THE COUNCIL OF THE EUROPEAN UNION,

Whereas:

Having regard to the Treaty establishing the European Community, and in particular Articles 36, 37 and 299(2) thereof,

Having regard to the proposal from the Commission,

Having regard to the Opinion of the European Parliament ⁽¹⁾,

Having regard to the Opinion of the European Economic and Social Committee ⁽²⁾,

Having regard to the Opinion of the Committee of the Regions ⁽³⁾,

(1) Common conditions should be established for direct payments under the various income support schemes in the framework of the common agricultural policy.

(2) The full payment of direct aid should be linked to compliance with rules relating to agricultural land, agricultural production and activity. Those rules should serve to incorporate in the common market organisations basic standards for the environment, food safety, animal health and welfare and good agricultural and environmental condition. If those basic standards are not met, Member States should withdraw direct aid in whole or in part on the basis of criteria which are proportionate, objective and graduated. Such withdrawal

⁽³⁾ Opinion delivered on 2 July 2003 (not yet published in the Official Journal).

- should be without prejudice to sanctions laid down now or in the future under other provisions of Community or national law.
- (3) In order to avoid the abandonment of agricultural land and ensure that it is maintained in good agricultural and environmental condition, standards should be established which may or may not have a basis in provisions of the Member States. It is therefore appropriate to establish a Community framework within which Member States may adopt standards taking account of the specific characteristics of the areas concerned, including soil and climatic conditions and existing farming systems (land use, crop rotation, farming practices) and farm structures.
- (4) Since permanent pasture has a positive environmental effect, it is appropriate to adopt measures to encourage the maintenance of existing permanent pasture to avoid a massive conversion into arable land.
- (5) In order to achieve a better balance between policy tools designed to promote sustainable agriculture and those designed to promote rural development, a system of progressive reduction of direct payments should be introduced on a compulsory Community-wide basis for the years 2005 to 2012. All direct payments, beyond certain amounts, should be reduced by a certain percentage each year. The savings made should be used to finance measures under the rural development and allocated between Member States according to objective criteria to be defined. However, it is appropriate to establish that a certain percentage of the amounts should remain in the Member States where they have been generated. Until 2005, Member States may continue to apply the current modulation on an optional basis under Council Regulation (EC) No 1259/1999 of 17 May 1999 establishing common rules for direct support schemes under the common agricultural policy ⁽¹⁾.
- (6) With a view to ensure that the amounts for the financing of the common agricultural policy (subheading 1a) respect the annual ceilings set in the financial perspectives, it is appropriate to provide for a financial mechanism to adjust, where necessary, the direct payments. An adjustment of direct support should be fixed when the forecasts indicate that the subheading 1a, with a security margin of EUR 300 million, is exceeded in a given budget year.
- (7) In view of the structure adjustments resulting from the abolition of rye intervention, it is appropriate to provide for transitional measures for certain rye production regions financed with part of the amounts generated by modulation.
- (8) In order to help farmers to meet the standards of modern, high-quality agriculture, it is necessary that Member States establish a comprehensive system offering advice to commercial farms. The farm advisory system should help farmers to become more aware of material flows and on-farm processes relating to the environment, food safety, animal health and welfare without in any way affecting their obligation and responsibility to respect those standards.
- (9) In order to facilitate the introduction of the farm advisory system, it should be provided for a time-period for Member States to set-up the system. Entry into the system should be on a voluntary basis for farmers with a priority for those who receive more than a certain amount per year in direct payments. Due to its nature of affording advice to farmers, it is appropriate for the information obtained in the course of the advisory activity to be treated as confidential, except in case of serious infringements of Community or national law.
- (10) Member States must, in accordance with Article 8 of Council Regulation (EC) No 1258/1999 of 17 May 1999 on the financing of the common agricultural policy ⁽²⁾, take the measures necessary to satisfy themselves that transactions financed by the 'Guarantee' Section of the European Agricultural Guidance and Guarantee Fund (EAGGF) are actually carried out and are executed correctly, and prevent and deal with irregularities.
- (11) In order to improve the effectiveness and usefulness of the administration and control mechanisms, it is necessary to adapt the system established by Council Regulation (EEC) No 3508/92 of 27 November 1992 establishing an integrated administration and control system for certain Community aid schemes ⁽³⁾ with a view to including the single payment scheme, the support schemes for durum wheat, protein crops, energy crops, rice, potato starch, nuts, milk, seed, grain legumes and specific regional aids as well as controls on the application of the rules on cross compliance, modulation and the farm advisory system. Provision should be made for the possibility of including, at a later stage, other aid schemes.
- (12) For the sake of effective control and to prevent the submission of multiple aid applications to different paying agencies within one Member State, each Member State should set up a single system to record the identity of farmers submitting aid applications subject to the integrated system.

⁽²⁾ OJ L 160, 26.6.1999, p. 103.

⁽³⁾ OJ L 355, 5.12.1992, p. 1. Regulation as last amended by Commission Regulation (EC) No 495/2001 (OJ L 72, 14.3.2001, p. 6).

⁽¹⁾ OJ L 160, 26.6.1999, p. 113. Regulation as amended by Regulation (EC) No 1244/2001 (OJ L 173, 27.6.2001, p. 1).

- (13) The various components of the integrated system are aimed at a more effective administration and control. Therefore, in the case of Community schemes not covered by this Regulation, the Member States should be authorised to avail themselves of the system, on condition they do not in any way act contrary to the provisions concerned.
- (14) Given the complexity of the system and the large number of aid applications to be processed, it is essential to use the appropriate technical resources and administration and control methods. As a result, the integrated system should comprise, in each Member State, a computerised data base, an identification system for agricultural parcels, aid applications from farmers, a harmonised control system and, in the single payment scheme, a system for the identification and recording of payment entitlements.
- (15) To enable the data collected to be processed and used for the verification of aid applications, it is necessary to set up high-performance computerised data bases which make it possible in particular to carry out cross-checks.
- (16) The identification of agricultural parcels is a key element in the correct application of schemes linked to surface area. Experience has shown that the existing methods have certain deficiencies. Therefore, provision should be made for an identification system to be set up, where necessary, with the aid of remote sensing.
- (17) For the sake of simplification, Member States should be authorised to make provision for the submission of a single application for several aid schemes and to replace the annual application by a permanent application subject only to annual confirmation.
- (18) Member States should be enabled to use amounts which become available as a result of payment reductions under modulation for certain additional measures in the framework of rural development support provided for under Council Regulation (EC) No 1257/1999 of 17 May 1999 on support for rural development from the European Agricultural Guidance and Guarantee Fund (EAGGF) ⁽¹⁾.
- (19) Since the amounts which will become available as a result of cross compliance are not foreseeable sufficiently far ahead to be used for additional measures in the framework of rural development support, those amounts should be credited to the EAGGF 'Guarantee' Section, except for a certain percentage which should be retained by the Member States.
- (20) Payments provided for under Community support schemes should be made by the competent national authorities to beneficiaries in full, subject to any reductions provided for in this Regulation, and within prescribed periods.
- (21) The support schemes under the common agricultural policy provide for direct income support in particular with a view to ensuring a fair standard of living for the agricultural community. This objective is closely related to the maintenance of rural areas. In order to avoid misallocations of Community funds, no support payments should be made to farmers who have artificially created the conditions required to obtain such payments.
- (22) Common support schemes have to be adapted to developments, if necessary within short time limits. Beneficiaries cannot, therefore, rely on support conditions remaining unchanged and should be prepared for a possible review of schemes in the light of market developments.
- (23) In view of the significant budgetary implications of direct payment support and in order to better appraise their impact, Community schemes should be subject to a proper evaluation.
- (24) Enhancing the competitiveness of Community agriculture and promoting food quality and environment standards necessarily entail a drop in institutional prices for agricultural products and an increase in the costs of production for agricultural holdings in the Community. To achieve those aims and promote more market-oriented and sustainable agriculture, it is necessary to complete the shift from production support to producer support by introducing a system of decoupled income support for each farm. While decoupling will leave the actual amounts paid to farmers unchanged, it will significantly increase the effectiveness of the income aid. It is, therefore, appropriate to make the single farm payment conditional upon cross-compliance with environmental, food safety, animal health and welfare, as well as the maintenance of the farm in good agricultural and environmental condition.
- (25) Such a system should combine a number of existing direct payments received by a farmer from various schemes in a single payment, determined on the basis of previous entitlements, within a reference period, adjusted to take into account the full implementation of measures introduced in the framework of Agenda 2000 and of the changes to the amounts of aid made by this Regulation.
- (26) Since the benefits in terms of administrative simplification will increase if many sectors are included the scheme should, in a first stage, cover all products included in the arable crops regime as well as grain legumes, seeds, beef and sheep. The revised payments for rice and durum wheat as well as the payment in the milk sector once the reform is fully implemented, should also be integrated into the scheme. Payments for starch potatoes and dried fodder should also be included in the scheme, while separate payments for the processing industry should be maintained.

⁽¹⁾ OJ L 160, 26.6.1999, p. 80.

- (27) Specific measures should be laid down for hemp, to ensure that illegal crops cannot be hidden among the crops eligible for the single payment, thereby adversely affecting the common market organisation for hemp. Provision should therefore be made for area payments to be granted only for areas sown to varieties of hemp offering certain guarantees with regard to the psychotropic substance content. The references to the specific measures provided for by Council Regulation (EC) No 1673/2000 of 27 July 2000 on the common organisation of the markets in flax and hemp grown for fibre ⁽¹⁾ should be adapted accordingly.
- (28) In order to leave farmers free to choose what to produce on their land, including products which are still under coupled support, thus increasing market orientation, the single payment should not be conditional on production of any specific product. However, in order to avoid distortions of competition some products should be excluded from production on eligible land.
- (29) In order to establish the amount to which a farmer should be entitled under the new scheme, it is appropriate to refer to the amounts granted to him during a reference period. To take account of specific situations, a national reserve should be established. That reserve may also be used to facilitate the participation of new farmers in the scheme. The single payment should be established at farm level.
- (30) The overall amount to which a farm is entitled should be split into parts (payment entitlements) and linked to a certain number of eligible hectares to be defined, in order to facilitate transfer of the premium rights. To avoid speculative transfers leading to the accumulation of payment entitlements without a corresponding agricultural basis, in granting aid, it is appropriate to provide for a link between entitlements and a certain number of eligible hectares, as well as the possibility of limiting the transfer of entitlements within a region. Specific provisions should be laid down for aid not directly linked to an area taking into account the peculiar situation of sheep and goat rearing.
- (31) To ensure that the total level of support and entitlements do not exceed current budgetary constraints at Community or national level and, where applicable, at regional level, it is appropriate to provide for national ceilings calculated as the sum of all funds granted in each Member State for the payment of aids under the relevant support schemes, during the reference period and taking into account later adjustments. Proportional reductions should be applicable if the ceiling is overshot.
- (32) In order to maintain the supply control benefits of set-aside, while reinforcing its environmental benefits under the new system of support, the set-aside conditions for arable land should be maintained.
- (33) In order to allow flexibility to respond to specific situations, Member States should have the option to define a certain balance between individual payment entitlements and regional or national averages and between existing payments and the single payment. A specific derogation to the prohibition on cultivating fruits and vegetables including table potatoes should be provided for avoiding that in case of regionalisation this does not lead to a disruption of the production whilst minimizing any effect on distortion of competition. Moreover, in order to take into account its agricultural specific conditions, it is appropriate to provide for the possibility for a Member State to ask for a transitional period to implement the single payment scheme while continuing to respect the budgetary ceilings fixed for the single payment scheme. In case of severe distortions of competition during the transitional period and in order to ensure the respect of the Community international obligations, it is appropriate that the Commission can take the necessary measures to cope with such situations.
- (34) In case of optional or transitional implementation, in order to protect the legitimate expectations of farmers, it is appropriate to fix a date before which Member States have to take their decision to apply the single payment scheme. Moreover, to ensure the continuation of the current regimes, certain conditions for entitlement to aid should be established, leaving to the Commission the powers to lay down the implementing rules.
- (35) In order to maintain the role of durum wheat production in traditional production area while strengthening the granting of the aid to durum wheat respecting certain minimum quality requirements, it is appropriate to reduce, over a transitional period, the current specific supplement for durum wheat in traditional areas and to abolish the special aid in established areas. Only cultivation which produces durum wheat suitable for use in the manufacture of semolina and pasta products should be eligible for that aid.
- (36) In order to strengthen the role of protein-rich crops and to provide an incentive to increase the production of these crops, it is appropriate to provide for a supplementary payment for farmers producing these crops. To ensure a correct application of the new scheme, certain conditions for entitlement to aid should be established. A maximum guaranteed area should be prescribed and proportional reductions applied if the maximum guaranteed area is exceeded.

