THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Articles 36, 37 and 299(2) thereof,

Having regard to the proposal from the Commission,
Having regard to the Opinion of the European Parliament (1),

Having regard to the Opinion of the European Economic and Social Committee (2),

Having regard to the Opinion of the Committee of the Regions (3),

Whereas:

(1) Common conditions should be established for direct payments under the various income support schemes in the framework of the common agricultural policy.

(2) The full payment of direct aid should be linked to compliance with rules relating to agricultural land, agricultural production and activity. Those rules should serve to incorporate in the common market organisations basic standards for the environment, food safety, animal health and welfare and good agricultural and environmental condition. If those basic standards are not met, Member States should withdraw direct aid in whole or in part on the basis of criteria which are proportionate, objective and graduated. Such withdrawal should be without prejudice to sanctions laid down now or in the future under other provisions of Community or national law.

(3) In order to avoid the abandonment of agricultural land and ensure that it is maintained in good agricultural and environmental condition, standards should be established which may or may not have a basis in provisions of the Member States. It is therefore appropriate to establish a Community framework within which Member States may adopt standards taking account of the specific characteristics of the areas concerned, including soil and climatic conditions and existing farming systems (land use, crop rotation, farming practices) and farm structures.

(4) Since permanent pasture has a positive environmental effect, it is appropriate to adopt measures to encourage the maintenance of existing permanent pasture to avoid a massive conversion into arable land.

(5) In order to achieve a better balance between policy tools designed to promote sustainable agriculture and those designed to promote rural development, a system of progressive reduction of direct payments should be introduced on a compulsory Community-wide basis for the years 2005 to 2012. All direct payments, beyond certain amounts, should be reduced by a certain percentage each year. The savings made should be used to finance measures under the rural development and allocated between Member States according to objective criteria to be defined. However, it is appropriate to establish that a certain percentage of the amounts should remain in the Member States where they have been generated. Until 2005, Member States may continue to apply the current modulation on an optional basis under Council Regulation (EC) No 1259/1999 of 17 May 1999 establishing common rules for direct support schemes under the common agricultural policy (4).

(6) With a view to ensure that the amounts for the financing of the common agricultural policy (subheading 1a) respect the annual ceilings set in the financial perspectives, it is appropriate to provide for a financial mechanism to adjust, where necessary, the direct payments. An adjustment of direct support should be fixed when the forecasts indicate that the subheading 1a, with a security margin of EUR 300 million, is exceeded in a given budget year.

---

(2) OJ C 208, 3.9.2003, p. 64.
(3) Opinion delivered on 2 July 2003 (not yet published in the Official Journal).
(7) In view of the structure adjustments resulting from the abolition of rye intervention, it is appropriate to provide for transitional measures for certain rye production regions financed with part of the amounts generated by modulation.

(8) In order to help farmers to meet the standards of modern, high-quality agriculture, it is necessary that Member States establish a comprehensive system offering advice to commercial farms. The farm advisory system should help farmers to become more aware of material flows and on-farm processes relating to the environment, food safety, animal health and welfare without in any way affecting their obligation and responsibility to respect those standards.

(9) In order to facilitate the introduction of the farm advisory system, it should be provided for a time-period for Member States to set up the system. Entry into the system should be on a voluntary basis for farmers with a priority for those who receive more than a certain amount per year in direct payments. Due to its nature of affording advice to farmers, it is appropriate for the information obtained in the course of the advisory activity to be treated as confidential, except in case of serious infringements of Community or national law.

(10) Member States must, in accordance with Article 8 of Council Regulation (EC) No 1258/1999 of 17 May 1999 on the financing of the common agricultural policy (1), take the measures necessary to satisfy themselves that transactions financed by the ‘Guarantee’ Section of the European Agricultural Guidance and Guarantee Fund (EAGGF) are actually carried out and are executed correctly, and prevent and deal with irregularities.

(11) In order to improve the effectiveness and usefulness of the administration and control mechanisms, it is necessary to adapt the system established by Council Regulation (EEC) No 3508/92 of 27 November 1992 establishing an integrated administration and control system for certain Community aid schemes (2) with a view to including the single payment scheme, the support schemes for durum wheat, protein crops, energy crops, rice, potato starch, nuts, milk, seed, grain legumes and specific regional aids as well as controls on the application of the rules on cross compliance, modulation and the farm advisory system. Provision should be made for the possibility of including, at a later stage, other aid schemes.

(12) For the sake of effective control and to prevent the submission of multiple aid applications to different paying agencies within one Member State, each Member State should set up a single system to record the identity of farmers submitting aid applications subject to the integrated system.

(13) The various components of the integrated system are aimed at a more effective administration and control. Therefore, in the case of Community schemes not covered by this Regulation, the Member States should be authorised to avail themselves of the system, on condition they do not in any way act contrary to the provisions concerned.

(14) Given the complexity of the system and the large number of aid applications to be processed, it is essential to use the appropriate technical resources and administration and control methods. As a result, the integrated system should comprise, in each Member State, a computerised data base, an identification system for agricultural parcels, aid applications from farmers, a harmonised

control system and, in the single payment scheme, a system for the identification and recording of payment entitlements.

(15) To enable the data collected to be processed and used for the verification of aid applications, it is necessary to set up high-performance computerised data bases which make it possible in particular to carry out cross-checks.

(16) The identification of agricultural parcels is a key element in the correct application of schemes linked to surface area. Experience has shown that the existing methods have certain deficiencies. Therefore, provision should be made for an identification system to be set up, where necessary, with the aid of remote sensing.

(17) For the sake of simplification, Member States should be authorised to make provision for the submission of a single application for several aid schemes and to replace the annual application by a permanent application subject only to annual confirmation.

(18) Member States should be enabled to use amounts which become available as a result of payment reductions under modulation for certain additional measures in the framework of rural development support provided for under Council Regulation (EC) No 1257/1999 of 17 May 1999 on support for rural development from the European Agricultural Guidance and Guarantee Fund (EAGGF) (1).

(19) Since the amounts which will become available as a result of cross compliance are not foreseeable sufficiently far ahead to be used for additional measures in the framework of rural development support, those amounts should be credited to the EAGGF ‘Guarantee’ Section, except for a certain percentage which should be retained by the Member States.

(20) Payments provided for under Community support schemes should be made by the competent national authorities to beneficiaries in full, subject to any reductions provided for in this Regulation, and within prescribed periods.

(21) The support schemes under the common agricultural policy provide for direct income support in particular with a view to ensuring a fair standard of living for the agricultural community. This objective is closely related to the maintenance of rural areas. In order to avoid misallocations of Community funds, no support payments should be made to farmers who have artificially created the conditions required to obtain such payments.

(22) Common support schemes have to be adapted to developments, if necessary within short time limits. Beneficiaries cannot, therefore, rely on support conditions remaining unchanged and should be prepared for a possible review of schemes in the light of market developments.

(23) In view of the significant budgetary implications of direct payment support and in order to better appraise their impact, Community schemes should be subject to a proper evaluation.

(24) Enhancing the competitiveness of Community agriculture and promoting food quality and environment standards necessarily entail a drop in institutional prices for agricultural products and an increase in the costs of production for agricultural holdings in the Community. To achieve those aims and promote more market-oriented and sustainable agriculture, it is necessary to complete the shift from production support to producer support by introducing a system of decoupled income support for each farm. While decoupling will leave the actual amounts paid to

farmers unchanged, it will significantly increase the effectiveness of the income aid. It is, therefore, appropriate to make the single farm payment conditional upon cross-compliance with environmental, food safety, animal health and welfare, as well as the maintenance of the farm in good agricultural and environmental condition.

(25) Such a system should combine a number of existing direct payments received by a farmer from various schemes in a single payment, determined on the basis of previous entitlements, within a reference period, adjusted to take into account the full implementation of measures introduced in the framework of Agenda 2000 and of the changes to the amounts of aid made by this Regulation.

(26) Since the benefits in terms of administrative simplification will increase if many sectors are included the scheme should, in a first stage, cover all products included in the arable crops regime as well as grain legumes, seeds, beef and sheep. The revised payments for rice and durum wheat as well as the payment in the milk sector once the reform is fully implemented, should also be integrated into the scheme. Payments for starch potatoes and dried fodder should also be included in the scheme, while separate payments for the processing industry should be maintained.

(27) Specific measures should be laid down for hemp, to ensure that illegal crops cannot be hidden among the crops eligible for the single payment, thereby adversely affecting the common market organisation for hemp. Provision should therefore be made for area payments to be granted only for areas sown to varieties of hemp offering certain guarantees with regard to the psychotropic substance content. The references to the specific measures provided for by Council Regulation (EC) No 1673/2000 of 27 July 2000 on the common organisation of the markets in flax and hemp grown for fibre (1) should be adapted accordingly.

(28) In order to leave farmers free to choose what to produce on their land, including products which are still under coupled support, thus increasing market orientation, the single payment should not be conditional on production of any specific product. However, in order to avoid distortions of competition some products should be excluded from production on eligible land.

(29) In order to establish the amount to which a farmer should be entitled under the new scheme, it is appropriate to refer to the amounts granted to him during a reference period. To take account of specific situations, a national reserve should be established. That reserve may also be used to facilitate the participation of new farmers in the scheme. The single payment should be established at farm level.

(30) The overall amount to which a farm is entitled should be split into parts (payment entitlements) and linked to a certain number of eligible hectares to be defined, in order to facilitate transfer of the premium rights. To avoid speculative transfers leading to the accumulation of payment entitlements without a corresponding agricultural basis, in granting aid, it is appropriate to provide for a link between entitlements and a certain number of eligible hectares, as well as the possibility of limiting the transfer of entitlements within a region. Specific provisions should be laid down for aid not directly linked to an area taking into account the peculiar situation of sheep and goat rearing.

(31) To ensure that the total level of support and entitlements do not exceed current budgetary constraints at Community or national level and, where applicable, at regional level, it is appropriate to

---

provide for national ceilings calculated as the sum of all funds granted in each Member State for the payment of aids under the relevant support schemes, during the reference period and taking into account later adjustments. Proportional reductions should be applicable if the ceiling is overshot.

(32) In order to maintain the supply control benefits of set-aside, while reinforcing its environmental benefits under the new system of support, the set-aside conditions for arable land should be maintained.

(33) In order to allow flexibility to respond to specific situations, Member States should have the option to define a certain balance between individual payment entitlements and regional or national averages and between existing payments and the single payment. A specific derogation to the prohibition on cultivating fruits and vegetables including table potatoes should be provided for avoiding that in case of regionalisation this does not lead to a disruption of the production whilst minimizing any effect on distortion of competition. Moreover, in order to take into account its agricultural specific conditions, it is appropriate to provide for the possibility for a Member State to ask for a transitional period to implement the single payment scheme while continuing to respect the budgetary ceilings fixed for the single payment scheme. In case of severe distortions of competition during the transitional period and in order to ensure the respect of the Community international obligations, it is appropriate that the Commission can take the necessary measures to cope with such situations.

(34) In case of optional or transitional implementation, in order to protect the legitimate expectations of farmers, it is appropriate to fix a date before which Member States have to take their decision to apply the single payment scheme. Moreover, to ensure the continuation of the current regimes, certain conditions for entitlement to aid should be established, leaving to the Commission the powers to lay down the implementing rules.

(35) In order to maintain the role of durum wheat production in traditional production area while strengthening the granting of the aid to durum wheat respecting certain minimum quality requirements, it is appropriate to reduce, over a transitional period, the current specific supplement for durum wheat in traditional areas and to abolish the special aid in established areas. Only cultivation which produces durum wheat suitable for use in the manufacture of semolina and pasta products should be eligible for that aid.

(36) In order to strengthen the role of protein-rich crops and to provide an incentive to increase the production of these crops, it is appropriate to provide for a supplementary payment for farmers producing these crops. To ensure a correct application of the new scheme, certain conditions for entitlement to aid should be established. A maximum guaranteed area should be prescribed and proportional reductions applied if the maximum guaranteed area is exceeded.

(37) In order to maintain the role of rice production in traditional production areas, it is appropriate to provide for a supplementary payment for rice producers. To ensure a correct application of the new scheme, certain conditions for entitlement to aid should be established. National base areas should be established and reductions applied if the areas are exceeded.

(38) New support arrangements for nuts should be established to avoid the potential disappearance of nut production in traditional areas and the subsequent negative environmental, rural, social and economic consequences. To ensure a correct application of the new arrangements, certain conditions for entitlement to aid should be established, including a minimum tree density and plot size. In
order to cater for specific needs, Member States should be entitled to provide additional aid.

(39) To avoid budgetary overshoot, a maximum guaranteed area should be prescribed and proportional reductions applied if the maximum guaranteed area is exceeded, concentrated in Member States which overshoot their area. To ensure balanced application throughout the Community, this area should be allocated in proportion to areas of nut production in Member States. The Member States should be responsible for allocating the areas within their territory. Areas subject to improvement plans should not be eligible for aid under the new scheme until the plan has expired.

(40) In order to capitalise on the success of improvement plans in regrouping supply, Member States may make entitlement to Community aid and national aid conditional on membership of producer organisations. To avoid disruption, a smooth transition must be ensured to the new scheme.

(41) Currently, support for energy crops consists of the possibility to grow industrial crops on set-aside land. Energy crops account for the largest amount of non-food production on set-aside land. Specific aid for energy crops with the objective of increasing carbon dioxide substitution should be established. A maximum guaranteed area should be prescribed and proportional reductions applied if the maximum guaranteed area is exceeded. The arrangements should be reviewed after a prescribed period taking into account the implementation of the Community biofuels initiative.

(42) In order to maintain starch production in traditional areas of production and to recognise the role of potato production in the agronomic cycle, it is appropriate to provide for a supplementary payment for potato starch producers. Moreover, in so far as the payment system for starch potato producers is to be partially included in the single payment scheme, Council Regulation (EC) No 1868/94 of 27 July 1994 establishing a quota system in relation to the production of potato starch (¹) should be amended.

(43) The inclusion of arable crops, beef and sheep extends the single payment scheme to premiums which are paid in the outermost regions and Aegean islands, in order to achieve further simplification and to avoid leaving in place a legal and administrative framework for a limited number of farmers in those areas. However, in order to maintain the role of certain type of production in these regions of the Community, it is appropriate to provide that Member States may decide that they need not include those payments in the single payment scheme. The same possibility should apply to the supplementary payments in certain regions of Sweden and Finland as well as to seed aid. In this cases, the continuation of the current regimes requires that certain conditions for entitlement to aid shall be established, leaving to the Commission the powers to lay down the implementing rules.

(44) In order to facilitate the transition between the current regimes for arable crops payments and livestock premiums and the new single payment scheme, it is appropriate to provide for some adaptations to the current direct payments in those sectors.

(45) Agricultural activity in the Azores is highly dependent on milk production. It thus is advisable to renew and extend the measures taken in Article 23 of Regulation (EC) No 1453/2001 of 28 June 2001 introducing specific measures for certain agricultural

products for the Azores and Madeira (1) and to derogate for a period of six marketing years in total beginning in 1999/2000 from certain provisions of the common market organisation for milk and milk products as regard of limitation of production in order to take account of the level of development of and the conditions for local production. Over the period of its application, this measure should enable the sector in the Azores to continue being restructured without interfering with the milk market and without appreciably affecting the sound working of the levy scheme at Portuguese or Community level.

(46) The application of the single farm payment scheme will de facto imply that the conversion programme of land currently under arable crops to extensive livestock farming in Portugal laid down in Regulation (EC) No 1017/94 (2) becomes without object. Regulation (EC) No 1017/94 should therefore be repealed by the entry into force of the single payment scheme.

(47) As a result of the aforementioned changes and new provisions, Council Regulations (EEC) No 3508/92, (EC) No 1577/96 of 30 July 1996 introducing a specific measure in respect of certain grain legumes (3) and (EC) No 1251/1999 of 17 May 1999 establishing a support system for producers of certain arable crops (4) should be repealed. Regulation (EC) No 1259/1999 should also be repealed, except some provisions which provide for specific temporary and optional regimes.

(49) At the time of entry into force of this regulation, the Community consists of 15 Member States. Taking into account the fact that, according to the Treaty of Accession of 2003, the accession of the new Member States is to take place on 1 May 2004, this Regulation should be adapted, by the date of accession, according to the procedures provided for by that Treaty, in order to make it applicable to the new Member States.

HAS ADOPTED THIS REGULATION:

TITLE I

SCOPE AND DEFINITIONS

Article 1

Scope

This Regulation establishes:

— ►C1 common rules on direct payments under income support schemes in the framework of the common agricultural policy which are financed by the ‘Guarantee’ Section of the European Agricultural Guidance and Guarantee Fund (EAGGF) listed in Annex I, except those provided for under Regulation (EC) No 1257/1999 ◄;

— an income support for farmers (hereinafter referred to as the ‘single payment scheme’);

►A1 a transitional simplified income support for farmers in the new Member States (hereinafter referred to as the ‘single area payment scheme’);

►M3 support schemes for farmers producing durum wheat, protein crops, rice, nuts, energy crops, starch potatoes, milk, seeds, arable crops, sheep meat and goat meat, beef and veal, grain legumes, cotton, tobacco, hops, as well as for farmers maintaining olive groves.

Article 2

Definitions

For the purposes of this Regulation, the following definitions shall apply:

(a) ‘farmer’ means a natural or legal person, or a group of natural or legal persons, whatever legal status is granted to the group and its members by national law, whose holding is situated within Community territory, as referred to in Article 299 of the Treaty, and who exercises an agricultural activity;

(b) ‘holding’ means all the production units managed by a farmer situated within the territory of the same Member State,

(c) ‘agricultural activity’ means the production, rearing or growing of agricultural products including harvesting, milking, breeding animals and keeping animals for farming purposes, or maintaining the land in good agricultural and environmental condition as established under Article 5,

(d) ‘direct payment’ means a payment granted directly to farmers under an income support scheme listed in Annex I,

(e) ‘payments in a given calendar year’ or ‘payments in the reference period’ means the payments granted or to be granted in respect of the year/years concerned, including all payments in respect of other periods starting in that calendar year/years,

(f) ‘agricultural products’ means the products listed in Annex I of the Treaty, including cotton, but with the exception of fishery products,

(g) ‘new Member States’ means Bulgaria, the Czech Republic, Estonia, Cyprus, Latvia, Lithuania, Hungary, Malta, Poland, Romania, Slovenia and Slovakia.

