

PROCEDURES RELATING TO THE IMPLEMENTATION OF THE COMMON COMMERCIAL POLICY

COMMISSION

Notice of initiation of an anti-dumping proceeding concerning imports of certain welded tubes and pipes of iron or non-alloy steel originating in Belarus, Bosnia and Herzegovina, the People's Republic of China and Russia

(2007/C 226/04)

The Commission has received a complaint pursuant to Article 5 of Council Regulation (EC) No 384/96 of 22 December 1995 on protection against dumped imports from countries not members of the European Community ('the basic Regulation')⁽¹⁾, alleging that imports of certain welded tubes and pipes of iron or non-alloy steel, originating in Belarus, Bosnia and Herzegovina, the People's Republic of China and Russia ('the countries concerned'), are being dumped and are thereby causing material injury to the Community industry.

1. Complaint

The complaint was lodged on 20 August 2007 by the Defence Committee of the welded steel tubes industry of the European Union ('the complainant') on behalf of producers representing a major proportion, in this case more than 50 %, of the total Community production of certain welded tubes and pipes of iron or non-alloy steel.

2. Product

The product allegedly being dumped is welded tubes and pipes, of iron or non-alloy steel, of circular cross-section and of an external diameter not exceeding 168,3 mm, excluding tubes and pipes of a kind used for oil or gas pipelines, of a kind used in drilling for oil or gas, or with attached fittings for use in civil aircraft, other than precision tubes, originating in Belarus, Bosnia and Herzegovina, the People's Republic of China and Russia ('the product concerned'), normally declared within CN codes ex 7306 30 41, ex 7306 30 49, ex 7306 30 72 and ex 7306 30 77. These CN codes are only given for information.

3. Allegation of dumping

The allegation of dumping in respect of Bosnia and Herzegovina and Russia is based on a comparison of normal value estab-

lished on the basis of the cost of production with the export prices of the product concerned when sold for export to the Community.

In view of the provisions of Article 2(7) of the basic Regulation, the complainant established normal value for Belarus and the People's Republic of China on the basis of the price in a market economy country, which is mentioned in point 5.1(d). The allegation of dumping is based on a comparison of normal value, thus calculated, with the export prices of the product concerned when sold for export to the Community.

On this basis, the dumping margins calculated are significant for all exporting countries concerned.

4. Allegation of injury

The complainant has provided evidence that imports of the product concerned from Belarus, Bosnia and Herzegovina and the People's Republic of China have increased overall in absolute terms and in terms of market share, while those of Russia remained at significantly high levels.

It is alleged that the volumes and the prices of the imported product concerned have, among other consequences, had a negative impact on the market share held and the level of prices charged by the Community industry, resulting in substantial adverse effects on the overall performance and the financial situation of the Community industry.

5. Procedure

Having determined, after consulting the Advisory Committee, that the complaint has been lodged by or on behalf of the Community industry and that there is sufficient evidence to justify the initiation of a proceeding, the Commission hereby initiates an investigation pursuant to Article 5 of the basic Regulation.

⁽¹⁾ OJ L 56, 6.3.1996, p. 1. Regulation as last amended by Regulation (EC) No 2117/2005 (OJ L 340, 23.12.2005, p. 17).

5.1. Procedure for the determination of dumping and injury

The investigation will determine whether the product concerned originating in Belarus, Bosnia and Herzegovina, the People's Republic of China and Russia is being dumped and whether this dumping has caused injury.

(a) Sampling

In view of the apparent large number of parties involved in this proceeding, the Commission may decide to apply sampling in accordance with Article 17 of the basic Regulation.

(i) Sampling for exporters/producers in the People's Republic of China and Russia

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all exporters/producers, or representatives acting on their behalf, are hereby requested to make themselves known by contacting the Commission and providing the following information on their company or companies within the time limit set in point 6(b)(i) and in the formats indicated in point 7:

- name, address, e-mail address, telephone and fax numbers and contact person,
- the turnover in local currency and the volume in tonnes of the product concerned sold for export to the Community during the period 1 July 2006-30 June 2007,
- the turnover in local currency and the sales volume in tonnes for the product concerned on the domestic market during the period to 1 July 2006-30 June 2007,
- whether the company intends to claim an individual margin ⁽¹⁾ (individual margins can only be claimed by producers),
- the precise activities of the company with regard to the production of the product concerned,

⁽¹⁾ Individual margins may be claimed pursuant to Article 17(3) of the basic Regulation for companies not included in the sample, Article 9(5) of the basic Regulation concerning individual treatment in cases involving non-market economy countries/economies in transition, and Article 2(7)(b) of the basic Regulation for companies claiming market economy status. Note that claims for individual treatment necessitate an application pursuant to Article 9(5) of the basic Regulation and that claims regarding market economy status necessitate an application pursuant to Article 2(7)(b) of the basic Regulation.

