHIP (*cont'd*)33 02 05 (*cont'd*)

In particular, this appropriation is intended to cover the following actions:

- specific actions taken by the Commission, such as studies and research, opinion polls and surveys, formulation of indicators and common methodologies, collection, development and dissemination of data and statistics, seminars, conferences and experts meetings, organisation of public campaigns and events, development and maintenance of websites, preparation and dissemination of information materials, support to and animation of networks of national experts, analytical, monitoring and evaluation activities;
- specific transnational projects of Union interest presented by at least three Member States under the conditions set out in the annual work programmes;
- support to the activities of non-governmental organisations or other entities pursuing an aim of general European interest regarding the general objectives of the programme under the conditions set out in the annual work programmes;
- prevention of, and protection of children, adolescents and women from, all kinds of violence and commercial sexual exploitation, trafficking and other forms of abuse such as female genital mutilation, violence at school and juvenile delinquency, and promoting the rehabilitation of victims of such abuse;
- conducting information campaigns aimed at combating paedophilia, trafficking in human beings, sexual exploitation, forced abortion, female genital mutilation, or coerced sterilisation and forced marriage, and at preventing juvenile delinquency;
- promoting the introduction of instruments designed to encourage reporting of violence against women, children and adolescents and of forms of trafficking in women for the purpose of sexual exploitation;
- pilot projects and grants targeted at organisations which, as part of action to protect children and combat paedophilia on the internet, are involved in devising and/or adopting measures to prevent material and images that involve child pornography or constitute an offence against human dignity from being carried on the internet;
- exchange of best practices regarding action in response to violence at school, measures to prevent and combat juvenile delinquency, support for relevant non-governmental organisation initiatives and cross-border cooperation, pilot projects at local and regional level and the networking of the authorities responsible for dealing with cases of juvenile delinquency.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

The appropriations intended for this action are to be used to implement the Union strategy on the rights of the child in line with the Commission communication 'Towards an EU Strategy on the Rights of the Child' (COM(2006) 367 final), e.g.:

- coordination of measures taken in the Union to combat child poverty,
- any direct measure to prevent social exclusion of children, trafficking in children and paedophile pornography on the internet.

These appropriations may also be used for any preparatory measure needed to pursue the abovementioned objectives.

Remarks

This appropriation is intended to cover earlier commitments.

The aim of this article is to introduce throughout the Union a mechanism known as 'Amber Alert' (in the United States of America and Greece) and 'Alerte-Enlèvement' (in France), while stressing the need for cross-border interconnection.

Following the successful use, in France and Greece (and also in the USA and Canada), of systems alerting the public in cases of child abduction (or disappearance) and when children's health or lives may be at serious risk, the Commission would like to help Member States to put similar mechanisms in place nationally. If all Member States adopt such mechanisms, and communication schemes are put in place, resolving cross-border cases will be possible and easier.

This article is intended to finance the additional costs which might arise as a result of putting this mechanism in place. Costs involved in setting up round-the-clock contact points, free phone lines and information technology networks would be typical costs.

Legal basis

Remarks

This appropriation is intended to cover earlier commitments.

This appropriation is intended to fund a preparatory action embodying the efforts which the Union has been making to promote preventive measures to combat violence against children and adolescents of both sexes and against women, with a view to standardising national legislation in this area. The objectives will be to:

- analyse the current national legislation on gender violence, with reference to all types of violence: domestic violence, sexual violence, prostitution and trafficking, female genital mutilation and crimes of honour;
- analyse shortcomings in applying legislation on gender violence in each Member State;
- implement the process of European-level harmonisation of legislation against gender violence by proposing provisions to combat and reduce gender violence within the Union.

Legal basis

Preparatory action within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

At Union level, there are major deficiencies and obstacles with regard to the collection of reliable and comparable statistics on children. A methodology therefore needs to be developed for devising indicators relating specifically to children.

The objectives of the pilot project are:

- collection of statistics and best practices relating to children:
 - promoting the exchange of information, establishing best practices and publishing an overview of the state of play in the 27 Member States;
 - establishing a knowledge base on children's rights which will enable the Union institutions and Member States to adapt their policies on the basis of shared know-how;
 - analysing Member States' current legislation on safeguarding children's rights;

CHAPTER 33 02 — FUNDAMENTAL RIGHTS AND CITIZENSHIP (*cont'd*)33 02 09 (*cont'd*)

- devising indicators (quantitative and qualitative) and benchmarks so as to enhance the comparability, objectivity and reliability of child-related data at European level with regard to:
 - child poverty and social exclusion;
 - abuse, sexual exploitation of children and paedophile pornography;
 - domestic violence;
 - sex tourism;
 - international abduction of children involved in disputes;
 - children with disabilities: policies to support the differently-abled and criticalities;
 - child trafficking;
 - gender discrimination (female genital mutilation, crimes of honour, forced marriages);
 - eating disorders;
 - addictions (alcohol, tobacco, drugs, medicines);
 - missing children;
 - unaccompanied minors;
 - risks associated with the behavioural and psychological aspects of using new technologies;
 - juvenile delinquency;
- involving and consulting children:
 - developing a methodology for involvement and consultation at European and national level which (a) enables children to be heard and (b) ensures the constructive and effective involvement of children in decisions affecting them, as set out in Article 12 of the United Nations Convention on the Rights of the Child;
 - developing child-friendly communication and information systems for making Union measures known in a manner adapted to a younger audience.

Legal basis

Remarks

This appropriation is intended to support the following areas:

- to promote judicial cooperation with the aim of contributing to the creation of a genuine European area of justice in criminal matters based on mutual recognition and mutual confidence;
- to promote the mutual recognition of judicial instruments in the Member States, with particular reference to orders of seizure and confiscation of assets derived from illegal activities of organised crime, taking into account the European Parliament recommendations;
- to promote the adjustment of the existing judicial systems in Member States to the Union being a territory without border controls, with a single currency, and with free movement of persons, services, goods and capital;
- to improve the daily life of individuals and businesses by enabling them to assert their rights throughout the Union, notably by fostering access to justice;
- to improve the contacts and exchange of information between legal, judicial and administrative authorities and the legal professions, and to foster the training of the members of the judiciary.

In particular, this appropriation is intended to cover the following actions:

- specific actions taken by the Commission, such as studies and research, creation and implementation of specific projects like the creation of a computerised system of exchange of information on criminal records, opinion polls and surveys, formulation of indicators and common methodologies, collection, development and dissemination of data and statistics, seminars, conferences and experts meetings, organisation of public campaigns and events, development and maintenance of websites, preparation and dissemination of information material, support to and animation of networks of national experts, analytical, monitoring and evaluation activities;
- specific transnational projects of Union interest presented by at least three Member States under the conditions set out in the annual work programmes;
- support to the activities of non-governmental organisations or other entities pursuing an aim of general European interest in accordance with the general objectives of the programme under the conditions set out in the annual work programmes;
- an operating grant to co-finance expenditure associated with the permanent work programme of the European Judicial Training Network which pursues an aim of general European interest in the field of training of the judiciary.

Part of this appropriation is also intended to cover the costs of a project to set up a body of European criminal lawyers (Euro-rights). The body should function as an ombudsman, investigating problems encountered by the defence in the context of European police and judicial cooperation.