TITLE II

GENERAL PROVISIONS

CHAPTER 1

CROSS COMPLIANCE

Article 3

Main requirements

1. A farmer receiving direct payments shall respect the statutory management requirements referred to in Annex III, according to the timetable fixed in that Annex, and the good agricultural and environmental condition established under Article 5.

2. The competent national authority shall provide the farmer with the list of statutory management requirements and good agricultural and environmental condition to be respected.

Article 4

Statutory management requirements

1. The statutory management requirements referred to in Annex III shall be established by Community legislation in the following areas:

— public, animal and plant health,
— environment,
— animal welfare.

2. The acts referred to in Annex III shall apply within the framework of this Regulation in the version as amended from time to time and, in case of Directives, as implemented by the Member States.

Article 5

Good agricultural and environmental condition

1. Member States shall ensure that all agricultural land, especially land which is no longer used for production purposes, is maintained in good agricultural and environmental condition. Member States shall define, at national or regional level, minimum requirements for good agricultural and environmental condition on the basis of the framework set up in Annex IV, taking into account the specific characteristics of the areas concerned, including soil and climatic condition, existing farming systems, land use, crop rotation, farming practices, and farm structures. This is without prejudice to the standards governing good agricultural practices as applied in the context of Council Regulation (EC) No 1257/1999 and to agri-environment measures applied above the reference level of good agricultural practices.

2. Member States shall ensure that land which was under permanent pasture at the date provided for the area aid applications for 2003 is maintained under permanent pasture. \( \Rightarrow M2 \) The new Member States shall ensure that land which was under permanent pasture on 1 May 2004 is maintained under permanent pasture. \( \Rightarrow A2 \) However,
Bulgaria and Romania shall ensure that land which was under permanent pasture on 1 January 2007 is maintained under permanent pasture. However a Member State may, in duly justified circumstances, derogate from the first subparagraph, provided that it takes action to prevent any significant decrease in its total permanent pasture area.

The first subparagraph shall not apply to land under permanent pasture to be afforested, if such afforestation is compatible with the environment and with the exclusion of plantations of Christmas trees and fast growing species cultivated in the short term.

Article 6
Reduction or exclusion from payments

1. Where the statutory management requirements or good agricultural and environmental conditions are not complied with at any time in a given calendar year (hereinafter ‘the calendar year concerned’), and the non-compliance in question is the result of an act or omission directly attributable to the farmer who submitted the aid application in the calendar year concerned, the total amount of direct payments to be granted, after application of Articles 10 and 11 to that farmer, shall be reduced or cancelled in accordance with the detailed rules laid down under Article 7.

The first subparagraph shall also apply where, the non-compliance in question is the result of an act or omission directly attributable to the person to whom or from whom the agricultural land was transferred.

For the purposes of application of the first and second subparagraphs for the year 2008, the calendar year shall correspond to the period of 1 April to 31 December 2008.

For the purpose of this paragraph ‘transfer’ means any type of transaction whereby the agricultural land ceases to be at the disposal of the transferor.

2. The reductions or exclusions referred to in paragraph 1 shall only apply if the non-compliance relates to:
   (a) an agricultural activity, or
   (b) an agricultural land of the holding, including the parcels on set aside.

3. Notwithstanding paragraph 1 and in accordance with the conditions laid down in the detailed rules referred to in Article 7(1), Member States may decide not to apply a reduction or exclusion amounting to EUR 100 or less per farmer and per calendar year.

Where a Member State decides to make use of the option provided for in the first subparagraph, in the following year the competent authority shall take the actions required to ensure that the farmer remedies the findings of non-compliance concerned. The finding and the remedial action to be taken shall be notified to the farmer.

Article 7
Detailed rules for reduction or exclusion

1. Detailed rules for the reductions and exclusions referred to in Article 6 shall be laid down in accordance with the procedure referred to in Article 144(2). In this context, account shall be taken of the severity, extent, permanence and repetition of the non-compliance
found as well as of the criteria set out in paragraphs 2, 3 and 4 of this Article.

2. In case of negligence, the percentage of reduction shall not exceed 5% and, in case of repeated non-compliance, 15%.

In duly justified cases Member States may decide that no reduction shall be applied where, given its severity, extent and permanence, a case of non-compliance is to be considered as minor. Cases of non-compliance which constitute a direct risk to public or animal health shall however not be considered as minor.

Unless the farmer has taken immediate remedial action putting an end to the non-compliance found, the competent authority shall take the actions required that may, where appropriate, be limited to an administrative check, to ensure that the farmer remedies the findings of non-compliance concerned. The finding of minor non-compliance and the remedial action to be taken shall be notified to the farmer.

3. In case of intentional non-compliance, the percentage of reduction shall not in principle be less than 20% and may go as far as total exclusion from one or several aid schemes and apply for one or more calendar years.

4. In any case, the total amount of reductions and exclusions for one calendar year shall not be more than the total amount referred to in Article 6(1).

**Article 8**

**Review**

By 31 December 2007 at the latest, the Commission shall submit a report on the application of the system of cross compliance accompanied, if necessary, by appropriate proposals notably with the view of amending the list of statutory management requirements set out in Annex III.

**Article 9**

**Amounts resulting from cross compliance**

The amount resulting from the application of this Chapter shall be credited to the EAGGF ‘Guarantee’ Section. Member State may retain 25% of those amounts.

**CHAPTER 2**

**MODULATION AND FINANCIAL DISCIPLINE**

**Article 10**

**Modulation**

1. All the amounts of direct payments to be granted in a given calendar year to a farmer in a given Member State shall be reduced for each year until 2012 by the following percentages:

   — 2005: 3%,
   — 2006: 4%,
   — 2007: 5%,
   — 2008: 5%,
   — 2009: 5%,
   — 2010: 5%,
2. The amounts resulting from application of the reductions provided for in paragraph 1, after deducting the total amounts referred to in Annex II, shall be available as additional Community support for measures under rural development programming financed under the EAGGF ‘Guarantee’ Section according to Regulation (EC) No 1257/1999.

3. The amount corresponding to one percentage point shall be allocated to the Member State where the corresponding amounts have been generated. The remaining amounts shall be allocated to the Member States concerned in accordance with the procedure referred to in Article 144(2) on the basis of the following criteria:

— agricultural area,
— agricultural employment,
— gross domestic product (GDP) per capita in purchasing power.

However, any Member State shall receive at least 80 % of the total amounts which the modulation has generated in that Member State.

4. By way of derogation from the second subparagraph of paragraph 3, if in a Member State the proportion of rye as part of its total cereal production exceeded 5 % on average during the period 2000-2002 and its proportion of the total Community production of rye exceeded 50 % during the same period, at least 90 % of the amounts which the modulation generated in the Member State concerned shall be reallocated to that Member State, until 2013 included.

In such a case, without prejudice to the possibility provided for by Article 69, at least 10 % of the amount allocated to the Member State concerned shall be available for measures referred to in paragraph 2 of this Article in rye producing regions.

For the purpose of this paragraph, ‘cereals’ mean the cereals referred to in Annex IX.

5. Paragraph 1 shall not apply to direct payments granted to farmers in the French overseas departments, in the Azores and Madeira, in the Canary and Aegean islands.

Article 11

Financial discipline

1. Starting with the 2007 budget, with a view to ensuring that the amounts for the financing of the common agricultural policy currently under subheading 1a (market measures and direct aids) respect the annual ceilings set out in the Decision of the Representatives of the Governments of the Member States, meeting within the Council on 18 November 2002, concerning the Conclusions of the European Council meeting in Brussels on 24 and 25 October 2002, an adjustment of the direct payments shall be fixed when the forecasts for the financing of the measures under subheading 1a for a given budget year, increased by the amounts given in Articles 143d and 143e and before application of modulation provided for in Article 10(2), indicate that the abovementioned annual ceiling, taking into account a margin of EUR 300 million below that ceiling, will be exceeded. This is without prejudice to the financial perspective for 2007 to 2013.

2. The Council, on a Commission's proposal presented not later than 31 March of the calendar year in respect of which the adjustments referred to in paragraph 1 apply, shall fix these adjustments at latest
Article 12

Additional amount of aid

1. An additional amount of aid shall be granted to farmers receiving direct payments under this Regulation.

The additional amount of aid shall be equal to the amount resulting from the application of the percentages of reduction for that calendar year under Article 10 to the first EUR 5 000 or less of direct payments.

2. The total additional amounts of aid which may be granted in a Member State in a calendar year shall not be higher than the ceilings set out in Annex II. Where necessary, Member States shall proceed to a linear percentage adjustment of additional amounts of aid in order to respect the ceilings set out in Annex II.

3. The additional amount of aid shall not be subject to the reductions referred to in Article 10.

4. Starting with the budget 2007, the Commission, in accordance with the procedure referred to in Article 144(2), shall review the ceilings set out in Annex II in order to take into account structural changes of the holdings.

5. For the new Member States, the ceilings referred to in paragraph 2 shall be fixed by the Commission in accordance with the procedure referred to in Article 144(2).

Article 12a

Application to new Member States

1. Articles 10 and 12 shall not apply to the new Member States until the beginning of the calendar year, in respect of which the level of direct payments applicable in the new Member States is at least equal to the then applicable level of such payments in the Community as constituted on 30 April 2004.

2. In the framework of the application of the schedule of increments provided for in Article 143a to all direct payments granted in the new Member States, Article 11 shall not apply to the new Member States until the beginning of the calendar year, in respect of which the level of direct payments applicable in the new Member States is at least equal to the then applicable level of such payments in the Community as constituted on 30 April 2004.

CHAPTER 3

FARM ADVISORY SYSTEM

Article 13

Farm advisory system

1. By 1 January 2007, Member States shall set up a system of advising farmers on land and farm management (hereinafter referred to as the ‘farm advisory system’) operated by one or more designated authorities or by private bodies.

2. The advisory activity shall cover at least the statutory management requirements and the good agricultural and environmental condition referred to in Chapter I.
Article 14

Conditions

1. Farmers may participate in the farm advisory system on a voluntary basis.

2. Member States shall give priority to the farmers who receive more than EUR 15 000 of direct payments per year.

Article 15

Obligations of approved private bodies and designated authorities

Without prejudice to national legislation concerning public access to documents, Member States shall ensure that private bodies and designated authorities referred to in Article 13 do not disclose personal or individual information and data they obtain in their advisory activity to persons other than the farmer managing the holding concerned, except any irregularity or infringement found during their activity which is covered by an obligation laid down in Community or national law to inform a public authority, in particular in case of criminal offences.

Article 16

Review

By 31 December 2010 at the latest, the Commission shall submit a report on the application of the farm advisory system, accompanied, if necessary, by appropriate proposals with a view of rendering it compulsory.

CHAPTER 4

INTEGRATED ADMINISTRATION AND CONTROL SYSTEM

Article 17

Scope

Each Member State shall set up an integrated administration and control system, hereinafter referred to as the ‘integrated system’.

The integrated system shall apply to the support schemes established under Titles III and IV of this Regulation and under Article 2a of Regulation (EC) No 1259/1999.

To the extent necessary, it shall also apply to the administration and control of the rules laid down in Chapters 1, 2 and 3.

Article 18

Elements of the integrated system

1. The integrated system shall comprise the following elements:
   (a) a computerised data base,
   (b) an identification system for agricultural parcels,
   (c) a system for the identification and registration of payment entitlements as referred to in Article 21,
   (d) aid applications,
   (e) an integrated control system,
   (f) a single system to record the identity of each farmer who submits an aid application.
2. In the event of Articles 67, 68, 69, 70 and 71 being applied, the integrated system shall incorporate a system for the identification and registration of animals set up in accordance, on the one hand, with Regulation (EC) No 1760/2000 of the European Parliament and of the Council of 17 July 2000 establishing a system for the identification and registration of bovine animals (1) and regarding the labelling of beef and beef products and, on the other hand, with Council Regulation (EC) No 21/2004 of 17 December 2003 establishing a system for the identification and registration of ovine and caprine animals (2).

**Article 19**

**Computerised data base**

1. The computerised data base shall record, for each agricultural holding, the data obtained from aid applications.

This data base shall, in particular, allow direct and immediate consultation, through the competent authority of the Member State, of the data relating to the calendar and/or marketing years starting from the year 2000 and, for aid granted under Chapter 10b of Title IV, from 1 May 1998.

2. The Member States may set up decentralised data bases on condition that these, and the administrative procedures for recording and accessing data, are designed homogeneously throughout the territory of the Member State and are compatible with one another in order to allow cross-checks.

**Article 20**

**Identification system for agricultural parcels**

1. The identification system for agricultural parcels shall be established on the basis of maps or land registry documents or other cartographic references. Use shall be made of computerised geographical information system techniques including preferably aerial or spatial orthoimagery, with a homogenous standard guaranteeing accuracy at least equivalent to cartography at a scale of 1:10000.

2. For the Member states applying the aid for olive groves provided for in Chapter 10b of Title IV, the identification system shall include a geographical information system for olive cultivation, consisting of a computerised alphanumerical database and a computerised graphical reference database for olive trees and areas concerned.

3. Member States not applying the aid for olive groves provided for in Chapter 10b of Title IV may decide to include the geographical information system for olive cultivation referred to in paragraph 2 in the identification system for agricultural parcels.

**Article 21**

**System for the identification and registration of payment entitlements**

1. The system for the identification and registration of payment entitlements shall be set up allowing verification of entitlements and cross-checks with the aid applications and the identification system for agricultural parcels.

2. This system shall allow direct and immediate consultation, through the competent authority of the Member State, of the data relating to at least the previous three consecutive calendar and/or marketing years.

**Article 22**

**Aid applications**

1. Each year, a farmer shall submit an application for direct payments subject to the integrated system, indicating, where applicable:
   — all agricultural parcels of the holding,
   — in the case of an application for the aid for olive groves provided for in Chapter 10b of Title IV, or where the Member State is applying the option referred to in Article 20(3), the number of olive trees and their positioning in the parcel,
   — the number and amount of payment entitlements,
   — any other information provided for by this Regulation or by the Member State concerned.

2. A Member State may decide that the aid application needs to contain only changes with respect to the aid application submitted the previous year. A Member State shall distribute pre-printed forms based on the areas determined in the previous year and supply graphic material indicating the location of those areas and, where appropriate, the positioning of olive trees.

3. A Member State may decide that a single aid application shall cover several or all support schemes listed in Annex I or other support schemes.

**Article 23**

**Verification of eligibility conditions**

1. Member States shall carry out administrative checks on the aid applications including a verification of the eligible area and the corresponding payment entitlements.

2. Administrative checks shall be supplemented by a system of on-the-spot checks to verify eligibility for the aid. For this purpose, Member States shall draw up a sampling plan of agricultural holdings. Member States may use remote sensing techniques as a means to carry out on-the-spot checks on agricultural parcels.

3. Each Member State shall designate an authority responsible for coordinating the checks provided for in this Chapter.

Where the Member State provides for the delegation of some aspects of the work to be carried out under this Chapter to specialised agencies or firms, the designated authority shall retain control over, and responsibility for, that work.

**Article 24**

**Reductions and exclusions**

1. Without prejudice to reductions and exclusions provided for in Article 6 of this Regulation, where it is found that the farmer does not comply with the eligibility conditions relevant to the granting of the aid as provided for in this Regulation or by Article 2a of Regulation (EC) No 1259/1999, the payment or part of the payment granted or to
be granted for which the conditions of eligibility have been meet shall be subject to reductions and exclusions to be laid down in accordance with the procedure referred to in Article 144(2) of this Regulation.

2. The percentage of reduction shall be graduated according to the severity, extent, permanence and repetition of the non-compliance found and may go as far as total exclusion from one or several aid schemes for one or more calendar years.

**Article 25**

**Controls on cross compliance**

1. Member States shall carry out on-the-spot-checks to verify whether the farmer complies with the obligations referred to in Chapter 1.

2. Member States may make use of their existing administration and control systems to ensure compliance with the statutory management requirements and good agricultural and environmental condition referred to in Chapter 1.

**Article 26**

**Compatibility**

For the purpose of applying the support schemes listed in Annex V, Member States shall ensure that the administration and control procedures applied to these schemes are compatible with the integrated system in the following respects:

(a) the computerised data base;

(b) the identification systems for agricultural parcels;

(c) administrative checks.

To this end, these systems shall be set up so as to allow, without any problems or conflicts, a common functioning of, or the exchange of data between, them.

Member States may, for the purposes of applying Community or national support schemes other than those listed in Annex V, incorporate in their administration and control procedures one or more components of the integrated system.

**Article 27**

**Information and checks**

1. The Commission shall be kept regularly informed of the application of the integrated system. It shall organise exchanges of views on this subject with the Member States.

2. After informing the competent authorities concerned in good time, authorised representatives appointed by the Commission may carry out:

— any examination or control relating to the measures taken in order to establish and to implement the integrated system,
— checks at the specialised agencies and firms referred to in Article 23(3).

 Officials of the Member State concerned may take part in such checks. The aforementioned powers to carry out checks shall not affect the application of national law provisions which reserve certain acts for officials specifically designated by national law. The authorised representatives appointed by the Commission shall in particular not participate in home visits to or the formal interrogation of suspects under the national law of the Member State. They shall, however, have access to the information obtained thereby.

 3. Without prejudice to the responsibilities of the Member States for the implementation and application of the integrated system, the Commission may seek the assistance of specialised bodies or persons in order to facilitate the establishment, monitoring and utilisation of the integrated system, in particular with a view to providing the competent authorities of the Member States with technical advice, should they request it.

CHAPTER 5

OTHER GENERAL PROVISIONS

Article 28

Payment

1. Save as otherwise provided for in this Regulation, payments under support schemes listed in Annex I shall be made in full to the beneficiaries.

2. Payments shall be made once a year within the period from 1 December to 30 June of the following calendar year.

However, the additional amount of aid provided for in Article 12 shall be paid by 30 September at the latest of the calendar year following the calendar year concerned.

3. By way of derogation from paragraph 2 of this Article and in accordance with the procedure referred to in Article 144(2), the Commission may:

(a) extend the date of payment for the payments provided for in Article 5(1) of Regulation 136/66/EEC of the Council of 22 September 1966 on the establishment of a common organisation of the market in oils and fats (1);

(b) provide for advances;

(c) authorise the Member States, subject to the budgetary situation, to pay prior to 1 December advances in regions where, due to exceptional conditions, farmers face severe financial difficulties:

— of up to 50 % of the payments,

or

— of up to 80 % of the payments in case advances have already been provided for.

Article 29

Restriction of payment

Without prejudice to any specific provisions in individual support schemes, no payment shall be made in favour of beneficiaries for

whom it is established that they artificially created the conditions required for obtaining such payments with a view to obtaining an advantage contrary to the objectives of that support scheme.

Article 30
Review
Support schemes listed in Annex I shall be applied without prejudice to possible review at any moment in the light of market developments and the budgetary situation.

Article 31
Evaluation
In order to gauge their effectiveness, payments under support schemes listed in Annex I shall be subject to evaluation designed to appraise their impact with respect to their objectives and to analyse their effects on the relevant markets.

Article 32
Interventions under Regulation (EC) No 1258/1999
The support schemes listed in Annex I shall be considered as ‘intervention’ as referred to in Article 1(2)(b) and Article 2(2) of Regulation (EC) No 1258/1999.

TITLE III
SINGLE PAYMENT SCHEME

CHAPTER 1
GENERAL PROVISIONS

Article 33
Eligibility
1. Farmers shall have access to the single payment scheme if:

(a) they have been granted a payment in the reference period referred to in Article 38 under at least one of the support schemes referred to in Annex VI or, in the case of olive oil, in the marketing years referred to in the second subparagraph of Article 37(1) or, in the case of sugar beet, cane and chicory, if they have benefited from market support in the representative period referred to in point K of Annex VII or, in the case of bananas, if they have benefited from compensation for loss of income in the representative period referred to in point L of Annex VII or, in the case of fruit and vegetables, if they were producers of fruit and vegetable products, ware potatoes and nurseries in the representative period applied by Member States for those products pursuant to point M of Annex VII or, in the case of wine, if they have received a payment entitlement as referred to in points N and O of Annex VII,

(b) they have received the holding or part of the holding, by way of actual or anticipated inheritance, by a farmer who met the conditions referred to in point (a), or

(c) they have received a payment entitlement from the national reserve or by transfer.

2. In case the farmer who has been granted a direct payment in the reference period changes his legal status or denomination in that period or not later than 31 December of the year preceding the year of appli-
cation of the single payment scheme, he shall have access to the single payment scheme under the same conditions as the farmer originally managing the holding.

3. In case of mergers during the reference period or not later than 31 December of the year preceding the year of application of the single payment scheme, the farmer managing the new holding shall have access to the single payment scheme under the same conditions as the farmers managing the original holdings.

In case of scissions during the reference period or not later than 31 December of the year preceding the year of application of the single payment scheme, the farmers managing the holdings shall have access, pro rata, to the single payment scheme under the same conditions as the farmer managing the original holding.

Article 34

Application

1. The first year of application of the single payment scheme, the competent authority of the Member State shall send an application form to the farmers referred to in Article 33(1)(a) indicating:

(a) the amount referred to in Chapter 2 (hereinafter referred to as the ‘reference amount’);

(b) the number of hectares referred to in Article 43;

(c) the number and value of payment entitlements as defined in Chapter 3.

2. Farmers shall apply to the single payment scheme by a date, to be fixed by Member States, but not later than 15 May.

However, the Commission, in accordance with the procedure referred to in Article 144(2), may allow the date of 15 May to be postponed in certain zones where exceptional climatic conditions render the normal dates inapplicable.

3. Except in case of force majeure and exceptional circumstances within the meaning of Article 40(4), no entitlements shall be allocated to farmers referred to in Article 33(1)(a) and (b) and to those who receive payment entitlements from the national reserve, if they do not apply to the single payment scheme by 15 May of the first year of application of the single payment scheme.

The amounts corresponding to those entitlements not allocated shall revert to the national reserve referred to in Article 42 and shall be available for reallocation by a date to be fixed by the Member State but not later than 15 August of the first year of application of the single payment scheme.

Article 35

Double claims

1. The area corresponding to the number of eligible hectares as defined in Article 44(2) in respect of which a single payment application is submitted may be the subject of an application for any other direct payment as well as for any other aid not covered by this Regulation, save as otherwise provided.

2. Farmers who have participated in the tobacco quota buy-back scheme according to Regulation (EEC) No 2075/92 shall be entitled to either the single payment or the quota buy-back price. However, where the quota buy-back price is higher than the amount calculated for tobacco to be included in the reference amount, the farmer shall still be entitled, in addition to the single payment, to a part of the buy-back price corresponding to the difference between the price amount and the...
Article 36

Payment

1. Aid under the single payment scheme shall be paid in respect of payment entitlements as defined in Chapter 3, accompanied by an equal number of eligible hectares as defined in Article 44(2).

2. Member States may decide to combine payments under the single payment scheme with payments under any other support scheme.

CHAPTER 2

ESTABLISHMENT OF THE AMOUNT

Article 37

Calculation of the reference amount

1. The reference amount shall be the three-year average of the total amounts of payments, which a farmer was granted under the support schemes referred to in Annex VI, calculated and adjusted according to Annex VII, in each calendar year of the reference period referred to in Article 38.

However, for olive oil the reference amount shall be the four-year average of the total amounts of payments which a farmer was granted under the olive oil support scheme referred to in Annex VI, calculated and adjusted according to Annex VII, during the marketing years 1999/2000, 2000/01, 2001/02 and 2002/03.

For sugar beet, cane and chicory used for the production of sugar or inulin syrup the reference amount shall be calculated and adjusted in accordance with point K of Annex VII.

For bananas the reference amount shall be calculated and adjusted in accordance with point L of Annex VII.

For fruit and vegetables, ware potatoes and nurseries the reference amount shall be calculated and adjusted in accordance with point M of Annex VII.

For wine the reference amount shall be calculated and adjusted in accordance with points N and O of Annex VII.

2. By way of derogation from paragraph 1, when a farmer commences an agricultural activity in the reference period, the average shall be based on the payments he was granted in the calendar year or years during which he exercised the agricultural activity.

Article 38

Reference period

The reference period shall comprise the calendar years 2000, 2001 and 2002.
Article 39

Application of modulation and cross-compliance laid down under Regulation (EC) No 1259/1999

In case of application of Articles 3 and 4 of Regulation (EC) No 1259/1999 during the reference period, the amounts referred to in Annex VII shall be those that would have been granted before application of the said Articles.

Article 40

Hardship cases

1. By way of derogation from Article 37, a farmer whose production was adversely affected during the reference period by a case of force majeure or exceptional circumstances occurring before or during that reference period shall be entitled to request that the reference amount be calculated on the basis of the calendar year or years in the reference period not affected by the case of force majeure or exceptional circumstances.

2. If the whole reference period was affected by the case of force majeure or exceptional circumstances, the Member State shall calculate the reference amount on the basis of the 1997 to 1999 period.

In the case of sugar beet, cane and chicory, the reference amount shall be calculated on the basis of the closest marketing year prior to the representative period chosen in accordance with point K of Annex VII. In the case of bananas, it shall be calculated on the basis of the closest marketing year prior to the representative period chosen in accordance with point L of Annex VII. In the case of fruit and vegetables, ware potatoes and nurseries, it shall be calculated on the basis of the closest marketing year prior to the representative period chosen in accordance with point M of Annex VII. In those cases, paragraph 1 shall apply mutatis mutandis.

3. A case of force majeure or exceptional circumstances, with relevant evidence to the satisfaction of the competent authority, shall be notified by the farmer concerned in writing to the authority within a deadline to be fixed by each Member State.

4. Force majeure or exceptional circumstances shall be recognised by the competent authority in cases such as, for example:

(a) the death of the farmer;
(b) long-term professional incapacity of the farmer;
(c) a severe natural disaster gravely affecting the holding's agricultural land;
(d) the accidental destruction of livestock buildings on the holding;
(e) an epizootic affecting part or all of the farmer's livestock.

5. Paragraphs 1, 2 and 3 of this Article shall apply, mutatis mutandis, to farmers who, during the reference period, were under agri-environmental commitments in accordance with Regulations (EEC) No 2078/92 (1) and (EC) No 1257/1999, to hop farmers who, during the same period, were under a grubbing-up commitment in accordance with Regulation (EC) No 1098/98 (2), as well as to tobacco farmers who have participated in the quota buy-back programme in accordance with Regulation (EEC) No 2075/92.

In the case where the measures referred to in the first subparagraph covered both the reference period and the period referred to in paragraph 2, Member States shall establish, according to objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortions, a reference amount in accordance with the detailed rules to be laid down by the Commission in accordance with the procedure referred to in Article 144(2).

**Article 41**

**Ceiling**

1. For each Member State, the sum of the reference amounts shall not be higher than the national ceiling referred to in Annex VIII.

In the case of chicory and taking into account the latest data made available to it by the Member States until 31 March 2006, the Commission may, in accordance with the procedure referred to in Article 144(2), reallocate the national amounts set out in point K(2) of Annex VII and adapt the national ceilings set out in Annex VIII accordingly without changing the global amounts or the ceilings respectively.

1a. Where some of the quantities of the quota sugar or the quota inulin syrup were produced in a Member State on the basis of sugar beet, cane or chicory grown in another Member State during any of the marketing years 2000/2001, 2001/2002, 2002/2003, 2003/2004, 2004/2005 or 2005/2006, the ceilings set out in point K of Annex VII and the national ceilings set out in Annexes VIII and VIIIa of the Member States concerned shall be adapted by transferring the amounts corresponding to the relevant quantities from the national ceilings of the Member State where the relevant sugar or inulin syrup was produced to those of the Member State where the relevant quantities of sugar beet, cane or chicory were grown.

The Member States concerned shall inform the Commission by 31 March 2006 of the quantities concerned.

The transfer shall be decided by the Commission in accordance with the procedure referred to in Article 144(2).

1b. In the case of wine and taking into account the latest data made available to it by the Member States in accordance with Articles 9 and 102(6) of Council Regulation (EC) No 479 of 29 April 2008 on the common organisation of the market in wine, the Commission shall, in accordance with the procedure referred to in Article 144(2) of this Regulation, adapt the national ceilings set out in Annex VII to this Regulation. By 1 December of the year preceding the adaptation of the national ceilings Member States shall communicate to the Commission the regional average of the value of entitlements referred to in point N of Annex VII to this Regulation.

2. Where necessary, a Member State shall proceed to a linear percentage reduction of the reference amounts in order to ensure respect of its ceiling.

**Article 42**

**National reserve**

1. Member States shall, after any possible reduction under Article 41(2), proceed to a linear percentage reduction of the

---

reference amounts in order to constitute a national reserve. This reduction shall not be higher than 3%.

2. The national reserve shall further include the difference between the ceiling referred to in Annex VIII and the sum of the reference amounts to be granted to farmers under the single payment scheme, before the reduction referred to in paragraph 1 second sentence.

3. Member States may use the national reserve to grant, in priority, reference amounts to farmers who commence their agricultural activity after 31 December 2002, or in 2002 but without receiving any direct payment in that year, according to objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortions.

4. Member States shall use the national reserve for the purpose of establishing, according to objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortions, reference amounts for farmers finding themselves in a special situation, to be defined by the Commission in accordance with the procedure referred to in Article 144(2).

5. Member States may use the national reserve for the purpose of establishing, according to objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortions, reference amounts for farmers in areas subject to restructuring and/or development programs relating to one or the other form of public intervention in order to avoid abandoning of land and/or in order to compensate specific disadvantages for farmers in those areas.

6. In application of paragraphs 3 to 5 Member States may increase the unit value, within the limit of the regional average of the value of entitlements, and/or the number of entitlements allocated to farmers.

7. Member States shall proceed to linear reductions of the entitlements in case their national reserve is not sufficient to cover the cases referred to in paragraphs 3 and 4.

8. Except in the case of a transfer by actual or anticipated inheritance and of mergers and scissions, and by way of derogation from Article 46, the entitlements established using the national reserve shall not be transferred for a period of five years starting from their allocation. In the case of a merger or scission, the farmer(s) managing the new holding(s) shall keep the entitlements which were originally allocated from the national reserve until the remaining part of the five-year period.

By way of derogation from Article 45(1), any entitlement which has not been used during each year of the five year period shall revert immediately to the national reserve.

However, in the case of application of paragraph 5, Member States may decide that, for 2007, unused payment entitlements corresponding to an equivalent number of hectares declared by the farmer and used for ware potatoes or for fruits and vegetables shall not revert to the national reserve.

9. By way of derogation from Articles 33 and 43, in case of sale or lease for six or more years of the holding or part of it or premium rights in the reference period or not later than 15 May 2004, part of the entitlements to be allocated to the seller or the lessor may revert to the national reserve under conditions to be defined by the Commission, in accordance with the procedure referred to in Article 144(2).
CHAPTER 3
PAYMENT ENTITLEMENTS
Section 1
Payment entitlements based on areas

Article 43

Determination of the payment entitlements

1. Without prejudice to Article 48, a farmer shall receive a payment entitlement per hectare which is calculated by dividing the reference amount by the three-year average number of all hectares which in the reference period gave right to direct payments listed in Annex VI. The total number of payment entitlements shall be equal to the above mentioned average number of hectares.

However, in the case referred to in Article 37(2), the total number of payment entitlements shall be equal to the average number of hectares of the same period used for the establishment of the reference amounts Article 42(8) shall apply to these payment entitlements.

2. The number of hectares referred to in paragraph 1 shall further include:

   (a) in the case of potato starch, dried fodder, seed, olive groves, and tobacco aids listed in Annex VII, the number of hectares whose production has been granted the aid in the reference period, as calculated in accordance with points B, D, F, H and I of Annex VII;

   (aa) in the case of sugar beet, cane and chicory, the number of hectares as calculated in accordance with point 4 of point K of Annex VII;

   (ab) in the case of bananas, the number of hectares as calculated in accordance with point L of Annex VII;

   (ac) in the case of fruit and vegetables, ware potatoes and nurseries, the number of hectares as calculated in accordance with point M of Annex VII;

   (ad) in the case of wine, the number of hectares as calculated in accordance with points N and O of Annex VII;

   (b) all forage area in the reference period.

3. For the purpose of paragraph 2(b) of this Article, ‘forage area’ shall mean the area of the holding that was available throughout the calendar year, in accordance with Article 5 of Commission Regulation (EC) No 2419/2001(1), for rearing animals including areas in shared use and areas which were subject to mixed cultivation. The forage area shall not include:

— buildings, woods, ponds, paths,
— areas used for other crops eligible for Community aid or for permanent crops or horticultural crops,
— areas qualifying for the support system laid down for the producers of certain arable crops, used for the aid scheme for dried fodder or subject to a national or Community set-aside scheme.

4. The payment entitlements per hectare shall not be modified save as otherwise provided.

Article 44

Use of payment entitlements

1. Any payment entitlement accompanied by an eligible hectare shall give right to the payment of the amount fixed by the payment entitlement.

2. ‘Eligible hectare’ shall mean any agricultural area of the holding except areas under forests or used for non agricultural activities.

3. The farmer shall declare the parcels corresponding to the eligible hectare accompanying any payment entitlement. Except in case of force majeure or exceptional circumstances, these parcels shall be at the farmer’s disposal on the date fixed by the Member State which shall be no later than the date fixed in that Member State for amendment of the aid application.

4. Member States may, in duly justified circumstances, authorise the farmer to modify his declaration on condition that he respects the number of hectares corresponding to his payment entitlements and the conditions for granting the single payment for the area concerned.

Article 45

Unused payment entitlements

1. Any payment entitlement which has not been used for a period of 3 years shall be allocated to the national reserve.

2. However, unused payment entitlements shall not revert to the national reserve in case of force majeure and exceptional circumstances within the meaning of Article 40(4).

3. However, for 2007, in Member States that have not made use of the option in Article 71 and that are not making use of the option set out in the second subparagraph of Article 51, unused payment entitlements corresponding to an equivalent number of hectares declared by the farmer and used for ware potatoes or for fruit and vegetables shall not revert to the national reserve.

Article 46

Transfer of payment entitlements

1. Payment entitlements may only be transferred to another farmer established within the same Member State except in case of transfer by actual or anticipated inheritance.

However, even in the case of actual or anticipated inheritance, payment entitlements may only be used in the Member State where the payment entitlements were established.

A Member State may decide that payment entitlements may only be transferred or used within one and the same region.

2. Payment entitlements may be transferred by sale or any other definitive transfer with or without land. In contrast, lease or similar types of transactions shall be allowed only if the payment entitlements transferred are accompanied by the transfer of an equivalent number of eligible hectares.
Except in case of force majeure or exceptional circumstances as referred to in Article 40(4), a farmer may transfer his payment entitlements without land only after he has used, within the meaning of Article 44, at least 80 % of his payment entitlements during at least one calendar year or, after he has given up voluntarily to the national reserve all the payment entitlements he has not used in the first year of application of the single payment scheme.

3. In case of sale of payment entitlements, with or without land, Member States may decide that part of the payment entitlements sold revert to the national reserve or that their unit value is reduced in favour of the national reserve, according to criteria to be fixed by the Commission in accordance with the procedure referred to in Article 144(2).

Section 2

Payment entitlements subject to special conditions

Article 47

Payments giving right to payment entitlements subject to special conditions

1. By way of derogation from Articles 43 and 44, the following amounts resulting from payments granted in the reference period shall be included in the reference amount under the conditions provided for in Article 48 and point C of Annex VII:

(a) the deseasonalisation premium provided for in Article 5 of Regulation (EC) No 1254/1999;

(b) the slaughter premium provided for in Article 11 of Regulation (EC) No 1254/1999;

(c) the special premium for male bovine animals and the suckler cow premium, where the farmer was exempted from the stocking rate requirement pursuant to Article 12(1) of Regulation (EC) No 1254/1999, provided that the farmer did not apply for the extension payment provided for in Article 13 of that Regulation;

(d) additional payments provided for in Article 14 of Regulation (EC) No 1254/1999 where paid in addition to aid provided for under (a), (b) and (c) of this paragraph;

(e) the aids provided for under the sheep and goats aid scheme:

— in the calendar years 2000 and 2001, in Article 5 of Regulation (EC) No 2467/98 and in Article 1 of Regulation (EEC) No 1323/90 (1);

— in the calendar year 2002, in Articles 4, 5 and 11(1) and in the first, second and fourth indent of Article 11(2) of Regulation (EC) No 2529/2001.

2. Starting from 2007 and by way of derogation from Articles 33, 43 and 44, the amounts resulting from dairy premium and additional payments, provided for in Articles 95 and 96 and to be granted in 2007 shall be included in the single payment scheme under the conditions provided for in Articles 48 to 50.

Article 48

Determination of the payment entitlements subject to special conditions

When farmer was granted payments referred to in Article 47, but had no hectares as referred to in Article 43 in the reference period, or the entitlement per hectare results in an amount higher than EUR 5 000, the farmer shall have right, respectively, to a payment entitlement:

(a) equal to the reference amount corresponding to the direct payments he was granted in the three-year average period;

(b) for each EUR 5 000 or fraction of the reference amount corresponding to the direct payments he was granted in the three-year average period.

Article 49

Conditions

1. Save as otherwise provided for in this section, the other provisions of this Title shall apply to the payment entitlements subject to special conditions.

2. By way of derogation from Articles 36(1) and 44(1), a farmer who has such payment entitlements for which he did not have hectares in the reference period, shall be authorised by the Member State to derogate from the obligation to provide a number of eligible hectares equivalent to the number of entitlements on the condition he maintains at least 50% of the agricultural activity exercised in the reference period expressed in livestock units (LU).

In case of a transfer of the payment entitlements, the transferee may benefit from this derogation only if all the payment entitlements subject to the derogation are transferred.

3. The payment entitlements determined according to Article 48 shall not be modified.

Article 50

Dairy premium and additional payments

1. Without prejudice to Article 48 and by way of derogation from Articles 37 and 43, a farmer shall receive a supplementary amount per entitlement resulting by dividing the amounts to be granted under Articles 95 and 96 by the number of entitlements he owns in 2007 except set-aside entitlements.

The unit value of each payment entitlement he owns in 2007 shall be increased by this supplementary amount.

2. In cases where he does not own any entitlement, Articles 48 and 49 shall apply mutatis mutandis. In this case, for the purpose of applying Article 48, the term 'hectares' shall mean the eligible hectares the farmer owns in 2007.
CHAPTER 4
LAND USE UNDER THE SINGLE PAYMENT SCHEME

Section 1
Use of the land

Article 51
Agricultural use of the land
Farmers may use the parcels declared in accordance with Article 44(3) for any agricultural activity.

By way of derogation from the first subparagraph, Member States may decide by 1 November 2007 that until a date to be fixed by the Member State but not later than 31 December 2010, the parcels in one or more regions of the Member States may continue not to be used for:

(a) the production of one or more of the products referred to in Article 1(2) of Regulation (EC) No 2200/96 and in Article 1(2) of Regulation (EC) No 2201/96. However in this case, Member States may decide to allow secondary crops to be cultivated on the eligible hectares during a period of maximum three months starting each year on 15 August; however, at the request of a Member State, this date shall be modified in accordance with the procedure laid down in Article 144(2) for regions where cereals are normally harvested earlier for climatic reasons;

(b) the production of ware potatoes; and/or

(c) nurseries.

Article 52
Production of hemp
1. In case of production of hemp, the varieties used shall have a tetrahydrocannabinol content not exceeding 0.2 %. Member States shall establish a system for verifying the tetrahydrocannabinol content of the crops grown on at least 30 % of the areas on hemp. However, if a Member State introduces a system of prior approval for such cultivation, the minimum shall be 20 %.

2. In accordance with the procedure referred to in Article 144(2), the granting of payments shall be made subject to the use of certified seeds of certain varieties.

Section 2
Set-aside entitlements

Article 53
Determination of the set-aside entitlements
1. By way of derogation from Articles 37 and 43 of this Regulation, where in the reference period a farmer was subject to the obligation to set aside part of the land of his holding pursuant to Article 6(1) of Regulation (EC) No 1251/1999, the three-year average amount corresponding to the compulsory set-aside payment calculated and adjusted according to Annex VII and the three-year average number of compulsory set-aside hectares shall not be included in the determination of the entitlements referred to in Article 43 of this Regulation.
In the case referred to in paragraph 1, the farmer shall receive an entitlement per hectare (hereinafter referred to as ‘set-aside entitlement’) which is calculated by dividing the three-year set-aside average amount by the three-year average number of hectares set-aside, as referred to in paragraph 1.

The total number of set-aside entitlements shall be equal to the average number of compulsory set-aside hectares.

**Article 54**

**Use of set-aside entitlements**

1. Any set-aside entitlement accompanied by a hectare eligible for set-aside entitlement shall give right to the payment of the amount fixed by the set-aside entitlement.

2. By way of derogation from Article 44(2), ‘hectare eligible for set-aside entitlement’ shall mean any agricultural area of the holding taken up by arable land, except areas which at the date provided for the area aid applications for 2003 were under permanent crops, forests or used for non agricultural activities or under permanent pasture. **M2** For the new Member States, the reference to the date provided for the area aid applications for 2003 shall be construed as a reference to 30 June 2003. **A2** However, for Bulgaria and Romania, the date provided for the area aid applications shall be 30 June 2005.

However, the following areas may be counted as being set aside, as a result of an application made after 28 June 1995:

— areas set aside pursuant to Articles 22 to 24 of Regulation (EC) No 1257/1999, which are neither put to any agricultural use nor used for any lucrative purposes other than those accepted for other land set aside under this Regulation, or

— areas afforested pursuant to Article 31 of Regulation (EC) No 1257/1999.

3. Farmers shall set aside from production the hectares eligible for set-aside entitlements.

4. Set aside areas shall not be less than 0,1 ha in size and 10 metres wide. For duly justified environmental reasons, Member States may accept areas at least 5 metres wide and 0,05 ha in size.

5. Member States may, on terms to be determined in accordance with the procedure referred to in Article 144(2), derogate from first subparagraph of paragraph 2 of this Article, provided that they take action to prevent any significant increase in the total agricultural area eligible to set-aside entitlements.

6. By way of derogation from Articles 36(1) and 44(1), set-aside entitlements shall be claimed before any other entitlement.

7. The set aside obligation shall continue to apply in respect of the set-aside entitlements which are transferred.

**Article 55**

**Exemption from set-aside**

A farmer shall not be subject to the obligation referred to in Article 54 if:

(a) his entire holding is managed for the totality of its production in compliance with the obligations laid down in Council Regulation (EEC) No 2092/91 of 24 June 1991 on organic production of
agricultural products and indications referring thereto on agricultural products and foodstuffs (1);

(b) the land set-aside is used for the provision of materials for the manufacture within the Community of products not primarily intended for human or animal consumption, provided that effective control systems are applied.

Article 56

Use of the set aside land

1. The land set aside shall be maintained in good agricultural and environmental condition as established under Article 5.

Without prejudice to Article 55, it shall not be used for agricultural purposes and shall not produce any crop for commercial purposes.

2. It may be subject to rotation.

3. If the quantity of by-products for feed or food uses likely to be made available as a result of the cultivation of oilseeds on land set-aside under Article 55(b), will, on the basis of the forecast quantities covered by contracts made with farmers, exceed 1 million tonnes annually expressed in soya bean meal equivalents, in order to limit such quantity to 1 million tonnes, the amount of the forecast quantity under each contract, which may be used of feed or food uses, shall be reduced.

4. Member States shall be authorised to pay national aid up to 50 % of the costs associated with establishing permanent crops intended for bio-mass production on set-aside land.

Article 57

Application of other provisions

Save as otherwise provided for in this section, the other provisions of this Title shall apply to the set-aside entitlements.

CHAPTER 5

REGIONAL AND OPTIONAL IMPLEMENTATION

Section 1

Regional implementation

Article 58

Regional allocation of the ceiling referred to in Article 41

1. A Member State may decide, by 1 August 2004 at the latest, to apply the single payment scheme provided for in Chapters 1 to 4 at regional level under the conditions laid down in this Section.

2. Member States shall define the regions according to objective criteria.

Member States with less than three million eligible hectares may be considered as one single region.

3. The Member State shall subdivide the ceiling referred to in Article 41 between the regions according to objective criteria.

Article 59
Regionalisation of the single payment scheme

1. In duly justified cases and according to objective criteria the Member State may divide the total amount of the regional ceiling established under Article 58 or part of it between all the farmers whose holdings are located in the region concerned, including those who do not meet the eligibility criterion referred to in Article 33.

2. In this case of division of the total amount of the regional ceiling, farmers shall receive entitlements, whose unit value is calculated by dividing the regional ceiling established under Article 58 by the number of eligible hectares, within the meaning of Article 44(2), established at regional level.

3. In case of partial division of the total amount of the regional ceiling, farmers shall receive entitlements whose unit value is calculated by dividing the corresponding part of the regional ceiling established under Article 58 by the number of eligible hectares, within the meaning of Article 44(2), established at regional level.

In case the farmer is also entitled to receive entitlements calculated on the remaining part of the regional ceiling, the regional unit value of each of his entitlements, except for set-aside entitlements, shall be increased by an amount corresponding to the reference amount divided by the number his entitlements established in accordance with paragraph 4.

Articles 48 and 49 shall apply mutatis mutandis.

4. The number of entitlements per farmer shall be equal to the number of hectares he declares in accordance with Article 44(2) the first year of application of the single payment scheme, except in case of force majeure or exceptional circumstances within the meaning of Article 40(4).

Article 60
Use of the land

1. Where a Member State makes use of the option provided for in Article 59, farmers may, by way of derogation from Article 51(b) and (c) and in accordance with this Article, also use the parcels declared in accordance with Article 44(3) for the production of the products referred to in Article 1(2) of Regulation (EC) No 2200/96 or in Article 1(2) of Regulation (EC) No 2201/96 and of potatoes other than those intended for the manufacture of potato starch for which aid is granted under Article 93 of this Regulation, except crops referred to in Article 51(a).

2. The Member State shall establish the number of hectares that may be used according to paragraph 1 of this Article by subdividing, according to objective criteria, the average of the number of hectares that were used for the production of the products referred to in paragraph 1 at national level during the three-year period 2000-2002 amongst the regions defined pursuant to Article 58(2). The average number of hectares at national level and the number of hectares at regional level shall be fixed by the Commission in accordance with the procedure referred to in Article 144(2) on the basis of the data communicated by the Member State.

3. Within the limit established according to paragraph 2 for the region concerned, a farmer shall be allowed to make use of the option referred to in paragraph 1:

(a) within the limit of the number of hectares that he used for the production of the products referred to in paragraph 1 in 2003;

(b) in case of application, mutatis mutandis, of Articles 40 and 42(4), within the limit of a number of hectares to be established according
to objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortions.

4. Within the limit of the number of hectares that remain available after application of paragraph 3, farmers shall be allowed to produce the products referred to in paragraph 1 on a number of hectares other than the number of hectares falling under paragraph 3 within the limit of a number of hectares used for the production of the products referred to in paragraph 1 in 2004 and/or 2005, whereby priority shall be given to the farmers who produced the products already in 2004 within the limit of the number of hectares used in 2004.

In case of application of Article 71, 2004 and 2005 shall be replaced by, respectively, the year previous to the year of application of the single payment scheme and the year of application itself.

5. In order to establish the individual limits referred to in paragraphs 3 and 4, the Members State shall use the farmer's individual data, where available, or any other evidence at its satisfaction provided by the farmer.

6. The number of hectares for which the authorisation has been established according to paragraphs 3 and 4 of this Article, shall in no case exceed the number of eligible hectares as defined in Article 44(2) declared in the first year of application of the single payment scheme.

7. The authorisation shall be used, within the region concerned, with the corresponding payment entitlement.

8. Where a Member State decides to use the derogation in the second subparagraph of Article 51, it may also decide, by 1 November 2007, to apply paragraphs 1 to 7 of this Article for the same period. Paragraphs 1 to 7 of this Article shall not apply in any other case.

Article 61

**Grassland**

In case of application of Article 59, Member States may also, according to objective criteria, fix, within the regional ceiling or part of it, different per unit values of entitlements to be allocated to farmers referred to in Article 59(1), for hectares under grassland at the date provided for the area aid applications for 2003 and for any other eligible hectare or alternatively for hectares under permanent pasture at the date provided for the area aid applications for 2003 and for any other eligible hectare.

**Article 62**

**Dairy premium and additional payments**

By way of derogation from Article 47(2), Member State may decide that the amounts resulting from dairy premiums and additional payments, provided for in Articles 95 and 96, shall be included at national or regional level, in part or in full, in the single payment scheme starting from 2005. Entitlements established under this paragraph shall be modified accordingly.

The reference amount for those payments shall be equal to the amounts to be granted according to Articles 95 and 96 calculated on the basis of the individual reference quantity for milk available on the holding on 31 March of the year of inclusion, in part or in full, of those payments in the single payment scheme.

Articles 48 to 50 shall apply mutatis mutandis.
Conditions for the entitlements established under this section

1. In case of application of Article 59, entitlements established under this section may only be transferred or used within the same region or between regions where the entitlements per hectare are the same.

2. In case of application of Article 59, by way of derogation from Article 53, any farmer in the region concerned shall receive set-aside entitlements. The number of set-aside entitlements is established by multiplying a farmer's eligible land within the meaning of Article 54(2) declared in the first year of application of the single payment scheme with a set-aside rate. The set-aside rate is calculated by multiplying the basic rate of compulsory set-aside of 10% by the proportion, in the region concerned, between the land for which arable crops area payments referred to in Annex VI have been granted in the reference period and the eligible land within the meaning of Article 54(2) in the reference period. The value of the set-aside entitlements shall be the regional value for payment entitlements as established according to Article 59(2) or, as the case may be, Article 59(3) first subparagraph.

Those farmers shall not receive set-aside entitlements who declare less than a number of hectares within the meaning of Article 54(2) which would be needed to produce a number of tonnes equal to 92 tonnes of cereals as defined in Annex IX on the basis of the yields determined according to the regionalisation plan applicable in the region concerned in the year before the year of application of the single payment scheme divided by the proportion referred to in the third subparagraph of paragraph 2 of this Article.

3. By way of derogation from Articles 43(4) and 49(3), Member States may also decide, by 1 August 2004 at the latest, and acting in compliance with the general principles of Community law, that entitlements established under this section shall be subject to progressive modifications according to pre-established steps and objective criteria.

However, with regard to the inclusion of the sugar beet, cane and chicory payments component in the single payment scheme, Members States may decide by 30 April 2006, to apply the derogation provided for in the first subparagraph.

With regard to the inclusion of the fruit and vegetables, ware potatoes and nurseries payments component in the single payment scheme, Members States may decide, by 1 April 2008, to apply the derogation provided for in the first subparagraph.

With regard to the inclusion of the wine component in the single payment scheme, Member States may decide, by 1 April 2009, to apply the derogation provided for in the first subparagraph.

4. Save as otherwise provided for in this Section, the other provisions of this Title shall apply.
Section 2

2. According to the choice made by each Member State, the Commission shall fix, in accordance with the procedure referred to in Article 144(2), a ceiling for each of the direct payments provided for in Articles 66 to 69. This ceiling shall be equal to the component of each type of direct payment in the national ceilings referred to in Article 41, multiplied by the percentages of reduction applied by Member States in accordance with Articles 66 to 69. The total amount of the fixed ceilings shall be deducted from the national ceilings referred to in Article 41 in accordance with the procedure referred to in Article 144(2).

Establishment of the entitlements under this section

1. For the entitlements to be allocated to farmers, after any possible reduction under Article 41, the component of the reference amount which results from each of the direct payments provided for in Articles 66 to 69 shall be reduced by the percentage to be fixed by Member States within the limit fixed in those Articles, and, for direct payments provided for in Article 68b, within the period fixed by Member States in accordance with that Article.

2. Save as otherwise provided for in this Section, the other provisions of this Title shall apply to the entitlements established on the remaining part of the reference amount.

Member States may retain up to 10% of the component of national ceilings referred to in Article 41 corresponding to each sector referred to in Annex VI. In the case of the arable crops, beef and veal and sheep and goat sectors, this retention shall be taken into account for the purpose of application of the maximum percentages fixed, respectively, in Articles 66, 67 and 68.

In this case and within the limit of the ceiling fixed in accordance with Article 64(2), the Member State concerned shall make, on a yearly basis, an additional payment to farmers in the sector or sectors concerned by the retention.

The additional payment shall be granted for specific types of farming which are important for the protection or enhancement of the environment or for improving the quality and marketing of agricultural products under conditions to be defined by the Commission in accordance with the procedure referred to in Article 144(2).
Section 3
Optional exclusions

Article 70
Optional exclusion of some direct payments

1. A Member State may decide, by 1 August 2004 at the latest, to exclude from the single payment scheme:

(a) one or more of the direct payments granted in the reference period under:
   — Article 4(4) of Regulation (EC) No 1251/1999,
   — Article 3 of Regulation (EC) No 2358/71.

In this case, Articles 64 and 65 shall apply mutatis mutandis;

(b) all other direct payments listed in Annex VI granted to farmers in the reference period in the French Overseas Departments, the Azores and Madeira, the Canary Islands and the Aegean Islands.

2. Member States shall grant the direct payments referred to in paragraph 1 within the limit of the ceilings fixed in accordance with Article 64(2), under the conditions established in Title IV, Chapters 3, 6 and 7 to 13.

The total amount of the fixed ceilings shall be deducted from the national ceilings referred to in Article 41 in accordance with the procedure referred to in Article 144(2).

Section 4
Optional transition

Article 71
Optional transitional period

1. Where specific agricultural conditions so warrant, a Member State may decide, by 1 August 2004 at the latest, to apply the single payment scheme after a transitional period which shall expire either on 31 December 2005 or on 31 December 2006.

In the case where the Member State concerned decides to apply the single payment scheme before the end of the transitional period, it shall decide by 1 August at the latest of the calendar year preceding the calendar year in respect of which the single payment scheme will apply.

For hops, the transitional period referred to in the first subparagraph shall expire on 31 December 2005. The transitional period referred to in the first subparagraph shall not apply in respect of cotton, olive oil and table olives and tobacco.

2. Without prejudice to Article 70(2), in the transitional period the Member State concerned shall apply each of the direct payments referred to in Annex VI under the conditions established in Title IV, Chapters 3, 6 and 7 to 13 within the limit of budgetary ceilings corresponding to the component of these direct payments in the national ceiling referred to in Article 41, fixed in accordance with the procedure referred to in Article 144(2).
In the case of dried fodder payment, Member States shall grant an aid under conditions to be defined in accordance with the procedure referred to in Article 144(2), within the aforementioned budgetary limits.

3. The single payment scheme shall apply on 1 January of the calendar year following the calendar year of expiry of the transitional period.

In this case, the Member State concerned shall take the decisions referred to in Articles 58(1), 63(3), 64(1) and 70 by 1 August 2005 or alternatively 2006 according to the deadline decided under paragraph 1 of this Article.

4. The Commission in accordance with the procedure referred to in Article 144(2) shall take the necessary measures in case the application of this transitional period causes severe distortion of competition in the Community market and in order to ensure the respect of the Community international obligations.

CHAPTER 6
IMPLEMENTATION IN THE NEW MEMBER STATES

Article 71a

1. Save as otherwise provided for in this Chapter, the provisions of this Title shall apply to the new Member States.

Articles 33, 34, 37, 38, 39, 40(1), (2), (3) and (5), 41, 42, 43, 47 to 50, 53 and 58 to 63 shall not apply.

2. Any new Member State applying the single area payment scheme shall take the decisions referred to in Articles 64(1) and 71(1) by 1 August of the year preceding that in respect of which it will apply the single payment scheme for the first time.

3. Any new Member State having applied the single area payment scheme may provide that, in addition to the eligibility conditions established in Article 44(2), ‘eligible hectare’ shall mean any agricultural area of the holding which has been maintained in good agricultural condition at 30 June 2003, whether in production or not at that date.

Any new Member State having applied the single area payment scheme may also provide that the minimum size of eligible area per holding for which payment entitlements shall be established and for which payments shall be granted shall be the minimum size of eligible area of the holding fixed in accordance with the second subparagraph of Article 143b(5).

Article 71b

Application for support

1. Farmers shall apply for support under the single payment scheme by a date, to be fixed by the new Member States, but not later than 15 May.

2. Except in case of force majeure and exceptional circumstances within the meaning of Article 40(4), no entitlements shall be allocated to farmers if they do not apply for the single payment scheme by 15 May of the first year of application of the single payment scheme.

3. The amounts corresponding to entitlements not allocated shall revert to the national reserve referred to in Article 71d and shall be available for reallocation.
Article 71c

Ceiling

The national ceilings of the new Member States shall be those listed in Annex VIIIa. Except for the dried fodder, sugar and chicory components thereof, the ceilings shall be calculated taking account of the schedule of increments provided for in Article 143a, and therefore do not need to be reduced.

In the case of Bulgaria and Romania, the schedule of increments provided for under Article 143a shall apply for sugar and chicory.

Article 41(1a) shall apply mutatis mutandis.

In the case of wine and taking into account the latest data made available to it by the Member States in accordance with Articles 9 and 102(6) of Regulation (EC) No 479, the Commission shall, in accordance with the procedure referred to in Article 144(2) of this Regulation, adapt the national ceilings set out in Annex VIIIa to this Regulation. By 1 December of the year preceding the adaptation of the national ceilings Member States shall communicate to the Commission the regional average of the value of entitlements referred to in point N of Annex VII to this Regulation.

Article 71d

National reserve

1. Each new Member State shall proceed to a linear percentage reduction of its national ceiling in order to constitute a national reserve. This reduction shall not be greater than 3 %, without prejudice to the application of Article 71b(3). However, it may exceed 3 % provided that a greater reduction is necessary for the application of paragraph 3 of this Article.

2. The new Member States shall use the national reserve for the purpose of allocating, according to objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortions, payment entitlements to farmers finding themselves in a special situation, to be defined by the Commission in accordance with the procedure referred to in Article 144(2).

3. During the first year of application of the single payment scheme, the new Member States may use the national reserve for the purpose of allocating payment entitlements, according to objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortions, to farmers in specific sectors, finding themselves in a special situation as a result of the transition to the single payment scheme. Such payment entitlements shall be distributed according to rules to be defined by the Commission in accordance with the procedure referred to in Article 144(2).

4. In application of paragraphs 2 and 3, new Member States may increase the unit value of entitlements within the limit of EUR 5 000, and/or the number of entitlements allocated to farmers.

5. The new Member States shall proceed to linear reductions of the entitlements where their national reserve is not sufficient to cover the cases referred to in paragraphs 2 and 3.

6. Except in the case of a transfer by actual or anticipated inheritance, of mergers and scissions and of the application of
paragraph 3, and by way of derogation from Article 46, the entitlements established using the national reserve shall not be transferred for a period of five years starting from their allocation. In the case of a merger or scission, the farmer(s) managing the new holding(s) shall keep the entitlements which were originally allocated from the national reserve for the remaining part of the five-year period.

By way of derogation from Article 45(1), any entitlement which has not been used during each year of the five-year period shall revert immediately to the national reserve.

7. New Member States may use the national reserve for the purpose of establishing, according to objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortions, reference amounts for farmers in areas subject to restructuring and/or development programmes relating to one or the other form of public intervention in order to avoid abandoning of land and/or in order to compensate specific disadvantages for farmers in those areas.

Article 71e

Regional allocation of the ceiling referred to in Article 71c

1. The new Member States shall apply the single payment scheme at regional level.

2. The new Member States shall define the regions according to objective criteria.

New Member States with less than three million eligible hectares may be considered as one single region.

However, new Member States having applied the single area payment scheme may be considered as one single region.

3. Each new Member State shall subdivide its national ceiling referred to in Article 71c after any reduction according to Article 71d between the regions according to objective criteria.

Article 71f

Regionalisation of the single payment scheme

1. All farmers whose holdings are located in a given region shall receive entitlements, whose unit value is calculated by dividing the regional ceiling established pursuant to Article 71e by the number of eligible hectares within the meaning of Article 44(2), established at regional level.

2. The number of entitlements per farmer shall be equal to the number of hectares he/she declares in accordance with Article 44(2) for the first year of application of the single payment scheme, except in case of force majeure or exceptional circumstances within the meaning of Article 40(4).

3. The payment entitlements per hectare shall not be modified save as otherwise provided.
**Article 71h**

**Grassland**

The new Member States may also, according to objective criteria, fix, within the regional ceiling or part of it, different per unit values of entitlements to be allocated to farmers referred to in Article 71f(1), for hectares of grassland as identified on 30 June 2006 and for any other eligible hectare or alternatively for hectares of permanent pasture as identified on 30 June 2006 and for any other eligible hectare.

However for Bulgaria and Romania the date for identification shall be 1 January 2008.

**Article 71i**

**Dairy premium and additional payments**

Starting from 2007, the amounts resulting from dairy premium and additional payments provided for in Articles 95 and 96 and to be granted in 2007 shall be included in the single payment scheme.

However, new Member States may decide that the amounts resulting from dairy premiums and additional payments, provided for in Articles 95 and 96, shall be included, in part or in full, in the single payment scheme starting from 2005. Entitlements established according to this paragraph shall be modified accordingly.

The amount used for the establishment of entitlements in respect of those payments shall be equal to the amounts to be granted according to Articles 95 and 96, calculated on the basis of the individual reference quantity for milk available on the holding on 31 March of the year of inclusion, in part or in full, of those payments in the single payment scheme.

By way of derogation from Article 71a(1), Articles 48, 49 and 50 shall apply *mutatis mutandis*.

**Article 71j**

**Set-aside entitlements**

1. Farmers shall receive part of their payment entitlements in the form of set-aside entitlements.

2. The number of set-aside entitlements shall be established by multiplying the farmer's eligible land within the meaning of Article 54(2) declared in the first year of application of the single payment scheme with the applicable set-aside rate.

   The set-aside rate shall be calculated by multiplying the basic rate of compulsory set-aside of 10% by the proportion, in the region concerned, between the regional base area or areas referred to in the third paragraph of Article 101 and the eligible land within the meaning of Article 54(2).

3. The value of the set-aside entitlements shall be the regional value for payment entitlements as established according to Article 71f(1).

4. Paragraphs 1 to 3 shall not apply to farmers who declare less than a number of hectares within the meaning of Article 54(2) which would be needed to produce a number of tonnes equal to 92 tonnes of cereals as defined in Annex IX on the basis of the reference yield referred to in Annex XIb applicable to the new Member State where the holding is located, divided by the proportion referred to in the second subparagraph of paragraph 2.
**Article 71k**

**Conditions for the entitlements**

1. By way of derogation from Article 46(1), entitlements established in accordance with this chapter may only be transferred within the same region or between regions where the entitlements per hectare are the same.

2. New Member States may also decide, by 1 August of the year preceding the first year of application of the single payment scheme at the latest, and acting in compliance with the general principle of Community law, that entitlements established in accordance with this chapter shall be subject to progressive modifications according to pre-established steps and objective criteria.

**Article 71l**

**Optional implementation**

1. Sections 2, 3 and 4 of Chapter 5 shall apply to the new Member States under the conditions laid down in this Article. However, Section 4 shall not apply to new Member States applying the single area payment scheme referred to in Article 143b.

2. Any reference in Sections 2 and 3 of Chapter 5 to Article 41, in particular with regard to the national ceiling(s), shall be construed as a reference to Article 71c.

3. The report referred to in Article 64(3) shall include the options laid down in this chapter.

**Article 71m**

**Farmers with no eligible hectares**

By way of derogation from Articles 36 and 44(2), a farmer who was granted payments referred to in Article 47 or who was acting in a sector referred to in Article 47 and receives payment entitlements in accordance with Article 71d for which he does not have eligible hectares within the meaning of Article 44(2) in the first year of implementation of the single payment scheme, shall be authorised by the Member State to derogate from the obligation to provide a number of eligible hectares equivalent to the number of entitlements on the condition that he maintains at least 50% of the agricultural activity exercised before the transition to the single payment scheme expressed in livestock units (LU).

In the case of a transfer of payment entitlements, the transferee may benefit from this derogation only if all the payment entitlements subject to the derogation are transferred.

However, for Malta, the second subparagraph shall not apply and the derogation provided for in the first subparagraph shall apply without the condition that the farmer maintain at least 50% of the agricultural activity exercised before the transition to the single payment scheme expressed in livestock units.

When a Member State subdivides its NGA in sub-base areas and one or more sub-base areas are exceeded, the area per farmer for which Community aid is claimed shall be reduced proportionately in that year for the farmers in the sub-base areas where their limit have been exceeded. This reduction shall be made when, in the Member State concerned, the areas in sub-base areas, which have not reached their limits, have been redistributed to sub-base areas in which those limits have been exceeded.

Article 86

Conditions for eligibility

1. Payment of the Community aid shall be conditional on, in particular, minimum plot size and tree density.

2. Areas in improvement plans within the meaning of Article 14(b) of Regulation (EEC) No 1035/72 of the Council of 18 May 1972 on the common organisation of the market in fruit and vegetables (*) become eligible for aid under this scheme on 1 January of the year following the year in which the improvement plan expired.

3. Member States may make the granting of Community aid conditional on farmers being members of a producer organisation recognised under Articles 11 or 14 of Regulation (EC) No 2200/96.

4. If the provision of paragraph 3 is applied, Member States may decide that the payment of the aid referred to in paragraph 1 is made to a producer organisation on the behalf of its members. The amount of aid received by the producer organisation shall be paid to its members. However, Member States may authorise a producer organisation, as compensation for the services provided to its members, to operate a deduction on the amount of Community aid up to a maximum of 2 %.

Article 87

National aid

1. Member States may grant national aid, in addition to the Community aid, up to a maximum of EUR 120,75 per hectare per year.

2. The national aid may be paid only for areas receiving Community aid.

3. Member States may make the granting of national aid conditional on farmers being members of a producer organisation recognised under Articles 11 or 14 of Regulation (EC) No 2200/96.

CHAPTER 5
AID FOR ENERGY CROPS

Article 88

Aid

An aid of EUR 45 per hectare per year shall be granted for areas sown under energy crops used under the conditions laid down in this Chapter.

Energy crops shall mean crops supplied essentially for the production of the following energy products:

— products considered biofuels listed in Article 2, point 2 of Directive 2003/30/EC of the European Parliament and of the Council of 8 May 2003 on the promotion of the use of biofuels or other renewable fuels for transport (1),

— electric and thermal energy produced from biomass.

Article 143a and 143c shall not apply to the aid for energy crops in the Community as constituted on 1 January 2007.

Article 89

Areas

1. A maximum guaranteed area of 2 000 000 ha for which the aid may be granted is hereby established.

2. Where the area for which aid is claimed exceeds the maximum guaranteed area, the area per farmer for which aid is claimed shall be reduced proportionately in that year in accordance with the procedure referred to in Article 144(2).

Article 90

Conditions for eligibility

The aid shall be granted only in respect of areas whose production is covered by a contract between the farmer and the processing industry or by a contract between the farmer and the collector, except in case of processing undertaken by the farmer himself/herself on the holding.

Areas which have been subject to an application for energy crops scheme may not be counted as being set aside for the purposes of the set-aside requirement indicated in Article 6(1) of Regulation (EC) No 1251/1999 and in Articles 54(2), 63(2), 71j and 107(1) of this Regulation.

Article 90a
National aid
Member States shall be authorised to pay national aid up to 50 % of the costs associated with establishing permanent crops for the areas which have been subject to an application for the aid for energy crops.

Article 91
Review of the list of energy crops
Products may be added or removed to Article 88 in accordance with the procedure referred to in Article 144(2).

Article 92
Review of energy crops scheme
By 31 December 2006, the Commission shall submit a report to the Council on the implementation of the scheme, accompanied, where appropriate, by proposals taking into account the implementation of the EU biofuels initiative.

CHAPTER 6
AID FOR STARCH POTATO

Article 93
Aid
Aid shall be established for farmers producing potatoes intended for the manufacture of potato starch. The amount of the payment applies to the quantity of potatoes needed for making one tonne of starch. It shall be:

— EUR 110.54 for the marketing year 2004/2005 and in case of application of Article 71,

It shall be adjusted according to the starch content of the potatoes.

Article 94
Conditions
The aid shall be paid only in respect of the quantity of potatoes covered by a cultivation contract between the potato producer and the starch manufacturer within the limit of the quota allocated to such undertaking, as referred to in Article 2(2) or (4) of Regulation (EC) No 1868/94.

CHAPTER 7
DAIRY PREMIUM AND ADDITIONAL PAYMENT

Article 95
Dairy premium
1. From 2004 to 2007, milk producers shall qualify for a dairy premium. It shall be granted per calendar year, per holding and per tonne of individual reference quantity eligible for premium and available on the holding.
2. Without prejudice to paragraph 3 and to reductions resulting from the application of paragraph 4, the individual reference quantity for milk available on the holding on 31 March of the calendar year concerned, expressed in tonnes, shall be multiplied by:

— EUR 8,15/t for the calendar year 2004,
— EUR 16,31/t for the calendar year 2005,
— EUR 24,49/t for the calendar years 2006 and 2007, and

in case of application of Article 70, for the following calendar years.

A1

For Poland and Slovenia, the amount per tonne for the dairy premium for 2004 shall be multiplied by the provisional individual reference quantity available on the holding on 1 May 2004.

B

3. Individual reference quantities which have been the subject of temporary transfers in accordance with Article 6 of Council Regulation (EEC) No 3950/92 of 28 December 1992 establishing an additional levy in the milk and milk products sector (1) or Article 16 of Council Regulation (EC) No 1788/2003 of 29 September 2003 establishing a levy in the milk and milk products sector (2) on 31 March of the calendar year concerned shall be deemed to be available on the holding of the transferee for that calendar year.

4. For the purpose of applying paragraph 2, where, on 31 March of a calendar year, the sum of all individual reference quantities in a Member State exceeds the sum of the corresponding total quantities of that Member State set out in Annex I of Regulation (EEC) No 3950/92, for the 12-month period 1999/2000, the Member State concerned shall, on the basis of objective criteria, take the necessary steps to reduce accordingly the total amount of individual reference quantities eligible for premium on its territory.

M4

However, for Germany and Austria the ceiling fixed on the basis of the reference quantities for the 12-month period of 1999/2000, shall be, respectively, 27 863 827,288 and 2 750 389,712 tonnes.

A1

For the Czech Republic, Estonia, Cyprus, Latvia, Lithuania, Hungary, Malta, Poland, Slovenia and Slovakia the total quantities referred to in the first subparagraph are set out in table (f) of Annex I of Council Regulation (EC) No 1788/2003 (3).

For the Czech Republic, Estonia, Cyprus, Latvia, Lithuania, Hungary, Malta, Poland, Slovenia and Slovakia the 12 month period referred to in the first subparagraph shall be that of 2004/2005.

A2

For Bulgaria and Romania the total quantities referred to in the first subparagraph are set out in table (f) of Annex I of Council Regulation (EC) No 1788/2003 and reviewed in accordance with Article 6(1) sixth subparagraph of Council Regulation (EC) No 1788/2003.

For Bulgaria and Romania the 12-month period referred to in the first subparagraph shall be that of 2006/2007.

(2) See page 123 of this Official Journal.
**Article 96**

**Additional payments**

1. From 2004 to 2007, Member States shall, on a yearly basis, make additional payments to producers in their territory totalling the global amounts per year set out in paragraph 2. Such payments shall be made according to objective criteria and in such a way as to ensure equal treatment between producers and to avoid market and competition distortions. Moreover, such payments shall not be linked to fluctuations of market prices.

Premium supplements shall only be granted as a supplementary amount per premium amount as set out in Article 95(2).

2. Additional payments: global amounts expressed in EUR million:

(1) And, in case of application of Article 70, for the following calendar years.

In the new Member States the global amounts shall be applied in accordance with the schedule of increments as set out in Article 143a.
Article 97

Definitions

For the purpose of this Chapter, the definitions of ‘producer’ laid down in Article 5 of Regulation (EC) No 1788/2003 shall apply.

CHAPTER 8

SPECIFIC REGIONAL AID FOR ARABLE CROPS

Article 98

Aid

In case of application of Article 70, in Finland and in Sweden north of the 62nd Parallel and some adjacent areas affected by comparable climatic conditions rendering agricultural activity particularly difficult, farmers producing cereals, oilseeds, linseed and flax and hemp grown for fibre shall be granted a specific aid of EUR 24/t, multiplied by the yields determined in the regionalisation plan for the region concerned within the limit of a ceiling, fixed by the Commission in accordance with Article 64(2), corresponding to the component of this aid in the ceiling referred to in Article 41.

When the total amount of aid claimed exceeds the fixed ceiling, the aid per farmer shall be reduced proportionately in that year.

CHAPTER 9

SEED AID

Article 99

Aid

1. In case of application of Article 70, Member States shall grant, on a yearly basis, the aids fixed in Annex XI for the production of basic seed or certified seeds of one or more of the species listed in Annex XI.

2. In case the area accepted for certification for which the aid for seeds is claimed is used also for claiming the aid under the single payment scheme, the amount of aid for seed, except in the case of species referred to in Annex XI points 1 and 2, shall be reduced, but not to less than zero, by the amount of aid of the single payment scheme to be granted in a given year for the area concerned.

3. The amount of aid claimed shall not exceed a ceiling, fixed by the Commission in accordance with Article 64(2), corresponding to the component of seed aids for the species concerned in the national ceiling referred to in Article 41. However, for the new Member States, this ceiling shall correspond to the amounts mentioned in Annex XIa.

When the total amount of aid claimed exceeds the fixed ceiling, the aid per farmer shall be reduced proportionately in that year.

4. The varieties of Cannabis sativa L. for which the aid provided for in this Article is payable shall be determined in accordance with the procedure referred to in Article 144(2).
CHAPTER 10
ARABLE CROPS AREA PAYMENT

Article 100
Scope of application and definitions
1. In case of application of Article 66, Member States shall grant, under the conditions set out in this Chapter, save as otherwise provided, the aid chosen by the Member State concerned according to that Article, to farmers producing arable crops.

2. For the purposes of this Chapter:
— the marketing year shall run from 1 July to 30 June,
— ‘arable crops’ are taken to mean those listed in Annex IX.

3. Member States where maize is not a traditional crop may make grass silage eligible for the arable crops area payments, under the same conditions as those applicable for arable crops.

Article 101
Base areas
The area payment shall be fixed on a per hectare basis and regionally differentiated.

The area payment shall be granted for the area which is down to arable crops or subject to set-aside in accordance with Article 107 of this Regulation and which does not exceed the total number of hectares of the regional base area or areas as fixed in Annex VI of Commission Regulation (EC) No 2316/1999 (1), taking into account the application of Regulation (EC) No 1017/94.

However, the regional base area or areas in the new Member States shall be fixed by the Commission in accordance with the procedure referred to in Article 144(2) and within the limits of the national base areas listed in Annex XIb.

A region in this sense shall be understood to mean a Member State or a region within the Member State, at the option of the Member State concerned. In case of application of Article 66 of this Regulation, the area or areas fixed in Annex VI of Regulation (EC) No 2316/1999 shall be reduced by the number of hectares corresponding to the set-aside entitlements set up in accordance with Article 53 and 63(2) of this Regulation in the region concerned.

Article 102
Overrun of base areas and ceiling
1. When the sum of the areas for which payment is claimed under the arable crops' scheme, including the set-aside provided for under that scheme in case of application of Article 71, is in excess of the base area, the eligible area per farmer shall be reduced proportionately for all the payments granted under this Chapter in the region in question, during the same marketing year.

2. The sum of the payments claimed shall not be higher than the ceiling fixed by the Commission in accordance with Article 64(2). When the total amount of aid claimed exceeds the fixed ceiling, the aid per farmer shall be reduced proportionately in that year.

3. In case of application of Article 71, areas which are not the subject of an application for payment under this Chapter but are used to support an application for aid under Chapter 12 shall also be taken into account for the calculation of areas for which payment is claimed.

4. If a Member State makes grass silage eligible for the arable crops area payments, a separate base area shall be defined. If the base area for arable crops or grass silage is not reached in a given marketing year, the balance of hectares shall be allocated for the same marketing year to the corresponding base area.

5. Where a Member State has chosen to establish one or more national base areas, it may subdivide each national base area into sub-base areas according to objective criteria to be defined by the Member State.

For the purposes of applying this paragraph, the ‘Secano’ and ‘Regadío’ base areas shall be considered as national base areas.

Where there is an overshoot of a national base area, the Member State concerned may, in accordance with objective criteria, concentrate the measure applicable under paragraph 1 totally or partially on the sub-base areas for which the overshoot has been noted.

Member States which have decided to apply the possibilities provided for in this paragraph, shall notify farmers and the Commission by 15 September of their choices and the detailed rules for their application.

Article 103

Regionalisation plan

The regionalisation plan established by Member States pursuant to Article 3 of Regulation (EC) No 1251/1999 shall apply.

Alternatively, for any new Member State applying the single area payment scheme referred to in Article 143b in 2004 and opting for the application of Article 66, the regionalisation plan shall be established, according to objective criteria, not later than 1 August of the last year of application of the single area payment scheme. Where this is done, the combined regional base areas and the weighted average reference yield in the regions shall respect the limits of the national base area and reference yield as listed in Annex Xlb. However, for Bulgaria and Romania the condition for the application of this paragraph will be that the single area payment scheme is applied in 2007 and that the application of Article 66 has been opted for.

The regionalisation plan may be revised, according to objective criteria, by the Member State concerned at the request of the Commission or at the initiative of that Member State.

Article 104

Basic amount

1. The area payment shall be calculated by multiplying the basic amount per tonne by the average cereal yield determined in the regionalisation plan for the region concerned.

2. The calculation mentioned in paragraph 1 shall be made using the average cereals yield. However, where maize is treated separately, the ‘maize’ yield shall be used for maize and the ‘cereals other than maize’
yield shall be used for cereals, oilseeds, linseed and flax and hemp
grown for fibre.

3. The basic amount for arable crops and, in case of application of
Article 71, for set-aside shall be fixed at EUR 63,00/t from the

Article 105
Durum wheat supplement

1. A supplement to the area payment of:
— EUR 291/ha for the marketing year 2005/2006,
— EUR 285/ha for the marketing year 2006/2007 and onwards,
shall be paid for the area down to durum wheat in the traditional
production zones listed in Annex X, subject to the following limits:

2. Should the total of the areas for which a supplement to the area
payment is claimed be greater than the limit referred to in paragraph 1
during the course of a marketing year, the area per farmer for which the
supplement may be paid shall be reduced proportionately.

However, subject to the limits per Member State laid down in paragraph
1, Member States may distribute the areas indicated in that paragraph
among the production zones as defined in Annex X, or, for the Member
States of the Community as constituted on 30 April 2004, if necessary,
the production regions of the regionalisation plan, according to the
extent of the production of durum wheat during the period 1993 to
1997. Where this is done, should the total of the areas within a
region for which a supplement to the area payment is requested be
greater than the corresponding regional limit during the course of a
marketing year, the area per farmer in that production region for
which the supplement may be paid shall be reduced proportionately.
The reduction shall be made when, within a Member State, the areas in
regions which have not reached their regional limits have been
distributed to regions in which those limits have been exceeded.

3. In regions where the production of durum wheat is well estab-
lished, other than those referred to in Annex X, special aid amounting to
EUR 46/ha for the marketing year 2005/06 shall be granted up to a limit
of the following number of hectares:

Article 106

Flax and hemp

For flax and hemp grown for fibre, the area payment shall be made only, depending on circumstances, when the contract is concluded or commitment made as referred to in Article 2(1) of Regulation (EC) No 1673/2000.

For hemp grown for fibre, the area payment shall also be made under the conditions provided for in Article 52.

Article 107

Set-aside

1. In case of application of Article 71, farmers applying for the area payment shall be subject to an obligation to set aside part of the land of their holding from production and shall receive compensation for this obligation.

2. The set-aside obligation for each farmer applying for area payments shall be fixed as a proportion of his area down to arable crops and for which a claim is made and left in set-aside pursuant to this Chapter.

The basic rate of compulsory set-aside is fixed at 10% for the marketing years 2005/2006 and 2006/2007.

3. The land set aside may be used for:
   — producing materials for the manufacture within the Community of products not directly intended for human or animal consumption, provided that effective control systems are applied;
   — growing legume crops on an agricultural holding, managed for the totality of its production, in compliance with the obligations laid down in Regulation (EEC) No 2092/91.

Member States shall be authorised to pay national aid up to 50% of the costs associated with establishing multiannual crops intended for biomass production on set-aside land.

4. The quantity of by-products for feed or food uses likely to be made available as a result of the cultivation of oilseeds on land set-aside under paragraph 3 first indent shall be taken into account for the respect of the limit of 1 million tonnes referred to in Article 56(3).

5. Where different yields are set for irrigated and non-irrigated land, the payment for set-aside for non-irrigated land apply.

6. Farmers may be granted the set-aside payment on land voluntarily set aside in excess of their obligation. Member States shall allow farmers to set-aside up to at least 10% of the area down to arable crops and for which a payment application is made, and left in set-aside pursuant to this Article. Higher percentages may be set by a Member State taking into account specific situations and ensuring sufficient occupation of farmland.

In case of application of Article 66, this paragraph shall apply according to detailed rules to be adopted by the Commission, in accordance with the procedure referred to in Article 144(2).

7. Farmers who make a payment application for an area no bigger than the area which would be needed to produce 92 tonnes of cereals, on the basis of the yields determined for their region, are not bound by the set-aside obligation. Paragraph 6 shall apply to these farmers.

8. Without prejudice to Article 108, areas:
   — set aside pursuant to agri-environment (Articles 22 to 24 of Council Regulation (EC) No 1257/1999), which are neither put to any agric-
cultural use nor used for any lucrative purposes other than those accepted for other land set aside under this Regulation, or

— afforested pursuant to afforestation (Article 31 of Regulation (EC) No 1257/1999),

as a result of an application made after 28 June 1995, may, up to any limit per holding which may be set by the Member State concerned, be counted as being set aside for the purposes of the set-aside requirement indicated in paragraph 1. Such limit shall be set only to the extent necessary to avoid a disproportionate amount of the available budget relating to the scheme in question being concentrated on a small number of farms.

However, on these areas, the area payment specified in Article 104 of this Regulation shall not be granted and the support granted under Article 24(1) or Article 31(1), second indent of Regulation (EC) No 1257/1999 shall be limited to an amount equal at most to the area payment for set aside specified in Article 104 of this Regulation.

Member States may decide not to apply the scheme provided for in this paragraph to a new applicant in any region in which there is a continuing risk of a significant overshoot of the regional base area.

9. Set aside areas shall not be less than 0,1 ha in size and 10 metres wide. For duly justified environmental reasons, Member States may accept areas at least 5 metres wide and 0,05 ha in size.

Article 108
Eligible land

Applications for payments may not be made in respect of land which, at the date provided for the area aid applications for 2003, was under permanent pasture, permanent crops or trees or was used for non-agricultural purposes.

For the new Member States, applications for payments may not be made in respect of land which, on 30 June 2003, was under permanent pasture, permanent crops or trees or was used for non-agricultural purposes. However, for Bulgaria and Romania, applications for payment may not be made in respect of land which, on 30 June 2005, was under permanent pasture, permanent crops or trees or was used for non-agricultural purposes.

Member States may, on terms to be determined in accordance with the procedure referred to in Article 144(2), derogate from the first or second subparagraph of this Article provided that they take action to prevent any significant increase in the total eligible agricultural area.

Article 109
Sowing and application

In order to qualify for the area payment, a farmer shall by 31 May at the latest preceding the relevant harvest have sown the seed and by 15 May at the latest have lodged an application.

Article 110
Implementing rules

Detailed rules for the application of this Chapter shall be adopted in accordance with the procedure referred to in Article 144(2) and in particular:

— those relating to the establishment and management of base areas,
— those relating to the establishment of production regionalisation plans,
— those relating to grass silage,
— those relating to the granting of the area payment,
— those relating to the minimum area eligible for payment; such rules shall take particular account of the monitoring requirements and of the desired effectiveness of the scheme in question,
— those determining, for durum wheat, the eligibility for the supplement to the area payment and the eligibility requirements for the special aid, and in particular determination of the regions to be taken into consideration,
— those relating to set-aside, and in particular those relating to Article 107(3); these conditions shall define the fodder legumes that may be grown on land set aside and, with regard to the first indent of the first paragraph of that paragraph, may include the growing of crops without compensation.

According to the same procedure, the Commission may:
— either make the granting of payments subject to the use of:
  (i) specific seeds;
  (ii) certified seed in the case of durum wheat and flax and hemp grown for fibre;
  (iii) certain varieties in the cases of oilseeds, durum wheat, linseed and flax and hemp grown for fibre,
— or provide for the possibility for Member States to make the grant of payments subject to such conditions,
— allow the dates in Article 109 to be varied in certain zones where exceptional climatic conditions render the normal dates inapplicable.

CHAPTER 10A
CROP SPECIFIC PAYMENT FOR COTTON

Article 110a
Scope
Aid shall be granted to farmers producing cotton falling within CN code 5201 00 under the conditions laid down in this Chapter.

Article 110b
Eligibility
1. The aid shall be granted per hectare of eligible area of cotton. In order to be eligible, the area shall be located on agricultural land authorised by the Member State for cotton production, sown under authorised varieties and actually harvested under normal growing conditions.

The aid referred to in Article 110a shall be paid for cotton of sound and fair merchantable quality.

2. Member States shall authorise the land and the varieties as referred to in paragraph 1 of this Article in accordance with detailed rules and conditions adopted in accordance with the procedure referred to in Article 144(2).
Article 110c

Base areas, fixed yields and reference amounts

1. The national base areas are hereby established as follows:
   — Bulgaria: 3 342 ha,
   — Greece: 250 000 ha,
   — Spain: 48 000 ha,

Member States may decide to supplement the global amounts set out in paragraph 3 of this Article by reducing the amounts of the payments referred to in Article 113. The reduction in the amounts, which may be applied on a regional basis, shall not exceed one euro.

The payments shall be made, on a yearly basis, according to objective criteria including, in particular, the relevant production structures and conditions, and in such a way as to ensure equal treatment between producers and to avoid market and competition distortions. Moreover, such payments shall not be linked to fluctuations of market prices. They may be made on a regional basis.

2. Payments may include, in particular, the following:

— payments to farmers engaged in specific types of production, in particular related to quality, which are important for the local economy or the protection of the environment;

— an increase in the premium set out in Article 113. The additional amounts may be subject to the application of stocking density requirements, to be determined by the Member State according to local conditions;

— support for restructuring of farmers' holdings or the development of producers' organisations;

— area payments to farmers, to be granted per hectare of forage area, which is available to a farmer during the calendar year concerned and in respect of which no payments are claimed for the same year under the support system for farmers producing certain arable crops, under the aid system for dried fodder and under Community aid schemes for other permanent or horticultural crops;

— payments to farmers who surrender their rights on a voluntary basis pursuant to Article 117(2);

3. To qualify for the special premium:

(a) any animal covered by an application shall be held by the farmer for fattening for a period to be determined,

(b) each animal shall be covered until slaughter or until export by an animal passport referred to in Article 6 of Regulation (EC) No 1760/2000 of the European Parliament and of the Council of 17 July 2000 establishing a system for the identification and registration of bovine animals and regarding the labelling of beef and beef products (1) containing all relevant information on its premium status or, if not available, an equivalent administrative document.

4. When in a given region the total number of bulls from the age of nine months and of steers from nine months to 20 months of age, for which an application has been made and which satisfy the conditions for granting the special premium exceeds the regional ceiling referred to

in paragraph 8, the number of all eligible animals under paragraph 2(a) and (b) per farmer for the year in question shall be reduced proportionately.

Within the meaning of this Article, ‘regional ceiling’ shall mean the number of animals entitled to benefit, in a region and per calendar year, from the special premium.

5. By way of derogation from paragraphs 1 and 4, Member States may:

— on the basis of objective criteria that are part of a rural development policy and only on the condition that they take into account environmental as well as employment aspects, change or waive the headage limit of 90 animals per holding and age bracket, and,

— where exercising this power, decide to apply paragraph 4 in such a way as to reach the level of reductions required to comply with the applicable regional ceiling, without applying such reductions to small farmers who, in respect of the year in question, did not submit special premium applications for more than a minimum number of animals determined by the Member State concerned.

6. Member States may decide to grant the special premium at the time of slaughter. In this case, for bulls the age criterion referred to in paragraph 2(a) shall be replaced by a minimum carcass weight of 185 kilograms.

The premium shall be paid or passed back to the farmers.

The United Kingdom shall be authorised to apply in Northern Ireland a system for granting the special premium which differs from that applied in the remainder of its territory.

7. The amount of the special premium shall be set at:

(a) EUR 210 per eligible bull;
(b) EUR 150 per eligible steer and age bracket.

8. The following regional ceilings shall apply:

Article 124
Deseasonalisation premium

1. In case of application of Article 71 where, in a Member State the number of steers:

   (a) slaughtered in a given year exceeds 60 % of total annual slaughteerings of male bovine animals, and

   (b) slaughtered during the period 1 September to 30 November in a given year exceeds 35 % of total annual slaughterings of steers,

farmers may qualify, on application, for an additional premium to the special premium (deseasonalisation premium). However, if both triggering rates referred to above are reached in Ireland or in Northern Ireland, the premium shall apply in Ireland and in Northern Ireland.

For the purpose of applying this Article in the United Kingdom, Northern Ireland shall be regarded as a separate entity.

2. The amount of this premium shall be set at:

   — EUR 72,45 per animal slaughtered during the first 15 weeks in a given year,

   — EUR 54,34 per animal slaughtered during the 16th and 17th weeks in a given year,

   — EUR 36,23 per animal slaughtered during the 18th to the 21st week in a given year, and

   — EUR 18,11 per animal slaughtered during the 22nd and 23rd weeks in a given year.

3. Where the rate referred to in paragraph 1(b) is not achieved, taking into account the penultimate sentence of paragraph 1, Member States whose farmers have previously received the deseasonalisation premium may decide to grant this premium at the rate of 60 % of the amounts set in paragraph 2.

In such case, the Member State concerned:

   (a) may decide to grant this premium for the first two or three of the periods in question only,

   (b) shall ensure the measure is financially neutral in respect of the same budget year by accordingly reducing:

      — the amount of the second age bracket of the special premium applicable to steers granted in that Member State, and/or
— the additional payments to be made under Section 2, and shall
inform the Commission of the reduction measure applied.

For the purpose of applying this measure, Ireland and Northern Ireland
shall be regarded as one entity for the calculation of the rate referred to
in paragraph 1(a) and consequently for qualification for the premium.

4. In order to establish whether the percentages referred to in this
Article have been exceeded, account shall be taken of slaughterings
carried out during the second year preceding that in which the animal
qualifying for the premium was slaughtered.

Article 125

Suckler cow premium

1. A farmer keeping suckler cows on his holding may qualify, on
application, for a premium for maintaining suckler cows (suckler cow
premium). It shall be granted in the form of an annual premium per
calendar year and per farmer within the limits of individual ceilings.

2. The suckler cow premium shall be granted to any farmer:

(a) not supplying milk or milk products from his farm for 12 months
from the day on which the application is lodged.

The supply of milk or milk products directly from the holding to the
consumer shall not, however, prevent grant of the premium,
(b) supplying milk or milk products whose total individual reference
quantity as referred to in Article 4 of Regulation (EEC) No 3950/92
does not exceed 120 000 kilograms. However, Member States may
decide on the basis of objective criteria, which they determine, to
change or waive this quantitative limit,

provided that the farmer keeps, for at least six consecutive months from
the day on which the application is lodged a number of suckler cows at
least equal to 60 % and of heifers at most equal to 40 % of the number
for which the premium was requested.

For the purposes of determining the number of eligible animals under
points (a) and (b) of the first paragraph of paragraph 2 of this Article,
whether cows belong to a suckler herd or to a dairy herd shall be
established on the basis of the beneficiary's individual reference
quantity as defined in Article 95(2) and the average milk yield.

3. The farmers' entitlement to the premium shall be limited by the
application of an individual ceiling as defined in Article 126.

4. Per eligible animal, the amount of the premium shall be set at
EUR 200.

5. In case of application of Article 68(a)(i), Member States may grant
an additional national suckler cow premium, up to a maximum of EUR
50 per animal, provided that no discrimination is caused between stock-
farmers in the Member State concerned.

In respect of holdings located in a region as defined in Articles 3 and 6
down general provisions on the Structural Funds (1), the first EUR
24.15 per animal of this additional premium shall be financed by the
Guarantee Section of the European Guidance and Guarantee Fund
(EAGGF).

In respect of holdings located throughout the territory of a Member
State, if in the Member State concerned the cattle population has a
high proportion of suckler cows, representing at least 30 % of the
total number of cows, and if at least 30 % of male bovine animals

slaughtered belong to conformation classes S and E, the Guarantee Section of EAGGF shall finance the additional premium in total. Any overshoot of these percentages is established on the basis of the average of the two years preceding that for which the premium is granted.

6. For the purposes of this Article, only heifers belonging to a meat breed or born of a cross with a meat breed and belonging to a herd intended for rearing calves for meat production shall be taken into account.

Article 126

Individual ceiling for suckler cow

1. An aid shall be granted to each farmer of suckler cows within the limit of the individual ceilings established in application of Article 7 of Regulation (EC) No 1254/1999 or of the second subparagraph of paragraph 2.

2. Member States shall take the necessary steps to ensure that the sum of premium rights on their territory does not exceed the national ceilings set out in paragraph 5 and that the national reserves referred to in Article 128 may be maintained.

Except in cases where Article 143b is applied, the new Member States shall allocate individual ceilings to producers and shall set up the national reserves from the overall number of rights to the premium reserved for each of these Member States as set out in paragraph 5, no later than one year after the date of accession.

After the end of the period of application of the single area payment scheme according to Article 143b and where Article 68(2)(a)(i) is applied, the allocation of the individual ceilings to producers and the setting up of the national reserve referred to in the second subparagraph shall take place no later than the end of the first year of the application of the single payment scheme.

3. Where the adjustment referred to in paragraph 2 requires a reduction of individual ceilings held by farmers, it shall be carried out without compensatory payment and decided on the basis of objective criteria, including, in particular:

— the rate at which farmers have used their individual ceilings during the three reference years prior to the year 2000,
— the implementation of an investment or extensification programme in the beef and veal sector,
— particular natural circumstances or the application of penalties, resulting in a non-payment or a reduced payment of the premium for at least one reference year,
— additional exceptional circumstances having the effect that the payments made for at least one reference year do not correspond to the actual situation as established during the previous years.

4. Premium rights which have been withdrawn pursuant to the measure provided for in paragraph 2 shall be abolished.

5. The following national ceilings shall apply:

**Article 127**

**Transfer of suckler cow premium rights**

1. When a farmer sells or otherwise transfers his holding, he may transfer all his suckler cow premium rights to the person who takes over his holding. He may also transfer, in whole or in part, his rights to other farmers without transferring his holding.

In the case of transfer of premium rights without transfer of the holding a part of the transferred rights, which shall not exceed 15 %, shall be returned without compensatory payment to the national reserve of the Member State where the holding is situated for redistribution free of charge.

2. The Member States:

   (a) shall take the necessary measures to prevent premium rights being transferred outside sensitive areas or regions where beef and veal production is particularly important for the local economy;

   (b) may provide either that the transfer of rights without transfer of the holding is carried out directly between farmers or that it is carried out through the intermediary of the national reserve.

3. Member States may authorise, before a date to be determined, temporary transfers of part of the premium rights which are not intended to be used by the farmer who holds them.
National reserve of suckler cow premium rights

1. Each Member State shall maintain a national reserve of suckler cow premium rights.

2. Any premium rights withdrawn pursuant to Article 127(1) or other Community provisions shall be added to the national reserve, without prejudice to Article 126(4).

3. The Member States shall use their national reserves for allocating, within the limits of those reserves, premium rights in particular to newcomers, young farmers and other priority farmers.

Heifers

1. By way of derogation from Article 125(3), Member States where more than 60 % of suckler cows and heifers are kept in mountain areas within the meaning of Article 18 of Council Regulation (EC) No 1257/1999 may decide to manage the granting of the suckler cow premium for heifers separately from that for suckler cows within the limits of a separate national ceiling to be set up by the Member State concerned.

Such separate national ceiling shall not exceed 40 % of the national ceiling of the Member State concerned set out in Article 126(5). That national ceiling shall be reduced by an amount equal to the separate national ceiling. When in a Member State exercising the power provided for in this paragraph, the total number of heifers, for which an application has been made, and which satisfy the conditions for granting the suckler cow premium, exceeds the separate national ceiling, the number of eligible heifers per farmer for the year in question shall be reduced proportionately.

2. For the purpose of this Article, only heifers belonging to a meat breed or born of a cross with a meat breed shall be taken into account.

Slaughter premium

1. A farmer keeping bovine animals on his holding may qualify, on application, for a slaughter premium. It shall be granted on slaughter of eligible animals or their export to a third country and within national ceilings to be determined.

The following shall be eligible for the slaughter premium:

(a) bulls, steers, cows and heifers from the age of eight months,
(b) calves of more than one and less than eight months old and of carcass weight up to 185 kg,

provided they have been held by the farmer for a period to be determined.

2. The amount of the premium shall be set at:

(a) EUR 80 per eligible animal as specified under paragraph 1(a);
(b) EUR 50 per eligible animal as specified under paragraph 1(b).

3. The national ceilings referred to in paragraph 1 shall be established per Member State and separately for both groups of animals as specified in (a) and (b) thereof. Each ceiling shall be equal to the number of animals of each of these two groups which in 1995 were slaughtered in the Member State concerned to which are added those animals exported to third countries, according to Eurostat data or any other published official statistical information for that year accepted by the Commission.
For the new Member States the national ceilings shall be those contained in the following table:

4. When in a given Member State the total number of animals, for which an application has been made in respect of one of the two groups of animals specified in (a) or (b) of paragraph 1, and which satisfy the conditions for granting the slaughter premium exceeds the national ceiling laid down for that group, the number of all eligible animals under that group per farmer for the year in question shall be reduced proportionately.

*Article 131*

**Stocking density**

1. In case of application of Article 71, the total number of animals qualifying for the special premium and the suckler-cow premium shall be limited by the application of a stocking density on the holding of two livestock units (LU) per hectare and calendar year. The stocking density shall be 1,8 LU from 1 January 2003. This stocking density shall be expressed in LU per unit of forage area of the holding used for the animals carried on it. However, a farmer shall be exempt from the application of the stocking density if the number of animals held on his holding and to be taken into account for determining the stocking density is not more than 15 LU.

2. For determining the stocking density on the holding, account shall be taken of:

   (a) the male bovine animals, suckler cows and heifers, sheep and/or goats for which premium applications have been submitted, as well as the dairy cows needed to produce the total reference quantity of milk allocated to the farmer. The number of animals shall be converted to LU by reference to the following conversion table:

<table>
<thead>
<tr>
<th>Animal Category</th>
<th>Conversion Factor</th>
</tr>
</thead>
<tbody>
<tr>
<td>Male bovine animals and heifers older than 24 months, suckler cows, dairy cows</td>
<td>1,0 LU</td>
</tr>
<tr>
<td>Male bovine animals and heifers from six months to 24 months</td>
<td>0,6 LU</td>
</tr>
<tr>
<td>Sheep</td>
<td>0,15 LU</td>
</tr>
<tr>
<td>Goats</td>
<td>0,15 LU</td>
</tr>
</tbody>
</table>
(b) the forage area, meaning the area of the holding available throughout the calendar year for rearing bovine animals and sheep and/or goats. The forage area shall not include:

— buildings, woods, ponds, paths,

— areas used for other crops eligible for Community aid or for permanent crops or horticultural crops, except permanent pasture for which area payments are granted pursuant to Article 136 or, as the case may be, Article 96,

— areas qualifying for the support system laid down for the farmers producing certain arable crops, used for the aid scheme for dried fodder or subject to a national or Community set-aside scheme.

Forage area shall include areas in shared use and areas which are subject to mixed cultivation.

Article 132

Extensification payment

1. In case of application of Article 71, farmers receiving the special premium and/or the suckler cow premium may qualify for an extensification payment.

2. The extensification payment shall be EUR 100 per special premium and suckler cow premium granted, provided that in respect of the calendar year concerned the stocking density on the holding concerned is less than or equal to 1.4 LU per hectare.

However, Member States may decide to grant the extensification payment at an amount of EUR 40 for a stocking density of 1.4 LU per hectare or more and less or equal to 1.8 LU per hectare, and at an amount of EUR 80 for a stocking density of less than 1.4 LU per hectare.

3. For the purposes of the application of paragraph 2:

(a) by way of derogation from Article 131(2)(a), the stocking density of the holdings shall be determined by taking into account the male bovine animals, cows, and heifers present thereon during the calendar year concerned, as well as the sheep and/or goats for which premium applications have been submitted for the same calendar year. The number of animals shall be converted to LU by reference to the conversion table referred to in Article 131(2)(a);

(b) without prejudice to the third indent of Article 131(2)(b), areas used for the production of arable crops as defined in Annex IX shall not be taken as ‘forage area’;

(c) the forage area to be taken into account for the calculation of the stocking density shall consist of at least 50 % of pasture land.

‘Pasture land’ shall be defined by Member States. The definition shall include at least the criterion that pasture land shall be grassland which, following the local farming practices is recognised as being destined for grazing bovine animals and/or sheep. However, this shall not exclude the mixed use of pasture land during the same year (pasture, hay, grass silage).

4. Without prejudice to the stocking density requirements set out in paragraph 2 of this Article, farmers in Member States where more than 50 % of milk production takes place in mountain areas within the meaning of Article 18 of Regulation (EC) No 1257/1999 and whose holdings are located in such areas, may receive extensification payments as set out in that paragraph for the dairy cows kept thereon.

5. In accordance with the procedure referred to in Article 144(2), the Commission shall if necessary, adjust the amounts set out in paragraph 2 of this Article, taking account, in particular, of the number of animals qualifying for the payment for the preceding calendar year.
Article 133

Additional payments

1. In case of application of Article 71, Member States shall, on a yearly basis, make additional payments to farmers in their territory totalling the global amounts set out in paragraph 3 of this Article. Such payments shall be made according to objective criteria including, in particular, the relevant production structures and conditions, and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortions. Moreover, such payments shall not be linked to fluctuations of market prices.

2. Additional payments may be made in the form of headage payments and/or area payments.

Article 134

Headage payments

1. Headage payments may be granted for:

(a) male bovine animals,
(b) suckler cows,
(c) dairy cows,
(d) heifers.

2. Headage payments may be granted as supplementary amounts per slaughter premium unit as set out in Article 130, except for calves. In the other cases, the grant of headage payments shall be subject:

(a) to the special conditions set out in Article 135,

(b) to specific stocking density requirements to be established by Member States.

3. The specific stocking density requirements shall be established:

— on the basis of the forage area referred to in Article 131(2)(b), with the exception of areas for which area payments are granted in accordance with Article 136,

— taking account of, in particular, the environmental impact of the type of production concerned, the environmental sensitivity of the land used for rearing cattle and the measures which have been implemented with a view to stabilise or improve the environmental situation of this land.

**Article 135**

**Conditions for the headage payment**

1. Headage payments for male bovine animals may be granted per calendar year for no more than a number of animals in a Member State:

   — equal to the regional ceiling of the Member State concerned set out in Article 123(8), or

   — equal to the number of male bovine animals for which premiums were granted in 1997, or

   — equal to the average number of slaughterings of male bovine animals during the years 1997, 1998 and 1999 deriving from Eurostat statistics for these years or any other published official statistical information for these years accepted by the Commission, or

   — for the new Member States: equal to the ceilings set out in Article 123(8) or equal to the average number of slaughterings of male bovine animals during the years 2001, 2002 and 2003 deriving from Eurostat statistics for these years or any other published official statistical information for these years accepted by the Commission.

Member States may also provide for a headage limit of number of male bovine animals per holding to be determined by the Member State on a national or regional basis.

Only male bovine animals from the age of eight months shall be eligible. If headage payments are made at the time of slaughter, Member States may decide to replace this condition by a minimum carcase weight of at least 180 kilograms.

2. Headage payments for suckler cows and heifers qualifying for suckler cow premium under Article 125(4) and Article 129 may only be granted as a supplementary amount per suckler cow premium unit as set out in Article 125(4).

3. Headage payments for dairy cows may only be granted as amount per tonne of reference quantity eligible for premium available on the holding to be established in accordance with Article 95(2).

Article 134(2)(b) shall not apply.

4. Headage payments for heifers other than those referred to in paragraph 2 may be granted per Member State and calendar year for no more than a number of heifers equal to the average number of
slaughterings of heifers during the years 1997, 1998 and 1999 deriving from Eurostat statistics for these years or any other published official statistical information for these years accepted by the Commission. ►M2 For the new Member States the reference years shall be 2001, 2002 and 2003. ◄

Article 136

Area payments

1. Area payments shall be granted per hectare of permanent pasture:

(a) which is available to a farmer during the calendar year concerned,
(b) which is not used to comply with the specific stocking density requirements referred to in Article 134(3), and
(c) in respect of which no payments under the support system laid down for farmers producing certain arable crops, under the aid system for dried fodder and under Community aid schemes for other permanent or horticultural crops are claimed for the same year.

2. The area of permanent pasture in a region for which area payments may be granted shall not exceed the relevant regional base area.

Regional base areas shall be established by Member States as the average number of hectares of permanent pasture available for rearing bovine animals during the years 1995, 1996 and 1997. ►M2 For the new Member States the reference years shall be 1999, 2000 and 2001. ◄

3. The maximum area payment per hectare which may be granted, including, as the case may be, area payments pursuant to Article 96 shall not exceed EUR 350.

Article 136a

Conditions of application in the new Member States

In the new Member States, the global amounts referred to in Article 133 (3) and the maximum area payment per hectare at EUR 350 referred to in Article 136(3) shall be applied in accordance with the schedule of increments as set out in Article 143a.

Article 137

Transmission of information

Any changes of national arrangements concerning the granting of additional payments shall be communicated to the Commission not later than one month after their adoption.

Article 138

Common provisions

To qualify for direct payments under this chapter, an animal shall be identified and registered in accordance with Regulation (EC) No 1760/2000.

Nevertheless, an animal shall also be deemed eligible for the payment where the information laid down in the second indent of Article 7(1) of Regulation (EC) No 1760/2000 has been reported to the competent authority on the first day of the animal’s retention period, as determined in accordance with the procedure referred to in Article 144(2) of this Regulation.

However for Lithuania the reference year shall be the calendar year 2002. For Bulgaria and Romania the reference year shall be the calendar year 2006. For Slovenia the increase shall be 10 percentage points in 2004, 15 percentage points in 2005, 20 percentage points in 2006 and 25 percentage points from 2007;

(ii) with regard to the single payment scheme the total amount of complementary national direct aid which may be granted by a new Member State in respect of a given year shall be limited by a specific financial envelope. This envelope shall be equal to the difference between:

— the total amount of CAP-like national direct support that would be available in the relevant new Member State in respect of the calendar year 2003 or, in the case of Lithuania, of the calendar year 2002, each time increased by 10 percentage points. The total amounts of complementary national aid to be granted shall be those indicated in Annex XII.

The complementary national aid to be granted shall be subject to any adjustments which may be rendered necessary by developments in the common agricultural policy.

The paragraphs 2 and 5 shall not apply to Cyprus.

4. If a new Member State decides to apply the single area payment scheme, that new Member State may grant complementary national direct aid under the conditions referred to in paragraphs 5 and 8.

In respect of any year as from 2005 the requirement to operate the above limitation by means of applying (sub)sector specific financial envelopes shall not apply. However, the new Member States shall retain the right to apply (sub)sector specific financial envelopes, provided that such a (sub)sector specific financial envelope may only relate to

— the direct payments combined to the single payment scheme, and/or

— one or more of the direct payments that are excluded or may be excluded from the single payment scheme in accordance with Article 70(2) or may be subject to partial implementation as referred to in Article 64(2).

6. The new Member State may decide on the basis of objective criteria and after authorisation by the Commission, on the amounts of complementary national aid to be granted.

7. The authorisation by the Commission shall:

— where point (b) of paragraph 2 applies, specify the relevant CAPlike national direct payment schemes,

8. No complementary national payments or aid shall be granted for agricultural activities in respect of which direct payments are not foreseen in the Community as constituted on 30 April 2004.

