DECISION No 1718/2006/EC OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL
of 15 November 2006
concerning the implementation of a programme of support for the European audiovisual sector
(MEDIA 2007)

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Articles 150(4) and 157(3) thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Economic and Social Committee (1),

Having regard to the opinion of the Committee of the Regions (2),

Acting in accordance with the procedure referred to in Article 251 of the Treaty (3),

Whereas:

(1) The European audiovisual sector has a key role to play in the emergence of European citizenship because it is one of the principal vectors for conveying the Union’s common and shared fundamental social and cultural values to Europeans and especially young people. Community support is designed to enable the European audiovisual sector to promote intercultural dialogue, increase mutual awareness amongst Europe’s cultures and develop its political, cultural, social and economic potential, which constitutes genuine added value in the task of making European citizenship a reality. Such support is intended to enhance competitiveness and, in particular, to increase the market share in Europe of non-national European works.

(2) It is also necessary to promote active citizenship and to do more to ensure respect for the principle of human dignity, promote equality between men and women and combat all forms of discrimination and exclusion, including racism and xenophobia.

(3) All actions adopted pursuant to this programme should be compatible with the Charter of Fundamental Rights of the European Union and, in particular, Article 11 thereof on freedom of expression and media pluralism.

(4) Article 22 of the said Charter states that the Union is to respect cultural and linguistic diversity. It is, therefore, necessary to pay attention to the specific needs of the smaller Member States and those with more than one linguistic area.

(5) Community support for the audiovisual sector takes into account Article 151 of the Treaty.

(6) Community support for the audiovisual sector is also in keeping with the new strategic aim defined for the Union by the Lisbon European Council of 23 and 24 March 2000, namely to boost training, employment, economic reform and social cohesion in a knowledge-based economy. In its conclusions, the European Council stated that ‘content industries create added value by exploiting and networking European cultural diversity’. This approach was confirmed in the conclusions of the Brussels European Council of 20 and 21 March 2003.

(7) Community support for the audiovisual sector is based on the considerable experience acquired in the MEDIA I, MEDIA II, MEDIA Plus and MEDIA — Training programmes (4), which have helped the European audiovisual industry to develop since 1991, as has emerged clearly in the evaluation of these programmes.

(2) OJ C 164, 5.7.2005, p. 76.
(4) Programmes which were established by:
(8) The results obtained showed that Community action should concentrate mainly:

— upstream of audiovisual production, on the development of European audiovisual works and on the acquisition and improvement of audiovisual skills, the latter needing to be seen as an integral part of the audiovisual pre-production process,

— downstream of audiovisual production, on distribution, cinema exhibition and promotion of European audiovisual works,

— on digitisation making a decisive contribution to strengthening the audiovisual sector and on its being a central feature of MEDIA 2007. Support for digital services and European catalogues is one of the programme’s priorities in order to overcome the fragmentation of the European audiovisual market.

(9) The MEDIA programme should encourage authors (script-writers and directors) in the creative process and encourage them to develop and adopt new creative techniques which will strengthen the innovative capacity of the European audiovisual sector.

(10) There is more than one platform of digitisation in the projections of films, depending on different uses, users and needs. Pilot projects of the MEDIA programme are a test ground for future developments in the audiovisual sector.

(11) The preparatory action ‘Growth and Audiovisual: i2i Audiovisual’, which supplements the MEDIA Plus and MEDIA — Training programmes, marked a further stage in implementing the policy of Community support for the audiovisual sector. It was intended specifically to provide a remedy for the problems of access to funding of small and medium-sized enterprises (SMEs) in this sector. The evaluation of ‘Growth and Audiovisual: i2i Audiovisual’ confirmed that it met the sector’s needs and confirmed the need to pursue Community action along these lines but that it should be more closely geared towards the specific needs of the sector.

(12) The European audiovisual sector is characterised by its considerable potential for growth, innovation and dynamism, by the fragmentation of the market as a function of cultural and linguistic diversity and, consequently, by a large number of SMEs and very small enterprises with chronic undercapitalisation. For the purposes of implementing Community support, the specific nature of the audiovisual sector should be taken into account and it should be ensured that administrative and financial procedures in relation to the amount of support are simplified as far as possible and adapted to the aims pursued and the sector’s practices and requirements.

