COMMISSION REGULATION (EC) No 447/98
of 1 March 1998
on the notifications, time limits and hearings provided for in Council Regulation (EEC) No 4064/89 on the control of concentrations between undertakings
(Text with EEA relevance)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to the Agreement on the European Economic Area,

Having regard to Council Regulation (EEC) No 4064/89 of 21 December 1989 on the control of concentrations between undertakings (1), as last amended by Regulation (EC) No 1310/97 (2), and in particular Article 23 thereof,

Having regard to Council Regulation No 17 of 6 February 1962, First Regulation implementing Articles 85 and 86 of the Treaty (3), as last amended by the Act of Accession of Austria, Finland and Sweden, and in particular Article 24 thereof,

Having regard to Council Regulation (EEC) No 1017/68 of 19 July 1968 applying rules of competition to transport by rail, road and inland waterway (4), as last amended by the Act of Accession of Austria, Finland and Sweden, and in particular Article 29 thereof,

Having regard to Council Regulation (EEC) No 3975/87 of 14 December 1987 laying down the procedure for the application of the rules on competition to undertakings in the air transport sector (5), as amended by the Act of Accession of Austria, Finland and Sweden, and in particular Article 26 thereof,

Having consulted the Advisory Committee on Concentrations,

(1) Whereas Regulation (EEC) No 4064/89 and in particular Article 23 thereof has been amended by Regulation (EC) No 1310/97;

(2) Whereas Commission Regulation (EC) No 3384/94 (6), implementing Regulation (EEC) No 4064/89, must be modified in order to take account of those amendments; whereas experience in the application of Regulation (EC) No 3384/94 has revealed the need to improve certain procedural aspects thereof; whereas for the sake of clarity it should therefore be replaced by a new regulation;

(3) Whereas the Commission has adopted Decision 94/810/ECSC, EC of 12 December 1994 on the terms of reference of hearing officers in competition procedures before the Commission (1);

(4) Whereas Regulation (EEC) No 4064/89 is based on the principle of compulsory notification of concentrations before they are put into effect; whereas, on the one hand, a notification has important legal consequences which are favourable to the parties to the concentration plan, while, on the other hand, failure to comply with the obligation to notify renders the parties liable to a fine and may also entail civil law disadvantages for them; whereas it is therefore necessary in the interests of legal certainty to define precisely the subject matter and content of the information to be provided in the notification;

(5) Whereas it is for the notifying parties to make full and honest disclosure to the Commission of the facts and circumstances which are relevant for taking a decision on the notified concentration;

(6) Whereas in order to simplify and expedite examination of the notification, it is desirable to prescribe that a form be used;

(7) Whereas since notification sets in motion legal time limits pursuant to Regulation (EEC) No 4064/89, the conditions governing such time-limits and the time when they become effective must also be determined;

(8) Whereas rules must be laid down in the interests of legal certainty for calculating the time limits provided for in Regulation (EEC) No 4064/89; whereas in particular, the beginning and end of the period and the circumstances suspending the running of the period must be determined, with due regard to the requirements resulting from the exceptionally short legal time-limits referred to above; whereas in the absence of specific provisions the determination of rules applicable to periods, dates and time-limits should be based on the principles of Council Regulation (EEC, Euratom) No 1182/71 (2);

(9) Whereas the provisions relating to the Commission’s procedure must be framed in such a way as to safeguard fully the right to be heard and the rights of defence; whereas for these purposes the Commission should distinguish between the parties who notify the concentration, other parties involved in the concentration plan, third parties and parties regarding whom the Commission intends to take a decision imposing a fine or periodic penalty payments;

(10) Whereas the Commission should give the notifying parties and other parties involved, if they so request, an opportunity before notification to discuss the intended concentration informally and in strict confidence; whereas in addition it should, after notification, maintain close contact with those parties to the extent necessary to discuss with them any practical or legal problems which it discovers on a first examination of the case and if possible to remove such problems by mutual agreement;

(11) Whereas in accordance with the principle of the rights of defence, the notifying parties must be given the opportunity to submit their comments on all the objections which the Commission proposes to take into account in its decisions; whereas the other parties involved should also be informed of the Commission's objections and granted the opportunity to express their views;

(12) Whereas third parties having sufficient interest must also be given the opportunity of expressing their views where they make a written application;

(13) Whereas the various persons entitled to submit comments should do so in writing, both in their own interest and in the interest of good administration, without prejudice to their right to request a formal oral hearing where appropriate to supplement the written procedure; whereas in urgent cases, however, the Commission must be able to proceed immediately to formal oral hearings of the notifying parties, other parties involved or third parties;

(14) Whereas it is necessary to define the rights of persons who are to be heard, to what extent they should be granted access to the Commission’s file and on what conditions they may be represented or assisted;

(15) Whereas the Commission must respect the legitimate interest of undertakings in the protection of their business secrets and other confidential information;

(16) Whereas, in order to enable the Commission to carry out a proper assessment of commitments that have the purpose of rendering the concentration compatible with the common market, and to ensure due consultation with other parties involved, third parties and the authorities of the Member States as provided for in Regulation (EEC) No 4064/89, in particular Article 18(1) and (4) thereof, the procedure and time-limits for submitting such commitments as provided for in Article 6(2) and Article 8(2) of Regulation (EEC) No 4064/89 must be laid down;

(17) Whereas it is also necessary to define the rules for fixing and calculating the time limits for reply fixed by the Commission;

(18) Whereas the Advisory Committee on Concentrations must deliver its opinion on the basis of a preliminary draft decision; whereas it must therefore be consulted on a case after the inquiry into that case has been completed; whereas such consultation does not, however, prevent the Commission from reopening an inquiry if need be,

HAS ADOPTED THIS REGULATION:

ANNEX

FORM CO RELATING TO THE NOTIFICATION OF A CONCENTRATION
PURSUANT TO REGULATION (EEC) No 4064/89

INTRODUCTION

A. The purpose of this form

This form specifies the information that must be provided by an undertaking or undertakings when notifying the Commission of a concentration with a Community dimension. A ‘concentration’ is defined in Article 3 of Regulation (EEC) No 4064/89 (hereinafter referred to as ‘the Merger Regulation’) and ‘Community dimension’ in Article 1 thereof.

Your attention is drawn to the Merger Regulation and to Regulation (EC) No 447/98 (hereinafter referred to as ‘the Implementing Regulation’) and to the corresponding provisions of the Agreement on the European Economic Area (1).

Experience has shown that prenotification meetings are extremely valuable to both the notifying parties and the Commission in determining the precise amount of information required in a notification and, in the large majority of cases, will result in a significant reduction of the information required. Accordingly, notifying parties are encouraged to consult the Commission regarding the possibility of dispensing with the obligation to provide certain information (see Section B(g) on the possibility of dispensation).

B. The need for a correct and complete notification

All information required by this form must be correct and complete. The information required must be supplied in the appropriate section of this form. Annexes to this form shall only be used to supplement the information supplied in the form itself.

In particular you should note that:

(a) In accordance with Article 10(1) of the Merger Regulation and Article 4(2) and (4) of the Implementing Regulation, the time limits of the Merger Regulation linked to the notification will not begin to run until all the information that has to be supplied with the notification has been received by the Commission. This requirement is to ensure that the Commission is able to assess the notified concentration within the strict time-limits provided by the Merger Regulation.

(b) The notifying parties should check carefully, in the course of preparing their notification, that contact names and numbers, and in particular fax numbers, provided to the Commission are accurate, relevant and up-to-date.

(c) Incorrect or misleading information in the notification will be considered to be incomplete information (Article 4(4) of the Implementing Regulation).

(d) If a notification is incomplete, the Commission will inform the notifying parties or their representatives of this in writing and without delay. The notification will only become effective on the date on which the complete and accurate information is received by the Commission (Article 10(1) of the Merger Regulation, Article 4(2) and (4) of the Implementing Regulation).

(e) Article 14(1)(b) of the Merger Regulation provides that incorrect or misleading information, where supplied intentionally or negligently, can make the notifying party or parties liable to fines of up to ECU 50 000. In addition, pursuant to Article 6(3)(a) and Article 8(5)(a) of the Merger Regulation the

(1) Hereinafter referred to as ‘the EEA Agreement’; see in particular Article 57 of the EEA Agreement (point 1 of Annex XIV to the EEA Agreement and Protocol 4 to the Agreement between the EFTA States on the establishment of a Surveillance Authority and a Court of Justice), as well as Protocols 21 and 24 to the EEA Agreement and Article 1, and the Agreed Minutes of the Protocol adjusting the EEA Agreement. In particular, any reference to EFTA States shall be understood to mean those EFTA States which are Contracting Parties to the EEA Agreement.
Commission may also revoke its decision on the compatibility of a notified concentration where it is based on incorrect information for which one of the undertakings is responsible.

(f) You may request that the Commission accept that the notification is complete notwithstanding the failure to provide information required by this form, if such information is not reasonably available to you in part or in whole (for example, because of the unavailability of information on a target company during a contested bid).

The Commission will consider such a request, provided that you give reasons for the unavailability of that information, and provide your best estimates for missing data together with the sources for the estimates. Where possible, indications as to where any of the requested information that is unavailable to you could be obtained by the Commission should also be provided.

(g) You may request that the Commission accept that the notification is complete notwithstanding the failure to provide information required by this form, if you consider that any particular information requested by this form, in the full or short form version, may not be necessary for the Commission’s examination of the case.

The Commission will consider such a request, provided that you give reasons why that information is not relevant and necessary to its inquiry into the notified operation. You may explain this during your pre-notification contacts with the Commission and/or in your notification and ask the Commission to dispense with the obligation to provide that information, pursuant to Article 3(2) of the Implementing Regulation.

C. Notification in short form

(a) In cases where a joint venture has no, or de minimis, actual or foreseen activities within the EEA territory, the Commission intends to allow notification of the operation by means of short form. Such cases occur where joint control is acquired by two or more undertakings, and where:

(i) the turnover \(^1\) of the joint venture and/or the turnover of the contributed activities \(^2\), is less than ECU 100 million in the EEA territory; and

(ii) the total value of assets \(^3\) transferred to the joint venture is less than ECU 100 million in the EEA territory \(^4\).

(b) If you consider that the operation to be notified meets these qualifications, you may explain this in your notification and ask the Commission to dispense with the obligation to provide the full-form notification, pursuant to Article 3(2) of the Implementing Regulation, and to allow you to notify by means of short form.

(c) Short-form notification allows the notifying parties to limit the information provided in the notification to the following sections and questions:

\(^1\) The turnover of the joint venture should be determined according to the most recent audited accounts of the parent companies, or the joint venture itself, depending upon the availability of separate accounts for the resources combined in the joint venture.

\(^2\) The expression 'and/or' refers to the variety of situations covered by the short form; for example:
   - in the case of the joint acquisition of a target company, the turnover to be taken into account is the turnover of this target (the joint venture),
   - in the case of the creation of a joint venture to which the parent companies contribute their activities, the turnover to be taken into account is that of the contributed activities,
   - in the case of entry of a new controlling party into an existing joint venture, the turnover of the joint venture and the turnover of the activities contributed by the new parent company (if any) must be taken into account.

\(^3\) The total value of assets of the joint venture should be determined according to the last regularly prepared and approved balance sheet of each parent company. The term 'assets' includes: (1) all tangible and intangible assets that will be transferred to the joint venture (examples of tangible assets include production plants, wholesale or retail outlets, and inventory of goods), and (2) any amount of credit or any obligations of the joint venture which any parent company of the joint venture has agreed to extend or guarantee.

\(^4\) Where the assets transferred generate turnover, then neither the value of the assets nor that of the turnover may exceed ECU 100 million.
— Section 1,
— Section 2, except questions 2.1 (a, b and d), 2.3.4, and 2.3.5,
— Section 3, only questions 3.1 and 3.2 (a),
— Section 5, only questions 5.1 and 5.3,
— Section 6,
— Section 10,
— Section 11 (optional for the convenience of the parties), and
— Section 12,
— the five largest independent customers, the five largest independent suppliers, and the five largest competitors in the markets in which the joint venture will be active. Provide the name, address, telephone number, fax number and appropriate contact person of each such customer, supplier and competitor.

(d) In addition, with respect to the affected markets of the joint venture as defined in Section 6, indicate for the EEA territory, for the Community as a whole, for each Member State and EFTA State, and where different, in the opinion of the notifying parties, for the relevant geographic market, the sales in value and volume, as well as the market shares, for the year preceding the operation.

(e) The Commission may require full, or where appropriate partial, notification under the form CO where:
— the notified operation does not meet the short-form thresholds, or
— this appears to be necessary for an adequate investigation with respect to possible competition problems.

In such cases, the notification may be considered incomplete in a material respect pursuant to Article 4(2) of the Implementing Regulation. The Commission will inform the notifying parties or their representatives of this in writing and without delay and will fix a deadline for the submission of a full or, where appropriate, partial notification. The notification will only become effective on the date on which all information required is received.

D. Who must notify

In the case of a merger within the meaning of Article 3(1)(a) of the Merger Regulation or the acquisition of joint control in an undertaking within the meaning of Article 3(1)(b) of the Merger Regulation, the notification shall be completed jointly by the parties to the merger or by those acquiring joint control as the case may be.

In case of the acquisition of a controlling interest in one undertaking by another, the acquirer must complete the notification.

In the case of a public bid to acquire an undertaking, the bidder must complete the notification.

Each party completing the notification is responsible for the accuracy of the information which it provides.

E. How to notify

The notification must be completed in one of the official languages of the European Community. This language will thereafter be the language of the proceedings for all notifying parties. Where notifications are made in accordance with Article 12 of Protocol 24 to the EEA Agreement in an official language of an EFTA State which is not an official language of the Community, the notification must simultaneously be supplemented with a translation into an official language of the Community.
The information requested by this form is to be set out using the sections and paragraph numbers of the form, signing a declaration as provided in Section 12, and annexing supporting documentation.

Supporting documents are to be submitted in their original language; where this is not an official language of the Community, they must be translated into the language of the proceeding (Article 2(4) of the Implementing Regulation).

Supporting documents may be originals or copies of the originals. In the latter case, the notifying party must confirm that they are true and complete.

One original and 23 copies of the form CO and all supporting documents must be provided.

The notification must be delivered to the Commission on working days as defined by Article 23 of the Implementing Regulation. In order to enable it to be registered on the same day, it must be delivered before 17.00 on Mondays to Thursdays and before 16.00 on Fridays, at the following address:

Commission of the European Communities
Directorate-General for Competition (DG IV)
Merger Task Force
150 avenue de Cortenberg/Kortenberblaan 150
B-1049 Brussels.

F. Confidentiality

Article 214 of the Treaty and Article 17(2) of the Merger Regulation as well as the corresponding provisions of the EEA Agreement (1) require the Commission, the Member States, the EFTA Surveillance Authority and the EFTA States, their officials and other servants not to disclose information they have acquired through the application of the Regulation of the kind covered by the obligation of professional secrecy. The same principle must also apply to protect confidentiality between notifying parties.

If you believe that your interests would be harmed if any of the information you are asked to supply were to be published or otherwise divulged to other parties, submit this information separately with each page clearly marked ‘Business Secrets’. You should also give reasons why this information should not be divulged or published.

In the case of mergers or joint acquisitions, or in other cases where the notification is completed by more than one of the parties, business secrets may be submitted under separate cover, and referred to in the notification as an annex. All such annexes must be included in the submission in order for a notification to be considered complete.

G. Definitions and instructions for purposes of this form

Notifying party or parties: in cases where a notification is submitted by only one of the undertakings party to an operation, ‘notifying parties’ is used to refer only to the undertaking actually submitting the notification.

Party(parties) to the concentration: these terms relate to both the acquiring and acquired parties, or to the merging parties, including all undertakings in which a controlling interest is being acquired or which is the subject of a public bid.

Except where otherwise specified, the terms ‘notifying party(parties)’ and ‘party(parties) to the concentration’ include all the undertakings which belong to the same groups as those ‘parties’.

(1) See, in particular, Article 122 of the EEA Agreement, Article 9 of Protocol 24 to the EEA Agreement and Article 17(2) of Chapter XIII of Protocol 4 to the Agreement between the EFTA States on the establishment of a Surveillance Authority and a Court of Justice (ESA Agreement).
Affected markets: Section 6 of this form requires the notifying parties to define the relevant product markets, and further to identify which of those relevant markets are likely to be affected by the notified operation. This definition of affected market is used as the basis for requiring information for a number of other questions contained in this form. The definitions thus submitted by the notifying parties are referred to in this form as the affected market(s). This term can refer to a relevant market made up either of products or of services.

Year: all references to the word ‘year’ in this form should be read as meaning calendar year, unless otherwise stated. All information requested in this form must, unless otherwise specified, relate to the year preceding that of the notification.

The financial data requested in Sections 2.3 to 2.5 must be provided in ecus at the average conversion rates prevailing for the years or other periods in question.

All references contained in this form are to the relevant Articles and paragraphs of Council Regulation (EEC) No 4064/89, unless otherwise stated.

SECTION 6

Market definitions

The relevant product and geographic markets determine the scope within which the market power of the new entity resulting from the concentration must be assessed (1).

The notifying party or parties must provide the data requested having regard to the following definitions:

I. Relevant product markets

A relevant product market comprises all those products and/or services which are regarded as interchangeable or substitutable by the consumer, by reason of the products’ characteristics, their prices and their intended use. A relevant product market may in some cases be composed of a number of individual products and/or services which present largely identical physical or technical characteristics and are interchangeable.

Factors relevant to the assessment of the relevant product market include the analysis of why the products or services in these markets are included and why others are excluded by using the above definition, and having regard to, for example, substitutability, conditions of competition, prices, cross-price elasticity of demand or other factors relevant for the definition of the product markets.

II. Relevant geographic markets

The relevant geographic market comprises the area in which the undertakings concerned are involved in the supply and demand of relevant products or services, in which the conditions of competition are sufficiently homogeneous and which can be distinguished from neighbouring geographic areas because, in particular, conditions of competition are appreciably different in those areas.

(1) See Commission notice on the definition of the relevant market for the purposes of Community competition law.
Factors relevant to the assessment of the relevant geographic market include the nature and characteristics of the products or services concerned, the existence of entry barriers, consumer preferences, appreciable differences in the undertakings’ market shares between neighbouring geographic areas or substantial price differences.

III. Affected markets

For purposes of information required in this form, affected markets consist of relevant product markets where, in the EEA territory, in the Community, in the territory of the EFTA States, in any Member State or in any EFTA State:

(a) two or more of the parties to the concentration are engaged in business activities in the same product market and where the concentration will lead to a combined market share of 15% or more. These are horizontal relationships;

(b) one or more of the parties to the concentration are engaged in business activities in a product market, which is upstream or downstream of a product market in which any other party to the concentration is engaged, and any of their individual or combined market shares is 25% or more, regardless of whether there is or is not any existing supplier/customer relationship between the parties to the concentration. These are vertical relationships.

On the basis of the above definitions and market share thresholds, provide the following information:

6.1. Identify each affected market within the meaning of Section III, at:

(a) the EEA, Community or EFTA level;

(b) the individual Member States or EFTA States level.

IV. Markets related to affected markets within the meaning of Section III

6.2. Describe the relevant product and geographic markets concerned by the notified operation, which are closely related to the affected market(s) (in upstream, downstream and horizontal neighbouring markets), where any of the parties to the concentration are active and which are not themselves affected markets within the meaning of Section III.

V. Non-affected markets

6.3. In case there are no affected markets in the meaning of Section 6.1, describe the product and geographic scope of the markets on which the notified operation would have an impact.

SECTION 7

Information on affected markets

For each affected relevant product market, for each of the last three financial years (\(^1\)):

(b) for the Community as a whole,

(c) for the territory of the EFTA States as a whole,

7.2. the sales in value and volume, as well as an estimate of the market shares, of each of the parties to the concentration;

7.3. an estimate of the market share in value (and where appropriate volume) of all competitors (including importers) having at least 10% of the geographic market under consideration. Provide documents where available to confirm the calculation of these market shares and provide the name, address, telephone number, fax number and appropriate contact person, of these competitors;

7.4. an estimate of the total value and volume and source of imports from outside the EEA territory and identify:
   (a) the proportion of such imports that are derived from the groups to which the parties to the concentration belong,

   (c) an estimate of the extent to which transportation and other costs affect these imports,

7.5. the extent to which trade among States within the EEA territory is affected by:
   (a) transportation and other costs, and
   (b) other non-tariff barriers to trade;

7.6. the manner in which the parties to the concentration produce and sell the products and/or services; for example, whether they manufacture locally, or sell through local distribution facilities;

7.7. a comparison of price levels in each Member State and EFTA State by each party to the concentration and a similar comparison of price levels between the Community, the EFTA States and other areas where these products are produced (e.g. eastern Europe, the United States of America, Japan, or other relevant areas);

7.8. the nature and extent of vertical integration of each of the parties to the concentration compared with their largest competitors.

SECTION 8

Provide the name, address, telephone number, fax number and appropriate contact person, of these suppliers.

Structure of supply in affected markets

8.2. Explain the distribution channels and service networks that exist on the affected markets. In so doing, take account of the following where appropriate:

(a) the distribution systems prevailing on the market and their importance. To what extent is distribution performed by third parties and/or undertakings belonging to the same group as the parties identified in Section 3?

(1) The value and volume of a market should reflect output less exports plus imports for the geographic areas under consideration.
(2) That is suppliers which are not subsidiaries, agents or undertakings forming part of the group of the party in question. In addition to those five independent suppliers the notifying parties can, if they consider it necessary for a proper assessment of the case, identify the intra-group suppliers. The same will apply in 8.5 in relation with customers.

8.8. In the opinion of the notifying parties are there undertakings (including those at present operating only in extra-Community or extra-EEA markets) that are likely to enter the market? If the answer is ‘yes’, please explain why and identify such entrants by name, address, telephone number, fax number and appropriate contact person, and an estimate of the time within which such entry is likely to occur.

8.9. Describe the various factors influencing entry into affected markets that exist in the present case, examining entry from both a geographical and product viewpoint. In so doing, take account of the following where appropriate:

9.1. a description of each product market and explain why the products and/or services in these markets are included (and why others are excluded) by reason of their characteristics, prices and their intended use;

9.2. an estimate of the value of the market and the market shares of each of the groups to which the parties belong for each product market identified in 9.1 for the last financial year.

Overview of the markets

9.3. Describe the worldwide context of the proposed concentration, indicating the position of each of the parties to the concentration outside of the EEA territory in terms of size and competitive strength.

9.4. Describe how the proposed concentration is likely to affect the interests of intermediate and ultimate consumers and the development of technical and economic progress.

SECTION 10

Cooperative effects of a joint venture

10. For the purpose of Article 2(4) of the Merger Regulation please answer the following questions:

(a) Do two or more parents retain to a significant extent activities in the same market as the joint venture or in a market which is downstream or upstream from that of the joint venture or in a neighbouring market closely related to this market (1)?

If the answer is affirmative, please indicate for each of the markets referred to here:
— the turnover of each parent company in the preceding financial year,
— the economic significance of the activities of the joint venture in relation to this turnover,
— the market share of each parent.

If the answer is negative, please justify your answer.

(b) If the answer to (a) is affirmative and in your view the creation of the joint venture does not lead to coordination between independent undertakings that restricts competition within the meaning of Article 85(1) of the EC Treaty, give your reasons.

(c) Without prejudice to the answers to (a) and (b) and in order to ensure that a complete assessment of the case can be made by the Commission, please explain how the criteria of Article 85(3) apply.

Under Article 85(3), the provisions of Article 85(1) may be declared inapplicable if the operation:
(i) contributes to improving the production or distribution of goods, or to promoting technical or economic progress;
(ii) allows consumers a fair share of the resulting benefit;
(iii) does not impose on the undertakings concerned restrictions which are not indispensable to the attainment of these objectives; and
(iv) does not afford such undertakings the possibility of eliminating competition in respect of a substantial part of the products in question.

For guidance, please refer to form A/B, and in particular Sections 16 and 17 thereof, annexed to Commission Regulation (EC) No 3385/94 (2).

(1) For market definitions refer to Section 6.

Ancillary restraints

11.1. If the parties to the concentration, and/or other involved parties (including the seller and minority shareholders), enter into ancillary restrictions directly related and necessary to the implementation of the concentration, these restrictions may be assessed in conjunction with the concentration itself (see Article 6(1)(b) and Article 8(2) of the Merger Regulation, recital 25 to the Merger Regulation, recital 7 to Regulation (EC) No 1310/97 and the Commission notice on restrictions ancillary to concentrations) (1).

(a) Identify each ancillary restriction in the agreements provided with the notification for which you request an assessment in conjunction with the concentration; and
(b) explain why these are directly related and necessary to the implementation of the concentration.

