Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

amending Council Regulation (EC) No 3/2008 on information provision and promotion measures for agricultural products on the internal market and in third countries
EXPLANATORY MEMORANDUM

1. CONTEXT OF THE PROPOSAL

Articles 290 and 291 of the Treaty on the Functioning of the European Union (TFEU) distinguish two different types of Commission acts:

Article 290 of the TFEU allows the legislator to delegate to the Commission the power to adopt non-legislative acts of general application to supplement or amend certain non-essential elements of a legislative act. Legal acts adopted by the Commission in this way are referred to in the terminology used by the Treaty as "delegated acts" (Article 290(3)).

Article 291 of the TFEU allows Member States to adopt all measures of national law necessary to implement legally binding Union acts. Those acts can confer implementing powers on the Commission where uniform conditions for implementing them are needed. Legal acts adopted by the Commission in this way are referred to in the terminology used by the Treaty as "implementing acts" (Article 291(4)).

The objective of the present proposal consists in aligning Council Regulation (EC) No 3/2008 of 17 December 2007 on information provision and promotion measures for agricultural products on the internal market and third countries with those provisions of the TFEU.

Under the present proposal, the objectives and principles and other essential elements of the policy on information provision and promotion measures for agricultural products on the internal market and in third countries are determined by the Legislator. Thus, the objectives of that particular policy and the principles of strategic approach, programming, complementarity, consistency and conformity with other policies of the Union are fixed by the Legislator. Similarly, the Legislator lays down the principles of partnership, subsidiarity and equality between men and women and non-discrimination.

The Commission should by means of delegated acts determine what is meant by an information and promotion programme (Article 1(1)). Similarly, the Commission shall adopt delegated acts to determine the characteristics with which information and promotion messages for programmes must comply in order to enhance the objectiveness of these messages as well as to protect consumers (Article 1(3)). In addition, the Commission shall draw up lists of the themes, products and third countries that may be covered by these measures (Article 4). It shall also adopt rules for information and promotion programmes (Article 5). Furthermore, it shall adopt detailed rules regarding programmes to be implemented in third countries in collaboration with international organisations in order to ensure their smooth running (Article 6). In order to ensure the most efficient use of Union funding, it may also define further priorities for the selection of programmes in addition to those already laid down by the Legislator (Article 8(1)).

Furthermore, the Legislator should grant the Commission the power to adopt implementing acts in accordance with Article 291 (2) of the Treaty, as regards the uniform conditions for the pre-selection of programmes by the Member States (Article 7) and their selection by the Commission (Article 8), the procedure in case of an absence of programmes (Article 9), the

---

approval of implementing bodies (Article 11(4)), the use of material and the monitoring of programmes (Article 12(3)), the financing modalities of the programmes, the conclusion of contracts for the implementation of the programmes, the provision of securities, the payment modalities and the recovery of undue payments, the modalities of checks and penalties (Article 13(9)).

Finally, some of the powers that have so far been exercised by the Commission under the powers conferred on it by Regulation (EC) No 3/2008 have been considered of such importance that they should be incorporated into that Regulation. This regards (i) the exclusion from support under Regulation (EC) No 3/2008 of information and promotion measures on the internal market receiving support under Council Regulation (EC) No 1698/2005 on support for rural development in order to eliminate the risk of double financing (cf. Article 15[2] of Commission Regulation (EC) No 501/2008); (ii) the principles that, in order to ensure the sound management of the Union's budget, proposing organisations should lodge securities in guarantee of a proper implementation of the programmes (cf. Article 16[3] of Regulation (EC) No 501/2008) and that (iii) they are liable to penalties if they fail to fulfil their obligations (cf. Article 27 of Regulation (EC) No 501/2008).

2. RESULTS OF CONSULTATIONS WITH THE INTERESTED PARTIES AND IMPACT ASSESSMENTS

There was no need for consultation of interested parties or for an impact analysis since the proposal to align Council Regulation (EC) No 3/2008 with the TFEU is an inter-institutional matter that will concern all Council Regulations.