Remarks

This appropriation is intended to support the following areas:

- promoting judicial cooperation with the aim of contributing to the creation of a genuine European area of justice in civil matters based on mutual recognition and mutual confidence;
- promoting the elimination of obstacles to the good functioning of cross-border civil proceedings in the Member States;
- improving the daily lives of individuals and businesses by enabling them to assert their rights throughout the Union, notably by fostering access to justice;
- improving the contacts, exchange of information and networking between legal, judicial and administrative authorities and the legal professions, including by way of support for judicial training, with the aim of better mutual understanding among such authorities and professionals.

In particular, this appropriation is intended to cover the following actions:

- specific actions taken by the Commission, such as studies and research, opinion polls and surveys, formulation of indicators and common methodologies, collection, development and dissemination of data and statistics, seminars, conferences and expert meetings, organisation of public campaigns and events, development and maintenance of websites, preparation and dissemination of information material, support for and management of networks of national experts, analytical, monitoring and evaluation activities;
- specific transnational projects of Union interest presented by at least three Member States under the conditions set out in the annual work programmes;
- support to the activities of non-governmental organisations or other entities pursuing an aim of general European interest in accordance with the general objectives of the programme under the conditions set out in the annual work programmes;
- operating grants to co-finance expenditure associated with the permanent work programme of the European Network of Councils for the Judiciary and the Network of the Presidents of the Supreme Judicial Courts of the European Union, in so far as it is incurred in pursuing an objective of general European interest by promoting exchanges of views and experience on matters concerning case-law, and the organisation and functioning of their members in the performance of their judicial and/or advisory functions with regard to Union law;
- measures supporting the creation of an online network of registers of wills for those Member States which have, or wish to have, a register of wills.

Remarks

This appropriation is intended to improve the financial situation of SMEs that operate in their home Member State and across borders by supporting them in managing and enforcing outstanding claims. SMEs will be helped to optimise their business procedures by improving information access and dissemination in the area of credit and claims management instruments and options. The aim is also to improve the use, understanding and awareness of the legal instruments available. In this pilot project, multilingual practice-based guidelines will introduce the subject and methodology of credit and claims management and explain the application of existing legal instruments to the national and cross-border enforcement of claims (Regulation (EC) No 1896/2006 of the European Parliament and of the Council of 12 December 2006 creating a European order for payment procedure (OJ L 399, 30.12.2006, p. 1), Regulation (EC) No 861/2007 of the European Parliament and of the Council of 11 July 2007 establishing a European Small Claims Procedure (OJ L 199, 31.7.2007, p. 1), Regulation (EC) No 805/2004 of the European Parliament and of the Council of 21 April 2004 creating a European Enforcement Order for uncontested claims (OJ L 143, 30.4.2004, p. 15), Council Regulation (EC) No 44/2001 of 22 December 2000 on jurisdiction and the recognition and enforcement of judgments in civil and commercial matters (OJ L 12, 16.1.2001, p. 1), etc.). In addition, events will be arranged in a decentralised way throughout Europe, e.g. via the networks of chambers of commerce and industry, organisations representing SMEs or other facilities engaged in business promotion, to provide SMEs with information on credit and claims management and the available legal instruments available.

CHAPTER 33 03 — JUSTICE IN CRIMINAL AND CIVIL MATTERS (*cont'd*)**33 03 07** (*cont'd*)

In 2012, events aiming to provide SMEs with information on credit and claims management and the legal instruments available will be continued and extended. There will also be events targeting students of professional training programmes and teaching modules will be developed whose content can be integrated and used in vocational advanced training and advanced training of young entrepreneurs. Furthermore, there will be awareness-raising activities to draw attention to information on credit and claims management and to familiarise SMEs with national and Union legal instruments and the possibilities offered by the e-Justice portal. This is supported by the dissemination of the multilingual practice-based guidelines that introduce the subject and methodology of credit and claims management and explain the application of existing legal instruments to the enforcement of claims. Moreover, this pilot project is extended to SMEs that operate in their home Member State.

Remarks

A specific pilot project on judicial training can help fulfil the goal of building a European judicial culture, as expressed in the Stockholm Programme and in several resolutions adopted by the European Parliament in 2009/2010. The resources of the pilot project will contribute to:

- identifying best practices in training of judges, prosecutors and professionals of justice in national legal systems and traditions as well as in Union law,
- identifying best practices to bring training in Union law as well as in national legal systems and traditions to judges, prosecutors and professionals of justice at local level and to promote the dialogue and coordination between Union judges and prosecutors,
- promoting exchanges of these best practices between the Union judicial training providers and disseminating them across the Union,
- improving cooperation between the European Judicial Training Network and the national judicial training institutions with judicial training providers such as the Academy of European Law and with the European level professional organisations such as the European Network of the Councils for the Judiciary, the Network of the Presidents of the Supreme Judicial Courts, the Association of the Councils of State and Supreme Administrative Jurisdictions and the Eurojustice network of European Prosecutors-General.

The pilot project could be coordinated by a minimum of three national judicial schools in cooperation with at least one European school of judicial training.

Legal basis

Pilot project within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

This appropriation is intended to support the following areas:

- to prevent and reduce drug use, dependence and drug-related harm;
- to contribute to the improvement of information on drug use;
- to support the implementation of the Union drugs strategy.

In particular, this appropriation is intended to cover the following actions:

- specific actions taken by the Commission, such as studies and research, opinion polls and surveys, formulation of indicators and common methodologies, collection, development and dissemination of data and statistics, seminars, conferences and experts meetings, organisation of public campaigns and events, development and maintenance of websites, preparation and dissemination of information materials, support to and animation of networks of national experts, analytical, monitoring and evaluation activities, or
- specific transnational projects of Union interest presented by at least two Member States, or at least one Member State and one other State which may either be an acceding or a candidate country under the conditions set out in the annual work programme, or
- support to the activities of non-governmental organisations or other entities pursuing an aim of general European interest regarding the general objectives of the programme under the conditions set out in the annual work programmes, or
- drug prevention and harm-reduction initiatives, and strategic activities to fight drug-related dependency.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Remarks

This appropriation is intended to cover the funding of priority information measures in the field of justice and home affairs.

It covers information and communication measures in the field of justice and home affairs in relation to the establishment of an area of freedom, security and justice (internal web sites, public events, communication products, Eurobarometer surveys, etc.). These measures are designed to be an effective channel of communication and dialogue between the people of the Union, stakeholders, and the Union institutions and take account of specific national, regional and local characteristics, in close cooperation with the Member State authorities.

The Commission has adopted a series of communications to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions on a new framework for cooperation in activities concerning the information and communication policy of the European Union (COM(2001) 354 final and COM(2002) 350 final). These communications propose an interinstitutional framework for cooperation extended to Member States for the development of a communication and information policy strategy for the Union.

The Interinstitutional Group on Information (IGI), co-chaired by the European Parliament, the Council and the Commission, lays down common guidelines for interinstitutional cooperation in matters of Union information and communication policy. It coordinates the central and decentralised public information activities on European topics. Each year the IGI gives its opinion on the priorities for the following years on the basis of information provided by the Commission.