⁽¹⁾ OJ L 193, 29.7.2000, p. 16. Regulation as amended by Commission Regulation (EC) No 651/2002 (OJ L 101, 17.4.2002, p. 3).

- (37) In order to maintain the role of rice production in traditional production areas, it is appropriate to provide for a supplementary payment for rice producers. To ensure a correct application of the new scheme, certain conditions for entitlement to aid should be established. National base areas should be established and reductions applied if the areas are exceeded.
- (38) New support arrangements for nuts should be established to avoid the potential disappearance of nut production in traditional areas and the subsequent negative environmental, rural, social and economic consequences. To ensure a correct application of the new arrangements, certain conditions for entitlement to aid should be established, including a minimum tree density and plot size. In order to cater for specific needs, Member States should be entitled to provide additional aid.
- (39) To avoid budgetary overshoot, a maximum guaranteed area should be prescribed and proportional reductions applied if the maximum guaranteed area is exceeded, concentrated in Member States which overshoot their area. To ensure balanced application throughout the Community, this area should be allocated in proportion to areas of nut production in Member States. The Member States should be responsible for allocating the areas within their territory. Areas subject to improvement plans should not be eligible for aid under the new scheme until the plan has expired.
- (40) In order to capitalise on the success of improvement plans in regrouping supply, Member States may make entitlement to Community aid and national aid conditional on membership of producer organisations. To avoid disruption, a smooth transition must be ensured to the new scheme.
- (41) Currently, support for energy crops consists of the possibility to grow industrial crops on set-aside land. Energy crops account for the largest amount of non-food production on set-aside land. Specific aid for energy crops with the objective of increasing carbon dioxide substitution should be established. A maximum guaranteed area should be prescribed and proportional reductions applied if the maximum guaranteed area is exceeded. The arrangements should be reviewed after a prescribed period taking into account the implementation of the Community biofuels initiative.
- (42) In order to maintain starch production in traditional areas of production and to recognise the role of potato production in the agronomic cycle, it is appropriate to provide for a supplementary payment for potato starch producers. Moreover, in so far as the payment system for starch potato producers is to be partially included in the single payment scheme, Council Regulation (EC) No 1868/94 of 27 July 1994 establishing a quota system in relation to the production of potato starch ⁽¹⁾ should be amended.
- (43) The inclusion of arable crops, beef and sheep extends the single payment scheme to premiums which are paid in the outermost regions and Aegean islands, in order to achieve further simplification and to avoid leaving in place a legal and administrative framework for a limited number of farmers in those areas. However, in order to maintain the role of certain type of production in these regions of the Community, it is appropriate to provide that Member States may decide that they need not include those payments in the single payment scheme. The same possibility should apply to the supplementary payments in certain regions of Sweden and Finland as well as to seed aid. In this cases, the continuation of the current regimes requires that certain conditions for entitlement to aid shall be established, leaving to the Commission the powers to lay down the implementing rules.
- (44) In order to facilitate the transition between the current regimes for arable crops payments and livestock premiums and the new single payment scheme, it is appropriate to provide for some adaptations to the current direct payments in those sectors.
- (45) Agricultural activity in the Azores is highly dependent on milk production. It thus is advisable to renew and extend the measures taken in Article 23 of Regulation (EC) No 1453/2001 of 28 June 2001 introducing specific measures for certain agricultural products for the Azores and Madeira ⁽²⁾ and to derogate for a period of six marketing years in total beginning in 1999/2000 from certain provisions of the common market organisation for milk and milk products as regard of limitation of production in order to take account of the level of development of and the conditions for local production. Over the period of its application, this measure should enable the sector in the Azores to continue being restructured without interfering with the milk market and without appreciably affecting the sound working of the levy scheme at Portuguese or Community level.
- (46) The application of the single farm payment scheme will de facto imply that the conversion programme of land currently under arable crops to extensive livestock farming in Portugal laid down in Regulation (EC) No 1017/94 ⁽³⁾ becomes without object. Regulation (EC) No

⁽¹⁾ OJ L 197, 30.7.1994, p. 4. Regulation as last amended by Regulation (EC) No 962/2002 (OJ L 149, 7.6.2002, p. 1).

⁽²⁾ OJ L 198, 21.7.2001, p. 26.

⁽³⁾ OJ L 112, 3.5.1994, p. 2. Regulation as last amended by Regulation (EC) No 2582/2001 (OJ L 345, 29.12.2001, p. 5).

1017/94 should therefore be repealed by the entry into force of the single payment scheme.

- (47) As a result of the aforementioned changes and new provisions, Council Regulations (EEC) No 3508/92, (EC) No 1577/96 of 30 July 1996 introducing a specific measure in respect of certain grain legumes ⁽¹⁾ and (EC) No 1251/1999 of 17 May 1999 establishing a support system for producers of certain arable crops ⁽²⁾ should be repealed. Regulation (EC) No 1259/1999 should also be repealed, except some provisions which provide for specific temporary and optional regimes.
- (48) The specific provisions concerning direct payments in Council Regulations (EEC) No 2358/71 of 26 October 1971 on the common organisation of the market in seeds ⁽³⁾, No 2019/93 of 19 July 1993 introducing specific measures for the smaller Aegean islands concerning certain agricultural products ⁽⁴⁾, (EC) No 1254/1999 of 17 May 1999 on the common organisation of the market in beef and veal ⁽⁵⁾, (EC) No 1452/2001 of 28 June 2001 introducing specific measures for certain agricultural products for the French

overseas departments ⁽⁶⁾, (EC) No 1454/2001 of 28 June 2001 introducing specific measures for certain agricultural products for the Canary Islands ⁽⁷⁾ and (EC) No 2529/2001 of 19 December 2001 on the common organisation of the market in sheepmeat and goatmeat ⁽⁸⁾ have effectively lost their substance and should therefore be deleted.

- (49) At the time of entry into force of this regulation, the Community consists of 15 Member States. Taking into account the fact that, according to the Treaty of Accession of 2003, the accession of the new Member States is to take place on 1 May 2004, this Regulation should be adapted, by the date of accession, according to the procedures provided for by that Treaty, in order to make it applicable to the new Member States.
- (50) The measures necessary for the implementation of this Regulation should be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission ⁽⁹⁾,

HAS ADOPTED THIS REGULATION:

Article 2

Definitions

For the purposes of this Regulation, the following definitions shall apply:

- (a) 'farmer' means a natural or legal person, or a group of natural or legal persons, whatever legal status is granted to the group and its members by national law, whose holding is situated within Community territory, as referred to in Article 299 of the Treaty, and who exercises an agricultural activity,
- (b) 'holding' means all the production units managed by a farmer situated within the territory of the same Member State,
- (c) 'agricultural activity' means the production, rearing or growing of agricultural products including harvesting, milking, breeding animals and keeping animals for farming purposes, or maintaining the land in good agricultural and environmental condition as established under Article 5,

- all payments in respect of other periods starting in that calendar year/years,

TITLE II

GENERAL PROVISIONS

CHAPTER 1

CROSS COMPLIANCE

Article 3

Main requirements

1. A farmer receiving direct payments shall respect the statutory management requirements referred to in Annex III, according to the timetable fixed in that Annex, and the good agricultural and environmental condition established under Article 5.

2. The competent national authority shall provide the farmer with the list of statutory management requirements and good agricultural and environmental condition to be respected.

Article 4

Statutory management requirements

1. The statutory management requirements referred to in Annex III shall be established by Community legislation in the following areas:

- public, animal and plant health,
- environment,
- animal welfare.

2. The acts referred to in Annex III shall apply within the framework of this Regulation in the version as amended from time to time and, in case of Directives, as implemented by the Member States.

Article 5

Good agricultural and environmental condition

1. Member States shall ensure that all agricultural land, especially land which is no longer used for production purposes, is maintained in good agricultural and environmental condition. Member States shall define, at national or regional level, minimum requirements for good agricultural and environmental condition on the basis of the

framework set up in Annex IV, taking into account the specific characteristics of the areas concerned, including soil and climatic condition, existing farming systems, land use, crop rotation, farming practices, and farm structures. This is without prejudice to the standards governing good agricultural practices as applied in the context of Council Regulation (EC) No 1257/1999 and to agri-environment measures applied above the reference level of good agricultural practices.

2. Member States shall ensure that land which was under permanent pasture at the date provided for the area aid applications for 2003 is maintained under permanent pasture.

However a Member State may, in duly justified circumstances, derogate from the first subparagraph, provided that it takes action to prevent any significant decrease in its total permanent pasture area.

The first subparagraph shall not apply to land under permanent pasture to be afforested, if such afforestation is compatible with the environment and with the exclusion of plantations of Christmas trees and fast growing species cultivated in the short term.

Article 6

Reduction or exclusion from payments

1. Where the statutory management requirements or good agricultural and environmental condition are not complied with, as a result of an action or omission directly attributable to the individual farmer, the total amount of direct payments to be granted in the calendar year in which the non-compliance occurs, and after application of Articles 10 and 11, shall be reduced or cancelled in accordance with the detailed rules laid down under Article 7.

