## REGULATIONS

## COMMISSION REGULATION (EU) 2018/685

of 3 May 2018

**amending Annexes II, III and IV to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for abamectin, beer, fluopyram, fluxapyroxad, maleic hydrazide, mustard seeds powder and tefluthrin in or on certain products**

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC<sup>(1)</sup>, and in particular Article 5(1) and Article 14(1)(a) thereof,

Whereas:

- (1) For abamectin and maleic hydrazide, maximum residue levels (MRLs) were set in Annex II to Regulation (EC) No 396/2005. For fluopyram, fluxapyroxad and tefluthrin, MRLs were set in Part A of Annex III to that Regulation. For beer and mustard seeds powder, no specific MRLs were set nor were those substances included in Annex IV to that Regulation, so the default value of 0,01 mg/kg laid down in Article 18(1)(b) thereof applies.
- (2) In the context of a procedure for the authorisation of the use of a plant protection product containing the active substance abamectin on bananas, an application was submitted in accordance with Article 6(1) of Regulation (EC) No 396/2005 for modification of the existing MRLs.
- (3) As regards fluopyram, such an application was submitted for purslanes. As regards fluxapyroxad, such an application was submitted for 'tropical root and tuber vegetables', 'other root and tuber vegetables except sugar beets', spring onions, 'flowering brassica', Brussels sprouts, head cabbages, 'lettuces and salad plants', 'spinaches and similar leaves', witloofs, 'herbs and edible flowers', globe artichokes, leeks, 'herbal infusions from roots', 'root and rhizome spices' and chicory roots. As regards tefluthrin, such an application was submitted for carrots.
- (4) In accordance with Article 6(2) and (4) of Regulation (EC) No 396/2005 an application was submitted for fluxapyroxad used on citrus fruits. The applicant claims that the authorised uses of that substance on such crops in Brazil lead to residues exceeding the MRLs contained in Regulation (EC) No 396/2005 and that higher MRLs are necessary to avoid trade barriers for the importation of those crops.

<sup>(1)</sup> OJ L 70, 16.3.2005, p. 1.

- (5) In accordance with Article 8 of Regulation (EC) No 396/2005 those applications were evaluated by the Member States concerned and the evaluation reports were forwarded to the Commission.
- (6) The European Food Safety Authority ('the Authority') assessed the applications and the evaluation reports, examining in particular the risks to the consumer and, where relevant, to animals and gave reasoned opinions on the proposed MRLs<sup>(1)</sup>. The Authority forwarded those opinions to the applicants, the Commission and the Member States and made them available to the public.
- (7) The Authority concluded in its reasoned opinions that, as regards the use of fluxapyroxad on citrus fruits, the submitted data were not sufficient to set a new MRL for the entire group. However, in accordance with the existing Union guidelines on extrapolation of MRLs, it is appropriate to set the MRL for grapefruits at the value of the existing MRL for oranges. The existing MRLs for citrus fruits should therefore be kept at the current values except for grapefruits for which the MRL should be increased to 0,3 mg/kg.
- (8) As regards all other applications, the Authority concluded that all requirements with respect to data were met and that the modifications to the MRLs requested by the applicants were acceptable with regard to consumer safety on the basis of a consumer exposure assessment for 27 specific European consumer groups. The Authority took into account the most recent information on the toxicological properties of the substances. Neither the lifetime exposure to these substances via consumption of all food products that may contain them, nor the short-term exposure due to high consumption of the relevant products showed that there is a risk that the acceptable daily intake or the acute reference dose is exceeded.
- (9) For maleic hydrazide, the Authority submitted a conclusion on the peer review of the pesticide risk assessment of the active substance<sup>(2)</sup>. In that framework, it recommended increasing the MRLs for potatoes, garlic, shallots and milk.
- (10) Beer and mustard seeds powder are approved as basic substances by Commission Implementing Regulation (EU) 2017/2090<sup>(3)</sup> and Commission Implementing Regulation (EU) 2017/2066<sup>(4)</sup>, respectively. The conditions of use of those substances are not expected to lead to the presence of residues in food or feed commodities that may pose a risk to the consumer. It is therefore appropriate to include those substances in Annex IV to Regulation (EC) No 396/2005.
- (11) Based on the reasoned opinions and the conclusion of the Authority and taking into account the factors relevant to the matter under consideration, the appropriate modifications to the MRLs fulfil the requirements of Article 14(2) of Regulation (EC) No 396/2005.
- (12) Regulation (EC) No 396/2005 should therefore be amended accordingly.
- (13) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

