Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

establishing a European Training Foundation (recast)

(presented by the Commission)
EXPLANATORY MEMORANDUM

1. Introduction

The European Training Foundation, hereinafter referred to as the ETF or the Foundation, is a decentralised EU agency created under Council Regulation (EEC) No 1360/90 of 7 May 1990¹. ETF is situated in Turin, Italy.

According to its founding Regulation, the ETF’s overall objective is to contribute to developing vocational training systems in partner countries falling within its geographical scope.

The ETF was originally created to support implementation of the PHARE external assistance programme in the vocational training field. However, following three consecutive amendments to its founding Regulation, the ETF has acquired an extended geographical scope also covering the countries of the previous TACIS, CARDS and MEDA programmes.

Since the ETF’s founding Regulation was last amended, there have been important developments in the European Union’s policy outlook in both the education & training and external relations fields, while new instruments have been adopted to implement these policies. Accordingly, it is felt that a new amendment to the ETF founding Regulation is necessary to take into account recent developments, to update its role and function and to provide a sound basis for its future work.

In 2005 the Commission presented a draft Interinstitutional Agreement on the operating framework for the European Regulatory Agencies². Although this framework, which is still at the proposal stage, is primarily intended to guide the Commission in setting up new decentralised agencies, its principles should also be taken into account when proposing significant amendments to the founding Regulations of existing agencies, with the long-term aim of achieving a high degree of convergence on key issues. This proposal was prepared taking into account the principles of the draft Interinstitutional Agreement (hereinafter IIIOFA).

Furthermore, this legislative proposal aims to provide a recasting version of the ETF founding Regulation, in line with the Interinstitutional Agreement of 28 November 2001 on a more structured use of the recasting technique for legal acts³.

2. Context and objectives of the proposal

2.1. Recent developments in Vocational Education and Training (VET)

The ETF’s thematic remit, as described in its founding Regulation, is to contribute to development of vocational training systems in partner countries.

In recent years education and training policy in the EU has switched from considering the different sectors separately to embracing a lifelong learning (LLL) perspective involving a holistic view of education and training as part of an entire learning system encompassing primary and secondary education, higher education, initial and continuing VET, and further and adult education.

Furthermore, LLL is considered to be a key factor in achieving the Lisbon goals as it can equip people with the knowledge, skills and wider competences to work and live as active citizens in a dynamic and fast changing economy and society.

In this context, traditional vocational training, defined as a procedure providing people with work-related skills of immediate use in the labour market, cannot be considered in isolation from developments in other areas of education or long-term labour market trends.

2.2. New external relations policy instruments

Following successive amendments to its founding Regulation, the ETF’s geographical scope was until now defined by reference to the external relations programmes under which it was operating (PHARE, CARDS, TACIS, MEDA).

As from 2007 these programmes have been replaced by new external relations policy instruments, mainly the Instrument for Pre-accession Assistance (IPA) and the European Neighbourhood and Partnership Instrument (ENPI).

The introduction of these new external relations policy instruments marks a significant further step towards a policy-driven, rather than a programme-driven, approach to external assistance within a sector-wide perspective. These instruments are designed to help partner countries achieve home-grown reforms in different sectors.

In this new context, the ETF will increasingly be required to provide the Commission with information and analysis at the policy development and assistance programming phase, as well as to contribute, at the Commission's request, to analysis of the overall effectiveness of training assistance to the partner countries. The other focus of attention will be on helping partner countries build capacity to define and implement reform strategies appropriate to the national context, and on promoting networking and exchange of experience and good practice between the EU and the partner countries and amongst partner countries themselves.

2.3. ETF’s external evaluation

In line with Article 17 of the ETF’s founding Regulation, as modified by Council Regulation 1572/98\(^4\), an external evaluation of the ETF’s activities during the period 2002 – 2005 was carried out in 2005. The evaluation's final conclusions, together with a series of recommendations, were presented to the Commission in 2006, and were the subject of a Communication from the Commission to the Council and to the European Parliament adopted on 19 December 2006\(^5\).

The evaluation confirmed that the work furnished by the ETF is seen as good value and concluded that the Commission services and the EC delegations have a positive perception of the ETF’s provision of expertise in VET.

The evaluators also addressed a series of recommendations that require action either by the Commission or by the ETF itself. The Commission analysed the evaluators’ findings, conclusions and recommendations, and took them duly into account, when drafting this legislative proposal. The most important recommendations in this context are set out below.

2.3.1. Thematic remit of the ETF

The evaluators concluded that the ETF’s thematic remit limiting it to VET is too restrictive and, although it has been interpreted over the last years with some flexibility by both the Commission and the ETF, they recommended that the revision of the ETF founding Regulation should define the ETF’s role on the basis that VET is one part of a wider programme of Human Resources Development (HRD).

2.3.2. Geographical scope

The evaluators argued for some increased flexibility in the ETF’s geographical scope, as this would allow its particular expertise to be used by the Commission in countries which are at comparable stages of development and facing similar socio-economic challenges. At the same time, the evaluators stressed that this flexibility has to be accompanied by rigorous prioritisation of the ETF’s activities.

2.3.3. Governance structures

The evaluators highlighted their conclusion that the Governing Board's strategic role should be reinforced and that the Advisory Forum, although acting as an important and useful network of experts, falls short in its role of providing advice to the Governing Board and should probably not keep its current statutory function.

2.4. Conclusion

In the light of the above reasoning, the Commission proposes the following:

- the ETF’s thematic remit should be broadened, to cover human resources development (HRD), in particular education and training in a lifelong perspective, as well as related labour market issues;

- furthermore, the ETF’s geographical scope has to be updated and redefined by reference to the new European Union's external relations policy instruments and priorities;

- within this new working environment, the ETF’s functions must be adapted accordingly while remaining focused on priorities clearly established in coordination with the Commission;

- the Foundation's governing structures need to be modernised, with a view to promoting effective decision-making and contributing to long-term convergence with other Agencies, as provided for in the IIAOFA.
3. Justification of the Commission’s proposal

This proposal provides for necessary amendments to the founding Regulation and contributes to simplifying the legislation related to the ETF.

4. Choice of legal instrument: recasting Regulation

Following its adoption in 1990 the ETF’s founding Regulation was amended three times (in 1994, 1998 and 2000) to extend the geographical scope of the ETF’s activities to the TACIS, MEDA and CARDS countries respectively. Furthermore, the founding Regulation was amended a fourth time, in 2003, to bring it into line with the new Financial Regulation.

As there is currently a need to substantively amend this Regulation, as explained in paragraph 2 above, the Commission considers that this is the occasion to use the recasting technique, as described in the Interinstitutional Agreement of 28 November 2001 on a more structured use of the recasting technique for legal acts, in order to adopt a single legislative text which simultaneously makes the desired amendments, codifies those amendments with the unchanged provisions of the earlier acts and repeals those acts.

5. Legal Basis

Article 235 of the Treaty establishing the European Community (current Article 308) provided the legal basis for the ETF’s founding Regulation.

However, paragraph 4.1 of the Communication on the operating framework for the European Regulatory Agencies states that "the legal instrument creating [an Agency] must be based on the provision of the Treaty which constitutes the specific legal basis for that policy".

The Commission considers that the new thematic remit of the ETF, as described in this recasting Regulation, although wider than "traditional" vocational training, remains closely related to the EU policy in this specific field.

Therefore, Article 150 of the Treaty on vocational training, and especially paragraph 3 thereof stipulating that "the Community and the Member States shall foster cooperation with third countries and the competent international organisations in the sphere of vocational training", seems to be the appropriate legal basis for the ETF founding Regulation.

Paragraph 4 of the same Article stipulates that the proposed legal act is to be adopted in accordance with the procedure referred to in Article 251 of the Treaty (co-decision).

6. Commentary on the text proposed

The recast founding Regulation contains 27 articles in total. Most of the existing articles have either been supplemented through new references or additional elements, while others have been moved to other parts of the text and/or rephrased with a view to providing a more readable and succinct version. Some completely new articles have been added, mainly to

---

address elements recommended under the IIAOFA. A number of articles have remained unchanged, while others have been deleted, as they were obsolete or redundant.

The reference to the legal basis has changed, as old Article 235 (current 308) of the Treaty was replaced by Article 150, for the reasons explained under point 5 above.

The recitals have been modified as follows: a first recital has been added to indicate that the new legal act constitutes a recasting of the earlier one; a new recital refers to the Foundation's seat; three new recitals have been added to clarify the situation regarding previous modifications of the founding Regulation; three new recitals have been added as a reference to the new EU external policy instruments and the need for human resources development in the countries covered by these instruments.