2. The reductions or exclusions referred to in paragraph 1 shall only apply if the non-compliance relates to:

- (a) an agricultural activity, or
- (b) an agricultural land of the holding, including the parcels on set aside.

*Article 7***Detailed rules for reduction or exclusion**

1. Detailed rules for the reductions and exclusions referred to in Article 6 shall be laid down in accordance with the procedure referred to in Article 144(2). In this context, account shall be taken of the severity, extent, permanence and repetition of the non-compliance found as well as of the criteria set out in paragraphs 2, 3 and 4 of this Article.

2. In case of negligence, the percentage of reduction shall not exceed 5 % and, in case of repeated non-compliance, 15 %.

3. In case of intentional non-compliance, the percentage of reduction shall not in principle be less than 20 % and may go as far as total exclusion from one or several aid schemes and apply for one or more calendar years.

4. In any case, the total amount of reductions and exclusions for one calendar year shall not be more than the total amount referred to in Article 6(1).

*Article 8***Review**

By 31 December 2007 at the latest, the Commission shall submit a report on the application of the system of cross compliance accompanied, if necessary, by appropriate proposals notably with the view of amending the list of statutory management requirements set out in Annex III.

*Article 9***Amounts resulting from cross compliance**

The amount resulting from the application of this Chapter shall be credited to the EAGGF 'Guarantee' Section. Member State may retain 25 % of those amounts.

CHAPTER 2

MODULATION AND FINANCIAL DISCIPLINE*Article 10***Modulation**

1. All the amounts of direct payments to be granted in a given calendar year to a farmer in a given Member State shall be reduced for each year until 2012 by the following percentages:

— 2005: 3 %,

— 2006: 4 %,

— 2007: 5 %,

— 2008: 5 %,

— 2009: 5 %,

— 2010: 5 %,

— 2011: 5 %,

— 2012: 5 %.

2. The amounts resulting from application of the reductions provided for in paragraph 1, after deducting the total amounts referred to in Annex II, shall be available as additional Community support for measures under rural development programming financed under the EAGGF 'Guarantee' Section according to Regulation (EC) No 1257/1999.

3. The amount corresponding to one percentage point shall be allocated to the Member State where the corresponding amounts have been generated. The remaining amounts shall be allocated to the Member States concerned in accordance with the procedure referred to in Article 144(2) on the basis of the following criteria:

— agricultural area,

— agricultural employment,

— gross domestic product (GDP) per capita in purchasing power.

However, any Member State shall receive at least 80 % of the total amounts which the modulation has generated in that Member State.

4. By way of derogation from the second subparagraph of paragraph 3, if in a Member State the proportion of rye as part of its total cereal production exceeded 5 % on average during the period 2000-2002 and its proportion of the total Community production of rye exceeded 50 % during the same period, at least 90 % of the amounts which the modulation generated in the Member State concerned shall be reallocated to that Member State, until 2013 included.

In such a case, without prejudice to the possibility provided for by Article 69, at least 10 % of the amount allocated to the Member State concerned shall be available for measures referred to in paragraph 2 of this Article in rye producing regions.

For the purpose of this paragraph, 'cereals' mean the cereals referred to in Annex IX.

5. Paragraph 1 shall not apply to direct payments granted to farmers in the French overseas departments, in the Azores and Madeira, in the Canary and Aegean islands.

*Article 11***Financial discipline**

1. Starting with the budget 2007, with a view to ensuring that the amounts for the financing of the common agricultural policy currently under subheading 1a (market measures and direct aids) respect the annual ceilings set out in the Decision of the Representatives of the Governments of the Member States, meeting within the Council on 18 November 2002, concerning the Conclusions of the European Council meeting in Brussels on 24 and 25 October 2002, an adjustment of the direct payments shall be fixed when the forecasts indicate that the amounts foreseen under subheading 1a taking into account a margin of EUR 300 million below the amounts foreseen and before application of modulation provided for in Article 10(2), will be exceeded in a given budget year. This is without prejudice to the financial perspectives for 2007-2013.

2. The Council, on a Commission's proposal presented not later than 31 March of the calendar year in respect of which the adjustments referred to in paragraph 1 apply, shall fix these adjustments at latest by 30 June of the calendar year in respect of which the adjustments apply.

*Article 12***Additional amount of aid**

1. An additional amount of aid shall be granted to farmers receiving direct payments under this Regulation.

The additional amount of aid shall be equal to the amount resulting from the application of the percentages of reduction for that calendar year under Article 10 to the first EUR 5 000 or less of direct payments.

2. The total additional amounts of aid which may be granted in a Member State in a calendar year shall not be higher than the ceilings set out in Annex II. Where necessary, Member States shall proceed to a linear percentage adjustment of additional amounts of aid in order to respect the ceilings set out in Annex II.

3. The additional amount of aid shall not be subject to the reductions referred to in Article 10.

4. Starting with the budget 2007, the Commission, in accordance with the procedure referred to in Article 144(2), shall review the ceilings set out in Annex II in order to take into account structural changes of the holdings.

CHAPTER 3

FARM ADVISORY SYSTEM*Article 13***Farm advisory system**

1. By 1 January 2007, Member States shall set up a system of advising farmers on land and farm management (hereinafter

referred to as the 'farm advisory system') operated by one or more designated authorities or by private bodies.

2. The advisory activity shall cover at least the statutory management requirements and the good agricultural and environmental condition referred to in Chapter I.

*Article 14***Conditions**

1. Farmers may participate in the farm advisory system on a voluntary basis.

2. Member States shall give priority to the farmers who receive more than EUR 15 000 of direct payments per year.

*Article 15***Obligations of approved private bodies and designated authorities**

Without prejudice to national legislation concerning public access to documents, Member States shall ensure that private bodies and designated authorities referred to in Article 13 do not disclose personal or individual information and data they obtain in their advisory activity to persons other than the farmer managing the holding concerned, except any irregularity or infringement found during their activity which is covered by an obligation laid down in Community or national law to inform a public authority, in particular in case of criminal offences.

*Article 16***Review**

By 31 December 2010 at the latest, the Commission shall submit a report on the application of the farm advisory system, accompanied, if necessary, by appropriate proposals with a view of rendering it compulsory.

CHAPTER 4

INTEGRATED ADMINISTRATION AND CONTROL SYSTEM*Article 17***Scope**

Each Member State shall set up an integrated administration and control system, hereinafter referred to as the 'integrated system'.

The integrated system shall apply to the support schemes established under Titles III and IV of this Regulation and under Article 2a of Regulation (EC) No 1259/1999.

To the extent necessary, it shall also apply to the administration and control of the rules laid down in Chapters 1, 2 and 3.

Article 18

Elements of the integrated system

1. The integrated system shall comprise the following elements:

- (a) a computerised data base,
- (b) an identification system for agricultural parcels,
- (c) a system for the identification and registration of payment entitlements as referred to in Article 21,
- (d) aid applications,
- (e) an integrated control system,
- (f) a single system to record the identity of each farmer who submits an aid application.

2. In case of application of Articles 67, 68, 69, 70 and 71, the integrated system shall comprise a system of identification and registration of animals set up in accordance with Directive 92/102/EEC ⁽¹⁾ and Regulation (EC) No 1760/2000 ⁽²⁾.

Article 19

Computerised data base

1. The computerised data base shall record, for each agricultural holding, the data obtained from aid applications.

This data base shall, in particular, allow direct and immediate consultation, through the competent authority of the Member State, of the data relating to the calendar and/or marketing years starting from the year 2000.

2. The Member States may set up decentralised data bases on condition that these, and the administrative procedures for recording and accessing data, are designed homogeneously throughout the territory of the Member State and are compatible with one another in order to allow cross-checks.

Article 20

Identification system for agricultural parcels

The identification system for agricultural parcels shall be established on the basis of maps or land registry documents or

other cartographic references. Use shall be made of computerised geographical information system techniques including preferably aerial or spatial orthoimagery, with an homogenous standard guaranteeing accuracy at least equivalent to cartography at a scale of 1:10 000.

Article 21

System for the identification and registration of payment entitlements

1. The system for the identification and registration of payment entitlements shall be set up allowing verification of entitlements and cross-checks with the aid applications and the identification system for agricultural parcels.

2. This system shall allow direct and immediate consultation, through the competent authority of the Member State, of the data relating to at least the previous three consecutive calendar and/or marketing years.

Article 22

Aid applications

1. Each year, a farmer shall submit an application for direct payments subject to the integrated system, indicating, where applicable:

- all agricultural parcels of the holding,
- the number and amount of payment entitlements,
- any other information provided for by this Regulation or by the Member State concerned.

2. A Member State may decide that the aid application needs to contain only changes with respect to the aid application submitted the previous year. A Member State shall distribute pre-printed forms based on the areas determined in the previous year and supply graphic material indicating the location of those areas.

3. A Member State may decide that a single aid application shall cover several or all support schemes listed in Annex I or other support schemes.

Article 23

Verification of eligibility conditions

1. Member States shall carry out administrative checks on the aid applications including a verification of the eligible area and the corresponding payment entitlements.

⁽¹⁾ OJ L 355, 15.12.1992, p. 32. Directive as amended by the 1994 Act of Accession.

⁽²⁾ OJ L 204, 11.8.2000, p. 1.

2. Administrative checks shall be supplemented by a system of on-the-spot checks to verify eligibility for the aid. For this purpose, Member States shall draw up a sampling plan of agricultural holdings.

Member States may use remote sensing techniques as a means to carry out on-the-spot checks on agricultural parcels.

3. Each Member State shall designate an authority responsible for coordinating the checks provided for in this Chapter.

Where the Member State provides for the delegation of some aspects of the work to be carried out under this Chapter to specialised agencies or firms, the designated authority shall retain control over, and responsibility for, that work.

Article 24

Reductions and exclusions

1. Without prejudice to reductions and exclusions provided for in Article 6 of this Regulation, where it is found that the farmer does not comply with the eligibility conditions relevant to the granting of the aid as provided for in this Regulation or by Article 2a of Regulation (EC) No 1259/1999, the payment or part of the payment granted or to be granted for which the conditions of eligibility have been met shall be subject to reductions and exclusions to be laid down in accordance with the procedure referred to in Article 144(2) of this Regulation.

2. The percentage of reduction shall be graduated according to the severity, extent, permanence and repetition of the non-compliance found and may go as far as total exclusion from one or several aid schemes for one or more calendar years.

Article 25

Controls on cross compliance

1. Member States shall carry out on-the-spot-checks to verify whether the farmer complies with the obligations referred to in Chapter 1.

2. Member States may make use of their existing administration and control systems to ensure compliance with the statutory management requirements and good agricultural and environmental condition referred to in Chapter 1.

These systems, and notably the system for identification and registration of animals set up in accordance with Directive 92/102/EEC and Regulation (EC) No 1760/2000, shall be compatible, within the meaning of Article 26 of this Regulation, with the integrated system.

