

Notice of initiation of an expiry review of the anti-dumping measures applicable to imports of certain polyethylene terephthalate originating in India, Indonesia, the Republic of Korea, Malaysia, Taiwan and Thailand and a partial interim review of the anti-dumping measures applicable to imports of certain polyethylene terephthalate originating in the Republic of Korea and Taiwan

(2005/C 304/04)

Following the publication of a notice of impending expiry ⁽¹⁾ of the anti-dumping measures in force on imports of certain polyethylene terephthalate originating in India, Indonesia, the Republic of Korea, Malaysia, Taiwan and Thailand ('countries concerned'), the Commission has received a request for review pursuant to Article 11(2) and (3) of Council Regulation (EC) No 384/96 on protection against dumped imports from countries not members of the European Community ('the basic Regulation') ⁽²⁾, as last amended by Council Regulation (EC) No 461/2004 ⁽³⁾.

1. Request for review

The request was lodged on 30 August 2005 by the Polyethylene Terephthalate (PET) Committee of PlasticsEurope ('the applicant') on behalf of producers representing a major proportion, in this case more than 90 %, of the total Community production of certain polyethylene terephthalate.

2. Product

The product under review is polyethylene terephthalate with a coefficient of viscosity of 78 ml/g or higher, according to DIN (Deutsche Industrienorm) 53728 originating in India, Indonesia, the Republic of Korea, Malaysia, Taiwan and Thailand ('the product concerned'), currently classifiable within CN code 3907 60 20. This CN code is given only for information.

3. Existing measures

The measures currently in force are a definitive anti-dumping duty imposed by Council Regulation (EC) No 2604/2000 ⁽⁴⁾, as last amended by Council Regulation (EC) No 1646/2005 ⁽⁵⁾ and undertakings accepted by Commission Decision 2000/745/EC ⁽⁶⁾ as last amended by Commission Decision No 2005/697/EC ⁽⁷⁾.

4. Grounds for the review

4.1. Grounds for the expiry review

The request is based on the grounds that the expiry of the measures would be likely to result in a continuation or recurrence of dumping and injury to the Community industry.

The allegation of continuation of dumping in respect of the Republic of Korea and Taiwan is based on a comparison of a constructed normal value with the export prices of the product concerned when sold for export to the Community.

On this basis, the dumping margins calculated are significant for the Republic of Korea and Taiwan.

In demonstrating the likelihood of recurrence of dumping for India, export prices to Turkey, Romania, the United Arab Emirates, Israel, Algeria and the United States of America have been used by the applicant given the current absence of significant import volumes from India into the EC.

In demonstrating the likelihood of recurrence of dumping for Indonesia, export prices to Japan, the United States of America, Malaysia, Australia and Turkey have been used by the applicant given the current absence of significant import volumes from Indonesia into the EC.

In demonstrating the likelihood of recurrence of dumping for Malaysia, export prices to Iran have been used by the applicant given the current absence of significant import volumes from Malaysia into the EC.

In demonstrating the likelihood of recurrence of dumping for Thailand, export prices to Japan and the United States of America have been used by the applicant given the current absence of significant import volumes from Thailand into the EC.

The allegation of recurrence of dumping for India, Indonesia, Malaysia and Thailand is based on a comparison of a constructed normal value with the export prices of the product concerned when sold for export to the abovementioned third countries.

On the basis of the above comparisons of normal values and export prices, which show dumping from India, Indonesia, Malaysia and Thailand, the applicant alleges that there is a likelihood of recurrence of dumping.

The applicant further alleges the likelihood of further injurious dumping. In this respect the applicant presents evidence that, should measures be allowed to lapse, the current import level of the product concerned is likely to increase due to the existence of unused capacity and the recent investments in production capacity in the countries concerned.

It is also alleged that the flow of imports of the product concerned is likely to rise due to the measures in force on imports of similar products originating in the countries concerned in traditional markets other than the EU (i.e. the People's Republic of China). All this can lead to a redirection of exports from other third countries to the Community.

It is further alleged that the volumes of the imported product originating in the Republic of Korea and Taiwan have continued, among other consequences, to have a negative impact on the market share held, resulting in substantial adverse effects on the financial situation and employment situation of the Community industry.

In addition, the applicant alleges that the removal of injury is mainly due to the existence of measures and that any recurrence of substantial imports at dumped prices from the countries concerned would likely lead to a recurrence of further injury of the Community industry should measures be allowed to lapse.

4.2. *Grounds for the partial interim review*

The applicant has provided information that, in regard to imports of the product concerned from Taiwan and three exporting producers in the Republic of Korea, i.e. Daehan Synthetic Fiber Co. Ltd, SK Chemicals Co. Ltd and KP Chemical Corp., the level of the measures is no longer sufficient to counteract the injurious dumping.

