

COUNCIL DECISION

of 30 March 1998

on the principles, priorities, intermediate objectives and conditions contained in the accession partnership with the Slovak Republic

(98/262/EC)

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 622/98 of 16 March 1998 on assistance to the applicant countries in the framework of the pre-accession strategy, and in particular on the establishment of accession partnerships ⁽¹⁾, and in particular to Article 2 thereof,

Having regard to the proposal from the Commission,

Whereas the Luxembourg European Council stated that the accession partnership is a new instrument, the key feature of the enhanced pre-accession strategy;

Whereas Regulation (EC) No 622/98 sets out that the Council shall decide, by a qualified majority and following a proposal from the Commission, on the principles, priorities, intermediate objectives and conditions contained in the individual accession partnerships, as they are submitted to each applicant country, as well as on subsequent significant adjustments applicable to them;

Whereas Community assistance is conditional on the fulfilment of essential elements, and in particular on the respect of the commitments contained in the Europe Agreements and on progress towards fulfilment of the Copenhagen criteria; whereas, where an essential element is lacking, the Council, acting by a qualified majority on a proposal from the Commission, may take appropriate steps with regard to any pre-accession assistance;

Whereas the Luxembourg European Council decided that the implementation of the accession partnership and progress in adopting the *acquis* will be examined in the Europe Agreement bodies;

Whereas the Commission's opinion presented an objective analysis on the Slovak Republic's preparations for membership and identified a number of priority areas for further work;

Whereas, in order to prepare for membership, the Slovak Republic should draw up a national programme for the adoption of the *acquis*; whereas this programme should set out a timetable for achieving the priorities and intermediate objectives established in the accession partnership,

HAS DECIDED AS FOLLOWS:

Article 1

In accordance with Article 2 of Regulation (EC) No 622/98, the principles, priorities, intermediate objectives and conditions contained in the accession partnership for the Slovak Republic are set out in the Annex hereto, which forms an integral part of this Decision.

Article 2

The implementation of the accession partnership will be examined in the Europe Agreement bodies and through the appropriate Council bodies to which the Commission will report regularly.

Article 3

This Decision shall enter into force on the third day following its publication in the *Official Journal of the European Communities*.

Done at Brussels, 30 March 1998.

*For the Council**The President*

M. BECKETT

⁽¹⁾ OJ L 85, 20.3.1998, p. 1.

ANNEX

SLOVAKIA

1. Objectives

The purpose of the accession partnership is to set out in a single framework the priority areas for further work identified in the Commission's opinion on Slovakia's application for membership of the European Union, the financial means available to help Slovakia implement these priorities and the conditions which will apply to that assistance. The accession partnership will provide a framework for a number of policy instruments which will be used to help the candidate countries in their preparations for membership. These will include, *inter alia*, the national programme for the adoption of the *acquis* to be adopted by Slovakia, the joint assessment of economic policy priorities, the pact against organised crime and the internal market road maps. Each of these instruments is different in nature and will be prepared and implemented according to specific procedures. They will not be an integral part of this partnership but the priorities they contain will be compatible with it.

2. Principles

The main priority areas identified for each candidate country relate to their ability to assume the obligations of meeting the Copenhagen criteria which state that membership requires:

- that the candidate country has achieved stability of institutions guaranteeing democracy, the rule of law, human rights and respect for and protection of minorities,
- the existence of a functioning market economy, as well as the capacity to cope with competitive pressure and market forces within the Union,
- the ability to take on the obligations of membership, including adherence to the aims of political, economic and monetary union.

At its meeting in Madrid, the European Council stressed the need for the candidate countries to adjust their administrative structures to ensure the harmonious operation of Community policies after accession and at Luxembourg, it stressed that incorporation of the *acquis* into legislation is necessary, but not in itself sufficient; it is necessary to ensure that it is actually applied.