Conversion of notification

11.2. In the event that the Commission finds that the operation notified does not constitute a concentration within the meaning of Article 3 of the Merger Regulation, do you request that it be treated as an application for negative clearance from, or a notification to obtain an exemption from Article 85 of the EC Treaty?

GUIDANCE NOTE I

Calculation of turnover for insurance undertakings
(Article 5(3)(a))

For the calculation of turnover for insurance undertakings, we give the following example (proposed concentration between insurance A and B):

I. Consolidated profit and loss account

<table>
<thead>
<tr>
<th>Income</th>
<th>Insurance A (million ECU)</th>
<th>Insurance B (million ECU)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Gross premiums written</td>
<td>5 000</td>
<td>300</td>
</tr>
<tr>
<td>— gross premiums received from Community residents</td>
<td>(4 500)</td>
<td>(300)</td>
</tr>
<tr>
<td>— gross premiums received from residents of one (and the same) Member State X</td>
<td>(3 600)</td>
<td>(270)</td>
</tr>
<tr>
<td>Other income</td>
<td>500</td>
<td>50</td>
</tr>
<tr>
<td><strong>Total income</strong></td>
<td><strong>5 500</strong></td>
<td><strong>350</strong></td>
</tr>
</tbody>
</table>

II. Calculation of turnover

1. Aggregate worldwide turnover is replaced by the value of gross premiums written worldwide, the sum of which is ECU 5 300 million.

2. Community-wide turnover is replaced, for each insurance undertakings, by the value of gross premiums written with Community residents. For each of the insurance undertakings, this amount is more than ECU 250 million.

3. Turnover within one (and the same) Member State X is replaced, for insurance undertakings, by the value of gross premiums written with residents of one (and the same) Member State X. For insurance A, it achieves 80% of its gross premiums written with Community residents within Member State X, whereas for insurance B, it achieves 90% of its gross premiums written with Community residents in that Member State X.

III. Conclusion

Since

(a) the aggregate worldwide turnover of insurances A and B, as replaced by the value of gross premiums written worldwide, is more than ECU 5 000 million;

(b) for each of the insurance undertakings, the value of gross premiums written with Community residents is more than ECU 250 million; but

(c) each of the insurance undertakings achieves more than two thirds of its gross premiums written with Community residents in one (and the same) Member State X,

the proposed concentration would not fall under the scope of the Regulation.
GUIDANCE NOTE II

Calculation of turnover for joint undertakings

A. Creation of a joint undertaking (Article 3(2))

In a case where two (or more) undertakings create a joint undertaking that constitutes a concentration, turnover is calculated for the undertakings concerned.

B. Existence of a joint undertaking (Article 5(5))

For the calculation of turnover in case of the existence of a joint undertaking C between two undertakings A and B concerned in a concentration, we give the following example:

I. Profit and loss accounts

<table>
<thead>
<tr>
<th>Turnover</th>
<th>Undertaking A (million ECU)</th>
<th>Undertaking B (million ECU)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sales revenues worldwide</td>
<td>10 000</td>
<td>2 000</td>
</tr>
<tr>
<td>— Community</td>
<td>(8 000)</td>
<td>(1 500)</td>
</tr>
<tr>
<td>— Member State Y</td>
<td>(4 000)</td>
<td>(900)</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Turnover</th>
<th>Joint undertaking C (million ECU)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sales revenues worldwide</td>
<td>100</td>
</tr>
<tr>
<td>— with undertaking A</td>
<td>(20)</td>
</tr>
<tr>
<td>— with undertaking B</td>
<td>(10)</td>
</tr>
<tr>
<td>Turnover with third undertakings</td>
<td>70</td>
</tr>
<tr>
<td>— Community-wide</td>
<td>(60)</td>
</tr>
<tr>
<td>— in Member State Y</td>
<td>(50)</td>
</tr>
</tbody>
</table>

II. Consideration of the joint undertaking

(a) The undertaking C is jointly controlled (in the meaning of Article 3(3) and (4)) by the undertakings A and B concerned by the concentration, irrespective of any third undertaking participating in that undertaking C.

(b) The undertaking C is not consolidated A and B in their profit and loss accounts.

(c) The turnover of C resulting from operations with A and B shall not be taken into account.

