The Commission has installed a telex with an automatic answering device which gives the conversion rates in a number of currencies. This service is available every day from 3.30 p.m. until 1 p.m. the following day.

Users of the service should do as follows:

- call telex number Brussels 23789;
- give their own telex code;
- type the code 'cccc' which puts the automatic system into operation resulting in the transmission of the conversion rates of the ecu;
- the transmission should not be interrupted until the end of the message, which is marked by the code 'ffff'.

*Note:* The Commission also has an automatic telex answering service (No 21791) providing daily data on calculation of monetary compensatory amounts for the purposes of the common agricultural policy.

**Commission opinion**

(93/C 134/03)

On 9 February 1993, the Commission sent the Council a proposal for a Regulation amending Regulation (EEC) No 1765/92 establishing a support system for producers of certain arable crops.

The proposal is to extend, from the 1993/94 marketing year on, the aid scheme introduced for arable crops to non-fibre flax (seed flax), substituting it for the current aid scheme for oil seeds.

This proposal will not be adopted by the Council before 20 May 1993, the final date for producers to lodge a declaration on the areas sown under the scheme currently in force. Pending the Council Decision on the aid scheme for oil seeds for the 1993/94 marketing year and the temporary measures planned by the Commission for the said marketing year, the Commission requests operators to comply with the current provisions governing the lodgement of the said declaration.

**Notification of a joint venture**

(Case No IV/34.686)

(93/C 134/04)

1. On 13 April 1993 the Commission received a notification of a joint venture pursuant to Article 4 of Council Regulation No 17<sup>(1)</sup> formed by Menasha Corporation USA (Menasha) and Solidur Deutschland GmbH and Co. KG, a partnership organized under the Laws of Germany (Solidur), through the combination of their respective United Kingdom subsidiaries. The joint venture in the United Kingdom will be primarily responsible for the manufacture and marketing of ultrahigh molecular weight polyethylene products in the United Kingdom and the Republic of Ireland.

2. Upon preliminary examination, the Commission finds that the notified joint venture could fall within the scope of Council Regulation 17.

3. The Commission invites interested third parties to submit their possible observations on the proposed operation to the Commission.

Observations must reach the Commission not later than 10 days following the date of this publication. Observations can be sent to the Commission by fax (fax No (32 2 296 42 73) or by post under reference number IV/34.686 to the following address:

**Amended proposal for a Council Directive on colours for use in foodstuffs <sup>(1)</sup>**

(93/C 134/05)

COM(93) 153 final — SYN 368

*(Submitted by the Commission pursuant to Article 149 (3) of the EEC Treaty on 20 April 1993)*

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 100a thereof,

Having regard to the proposal from the Commission,

In cooperation with the European Parliament,

Having regard to the opinion of the Economic and Social Committee,

Having regard to Council Directive 89/107/EEC of 21 December 1988 on the approximation of the laws of the Member States concerning food additives authorized for use in foodstuffs intended for human consumption <sup>(2)</sup>, and in particular Article 3 (2) thereof,

Whereas differences between national laws relating to the conditions of use of colours in food hinder the free movement of foodstuffs; whereas this may create conditions of unfair competition;

Whereas the prime consideration for any rules on these food additives and their conditions of use should be the need to protect the consumer and to prevent him from being misled;

Whereas a food additive may only be used when there is evidence that the use of this additive has an advantage for the consumer;

Whereas colours are used to restore original appearance of food whose colour has been affected by processing, storage, packaging and distribution, whereby visual acceptability may have been impaired;

Whereas colours are used to make food more visually appealing and help identify flavours normally associated with particular foods and to give colour to food otherwise colourless;

Whereas colours are used to reinforce colours already present in food;

Whereas it is generally recognized that unprocessed foodstuffs and certain other basic foodstuffs should be free from food additives;

Whereas, having regard to the most recent scientific and toxicological information on additives, some of these are to be permitted only for certain foodstuffs and under certain conditions of use;

Whereas, it is necessary to lay down strict rules for the use of additives in food for infants and young children;

Whereas the Commission should adapt certain Community provisions to accord with the rules laid down in this Directive;

Whereas the Scientific Committee for Food has been consulted for those substances not yet being the subject of a Community provision;

Whereas it is desirable that when a decision is taken on whether a particular foodstuff belongs to a certain category of foods, the consultation of the Standing Committee for Food procedure be followed;

<sup>(1)</sup> OJ No C 12, 18. 1. 1992, p. 7.

<sup>(2)</sup> OJ No L 40, 11. 2. 1989, p. 27.

Whereas this Directive replaces partially the Council Directive of 23 October 1962 on the approximation of

the rules of the Member States concerning the colouring matters authorized for use in foodstuffs intended for human consumption, as last amended by the Act of Accession of Spain and Portugal <sup>(1)</sup>;

Whereas the modification of existing purity criteria on colouring matters and new specifications for those where no purity criteria exist will be proposed in accordance with the procedure laid down in Article 11 of Directive 89/107/EEC;

Whereas, in order to protect consumers the Community should promote research into the possible effects (including those of a cumulative and synergic nature) on human health of colours used in foodstuffs, with special reference to those whose harmlessness is in doubt,

HAS ADOPTED THIS DIRECTIVE:

#### Article 1

1. This Directive is a specific Directive forming a part of the comprehensive Directive within the meaning of Article 3 of Directive 89/107/EEC.

2. Colours are substances which add or restore colour in food, and include natural components of foodstuffs and natural sources, which are normally not consumed as foodstuffs as such and not normally used as characteristic ingredients of food.