This appropriation is intended to cover the funding of an awareness-raising campaign by the Commission, in cooperation with civil society, on Union citizens' rights under Articles 18 to 25 of the Treaty on the Functioning of the European Union.

This appropriation is also intended to cover the funding of the information campaigns with regards to new transparency measures based on Article 15 of the Treaty on the Functioning of the European Union and Regulation (EC) No 1049/2001 of the European Parliament and of the Council of 30 May 2001 regarding public access to European Parliament, Council and Commission documents (OJ L 145, 31.5.2001, p. 43).

Legal basis

Tasks resulting from the Commission's prerogatives at institutional level, as provided for in Article 49(6) of the Financial Regulation.

Remarks

This appropriation is intended to support the effective implementation of the principle of non-discrimination and promote its mainstreaming in all Union policies by:

- improving the understanding of the situation in relation to discrimination in relation to all vulnerable groups, in particular through analyses and studies and, where appropriate, the development of statistics and indicators as well as assessing the effectiveness and impact of existing legislation, policies and practices;
- supporting the implementation of Union anti-discrimination legislation through effective monitoring, holding seminars for those working in the field and networking amongst specialised bodies dealing with anti-discrimination as well as public information campaigns on the Union anti-discrimination Directives 2000/43/EC, 2000/78/EC and 2004/113/EC;
- raising awareness, disseminating information and promoting the debate about the key challenges and policy issues in relation to discrimination and the mainstreaming of anti-discrimination in all Union policies, including among non-governmental organisations in the field of anti-discrimination, regional and local actors, social partners and other stakeholders;

- developing the capacity of key Union networks to promote and further develop Union policy goals and strategies.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

In line with the Commission statement concerning Decision No 283/2010/EU of the European Parliament and of the Council of 25 March 2010 establishing a European Progress Microfinance Facility for employment and social inclusion (OJ L 87, 7.4.2010, p. 1), a sufficient unallocated margin under the expenditure ceiling of subheading 1a has been made available whereby the budgetary authority, i.e. the European Parliament and the Council, may decide to increase the amount of the Progress programme by a maximum of EUR 20 000 000 over the period 2011-2013 in conformity with point 37 of the Interinstitutional Agreement of 17 May 2006 between the European Parliament, the Council and the Commission on budgetary discipline and sound financial management (OJ C 139, 14.6.2006, p. 1).

Remarks

This appropriation is intended to support the effective implementation of the principle of gender equality and promote gender mainstreaming in all Union policies by:

- improving the understanding of the situation in relation to gender issues and gender mainstreaming, in particular through analyses and studies, exchanges of good practice and the development of statistics and, where appropriate, indicators, with a view inter alia to boosting work to promote equality, the aim being to promote pay equality between men and women, as well as assessing the effectiveness and impact of existing legislation, policies and practices;
- supporting the implementation of Union gender equality legislation through effective monitoring, holding seminars for those working in the field and networking amongst specialised equality bodies;
- raising awareness, disseminating information, strengthening communication and promoting the debate on the key challenges and policy issues in relation to gender equality, including the importance of reconciling work and family life (e.g. for informal carers), and gender mainstreaming in policies and gender budgeting as a good governance tool to improve efficiency and fairness;
- developing the capacity of key Union networks to support and further develop Union policy goals and strategies on gender equality.

Remarks

The European Year of Equal Opportunities for All supported measures which were aimed at raising awareness of the need to work towards a more cohesive society that celebrates differences and respects the substantial *acquis* of the Union in equality and non-discrimination and at stimulating debate and dialogue on questions which are central to achieving a just society.

In accordance with Decision No 771/2006/EC, this article was intended to support the national activities that were put in place by the Member States in line with their European Year's national strategy and priorities and to cover the costs related to the organisation of the closing Union conference by the incumbent Presidency. Part of this appropriation will also cover the costs related to the organisation of a Eurobarometer survey designed to measure trends and progress achieved by the European Year.

Legal basis

Decision No 771/2006/EC of the European Parliament and of the Council of 17 May 2006 establishing the European Year of Equal Opportunities for All (2007) — towards a just society (OJ L 146, 31.5.2006, p. 1).

Remarks

This appropriation is intended to cover the funding of commitments remaining to be settled from past years in respect of the former articles and items.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

The candidate countries may make use of the Phare pre-accession instrument to cover the expenditure resulting from their participation in the programmes.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

Remarks

This appropriation is intended to cover the running costs of the Platform of European Social Non-Governmental Organisations (NGOs).

The Social Platform shall facilitate participatory democracy in the Union by promoting the consistent involvement of social non-governmental organisations within a structured civil dialogue with the Union institutions. It shall also provide added value to the Union social policy-making process and strengthen civil society within new Member States.

Legal basis

Decision No 1904/2006/EC of the European Parliament and of the Council of 12 December 2006 establishing for the period 2007 to 2013 the programme 'Europe for Citizens' to promote active European citizenship (OJ L 378, 27.12.2006, p. 32).

Remarks

The objective of the pilot project is to fund initiatives which help develop policies for employment and social integration of people suffering from autism. The pilot project should therefore support innovative and integrated projects, addressing multiple disadvantages faced by people on the autistic spectrum, while taking account of the strengths they offer, and promoting their inclusion in the labour market and social and economic activities.

Measures to be financed will focus on:

- gaining better understanding of autism and of challenges and obstacles faced by people suffering from autism in entering the labour market;
- assessing what tangible labour market measures ought to be taken in order to prevent unemployment and raise the employment levels of people suffering from autism (according to some sources, 62 % of adults with autism do not have any work at all, while others show that only 6 % of adults on the autistic spectrum have full-time paid employment);

CHAPTER 33 06 — EQUALITY (*cont'd*)**33 06 07** (*cont'd*)

- identifying existing policy approaches in the Member States, and mapping the types of measures aimed at developing employment opportunities for people with autism and helping them access and sustain employment;
- assessing the effectiveness of the measures undertaken;
- promoting exchange of best practices.

Legal basis

Pilot project within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

The aim of this reserve, in accordance with point 25 of the Interinstitutional Agreement of 17 May 2006 on budgetary discipline and sound financial management, is to allow a rapid response to the specific aid requirements of third countries following events which could not be foreseen when the budget was established, first and foremost for humanitarian operations, but also for civil crisis management and protection where circumstances so require. The annual amount of this reserve is fixed at EUR 221 000 000 for the duration of the financial framework, in constant prices.

This reserve is entered in the general budget of the European Union as a provision. The corresponding commitment appropriations will be entered in the budget, if necessary, over and above the ceilings.

When the Commission considers that this reserve needs to be called on, it will present to the two arms of the budgetary authority a proposal for a transfer from this reserve to the relevant budget lines.

At the same time as it presents its proposal for a transfer, the Commission will initiate a triologue procedure, if necessary in a simplified form, to secure agreement of the two arms of the budgetary authority on the need to use this reserve and on the amount required.

Remarks

The aim of this reserve, in accordance with point 28 of the Interinstitutional Agreement of 17 May 2006 on budgetary discipline and sound financial management, is to provide additional support for workers who suffer from the consequences of major structural changes in world trade patterns and to assist them with their reintegration into the labour market.

The methods for entering the appropriations in this reserve and for mobilising the Fund are laid down in point 28 of the above-mentioned Interinstitutional Agreement and in Article 12 of Regulation (EC) No 1927/2006.

Legal basis

ANNEXES

EUROPEAN ECONOMIC AREA

COMMISSION
EUROPEAN ECONOMIC AREA

Under the agreement establishing the European Economic Area the EFTA States (with the exception of Switzerland) take part in a wide range of Union policies covered by subheadings 1a, 3a and 3b, and headings 4 and 5 of the financial framework in exchange for a financial contribution to operating appropriations calculated by applying a 'proportionality factor'. This proportionality factor is equal to the sum of the ratios obtained by dividing the gross domestic product at market prices of each EFTA State by the gross domestic product at market prices of all the Member States plus that of the EFTA State concerned.

For 2012 the proportionality factor is estimated at 2,60 % (on the basis of 2010 figures).

These financial contributions will not be formally entered into the budget; each budget heading relating to activities in which the EFTA States take part will refer to the EFTA contribution as a memorandum item. A summary table, listing the budget headings concerned and the amounts of the EFTA contribution for each budget heading, is published as an Annex to the general budget of the Union. The total EFTA contribution for the operational part for 2012 is estimated at about EUR 312 060 230 in commitment appropriations. The EFTA States will also share in the administrative expenditure directly linked to the implementation of these policies. The figures and budget headings concerning the contributions by the EFTA States are still to be discussed with them and must therefore be regarded as provisional.

*BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE GENERAL BUDGET (BY WAY OF INDICATION)***A. INTRODUCTION**

This annex is drawn up in accordance with Article 30(1) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

It provides information on the amounts of the borrowing-and-lending operations guaranteed by the general budget: loans for balance-of-payments support, borrowing operations to provide macro-financial assistance to third countries, Euratom borrowings to contribute to the financing required for improving the degree of efficiency and safety of nuclear power stations in certain third countries and European Investment Bank loans in certain third countries.

At 31 December 2010, outstanding operations covered by the general budget totalled EUR 31 899 000 000; of that total EUR 12 504 000 000 was inside the Union and EUR 19 395 000 000 outside (rounded figures and exchange euro rate applicable at 31 December 2010).

B. BRIEF PRESENTATION OF THE VARIOUS CATEGORIES OF BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE GENERAL BUDGET**I. SINGLE FACILITY PROVIDING MEDIUM-TERM FINANCIAL ASSISTANCE FOR MEMBER STATES' BALANCES OF PAYMENTS****1. *Legal basis***

Council Regulation (EC) No 332/2002 of 18 February 2002 establishing a facility providing medium-term financial assistance for Member States' balances of payments (OJ L 53, 23.2.2002, p. 1).

Council Regulation (EC) No 1360/2008 of 2 December 2008 amending Regulation (EC) No 332/2002 (OJ L 352, 31.12.2008, p. 11).

Council Decision 2009/102/EC of 4 November 2008 providing Community medium-term financial assistance for Hungary (OJ L 37, 6.2.2009, p. 5).

Council Decision 2009/290/EC of 20 January 2009 providing Community medium-term financial assistance for Latvia (OJ L 79, 25.3.2009, p. 39).

Council Decision 2009/459/EC of 6 May 2009 providing Community medium-term financial assistance for Romania (OJ L 150, 13.6.2009, p. 8).

Council Regulation (EC) No 431/2009 of 18 May 2009 amending Regulation (EC) No 332/2002 (OJ L 128, 27.5.2009, p. 1)

2. *Description*

In accordance with Regulation (EC) No 332/2002, the European Union may grant loans to Member States which are experiencing, or are seriously threatened with, difficulties in their balance of current payments or capital movements. Only Member States which have not adopted the euro may benefit from this facility. The outstanding amount of loans is limited to EUR 12 000 000 000 in principal.

On 2 December 2008, the Council decided to extend the facility to EUR 25 000 000 000.

On 4 November 2008, the Council decided to provide a Community medium-term financial assistance for Hungary in the form of a medium-term loan of a principal of up to EUR 6 500 000 000 for a maximum average maturity of 5 years.

On 20 January 2009, the Council decided to provide a Community medium-term financial assistance for Latvia in the form of a medium-term loan of a principal of up to EUR 3 100 000 000 for a maximum average maturity of 7 years.

On 6 May 2009, the Council decided to provide a Community medium-term financial assistance for Romania in the form of a medium-term loan of a principal of up to EUR 5 000 000 000 for a maximum average maturity of 5 years.

On 18 May 2009, the Council decided to extend the facility to EUR 50 000 000 000.

3. *Effect on the budget*

Since both parts of these borrowing-and-lending operations are carried out on identical terms, they affect the budget only if the guarantee is activated in case of default. As at 31 December 2010 the outstanding amount under this instrument was EUR 12 050 000 000.

Council Implementing Decision 2011/344/EU of 30 May 2011 on granting Union financial assistance to Portugal (OJ L 159, 17.6.2011, p. 88).

Council Implementing Decision 2011/682/EU of 11 October 2011 amending Implementing Decision 2011/77/EU on granting Union financial assistance to Ireland (OJ L 269, 14.10.2011, p. 31).

Council Implementing Decision 2011/683/EU of 11 October 2011 amending Implementing Decision 2011/344/EU on granting Union financial assistance to Portugal (OJ L 269, 14.10.2011, p. 32).

2. **Description**

Article 122(2) of the Treaty on the Functioning of the European Union provides for the possibility of the Union granting financial assistance to a Member State which is in difficulties or is seriously threatened with severe difficulties caused, inter alia, by exceptional occurrences beyond its control.

The guarantee provided by the Union is for borrowings raised on the capital markets or from financial institutions.

In accordance with Article 2(2) of Council Regulation (EU) No 407/2010, the outstanding amount of loans and credit lines granted to Member States under the European financial stabilisation mechanism shall be limited to the margin available under the Union's own resources for payment appropriations.

This item constitutes the structure for the guarantee provided by the Union. It will enable the Commission to service the debt should debtors default.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. Article 12 of Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities own resources (OJ L 130, 31.5.2000, p. 1) shall apply.

On 7 December 2010, the Union decided to make available to Ireland a loan amounting to a maximum of EUR 22 500 000 000, with a maximum average maturity of 7,5 years (OJ L 30, 4.2.2011, p. 34).

On 30 May 2011, the Union decided to make available to Portugal a loan amounting to a maximum of EUR 26 000 000 000 (OJ L 159, 17.6.2011, p. 88).

On 11 October 2011, the Council decided to amend Implementing Decisions 2011/77/EU and 2011/344/EU by extending the maturities and applying the reduction of the interest rate margin to all the tranches that have already been disbursed (OJ L 269, 14.10.2011, p. 31 regarding Ireland (2011/682/EU) and p. 32 for Portugal (2011/683/EU)).

At 31 October 2011 the outstanding amount under this instrument was EUR 28 000 000 000 (Ireland: EUR 13 900 000 000 and Portugal 14 100 000 000).

3. **Effect on the budget**

On the expenditure side, the budget is affected if the guarantee is activated in the event of default.