9. Cyprus may, in addition to the complementary national direct payments, grant transitional and degressive national aid until the end of 2010. This State aid shall be granted in a form similar to Community aid, such as decoupled payments.

Taking into account the nature and amount of national support granted in 2001, Cyprus may grant State aid to the (sub)sectors listed in Annex XIII and up to the amounts specified in that Annex.

The State aid to be granted shall be subject to any adjustments which may be rendered necessary by developments in the common agricultural policy. Should such adjustments prove necessary, the amount of the aid or the conditions for the granting thereof shall be amended on the basis of a decision by the Commission.

Cyprus shall submit an annual report to the Commission on the implementation of the State aid measures, indicating the aid forms and amounts per (sub)sector.

Latvia may grant State aid to the (sub)sectors listed in Annex XIV up to the amounts specified in that Annex.

The State aid to be granted shall be subject to any adjustments which may be rendered necessary by developments in the common agricultural policy. Should such adjustments prove necessary, the amount of the aid or the conditions for the granting thereof shall be amended on the basis of a decision by the Commission.

ANNEX VII

Calculation of the reference amount referred to in Article 37

A. Area aids

1. Where a farmer has received area aids, the number of hectares, to two decimal places, for which a payment has been granted, respectively, in each year of the reference period, shall be multiplied by the following amounts:

1.1. For cereals, including durum wheat, oilseeds, protein crops, linseed, flax and hemp grown for fibre, grass silage and set-aside:

— EUR 63/t multiplied by the yield as provided for in Article 4(2) of Regulation (EC) No 1251/1999 determined in the regionalisation plan for the region concerned applicable in the calendar year 2002.

This point shall apply without prejudice to the provisions laid down by Member States in application of Article 6(6) of Regulation (EC) No 1251/1999.

By way of derogation from Article 38, for flax and hemp, the average shall be calculated on the basis of the number hectares for which a payment was granted in the calendar year 2001 and 2002.

1.2. For rice:

— EUR 102/t multiplied by the following average yields:

<table>
<thead>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td>Spain</td>
<td>6,35</td>

<td>Greece</td>
<td>7,48</td>
</tr>
<tr>
<td>Italy</td>
<td>6,04</td>
</tr>
<tr>
<td>Portugal</td>
<td>6,05</td>
</tr>
</tbody>
</table>

1.3. For grain legumes:

— for lentils and chick peas, EUR 181/ha

— for vetches, respectively, EUR 175,02/ha in 2000, EUR 176,60/ha in 2001 and EUR 150,52/ha in 2002.

2. Where a farmer has received durum wheat supplement or special aid, the number of hectares, to two decimal places, for which such a payment has been granted, respectively, in each year of the reference period, shall be multiplied by the following amounts:

In the zones listed in Annex II of Regulation (EC) No 1251/1999 and in Annex IV of Regulation (EC) No 2316/1999:

— EUR 291/ha for the single payment to be granted for the calendar year 2005,

— EUR 285/ha for the single payment to be granted for the calendar year 2006 and subsequent calendar years.

In the zones listed in Annex V of Regulation (EC) No 2316/1999:

— EUR 46/ha for the single payment to be granted for the calendar year 2005.

3. For the purpose of the preceding points, ‘number of hectares’ shall mean the determined number of hectares corresponding to each different type of area aid listed in Annex VI of this Regulation, for which all the conditions laid down in the rules for the granting of the aid have been met, taking into account the application of Articles 2(4) and 5 of Regulation (EC) No 1251/1999. In case of rice, by way of derogation to Article 6(5) of Council Regulation (EC) No 3072/95, where the areas given over to rice in one Member State in the reference period exceeded
its Maximum Guaranteed Area for this period, the amount per hectare shall be reduced proportionally.

B. Potato starch payment

Where a farmer has received potato starch payment, the amount shall be calculated by multiplying the number of tonnes for which such a payment has been granted, respectively, in each year of the reference period, by EUR 44.22 per tonne of potato starch. Member states shall calculate the number of hectares to be included in calculation of the single payment proportionately to the number of tonnes of potato starch produced for which the aid provided for in Article 8(2) of Regulation (EEC) No 1766/92 has been granted, respectively, in each year of the reference period, and within the limits of a base area to be fixed by the Commission on the basis of the number of hectares, covered by a cultivation contract in the reference period, communicated by Member States.

C. Livestock premiums and supplements

Where a farmer has received livestock premiums and/or supplements, the amount shall be calculated by multiplying the number of determined animals for which such a payment has been granted, respectively, in each year of the reference period, by the amounts per head established for the calendar year 2002 by the corresponding Articles referred to in Annex VI, taking into account the application of Article 4(4), Article 7(2) and Article 10(1) of Regulation (EC) No 1254/1999 or Article 8(3) of Regulation (EC) No 2529/2001.

By way of derogation from Article 38, for sheep and goat additional payments granted on the basis of Article 11(2) first, second and fourth indent of Regulation (EC) No 2529/2001, the average shall be calculated on the basis of the number of animals for which the payment has been granted in the calendar year 2002.

However, the payments under Article 4(2) second subparagraph of Regulation (EC) No 1254/1999, shall not be taken into account.

Moreover, by way of derogation from Article 38, in case of application of Article 32(11) and (12) of Commission Regulation (EC) No 2342/1999 and Article 4 of Commission Regulation (EC) No 1458/2001, the number of animals, for which a payment was granted in the year during which such measures were applied, to be taken into account for the calculation of the reference amount, shall not be higher than the average of the number of animals for which a payment was granted in the year/years during which such measures were not applied.

D. Dried fodder

When a farmer has delivered fodder under a contract as provided for in Article 9 (c) of Regulation (EC) No 603/95 or a declaration of areas as under Article 10 of the same Regulation, Member States shall calculate the amount to be included in the reference amount proportionately to the number of tonnes of dried fodder produced for which the aid provided for in Article 3 of that Regulation has been granted, respectively, in each year of the reference period, and within the limits of the following ceilings expressed in EUR millions:

<table>

<tr>

Member States shall calculate the number of hectares to be included in calculation of the reference amounts proportionately to the number of tonnes of dried fodder produced for which the aid provided for in Article 3 of Regulation (EC) No 603/95 has been granted, respectively, in each year of the reference period, and within the limits of a base area to be fixed by the Commission on the basis of the number of hectares, covered by a cultivation contract or a declaration of areas in the reference period, communicated by Member States.

### E. Regional aids

In the regions concerned, the following amounts shall be included in the calculation of the reference amount:

- EUR 24/t multiplied by the yields utilised for the area payments for cereals, oilseeds, linseed and flax and hemp grown for fibre in the regions indicated in Article 4(4) of Regulation (EC) No 1251/1999;

- the amount per head as provided for in Article 9(1)(a) and (b) of Regulation (EC) No 1452/2001, Articles 13(2) and (3), 22(2) and (3) of Regulation (EC) No 1453/2001, Article 5(2) and (3), 6(1) and (2) of Regulation (EC) No 1454/2001, multiplied by the number of animals for which such a payment has been granted in 2002;

- the amount per head as provided for in Article 6(2) and (3) of Regulation (EEC) No 2019/93 multiplied by the number of animals for which such a payment has been granted in 2002.

### F. Seed aids

Where a farmer has received seed production aid, the amount shall be calculated by multiplying the number of tonnes for which such a payment has been granted, respectively, in each year of the reference period, by the amount per tonne established in application of Article 3 of Regulation (EEC) No 2358/71. Member States shall calculate the number of hectares to be included in calculation of the single payment proportionately to area accepted for certification for which the aid provided for in Article 3 of Regulation (EEC) No 2358/71 has been granted, respectively, in each year of the reference period, and within the limits of a base area to be fixed by the Commission on the basis of the total area accepted for certification as communicated to the Commission according to Regulation (EEC) No 3083/73. This total area shall not include the area accepted for certification for rice (*Oryza sativa* L.), spelt (*Triticum spelta* L.), and fibre and oil flax (*Linum usitatissimum* L.) and hemp (*Cannabis sativa* L.) that already has been declared for arable crops.

### G. Cotton

Where a farmer has declared areas sown under cotton, Member States shall calculate the amount to be included in the reference amount by multiplying the number of hectares, to two decimal places, which produced cotton that was granted aid pursuant to paragraph 3 of Protocol 4 on cotton (1) in each year of the reference period, by the following amounts per hectare:

- EUR 966 for Greece,

---

— EUR 1 509 for Spain,
— EUR 1 202 for Portugal.

H. Olive oil

Where a farmer has received olive oil production aid, the amount shall be calculated by multiplying the number of tonnes for which such a payment has been granted in the reference period (i.e. respectively, in each of the marketing years 1999/2000, 2000/01, 2001/02 and 2002/03) by the corresponding unit amount of aid, expressed in EUR/tonne, as fixed in Commission Regulations (EC) No 1415/2001 (1), (EC) No 1271/2002 (2), (EC) No 1221/2003 (3) and (EC) No 1299/2004 (4), and multiplied by a 0.6 coefficient. However, Member States may decide by 1 August 2005 to increase this coefficient. This coefficient shall not be applied to farmers whose average number of olive GIS-ha during the reference period, excluding the number of olive GIS-ha corresponding to additional trees planted outside any approved planting scheme after 1 May 1998, is less than 0.3. The number of olive GIS-ha shall be calculated by a common method to be established in accordance with the procedure referred to in Article 144(2) and on the basis of data from the geographic information system for olive cultivation.

Where the aid payments during the reference period have been affected by application of the measures laid down in Article 2(3) of Regulation (EEC) No 1638/98 (5), the calculation mentioned in the third subparagraph shall be adjusted as follows:

— where the measures were applied to only one marketing year, the number of tonnes to be taken into account for the year concerned shall be equal to the number of tonnes for which aid would have been granted had the measures not been applied,
— where the measures were applied to two consecutive marketing years, the number of tonnes to be taken into account for the first year concerned shall be established in accordance with the first indent, and the number of tonnes to be taken into account for the following year shall be equal to the number of tonnes for which aid was granted in respect of the last marketing year before the reference period which has not been affected by an application of the said measures.

Member States shall calculate the number of hectares to be included in the calculation of the single payment as the number of olive GIS-ha obtained by a common method to be established in accordance with the procedure referred to in Article 144(2) and on the basis of data from the geographic information system for olive cultivation, excluding the number of olive GIS-ha of additional trees planted outside an approved planting scheme after 1 May 1998, except for Cyprus and Malta, for which the date shall be 31 December 2001.

I. Raw tobacco

Where a farmer has received a tobacco premium payment, the amount to be included in the reference amount shall be calculated by multiplying the three-year average number of kilograms from which such a payment was granted, by the weighted three-year average aid amount granted per kilogram, taking into account the total quantity of raw tobacco of all variety groups and multiplied by a 0.4 coefficient. Member States may decide to increase this coefficient.

As from 2010 the coefficient shall be 0.5.

The number of hectares to be included in calculation of the single payment shall correspond to the area indicated in the registered cultivation contracts for which the premium payment has been granted, respectively, in each year of the reference period, and within the limits of a base area to be fixed by the Commission on the basis of the total area as communicated to the Commission in accordance with Annex I(1.3) to Commission Regulation (EC) No 2636/1999 (6).

Where the aid payments during the reference period have been affected by an application of the measures laid down in Article 50 of Regulation (EEC) No 191, 13.7.2001, p. 10.
(4) OJ L 244, 16.7.2004, p. 16.
(6) OJ L 323, 15.12.1999, p. 4;
No 2848/98, the calculation mentioned in the third subparagraph shall be adjusted as follows:

— where the premium has been partly or totally reduced, the amounts of payment to be taken into account for the year concerned shall be equal to the amounts which would have been granted without the reduction,

— where the production quota has been partly or totally reduced, the amounts of payment to be taken into account for the year concerned shall be equal to the premium amounts that would have been granted in the preceding year, without the reduction of the premium, provided that the production area indicated in the last cultivation contract was not used for the cultivation of a crop eligible under any other direct support scheme in the year concerned.

J. Hops

Where a farmer has received hops area aid or temporary resting aid, Member States shall calculate the amounts to be included in the reference amount by multiplying the number of hectares, to two decimal places, for which a payment has been granted, respectively, in each year of the reference period, by an amount of EUR 480 per hectare.

K. Sugar beet, cane and chicory

1. Member States shall determine the amount to be included in the reference amount of each farmer on the basis of objective and non-discriminatory criteria such as:

— the quantities of sugar beet, cane or chicory covered by delivery contracts concluded in accordance with Article 19 of Regulation (EC) No 1260/2001

— the quantities of sugar or inulin syrup produced in accordance with Regulation (EC) No 1260/2001

— the average number of hectares under sugar beet, cane or chicory used for the production of sugar or inulin syrup and covered by delivery contracts concluded in accordance with Article 19 of Regulation (EC) No 1260/2001

in respect of a representative period which could be different for each product of one or more marketing years from the marketing year 2000/2001 and, in case of the new Member States from the marketing year 2004/2005, up to the marketing year 2006/2007, and to be determined by Member States before 30 April 2006.

However, where the representative period includes the marketing year 2006/2007, this marketing year shall be replaced by the marketing year 2005/2006 for farmers affected by a renunciation of quota in the marketing year 2006/2007 as provided for in Article 3 of Regulation (EC) No 320/2006.

2. Where the sum of the amounts determined in accordance with point 1 in a Member State exceeds the ceiling expressed in thousands of euros as set out in Table 1 hereafter, the amount per farmer shall be reduced proportionally.

3. By way of derogation from point 2, where in the cases of Finland, Ireland, Portugal, Spain and the United Kingdom, the sum of the amounts determined in accordance with point 1 exceeds the sum of the ceilings set out for the Member State concerned in Table 1, and Table 2 hereafter, the amount per farmer shall be reduced proportionally.

However, the Member States referred to in the first subparagraph may retain up to 90% of the amount set out in Table 2 of the first subparagraph and use the amounts resulting therefrom in accordance with Article 69. In that case, the derogation referred to in the first subparagraph shall not apply.

4. Each Member State shall calculate the number of hectares referred to in Article 43(2)(a) proportionately to the amount determined in accordance with point 1 and according to objective and non-discriminatory criteria chosen to that end or on the basis of the number of hectares of sugar beet, cane and chicory declared by the farmers during the representative period fixed in accordance with point 1.

L. Bananas

Member States shall determine the amount to be included in the reference amount of each farmer on the basis of objective and non-discriminatory criteria such as:

(a) the quantity of bananas marketed by that farmer for which compensation for loss of income was paid under Article 12 of Regulation (EEC) No 404/93 during a representative period between the 2000 and 2005 marketing years;

(b) the areas on which the bananas referred to in point (a) were grown; and

(c) the amount of compensation for loss of income paid to the farmer during the period referred to in point (a).

Member States shall calculate the applicable hectares referred to in Article 43(2) of this Regulation on the basis of objective and non-discriminatory criteria such as the areas referred to in point (b).

M. Fruit and vegetables, ware potatoes and nurseries

Member States shall determine the amount to be included in the reference amount of each farmer on the basis of objective and non-discriminatory criteria such as:

— the amount of market support received, directly or indirectly, by the farmer in respect of fruit and vegetables, ware potatoes and nurseries,

— the area used to produce fruit and vegetables, ware potatoes and nurseries,

— the amount of fruit and vegetables produced, ware potatoes and nurseries, in respect of a representative period which could be different for each product, of one or more marketing years starting from the marketing year ending in 2001 and, in case of the Member States which acceded to the European Union on 1 May 2004 or after that date, from the marketing year ending in 2004, up to the marketing year ending in 2007.

Member States shall calculate the applicable hectares referred to in Article 43(2) on the basis of objective and non-discriminatory criteria such as the areas referred to in the second indent of the first paragraph.

The application of the criteria in this point may be varied between different fruit and vegetable products, ware potatoes and nurseries, if duly justified on an objective basis. On the same basis, Member States may decide not to
determine the amounts to be included in the reference amount and the applicable hectares under this point before the end of a transitional three year period ending on 31 December 2010.

For the purposes of this Regulation, ‘fruit and vegetables’ shall mean the products listed in Article 1(2) of Regulation (EC) No 2200/96 and in Article 1(2) of Regulation (EC) No 2201/96, and ‘ware potatoes’ shall mean potatoes of CN code 0701 other than those intended for the manufacture of potato starch for which aid is granted under Article 93.

N. Wine (grubbing-up)

Farmers who participate in the grubbing-up scheme laid down in Chapter III of Title V of Regulation (EC) No 479 shall be allocated, in the year following the grubbing-up, payment entitlements equal to the number of hectares for which they have received a grubbing-up premium.

The unit value of these payment entitlements shall be equal to the regional average of the value of the entitlements of the corresponding region. However, the unit value shall in any case not exceed EUR 350/ha.

O. Wine (transfer from support programmes)

Where Member States choose to provide support in accordance with Article 9 of Regulation (EC) No 479, they shall establish the reference amount of each farmer as well as the applicable hectares referred to in Article 43(2) of this Regulation:

— on the basis of objective and non-discriminatory criteria,

— in respect of a representative reference period of one or more wine years starting from the wine year 2005/2006. However, the reference criteria used to establish the reference amount and applicable hectares shall not be based on a reference period including wine years after the wine year 2007/2008 where the transfer in support programmes concerns compensation to farmers who have hitherto received support for potable alcohol distillation or have been the economic beneficiaries of the support for the use of concentrated grape must to enrich wine under Regulation (EC) No 479,

— which shall not exceed the overall available amount for this measure referred to in Article 6(e) of Regulation (EC) No 479.

(1) Grain measurements are taken on wholly milled rice by the following method:
   (i) take a sample representative of the batch;
   (ii) sieve the sample so as to retain only whole grains, including immature grains;
   (iii) carry out two measurements of 100 grains each and work out the average;
   (iv) express the results in millimetres, rounded off to one decimal place.

(2) The tetrahydrocannabinol (THC) content of a variety is determined by analysing a sample maintained at constant weight. The weight of THC in relation to the weight of the sample must - for the purposes of granting the aid - not be greater than 0.2 %. The sample is to consist of the upper third of a representative number of plants selected at random at the end of their flowering period and with stalks and seeds removed.