Article 26

Compatibility

For the purpose of applying the support schemes listed in Annex V, Member States shall ensure that the administration and control procedures applied to these schemes are compatible with the integrated system in the following respects:

- (a) the computerised data base;
- (b) the identification systems for agricultural parcels;
- (c) administrative checks.

To this end, these systems shall be set up so as to allow, without any problems or conflicts, a common functioning of, or the exchange of data between, them.

Member States may, for the purposes of applying Community or national support schemes other than those listed in Annex V, incorporate in their administration and control procedures one or more components of the integrated system.

Article 27

Information and checks

1. The Commission shall be kept regularly informed of the application of the integrated system.

It shall organise exchanges of views on this subject with the Member States.

2. After informing the competent authorities concerned in good time, authorised representatives appointed by the Commission may carry out:

- any examination or control relating to the measures taken in order to establish and to implement the integrated system,
- checks at the specialised agencies and firms referred to in Article 23(3).

Officials of the Member State concerned may take part in such checks. The aforementioned powers to carry out checks shall not affect the application of national law provisions which reserve certain acts for officials specifically designated by national law. The authorised representatives appointed by the Commission shall in particular not participate in home visits to or the formal interrogation of suspects under the national law of the Member State. They shall, however, have access to the information obtained thereby.

3. Without prejudice to the responsibilities of the Member States for the implementation and application of the integrated system, the Commission may seek the assistance of specialised bodies or persons in order to facilitate the establishment, monitoring and utilisation of the integrated system, in particular with a view to providing the competent authorities of the Member States with technical advice, should they request it.

— of up to 50 % of the payments,

or

— of up to 80 % of the payments in case advances have already been provided for.

Article 29

Restriction of payment

Without prejudice to any specific provisions in individual support schemes, no payment shall be made in favour of beneficiaries for whom it is established that they artificially created the conditions required for obtaining such payments with a view to obtaining an advantage contrary to the objectives of that support scheme.

Article 30

Review

Support schemes listed in Annex I shall be applied without prejudice to possible review at any moment in the light of market developments and the budgetary situation.

Article 31

Evaluation

In order to gauge their effectiveness, payments under support schemes listed in Annex I shall be subject to evaluation designed to appraise their impact with respect to their objectives and to analyse their effects on the relevant markets.

Article 32

Interventions under Regulation (EC) No 1258/1999

The support schemes listed in Annex I shall be considered as 'intervention' as referred to in Article 1(2)(b) and Article 2(2) of Regulation (EC) No 1258/1999.

CHAPTER 5

OTHER GENERAL PROVISIONS

Article 28

Payment

1. Save as otherwise provided for in this Regulation, payments under support schemes listed in Annex I shall be made in full to the beneficiaries.

2. Payments shall be made once a year within the period from 1 December to 30 June of the following calendar year.

However, the additional amount of aid provided for in Article 12 shall be paid by 30 September at the latest of the calendar year following the calendar year concerned.

3. By way of derogation from paragraph 2 of this Article and in accordance with the procedure referred to in Article 144(2), the Commission may:

(a) extend the date of payment for the payments provided for in Article 5(1) of Regulation 136/66/EEC of the Council of 22 September 1966 on the establishment of a common organisation of the market in oils and fats ⁽¹⁾;

(b) provide for advances;

(c) authorise the Member States, subject to the budgetary situation, to pay prior to 1 December advances in regions where, due to exceptional conditions, farmers face severe financial difficulties:

⁽¹⁾ OJ 172, 30.9.1966, p. 3025/66. Regulation as last amended by Regulation (EC) No 1513/2001 (OJ L 201, 26.7.2001, p. 4).

TITLE III

SINGLE PAYMENT SCHEME

CHAPTER 1

GENERAL PROVISIONS*Article 33***Eligibility**

1. Farmers shall have access to the single payment scheme if:

- (a) they have been granted a payment in the reference period referred to in Article 38 under at least one of the support schemes referred to in Annex VI, or
- (b) they have received the holding or part of the holding, by way of actual or anticipated inheritance, by a farmer who met the conditions referred to in point (a), or
- (c) they have received a payment entitlement from the national reserve or by transfer.

2. In case the farmer who has been granted a direct payment in the reference period changes his legal status or denomination in that period or not later than 31 December of the year preceding the year of application of the single payment scheme, he shall have access to the single payment scheme under the same conditions as the farmer originally managing the holding.

3. In case of mergers during the reference period or not later than 31 December of the year preceding the year of application of the single payment scheme, the farmer managing the new holding shall have access to the single payment scheme under the same conditions as the farmers managing the original holdings.

In case of scissions during the reference period or not later than 31 December of the year preceding the year of application of the single payment scheme, the farmers managing the holdings shall have access, pro rata, to the single payment scheme under the same conditions as the farmer managing the original holding.

*Article 34***Application**

1. The first year of application of the single payment scheme, the competent authority of the Member State shall send an application form to the farmers referred to in Article 33(1)(a) indicating:

(a) the amount referred to in Chapter 2 (hereinafter referred to as the 'reference amount');

(b) the number of hectares referred to in Article 43;

(c) the number and value of payment entitlements as defined in Chapter 3.

2. Farmers shall apply to the single payment scheme by a date, to be fixed by Member States, but not later than 15 May.

However, the Commission, in accordance with the procedure referred to in Article 144(2), may allow the date of 15 May to be postponed in certain zones where exceptional climatic conditions render the normal dates inapplicable.

3. Except in case of force majeure and exceptional circumstances within the meaning of Article 40(4), no entitlements shall be allocated to farmers referred to in Article 33(1)(a) and (b) and to those who receive payment entitlements from the national reserve, if they do not apply to the single payment scheme by 15 May of the first year of application of the single payment scheme.

The amounts corresponding to those entitlements not allocated shall revert to the national reserve referred to in Article 42 and shall be available for reallocation by a date to be fixed by the Member State but not later than 15 August of the first year of application of the single payment scheme.

*Article 35***Double claims**

The area corresponding to the number of eligible hectares as defined in Article 44(2) in respect of which a single payment application is submitted may be the subject of an application for any other direct payment as well as for any other aid not covered by this Regulation, save as otherwise provided.

*Article 36***Payment**

1. Aid under the single payment scheme shall be paid in respect of payment entitlements as defined in Chapter 3, accompanied by an equal number of eligible hectares as defined in Article 44(2).

2. Member States may decide to combine payments under the single payment scheme with payments under any other support scheme.

CHAPTER 2

ESTABLISHMENT OF THE AMOUNT

Article 37

Calculation of the reference amount

1. The reference amount shall be the three-year average of the total amounts of payments, which a farmer was granted under the support schemes referred to in Annex VI, calculated and adjusted according to Annex VII, in each calendar year of the reference period referred to in Article 38.

2. By way of derogation from paragraph 1, when a farmer commences an agricultural activity in the reference period, the average shall be based on the payments he was granted in the calendar year or years during which he exercised the agricultural activity.

Article 38

Reference period

The reference period shall comprise the calendar years 2000, 2001 and 2002.

Article 39

Application of modulation and cross-compliance laid down under Regulation (EC) No 1259/1999

In case of application of Articles 3 and 4 of Regulation (EC) No 1259/1999 during the reference period, the amounts referred to in Annex VII shall be those that would have been granted before application of the said Articles.

Article 40

Hardship cases

1. By way of derogation from Article 37, a farmer whose production was adversely affected during the reference period by a case of force majeure or exceptional circumstances occurring before or during that reference period shall be entitled to request that the reference amount be calculated on the basis of the calendar year or years in the reference period not affected by the case of force majeure or exceptional circumstances.

2. If the whole reference period was affected by the case of force majeure or exceptional circumstances, the Member State shall calculate the reference amount on the basis of the 1997 to 1999 period. In this case, paragraph 1 shall apply *mutatis mutandis*.

3. A case of force majeure or exceptional circumstances, with relevant evidence to the satisfaction of the competent authority, shall be notified by the farmer concerned in writing to the authority within a deadline to be fixed by each Member State.

4. Force majeure or exceptional circumstances shall be recognised by the competent authority in cases such as, for example:

- (a) the death of the farmer;
- (b) long-term professional incapacity of the farmer;
- (c) a severe natural disaster gravely affecting the holding's agricultural land;
- (d) the accidental destruction of livestock buildings on the holding;
- (e) an epizootic affecting part or all of the farmer's livestock.

5. Paragraphs 1, 2 and 3 of this Article shall apply, *mutatis mutandis*, to farmers who, during the reference period, were under agri-environmental commitments according to Regulations (EEC) No 2078/92 ⁽¹⁾ and (EC) No 1257/1999.

In the case where the commitments covered both the reference period and the period referred to in paragraph 2 of this Article, Member States shall establish, according to objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortions, a reference amount in accordance with the detailed rules to be laid down by the Commission in accordance with the procedure referred to in Article 144(2).

Article 41

Ceiling

1. For each Member State, the sum of the reference amounts shall not be higher than the national ceiling referred to in Annex VIII.

2. Where necessary, a Member State shall proceed to a linear percentage reduction of the reference amounts in order to ensure respect of its ceiling.

⁽¹⁾ OJ L 215, 30.7.1992, p. 85. Regulation repealed by Regulation (EC) No 1257/1999 (OJ L 160, 26.6.1999, p. 80).

*Article 42***National reserve**

1. Member States shall, after any possible reduction under Article 41(2), proceed to a linear percentage reduction of the reference amounts in order to constitute a national reserve. This reduction shall not be higher than 3 %.

2. The national reserve shall further include the difference between the ceiling referred to in Annex VIII and the sum of the reference amounts to be granted to farmers under the single payment scheme, before the reduction referred to in paragraph 1 second sentence.

3. Member States may use the national reserve to grant, in priority, reference amounts to farmers who commence their agricultural activity after 31 December 2002, or in 2002 but without receiving any direct payment in that year, according to objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortions.

4. Member States shall use the national reserve for the purpose of establishing, according to objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortions, reference amounts for farmers finding themselves in a special situation, to be defined by the Commission in accordance with the procedure referred to in Article 144(2).

5. Member States may use the national reserve for the purpose of establishing, according to objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortions, reference amounts for farmers in areas subject to restructuring and/or development programs relating to one or the other form of public intervention in order to avoid abandoning of land and/or in order to compensate specific disadvantages for farmers in those areas.

6. In application of paragraphs 3 to 5 Member States may increase the unit value, within the limit of the regional average of the value of entitlements, and/or the number of entitlements allocated to farmers.

7. Member States shall proceed to linear reductions of the entitlements in case their national reserve is not sufficient to cover the cases referred to in paragraphs 3 and 4.

8. Except in case of transfer by actual or anticipated inheritance and by way of derogation from Article 46, the entitlements established using the national reserve shall not be transferred for a period of five years starting from their allocation.

By way of derogation from Article 45(1), any entitlement which has not been used during each year of the five year period shall revert immediately to the national reserve.