On the revenue side, the provision on the interest income resulting from the interest differential between the loan and borrowing transactions paid by the beneficiary — initially made in the Council Decisions applying to each beneficiary country individually in Article 1(5) of those Decisions — has been repealed by Council Decisions of 11 October 2011.

III. EUROPEAN UNION GUARANTEE FOR BORROWING PROGRAMMES CONTRACTED BY THE UNION TO PROVIDE
FINANCIAL ASSISTANCE FOR MEDITERRANEAN THIRD COUNTRIES

1. **Legal basis**

Council Decision 2007/860/EC of 10 December 2007 providing macro-financial assistance to Lebanon (OJ L 337, 21.12.2007, p. 111).

2. **Description**

On 10 December 2007, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Lebanon in the form of a long-term loan for a maximum amount of EUR 50 000 000 in principal for a maximum duration of 10 years. The first tranche of EUR 25 000 000 was disbursed in 2009.

3. **Effect on the budget**

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or rather exceptionally from the Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default.

IV. EUROPEAN UNION GUARANTEE FOR BORROWING PROGRAMMES CONTRACTED BY THE UNION TO PROVIDE FINANCIAL ASSISTANCE FOR THIRD COUNTRIES IN CENTRAL AND EASTERN EUROPE

1. **Legal basis**

Council Decision 1999/732/EC of 8 November 1999 providing supplementary macro-financial assistance to Romania (OJ L 294, 16.11.1999, p. 29).

2. **Description**

On 8 November 1999, the Council decided to grant Romania macro-financial assistance in the form of a long-term loan of a principal of up to EUR 200 000 000 for a maximum period of 10 years (ROMANIA IV). The first tranche of EUR 100 000 000 was paid on 29 June 2000. A second tranche of EUR 50 000 000 was paid on 17 July 2003.

3. **Effect on the budget**

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or rather exceptionally from the Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default.

From 1 January 2007, loans with Bulgaria and Romania cease to be external actions (see Regulation (EC, Euratom) No 2273/2004 (OJ L 396, 31.12.2004, p. 28)) and are therefore covered directly by the general budget and no longer by the Fund.

Council Decision 2009/890/EC of 30 November 2009 providing macro-financial assistance for Armenia (OJ L 320, 5.12.2009, p. 3).

2. **Description**

On 17 November 1997, the Council decided to grant a European Union guarantee for an exceptional borrowing-and-lending operation for Georgia and Armenia (a loan to Georgia for a maximum amount of EUR 142 000 000 in principal and a loan to Armenia for EUR 28 000 000), with a maximum duration of 15 years.

The first tranche of EUR 110 000 000 was paid to Georgia on 24 July 1998. The second tranche is no longer to be made.

On 15 October 1998, the Council decided to grant a European Union guarantee for a third borrowing-and-lending operation for Ukraine (UKRAINE III). The loan was initially for a maximum amount of EUR 150 000 000 in principal with a maximum duration of 10 years. The first tranche of EUR 58 000 000 was paid on 30 July 1999. Disbursement of the balance, under Council Decision 2002/639/EC of 12 July 2002 providing supplementary macro-financial assistance to Ukraine (OJ L 209, 6.8.2002, p. 22), of EUR 110 000 000 is no longer planned.

On 20 March 2000, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Tajikistan. The loan is for a maximum amount of EUR 75 000 000 principal with a maximum duration of 15 years. A loan of EUR 60 000 000 was paid in 2001. The second tranche is no longer to be made.

On 30 November 2009, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Armenia in the form of a long-term loan for a maximum amount of EUR 65 000 000 in principal for a maximum duration of 15 years. The first tranche of EUR 26 000 000 was disbursed in 2011.

3. **Effect on the budget**

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or rather exceptionally from the Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default.

2. *Description*

On 22 July 1997, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for the former Yugoslav Republic of Macedonia (FYROM I).

The loan is for a maximum amount of EUR 40 000 000 in principal for a duration of 15 years.

The first tranche of EUR 25 000 000, for a maximum duration of 15 years, was paid to the former Yugoslav Republic of Macedonia on 30 September 1997. It will be repaid in five equal annual instalments from the 11th year.

The second tranche of EUR 15 000 000 was paid on 13 February 1998. It will be repaid in five equal annual payments from the 11th year.

On 10 May 1999, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Bosnia and Herzegovina in the form of a long-term loan for a maximum amount of EUR 20 000 000 in principal for a maximum duration of 15 years (Bosnia I).

The first tranche of EUR 10 000 000, for a maximum duration of 15 years, was paid to Bosnia and Herzegovina on 21 December 1999. The second tranche of EUR 10 000 000 was paid in 2001.

On 8 November 1999, the Council again decided to grant a European Union guarantee for a borrowing-and-lending operation for the former Yugoslav Republic of Macedonia in the form of a long-term loan for a maximum amount of EUR 50 000 000 in principal for a maximum duration of 15 years (FYROM II).

The first tranche of EUR 10 000 000, for a maximum duration of 15 years, was paid to the former Yugoslav Republic of Macedonia in January 2001, the second tranche of EUR 12 000 000 in January 2002, the third tranche of EUR 10 000 000 in June 2003 and the fourth tranche of EUR 18 000 000 in December 2003.

On 16 July 2001, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for the Federal Republic of Yugoslavia (Serbia and Montenegro I) in the form of a long-term loan for a maximum amount of EUR 225 000 000 in principal for a maximum duration of 15 years. The loan was paid in a single tranche in October 2001.

The first tranche of EUR 10 000 000, for a maximum duration of 15 years, was paid to Bosnia and Herzegovina in 2004, and the second tranche of EUR 10 000 000 in 2006.

On 5 November 2002, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Serbia and Montenegro (Serbia and Montenegro II) in the form of a long-term loan for a maximum amount of EUR 55 000 000 in principal for a maximum duration of 15 years.

The first tranche of EUR 10 000 000 and the second tranche of EUR 30 000 000, for a maximum duration of 15 years, were paid to Serbia and Montenegro in 2003, and the third tranche of EUR 15 000 000 in 2005.

The loan to Albania IV of EUR 9 000 000, for a maximum duration of 15 years, was fully disbursed in 2006.

On 30 November 2009, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Serbia in the form of a long-term loan for a maximum amount of EUR 200 000 000 in principal for a maximum duration of 8 years. The first tranche of EUR 100 000 000 was paid in 2011.

2. *Description*

Pursuant to Decision 94/179/Euratom (OJ L 84, 29.3.1994, p. 41), the European Union extends the scope of Euratom borrowings under Decision 77/270/Euratom to the improvement of the degree of efficiency and safety of nuclear power stations in the countries of central and eastern Europe and the Commonwealth of Independent States.

The maximum amount of Euratom borrowings for the Member States and third countries remains fixed at EUR 4 000 000 000.

In 2000 the Commission decided on a loan for Kozloduy in Bulgaria (EUR 212 500 000) and the last instalment was in 2006. In 2000 the Commission granted a loan to K2R4 in Ukraine but reduced the loan amount to the EUR equivalent of USD 83 000 000 in 2004. K2R4 was granted a loan of EUR 39 000 000 (first tranche) in 2007, USD 22 000 000 in 2008, and USD 10 335 000 in 2009 under the 2004 Commission Decision. In 2004 the Commission decided on a loan for Cernavodă in Romania (EUR 223 500 000). A first instalment of EUR 100 000 000 and a second one of EUR 90 000 000 were disbursed in 2005 and the last one of EUR 33 500 000 in 2006.

