

Notice of initiation of an anti-dumping proceeding concerning imports of integrated electronic compact fluorescent lamps originating in the People's Republic of China

(2000/C 138/06)

The Commission has received a complaint pursuant to Article 5 of Council Regulation (EC) No 384/96 ⁽¹⁾, as last amended by Council Regulation (EC) No 905/98 ⁽²⁾, (hereinafter referred to as 'the Basic Regulation'), alleging that imports of integrated electronic compact fluorescent lamps, originating in the People's Republic of China, are being dumped and are thereby causing material injury to the Community industry.

1. Complaint

The complaint was lodged on 4 April 2000 by European Lighting Companies Federation (hereinafter referred to as 'the complainant') on behalf of producers representing a major proportion, in this case more than 95 %, of the total Community production of integrated electronic compact fluorescent lamps.

2. Product

The product allegedly being dumped is electronic compact fluorescent discharge lamps with one or more glass tubes, with all lighting elements and electronic components fixed to the lamp foot or integrated in the lamp foot (hereinafter referred to as 'the product concerned'). The industry usually refers to this product as compact fluorescent lamps (integrated) or CFL-i. These lamps, currently classifiable within CN code ex 8539 31 90, are designed to replace normal filament lamps and fit into the same lamp sockets as the filament lamps. The CN code is only given for information.

3. Allegation of dumping

In view of the fact that normal value for the People's Republic of China, will be determined on the basis of the rules set out in Article 2(7) of the Basic Regulation, the complainant has proposed that normal value be established on the basis of the price in a market economy country (see point 5.1(d) of this notice). The allegation of dumping is based on a comparison of normal value, as set out above, with the export prices of the product concerned when sold for export to the Community.

On this basis, the dumping margin calculated is significant.

4. Allegation of injury

The complainant has provided evidence that imports of the product concerned from the People's Republic of China have increased overall in absolute terms and in terms of market share.

It is alleged that the volumes and the prices of the imported product concerned have, among other consequences, had a

negative impact on the quantities sold and the level of prices charged by the Community producers, resulting in substantial adverse effects on the overall performance and the financial situation of the Community industry.

5. Procedure

Having determined, after consulting the Advisory Committee, that the complaint has been lodged by or on behalf of the Community industry and that there is sufficient evidence to justify the initiation of a proceeding, the Commission hereby initiates an investigation pursuant to Article 5 of the Basic Regulation.

5.1. Procedure for the determination of dumping and injury

The investigation will determine whether the product concerned originating in the People's Republic of China is being dumped and whether this dumping has caused injury.