9. By way of derogation from Articles 33 and 43, in case of sale or lease for six or more years of the holding or part of it or premium rights in the reference period or not later than 29 September 2003, part of the entitlements to be allocated to the seller or the lessor may revert to the national reserve under conditions to be defined by the Commission, in accordance with the procedure referred to in Article 144(2).

CHAPTER 3

PAYMENT ENTITLEMENTS

Section 1

Payment entitlements based on areas*Article 43***Determination of the payment entitlements**

1. Without prejudice to Article 48, a farmer shall receive a payment entitlement per hectare which is calculated by dividing the reference amount by the three-year average number of all hectares which in the reference period gave right to direct payments listed in Annex VI.

The total number of payment entitlements shall be equal to the above mentioned average number of hectares.

However, in the case referred to in Article 37(2), the total number of payment entitlements shall be equal to the average number of hectares of the same period used for the establishment of the reference amounts and Article 42(6) shall apply to these payment entitlements.

2. The number of hectares referred to in paragraph 1 shall further include:

(a) in case of potato starch, dried fodder and seed aids listed in Annex VII, the number of hectares whose production has been granted the aid in the reference period as calculated in points B, D and F of Annex VII;

(b) all forage area in the reference period.

3. For the purpose of paragraph 2(b) of this Article, 'forage area' shall mean the area of the holding that was available throughout the calendar year, in accordance with Article 5 of Commission Regulation (EC) No 2419/2001⁽¹⁾, for rearing animals including areas in shared use and areas which were subject to mixed cultivation. The forage area shall not include:

- buildings, woods, ponds, paths,
- areas used for other crops eligible for Community aid or for permanent crops or horticultural crops,
- areas qualifying for the support system laid down for the producers of certain arable crops, used for the aid scheme for dried fodder or subject to a national or Community set-aside scheme.

4. The payment entitlements per hectare shall not be modified save as otherwise provided.

Article 44

Use of payment entitlements

1. Any payment entitlement accompanied by an eligible hectare shall give right to the payment of the amount fixed by the payment entitlement.
2. 'Eligible hectare' shall mean any agricultural area of the holding taken up by arable land and permanent pasture except areas under permanent crops, forests or used for non agricultural activities.
3. The farmer shall declare the parcels corresponding to the eligible hectare accompanying any payment entitlement. Except in case of force majeure or exceptional circumstances, these parcels shall be at the farmer's disposal for a period of at least 10-months, starting from a date to be fixed by the Member State, but not earlier than 1 September of the calendar year preceding the year of lodging the application for participation in the single payment scheme.
4. Member States may, in duly justified circumstances, authorise the farmer to modify his declaration on condition that he respects the number of hectares corresponding to his

⁽¹⁾ Commission Regulation (EC) No 2419/2001 of 11 December 2001 laying down detailed rules for applying the integrated administration and control system for certain Community aid schemes established by Council Regulation (EEC) No 3508/92 (OJ L 327, 12.12.2001, p. 11). Regulation as amended by Commission Regulation (EC) No 2550/2001 (OJ L 341, 22.12.2001, p. 105).

payment entitlements and the conditions for granting the single payment for the area concerned.

Article 45

Unused payment entitlements

1. Any payment entitlement which has not been used for a period of 3 years shall be allocated to the national reserve.
2. However, unused payment entitlements shall not revert to the national reserve in case of force majeure and exceptional circumstances within the meaning of Article 40(4).

Article 46

Transfer of payment entitlements

1. Payment entitlements may only be transferred to another farmer established within the same Member State except in case of transfer by actual or anticipated inheritance.

However, even in the case of actual or anticipated inheritance, payment entitlements may only be used in the Member State where the payment entitlements were established.

A Member State may decide that payment entitlements may only be transferred or used within one and the same region.

2. Payment entitlements may be transferred by sale or any other definitive transfer with or without land. In contrast, lease or similar types of transactions shall be allowed only if the payment entitlements transferred are accompanied by the transfer of an equivalent number of eligible hectares.

Except in case of force majeure or exceptional circumstances as referred to in Article 40(4), a farmer may transfer his payment entitlements without land only after he has used, within the meaning of Article 44, at least 80 % of his payment entitlements during at least one calendar year or, after he has given up voluntarily to the national reserve all the payment entitlements he has not used in the first year of application of the single payment scheme.

3. In case of sale of payment entitlements, with or without land, Member States may, acting in compliance with the

general principle of Community law, decide that part of the payment entitlements sold revert to the national reserve or that their unit value is reduced in favour of the national reserve, according to criteria to be fixed by the Commission in accordance with the procedure referred to in Article 144(2).

Section 2

Payment entitlements subject to special conditions

Article 47

Payments giving right to payment entitlements subject to special conditions

1. By way of derogation from Articles 43 and 44, the following amounts resulting from payments granted in the reference period shall be included in the reference amount under the conditions provided for in Article 48 and point C of Annex VII:

- (a) the deseasonalisation premium provided for in Article 5 of Regulation (EC) No 1254/1999;
- (b) the slaughter premium provided for in Article 11 of Regulation (EC) No 1254/1999;
- (c) the special premium for male bovine animals and the suckler cow premium, where the farmer was exempted from the stocking rate requirement pursuant to Article 12(1) of Regulation (EC) No 1254/1999, provided that the farmer did not apply for the extensification payment provided for in Article 13 of that Regulation;
- (d) additional payments provided for in Article 14 of Regulation (EC) No 1254/1999 where paid in addition to aid provided for under (a), (b) and (c) of this paragraph;
- (e) the aids provided for under the sheep and goats aid scheme:
 - in the calendar years 2000 and 2001, in Article 5 of Regulation (EC) No 2467/98 and in Article 1 of Regulation (EEC) No 1323/90 ⁽¹⁾,
 - in the calendar year 2002, in Articles 4, 5 and 11(1) and in the first, second and fourth indent of Article 11(2) of Regulation (EC) No 2529/2001.

2. The total number of set-aside entitlements shall be equal to the average number of compulsory set-aside hectares.

*Article 54***Use of set-aside entitlements**

(a) his entire holding is managed for the totality of its production in compliance with the obligations laid down

in Council Regulation (EEC) No 2092/91 of 24 June 1991 on organic production of agricultural products and indications referring thereto on agricultural products and foodstuffs ⁽¹⁾;

(b) the land set-aside is used for the provision of materials for the manufacture within the Community of products not primarily intended for human or animal consumption, provided that effective control systems are applied.

Article 56

Use of the set aside land

1. The land set aside shall be maintained in good agricultural and environmental condition as established under Article 5.

Without prejudice to Article 55, it shall not be used for agricultural purposes and shall not produce any crop for commercial purposes.

2. It may be subject to rotation.

3. If the quantity of by-products for feed or food uses likely to be made available as a result of the cultivation of oilseeds on land set-aside under Article 55(b), will, on the basis of the forecast quantities covered by contracts made with farmers, exceed 1 million tonnes annually expressed in soya bean meal equivalents, in order to limit such quantity to 1 million tonnes, the amount of the forecast quantity under each contract, which may be used of feed or food uses, shall be reduced.

4. Member States shall be authorised to pay national aid up to 50 % of the costs associated with establishing multiannual crops intended for bio-mass production on set-aside land.

Articles 48 and 49 shall apply *mutatis mutandis*.

REGIONAL AND OPTIONAL IMPLEMENTATION

Section 1

Regional implementation*Article 58***Regional allocation of the ceiling referred to in Article 41**

1. A Member State may decide, by 1 August 2004 at the latest, to apply the single payment scheme provided for in Chapters 1 to 4 at regional level under the conditions laid down in this Section.

2. Member States shall define the regions according to objective criteria.

Member States with less than three million eligible hectares may be considered as one single region.

3. The Member State shall subdivide the ceiling referred to in Article 41 between the regions according to objective criteria.

*Article 59***Regionalisation of the single payment scheme**

1. In duly justified cases and according to objective criteria the Member State may divide the total amount of the regional ceiling established under Article 58 or part of it between all the farmers whose holdings are located in the region concerned, including those who do not meet the eligibility criterion referred to in Article 33.

2. In this case of division of the total amount of the regional ceiling, farmers shall receive entitlements, whose unit value is calculated by dividing the regional ceiling established under Article 58 by the number of eligible hectares, within the meaning of Article 44(2), established at regional level.

3. In case of partial division of the total amount of the regional ceiling, farmers shall receive entitlements whose unit value is calculated by dividing the corresponding part of the regional ceiling established under Article 58 by the number of eligible hectares, within the meaning of Article 44(2), established at regional level.

In case the farmer is also entitled to receive entitlements calculated on the remaining part of the regional ceiling, the regional unit value of each of his entitlements, except for set-aside entitlements, shall be increased by an amount corresponding to the reference amount divided by the number his entitlements established in accordance with paragraph 4.

*Article 60***Use of the land**

4. The number of entitlements per farmer shall be equal to the number of hectares he declares in accordance with Article 44(2) the first year of application of the single payment scheme, except in case of force majeure or exceptional circumstances within the meaning of Article 40(4).

1. Where a Member State makes use of the option provided for in Article 59, farmers may, by way of derogation from Article 51 and in accordance with the provisions of this Article, also use the parcels declared according to Article 44(3) for the production of products referred to in Article 1(2) of Regulation (EC) No 2200/96, in Article 1(2) of Regulation (EC) No 2201/96 and potatoes other than those intended for the manufacture of potato starch for which aid is granted under Article 93 of this Regulation, except permanent crops.

2. The Member State shall establish the number of hectares that may be used according to paragraph 1 of this Article by subdividing, according to objective criteria, the average of the number of hectares that were used for the production of the products referred to in paragraph 1 at national level during the three-year period 2000-2002 amongst the regions defined pursuant to Article 58(2). The average number of hectares at national level and the number of hectares at regional level shall be fixed by the Commission in accordance with the procedure referred to in Article 144(2) on the basis of the data communicated by the Member State.

3. Within the limit established according to paragraph 2 for the region concerned, a farmer shall be allowed to make use of the option referred to in paragraph 1:

(a) within the limit of the number of hectares that he used for the production of the products referred to in paragraph 1 in 2003;

(b) in case of application, *mutatis mutandis*, of Articles 40 and 42(4), within the limit of a number of hectares to be established according to objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortions.

4. Within the limit of the number of hectares that remain available after application of paragraph 3, farmers shall be allowed to produce the products referred to in paragraph 1 on a number of hectares other than the number of hectares falling under paragraph 3 within the limit of a number of hectares used for the production of the products referred to in

paragraph 1 in 2004 and/or 2005, whereby priority shall be given to the farmers who produced the products already in 2004 within the limit of the number of hectares used in 2004.

In case of application of Article 71, 2004 and 2005 shall be replaced by, respectively, the year previous to the year of application of the single payment scheme and the year of application itself.

5. In order to establish the individual limits referred to in paragraphs 3 and 4, the Member States shall use the farmer's individual data, where available, or any other evidence at its satisfaction provided by the farmer.