3. LEGAL ELEMENTS OF THE PROPOSAL

- Summary of the Proposal

Identify the delegated and implementing powers of the Commission in Council Regulation (EC) No 3/2008 and establish the corresponding procedure for the adoption of these acts.

Incorporate to Regulation (EC) No 3/2008 some of the powers that have so far been exercised by the Commission.

- Legal basis

Articles 42 and 43 of the Treaty on the Functioning of the European Union.

- The principle of subsidiarity

The EU promotion and information policy usefully supplements and reinforces the schemes run by Member States by boosting product image in the eyes of consumers in the EU and in third countries, in particular as regards the quality, nutritional value and safety of foodstuffs and the methods of production. By helping to open up new

2 OJ L 147, 6.6.2008, p. 3
markets in third countries, such action is also likely to have a multiplier effect on national and private initiatives.

The proposal falls under shared competence between the EU and the Member States and complies with the subsidiarity principle.

- The proportionality principle

Due to the increasing liberalisation of trade, including trade in agricultural and food products, the trade exchange between EU Member States and third countries becomes more and more important. At the same time, the support offered to EU producers competing in EU and global markets with non EU producers has been limited (e.g. export refunds). The regulation on information provision and promotion measures for agricultural products on the internal market and in third countries is therefore a crucial instrument that is consistent with the new framework of the WTO Agreement on agriculture.

It also naturally falls to the EU to promote the high quality standards of EU agricultural products and to encourage joint promotional programmes involving more than one EU country or more than one agricultural sector.

The proposal complies with the proportionality principle.

- Choice of legal instrument

Proposed instrument: Regulation of the European Parliament and of the Council

4. **BUDGETARY IMPLICATIONS**

The proposal has no impact on budgetary expenditure.

5. **OPTIONAL ELEMENTS**

There are no optional elements.
Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

amending Council Regulation (EC) No 3/2008 on information provision and promotion measures for agricultural products on the internal market and in third countries

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular the first subparagraph of Article 42 and Article 43(2) thereof,

Having regard to the proposal from the European Commission3,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee4,

Acting in accordance with the ordinary legislative procedure5,

Whereas:

(2) As a consequence of the entry into force of the Lisbon Treaty, the powers conferred under Regulation (EC) No 3/2008 upon the Commission need to be aligned with Articles 290 and 291 of the Treaty on the Functioning of the European Union (the Treaty).

(3) In order to ensure the consistency and effectiveness of the measures provided for in Regulation (EC) No 3/2008, as well as their sound management and the most efficient use of Union funding, the power to adopt acts in accordance with Article 290 of the Treaty should be delegated to the Commission in respect of the definition of an information and promotion programme, the determination of the characteristics with which information and promotion messages must comply, the drawing up of lists of the themes, products and third countries that may be covered by these measures, the adoption of rules defining the strategy for information and promotion programmes, the adoption of detailed rules regarding programmes to be implemented in third countries in collaboration with international organisations and the definition of further priorities for the selection of programmes in addition to those already laid down by Regulation

(EC) No 3/2008. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level. The Commission, when preparing and drawing-up delegated acts, should ensure a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and Council.

(4) In order to ensure uniform conditions for the implementation of Regulation (EC) No 3/2008, implementing powers should be conferred on the Commission. Those powers should be exercised in accordance with the provisions of Regulation (EU) No 182/2011 of the European Parliament and the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by Member States of the Commission’s exercise of implementing powers.

(5) Some of the powers that have so far been exercised by the Commission under the powers conferred on it by Regulation (EC) No 3/2008 are considered of such importance that they should be incorporated into that Regulation. This regards (i) the exclusion from support under Regulation (EC) No 3/2008 of information and promotion measures receiving support under other Union schemes that could entail the risk of double financing; (ii) the principle that proposing organisations should lodge securities in guarantee of a proper implementation of the programmes; and (iii) the principle that, in order to ensure the sound management of the Union's budget, these proposing organisations are liable to penalties if they fail to fulfil their obligations.

(6) Regulation (EC) No 3/2008 should therefore be amended accordingly,

HAVE ADOPTED THIS REGULATION:
