

Notice of initiation of an anti-dumping proceeding concerning imports of aluminium foil originating in the People's Republic of China and Russia

(2000/C 45/02)

The Commission has received a complaint pursuant to Article 5 of Council Regulation (EC) No 384/96 ⁽¹⁾, as last amended by Council Regulation (EC) No 905/98 ⁽²⁾ (hereinafter referred to as 'the Basic Regulation'), alleging that imports of aluminium foil, originating in the People's Republic of China and Russia, are being dumped and are thereby causing material injury to the Community industry.

1. Complaint

The complaint was lodged on 4 January 2000 by Eurometaux (hereinafter referred to as 'the complainant') on behalf of producers representing a major proportion, i.e. 71 %, of the total Community production of aluminium household foil (AHF) (hereinafter referred to as 'the product concerned').

2. Product

The product allegedly being dumped is aluminium foil of a thickness of not more than 0,018 mm, not backed, not further worked than rolled, presented in jumbo reel of a width not exceeding 650 mm, currently classifiable within CN code ex 7607 11 10. This CN code is only given for information.

3. Allegation of dumping

In view of the fact that normal value for the People's Republic of China and Russia will be determined on the basis of the rules set out in Article 2(7) of the Basic Regulation, the complainant has proposed that normal value be established on the basis of the price in a market economy third country.

The allegation of dumping is based on a comparison of normal value, as set out above, with the export prices of the product concerned when sold for export to the Community.

On this basis, the dumping margins calculated are significant.

4. Allegation of injury

The complainant has provided evidence that imports of the product concerned from the People's Republic of China and Russia have increased overall in absolute terms and in terms of market share.

It is alleged that the volumes and the prices of the imported product concerned have, among other consequences, had a negative impact on the quantities sold and the level of prices charged by the Community producers, resulting in substantial adverse effects on the overall performance and the financial situation of the Community industry.

5. Procedure for the determination of dumping and injury

Having determined, after consulting the Advisory Committee, that the complaint has been lodged by or on behalf of the Community industry and that there is sufficient evidence to justify the initiation of a proceeding, the Commission hereby initiates an investigation pursuant to Article 5 of the Basic Regulation.

(a) Questionnaires

In order to obtain the information it deems necessary for its investigation, the Commission will send questionnaires to the Community industry and to any association of producers in the Community, to the exporting producers and importers, to any association of exporting producers and importers named in the complaint and to the authorities of the People's Republic of China and Russia.

Exporting producers and importers are invited to contact the Commission forthwith in order to find out whether or not they are listed in the complaint. In the latter case, they should as soon as possible, but not later than 15 days after publication of this notice in the *Official Journal of the European Communities*, request a copy of the questionnaire, as all questionnaires have to be completed and reach the Commission in hard copy within the time limit set in paragraph 7(a) of this notice. Any request for questionnaires must be made in writing to the address mentioned below and should indicate the name, address, e-mail address, telephone, and fax, and/or telex numbers of the interested party. Alternatively, a request for a questionnaire can be addressed to the national authorities of the exporting country.

(b) Collection of information and holding of hearings

All interested parties are hereby invited to make their views known in writing and to provide supporting evidence. This information has to reach the Commission within the time limit set in paragraph 7(a) of this notice.

Furthermore, the Commission may hear interested parties, provided that they make a request in writing and show that there are particular reasons why they should be heard.

(c) Selection of the market economy third country

In accordance with Article 2(7)(a) of the Basic Regulation, Turkey is envisaged as an appropriate market economy third country for the purpose of establishing normal value in respect of the People's Republic of China and Russia. Interested parties are hereby invited to comment on the appropriateness of this choice within the specific time limit set in paragraph 7(b) of this notice.

(d) Market economy status

For those exporting producers in the People's Republic of China and Russia which claim and provide sufficient evidence that they operate under market economy conditions, i.e. that they meet the criteria laid down in Article 2(7)(c) of the Basic Regulation, normal value will be determined in accordance with Article 2(7)(b) of the Basic Regulation. producers intending to submit duly substantiated claims must do so within the specific time limit laid down in paragraph 7(c) of this notice. The Commission will send claim forms to all exporting producers in the People's Republic of China and Russia, as well as to the Chinese and Russian authorities.

6. Community interest

In accordance with Article 21 of the Basic Regulation and in order that a decision may be reached as to whether, in the event that the allegations of dumping and injury caused thereby are substantiated, the adoption of anti-dumping measures would be in the Community interest, the Community industry, importers, their representative associations and representative consumer organisations may, within the general time limit set in paragraph 7(a) of this notice, make themselves known and provide the Commission with information. It should be noted that any information submitted pursuant to this Article will only be taken into account if supported by factual evidence at the time of submission.

7. Time limits

All submissions and requests, made by interested parties within the context of the following paragraphs must be made in writing (not in electronic format, unless otherwise specified), and must reach the Commission within the time limits set below.

(a) General time limit

Interested parties may also apply to be heard by the Commission within the same time limit. This time limit applies to all interested parties, including parties not named in the complaint, and it is consequently in the interest of these parties to contact the Commission without delay.

(b) Specific time limit for the selection of the market economy third country