<sup>(4)</sup> Commission Implementing Regulation (EU) 2017/2066 of 13 November 2017 concerning the approval of mustard seeds powder as a basic substance in accordance with Regulation (EC) No 1107/2009 of the European Parliament and of the Council concerning the placing of plant protection products on the market, and amending the Annex to Commission Implementing Regulation (EU) No 540/2011 (OJ L 295, 14.11.2017, p. 43).

HAS ADOPTED THIS REGULATION:

*Article 1*

Annexes II, III and IV to Regulation (EC) No 396/2005 are amended in accordance with the Annex to this Regulation.

*Article 2*

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 3 May 2018.

*For the Commission*

*The President*

Jean-Claude JUNCKER

---

## ANNEX

Annexes II, III and IV to Regulation (EC) No 396/2005 are amended as follows:

(1) In Annex II, the columns for abamectin and maleic hydrazide are replaced by the following:

**'Pesticide residues and maximum residue levels (mg/kg)**

Code number	Groups and examples of individual products to which the MRLs apply <sup>(a)</sup>	Abamectin (sum of avermectin B1a, avermectin B1b and delta-8,9 isomer of avermectin B1a, expressed as avermectin B1a) (F) (R)	Maleic hydrazide

(\*) Limit of analytical determination

(\*\*) Pesticide-code combination for which the MRL as set in Annex III Part B applies.

(<sup>a</sup>) For the complete list of products of plant and animal origin to which MRLs apply, reference should be made to Annex I.

(F) = Fat soluble

**Abamectin (sum of avermectin B1a, avermectin B1b and delta-8,9 isomer of avermectin B1a, expressed as avermectin B1a)**  
**(F) (R)**

(R) = The residue definition differs for the following combinations pesticide-code number:

Abamectin — code 1000000 except 1040000: avermectin B1a

(+) The European Food Safety Authority identified some information on analytical methods as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 19 November 2017, or, if that information is not submitted by that date, the lack of it.

**0110000 Citrus fruits**

**0110010 Grapefruits**

**0110020 Oranges**

**0110030 Lemons**

**0110040 Limes**

**0110050 Mandarins**

**0110990 Others**

**COMMISSION REGULATION (EU) 2018/686**  
**of 4 May 2018**

**amending Annexes II and III to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for chlorpyrifos, chlorpyrifos-methyl and triclopyr in or on certain products**

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC (<sup>1</sup>), and in particular Article 14(1)(a) and Article 49(2) thereof,

Whereas:

- (1) For chlorpyrifos and chlorpyrifos-methyl maximum residue levels (MRLs) were set in Annex II and Part B of Annex III to Regulation (EC) No 396/2005. For triclopyr MRLs were set in Part A of Annex III to that Regulation.
- (2) For chlorpyrifos, the European Food Safety Authority, hereinafter 'the Authority', submitted a reasoned opinion on the existing MRLs in accordance with Article 12(2) of Regulation (EC) No 396/2005 in conjunction with Article 12(1) thereof (<sup>2</sup>). The Authority identified a risk for consumers concerning the MRL for wine grapes. It is therefore appropriate to lower this MRL. It recommended lowering the MRLs for quinces, medlars, apricots, cherries, pumpkins, sweet corn, broccoli, Brussels sprouts, kales, kohlrabies, lettuces and salad plants, spinaches, legume vegetables, asparagus, globe artichokes, pulses, poppy seed, sunflower seed, rape seed, mustard seed, gold of pleasure seed, olive for oil production, buckwheat grain, millet grain, coffee beans and poultry (muscle, fat and liver). For other products, it recommended raising or keeping the existing MRLs. It concluded that concerning the MRLs for almonds, hazelnuts/cobnuts, pecans, walnuts, apples, pears, table grapes, beetroots, radishes, garlic, shallots, spring onions/green onions and Welsh onions, tomatoes, sweet peppers/bell peppers, aubergines/eggplants, Chinese cabbages/pe-tsai, lamb's lettuces/corn salads, lettuces, escaroles/broad-leaved endives, Roman rocket/rucola, beans (with pods), beans (without pods), peas (with pods), peas (without pods), asparagus, globe artichokes, beans, peas, lupins/lupini beans, poppy seeds, sunflower seeds, rapeseeds/canola seeds, soyabean, mustard seeds, cotton seeds, gold of pleasure seeds, olives for oil production, buckwheat and other pseudo-cereals, common millet/proso millet, teas, spices (seed, fruit, root and rhizome), swine (muscle and fat tissue), bovine (muscle and fat tissue), sheep (muscle and fat tissue), goat (muscle and fat tissue), poultry (muscle and fat tissue) and milk (cattle, sheep and goat), some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation.
- (3) For chlorpyrifos-methyl, the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(2) of Regulation (EC) No 396/2005 in conjunction with Article 12(1) thereof (<sup>3</sup>). The Authority proposed to change the residue definition to the sum of chlorpyrifos-methyl and desmethyl chlorpyrifos-methyl for cereals. It recommended lowering the MRLs for strawberries, currants (black, red and white), kiwi, potatoes, maize/corn, rye, sorghum, wheat, swine (liver and kidney), bovine (liver and kidney), sheep (liver and kidney), goat (liver and kidney) and poultry (muscle, fat, liver and kidney). For other products, it recommended raising or

<sup>(1)</sup> OJ L 70, 16.3.2005, p. 1.

<sup>(2)</sup> European Food Safety Authority; Review of the existing maximum residue levels for chlorpyrifos according to Article 12 of Regulation (EC) No 396/2005. EFSA Journal 2017;15(3):4733.

<sup>(3)</sup> European Food Safety Authority; Review of the existing maximum residue levels for chlorpyrifos-methyl according to Article 12 of Regulation (EC) No 396/2005. EFSA Journal 2017;15(3):4734.

keeping the existing MRLs. It concluded that concerning the MRLs for spices (seed, fruit, root and rhizome), barley, oat, rice, swine (meat, fat, liver and kidney), bovine (meat, fat, liver and kidney), sheep (meat, fat, liver and kidney), goat (meat, fat, liver and kidney), poultry (meat, fat, liver and kidney), milk (cattle, sheep and goat) and birds eggs, some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation. Monitoring data shows that residues occur on untreated pulses, oilseeds and cereals at a level higher than the new limit of determination (LOD) identified by the Authority but lower than the existing LOD. Such residues result from a cross-contamination with crops lawfully treated with chlorpyrifos-methyl. As the assessment demonstrates that there is no unacceptable risk to consumers or animals at the existing LOD, the MRLs for these crops should be temporarily set at the level of the existing LOD. These MRLs will be reviewed; the review will take into account the information available within four years from the publication of this Regulation.