Furthermore, a new recital refers to the recent external evaluation of the ETF and the related Communication from the Commission to the Council and the European Parliament, as this proposal takes into account the conclusions of this Communication.

Finally, a series of new recitals refer to the role of the Governing Board and the obligation of the Foundation to apply the Community rules and procedures in relation to: budgetary and financial questions; combat against fraud, corruption and unlawful activities; public access to documents; processing of personal data. The last recital confirms that the proposed Regulation respects the fundamental rights and observes the principles recognised in particular by the Charter of Fundamental Rights of the EU.

The main substantive changes are described below:

**Article 1 (Subject matter and scope)**

As explained above, the emerging importance of the lifelong learning approach to education and training and the continuing importance of labour market issues in the ETF’s work have meant that, in practice, the Foundation’s concerns have always been broader than the wording of its thematic remit would suggest.

In order to formalise this state of affairs, it is proposed that ETF’s thematic remit should be broadened to cover "human resources development, in particular education and training in a life-long learning perspective, and related labour market issues".

The Commission considers that the ETF, which has limited resources, should maintain its geographical focus. It is therefore proposed that the ETF’s primary scope be defined by reference to the Instrument for Pre-Accession (IPA) and to the European Neighbourhood and Partnership Instrument (ENPI). To enable the ETF to operate in accordance with external relations priorities in areas falling outside its primary geographical scope (such as the Central Asian countries), an ad hoc decision should be taken by the ETF Governing Board on proposal from the Commission.

Formerly "eligible countries" are from now on referred to as "partner countries".

**Article 2 (Functions)**

In view of the Foundation’s envisaged new role under the new external relations policy instruments, its functions should be redefined as follows:
• providing information, policy analysis and advice on human resources development issues and their links to sector policy objectives in the partner countries;

• supporting relevant stakeholders in partner countries to build capacity in human resources development;

• facilitating the exchange of information and experience among donors engaged in human resources development reform in partner countries;

• supporting the delivery of Community assistance to partner countries in the field of human resources development;

• disseminating information and encouraging networking and exchanges of experience and good practice between the European Union and partner countries and amongst partner countries on human resources development issues;

• at the Commission's request, contributing to the analysis of the overall effectiveness of training assistance to partner countries.

Article 3 (General Provisions)

The Foundation's seat is referred to in paragraph 2, and some further details specifying cooperation with the European Centre for the Development of Vocational Training (CEDEFOP) are added in paragraph 3, while paragraphs 4 and 5 include provisions on administrative control by the European Ombudsman as well as modalities for the establishment of co-operation agreements between the ETF and other relevant bodies.

Articles 4 (Transparency), 5 (Confidentiality) and 6 (Remedies)

These articles expand the scope of the old Article 4a on access to documents by including provisions on transparency and confidentiality recommended under the IIAOFA and provide for the necessary remedies in this context.

Articles 7 (Governing Board), 8 (Voting rules and tasks of the Chairperson) and 9 (Powers of the Governing Board)

With a view to promoting effective decision-making and minimising operating costs, article 7 proposes a restructuring of the ETF’s Governing Board, taking into account the principles set out in the IIAOFA, as follows:

• the number of representatives on the Governing Board is limited to fifteen;

• the Commission and Council should designate an equal and limited number of members (six each);

• in the interest of transparency, the Commission will also designate three representatives of the partner countries as non-voting members of the Board;
• all members of the Board will be appointed on the basis of their experience of the sector concerned and with regard to gender equality for a five-year term (instead of the current three years).

Article 9 sets out the Governing Board's duties and tasks in a succinct and more coherent way.

Old Article 6 (Advisory Forum)

Since the Advisory Forum no longer holds a statutory function as an organ of governance of the ETF, this article is removed from the founding Regulation. However, the Advisory Forum may continue as an activity of the ETF, working through the form of regional seminars. This position is supported by the external evaluation findings.

Article 10 (Director)

This article brings the Director's appointment procedure into line with the IIAOFA recommendations and with more recent discussions at interinstitutional level on this matter. Specific provisions are included with regard to the evaluation of the Director and the possibility to extend its term of office once and for no more than three years. The Director's duties are set out in a succinct and more coherent way. A clear provision on the Governing Board's role in disciplining and dismissing the Director has been added in paragraph 5.

Article 11 (Public interest and independence)

This new article is in line with the IIAOFA recommendations.

Article 12 (Annual work programme)

This is a new article presenting in a succinct and more coherent way the procedure for preparing and adopting the annual work programme, previously set out in old article 5. A four-year framework perspective is proposed instead of the current three-year one.

Article 13 (Annual activity report)

This is a new article presenting in a detailed way the procedure for preparing and adopting the annual activity report; previously this procedure was partially covered by paragraph 9 of the old Article 5.

Article 14 (Links with other Community actions)

This article contains a more comprehensive and sustainable presentation of the old Article 8 with no reference to specific actions.

Articles 15 (Budget), 16 (Budgetary procedure) and 17 (Budget implementation and control)

These articles remain largely unchanged, with some minor simplifications. A new paragraph 11 is added to Article 17, to ensure that the Director will take all necessary steps to act on the observations accompanying the decision giving discharge.
Article 18 (European Parliament and Council)

This article provides, in line with IIAOFA recommendations, for the possibility of the EP and the Council to ask for a hearing with the Director of the Foundation on any subject relating to the latter's activities.

Article 19 (Financial rules)

Paragraphs 2 to 4 have been added to ensure ETF compliance with sound accounting rules and action to combat fraud.

Articles 20 (Privileges and immunities), 21 (Staff Rules), 22 (Liability) and 23 (Participation of third countries)

These articles remain largely unchanged. A sentence is added to Article 21 (Staff Rules) to include, in line with the IIAOFA recommendations, a reference to the arrangements of Article 110 of the Staff Regulations and Article 127 of the Conditions of Employment of Other Servants, as well as to the possibility of seconding national experts to the Foundation. In the first paragraph of Article 23, the phrase "in the training field to the eligible countries" has been replaced by "in the human resources field to the partner countries", to bring the terminology into line with Article 1, while a sentence added at the end of the same paragraph clarifies the conditions of participation for third countries.

Article 24 (Evaluation)

This article is supplemented in keeping with IIAOFA recommendations and provides for an extension of the evaluation cycle to four years, to take into account the four-year programming perspective.

Article 25 (Review)

This article links future revisions of the founding Regulation to future evaluations, and provides for the possibility to repeal the founding Regulation if the ETF’s existence is no longer justified with regards to the objectives assigned to it.

Article 26 (Repeal)

This article repeals the earlier Regulations and provides that references to those acts shall be regarded as references to the recasting Regulation and be read in accordance with the correlation table annexed to it, as required by Article 7(b) of the Interinstitutional Agreement of 28 November 2001 on a more structured use of the recasting technique for legal acts.

Article 27: Entry into force

7. Subsidiarity and Proportionality

The ETF tasks, as reformulated in this proposal, are "to contribute, in the context of EU external relations policies, to improving human resources development, in particular education and training in a lifelong learning perspective, and related labour market issues" in specific partner countries. This proposal includes a list of precise functions to be exercised by
the ETF "within the limits of the powers conferred on the Governing Board and following the general guidelines established at Community level". In this way, the ETF conforms to the principles of subsidiarity and proportionality.

8. **Budgetary implications**

This proposal does not introduce any new activities for the ETF. Its objective is rather to provide for an updated and clearer definition of ETF's current functions, under a wider thematic remit (HRD) and a renewed geographical scope. However, it is considered that the wider thematic scope as well as the focus on information and policy analysis tasks (with a parallel reduction of project management as from 2008) should represent a more labour intensive work that is expected to require an important investment on behalf of the ETF in terms of staff training and qualification. Therefore, a legislative financial statement explaining the budgetary needs of the ETF in the next years is attached to this proposal.

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 235 thereof,

Having regard to the proposal from the Commission 8,

Having regard to the opinion of the European Parliament,

Having regard to the opinion of the European Economic and Social Committee 9,

Having regard to the opinion of the Committee of the Regions 10,

Acting in accordance with the procedure laid down in Article 251 of the Treaty 11,

Whereas:

10 OJ C [...], [...], p. [...].
11 OJ C [...], [...], p. [...].
Council Regulation (EEC) No 1360/90 of 7 May 1990 establishing a European Training Foundation has been substantially amended several times. Since further amendments are to be made, it should be recast in the interests of clarity.

