EUROPEAN COMMISSION

COMMISSION OPINION

of 21 December 2010

relating to the plan for the disposal of radioactive waste arising from the Buffer Store for very low-level radioactive waste, located on the Ignalina Nuclear Power Plant site in Lithuania, in accordance with Article 37 of the Euratom Treaty

(Only the Lithuanian text is authentic)

(2010/C 349/01)

On 8 June 2010, the European Commission received from the Lithuanian Government, in accordance with Article 37 of the Euratom Treaty, General Data relating to the plan for the disposal of radioactive waste arising from the Buffer Store for very low-level radioactive waste, located on the Ignalina Nuclear Power Plant site.

On the basis of these data and additional information requested by the Commission on 9 July 2010 and provided by the Lithuanian authorities on 16 August 2010, and following consultation with the Group of Experts, the Commission has drawn up the following opinion:

1. The distance between the installation and the nearest point of another Member State, in this case Latvia, is 8 km. The next nearest Member State is Poland at some 250 km. Belarus, as neighbouring country, is at a distance of 5 km.
2. Under normal operational conditions, the discharges of liquid and gaseous effluents are not liable to affect the health of the population of another Member State or neighbouring countries.
3. Secondary solid radioactive waste will be temporarily stored in the installation before being transferred to the appropriate onsite waste treatment facility.

Non-radioactive solid waste or residual materials that are released from regulatory control will be released for disposal as conventional waste or for reuse or recycling, in compliance with the criteria laid down in the Basic Safety Standards (Directive 96/29/Euratom).

4. In the event of unplanned releases of radioactive effluents, that may follow an accident of the type and magnitude considered in the General Data, the doses received in another Member State or neighbouring countries will not be liable to affect the health of the population.

In conclusion, the Commission is of the opinion that the implementation of the plan for the disposal of radioactive waste in whatever form arising from the Buffer Store for very low-level radioactive waste located

on the site of the Ignalina Nuclear Power Plant in Lithuania, both in normal operation and in the event of an accident of the type and magnitude considered in the General Data, is not liable to result in the radioactive contamination of the water, soil or airspace of another Member State.

Done at Brussels, 21 December 2010.

New national side of euro coins intended for circulation

(2010/C 349/03)

*National side of the new commemorative 2-euro coin intended for circulation and issued by Luxembourg*

Euro coins intended for circulation have legal tender status throughout the euro area. For the purpose of informing the public and all parties who handle the coins, the Commission publishes a description of the designs of all new coins ⁽¹⁾. In accordance with the Council conclusions of 10 February 2009 ⁽²⁾, euro-area Member States and countries that have concluded a monetary agreement with the Community providing for the issuing of euro coins are allowed to issue commemorative euro coins intended for circulation, provided that certain conditions are met, particularly that only the 2-euro denomination is used. These coins have the same technical characteristics as other 2-euro coins, but their national face features a commemorative design that is highly symbolic in national or European terms.

Issuing country: Luxembourg

Subject of commemoration: The 50th anniversary of the appointment by the Grand-Duchess Charlotte of her son Jean as 'lieutenant-représentant'

Description of the design:

The coin depicts on the right hand of its inner part the effigy of His Royal Highness, the Grand-Duke Henri, looking to the left, and superimposed on the effigies of the Grand-Duke Jean and the Grand-Duchess Charlotte. The text 'LËTZEBUERG' is depicted above the three effigies. The year-date '2011', flanked by the mintmark and the Mintmaster mark, appears above. The name of the Royal Highness is depicted below the respective effigy.

The coin's outer ring depicts the 12 stars of the European flag.

Volume of issuance: 1,4 million coins

Date of issue: January 2011

⁽¹⁾ See OJ C 373, 28.12.2001, p. 1-30 for the national faces of all the coins issued in 2002.

⁽²⁾ See the conclusions of the Economic and Financial Affairs Council of 10 February 2009 and the Commission Recommendation of 19 December 2008 on common guidelines for the national sides and the issuance of euro coins intended for circulation (OJ L 9, 14.1.2009, p. 52-55).

COMMISSION DECISION**of 15 December 2010****amending Commission Decision 2007/320/EC of 22 March 2007 setting up the Member States' Expert Group on Digitisation and Digital Preservation ⁽¹⁾, in order to extend its period of validity**

(2010/C 349/04)

THE EUROPEAN COMMISSION,

HAS DECIDED AS FOLLOWS:

Having regard to the Treaty on the Functioning of the European Union,

Sole Article

Whereas:

In Article 7 'Applicability' of Decision 2007/320/EC, the year '2010' is replaced by '2013'

(1) It is appropriate that the work of the expert group denominated Member States' Expert Group on Digitisation and Digital Preservation should continue unhindered until the end of 2013 under the same rules established by that Decision.

Done at Brussels, 15 December 2010.

(2) Decision 2007/320/EC should therefore be amended accordingly,

Note 1: Generally the date of cessation of presumption of conformity will be the date of withdrawal ('dow'), set by the European Standardisation Organisation, but attention of users of these standards is drawn to the fact that in certain exceptional cases this can be otherwise.

Note 2.1: The new (or amended) standard has the same scope as the superseded standard. On the date stated, the superseded standard ceases to give presumption of conformity with the essential requirements of the directive.

Note 2.2: The new standard has a broader scope than the superseded standard. On the date stated, the superseded standard ceases to give presumption of conformity with the essential requirements of the directive.

Note 2.3: The new standard has a narrower scope than the superseded standard. On the date stated, the (partially) superseded standard ceases to give presumption of conformity with the essential requirements of the directive for those products that fall within the scope of the new standard. Presumption of conformity with the essential requirements of the directive for products that still fall within the scope of the (partially) superseded standard, but that do not fall within the scope of the new standard, is unaffected.

Note 3: In case of amendments, the referenced standard is EN CCCCC:YYYY, its previous amendments, if any, and the new, quoted amendment. The superseded standard (column 3) therefore consists of EN CCCCC:YYYY and its previous amendments, if any, but without the new quoted amendment. On the date stated, the superseded standard ceases to give presumption of conformity with the essential requirements of the directive.

NOTE:

- Any information concerning the availability of the standards can be obtained either from the European Standardisation Organisations or from the national standardisation bodies of which the list is annexed to the Directive 98/34/EC of the European Parliament and of the Council amended by the Directive 98/48/EC.
- Harmonised standards are adopted by the European Standardisation Organisations in English (CEN and CENELEC also publish in French and German). Subsequently, the titles of the harmonised standards are translated into all other required official languages of the European Union by the National Standards Bodies. The European Commission is not responsible for the correctness of the titles which have been presented for publication in the Official Journal.
- Publication of the references in the *Official Journal of the European Union* does not imply that the standards are available in all the Community languages.
- This list replaces all the previous lists published in the *Official Journal of the European Union*. The Commission ensures the updating of this list.

NOTICES FROM MEMBER STATES

List of credit rating agencies registered in accordance with Regulation (EC) No 1060/2009 of the European Parliament and of the Council on credit rating agencies (CRA Regulation)

(2010/C 349/09)

According to Regulation (EC) No 1060/2009 of 16 September 2009 on credit rating agencies (CRA Regulation), credit rating agencies are legal persons whose occupation includes the issuing of credit ratings on a professional basis. Credit rating agencies established in the Union have to apply for registration pursuant to Article 14(1) in conjunction with Article 2(1) of the CRA Regulation. Registration is granted by the competent authorities of the home Member State if all the requirements set out in the CRA Regulation are fulfilled. The registration is effective for the entire territory of the Union. According to Article 18(3) of the CRA Regulation the Commission shall publish in the *Official Journal of the European Union* and on its website a list of credit rating agencies that have been registered. That list is updated within 30 days after the competent authority of the home Member State have notified the Commission of the registration.

A registration according to the CRA Regulation does not automatically include the recognition as External Credit Assessment Institution (ECAI) according to Part 2 of Annex IV to Directive 2006/48/EC.

Subscriptions to the *Official Journal of the European Union*, which is published in the official languages of the European Union, are available for 22 language versions. The Official Journal comprises two series, L (Legislation) and C (Information and Notices).

A separate subscription must be taken out for each language version.

In accordance with Council Regulation (EC) No 920/2005, published in Official Journal L 156 of 18 June 2005, the institutions of the European Union are temporarily not bound by the obligation to draft all acts in Irish and publish them in that language. Irish editions of the Official Journal are therefore sold separately.

Subscriptions to the Supplement to the Official Journal (S Series — tendering procedures for public contracts) cover all 23 official language versions on a single multilingual CD-ROM.

On request, subscribers to the *Official Journal of the European Union* can receive the various Annexes to the Official Journal. Subscribers are informed of the publication of Annexes by notices inserted in the *Official Journal of the European Union*.

CD-Rom formats will be replaced by DVD formats during 2010.
