PROCEDURES RELATING TO THE IMPLEMENTATION OF THE COMMON COMMERCIAL POLICY

COMMISSION

Notice of initiation of an expiry review of the anti-dumping measures applicable to imports of furfuryl alcohol originating in the People's Republic of China

(2008/C 275/10)

1. Request for review

The request was lodged on 30 July 2008 by International Furan Chemicals BV (‘the applicant’) on behalf of the sole producer in the Community representing 100% of the Community production of furfuryl alcohol.

2. Product

The product under review is furfuryl alcohol originating in the People's Republic of China (‘the product concerned’), currently classifiable within CN code ex 2932 13 00. This CN code is given only for information.

3. Existing measures

4. Grounds for the review

The request is based on the grounds that the expiry of measures would be likely to result in a continuation of dumping and recurrence of injury to the Community industry.

In view of the provisions of Article 2(7) of the basic Regulation, the applicant established normal value for the People's Republic of China on the basis of the price in an appropriate market economy country, which is mentioned in point 5.1(d). The allegation of a continuation of dumping is based on a comparison of normal value, established as set out in the preceding sentence, with the export prices of the product concerned when sold for export to the Community.

On this basis, the dumping margin calculated is significant.

The applicant further alleges the likelihood of further injurious dumping. In this respect the applicant presents evidence that imports of the product concerned from the People's Republic of China have increased in quantities and market share despite the existence of measures. Should measures be allowed to lapse, the current import level of the product concerned is likely to increase further due to the potential of the manufacturing facilities of the exporting producers in the country concerned.

In addition, the applicant alleges that the current improved situation with regard to injury is mainly due to the existence of measures and that any recurrence of substantial imports at dumped prices from the country concerned would likely lead to a recurrence of injury of the Community industry should measures be allowed to lapse.

5. Procedure

Having determined, after consulting the Advisory Committee, that sufficient evidence exists to justify the initiation of an expiry review, the Commission hereby initiates a review in accordance with Article 11(2) of the basic Regulation.

5.1. Procedure for the determination of likelihood of dumping and injury

The investigation will determine whether the expiry of the measures would be likely, or unlikely, to lead to a continuation or recurrence of dumping and injury.

(a) Sampling

In view of the apparent number of parties involved in this proceeding, the Commission may decide to apply sampling, in accordance with Article 17 of the basic Regulation.
(i) Sampling for exporters/producers in the People’s Republic of China

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all exporters/producers, or representatives acting on their behalf, are hereby requested to make themselves known by contacting the Commission and providing the following information on their company or companies within the time limit set in point 6(b)(i) and in the formats indicated in point 7:

— name, address, e-mail address, telephone and fax numbers and contact person,

— the turnover in local currency and the volume in tonnes of the product concerned sold for export to the Community during the period from 1 October 2007 to 30 September 2008 (investigation period — IP),

— the turnover in local currency and the sales volume in tonnes of the product concerned sold on the domestic market during the period from 1 October 2007 to 30 September 2008 (investigation period — IP),

— the turnover in local currency and the sales volume in tonnes for the product concerned sold to other third countries during the period from 1 October 2007 to 30 September 2008 (investigation period — IP),

— the precise activities of the company with regard to the product concerned and the production volume in tonnes of the product concerned, the production capacity and the investments in production capacity during the period from 1 October 2007 to 30 September 2008 (investigation period — IP),

— the names and the precise activities of all related companies (1) involved in the production and/or selling (export and/or domestic) of the product concerned,

— any other relevant information that would assist the Commission in the selection of the sample.

By providing the above information, the company agrees to its possible inclusion in the sample. If the company is chosen to be part of the sample, this will imply replying to a questionnaire and accepting an on-the-spot investigation of its response. If the company indicates that it does not agree to its possible inclusion or inclusion in the sample, it will be deemed not to have co-operated in the investigation. The consequences of non-cooperation are set out in point 8 below.

(ii) Sampling for importers

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all importers, or representatives acting on their behalf, are hereby requested to make themselves known to the Commission and to provide the following information on their company or companies within the time limit set in point 6(b)(i) and in the formats indicated in point 7:

— name, address, e-mail address, telephone and fax numbers and contact person,

— the total turnover in euro of the company during the period from 1 October 2007 to 30 September 2008 (investigation period — IP),

— the total number of employees,

— the precise activities of the company with regard to the product concerned,

— the volume in tonnes and value in euro of imports into and resales made in the Community market during the period from 1 October 2007 to 30 September 2008 (investigation period — IP) of the imported product concerned originating in the People’s Republic of China,

— the names and the precise activities of all related companies (2) involved in the production and/or selling of the product concerned,

— any other relevant information that would assist the Commission in the selection of the sample.

By providing the above information, the company agrees to its possible inclusion in the sample. If the company is chosen to be part of the sample, this will imply replying to a questionnaire and accepting an on-the-spot investigation of its response. If the company indicates that it does not agree to its possible inclusion or inclusion in the sample, it will be deemed not to have co-operated in the investigation. The consequences of non-cooperation are set out in point 8 below.