3. Priorities and intermediate objectives

The Commission's opinions and the Council's examination of these have highlighted the extent of the efforts which still have to be made in certain areas by the candidate countries to prepare for accession and took the view that none of these countries fully satisfies all of the Copenhagen criteria at the present time. This situation will require the definition of intermediate stages in terms of priorities, each to be accompanied by precise objectives to be set in collaboration with the countries concerned, the achievement of which will condition the degree of assistance granted and the progress of the negotiations under way with some countries and the opening of new negotiations with the others. The priorities and intermediate objectives have been divided into two groups — short and medium term. Those listed under the short term have been selected on the basis that it is realistic to expect that Slovakia can complete or take them substantially forward by the end of 1998. In view of the short time span, and taking into account the administrative capacity required to achieve them, the number of priorities selected for the short term has been limited. The priorities listed under the medium term are expected to take more than one year to complete although work may and should also begin on them during 1998.

Slovakia will be invited to draw up a national programme for the adoption of the *acquis* (NPAA) by the end of March which should set out a timetable for achieving these priorities and intermediate objectives and, where possible and relevant, indicate the necessary staff and financial resources.

The accession partnership will indicate that Slovakia will have to address all issues identified in the opinion. Incorporation of the *acquis* into legislation is not in itself sufficient; it will also be necessary to ensure that it is actually applied to the same standards as those which apply within the Union. In all of the areas listed below there is a need for credible and effective implementation and enforcement of the *acquis*.

Drawing on the analysis of the Commission's opinion and the Council's examination of this, the following short- and medium term priorities and intermediate objectives have been identified for Slovakia.

3.1. Short-term (1998)

Political criteria: free and fair presidential, national and local elections in 1998; ensuring effective opposition participation in parliamentary oversight committees and supervisory boards; the adoption of legislative provisions on minority language-use and related implementing measures.

Economic reform: establishment of medium-term economic policy priorities and joint assessment within the framework of the Europe Agreement; implementation of policies aimed at tackling internal and external imbalances and sustaining macroeconomic stability; progress on structural reforms, and on privatisation and restructuring of enterprises, finance, banking, and energy intensive heavy industries.

Reinforcement of institutional and administrative capacity: including the adoption of a civil-service law and development of public administration reform strategy with emphasis on the strengthening of administration dealing with Union accession, institutional strengthening in the area of environment, veterinary and phytosanitary administrations, particularly as regards facilities at the external borders, begin to set up structures needed for regional and structural policy.

Internal market: including continued legislative alignment in the fields of standards and certification, State aid (progress towards adoption of a law), intellectual property (alignment of legislation), public procurement (including transparency), bankruptcy and agriculture (veterinary and phytosanitary fields), establishment of standardisation and conformity assessment structures.

Environment: continue transposition of framework legislation, establishment and commencement of implementation of detailed approximation programmes and implementation strategies related to individual acts. Planning and commencement of implementation of these programmes and strategies.

3.2. Medium-term

Political criteria: further steps to ensure respect for the Constitution and rights of the opposition, to guarantee the independence of the judiciary, and to foster and strengthen the functioning of the institutions of democracy, non-governmental organisations (NGOs), independence of the media (in particular radio and television) and the policies and institutions protecting the rights of minorities.

Economic policy: regular review of the joint assessment of economic policy priorities, within the Europe Agreement framework, focusing and satisfying the Copenhagen criteria for membership of the Union and the *acquis* in the area of economic and monetary policy (coordination of economic policies, submission of convergence programmes, avoidance of excessive deficits); while Slovakia is not expected to adopt the euro immediately on accession, it is expected to pursue policies which aim to achieve real convergence in accordance with the Union's objectives of economic and social cohesion, and nominal convergence compatible with the ultimate goal of adoption of the euro.

Reinforcement of institutional and administrative capacity: the State audit office, financial control and internal audit functions, customs, banking and financial market supervisory bodies, regional development institutional structures and budgetary mechanisms; improved operation of the judicial system; training for the judiciary in Community law and its application, reinforcement of justice and home affairs institutions (ensuring sufficient and properly trained personnel in particular police, border guards, ministries and courts), strengthen the nuclear safety authority, reform of customs and tax administrations to ensure readiness to apply the *acquis*, the reinforcement of food control administration.

Internal market: including further alignment of legislation in the fields of competition (anti-trust and State aid monitoring and transparency), indirect taxation, intellectual property (enforcement), financial services, data protection and audiovisual, reinforcement of standardisation and conformity assessment structures, establishment of a market surveillance system and alignment of technical legislation on industrial products, promotion of enterprise development, including small and medium-sized enterprises (SMEs), alignment with the *acquis* in the fields of telecommunications, consumer protection and the internal energy market.

