1. INTRODUCTION

The Thessaloniki Agenda identifies ways and means of intensifying the stabilisation and association process (SAP), inter alia, through the introduction of European partnerships.

Based on the Commission’s Annual Report, the purpose of the European Partnership with Albania is to identify priorities for action in order to support efforts to move closer to the European Union within a coherent framework. The priorities are adapted to Albania’s specific needs and stage of preparation and will be updated as necessary. The European Partnership also provides guidance for financial assistance to Albania.

It is expected that Albania will adopt a plan including a timetable and details in terms of how they intend to address the European partnership priorities. The plan should also indicate ways to pursue the Thessaloniki agenda, the priorities on fighting organised crime and corruption identified at the 2002 London Conference and at the Ministerial meeting held in Brussels on 28 November 2003 in the framework of the EU-western Balkans Forum and the measures presented by each of the western Balkan countries at the meeting of 5 November 2003 in Belgrade as a follow-up to the Ohrid Conference on integrated border management.

2. PRINCIPLES

The SAP remains the framework for the European course of the western Balkan countries, all the way to their future accession.

The main priorities identified for Albania relate to its capacity to meet the criteria set by the Copenhagen European Council of 1993 and the conditions set for the SAP, notably the conditions defined by the Council in its Conclusions of 29 April 1997 and 21 and 22 June 1999, the content of the final declaration of the Zagreb Summit of 24 November 2000 and the Thessaloniki Agenda.

3. PRIORITIES

The Commission’s Annual Report assesses progress made and notes areas where the country needs to increase its efforts. The priorities listed in this European partnerships have been selected on the basis that it is realistic to expect that Albania can complete them or take them substantially forward over the next years. A distinction is made between short-term priorities, which are expected to be accomplished within one to two years, and medium-term priorities, which are expected to be accomplished within three to four years.

The European Partnership indicates the main priority areas for Albania’s preparations for further integration into the European Union, based on the analysis in the 2004 Annual Report. It should be recalled that where legislative approximation is concerned, incorporation of the acquis into legislation is not in itself sufficient; it will also be necessary to prepare to its full implementation.