Whereas the European Council meeting at Strasbourg on 8 and 9 December 1989 called upon the Council to adopt, at the beginning of 1990, the necessary decisions for the establishment of a European Training Foundation for Central and Eastern Europe, acting on a proposal from the Commission, to this end on 7 May 1990 the Council adopted Regulation (EEC) No 1360/90 which established the said Foundation.

Pursuant to a decision taken by common agreement between the representatives of the Governments of the Member States meeting at Head of State and Government level in Brussels on 29 October 1993, the Foundation has its seat in Turin, Italy.

On 18 December 1989 the Council adopted Regulation (EEC) No 3906/89 on economic aid to the Republic of Hungary and the Polish People's Republic which provides for aid in areas including training to support the process of economic and social reform in Hungary and Poland.

The Council may subsequently extend such aid to other countries of Central and Eastern Europe under a relevant legal act.

Whereas the process of economic and social reform will contribute to the development of mutually beneficial economic and commercial relationships between the countries of Central and Eastern Europe and the Community; whereas these intensified relationships will also contribute to a harmonious development of economic activities within the Community.

---

On 17 July 1998 the Council adopted Regulation (EC) No 1572/98\(^{16}\) amending Regulation (EEC) No 1360/90 with a view to including in the activities of the European Training Foundation the Mediterranean non-member countries and territories which are beneficiaries of the financial and technical measures to accompany the reform of their economy and social structures pursuant to Regulation (EC) No 1488/96.

On 5 December 2000 the Council adopted Regulation (EC) No 2666/2000\(^{17}\) on assistance for Albania, Bosnia and Herzegovina, Croatia, the Federal Republic of Yugoslavia and the Former Yugoslav Republic of Macedonia amending Regulation (EEC) No 1360/90 with a view to including in the activities of the European Training Foundation the Western Balkan States covered by the Regulation.

External assistance programmes related to the countries covered by the activities of the European Training Foundation are to be replaced by new external relations policy instruments, mainly the instrument established by Council Regulation (EC) No 1085/2006 establishing an Instrument for Pre-Accession Assistance\(^{18}\) and the instrument established by Regulation (EC) No 1638/2006 of the European Parliament and of the Council laying down general provisions establishing a European Neighbourhood and Partnership Instrument (ENPI)\(^{19}\).

Through supporting human resources development in the context of its external relations policy, the EU contributes to economic development in these States by providing the skills necessary to foster productivity and employment and supports social cohesion by promoting civic participation.

In the context of these States' efforts to reform their economic and social structures, the development of human resources is essential for attaining long-term stability and prosperity and in particular for achieving socio-economic equilibrium.

Whereas the European Training Foundation could make an important contribution, in the context of EU external relations policies, to the effective provision of training assistance to the countries of Central and Eastern Europe eligible for economic aid to support the process of reform, improving human resources development, in particular education and training in a lifelong learning perspective;

Whereas, for its contribution, the European Training Foundation will need to call upon the experience gained within the Community in the area of vocational training in implementing a common policy for vocational education and training in a lifelong learning perspective and upon its institutions concerned with training involved in this activity;

---

\(^{18}\) OJ L 210, 31.7.2006, p. 82.
Whereas there exist in the Community and in third countries, including the countries of Central and Eastern Europe covered by the activities of the European Training Foundation, regional and/or national, public and/or private facilities which can be called upon to collaborate in the effective provision of aid in the area of training human resources development, in particular education and training in a lifelong perspective.

Whereas the status and structure of the European Training Foundation should facilitate a flexible response to the specific and differing requirements of the individual countries to be assisted, and allow it to carry out its functions in close cooperation with the existing national and international bodies.

Whereas the European Training Foundation should be endowed with legal personality, while maintaining a close corporate relationship with the Commission and respecting the overall political and operational responsibilities of the Community and its institutions.

Whereas the European Training Foundation should have close links with the European Centre for the Development of Vocational Training, with the Trans-European Mobility Scheme for University Studies (Tempus) and any other schemes instituted by the Council to provide aid in the area of training to the countries of Central and Eastern Europe covered by its activities.

Whereas the European Training Foundation should be open to the participation of countries which are not members of the Community and which share the commitment of the Community and the Member States to the provision of aid to Central and Eastern Europe the countries covered by the activities of the European Training Foundation in the training field of human resources development, in particular education and training in a lifelong perspective, under arrangements to be laid down in agreements between the Community and themselves.

The Commission and the member States should be represented within a Governing Board in order to control effectively the functions of the Foundation. This Board should be entrusted with the necessary powers to establish the budget, verify its execution, adopt the appropriate financial rules, establish transparent working procedures for decision making by the Foundation and appoint the Director.

In order to guarantee the full autonomy and independence of the Foundation, it should be granted an autonomous budget whose revenues come essentially from a contribution from the Community. The Community budgetary procedure should be applicable as far as the Community contribution and any other subsidies chargeable to the general budget of the European Union are concerned. The auditing of accounts should be undertaken by the Court of Auditors.

The Foundation is a body set up by the Communities in the sense of Article 185(1) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial
Regulation applicable to the general budget of the European Communities (hereinafter "the Financial Regulation") and should adopt its financial rules accordingly.

(24) In order to combat fraud, corruption and other unlawful activities the provisions of Regulation (EC) No 1073/1999 of the European Parliament and of the Council of 25 May 1999 concerning investigations conducted by the European Anti-Fraud Office (OLAF) should apply without restriction to the Foundation.

(26) Regulation (EC) No 45/2001 of the European Parliament and of the Council of 18 December 2000 on the protection of individuals with regard to the processing of personal data by the Community institutions and bodies and on the free movement of such data should apply to the processing of personal data by the Foundation.

(27) Since the objectives of the action to be taken, namely the need for human resources development (HRD), in particular education and training in a lifelong learning perspective, and related labor market issues, cannot be sufficiently achieved by the Member States and can therefore be better achieved at Community level, the Community may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty. In accordance with the principle of proportionality, as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve those objectives.

(28) This Regulation respects the fundamental rights and observes the principles recognised in particular by the Charter of Fundamental Rights of the European Union. In particular, this Regulation seeks to promote the application of Article 43 of the Charter of Fundamental Rights of the European Union.

(29) Whereas the Treaty does not provide, for the action concerned, powers other than those of Article 225.

5. CHARACTERISTICS AND OBJECTIVES

5.1. Need to be met in the short or long term

Recast of the Regulation to update the scope and objectives of the European Training Foundation in line with developments in the EU Lisbon and lifelong learning agenda, and to redefine its functions, with regard to the new EU external policy instruments.

33 See points 19 and 24 of the Interinstitutional agreement.
5.2. **Value-added of Community involvement and coherence of the proposal with other financial instruments and possible synergy**

The conclusions and recommendations of the 2005-06 external evaluation of the ETF were largely shared by the Commission, as indicated in COM(2006)832 final. The evaluation confirmed that the work done by the ETF is good value, Commission services and EC Delegations have a positive perception of its provision of expertise in vocational education and training (VET) and links to the labour market. Its added value stems from its understanding of the reform context, its network of experts and its capacity to respond flexibly and rapidly to requests.

5.3. **Objectives, expected results and related indicators of the proposal in the context of the ABM framework**

5.3.1 ETF Objectives

The ETF will contribute to the quality of lifelong learning systems and their capacity to support employment, competitiveness and social cohesion in partner countries. This requires an adaption of the established activities to a broader thematic scope, a larger geographical scale and a policy-driven approach to meet the requirements of the new external relations instruments.

In this context, ETF investment in capacity building and action research pilot projects will need to increase as it develops the expertise and approaches needed for its new mandate.

The ETF must also adapt its functions to the new EU external relations instruments around policy rather than programme supported reform.

Currently, the ETF also provides technical assistance to the Tempus programme. This is expected to cease in 2008, which is a year of transition between the current and recast regulation.

5.3.2 Expected results

In the countries covered by the Instrument for Pre-accession and the European Neighbourhood and Partnership Instrument, the recast regulation foresees that the ETF will:

- Provide information, policy analysis and advice on human resources development (HRD) issues and their links to wider policy objectives in the partner countries;
- Support relevant stakeholders in partner countries to build capacity in HRD;
- Facilitate the exchange of information and experience among donors engaged in HRD reform in partner countries;
- Support the delivery of Community assistance to partner countries in the field of HRD;
- Disseminate information and encourage networking and exchanges of experience and good practice between the EU and partner countries and amongst partner countries on HRD issues;

- Contribute, at the Commission's request, to the analysis of the overall effectiveness of training assistance to partner countries.