(d) The turnover of C resulting from operations with any third undertaking shall be apportioned equally amongst the undertakings A and B, irrespective of their individual shareholdings in C.

III. Calculation of turnover

(a) Undertaking A's aggregate worldwide turnover shall be calculated as follows: ECU 10 000 million and 50 % of C's worldwide turnover with third undertakings (i.e. ECU 35 million), the sum of which is ECU 10 035 million.

Undertaking B's aggregate worldwide turnover shall be calculated as follows: ECU 2 000 million and 50 % of C's world-wide turnover with third undertakings (i.e. ECU 35 million), the sum of which is ECU 2 035 million.

(b) The aggregate worldwide turnover of the undertakings concerned is ECU 12 070 million.

(c) Undertaking A achieves ECU 4 025 million within Member State Y (50 % of C's turnover in this Member State taken into account), and a Community-wide turnover of ECU 8 030 million (including 50 % of C's Community-wide turnover).

Undertaking B achieves ECU 925 million within Member State Y (50 % of C's turnover in this Member State taken into account), and a Community-wide turnover of ECU 1 530 million (including 50 % of C's Community-wide turnover).
IV. Conclusion

Since
(a) the aggregate worldwide turnover of undertakings A and B is more than ECU 5 000 million;
(b) each of the undertakings concerned by the concentration achieves more than ECU 250 million within the Community;
c) each of the undertakings concerned (undertaking A 50,1 % and undertaking B 60,5 %) achieves less than two thirds of its Community-wide turnover in one (and the same) Member State Y;
the proposed concentration would fall under the scope of the Regulation.
GUIDANCE NOTE III

Application of the two-thirds rule
(Article 1)

For the application of the two thirds rule for undertakings, we give the following examples (proposed concentration between undertakings A and B):

I. Consolidated profit and loss accounts

Example 1

<table>
<thead>
<tr>
<th>Turnover</th>
<th>Undertaking A</th>
<th>Undertaking B</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sales revenues worldwide</td>
<td>10 000</td>
<td>500</td>
</tr>
<tr>
<td>— within the Community</td>
<td>(8 000)</td>
<td>(400)</td>
</tr>
<tr>
<td>— in Member State X</td>
<td>(6 000)</td>
<td>(200)</td>
</tr>
</tbody>
</table>

Example 2(a)

<table>
<thead>
<tr>
<th>Turnover</th>
<th>Undertaking A</th>
<th>Undertaking B</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sale revenues worldwide</td>
<td>4 800</td>
<td>500</td>
</tr>
<tr>
<td>— within the Community</td>
<td>(2 400)</td>
<td>(400)</td>
</tr>
<tr>
<td>— in Member State X</td>
<td>(2 100)</td>
<td>(300)</td>
</tr>
</tbody>
</table>

Example 2(b)

Same figures as in example 2(a) but undertaking B achieves ECU 300 million in Member State Y.

II. Application of the two-thirds rule

Example 1

1. Community-wide turnover is, for undertaking A, ECU 8 000 million and for undertaking B, ECU 400 million.
2. Turnover in one (and the same) Member State X is, for undertaking A (ECU 6 000 million), 75 % of its Community-wide turnover and is, for undertaking B (ECU 200 million), 50 % of its Community-wide turnover.
3. Conclusion: In this case, although undertaking A achieves more than two thirds of its Community-wide turnover in Member State X, the proposed concentration would fall under the scope of the Regulation due to the fact that undertaking B achieves less than two thirds of its Community-wide turnover in Member State X.

Example 2(a)

1. Community-wide turnover of undertaking A is ECU 2 400 million and of undertaking B, ECU 400 million.
2. Turnover in one (and the same) Member State X is, for undertaking A, ECU 2 100 million (i.e. 87.5 % of its Community-wide turnover); and, for undertaking B, ECU 300 million (i.e. 75 % of its Community-wide turnover).
3. Conclusion: In this case, each of the undertakings concerned achieves more than two thirds of its Community-wide turnover in one (and the same) Member State X; the proposed concentration would not fall under the scope of the Regulation.

Example 2(b)

Conclusion: In this case, the two thirds rule would not apply due to the fact that undertakings A and B achieve more than two thirds of their Community-wide turnover in different Member States X and Y. Therefore, the proposed concentration would fall under the scope of the Regulation.