3. *Effect on the budget*

2. General budget guarantee

Pursuant to the terms of the abovementioned Council Decision of 8 March 1977, the European Union guarantees loans to be granted by the European Investment Bank as part of the European Union's financial commitments towards the Mediterranean countries.

This decision was the basis for the contract of guarantee signed by the European Economic Community and the European Investment Bank on 30 October 1978 in Brussels and 10 November 1978 in Luxembourg introducing a global guarantee of 75 % of all appropriations made available for loans in the following countries: Malta, Tunisia, Algeria, Morocco, Portugal (Financial Protocol, emergency aid), Turkey, Cyprus, Egypt, Jordan, Syria, Israel, Greece, former Yugoslavia and Lebanon.

The contract of guarantee is extended for each new Financial Protocol.

Decision 97/256/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 25 July 1997 and in Luxembourg on 29 July 1997 setting up a guarantee restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 1999/786/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 18 April 2000 and in Luxembourg on 23 May 2000 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2006/1016/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Luxembourg on 1 August 2007 and in Brussels on 29 August 2007 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB Financing Operations less amounts reimbursed, plus all related sum. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB Financing Operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk-operations).

3. *Description*

Under the Financial Protocols concluded with Mediterranean third countries, global amounts are laid down for loans to be granted by the European Investment Bank from its own funds. The European Investment Bank grants the loans for purposes which may contribute to the economic and social development of the countries in question (transport infrastructures, ports, water supply, production and distribution of energy, agricultural projects and promotion of small and medium-sized businesses).

On 14 April 1997, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in the following Mediterranean countries: Algeria, Cyprus, Egypt, Israel, Jordan, Lebanon, Malta, Morocco, Syria, Tunisia, Turkey, Gaza and the West Bank. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 2 310 000 000 is for the abovementioned Mediterranean countries. It covered a period of three years beginning on 31 January 1997 (with a possible extension of six months).

The European Investment Bank is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 29 November 1999, the Council decided to grant a Community guarantee to the European Investment Bank against losses under loans for projects for the reconstruction of the earthquake-stricken areas of Turkey. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 600 000 000 and covered a period of three years beginning on 29 November 1999 (with a possible extension of six months).

The European Investment Bank is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

On 22 December 1999, the Council, acting on the basis of a Commission proposal and after consulting the European Parliament, decided once again to grant the European Investment Bank the Community guarantee against losses resulting from loans for projects carried out in the following Mediterranean countries: Algeria, Cyprus, Egypt, Israel, Jordan, Lebanon, Malta, Morocco, Syria, Tunisia, Turkey, Gaza and the West Bank. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. The guarantee is limited to 65 % of the total value of the appropriations made available plus all the related amounts. It covers a period of seven years from 1 February 2000 to 31 January 2007. As at the end of that period the loans granted by the European Investment Bank had not reached the abovementioned total values, the period has automatically been extended by six months.

On 4 December 2000, the Council decided to establish a European Investment Bank special action programme in support of the consolidation and intensification of the EC-Turkey Customs Union. The value of those loans is limited to an overall ceiling of EUR 450 000 000.

Decision 2005/47/EC restructured the Mediterranean regional mandate to exclude Cyprus, Malta and Turkey which were included in the South Eastern Neighbours mandate.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans in the following Mediterranean countries: Algeria, Egypt, West Bank and Gaza, Israel, Jordan, Lebanon, Libya (eligibility to be decided by the Council), Morocco, Syria, Tunisia. The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of six months. The Community guarantee is restricted to 65 %.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB Financing Operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

4. *Effect on the budget*

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or rather exceptionally from the Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default,
- the granting, in a series of cases, of interest-rate subsidies of 2 % in non-repayable aid, subject to the overall amounts laid down by the Financial Protocols.

Loans with new Member States cease to be external actions (see Regulation (EC, Euratom) No 2273/2004 (OJ L 396, 31.12.2004, p. 28)) and are therefore covered directly by the general budget and no longer by the Fund.

Decision 90/62/EEC is the basis for the contract of guarantee signed by the European Economic Community and the European Investment Bank on 24 April 1990 in Brussels and 14 May 1990 in Luxembourg concerning loans in Hungary and Poland, and the extension of this contract to loans in Czechoslovakia, Romania and Bulgaria signed on 31 July 1991 in Brussels and Luxembourg.

This contract of guarantee was the subject of an instrument signed in Brussels on 19 January 1993 and in Luxembourg on 4 February 1993 to replace the Czech and Slovak Federal Republic by the Czech Republic and the Slovak Republic from 1 January 1993.

Decision 93/696/EC is the basis for a contract of guarantee signed by the European Community and the European Investment Bank in Brussels on 22 July 1994 and in Luxembourg on 12 August 1994.

Decision 97/256/EC is the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 25 July 1997 and in Luxembourg on 29 July 1997.

Decision 98/348/EC and Decision 98/729/EC are the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 25 July 1997 and in Luxembourg on 29 July 1997.

Decision 2000/24/EC is the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 19 July 2000 and in Luxembourg on 24 July 2000.

Decision 2005/47/EC is the basis for a restated and amended contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 30 August 2005 and in Luxembourg on 2 September 2005 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2006/1016/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Luxembourg on 1 August 2007 and in Brussels on 29 August 2007 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB Financing Operations less amounts reimbursed, plus all related sum. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB Financing Operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

3. Description

In response to a call made by the Council on 9 October 1989, the Board of Governors of the European Investment Bank decided on 29 November 1989 to authorise the Bank to provide loans from its own resources to finance investment projects in Hungary and Poland for a total amount not exceeding EUR 1 000 000 000. These loans are granted to finance investment projects which satisfy the Bank's usual requirements for loans from its own resources.

On 14 May 1991 and 15 March 1993, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided that this guarantee should be extended to any loans that the European Investment Bank might make in the other countries of central and eastern Europe (Czechoslovakia, Bulgaria and Romania) over a period of 2 years up to a maximum of EUR 700 000 000.

On 13 December 1993, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew for 3 years the Community guarantee for EUR 3 000 000 000 in European Investment Bank loans for projects in Poland, Hungary, the Czech Republic, the Slovak Republic, Romania, Bulgaria, Estonia, Latvia, Lithuania and Albania.

The budget guarantee covers all aspects of debt-servicing (repayment of capital, interest, related costs) in connection with these loans.