### 5.3.3 Indicators for the recast regulation

<table>

<tr>

</tr>
</thead>
</table>
| 1. Contributing to education reform in IPA, ENPI and DCI (Central Asia) regions | - ETF sector policy analysis and advice adopted by stakeholders for the modernisation of the education sector and links to employment in line with EU external relations policies;  
- Stakeholder capacities to define and implement education sector reform strengthened and awareness raised on relevant EU experience;  
- Sector analysis, programming and project support adopted in IPA assistance;  
- Stakeholders from education sector, social partners and civil society actively engaged in education reform process. |
| 4. Supporting the European Commission and partner country policy development through innovation and learning | - Capacity in information, analysis, and policy analysis and advice built in partner countries;  
- Approaches to stakeholder capacity building developed and implemented  
- Information exchange capacities among international organisations and donors engaged in HRD in partner countries developed;  
- Methodologies for sector policy and programming input to Community assistance programmes in relevant fields developed and piloted;  
- Appropriate policy lessons from EU and other relevant contexts for dissemination in/among partner countries captured and assessed. |
5.3.4 Deliverables

In general the definition of deliverables in the table below is based on the expected functions proposed by the Commission in COM(2006)832 final and on the experience in reform support developed by the ETF in the period 2000-06. However, the complexity and cost will evolve with the recast regulation.

5.4. Method of Implementation (indicative)

- **Centralised Management**
  - directly by the Commission
  - indirectly by delegation to:
    - executive Agencies
    - bodies set up by the Communities as referred to in art. 185 of the Financial Regulation
6. MONITORING AND EVALUATION

6.1. Monitoring system

The ETF has put in place a Monitoring and Evaluation Policy and a results based management system to measure performance against its stated objectives, expected results and resource allocations. The ETF has set indicators at corporate, activity and project levels within its annual work programme. Under the recast regulation, the ETF will increasingly include measurement of input and output against the revised functions proposed by the Commission.

In addition, the ETF has a system to assess its performance and impact at a project and country level, as well as auditing its internal control system. The ETF invests 10% of its Title III funds to evaluate and audit its performance with the support of external experts.

6.2. Evaluation

6.2.1. Ex-ante evaluation

Ex-ante evaluations carried out by the Commission in accordance with Article 25(4) of the General Financial Regulation.

6.2.2. Measures taken following an intermediate/ex-post evaluation (lessons learned from similar experiences in the past)

Ex-post evaluations carried out by the Commission in accordance with Article 25(4) of the General Financial Regulation, with the assistance of external evaluators.

6.2.3. Terms and frequency of future evaluation

The proposal provides for an ex-post evaluation at least every four years.

7. ANTI-FRAUD MEASURES

The ETF is subject to control by the Internal Audit Service and the European Court of Auditors. Since 2006, the ETF has also established its internal audit capability.
8. DETAILS OF RESOURCES

8.1. Objectives of the proposal in terms of their financial cost

The table in annex is based on the following assumptions:

– Continuity in the allocation of ETF resources according to Community external relations priorities and ongoing development as a centre of expertise:
  – IPA 32.5%
  – ENPI 32.5%
  – DCI 15%\(^{34}\)
  – Innovation and learning 20%\(^{35}\)

– The ETF will concentrate its activities in partner countries where the Community is actively investing in HRD and where the preconditions for reform are in place (a stable institutional environment and a commitment to education reform).

– Based on the external evaluation report, ETF experience and the planning assumptions in the MTP, the ETF’s main functions are the provision of policy analysis and advice and input to Community assistance. The capacity building, dissemination, information exchange and evaluation of training assistance contribute to these. The ETF’s proposed distribution of resources is as follows:
  – 20% education policy analysis and support
  – 24% partner country policy capacity building;
  – 39% input to Commission sector programming and project cycle;
  – 10% dissemination and networking;
  – 3.5% information exchange among donors and international organisations;
  – 3.5% evaluation of training assistance.

\(^{34}\) Represents a slight increase compared to the allocation in the ETF MTP 2007-10 in view of Community Central Asia initiative

\(^{35}\) Innovation and learning investment is key for adapting ETF capacity to the recast regulation
The actual distribution of resources will be driven by changes in the ETF’s operational environment, evolving EU priorities and the specific Commission requests.

- The breakdown of ETF activity based budget costs whereby 70% of the subvention is invested in operational activities, and 30% in overhead costs. Title III represents some 15% of ETF resources.