3. The following substances shall not be considered colours for the purposes of this Directive:

- foodstuffs, flavourings and their components, incorporated during the manufacturing of compound foodstuffs, because of their aromatic, sapid or nutritive properties together with a secondary colouring effect, such as paprika, turmeric and saffron,
- colours used for the colouring of egg shells and for stamping meat and the inedible external parts of foodstuffs, such as cheese coatings and sausage casings.

#### Article 2

1. Only the substances listed in Annex I may be used as colours in foodstuffs.

2. Colours may be used only in the foodstuffs listed in Annexes III, IV and V and under the conditions specified therein.

3. Colours may not be used in the foodstuffs listed in Annex II except where specifically provided for in Annex III, Annex IV or Annex V.

4. Colours permitted for certain uses only are listed in Annex IV.

5. Colours permitted in general in foodstuffs and the conditions of use therefor are listed in Annex V.

6. Maximum levels indicated in the Annexes refer to foodstuffs as marketed, unless otherwise stated.

7. In the Annexes to this Directive *quantum satis* means that no maximum level is specified. However colouring matters shall be used according to good manufacturing practice, at a level not higher than is necessary to achieve the intended purpose and provided that they do not mislead the consumer.

8. For the purpose of health marking and other marking required on meatproducts as provided in Council Directive 91/497/EEC <sup>(2)</sup>, only E 155 Brown HT, E 133 Brilliant Blue FCF and E 129 Allura Red AC may be used.

9. Only those colours mentioned in Annex I may be used for the decorative colouring of eggshell and for the stamping of eggshell as provided for in Regulation (EEC) No 1274/91 <sup>(3)</sup>

#### Article 3

Without prejudice to other Community provisions, the presence of a colour in a foodstuff is permissible:

- in a compound foodstuff other than the one mentioned in Annex II to the extent that the colour is permitted in one of the ingredients of the compound foodstuff,

or

- if the foodstuff is destined to be used solely in the preparation of a compound foodstuff and to such an extent that the compound foodstuff conforms to the provisions of this Directive.

<sup>(1)</sup> OJ No 115, 11. 11. 1962, p. 2645/62.

<sup>(2)</sup> OJ No L 268, 24. 9. 1991, p. 69.

<sup>(3)</sup> OJ No L 121, 16. 5. 1991, p. 11.

*Article 4*

It may be decided by the procedure laid down in Article 6 whether a particular foodstuff belongs to a category of foods mentioned in Article 2 (2), (3), (4) and (5), and whether substances are colours in the meaning of Article 1.

*Article 5*

Any provision necessary to adapt existing Community provisions to the rules laid down in this Directive shall be adopted within six months of notification, in accordance with the procedure laid down in Article 6.

*Article 6*

Where the procedure laid down in this Article is to be followed, the chairman shall refer the matter to the Standing Committee on Foodstuffs, hereinafter referred to as 'the Committee', either on his own initiative or at the request of the representative of a Member State.

The representative of the Commission shall submit to the Committee a draft of the measures to be taken. The Committee shall deliver its opinion on the draft, within a time limit which the chairman may lay down according to the urgency of the matter, if necessary by taking a vote.

The opinion shall be recorded in the minutes; in addition, each Member State shall have the right to ask to have its position recorded in the minutes.

The Commission shall take the utmost account of the opinion delivered by the Committee. It shall inform the Committee of the manner in which its opinion has been taken into account.

*Article 7*

Member States shall, within three years of the adoption of this Directive, establish systems to monitor the consumption and use of colours and report their findings to the Commission.

The Commission shall report to the European Parliament within five years of the adoption of the Directive on the changes which have taken place in the colours market, the levels of use and consumption.

In accordance with the General Criteria of point 4 of Annex II to Directive 89/107/EEC, within five years from the adoption of this Directive the Commission shall review the conditions of use mentioned in this Directive, and propose modifications where necessary.

*Article 8*

Articles 1 to 7, Article 8 (1), second indent and (2), and Articles 9 to 15 of the Directive of 23 October 1962 are hereby repealed.

References to the repealed provisions shall be construed as references to the corresponding provisions of this Directive.

*Article 9*

Member States shall bring into force the laws, regulations and administrative provisions necessary to comply with this Directive not later than 1 November 1992 in order to:

- allow trade in and use of products conforming to this Directive not later than 1 November 1993,
- prohibit trade in and use of products not conforming to this Directive not later than 1 November 1994.

They shall at once inform the Commission thereof.

When Member States adopt these measures, these shall contain a reference to this Directive or shall be accompanied by such reference on the occasion of their official publication. The procedure for such reference shall be laid down by Member States.

*Article 10*

This Directive is addressed to the Member States.

**'The power of words, the fascination of figures!'**

*Europe in figures.*

### **Europe in figures (third edition)**

This publication aims to meet the information requirements of the majority of us - amongst which company heads, analysts and statisticians, product and/or market managers, decision-makers, consultants, teachers and students - as well as of all those who wish to be informed about Europe.

The graphs, statistical tables, maps, illustrations and commentaries present an overall picture of European integration, the salient features of present-daylife in the Community and the position of the European Community in the world.

The 18 chapters cover all the statistical themes dealt with by Eurostat, the Statistical Office of the EC, namely:

- 1. General statistics**
- 2. Economy and finance**
- 3. Population social conditions**
- 4. Energy and industry**
- 5. Agriculture, forestry and fisheries**
- 6. External trade and balance of payments**
- 7. Services and transport**
- 8. Environment**