On 14 April 1997, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in Albania, Bulgaria, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovak Republic and Slovenia. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 3 520 000 000 is for the abovementioned countries of central and eastern Europe. It covers a period of 3 years beginning on 31 January 1997. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

On 19 May 1998, the Council decided to grant a Community guarantee to the European Investment Bank against losses under loans for projects in the former Yugoslav Republic of Macedonia. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 150 000 000 for a period of 2 years beginning on 1 January 1998. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

On 14 December 1998, the Council decided to amend Decision 97/256/EC in order to extend the Community guarantee to the European Investment Bank to loans for projects in Bosnia and Herzegovina. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is EUR 100 000 000 for a period of two years beginning on 22 December 1998. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

The European Investment Bank is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 22 December 1999, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in Albania, the former Yugoslav Republic of Macedonia, Bosnia and Herzegovina, Bulgaria, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovak Republic and Slovenia. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. It covers a period of seven years beginning on 1 February 2000 and ending on 31 January 2007. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

The European Investment Bank is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

On 7 November 2000, the Council decided to extend the guarantee granted by the Community to the European Investment Bank to loans for projects in Croatia.

On 6 November 2000, the Council decided to extend the guarantee granted by the Community to the European Investment Bank to loans for projects in the Federal Republic of Yugoslavia.

Decision 2005/47/EC restructured the Mediterranean regional mandate to exclude Cyprus, Malta and Turkey which were included in the South Eastern Neighbours mandate.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans in the following candidate countries: Croatia, Turkey, the former Yugoslav Republic of Macedonia and potential candidate countries: Albania, Bosnia and Herzegovina, Serbia, Kosovo. The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of 6 months. The Community guarantee is restricted to 65 %. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB Financing Operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE GENERAL BUDGET (BY WAY OF INDICATION)**3. Description**

Pursuant to Decision 93/115/EEC the European Union guarantees, on a case-by-case basis, loans made by the European Investment Bank in third countries with which the European Union has concluded cooperation agreements.

Decision 93/115/EEC set an overall limit of EUR 250 000 000 a year for a period of 3 years.

On 12 December 1996 the Council granted the EIB a 100 % Community guarantee for loans for projects of mutual interest in certain third countries (Asian and Latin American developing countries) with which the Community has concluded cooperation agreements. This guarantee was restricted to an overall ceiling of EUR 275 000 000 to be granted in 1996 (with a possible extension of six months).

On 14 April 1997, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in the following countries of Asia and Latin America: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador, Uruguay, Venezuela, Bangladesh, Brunei, China, India, Indonesia, Macao, Malaysia, Mongolia, Pakistan, Philippines, Singapore, Sri Lanka, Thailand and Vietnam. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 900 000 000 is for the abovementioned countries of Asia and Latin America. It covered a period of 3 years beginning on 31 January 1997 (with a possible extension of six months).

The European Investment Bank is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 22 December 1999, the Council decided to renew the Community guarantee to the European Investment Bank for loans for projects in the following countries of Asia and Latin America: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador, Uruguay, Venezuela, Bangladesh, Brunei, China, India, Indonesia, Laos, Macao, Malaysia, Mongolia, Nepal, Pakistan, Philippines, Singapore, South Korea, Sri Lanka, Thailand, Vietnam and Yemen. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. It covers a period of seven years beginning on 1 February 2000 and ending on 31 January 2007. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

The European Investment Bank is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

Decision 2005/47/EC was the basis for a restated and amended contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 30 August 2005 and in Luxembourg on 2 September 2005 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans in the following Latin America countries: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, El Salvador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Uruguay, Venezuela and in the following Asia countries: Afghanistan*, Bangladesh, Bhutan*, Brunei, Cambodia*, China, India, Indonesia, Iraq*, South Korea, Laos, Malaysia, Maldives, Mongolia, Nepal, Pakistan, the Philippines, Singapore, Sri Lanka, Taiwan*, Thailand, Vietnam, Yemen and Central Asia countries: Kazakhstan*, Kyrgyzstan*, Turkmenistan*, Uzbekistan* (*: eligibility to be decided by the Council). The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of six months. The Community guarantee is restricted to 65 %. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB Financing Operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of six months. The Community guarantee is restricted to 65 %. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB Financing Operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

4. *Effect on the budget*

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or rather exceptionally from the Fund of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default.

This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council (OJ L 190, 22.7.2009, p. 1).

Decision No 1080/2011/EU of the European Parliament and of the Council of 25 October 2011 granting an EU guarantee to the European Investment Bank against losses under loans and loan guarantees for projects outside the Union and repealing Decision No 633/2009/EC (OJ L 280, 27.10.2011, p. 1).

2. *General budget guarantee*

Decision 95/207/EC is the basis of a contract of guarantee signed by the European Community and the European Investment Bank in Brussels on 4 October 1995 and in Luxembourg on 16 October 1995.

Decision 97/256/EC is the basis for a contract of guarantee between the EC and the European Investment Bank signed in Brussels on 25 July 1997 and in Luxembourg on 29 July 1997.

Decision 2000/24/EC is the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 19 July 2000 and in Luxembourg on 24 July 2000.

Decision 2006/1016/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Luxembourg on 1 August 2007 and in Brussels on 29 August 2007 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB Financing Operations less amounts reimbursed, plus all related sum. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB Financing Operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk-operations).

3. *Description*

In accordance with the provisions of Decision 95/207/EC, the European Union will guarantee European Investment Bank loans to South Africa up to a maximum total amount of EUR 300 000 000.

The budget guarantee covers all the debt-servicing (repayment of principal, interest and ancillary costs) in connection with these loans.

On 14 April 1997, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in the Republic of South Africa. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 375 000 000 is for the Republic of South Africa. It covered a period of three years beginning on 1 July 1997 (with a possible 6-month extension).

BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE GENERAL BUDGET (BY WAY OF INDICATION)

The European Investment Bank is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 22 December 1999, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in the Republic of South Africa. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. It covers a period beginning on 1 July 2000 and ending on 31 January 2007. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by 6 months.

The European Investment Bank is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

Decision 2005/47/EC was the basis for a restated and amended contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 30 August 2005 and in Luxembourg on 2 September 2005 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans. The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of 6 months. The Community guarantee is restricted to 65 %. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB Financing Operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

Exchange rate: the amounts in column 2 'Equivalent at date of signature' are converted at the rate applicable on the date of signature. As regards refinancing operations, Table 1 shows both the initial operation (e.g. in 1979) and the replacement operation (e.g. in 1986), the amount for the latter being converted at the rate of the initial operation. The resulting duplication affects the annual figures but is eliminated in the total.

All other amounts are converted at the rate applicable at 31 December 2011.

Column 3 'Initial amount received/paid up to 31 December 2011': with reference to 1986, for example, this column shows the cumulative total of all amounts received up to 31 December 2011 under loans signed in 1986 (Table 1), including refinancing (which produces some duplication).

Column 4 'Amount outstanding at 31 December 2011': these are net figures, with no duplication as a result of refinancing operations. They are obtained by subtracting from the column 3 figure the cumulative total of repayments made up to 31 December 2011, including repayments in respect of refinancing operations (total not given in the tables).

Column 7 = column 4 – column 5.

MFA 2011: following the Loan Agreement signed by Montenegro on 9 February 2010 pursuant to Council Decision 2008/784/EC of 2 October 2008 establishing a separate liability of Montenegro, the loans initially granted to Serbia and Montenegro have been re-initiated with a virtual starting date in 2001 in order to implement the splitting of the countries, which explains the different amounts between loans granted and loans raised, since the contract with the lending bank was unchanged.

