PROCEDURES RELATING TO THE IMPLEMENTATION OF THE COMMON
COMMERCIAL POLICY

EUROPEAN COMMISSION

**Notice of initiation of an expiry review of the anti-dumping measures applicable to imports of
certain stainless steel fasteners and parts thereof originating in the People's Republic of China and
Taiwan**

(2010/C 315/07)

Following the publication of a notice of impending expiry ⁽¹⁾ of the anti-dumping measures in force on imports of certain stainless steel fasteners and parts thereof originating in the People's Republic of China and Taiwan ('countries concerned'), the European Commission ('the Commission') has received a request for review pursuant to Article 11(2) of Council Regulation (EC) No 1225/2009 of 30 November 2009 on protection against dumped imports from countries not members of the European Community ⁽²⁾ ('the basic Regulation').

1. Request for review

The request was lodged on 19 August 2010 by the European Industrial Fasteners Institute ('EIFI') ('the applicant') on behalf of producers representing a major proportion, in this case more than 25 % of the Union production of certain stainless steel fasteners and parts thereof.

2. Product

The product under review is certain stainless steel fasteners and parts thereof, originating in the People's Republic of China and Taiwan ('the product concerned'), currently falling within CN codes 7318 12 10, 7318 14 10, 7318 15 30, 7318 15 51, 7318 15 61 and 7318 15 70.

3. Existing measures

The measures currently in force are a definitive anti-dumping duty imposed by Council Regulation (EC) No 1890/2005 ⁽³⁾.

4. Grounds for the review

The request is based on the grounds that the expiry of the measures would be likely to result in continuation of

dumping and continuation or recurrence of injury to the Union industry.

In view of the provisions of Article 2(7) of the basic Regulation, the applicant established normal value for the exporting producers from the People's Republic of China on the basis of a constructed normal value in an appropriate market economy country, which is mentioned in point 5.1(d) of this notice. The allegation of continuation of dumping is based on a comparison of normal value, as set out in the preceding sentence, with the export prices of the product concerned when sold for export to the Union.

On this basis, the dumping margin calculated is significant.

The allegation of continuation of dumping for Taiwan is based on a comparison of a constructed normal value, established on the basis of cost of production, with the export prices of the product concerned when sold for export to the Union.

On this basis, the dumping margin calculated is significant.

The applicant has provided evidence that imports of the product concerned from the People's Republic of China and Taiwan continued to enter in significant quantities.

The *prima facie* evidence provided by the applicant shows that the volumes of the imported product have continued, among other consequences, to have a negative impact on the quantities sold by the Union industry, resulting in substantial adverse effects on the overall performance and the financial situation of the Union industry.

⁽¹⁾ OJ C 129, 19.5.2010, p. 16.

⁽²⁾ OJ L 343, 22.12.2009, p. 51.

⁽³⁾ OJ L 302, 19.11.2005, p. 1.

The applicant further alleges the likelihood of further injurious dumping. In this respect the applicant presents evidence that, should measures be allowed to lapse, the current import level of the product concerned is likely to increase due to the potential of the manufacturing facilities of the exporting producers in the countries concerned.

In addition, it is alleged that the situation of the Union industry as described above is such that any further substantial increase of imports at dumped prices from the countries concerned would be likely to cause further injury of the Union industry should measures be allowed to lapse.

5. Procedure

Having determined, after consulting the Advisory Committee, that sufficient evidence exists to justify the initiation of an expiry review, the Commission hereby initiates a review in accordance with Article 11(2) of the basic Regulation.

5.1. Procedure for the determination of likelihood of dumping and injury

The investigation will determine whether the expiry of the measures would be likely, or unlikely, to lead to a continuation of dumping and continuation or recurrence of injury.

(a) Sampling

In view of the apparent large number of parties involved in this proceeding, the Commission may decide to apply sampling, in accordance with Article 17 of the basic Regulation.

(i) Sampling for exporters/producers in the People's Republic of China and Taiwan

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all exporters/producers, or representatives acting on their behalf, are hereby requested to make themselves known by contacting the Commission and providing the following information on their company or companies within the time limit set in point 6(b)(i) and in the formats indicated in point 7:

If the company is chosen to be part of the sample, this will imply replying to a questionnaire and accepting an on-the-spot investigation of its response. - any other relevant information that would assist the Commission in the selection of the sample.

