Following the publication of a notice of impending expiry (1) of the anti-dumping measures in force on imports of trichloroisocyanuric acid originating in the People’s Republic of China (‘country concerned’), the Commission has received a request for review pursuant to Article 11(2) of Council Regulation (EC) No 1225/2009 of 30 November 2009 on protection against dumped imports from countries not members of the European Community (2) (‘the basic Regulation’).

1. Request for review
The request was lodged on 6 July 2010 by the European Chemical Industry Council (‘CEFIC’) (‘the applicant’) on behalf of producers representing a major proportion, in this case more than 25 % of the Union production of trichloroisocyanuric acid.

2. Product
The product under review is trichloroisocyanuric acid and preparations thereof, also referred to as ‘symclosene’ under the international non-proprietary name (INN), originating in the People’s Republic of China (‘the country concerned’), currently falling within CN codes ex 2933 69 80 (TARIC code 2933 69 80 70) and ex 3808 94 20 (TARIC code 3808 94 20 20).

3. Existing measures
The measures currently in force are a definitive anti-dumping duty imposed by Council Regulation (EC) No 1631/2005 (3).

4. Grounds for the review
The request is based on the grounds that the expiry of the measures would be likely to result in continuation of dumping and recurrence of injury to the Union industry. In view of the provisions of Article 2(7) of the basic Regulation, the applicant established normal value for the exporting producers from the People’s Republic of China which were not granted market economy treatment during the investigation leading to the measures in force on the basis of domestic sales prices in an appropriate market economy country, which is mentioned in point 5.1 (d). For those companies which were granted market economy treatment during the investigation, normal value has been established on the basis of a constructed normal value in the People’s Republic of China. The allegation of continuation of dumping is based on a comparison of normal value, as set out in the preceding sentences, with the export prices of the product concerned when sold for export to the European Union.

On this basis, the dumping margins calculated are significant.

The applicant further alleges the likelihood of recurrence of injurious dumping. In this respect, the applicant presents evidence that, should measures be allowed to lapse, the current import level of the product concerned is likely to increase due to the existence of unused capacity in the country concerned.

The applicant alleges that the removal of injury has been mainly due to the existence of measures and that any recurrence of substantial imports at dumped prices from the country concerned would likely lead to a recurrence of injury to the Union industry should measures be allowed to lapse.

5. Procedure
Having determined, after consulting the Advisory Committee, that sufficient evidence exists to justify the initiation of an expiry review, the Commission hereby initiates a review in accordance with Article 11(2) of the basic Regulation.

1(1) OJ C 104, 23.4.2010, p. 15.
5.1. Procedure for the determination of likelihood of dumping and injury

The investigation will determine whether the expiry of the measures would be likely, or unlikely, to lead to a continuation of dumping and recurrence of injury.

(a) Sampling

In view of the apparent large number of parties involved in this proceeding, the Commission may decide to apply sampling, in accordance with Article 17 of the basic Regulation.

(i) Sampling for exporters/producers in the People's Republic of China

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all exporters/producers, or representatives acting on their behalf, are hereby requested to make themselves known by contacting the Commission and providing the following information on their company or companies within the time limit set in point 6(b)(i) and in the formats indicated in point 7:

- name, address, e-mail address, telephone and fax numbers, and contact person,
- the turnover in local currency and the volume in tonnes of the product concerned sold for export to the Union during the period 1 July 2009 to 30 June 2010 for each of the 27 Member States separately and in total (4),
- the turnover in local currency and the volume in tonnes of the product concerned sold on the domestic market during the period 1 July 2009 to 30 June 2010,
- the turnover in local currency and the volume in tonnes for the product concerned sold to other third countries during the period 1 July 2009 to 30 June 2010,
- the precise activities of the company worldwide with regard to the product concerned,
- the names and the precise activities of all related companies (5) involved in the production and/or sales (export and/or domestic) of the product concerned,
- any other relevant information that would assist the Commission in the selection of the sample.

