

PROCEDURES RELATING TO THE IMPLEMENTATION OF THE COMMON COMMERCIAL POLICY

COMMISSION

Notice of initiation of a partial interim review of the anti-dumping measures applicable to imports of polyester staple fibres originating in the Republic of Korea

(2009/C 284/10)

The Commission has received a request for a partial interim review pursuant to Article 11 (3) of Council Regulation (EC) No 384/96 of 22 December 1995 on protection against dumped imports from countries not members of the European Community ⁽¹⁾ ('the basic Regulation').

1. Request for review

The request was lodged by Woongjin Chemicals Co., Ltd ⁽²⁾ ('the applicant'), an exporting producer from the Republic of Korea.

The review is limited in scope to the examination of dumping as far as the applicant is concerned.

2. Product

The product under review is synthetic staple fibres of polyesters, not carded, combed or otherwise processed for spinning originating in the Republic of Korea ('the product concerned'), currently classifiable within CN code 5503 20 00.

3. Existing measures

The measures currently in force are a definitive anti-dumping duty imposed by Council Regulation (EC) No 2852/2000 ⁽³⁾ on imports of polyester staple fibres originating, inter alia, in the Republic of Korea, as last amended by Council Regulation (EC) No 428/2005 ⁽⁴⁾ and by Council Regulation (EC) No 412/2009 ⁽⁵⁾.

4. Grounds for the review

The request pursuant to Article 11(3) is based on *prima facie* evidence, provided by the applicant, that the circumstances on the basis of which measures were established have changed and that these changes are of lasting nature. In particular, the applicant alleges that there have been significant changes in the production facilities of the company which have led to a substantially lower dumping margin since the imposition of the existing measures.

The applicant provided *prima facie* evidence that the continued imposition of the measure at its current level is no longer necessary to offset dumping. A comparison of the applicant's domestic prices and its export prices to the Community indicates that the dumping margin appears to be substantially lower than the current level of the measure.

Therefore, the continued imposition of measures at the existing level, which was based on the level of dumping previously established, appears to be no longer necessary to offset dumping.

5. Procedure for the determination of dumping

Having determined, after consulting the Advisory Committee, that sufficient evidence exists to justify the initiation of a partial interim review, the Commission hereby initiates a review in accordance with Article 11 (3) of the basic Regulation.

The investigation will assess the need for the continuation, removal or amendment of the existing measures in respect of the applicant.

If it is determined that measures should be removed or amended for the applicant, it may be necessary to amend the rated of duty currently applicable to imports of the product concerned from companies not individually mentioned in Article 1 of Regulation (EC) No 2852/2000, as amended by Council Regulation (EC) No 428/2005 and by Council Regulation (EC) No 412/2009.

(a) Questionnaires

In order to obtain the information it deems necessary for its investigation, the Commission will send questionnaires to the applicant and to the authorities of the exporting country concerned. This information and supporting evidence should reach the Commission within the time limit set in point 6(a).

(b) Collection of information and holding of hearings

All interested parties are hereby invited to make their views known, submit information other than questionnaire replies and to provide supporting evidence. This information and supporting evidence must reach the Commission within the time limit set in point 6(a).