Justice and home affairs: further development and strengthening of JHA institutions (with a view in particular to ensuring the accountability of the police, and the independence of the judiciary), to further develop effective border management; to fight organised crime (in particular money laundering, drugs and trafficking in human beings) and corruption, and to align visa policy with that of the Union and to complete alignment on international conventions, improve capacity to handle asylum and migration questions, notably in view of the Schengen *acquis*.

Agriculture: including alignment with the agricultural *acquis* (including veterinary and phytosanitary matters, in particular external border controls), attention to environmental aspects of agriculture and biodiversity. Development of the capacity to implement and enforce the common agricultural policy (CAP), in particular the fundamental management mechanisms and administrative structures to monitor the agricultural markets and implement structural and rural development measures, adoption and implementation of the veterinary and phytosanitary requirements, upgrading of certain food-processing establishments and testing and diagnostic facilities, restructuring of the agri-food sector.

Energy: implementing a comprehensive long-term energy strategy based on efficiency and diversification which foresees the alignment to and implementation of Community energy legislation, the completion of Mochovce nuclear power station according to internationally agreed safety principles, and implementation of a realistic programme for the closure of the Bohunice plant.

Transport: further efforts on alignment to the *acquis* in particular on road transport (market access, safety rules and taxation) and rail, and to provide necessary investment for transport infrastructure, notably extension of trans-European networks.

Employment and social affairs: development of appropriate labour-market structures and joint review of employment policies as preparation for participation in Union coordination of employment policies, alignment of labour and occupational health and safety legislation, in particular early adoption of the framework directive on health and safety at work, further development of an active social dialogue; further development of social protection; enforcement of equal opportunities between women and men, undertake steps to bring public health standards into line with Union norms.

Environment: including the development of monitoring and implementation control structures and capacities, continuous planning and implementation of approximation programmes related to individual legal acts. A particular emphasis should be given to air, water and the waste sector as well as the integrated industrial pollution control and risk management. Environmental protection requirements and the need for sustainable development must be integrated into the definition and implementation of national, sectoral policies.

Regional policy and cohesion: establishment of legal, administrative and budgetary framework for an integrated regional policy in order to participate in Union structural programmes after membership.

4. Programming

The PHARE allocation for the period 1995 to 1997 has totalled ECU 95 million. Subject to the approval of the PHARE budget for the remaining period, the Commission will confirm the allocations for 1998 and 1999. In addition, Slovakia is eligible for support from the catch-up facility envisaged for 1998. Financial proposals will be submitted to the PHARE Management Committee as provided for in Regulation (EEC) No 3906/89. Joint financing by the applicant countries will be systematically required for all investment projects. Financial assistance from the year 2000 onwards will comprise aid for agriculture and a structural instrument which will give priority to measures similar to the cohesion fund.

5. Conditionality

Community assistance will be conditional on respect by Slovakia of its commitments under the Europe Agreement, further steps towards satisfying the Copenhagen criteria and progress in implementing this accession partnership. Failure to respect these general conditions could lead to a decision by the Council on the suspension of financial assistance on the basis of Article 4 of Regulation (EC) No 622/98.

6. Monitoring

The implementation of the accession partnership will be monitored in the framework of the Europe Agreement. This will begin in 1998 before the Commission presents its first regular report to the Council reviewing the progress made by Slovakia including implementation of the accession partnership.

The relevant sections of the accession partnership will be discussed in the appropriate sub-committee. The Association Committee will discuss overall developments, progress and problems in meeting its priorities and intermediate objectives as well as more specific issues referred to it from the sub-committees. The Association Committee will report to the Association Council on the implementation of the accession partnership.

The PHARE Management Committee will ensure that financing decisions are compatible with the accession partnerships.

The accession partnership will be amended as necessary in accordance with Article 2 of Regulation (EC) No 622/98. The Commission will propose, before the end of 1999 and at regular intervals thereafter, a review of this partnership, on which the Council will take a formal decision. These reviews will include consideration of the need to further specify intermediate objectives in the light of the progress made by Slovakia in meeting the objectives set out in this partnership.