6. The number of hectares for which the authorisation has been established according to paragraphs 3 and 4 of this Article, shall in no case exceed the number of eligible hectares as defined in Article 44(2) declared in the first year of application of the single payment scheme.

7. The authorisation shall be used, within the region concerned, with the corresponding payment entitlement.

8. By at the latest 2007, the Commission shall submit a report to the Council, accompanied, if necessary, by appropriate proposals, on the possible consequences, in terms of market and structural developments, of the implementation by Member States of this Article.

Article 61

Grassland

In case of application of Article 59, Member States may also, according to objective criteria, fix, within the regional ceiling or part of it, different per unit values of entitlements to be allocated to farmers referred to in Article 59(1), for hectares under grassland at the date provided for the area aid applications for 2003 and for any other eligible hectare or alternatively for hectares under permanent pasture at the date provided for the area aid applications for 2003 and for any other eligible hectare.

Article 62

Dairy premium and additional payments

By way of derogation from Article 47(2), Member State may decide that the amounts resulting from dairy premiums and additional payments, provided for in Articles 95 and 96, shall be included, in part or in full, in the single payment scheme starting from 2005. Entitlements established under this paragraph shall be modified accordingly.

The reference amount for those payments shall be equal to the amounts to be granted according to Articles 95 and 96 calculated on the basis of the individual reference quantity for milk available on the holding on 31 March of the year of inclusion, in part or in full, of those payments in the single payment scheme.

Articles 48 to 50 shall apply *mutatis mutandis*.

Article 63

Conditions for the entitlements established under this section

2. In case of application of Article 59, by way of derogation from Article 53, any farmer in the region concerned shall receive set-aside entitlements.

The number of set-aside entitlements is established by multiplying a farmer's eligible land within the meaning of Article 54(2) declared in the first year of application of the single payment scheme with a set-aside rate.

The set aside rate is calculated by multiplying the basic rate of compulsory set-aside of 10 % by the proportion, in the region concerned, between the land for which arable crops area payments referred to in Annex VI have been granted in the reference period and the eligible land within the meaning of Article 54(2) in the reference period.

The value of the set-aside entitlements shall be the regional value for payment entitlements as established according to Article 59(2) or, as the case may be, Article 59(3) first subparagraph.

Those farmers shall not receive set-aside entitlements who declare less than a number of hectares within the meaning of Article 54(2) which would be needed to produce a number of tonnes equal to 92 tonnes of cereals as defined in Annex IX on the basis of the yields determined according to the regionalisation plan applicable in the region concerned in the year before the year of application of the single payment scheme divided by the proportion referred to in the third subparagraph of paragraph 2 of this Article.

3. By way of derogation from Articles 43(4) and 49(3), Member States may also decide, by 1 August 2004 at the latest, and acting in compliance with the general principle of Community law, that entitlements established under this section shall be subject to progressive modifications according to pre-established steps and objective criteria.

*Article 78***Area**

1. A maximum guaranteed area of 1 400 000 ha for which the aid may be granted is hereby established.

2. Where the area for which aid is claimed exceeds the maximum guaranteed area, the area per farmer for which aid is claimed shall be reduced proportionately in that year in accordance with the procedure referred to in Article 144(2).

CHAPTER 8

SPECIFIC REGIONAL AID FOR ARABLE CROPS*Article 98***Aid**

In case of application of Article 70, in Finland and in Sweden north of the 62nd Parallel and some adjacent areas affected by comparable climatic conditions rendering agricultural activity particularly difficult, farmers producing cereals, oilseeds, linseed and flax and hemp grown for fibre shall be granted a specific aid of EUR 24/t, multiplied by the yields determined in the regionalisation plan for the region concerned within the limit of a ceiling, fixed by the Commission in accordance with Article 64(2), corresponding to the component of this aid in the ceiling referred to in Article 41.

When the total amount of aid claimed exceeds the fixed ceiling, the aid per farmer shall be reduced proportionately in that year.

CHAPTER 9

SEED AID*Article 99***Aid**

1. In case of application of Article 70, Member States shall grant, on a yearly basis, the aids fixed in Annex XI for the production of basic seed or certified seeds of one or more of the species listed in Annex XI.

2. In case the area accepted for certification for which the aid for seeds is claimed is used also for claiming the aid under the single payment scheme, the amount of aid for seed, except in the case of species referred to in Annex XI points 1 and 2, shall be reduced, but not to less than zero, by the amount of aid of the single payment scheme to be granted in a given year for the area concerned.

3. The amount of aid claimed shall not exceed a ceiling, fixed by the Commission in accordance with Article 64(2), corresponding to the component of seed aids for the species concerned in the national ceiling referred to in Article 41.

When the total amount of aid claimed exceeds the fixed ceiling, the aid per farmer shall be reduced proportionately in that year.

4. The varieties of *Cannabis sativa* L. for which the aid provided for in this Article is payable shall be determined in accordance with the procedure referred to in Article 144(2).

CHAPTER 10

ARABLE CROPS AREA PAYMENT*Article 100***Scope of application and definitions**

1. In case of application of Article 66, Member States shall grant, under the conditions set out in this Chapter, save as otherwise provided, the aid chosen by the Member State concerned according to that Article, to farmers producing arable crops.

2. For the purposes of this Chapter:

— the marketing year shall run from 1 July to 30 June,

— 'arable crops' are taken to mean those listed in Annex IX.

3. Member States where maize is not a traditional crop may make grass silage eligible for the arable crops area payments, under the same conditions as those applicable for arable crops.

*Article 101***Base areas**

The area payment shall be fixed on a per hectare basis and regionally differentiated.

The area payment shall be granted for the area which is down to arable crops or subject to set-aside in accordance with Article 107 of this Regulation and which does not exceed the total number of hectares of the regional base area or areas as fixed in Annex VI of Commission Regulation (EC) No 2316/1999⁽¹⁾, taking into account the application of Regulation (EC) No 1017/94.

⁽¹⁾ Commission Regulation (EC) No 2316/1999 of 22 October 1999 laying down detailed rules for the application of Council Regulation (EC) No 1251/1999 establishing a support system for producers of certain arable crops (OJ L 280, 30.10.1999, p. 43). Regulation as last amended by Regulation (EC) No 1035/2003 (OJ L 150, 18.6.2003, p. 24).

A region in this sense shall be understood to mean a Member State or a region within the Member State, at the option of the Member State concerned. In case of application of Article 66 of this Regulation, the area or areas fixed in Annex VI of Regulation (EC) No 2316/1999 shall be reduced by the number of hectares corresponding to the set-aside entitlements set up in accordance with Article 53 and 63(2) of this Regulation in the region concerned.

Article 102

Overrun of base areas and ceiling

1. When the sum of the areas for which payment is claimed under the arable crops' scheme, including the set-aside provided for under that scheme in case of application of Article 71, is in excess of the base area, the eligible area per farmer shall be reduced proportionately for all the payments granted under this Regulation in the region in question, during the same marketing year.

2. The sum of the payments claimed shall not be higher than the ceiling fixed by the Commission in accordance with Article 64(2). When the total amount of aid claimed exceeds the fixed ceiling, the aid per farmer shall be reduced proportionately in that year.

3. In case of application of Article 71, areas which are not the subject of an application for payment under this Chapter but are used to support an application for aid under Chapter 12 shall also be taken into account for the calculation of areas for which payment is claimed.

4. If a Member State makes grass silage eligible for the arable crops area payments, a separate base area shall be defined. If the base area for arable crops or grass silage is not reached in a given marketing year, the balance of hectares shall be allocated for the same marketing year to the corresponding base area.

5. Where a Member State has chosen to establish one or more national base areas, it may subdivide each national base area into sub-base areas according to objective criteria to be defined by the Member State.

For the purposes of applying this paragraph, the 'Secano' and 'Regadío' base areas shall be considered as national base areas.

Where there is an overshoot of a national base area, the Member State concerned may, in accordance with objective criteria, concentrate the measure applicable under paragraph 1 totally or partially on the sub-base areas for which the overshoot has been noted.

Member States which have decided to apply the possibilities provided for in this paragraph, shall notify farmers and the Commission by 15 September of their choices and the detailed rules for their application.

Article 103

Regionalisation plan

The regionalisation plan established by Member States pursuant to Article 3 of Regulation (EC) No 1251/1999 shall apply.

The regionalisation plan may be revised, according to objective criteria, by the Member State concerned at the request of the Commission or at the initiative of that Member State.

Article 104

Basic amount

1. The area payment shall be calculated by multiplying the basic amount per tonne by the average cereal yield determined in the regionalisation plan for the region concerned.

2. The calculation mentioned in paragraph 1 shall be made using the average cereals yield. However, where maize is treated separately, the 'maize' yield shall be used for maize and the 'cereals other than maize' yield shall be used for cereals, oilseeds, linseed and flax and hemp grown for fibre.

3. The basic amount for arable crops and, in case of application of Article 71, for set-aside shall be fixed at EUR 63,00/t from the 2005/2006 marketing year onwards.

Article 105

Durum wheat supplement

1. A supplement to the area payment of:

— EUR 291/ha for the marketing year 2005/2006,

— EUR 285/ha for the marketing year 2006/2007 and onwards,

shall be paid for the area down to durum wheat in the traditional production zones listed in Annex X, subject to the following limits:

Greece	617 000 ha
Spain	594 000 ha
France	208 000 ha
Italy	1 646 000 ha
Austria	7 000 ha
Portugal	118 000 ha.

2. Should the total of the areas for which a supplement to the area payment is claimed be greater than the limit referred to above during the course of a marketing year, the area per farmer for which the supplement may be paid shall be reduced proportionately.

However, subject to the limits per Member State laid down in paragraph 1, Member States may distribute the areas indicated in that paragraph among the production zones as defined in Annex X, or, if necessary, the production regions of the regionalisation plan, according to the extent of the production of durum wheat during the period 1993 to 1997. Where this is done, should the total of the areas within a region for which a supplement to the area payment is requested be greater than the corresponding regional limit during the course of a marketing year, the area per farmer in that production region for which the supplement may be paid shall be reduced proportionately. The reduction shall be made when, within a Member State, the areas in regions, which have not reached their regional limits, have been distributed to regions in which those limits have been exceeded.

3. In regions where the production of durum wheat is well established, other than those referred to in Annex X, special aid amounting to EUR 46/ha for the marketing year 2005/2006 shall be granted up to a limit of the following number of hectares:

Germany	10 000 ha
Spain	4 000 ha
France	50 000 ha
Italy	4 000 ha
United Kingdom	5 000 ha.

Article 106

Flax and hemp

For flax and hemp grown for fibre, the area payment shall be made only, depending on circumstances, when the contract is concluded or commitment made as referred to in Article 2(1) of Regulation (EC) No 1673/2000.

For hemp grown for fibre, the area payment shall also be made under the conditions provided for in Article 52.

Article 107

Set-aside

1. In case of application of Article 71, farmers applying for the area payment shall be subject to an obligation to set aside part of the land of their holding from production and shall receive compensation for this obligation.