- (4) For triclopyr, the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005<sup>(1)</sup>. The Authority recommended lowering the MRLs for apples, pears, apricots, peaches, rice grain, swine (muscle, fat, liver and kidney), bovine kidney, sheep kidney, goat kidney and milk (cattle, sheep and goat). For other products, it recommended raising or keeping the existing MRLs. It concluded that concerning the MRLs for grapefruits, oranges, lemons, mandarins, apples, pears, apricots, peaches and rice some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation.
- (5) As regards products on which the use of the plant protection product concerned is not authorised, and for which no import tolerances or Codex maximum residue limits (CXLs) exist, MRLs should be set at the specific limit of determination or the default MRL should apply, as provided for in Article 18(1)(b) of Regulation (EC) No 396/2005.
- (6) The Commission consulted the European Union reference laboratories for residues of pesticides as regards the need to adapt certain limits of determination. As regards several substances, those laboratories concluded that for certain commodities technical development requires the setting of specific limits of determination.
- (7) Based on the reasoned opinions of the Authority and taking into account the factors relevant to the matter under consideration, the appropriate modifications to the MRLs fulfil the requirements of Article 14(2) of Regulation (EC) No 396/2005.
- (8) Through the World Trade Organisation, the trading partners of the Union were consulted on the new MRLs and their comments have been taken into account.
- (9) Regulation (EC) No 396/2005 should therefore be amended accordingly.
- (10) In order to allow for the normal marketing, processing and consumption of products, this Regulation should provide for a transitional arrangement for products which have been produced before the modification of the MRLs and for which information shows that a high level of consumer protection is maintained. Because a risk to consumers cannot be excluded at the current MRL, the value for chlorpyrifos of 0,01 mg/kg for wine grapes should apply from the date of application of this Regulation.
- (11) A reasonable period should be allowed to elapse before the modified MRLs become applicable in order to permit Member States, third countries and food business operators to prepare themselves to meet the new requirements which will result from the modification of the MRLs.

<sup>(1)</sup> European Food Safety Authority; Review of the existing maximum residue levels for triclopyr according to Article 12 of Regulation (EC) No 396/2005. EFSA Journal 2017;15(3):4735.

(12) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

*Article 1*

Annexes II and III to Regulation (EC) No 396/2005 are amended in accordance with the Annex to this Regulation.

*Article 2*

As regards the active substances chlorpyrifos-methyl and triclopyr in and on all products, Regulation (EC) No 396/2005 as it stood before being amended by this Regulation shall continue to apply to products which were produced before 5 December 2018.

As regards the active substance chlorpyrifos in and on all products except wine grapes, Regulation (EC) No 396/2005 as it stood before being amended by this Regulation shall continue to apply to products which were produced before 5 December 2018.

*Article 3*

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 5 December 2018.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 4 May 2018.

*For the Commission*

*The President*

Jean-Claude JUNCKER

## ANNEX

Annexes II and III to Regulation (EC) No 396/2005 are amended as follows:

(1) Annex II is amended as follows:

(a) The columns for chlorpyrifos and chlorpyrifos-methyl are replaced by the following:

**'Pesticide residues and maximum residue levels (mg/kg)**

Code number	Groups and examples of individual products to which the MRLs apply <sup>(a)</sup>	Chlorpyrifos (F)	Chlorpyrifos-methyl (F) (R)

(\*) Limit of analytical determination

(a) For the complete list of products of plant and animal origin to which MRLs apply, reference should be made to Annex I.

(F) = Fat soluble

#### **Chlorpyrifos (F)**

(+) The European Food Safety Authority identified some information on analytical methods and crop metabolism after soil treatment as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

##### **0120010 Almonds**

##### **0120060 Hazelnuts/cobnuts**

##### **0120080 Pecans**

##### **0120110 Walnuts**

(+) The European Food Safety Authority identified some information on residue trials as unavailable. When re-reviewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

##### **0130010 Apples**

##### **0130020 Pears**

##### **0213010 Beetroots**

(+) The European Food Safety Authority identified some information on residue trials and crop metabolism after soil treatment as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

##### **0213080 Radishes**

(+) The European Food Safety Authority identified some information on residue trials and crop metabolism after soil treatment as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

##### **0220010 Garlic**

(+) The European Food Safety Authority identified some information on residue trials and crop metabolism after soil treatment as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