(13) Throughout the EU one major obstacle to competition is an almost complete lack of companies specialising in providing loan financing in the audiovisual sector.

(14) The Commission and Member States should review their support for the audiovisual sector, in particular the results of the preparatory action ‘Growth and Audiovisual: i2i Audiovisual’, to establish to what extent future support can simplify the development of specialist offers for SMEs in terms of loan financing.

(15) Loan finance systems that have been developed in the Member States to promote national audiovisual projects and to mobilise private capital should be examined to see whether such capital could be made available for non-national European projects.

(16) Increased transparency and dissemination of information concerning the European audiovisual market can make operators in the sector, and especially SMEs, more competitive. This could encourage private investors’ confidence by improving understanding of the industry’s potential. This also makes it easier for Community action to be evaluated and followed up. Participation by the European Union in the European Audiovisual Observatory should help it to achieve these aims.

(17) In a Community of 25 Member States, cooperation is increasingly becoming a strategic response to strengthen the competitiveness of the European film industry. There is therefore a need for greater support for projects for EU-wide networks at all MEDIA programme levels — training, development, distribution and promotion. This applies in particular to cooperation with players from the Member States which joined the European Union after 30 April 2004. It should be emphasised that any strategy for cooperation between players in the audiovisual sector should comply with the Community’s competition law.

(18) Public support for cinema at European, national, regional or local level is essential to overcome the sector’s structural difficulties and allow the European audiovisual industry to meet the challenge of globalisation.

(19) European Union accession countries and those EFTA countries which are parties to the EEA Agreement are recognised as potential participants in Community programmes in accordance with the agreements concluded with these countries.

(20) Cooperation between MEDIA and Eurimages needs to be strengthened, but without this leading to integration in financial and administrative matters.

(21) The European Council in Thessaloniki of 19 and 20 June 2003 adopted ‘The agenda for the Western Balkans: Moving towards European integration’, providing that Community
programmes should be open to countries in the process of stabilisation and association on the basis of framework agreements to be signed between the Community and these countries.

(22) The other European countries which are parties to the Council of Europe Convention on Transfrontier Television are an integral part of the European audiovisual area and should therefore be enabled, if they wish and taking into account budgetary considerations or priorities of their audiovisual industries, to participate in this programme or benefit under a more limited cooperation formula on the basis of supplementary appropriations and specific arrangements in accordance with conditions to be laid down in the agreements between the parties concerned.

(23) Cooperation with non-European third countries developed on the basis of mutual and balanced interests may create added value for the European audiovisual industry in terms of promotion, market access, distribution, dissemination and exhibition of European works in those countries. Such cooperation should be developed on the basis of supplementary appropriations and specific arrangements to be agreed upon with the parties concerned.

(24) Suitable measures should be implemented to prevent irregularities and fraud and to recover funds which have been lost or transferred or used improperly.

(25) This Decision lays down, for the entire duration of the programme, a financial envelope constituting the prime reference, within the meaning of point 37 of the Interinstitutional Agreement of 17 May 2006 between the European Parliament, the Council and the Commission on budgetary discipline and sound financial management (1), for the budgetary authority during the annual budgetary procedure.

(26) The measures necessary for the implementation of this Decision should be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission (2).

(27) The arrangements for monitoring and evaluating actions should include detailed annual reports as well as specific, measurable, achievable, relevant and time-bound objectives and indicators.

(28) Provision needs to be made for measures governing the transition from the MEDIA Plus and MEDIA — Training programmes to the programme established by this Decision.

(29) Since the objectives of this Decision cannot be sufficiently achieved by the Member States and can therefore, by reason of the scale and effects of the action, be better achieved at Community level, the Community may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty. In accordance with the principle of proportionality, as set out in that Article, this Decision does not go beyond what is necessary in order to achieve those objectives,

HAVE DECIDED AS FOLLOWS:

1.1. The share of the Community contribution in the cost of operations supported

The financial contribution from MEDIA may not exceed 50 % of the costs of operations supported, except in the following cases.

The financial contribution from MEDIA may be up to 60 % of the costs of operations supported:

(a) for training activities in countries or regions with low audiovisual production capacity and/or with a restricted linguistic or geographical area;

(b) for projects submitted under the development, distribution/dissemination and promotion strands which have the merit of highlighting the value of European linguistic and cultural diversity;

(c) for actions, amongst those described in point 3 of Chapter I of this Annex (distribution and dissemination), identified as conforming with the procedure set out in Article 11(2).