2. The set-aside obligation for each farmer applying for area payments shall be fixed as a proportion of his area down to arable crops and for which a claim is made and left in set-aside pursuant to this Chapter.

The basic rate of compulsory set-aside is fixed at 10 % for the marketing years 2005/2006 and 2006/2007.

3. The land set aside may be used for:

- producing materials for the manufacture within the Community of products not directly intended for human or animal consumption, provided that effective control systems are applied;
- growing legume crops on a agricultural holding, managed for the totality of its production, in compliance with the obligations laid down in Regulation (EEC) No 2092/91.

Member States shall be authorised to pay national aid up to 50 % of the costs associated with establishing multiannual crops intended for bio-mass production on set-aside land.

4. The quantity of by-products for feed or food uses likely to be made available as a result of the cultivation of oilseeds on land set-aside under paragraph 3 first indent shall be taken into account for the respect of the limit of 1 million tonnes referred to in Article 56(3).

5. Where different yields are set for irrigated and non-irrigated land, the payment for set-aside for non-irrigated land apply.

6. Farmers may be granted the set-aside payment on land voluntarily set aside in excess of their obligation. Member States shall allow farmers to set-aside up to at least 10 % of the area down to arable crops and for which a payment application is made, and left in set-aside pursuant to this Article. Higher percentages may be set by a Member State taking into account specific situations and ensuring sufficient occupation of farmland.

In case of application of Article 66, this paragraph shall apply according to detailed rules to be adopted by the Commission, in accordance with the procedure referred to in Article 144(2).

7. Farmers who make a payment application for an area no bigger than the area which would be needed to produce 92 tonnes of cereals, on the basis of the yields determined for their region, are not bound by the set-aside obligation. Paragraph 6 shall apply to these farmers.

8. Without prejudice to Article 108, areas:

Article 109

— set aside pursuant to agri-environment (Articles 22 to 24 of Council Regulation (EC) No 1257/1999), which are neither put to any agricultural use nor used for any lucrative purposes other than those accepted for other land set aside under this Regulation, or

— afforested pursuant to afforestation (Article 31 of Regulation (EC) No 1257/1999),

as a result of an application made after 28 June 1995, may, up to any limit per holding which may be set by the Member State concerned, be counted as being set aside for the purposes of the set-aside requirement indicated in paragraph 1. Such limit shall be set only to the extent necessary to avoid a disproportionate amount of the available budget relating to the scheme in question being concentrated on a small number of farms.

However, on these areas, the area payment specified in Article 104 of this Regulation shall not be granted and the support granted under Article 24(1) or Article 31(1), second indent of Regulation (EC) No 1257/1999 shall be limited to an amount equal at most to the area payment for set aside specified in Article 104 of this Regulation.

Member States may decide not to apply the scheme provided for in this paragraph to a new applicant in any region in which there is a continuing risk of a significant overshoot of the regional base area.

9. Set aside areas shall not be less than 0,1 ha in size and 10 metres wide. For duly justified environmental reasons, Member States may accept areas at least 5 metres wide and 0,05 ha in size.

Article 108

Eligible land

Applications for payments may not be made in respect of land which, at the date provided for the area aid applications for 2003, was under permanent pasture, permanent crops or trees or was used for non-agricultural purposes.

Member States may, on terms to be determined in accordance with the procedure referred to in Article 144(2), derogate to the first subparagraph of this Article, provided that they take action to prevent any significant increase in the total eligible agricultural area.

Sowing and application

In order to qualify for the area payment, a farmer shall by 31 May at the latest preceding the relevant harvest have sown the seed and by 15 May at the latest have lodged an application.

Article 110

Implementing rules

Detailed rules for the application of this Chapter shall be adopted in accordance with the procedure referred to in Article 144(2) and in particular:

- those relating to the establishment and management of base areas,
- those relating to the establishment of production regionalisation plans,
- those relating to grass silage,
- those relating to the granting of the area payment,
- those relating to the minimum area eligible for payment; such rules shall take particular account of the monitoring requirements and of the desired effectiveness of the scheme in question,
- those determining, for durum wheat, the eligibility for the supplement to the area payment and the eligibility requirements for the special aid, and in particular determination of the regions to be taken into consideration,
- those relating to set-aside, and in particular those relating to Article 107(3); these conditions shall define the fodder legumes that may be grown on land set aside and, with regard to the first indent of the first paragraph of that paragraph, may include the growing of crops without compensation.

According to the same procedure, the Commission may:

- either make the granting of payments subject to the use of:
 - (i) specific seeds;
 - (ii) certified seed in the case of durum wheat and flax and hemp grown for fibre;
 - (iii) certain varieties in the cases of oilseeds, durum wheat, linseed and flax and hemp grown for fibre,

- or provide for the possibility for Member States to make the grant of payments subject to such conditions,
- allow the dates in Article 109 to be varied in certain zones where exceptional climatic conditions render the normal dates inapplicable.

CHAPTER 11

SHEEP AND GOAT PREMIUMS

Article 111

Scope of application

In case of application of Article 67, Member States shall grant, on a yearly basis, premiums or additional payments to farmers rearing sheep and goats under the conditions provided for in this Chapter, save as otherwise provided.

Article 112

Definitions

For the purposes of this Chapter the following definitions shall apply:

- (a) 'ewe' shall mean any female of the ovine species having lambed at least once or aged at least one year;
- (b) 'she-goat' shall mean any female of the caprine species having kidded at least once or aged at least one year.

Article 113

Ewe and goat premium

1. A farmer keeping ewes on his holding may qualify, on application for a premium for maintaining ewes (ewe premium).
2. A farmer keeping she-goats on his holding may qualify, on application for a premium for maintaining she-goats (goat premium). This premium shall be granted to farmers in specific areas where the production meets the following two criteria:

- (a) goat rearing is mainly directed towards the production of goatmeat;
- (b) goat and sheep rearing techniques are similar in nature.

A list of such areas shall be established following the procedure referred to in Article 144(2).

3. The ewe premium and the goat premium shall be granted in the form of an annual payment per eligible animal per calendar year and per farmer within the limits of individual ceilings. The minimum number of animals in respect of which an application for a premium is lodged shall be determined by the Member State. This minimum shall not be less than 10 or greater than 50.

4. Per ewe, the amount of the premium shall be EUR 21. However for farmers marketing sheep's milk or products based on sheep's milk the premium per ewe shall be EUR 16,8.

5. Per she-goat the amount of the premium shall be EUR 16,8.

Article 114

Supplementary premium

1. A supplementary premium shall be paid to farmers in areas where sheep and goat production constitutes a traditional activity or contributes significantly to the rural economy. Member States shall define these areas. In any event the supplementary premium shall only be granted to a farmer whose holding has at least 50 % of its area used for agriculture situated in less-favoured areas defined pursuant to Regulation (EC) No 1257/1999.

2. The supplementary premium shall also be granted to a farmer practising transhumance provided that:

- (a) at least 90 % of the animals for which the premium is applied are grazed for at least 90 consecutive days in an eligible area established in accordance with paragraph 1, and
- (b) the seat of the holding is situated in a well-defined geographical area for which it has been established by the Member State that transhumance is a traditional practice of sheep and/or goat rearing and that these animal movements are necessary owing to the absence of forage in sufficient quantity during the transhumance period.

3. The amount of the supplementary premium shall be set at EUR 7 per ewe and per she-goat. The supplementary premium shall be granted under the same conditions as those laid down for the grant of the ewe and goat premium.

Article 115

Common provisions

1. Premiums shall be paid to recipient farmers on the basis of the number of ewes and/or she-goats kept on their holding over a minimum period to be determined in accordance with the procedure referred to in Article 144(2).

2. Once a Regulation providing for new rules on the identification and registration of sheep and goats becomes applicable, to qualify for the premium an animal shall be identified and registered in accordance with these rules.

Article 116

Individual limits

1. On 1 January 2005 the individual ceiling per farmer referred to in Article 113(3), shall be equal to the number of premium rights which he held on 31 December 2004 in accordance with the relevant Community rules.

2. Member States shall take the necessary measures to ensure that the sum of premium rights on their territory does not exceed the national ceilings set out in paragraph 4 and that the national reserves referred to in Article 118 may be maintained.

3. Premium rights, which have been withdrawn pursuant to the measure taken pursuant to paragraph 2 shall be abolished.

4. The following ceilings shall apply:

Article 117

Transfer of premium rights

1. When a farmer sells or otherwise transfers his holding, he may transfer all his premium rights to the person who takes over his holding.

2. A farmer may also transfer, in whole or in part, his rights to other farmers without transferring his holding.

In the case of a transfer of rights without transfer of the holding, a part of the premium rights transferred, not exceeding 15 %, shall be surrendered, without compensation to the national reserve of the Member State where his holding is situated for redistribution free of charge.

Member States may acquire premium rights from farmers who agree, on a voluntary basis, to surrender their rights, in whole or in part. In this case payments for the acquisition of such rights may be made to such farmers either from national budgets or as provided for under Article 119(2), fifth indent.

By way of derogation from paragraph 1 and in duly justified circumstances, Member States may provide that in the case of a sale or other transfer of the holding, the transfer of rights is carried out by the intermediary of the national reserve.

3. Member States may take the necessary measures to avoid premium rights being moved away from sensitive zones or regions where sheep production is especially important for the local economy.

4. Member States may authorise, before a date that they shall determine, temporary transfers of that part of the premium rights, which are not intended to be used by the farmer who holds them.

Article 118

National reserve

1. Each Member State shall maintain a national reserve of premium rights.

2. Any premium rights withdrawn pursuant to Article 117(2) or other Community provisions shall be added to the national reserve.

3. Member States may allocate premium rights to farmers, within the limits of their national reserves. When making the allocation they shall give precedence in particular to newcomers, young farmers or other priority farmers.

*Article 119***Additional payments**

1. In case of application of Article 71, Member States shall, on a yearly basis, make additional payments totalling the global amounts set out in paragraph 3 of this Article.

Member States may decide to supplement the global amounts set out in paragraph 3 of this Article by reducing the amounts of the payments referred to in Article 113. The reduction in the amounts, which may be applied on a regional basis, shall not exceed one euro.

The payments shall be made, on a yearly basis, according to objective criteria including, in particular, the relevant production structures and conditions, and in such a way as to ensure equal treatment between producers and to avoid market and competition distortions. Moreover, such payments shall not be linked to fluctuations of market prices. They may be made on a regional basis.

2. Payments may include, in particular, the following:

- payments to farmers engaged in specific types of production, in particular related to quality, which are important for the local economy or the protection of the environment;
- an increase in the premium set out in Article 113. The additional amounts may be subject to the application of stocking density requirements, to be determined by the Member State according to local conditions;
- support for restructuring of farmers' holdings or the development of producers' organisations;
- area payments to farmers, to be granted per hectare of forage area, which is available to a farmer during the calendar year concerned and in respect of which no payments are claimed for the same year under the support system for farmers producing certain arable crops, under the aid system for dried fodder and under Community aid schemes for other permanent or horticultural crops;
- payments to farmers who surrender their rights on a voluntary basis pursuant to Article 117(2);
- support for the improvement and rationalisation of processing and marketing of sheep and goatmeat.