##### **0220030 Shallots**

##### **0220040 Spring onions/green onions and Welsh onions**

##### **0231010 Tomatoes**

##### **0231020 Sweet peppers/bell peppers**

##### **0231030 Aubergines/eggplants**

##### **0251010 Lamb's lettuces/corn salads**

##### **0251020 Lettuces**

##### **0251030 Escaroles/broad-leaved endives**

##### **0251060 Roman rocket/rucola**

(+) The European Food Safety Authority identified some information on residue trials and crop metabolism after soil and seed treatments as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

##### **0260010 Beans (with pods)**

- (+) The European Food Safety Authority identified some information on residue trials and crop metabolism after soil treatment as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

**0260020 Beans (without pods)**

**0260030 Peas (with pods)**

**0260040 Peas (without pods)**

**0270010 Asparagus**

**0270050 Globe artichokes**

- (+) The European Food Safety Authority identified some information on residue trials and crop metabolism after soil and seed treatments as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

**0300010 Beans**

- (+) The European Food Safety Authority identified some information on residue trials and crop metabolism after soil treatment as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

**0300030 Peas**

- (+) The European Food Safety Authority identified some information on residue trials and crop metabolism after seed treatment as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

**0300040 Lupins/lupini beans**

- (+) The European Food Safety Authority identified some information on analytical methods as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

**0401030 Poppy seeds**

- (+) The European Food Safety Authority identified some information on analytical methods and crop metabolism after soil treatment as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

**0401050 Sunflower seeds**

- (+) The European Food Safety Authority identified some information on analytical methods and residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

**0401060 Rapeseeds/canola seeds**

- (+) The European Food Safety Authority identified some information on analytical methods, residue trials and crop metabolism after soil treatment as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

**0401070 Soyabbeans**

- (+) The European Food Safety Authority identified some information on analytical methods and residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

**0401080 Mustard seeds**

- (+) The European Food Safety Authority identified some information on analytical methods as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

**0401090 Cotton seeds**

- (+) The European Food Safety Authority identified some information on analytical methods and residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

**0401130 Gold of pleasure seeds**

- (+) The European Food Safety Authority identified some information on analytical methods and crop metabolism after soil treatment as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

**0402010 Olives for oil production**

- (+) The European Food Safety Authority identified some information on residue trials and crop metabolism after soil treatment as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

**0500020 Buckwheat and other pseudo-cereals****0500040 Common millet/proso millet**

- (+) The European Food Safety Authority identified some information on analytical methods and residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

**0610000 Teas**

- (+) The European Food Safety Authority identified some information on analytical methods as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

**0810000 Seed spices****0810010 Anise/aniseed****0810020 Black caraway/black cumin****0810030 Celery****0810040 Coriander****0810050 Cumin****0810060 Dill****0810070 Fennel****0810080 Fenugreek****0810090 Nutmeg****0810990 Others****0820000 Fruit spices****0820010 Allspice/pimento****0820020 Sichuan pepper****0820030 Caraway****0820040 Cardamom****0820050 Juniper berry****0820060 Peppercorn (black, green and white)****0820070 Vanilla****0820080 Tamarind****0820990 Others****0840000 Root and rhizome spices****0840010 Liquorice****0840020 Ginger****0840030 Turmeric/curcuma**

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040 Horseradish**

- (+) The European Food Safety Authority identified some information on analytical methods as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

**0840990 Others****1011010 Muscle**

- (+) The European Food Safety Authority identified some information on analytical methods as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

**1011020 Fat tissue**

- (+) The European Food Safety Authority identified some information on analytical methods as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

(R) = The residue definition differs for the following combinations pesticide-code number:

Chlorpyrifos-methyl - code 500000: sum of chlorpyrifos-methyl and desmethyl chlorpyrifos-methyl

- (+) The European Food Safety Authority identified some information on analytical methods as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it. Monitoring data show that cross-contamination of untreated pulses may occur with crops lawfully treated with chlorpyrifos-methyl. This cross-contamination may not be fully avoidable in all cases. When reviewing the MRL, the Commission will take into account the information, if it is submitted by 16 May 2022, or, if that information is not submitted by that date, the lack of it.

