Proposal for a Council Regulation on the statute and financing of European political parties

(2001/C 154 E/28)

(Submitted by the Commission on 13 February 2001)

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 308 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament,

Whereas:

(1) Article 191 of the Treaty acknowledges that political parties at European level are important as a factor for integration within the European Union and that they contribute to forming a European awareness and to expressing the political will of the citizens.

(2) It is necessary to make provision for a statute for European political parties and to ensure that they respect fundamental rights and principles of democracy and the State based on the rule of law, in accordance with the Treaty, and that they have their own managing bodies.

(3) Provision should be made for the financing of European political parties so as to cover part of their operating costs and the cost of promoting democracy in the countries applying for accession.

(4) The conditions laid down by this Regulation should be applied on the same basis to all European political parties, but account should be taken of their actual representativeness in the European Parliament.

(5) In accordance with the principle of subsidiarity, financing should be given solely to parties that are sufficiently representative at European level so as to avoid financing purely national parties, or parties to which financing has been refused at national level on the grounds that they do not respect democratic principles. This financing should not replace autonomous financing of the parties.

(6) The nature of the expenditure that can be financed under this Regulation should be defined.

(7) The appropriations allocated to financing parties should be determined in the annual budgetary procedure.

(8) Implementation of the measures provided for by this Regulation contributes to the achievement of the objectives of the Union. The Treaty does not provide, for the adoption of this Regulation, powers other than those under Article 308.

(9) This Regulation should expire at the end of the second financial year following its entry into force.