Remarks

This appropriation is intended to cover all expenditure on measures to combat fraud which does not come under the Office's administrative operations.

It is intended, in particular, for:

- devising, developing, improving and managing information exchange systems and common infrastructures, while respecting confidentiality and security requirements,
- searching for, gathering, examining, utilising and passing on to national investigation departments all information which is useful for the detection and pursuit of fraud (e.g. via databases),
- supporting efforts by Member States, in particular in the case of international fraud, when action has to be taken at Union level,
- financing measures to increase the effectiveness of preventive measures, inspections and investigations,
- strengthening cooperation with national administrations, in particular to combat cigarette smuggling,
- organising and participating in monitoring and on-the-spot inspections,
- financing travel expenses and subsistence allowances for inspectors and national magistrates working abroad in connection with control visits, on-the-spot inspections, coordination meetings and for the purposes of an inspection in general,
- covering travel expenses, subsistence allowances and ancillary costs of experts employed by the Office in the course of its investigations to give a professional opinion on a specific matter,
- covering the costs of conferences, congresses and meetings that the Office organises in its anti-fraud work.

Appropriations 2012	Appropriations 2011	Outturn 2010
340 000	400 000	256 500,50

Remarks

This appropriation is intended to cover the cost of information and communication measures undertaken by the Office.

The Office's external information and communication strategy is central to its work. The Office was set up as an independent investigative body and must therefore have its own communications strategy. The Office's work is often too technical to be immediately comprehensible to the general public. The Office has to inform its interlocutors and the public as a whole of its role and tasks. Public perception of the Office's work is of paramount importance.

As a Commission service, the Office also needs to take account of the democratic deficit existing between the Union institutions and the citizens of Europe. The Commission has recognised this deficit and drawn up an action plan to address it.

The communications strategy that the Office has developed and continues to implement must demonstrate its independence.

Legal basis

CHAPTER A4 02 — INTERINSTITUTIONAL COOPERATION, INTERINSTITUTIONAL SERVICES AND ACTIVITIES

A4 02 01 ***Interinstitutional cooperation, interinstitutional services and activities***

Remarks

Within the framework of the EPSO Development Programme, the Office has modernised its selection methods with the aim of meeting the institutions' current and future needs in a more cost-effective and efficient way by:

- improving the planning of competitions to select the right staff at the right time and to optimise the use of reserve lists,
- reducing the length of the selection process,
- considerably improving the quality of the selection process so that the institutions can recruit the best staff for a life-long career by selecting candidates on the basis of the competencies needed to do the job, and by professionalising the work of the selection boards,
- establishing a positive and modern image for the institutions as employers so as to enable them to attract the best staff in the context of an increasingly competitive employment market,
- providing all the necessary facilities to enable the participation of applicants with disabilities.

- expenditure relating to the health and safety of individuals at work, in particular the purchase, hire and maintenance of fire-fighting equipment, the replacement of equipment for fire pickets, training and statutory inspection costs (before contracts for an amount in excess of EUR 300 000 are renewed or concluded, and with a view to rationalising expenditure, the Office must consult the other institutions with regard to the conditions (price, currency chosen, indexing, duration, other clauses) obtained by each of them for a similar contract),
- the cost of legal, financial and technical consultancy fees prior to the acquisition, rental or construction of buildings,
- other expenditure on buildings, in particular management fees for multiple-tenanted buildings, costs of surveys of premises and charges for utilities (refuse collection etc.),
- technical assistance fees relating to major refurbishment work on premises,
- the purchase, hire or leasing, maintenance, repair, installation and renewal of technical equipment and installations,
- the purchase, hire, maintenance and repair of furniture,
- the purchase, hire, maintenance and repair of vehicles,
- various types of insurance (in particular third-party and theft),
- expenditure on working equipment, and in particular:
 - purchase of uniforms (mainly for messengers, drivers and catering staff),
 - purchase and cleaning of working clothes for workshop staff and staff required to do work for which protection is necessary against bad or cold weather, abnormal wear and dirt,
 - purchase or reimbursement of any equipment which might be necessary pursuant to Directives 89/391/EEC and 90/270/EEC,
- departmental removals and reorganisations and handling (taking delivery, storing, delivering) in respect of equipment, furniture and office supplies,
- expenditure on equipping buildings with telecommunications, notably purchase, hire, installation and maintenance of telephone switchboards and distributors, audio, videoconferencing, interphone and mobile phone systems, and expenditure on data networks (equipment and maintenance) and associated services (management, support, documentation, installation and removal),
- the purchase, hire or leasing and maintenance of computers, terminals, mini-computers, peripherals, connection devices and the necessary software,
- the purchase, hire or leasing and maintenance of equipment relating to the reproduction of information in paper form, e.g. printers, fax machines, photocopiers, scanners and microcopiers,
- the purchase, hire or leasing of typewriters and word processors and any other electronic office equipment,
- installation, configuration, maintenance, studies, documentation and supplies related to this equipment,
- the cost of purchasing paper, envelopes, office supplies and supplies for the print shops, and of some printing carried out by outside service providers,
- postal and delivery charges for mail, reports and publications, and for postal and other packages sent by air, land, sea or rail, and the Office's internal mail,
- subscription charges and the cost of cable or radio communications (land and mobile telephones, television, teleconferencing and videoconferencing), expenditure on data-transmission networks, telematic services, etc., and the purchase of directories,
- establishing telephone and computer links and international transmission lines between sites of Union offices,

EU Official Journal, L + C series, paper + annual DVD	22 official EU languages	EUR 1 310 per year
EU Official Journal, L series, paper edition only	22 official EU languages	EUR 840 per year
EU Official Journal, L + C series, monthly DVD (cumulative)	22 official EU languages	EUR 100 per year
Supplement to the Official Journal (S series), tendering procedures for public contracts, DVD, one edition per week	multilingual: 23 official EU languages	EUR 200 per year
EU Official Journal, C series — recruitment competitions	Language(s) according to competition(s)	EUR 50 per year

Subscriptions to the *Official Journal of the European Union*, which is published in the official languages of the European Union, are available for 22 language versions. The Official Journal comprises two series, L (Legislation) and C (Information and Notices).

A separate subscription must be taken out for each language version.

In accordance with Council Regulation (EC) No 920/2005, published in Official Journal L 156 of 18 June 2005, the institutions of the European Union are temporarily not bound by the obligation to draft all acts in Irish and publish them in that language. Irish editions of the Official Journal are therefore sold separately.

Subscriptions to the Supplement to the Official Journal (S Series — tendering procedures for public contracts) cover all 23 official language versions on a single multilingual DVD.

On request, subscribers to the *Official Journal of the European Union* can receive the various Annexes to the Official Journal. Subscribers are informed of the publication of Annexes by notices inserted in the *Official Journal of the European Union*.

Sales and subscriptions

Subscriptions to various priced periodicals, such as the subscription to the *Official Journal of the European Union*, are available from our sales agents. The list of sales agents is available at:

http://publications.europa.eu/others/agents/index_en.htm

EUR-Lex (<http://eur-lex.europa.eu>) offers direct access to European Union legislation free of charge. The *Official Journal of the European Union* can be consulted on this website, as can the Treaties, legislation, case-law and preparatory acts.