**0300000 PULSES****0300010 Beans****0300020 Lentils****0300030 Peas****0300040 Lupins/lupini beans****0300990 Others**

- (+) The European Food Safety Authority identified some information on analytical methods as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it. Monitoring data show that cross-contamination of oilseeds may occur with crops lawfully treated with chlorpyrifos-methyl. This cross-contamination may not be fully avoidable in all cases. When reviewing the MRL, the Commission will take into account the information, if it is submitted by 16 May 2022, or, if that information is not submitted by that date, the lack of it.

**0401000 Oilseeds**

**0401010 Linseeds**

**0401020 Peanuts/groundnuts**

**0401030 Poppy seeds**

**0401040 Sesame seeds**

**0401050 Sunflower seeds**

**0401060 Rapeseeds/canola seeds**

**0401070 Soybeans**

**0401080 Mustard seeds**

**0401090 Cotton seeds**

**0401100 Pumpkin seeds**

**0401110 Safflower seeds**

**0401120 Borage seeds**

**0401130 Gold of pleasure seeds**

**0401140 Hemp seeds**

**0401150 Castor beans**

**0401990 Others**

- (+) The European Food Safety Authority identified some information on analytical methods as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it. The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

**0500010 Barley**

- (+) The European Food Safety Authority identified some information on analytical methods as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it. Monitoring data show that cross-contamination of cereals may occur with crops lawfully treated with chlorpyrifos-methyl. This cross-contamination may not be fully avoidable in all cases. When reviewing the MRL, the Commission will take into account the information, if it is submitted by 16 May 2022, or, if that information is not submitted by that date, the lack of it.

**0500020 Buckwheat and other pseudo-cereals**

**0500030 Maize/corn**

**0500040 Common millet/proso millet**

- (+) The European Food Safety Authority identified some information on analytical methods as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it. The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it.

**0500050 Oat**

**0500060 Rice**

- (+) The European Food Safety Authority identified some information on analytical methods as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 May 2020, or, if that information is not submitted by that date, the lack of it. Monitoring data show that cross-contamination of cereals may occur with crops lawfully treated with chlorpyrifos-methyl. This cross-contamination may not be fully avoidable in all cases. When reviewing the MRL, the Commission will take into account the information, if it is submitted by 16 May 2022, or, if that information is not submitted by that date, the lack of it.

- (2) Annex III is amended as follows:

(a) In part A, the column for triclopyr is deleted.

(b) In part B, the columns for chlorpyrifos and chlorpyrifos-methyl are deleted.

**COMMISSION REGULATION (EU) 2018/687****of 4 May 2018**

**amending Annexes II and III to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for acibenzolar-S-methyl, benzovindiflupyr, bifenthrin, bixafen, chlorantraniliprole, deltamethrin, flonicamid, fluazifop-P, isofetamid, metrafenone, pendimethalin and teflubenzuron in or on certain products**

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC (<sup>1</sup>), and in particular Article 14(1)(a) thereof,

Whereas:

- (1) On 1 July 2016 the Codex Alimentarius Commission adopted Codex maximum residue limits (CXLs) for bifenthrin (<sup>2</sup>). On 22 July 2017 the Codex Alimentarius Commission adopted CXLs for acibenzolar-S-methyl, benzovindiflupyr, bixafen, buprofezin, chlorantraniliprole, deltamethrin, dimethomorph, fipronil, flonicamid, fluazifop-P, fluensulfone, flupyradifurone, imazethapyr, isofetamid, methoprene, metrafenone, oxathiapiprolin, pendimethalin, penthiopyrad, pinoxaden, saflufenacil, spiromesifen, teflubenzuron and tolfenpyrad (<sup>3</sup>).
- (2) Maximum residue levels (MRLs) were set for those substances in Annexes II and III to Regulation (EC) No 396/2005, except for fluensulfone for which no specific MRLs were set nor was that substance included in Annex IV to that Regulation, so the default value of 0,01 mg/kg laid down in Article 18(1)(b) thereof applies.
- (3) In accordance with Article 5(3) of Regulation (EC) No 178/2002 of the European Parliament and of the Council (<sup>4</sup>), where international standards exist or their completion is imminent, they are to be taken into consideration in the development or adaptation of food law, except where such standards or relevant parts would be an ineffective or inappropriate means for the fulfilment of the legitimate objectives of food law or where there is a scientific justification, or where they would result in a different level of protection from the one determined as appropriate in the Union. Moreover, in accordance with point (e) of Article 13 of that Regulation, the Union is to promote consistency between international technical standards and food law while ensuring that the high level of protection adopted in the Union is not reduced.
- (4) The Union presented a reservation to the Codex Committee on Pesticides Residues on the CXLs proposed for the following pesticide/product combinations: acibenzolar-S-methyl (brassica vegetables; cucurbits; citrus fruits; kiwi fruit); benzovindiflupyr (cucurbits; mammalian meat); bixafen (mammalian meat); buprofezin (all products);

Joint FAO/WHO food standards programme Codex Alimentarius Commission. Appendix III. 40th Session. Geneva, Switzerland, 17 – 22 July 2017.

(<sup>4</sup>) Regulation (EC) No 178/2002 of the European Parliament and of the Council of 28 January 2002 laying down the general principles and requirements of food law, establishing the European Food Safety Authority and laying down procedures in matters of food safety (OJ L 31, 1.2.2002, p. 1).

chlorantraniliprole (poultry meat); fipronil (all products); flonicamid (products of plant origin); fluazifop-P (head cabbages; tomato; beans; peas (without pods); carrot; potato; swede; turnip; sunflower seed; mammalian meat, fats and edible offal; milks; poultry meat, fats and edible offal; eggs); fluensulfone (all products); flupyradifurone (all products); imazethapyr (all products); isofetamid (animal products); methoprene (all products); oxathiapiprolin (all products); pendimethalin (brassica leafy vegetables, except kale; mammalian meat; poultry meat; spring onions and Welsh onions); pinoxaden (all products); saflufenacil (all products); spiromesifen (all products).

- (5) The CXLs for acibenzolar-S-methyl, benzovindiflupyr, bifenthrin, bixafen, chlorantraniliprole, deltamethrin, flonicamid, fluazifop-P, isofetamid, metrafenone, pendimethalin and teflubenzuron, which are not listed in recital 4, should therefore be included in Regulation (EC) No 396/2005 as MRLs except where they relate to products which are not referred to in Annex I to that Regulation or where they are at a lower level than the current MRLs. Those CXLs are safe for consumers in the Union<sup>(1)</sup>.
- (6) In the context of a procedure for the authorisation of the use of a plant protection product containing the active substance acibenzolar-S-methyl on kiwi fruits, an application was submitted in accordance with Article 6(1) of Regulation (EC) No 396/2005 for modification of the existing MRL.
- (7) In accordance with Article 8 of Regulation (EC) No 396/2005, that application was evaluated by the Member State concerned and the evaluation report was forwarded to the Commission.
- (8) The European Food Safety Authority, hereinafter ‘the Authority’, assessed the application and the evaluation report, examining in particular the risks to the consumer and, where relevant, to animals and gave a reasoned opinion on the proposed MRL<sup>(2)</sup>. It forwarded that opinion to the Commission and the Member States and made it available to the public.
- (9) The Authority concluded in its reasoned opinion that all requirements with respect to data were met and that the modification to the MRL requested by the applicant was acceptable with regard to consumer safety on the basis of a consumer exposure assessment for 27 specific European consumer groups. It took into account the most recent information on the toxicological properties of the substance. Neither the lifetime exposure to this substance via consumption of all food products that may contain it, nor the short-term exposure due to high consumption of the relevant product showed that there is a risk that the acceptable daily intake or the acute reference dose is exceeded.
- (10) Based on the reasoned opinions of the Authority and taking into account the factors relevant to the matter under consideration, the appropriate modifications to the MRLs fulfil the requirements of Article 14(2) of Regulation (EC) No 396/2005.
- (11) Regulation (EC) No 396/2005 should therefore be amended accordingly.
- (12) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