- the names and the precise activities of all related companies ⁽²⁾ involved in the production and/or selling (export and/or domestic) of the product concerned,
- any other relevant information that would assist the Commission in the selection of the sample.

By providing the above information, the company agrees to its possible inclusion in the sample. If the company is chosen to be part of the sample, this will imply replying to a questionnaire and accepting an on-the-spot investigation of its response. If the company indicates that it does not agree to its possible inclusion in the sample, it will be deemed to not have co-operated in the investigation. The consequences of non-cooperation are set out in point 8 below.

In order to obtain the information it deems necessary for the selection of the sample of exporters/producers, the Commission will, in addition, contact the authorities of the exporting countries and any known associations of exporters/producers.

(ii) Sampling for importers

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all importers, or representatives acting on their behalf, are hereby requested to make themselves known to the Commission and to provide the following information on their company or companies within the time limit set in point 6(b)(i) and in the formats indicated in point 7:

- name, address, e-mail address, telephone and fax numbers and contact person,
- the total turnover in euro of the company during the period 1 July 2006-30 June 2007,
- the total number of employees,

⁽²⁾ For guidance on the meaning of related companies, please refer to Article 143 of Commission Regulation (EEC) No 2454/93 of 2 July 1993 laying down provisions for the implementation of Council Regulation (EEC) No 2913/92 establishing the Community Customs Code (OJ L 253, 11.10.1993, p. 1).

- the names and the precise activities of all related companies ⁽¹⁾ involved in the production and/or selling of the product concerned,
- any other relevant information that would assist the Commission in the selection of the sample.

By providing the above information, the company agrees to its possible inclusion in the sample. If the company is chosen to be part of the sample, this will imply replying to a questionnaire and accepting an on-the-spot investigation of its response. If the company indicates that it does not agree to its possible inclusion in the sample, it will be deemed to not have co-operated in the investigation. The consequences of non-cooperation are set out in point 8 below.

In order to obtain the information it deems necessary for the selection of the sample of importers, the Commission will, in addition, contact any known associations of importers.

(iii) Sampling for Community producers

In view of the large number of Community producers supporting the complaint, the Commission intends to investigate injury to the Community industry by applying sampling.

In order to enable the Commission to select a sample, all Community producers are hereby requested to provide the following information on their company or companies within the time limit set in point 6(b)(i) and in the formats indicated in point 7:

- name, address, e-mail address, telephone and fax numbers and contact person,
- the total turnover in euro of the company during the period 1 July 2006-30 June 2007,
- the precise activities of the company with regard to the production of the product concerned,
- the value in euro of sales of the product concerned made in the Community market during the period 1 July 2006-30 June 2007,

- the volume in tonnes of the production of the product concerned during the period 1 July 2006-30 June 2007,
- the names and the precise activities of all related companies ⁽¹⁾ involved in the production and/or selling of the product concerned,
- any other relevant information that would assist the Commission in the selection of the sample.

By providing the above information, the company agrees to its possible inclusion in the sample. If the company is chosen to be part of the sample, this will imply replying to a questionnaire and accepting an on-the-spot investigation of its response. If the company indicates that it does not agree to its possible inclusion in the sample, it will be deemed to not have co-operated in the investigation. The consequences of non-cooperation are set out in point 8 below.

(iv) Final selection of the samples

All interested parties wishing to submit any relevant information regarding the selection of the samples must do so within the time limit set in point 6(b)(ii).

The Commission intends to make the final selection of the samples after having consulted the parties concerned that have expressed their willingness to be included in the sample.

Companies included in the samples must reply to a questionnaire within the time limit set in point 6(b)(iii) and must cooperate within the framework of the investigation.