The financial contribution from MEDIA may be up to 75 % of the costs of operations supported for training activities in the Member States which have acceded to the European Union after 30 April 2004. Attention will be focused on this provision during the mid-term evaluation of the programme.

1.2. Arrangements for Community support

The Commission shall ensure that the programme is accessible and is implemented in a transparent manner.

Community support is in the form of grants or scholarships.

In the training sector, an appropriate amount of the available funds each year must be allocated to new activities as far as possible.

All actions shall be reviewed on a yearly basis in accordance with the procedure laid down in Article 10(2), allowing the Community to react to the needs and the development of the sector.

In order to secure the overall cultural and industrial objectives of the programme the decision on the annual breakdown of the financial envelope should be based on an ongoing monitoring of the effectiveness of the action lines in the programme.

2. Communication

2.1. Commission

The Commission may organise seminars, symposia or meetings to help implement the programme and may institute any suitable information, publication and dissemination measures, particularly in connection with monitoring and evaluation of the programme. Such activities may be funded by grants or calls for tender or may be organised and financed directly by the Commission.

2.2. MEDIA Desks and MEDIA antennae

The Commission, acting directly in concert with the Member States, shall establish a European network of MEDIA Desks and MEDIA antennae, which will operate as an implementing body at national level in accordance with Article 54(2)(c) and (3) of Regulation (EC, Euratom) No 1605/2002, notably for the purposes of:

3. Information about the European audiovisual market and participation in the Observatory and possible cooperation with the Council of Europe's Eurimages Support Fund.

The programme provides the legal basis for the expenditure necessary to monitor Community audiovisual policy measures.

It provides for the European Union to continue participating in the Observatory. This will ease access to information for operators and dissemination in the sector. It will also contribute to greater transparency in the production process. The programme could likewise enable the European Union to explore possibilities for cooperation (excluding financial and administrative matters) with the Eurimages Support Fund, with a view to promoting the competitiveness of the European audiovisual sector on the international market.

4. Management tasks

The programme's financial allocation can also cover expenses pertaining to preparatory, monitoring, control, audit and evaluation activities, required directly for the management and the realisation of the objectives of the programme, in particular, studies, meetings, information and publication actions, expenses linked to informatic networks focusing on information exchange, together with all other technical and administrative assistance expense that the Commission may have recourse to for the management of the programme. Experts from the technical advisory groups, or other evaluation and selection procedures, may be duly remunerated.

In implementing the Programme, the Commission will ensure compliance with the objectives and priorities set out in Article 1 and ensure that the participation of professionals in the programme reflects European cultural diversity in a balanced way.

5. Checks and audits

For the projects selected in accordance with the procedure described in Article 9, a system of random auditing shall be set up.

Any beneficiary of a grant shall keep at the Commission’s disposal for a period of five years following the final payment all supporting documents on the expenditure incurred. Beneficiaries shall ensure that, if need be, any supporting document in the possession of partners or members is made available to the Commission.

The Commission, either directly through its staff or through any other qualified, external agency of its choice, is entitled to carry out an audit on the use of the grant. These audits may be carried out throughout the term of the contract and for a period of five years from the date of the payment of the balance of the grant. The outcome of these audits may lead to a decision by the Commission to recover funds.

The Commission’s staff and external persons authorised by the Commission shall have suitable access, in particular to the offices of the beneficiary and to all information needed, including that in electronic form, to carry out the audits properly.

The Court of Auditors and the European Anti-Fraud Office shall have the same rights, especially of access, as the Commission.

Moreover, in order to protect the European Communities’ financial interests against fraud and other irregularities, the Commission is authorised to carry out checks and verifications in situ under the present programme, in compliance with Council Regulation (Euratom, EC) No 2185/96 of 11 November 1996 concerning on-the-spot checks and inspections carried out by the Commission in order to protect the European Communities’ financial interests against fraud and other irregularities (1). If need be, investigations shall be carried out by the European Anti-Fraud Office and shall be governed by Regulation (EC) No 1073/1999 of the European Parliament and of the Council of 25 May 1999 concerning investigations conducted by the European Anti-Fraud Office (OLAF) (2).