By providing the above information, the company agrees to its possible inclusion in the sample. If the company is chosen to be part of the sample, this will imply replying to a questionnaire and accepting an on-the-spot investigation of its response. If the company indicates that it does not agree to its possible inclusion in the sample, it will be deemed not to have cooperated in the investigation. The consequences of non-cooperation are set out in point 8 below.

In order to obtain the information it deems necessary for the selection of the sample of exporters/producers, the Commission will, in addition, contact the authorities of the People's Republic of China, and any known associations of exporters/producers.

(ii) Sampling for importers

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all importers, or representatives acting on their behalf, are hereby requested to make themselves known to the Commission and to provide the following information on their company or companies within the time limit set in point 6(b)(i) and in the formats indicated in point 7:

- name, address, e-mail address, telephone and fax numbers, and contact person,
- the precise activities of the company with regard to the product concerned,
- the volume in tonnes and value in EUR of imports into and resales made on the Union market during the period 1 July 2009 to 30 June 2010 of the imported product concerned originating in the People's Republic of China,
- the names and the precise activities of all related companies (6) involved in the production and/or sales of the product concerned,

(4) The 27 Member States of the European Union are: Austria, Belgium, Bulgaria, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, and the United Kingdom.

(6) See footnote 5.
— any other relevant information that would assist the Commission in the selection of the sample.

By providing the above information, the company agrees to its possible inclusion in the sample. If the company is chosen to be part of the sample, this will imply replying to a questionnaire and accepting an on-the-spot investigation of its response. If the company indicates that it does not agree to its possible inclusion in the sample, it will be deemed not to have cooperated in the investigation. The consequences of non-cooperation are set out in point 8 below.

In order to obtain the information it deems necessary for the selection of the sample of importers, the Commission will, in addition, contact any known associations of importers.

(iii) Final selection of the samples

All interested parties wishing to submit any relevant information regarding the selection of the samples must do so within the time limit set in point 6(b)(ii).

The Commission intends to make the final selection of the samples after having consulted the parties concerned that have expressed their willingness to be included in the sample.

Companies included in the samples must reply to a questionnaire within the time limit set in point 6 (b)(iii) and must cooperate within the framework of the investigation.

If sufficient cooperation is not forthcoming, the Commission may base its findings, in accordance with Articles 17(4) and 18 of the basic Regulation, on the facts available. A finding based on facts available may be less advantageous to the party concerned, as explained in point 8.

(c) Collection of information and holding of hearings

All interested parties are hereby invited to make their views known, submit information other than questionnaire replies and to provide supporting evidence. This information and supporting evidence must reach the Commission within the time limit set in point 6(a)(ii).

Furthermore, the Commission may hear interested parties, provided that they make a request showing that there are particular reasons why they should be heard. This request must be made within the time limit set in point 6(a)(iii).

(d) Selection of the market economy country

In the previous investigation Japan was used as an appropriate market economy country for the purpose of establishing normal value in respect of the People's Republic of China. The Commission envisages using Japan again for this purpose. Interested parties are hereby invited to comment on the appropriateness of this country within the specific time limit set in point 6(c).

5.2. Procedure for the assessment of Union interest

In accordance with Article 21 of the basic Regulation and in the event that the likelihood of a continuation of dumping and recurrence of injury is confirmed, a determination will be made as to whether maintaining the anti-dumping measures would not be against the Union interest. For this reason the Commission may send questionnaires to the known Union industry, importers, their representative associations, representative users and representative consumer organisations. Such parties, including those not known to the Commission, provided that they prove that there is an objective link between their activity and the product concerned, may, within the general time limits set in point 6(a)(ii), make themselves known and provide the Commission with information. The parties which have acted in conformity with the preceding sentence may request a hearing, setting out the particular reasons why they should be heard, within the time limit set in point 6(a)(iii). It should be noted that any information submitted pursuant to Article 21 of the basic Regulation will only be taken into account if supported by factual evidence at the time of submission.

6. Time limits

(a) General time limits

(i) For parties to request a questionnaire

All interested parties who did not cooperate in the investigation leading to the measures subject to the present review should request a questionnaire or other claim forms as soon as possible, but not later than 15 days after the publication of this notice in the Official Journal of the European Union.
All interested parties, if their representations are to be taken into account during the investigation, must make themselves known by contacting the Commission, present their views and submit questionnaire replies or any other information within 37 days of the date of publication of this notice in the Official Journal of the European Union, unless otherwise specified. Attention is drawn to the fact that the exercise of most procedural rights set out in the basic Regulation depends on the party's making itself known within the aforementioned period.

Companies selected in a sample must submit questionnaire replies within the time limit specified in point 6(b)(iii).

All interested parties may also apply to be heard by the Commission within the same 37-day time limit.

The information specified in points 5.1(a)(i) and 5.1(a)(ii) should reach the Commission within 15 days of the date of publication of this notice in the Official Journal of the European Union, given that the Commission intends to consult parties concerned that have expressed their willingness to be included in the sample on its final selection within a period of 21 days of the publication of this notice in the Official Journal of the European Union.

All other information relevant for the selection of the samples as referred to in 5.1(a)(iii) must reach the Commission within a period of 21 days of the publication of this notice in the Official Journal of the European Union.

The questionnaire replies from sampled parties must reach the Commission within 37 days from the date of the notification of their inclusion in the sample, unless otherwise specified.

Parties to the investigation may wish to comment on the appropriateness of Japan which, as mentioned in point 5.1(d), is envisaged as a market-economy country for the purpose of establishing normal value in respect of the People's Republic of China. These comments must reach the Commission within 10 days of the date of publication of this notice in the Official Journal of the European Union.

All submissions and requests made by interested parties must be made in writing (not in electronic format, unless otherwise specified) and must indicate the name, address, e-mail address, telephone and fax numbers of the interested party. All written submissions, including the information requested in this notice, questionnaire replies and correspondence provided by interested parties on a confidential basis shall be labelled as 'Limited' (7) and, in accordance with Article 19(2) of the basic Regulation, shall be accompanied by a non-confidential version, which will be labelled 'For inspection by interested parties'.

Where it is found that any interested party has supplied false or misleading information, the information shall be disregarded and use may be made, in accordance with Article 18 of the basic Regulation, of the facts available. If an interested party does not cooperate or cooperates only partially, and use of facts available is made, the result may be less favorable to that party than if it had cooperated.

10. **Possibility to request a review under Article 11(3) of the basic Regulation**

As this expiry review is initiated in accordance with the provisions of Article 11(2) of the basic Regulation, the findings thereof will not lead to the level of the existing measures being amended but will lead to those measures being repealed or maintained in accordance with Article 11(6) of the basic Regulation.

If any party to the proceeding considers that a review of the level of the measures is warranted so as to allow for the possibility to amend (i.e. increase or decrease) the level of the measures, that party may request a review in accordance with Article 11(3) of the basic Regulation.

Parties wishing to request such a review, which would be carried out independently of the expiry review mentioned in this notice, may contact the Commission at the address given above.

11. **Processing of personal data**

It is noted that any personal data collected in this investigation will be treated in accordance with Regulation (EC) No 45/2001 of the European Parliament and of the Council on the protection of individuals with regard to the processing of personal data by the Community institutions and bodies and on the free movement of such data (8).

It is also noted that if interested parties consider that they are encountering difficulties in the exercise of their rights of defence, they may request the intervention of the Hearing Officer of Directorate-General for Trade. He acts as an interface between the interested parties and the Commission services, offering, where necessary, mediation on procedural matters affecting the protection of their interests in this proceeding, in particular with regard to issues concerning access to file, confidentiality, extension of time limits and the treatment of written and/or oral submission of views.