If sufficient co-operation is not forthcoming, the Commission may base its findings, in accordance with Articles 17(4) and 18 of the basic Regulation, on the facts available. A finding based on facts available may be less advantageous to the party concerned, as explained in point 8.

(b) Questionnaires

In order to obtain the information it deems necessary for its investigation, the Commission will send questionnaires to the sampled Community industry and to any association of producers in the Community, to the sampled exporters/producers in the People's Republic of China and Russia, to the exporters/producers in Belarus and Bosnia and Herzegovina, to any association of exporters/producers, to the sampled importers, to any association of importers named in the complaint, and to the authorities of the exporting countries concerned.

(i) Exporters/producers in Belarus, Bosnia and Herzegovina

All such interested parties should contact the Commission forthwith by fax, but not later than the time limit set out in point 6(a)(i), in order to find out whether they are listed in the complaint and, if necessary, to request a questionnaire, given that the time limit set in point 6(a)(ii) applies to all such interested parties.

⁽¹⁾ For guidance on the meaning of related companies, please refer to Article 143 of Regulation (EEC) No 2454/93.

- (ii) Exporters/producers claiming an individual margin in the People's Republic of China and Russia

Exporters/producers in the People's Republic of China and Russia claiming an individual margin, with a view to the application of Articles 17(3) and 9(6) of the basic Regulation, must submit a completed questionnaire within the time limit set in point 6(a)(ii) of this notice. They therefore have to request a questionnaire within the time limit set in point 6(a)(i). However, such parties should be aware that if sampling is applied to exporters/producers, the Commission may nonetheless decide not to calculate an individual margin for them, if the number of exporters/producers is so large that individual examination would be unduly burdensome and would prevent the timely completion of the investigation.

- (c) *Collection of information and holding of hearings*

All interested parties are hereby invited to make their views known, submit information other than questionnaire replies and to provide supporting evidence. This information and supporting evidence has to reach the Commission within the time limit set in point 6(a)(ii).

Furthermore, the Commission may hear interested parties, provided that they make a request showing that there are particular reasons why they should be heard. This request must be made within the time limit set in point 6(a)(iii).

- (d) *Selection of the market economy country*

In accordance with Article 2(7)(a) of the basic Regulation, it is envisaged to choose the United States of America as an appropriate market economy country for the purpose of establishing normal value in respect of Belarus and the People's Republic of China. Interested parties are hereby invited to comment on the appropriateness of this choice within the specific time limit set in point 6(c).

- (e) *Market economy status*

For those exporters/producers in the People's Republic of China and Belarus who claim and provide sufficient evidence that they operate under market economy conditions, i.e. that they meet the criteria laid down in Article 2(7)(c) of the basic Regulation, normal value will be determined in accordance with Article 2(7)(b) of the basic Regulation. Exporters/producers intending to submit duly substantiated claims must do so within the specific time limit set in point 6(d). The Commission will send claim forms to all exporters/producers in Belarus and to those exporters/producers in the People's Republic of China who have been included in the sample and to any association of exporters/producers named in the complaint, as well as to the authorities of the People's Republic of China and Belarus.

5.2. *Procedure for assessment of Community interest*

In accordance with Article 21 of the basic Regulation and in the event that the allegations of dumping and injury caused thereby are substantiated, a decision will be reached as to whether the adoption of anti-dumping measures would not be against the Community interest. For this reason the Community industry, importers, their representative associations, representative users and representative consumer organisations, provided that they prove that there is an objective link between their activity and the product concerned, may, within the general time limits set in point 6(a)(ii), make themselves known and provide the Commission with information. The parties which have acted in conformity with the precedent sentence may request a hearing setting the particular reasons why they should be heard within the time limit set in point 6(a)(iii). It should be noted that any information submitted pursuant to Article 21 will only be taken into account if supported by factual evidence at the time of submission.

6. **Time limits**

- (a) *General time limits*

parties on a confidential basis shall be labelled as 'Limited' ⁽¹⁾ and, in accordance with Article 19(2) of the basic Regulation, shall be accompanied by a non-confidential version, which will be labelled 'For inspection by interested parties'.

Where it is found that any interested party has supplied false or misleading information, the information shall be disregarded and use may be made of the facts available. If an interested party does not cooperate or cooperates only partially and findings are therefore based on facts available in accordance with Article 18 of the basic Regulation, the result may be less favourable to that party than if it had cooperated.