By providing the above information, the company agrees to its possible inclusion in the sample. If the company is chosen to be part of the sample, this will imply replying to a questionnaire and accepting an on-the-spot investigation of its response. If the company indicates that it does not agree to its possible inclusion in the sample, it will be deemed not to have cooperated in the investigation. The consequences of non-cooperation are set out in point 8 below.

In order to obtain the information it deems necessary for the selection of the sample of importers, the Commission will, in addition, contact any known associations of importers.

(iii) Sampling for Union producers

In view of the large number of Union producers supporting the request, the Commission intends to investigate injury to the Union industry by applying sampling.

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all Union producers, or representatives acting on their behalf, are hereby requested to make themselves known to the Commission and to provide the following information on their company or companies within the time limit set in point 6(b)(i) and in the formats indicated in point 7:

- name, address, e-mail address, telephone and fax numbers, and contact person,

- the names and the precise activities of all related companies ⁽⁷⁾ involved in the production and/or sales of the like product (produced in the Union) and the product concerned (produced in the countries concerned),
- any other relevant information that would assist the Commission in the selection of the sample.

By providing the above information, the company agrees to its possible inclusion in the sample. If the company is chosen to be part of the sample, this will imply replying to a questionnaire and accepting an on-the-spot investigation of its response. If the company indicates that it does not agree to its possible inclusion in the sample, it will be deemed not to have cooperated in the investigation. The consequences of non-cooperation are set out in point 8 below.

In order to obtain the information it deems necessary for the selection of the sample of Union producers, the Commission will, in addition, contact any known associations of Union producers.

(iv) Final selection of the samples

All interested parties wishing to submit any relevant information regarding the selection of the samples must do so within the time limit set in point 6(b)(ii).

The Commission intends to make the final selection of the samples after having consulted the parties concerned that have expressed their willingness to be included in the sample.

Companies included in the samples must reply to a questionnaire within the time limit set in point 6(b)(iii) and must cooperate within the framework of the investigation.

⁽⁶⁾ See footnote 5.

⁽⁷⁾ See footnote 5.

If sufficient cooperation is not forthcoming, the Commission may base its findings, in accordance with Articles 17(4) and 18 of the basic Regulation, on the facts available. A finding based on facts available may be less advantageous to the party concerned, as explained in point 8.

(b) *Questionnaires*

In order to obtain the information it deems necessary for its investigation, the Commission will send questionnaires to the sampled Union industry and to any known association of producers in the Union, to the sampled exporters/producers in the People's Republic of China and Taiwan and to any known associations of exporters/producers in the countries concerned, to the sampled importers, to any known association of importers, and to the authorities of the countries concerned.

(c) *Collection of information and holding of hearings*

All interested parties are hereby invited to make their views known, submit information other than questionnaire replies and to provide supporting evidence. This information and supporting evidence must reach the Commission within the time limit set in point 6(a)(ii).

Furthermore, the Commission may hear interested parties, provided that they make a request showing that there are particular reasons why they should be heard. This request must be made within the time limit set in point 6(a)(iii).

(d) *Selection of the market economy country*

In the previous investigation Taiwan was used as an appropriate market economy country for the purpose of establishing normal value in respect of the People's Republic of China. The Commission envisages using Taiwan again for this purpose. Interested parties are hereby invited to comment on the appropriateness of this country within the specific time limit set in point 6(c).

5.2. Procedure for the assessment of Union interest

In accordance with Article 21 of the basic Regulation and in the event that the likelihood of a continuation of dumping and continuation or recurrence of injury is confirmed, a determination will be made as to whether maintaining the anti-dumping measures would not be against the Union interest. For this reason the Commission may send questionnaires to the known Union industry, importers, their representative associations, representative users and representative consumer organisations. Such parties, including those not known to the Commission, provided that they prove that there is an objective link between their activity and the product concerned, may,

within the general time limits set in point 6(a)(ii), make themselves known and provide the Commission with information. The parties which have acted in conformity with the preceding sentence may request a hearing, setting out the particular reasons why they should be heard, within the time limit set in point 6(a)(iii). It should be noted that any information submitted pursuant to Article 21 of the basic Regulation will only be taken into account if supported by factual evidence at the time of submission.

6. Time limits

(a) *General time limits*

If any party to the proceeding considers that a review of the level of the measures is warranted so as to allow for the possibility to amend (i.e. increase or decrease) the level of the measures, that party may request a review in accordance with Article 11(3) of the basic Regulation.