Reasoned opinion on the modification of the existing maximum residue level for acibenzolar-S-methyl in kiwi fruits. EFSA Journal 2017;15(9):4985 [20 pp.]

HAS ADOPTED THIS REGULATION:

*Article 1*

Annexes II and III to Regulation (EC) No 396/2005 are amended in accordance with the Annex to this Regulation.

*Article 2*

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 4 May 2018.

*For the Commission*

*The President*

Jean-Claude JUNCKER

---

ANNEX

Annexes II and III to Regulation (EC) No 396/2005 are amended as follows:

(1) In Annex II, the columns for acibenzolar-S-methyl, benzovindiflupyr, bifenthrin, deltamethrin, flonicamid, fluazifop-P, isofetamid, pendimethalin and teflubenzuron are replaced by the following:

## Pesticide residues and maximum residue levels (mg/kg)

Code number	Groups and examples of individual products to which the MRLs apply <sup>(a)</sup>	Teflubenzuron (F)									
		(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)

(\*) Limit of analytical determination

(a) For the complete list of products of plant and animal origin to which MRLs apply, reference should be made to Annex I.

(F) = Fat soluble

**Acibenzolar-S-methyl (sum of acibenzolar-S-methyl and acibenzolar-S-methoxy)**

(+) The European Food Safety Authority identified some information on residue trials as unavailable. When re-reviewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 26 June 2016, or, if that information is not submitted by that date, the lack of it.

**0163030 Mangoes**

(+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040 Horseradish****Benzovindiflupyr**

(+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040 Horseradish****Bifenthrin (sum of isomers) (F)**

(+) The European Food Safety Authority identified some information on storage stability as unavailable. When re-reviewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 3 February 2019, or, if that information is not submitted by that date, the lack of it.

**0110000 Citrus fruits****0152000 (b) strawberries****0153000 (c) cane fruits**

(+) Occurrence data show that a lower MRL than 0.1 mg/kg is currently not achievable. Further data are necessary to monitor this level over time in view of its possible reduction. When reviewing the MRL, the Commission will take into account the information, if it is submitted by 3 February 2020 or, if that information is not submitted by that date, the lack of it.

**0630000 Herbal infusions from**

(+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

**0840040 Horseradish**

(+) The European Food Safety Authority identified some information on analytical methods as unavailable. When re-reviewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 3 February 2019, or, if that information is not submitted by that date, the lack of it.

**1030000 Birds eggs****Deltamethrin (cis-deltamethrin) (F)**

(+) The European Food Safety Authority identified some information on analytical methods and residue trials as unavailable. When re-reviewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 18 October 2018, or, if that information is not submitted by that date, the lack of it.

**0110010 Grapefruits****0110020 Oranges****0110030 Lemons****0110040 Limes****0110050 Mandarins****0120010 Almonds****0120020 Brazil nuts****0120030 Cashew nuts**

(\*) Limit of analytical determination

(<sup>a</sup>) For the complete list of products of plant and animal origin to which MRLs apply, reference should be made to Annex I.

#### **Bixafen (R)**

(R) = The residue definition differs for the following combinations pesticide-code number:

Bixafen- code 1 000 000 except 1 040 000: sum of bixafen and desmethyl bixafen expressed as bixafen

(+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

#### **0840040 Horseradish**

#### **Chlorantraniliprole (DPX E-2Y45) (F)**

(+) MRL applicable until 31 December 2020, after that date 0,02\* mg/kg will be applicable unless modified by a Regulation.

#### **0700000 HOPS**

(+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.