In order to obtain the information it deems necessary for the selection of the sample of exporters/producers, the Commission will, in addition, contact the authorities of the exporting country, and any known associations of exporters/producers.

(iii) Final selection of the samples

All interested parties wishing to submit any relevant information regarding the selection of the samples must do so within the time limit set in point 6(b)(ii).

(2) For guidance on the meaning of related companies, please refer to Article 143 of Regulation (EEC) No 2454/93.
The Commission intends to make the final selection of the samples after having consulted the parties concerned that have expressed their willingness to be included in the samples.

Companies included in the samples must reply to a questionnaire within the time limit set in point 6(b)(iii) and must co-operate within the framework of the investigation.

If sufficient co-operation is not forthcoming, the Commission may base its findings, in accordance with Articles 17(4) and 18 of the basic Regulation, on the facts available. A finding based on facts available may be less advantageous to the party concerned, as explained in point 8.

(b) Questionnaires

In order to obtain the information it deems necessary for its investigation, the Commission will send questionnaires to the Community industry [and to any association of producers in the Community — we probably don’t need this if there’s only one producer in the whole Community but if we’re not sure it’s not a problem to keep it in], to the sampled exporters/producers in the People’s Republic of China, to any association of exporters/producers, to the sampled importers, to any known association of importers, and to the authorities of the exporting country concerned.

(c) Collection of information and holding of hearings

All interested parties are hereby invited to make their views known, submit information other than questionnaire replies and to provide supporting evidence. This information and supporting evidence must reach the Commission within the time limit set in point 6(a)(ii).

Furthermore, the Commission may hear interested parties, provided that they make a request showing that there are particular reasons why they should be heard. This request must be made within the time limit set in point 6(a)(iii).

(d) Selection of the market economy country

In the previous investigation the United States of America was used as an appropriate market economy country for the purpose of establishing normal value in respect of the People’s Republic of China. The Commission envisages using the United States of America again for this purpose. Interested parties are hereby invited to comment on the appropriateness of this country within the specific time limit set in point 6(c).

6. Time limits

(a) General time limits

(i) For parties to request a questionnaire

All interested parties, if their representations are to be taken into account during the investigation, must make themselves known by contacting the Commission, present their views and submit questionnaire replies or any other information within 40 days of the date of publication of this notice in the Official Journal of the European Union, unless otherwise specified. Attention is drawn to the fact that the exercise of most procedural rights set out in the basic Regulation depends on the party’s making itself known within the aforementioned period.

(iii) Hearings

All interested parties may also apply to be heard by the Commission within the same 40-day time limit.

(ii) All other information relevant for the selection of the sample as referred to in 5.1(a)(iii) must reach the Commission within a period of 21 days of the publication of this notice in the Official Journal of the European Union.
(iii) The questionnaire replies from sampled parties must reach the Commission within 37 days from the date of the notification of their inclusion in the sample.

(c) **Specific time limit for the selection of the market economy country**

Parties to the investigation may wish to comment on the appropriateness of the United States of America which, as mentioned in point 5.1(d), is envisaged as a market-economy country for the purpose of establishing normal value in respect of the People's Republic of China. These comments must reach the Commission within 10 days of the date of publication of this notice in the **Official Journal of the European Union**.

7. **Written submissions, questionnaire replies and correspondence**

All submissions and requests made by interested parties must be made in writing (not in electronic format, unless otherwise specified) and must indicate the name, address, e-mail address, telephone and fax numbers of the interested party. All written submissions, including the information requested in this notice, questionnaire replies and correspondence provided by interested parties on a confidential basis shall be labelled as ‘Limited’ (1) and, in accordance with Article 19(2) of the basic Regulation, shall be accompanied by a non-confidential version, which will be labelled ‘For inspection by interested parties’.

8. **Non-co-operation**

Where it is found that any interested party has supplied false or misleading information, the information shall be disregarded and use may be made, in accordance with Article 18 of the basic Regulation, of the facts available. If an interested party does not cooperate or cooperates only partially, and use of facts available is made, the result may be less favourable to that party than if it had cooperated.

9. **Schedule of the investigation**

The investigation will be concluded, according to Article 11(5) of the basic Regulation within 15 months of the date of the publication of this notice in the **Official Journal of the European Union**.

10. **Possibility to request a review under Article 11(3) of the basic Regulation**

As this expiry review is initiated in accordance with the provisions of Article 11(2) of the basic Regulation, the findings thereof will not lead to the level of the existing measures being amended but will lead to those measures being repealed or maintained in accordance with Article 11(6) of the basic Regulation.

If any party to the proceeding considers that a review of the level of the measures is warranted so as to allow for the possibility to amend (i.e. increase or decrease) the level of the measures, that party may request a review in accordance with Article 11(3) of the basic Regulation.

Parties wishing to request such a review, which would be carried out independently of the expiry review mentioned in this notice, may contact the Commission at the address given above.

11. **Processing of personal data**

It is noted that any personal data collected in this investigation will be treated in accordance with Regulation (EC) No 45/2001 of the European Parliament and the Council of 18 December 2000 on the protection of individuals with regard to the processing of personal data by the Community institutions and bodies and on the free movement of such data (2).