5. Procedure

Having determined, after consulting the Advisory Committee, that sufficient evidence exists to justify the initiation of an expiry review and a partial interim review, limited to dumping aspects, as far as imports from Taiwan and from the three abovementioned Korean exporting producers are concerned, the Commission hereby initiates a review in accordance with Article 11(2) and (3) of the basic Regulation.

5.1. *Procedure for the determination of dumping, likelihood of dumping and injury*

The expiry review will determine whether the expiry of the measures would be likely, or unlikely, to lead to a continuation

or recurrence of dumping and injury. The interim review will determine whether, in regard to imports of the product concerned from Taiwan and three abovementioned exporting producers in the Republic of Korea, the level of the measures is sufficient to counteract the injurious dumping.

(a) *Sampling*

In view of the apparent number of parties involved in this proceeding, the Commission may decide to apply sampling, in accordance with Article 17 of the basic Regulation.

(i) *Sampling for exporters/producers in India, Indonesia, the Republic of Korea and Taiwan*

If the company is chosen to be part of the sample, this will imply replying to a questionnaire and accepting an on-the-spot investigation of its response. If the company indicates that it does not agree to its possible inclusion in the sample, it will be deemed to not have cooperated in the investigation. The consequences of non-cooperation are set out in point 8 below.

In order to obtain the information it deems necessary for the selection of the sample of importers, the Commission will, in addition, contact any known associations of importers.

(iii) Sampling for Community producers

In view of the large number of Community producers supporting the request, the Commission intends to investigate injury to the Community industry by applying sampling.

In order to enable the Commission to select a sample, all Community producers are hereby requested to provide the following information on their company or companies within the time limit set in point 6(b)(i):

- name, address, e-mail address, telephone and fax number and contact person,
- the total turnover in EUR of the company during the period 1 October 2004 until 30 September 2005,

The consequences of non-cooperation are set out in point 8 below.

(iv) Final selection of the samples

All interested parties wishing to submit any relevant information regarding the selection of the samples must do so within the time limit set in point 6(b)(ii).

The Commission intends to make the final selection of the samples after having consulted the parties concerned that have expressed their willingness to be included in the sample.

Companies included in the samples must reply to a questionnaire within the time limit set in point 6(b)(iii) and must cooperate within the framework of the investigation.

If sufficient cooperation is not forthcoming, the Commission may base its findings, in accordance with Articles 17(4) and 18 of the basic Regulation, on the facts available. A finding based on facts available may be less advantageous to the party concerned, as explained in point 8.

(b) Questionnaires

In order to obtain the information it deems necessary for its investigation, the Commission will send questionnaires

⁽¹⁾ For guidance on the meaning of related companies, please refer to Article 143 of Commission Regulation (EEC) No 2454/93, as amended, laying down provisions for the implementation of Council Regulation (EEC) No 2913/92 establishing the Community Customs Code (OJ L 253, 11.10.1993, p. 1).

to the sampled Community industry and to any association of producers in the Community, to the sampled exporters/producers in India, Indonesia, the Republic of Korea and Taiwan, to the exporters/producers in Malaysia and Thailand, to any association of exporters/producers, to the sampled importers, to any association of importers named in the request or which cooperated in the investigation leading to the measures subject to the present review, and to the authorities of the exporting countries concerned.

(c) Collection of information and holding of hearings

All interested parties are hereby invited to make their views known, submit information other than questionnaire replies and to provide supporting evidence. This information and supporting evidence must reach the Commission within the time limit set in point 6(a)(ii).

Furthermore, the Commission may hear interested parties, provided that they make a request showing that there are particular reasons why they should be heard. This request must be made within the time limit set in point 6(a)(iii).

5.2. Procedure for the assessment of Community interest

In accordance with Article 21 of the basic Regulation and in the event that the likelihood of a continuation or recurrence of dumping and injury is confirmed, a determination will be made as to whether to maintain or repeal the anti-dumping measures would not be against the Community interest. For this reason the Community industry, importers, their representative associations, representative users and representative consumer organisations, provided that they prove that there is an objective link between their activity and the product concerned, may, within the general time limits set in point 6(a)(ii), make themselves known and provide the Commission with information. The parties which have acted in conformity with the previous sentence may request a hearing, setting the particular reasons why they should be heard, within the time limit set in point 6(a)(iii). It should be noted that any information submitted pursuant to Article 21 will only be taken into account if supported by factual evidence at the time of submission.

6. Time limits

(a) General time limits

Attention is drawn to the fact that the exercise of most procedural rights set out in the basic Regulation depends on the party's making itself known within the aforementioned period.

Companies selected in a sample must submit questionnaire replies within the time limit specified in point 6(b)(iii).

- (iii) Hearings

All interested parties may also apply to be heard by the Commission within the same 40-day time limit.

Where it is found that any interested party has supplied false or misleading information, the information shall be disregarded and use may be made of the facts available. If an interested party does not cooperate or cooperates only partially and findings are therefore based on facts available in accordance with Article 18 of the basic Regulation, the result may be less favourable to that party than if it had cooperated.