3. The following global amounts shall apply:

*Article 120***Ceilings**

The sum of the amounts of each premium or additional payment claimed shall not exceed the limit of the ceiling, fixed by the Commission in accordance with Article 64(2).

When the total amount of aid claimed exceeds the fixed ceiling, the aid per farmer shall be reduced proportionately in that year.

CHAPTER 12

BEEF AND VEAL PAYMENTS*Article 121***Scope of application**

In case of application of Article 68, Member States shall grant, under the conditions set out in this Chapter, save as otherwise provided, the aid or aids chosen by the Member State concerned according to that Article.

*Article 122***Definitions**

For the purposes of this Chapter:

- (a) 'region' shall mean a Member State or a region within a Member State, at the option of the Member State concerned,
- (b) 'bull' shall mean an uncastrated male bovine animal,
- (c) 'steer' shall mean a castrated male bovine animal,
- (d) 'suckler' cow shall mean a cow belonging to a meat breed or born of a cross with a meat breed, and belonging to a herd intended for rearing calves for meat production,
- (e) 'heifer' shall mean a female bovine animal from the age of eight months which has not yet calved.

*Article 123***Special premium**

1. A farmer holding male bovine animals on his holding may qualify, on application, for a special premium. It shall be granted in the form of an annual premium per calendar year and per holding within the limits of regional ceilings for not more than 90 animals for each of the age brackets referred to in paragraph 2.
2. The special premium shall be granted no more than:
 - (a) once in the life of each bull from the age of nine months, or
 - (b) twice in the life of each steer:
 - the first time at the age of nine months,
 - the second time after it has reached the age of 21 months.
3. To qualify for the special premium:
 - (a) any animal covered by an application shall be held by the farmer for fattening for a period to be determined,
 - (b) each animal shall be covered until slaughter or until export by an animal passport referred to in Article 6 of Regulation (EC) No 1760/2000 of the European Parliament

and of the Council of 17 July 2000 establishing a system for the identification and registration of bovine animals and regarding the labelling of beef and beef products ⁽¹⁾ containing all relevant information on its premium status or, if not available, an equivalent administrative document.

4. When in a given region the total number of bulls from the age of nine months and of steers from nine months to 20 months of age, for which an application has been made and which satisfy the conditions for granting the special premium exceeds the regional ceiling referred to in paragraph 8, the number of all eligible animals under paragraph 2(a) and (b) per farmer for the year in question shall be reduced proportionately.

Within the meaning of this Article, 'regional ceiling' shall mean the number of animals entitled to benefit, in a region and per calendar year, from the special premium.

5. By way of derogation from paragraphs 1 and 4, Member States may:

- on the basis of objective criteria that are part of a rural development policy and only on the condition that they take into account environmental as well as employment aspects, change or waive the headage limit of 90 animals per holding and age bracket, and,
- where exercising this power, decide to apply paragraph 4 in such a way as to reach the level of reductions required to comply with the applicable regional ceiling, without applying such reductions to small farmers who, in respect of the year in question, did not submit special premium applications for more than a minimum number of animals determined by the Member State concerned.

6. Member States may decide to grant the special premium at the time of slaughter. In this case, for bulls the age criterion referred to in paragraph 2(a) shall be replaced by a minimum carcass weight of 185 kilograms.

The premium shall be paid or passed back to the farmers.

The United Kingdom shall be authorised to apply in Northern Ireland a system for granting the special premium which differs from that applied in the remainder of its territory.

7. The amount of the special premium shall be set at:

- (a) EUR 210 per eligible bull;
- (b) EUR 150 per eligible steer and age bracket.

⁽³⁾ Without prejudice to the specific rules laid down in Regulation (EC) No 1453/2001.

⁽⁴⁾ To be adjusted at the expiry of Regulation (EC) No 1017/94.

⁽⁵⁾ This ceiling shall be temporarily increased by 100 000 to 1 519 811 until such time as live animals under six months of age may be exported.

Article 124

Deseasonalisation premium

1. In case of application of Article 71 where, in a Member State the number of steers:

- (a) slaughtered in a given year exceeds 60 % of total annual slaughterings of male bovine animals, and
- (b) slaughtered during the period 1 September to 30 November in a given year exceeds 35 % of total annual slaughterings of steers,

farmers may qualify, on application, for an additional premium to the special premium (deseasonalisation premium). However, if both triggering rates referred to above are reached in Ireland or in Northern Ireland, the premium shall apply in Ireland and in Northern Ireland.

For the purpose of applying this Article in the United Kingdom, Northern Ireland shall be regarded as a separate entity.

2. The amount of this premium shall be set at:

- EUR 72,45 per animal slaughtered during the first 15 weeks in a given year,

- EUR 54,34 per animal slaughtered during the 16th and 17th weeks in a given year,

- EUR 36,23 per animal slaughtered during the 18th to the 21st week in a given year, and

- EUR 18,11 per animal slaughtered during the 22nd and 23rd weeks in a given year.

3. Where the rate referred to in paragraph 1(b) is not achieved, taking into account the penultimate sentence of paragraph 1, Member States whose farmers have previously received the deseasonalisation premium may decide to grant this premium at the rate of 60 % of the amounts set in paragraph 2.

In such case, the Member State concerned:

- (a) may decide to grant this premium for the first two or three of the periods in question only,
- (b) shall ensure the measure is financially neutral in respect of the same budget year by accordingly reducing:

- the amount of the second age bracket of the special premium applicable to steers granted in that Member State, and/or

- the additional payments to be made under Section 2, and shall inform the Commission of the reduction measure applied.

For the purpose of applying this measure, Ireland and Northern Ireland shall be regarded as one entity for the calculation of the rate referred to in paragraph 1(a) and consequently for qualification for the premium.

4. In order to establish whether the percentages referred to in this Article have been exceeded, account shall be taken of slaughterings carried out during the second year preceding that in which the animal qualifying for the premium was slaughtered.

Article 125

Suckler cow premium

1. A farmer keeping suckler cows on his holding may qualify, on application, for a premium for maintaining suckler cows (suckler cow premium). It shall be granted in the form of an annual premium per calendar year and per farmer within the limits of individual ceilings.

2. The suckler cow premium shall be granted to any farmer:

- (a) not supplying milk or milk products from his farm for 12 months from the day on which the application is lodged.

The supply of milk or milk products directly from the holding to the consumer shall not, however, prevent grant of the premium,

- (b) supplying milk or milk products whose total individual reference quantity as referred to in Article 4 of Regulation (EEC) No 3950/92 does not exceed 120 000 kilograms. However, Member States may decide on the basis of objective criteria, which they determine, to change or waive this quantitative limit,

provided that the farmer keeps, for at least six consecutive months from the day on which the application is lodged a number of suckler cows at least equal to 60 % and of heifers at most equal to 40 % of the number for which the premium was requested.

For the purposes of determining the number of eligible animals under points (a) and (b) of the first paragraph of paragraph 2 of this Article, whether cows belong to a suckler herd or to a dairy herd shall be established on the basis of the beneficiary's individual reference quantity as defined in Article 95(2) and the average milk yield.

3. The farmers' entitlement to the premium shall be limited by the application of an individual ceiling as defined in Article 126.

4. Per eligible animal, the amount of the premium shall be set at EUR 200.

5. In case of application of Article 68(a)(i), Member States may grant an additional national suckler cow premium, up to a maximum of EUR 50 per animal, provided that no discrimination is caused between stockfarmers in the Member State concerned.

In respect of holdings located in a region as defined in Articles 3 and 6 of Council Regulation (EC) No 1260/1999 of 21 June 1999 laying down general provisions on the Structural Funds ⁽¹⁾, the first EUR 24,15 per animal of this additional premium shall be financed by the Guarantee Section of the European Guidance and Guarantee Fund (EAGGF).

In respect of holdings located throughout the territory of a Member State, if in the Member State concerned the cattle population has a high proportion of suckler cows, representing at least 30 % of the total number of cows, and if at least 30 % of male bovine animals slaughtered belong to conformation classes S and E, the Guarantee Section of EAGGF shall finance

the additional premium in total. Any overshoot of these percentages is established on the basis of the average of the two years preceding that for which the premium is granted.

6. For the purposes of this Article, only heifers belonging to a meat breed or born of a cross with a meat breed and belonging to a herd intended for rearing calves for meat production shall be taken into account.

Article 126

Individual ceiling for suckler cow

1. An aid shall be granted to each farmer of suckler cow within the limit of the individual ceilings established in application of Article 7 of Regulation (EC) No 1254/1999.

2. Member States shall take the necessary steps to ensure that the sum of premium rights on their territory does not exceed the national ceilings set out in paragraph 5 of this Article and that the national reserves referred to in Article 128 may be maintained.

3. Where the adjustment referred to in paragraph 2 requires a reduction of individual ceilings held by farmers, it shall be carried out without compensatory payment and decided on the basis of objective criteria, including, in particular:

- the rate at which farmers have used their individual ceilings during the three reference years prior to the year 2000,
- the implementation of an investment or extensification programme in the beef and veal sector,
- particular natural circumstances or the application of penalties, resulting in a non-payment or a reduced payment of the premium for at least one reference year,
- additional exceptional circumstances having the effect that the payments made for at least one reference year do not correspond to the actual situation as established during the previous years.

4. Premium rights which have been withdrawn pursuant to the measure provided for in paragraph 2 shall be abolished.

⁽¹⁾ OJ L 161, 26.6.1999, p. 1. Regulation as last amended by Regulation (EC) No 1105/2003 (OJ L 158, 27.6.2003, p. 3).

5. The following national ceilings shall apply:

Belgium	394 253
Denmark	112 932
Germany	639 535
Greece	138 005
Spain ⁽¹⁾	1 441 539
France ⁽²⁾	3 779 866
Ireland	1 102 620
Italy	621 611
Luxembourg	18 537
Netherlands	63 236
Austria	375 000
Portugal ⁽³⁾ ⁽⁴⁾	416 539
Finland	55 000
Sweden	155 000
United Kingdom	1 699 511

⁽¹⁾ Without prejudice to the specific rules laid down in Regulation (EC) No 1454/2001.

⁽²⁾ Without prejudice to the specific rules laid down in Regulation (EC) No 1452/2001.

⁽³⁾ Without prejudice to the specific rules laid down in Regulation (EC) No 1453/2001.

⁽⁴⁾ To be increased at the expiry of Regulation (EC) No 1017/94 by the premiums resulting from the application of that Regulation in 2003 and 2004.

Article 127

Transfer of suckler cow premium rights

1. When a farmer sells or otherwise transfers his holding, he may transfer all his suckler cow premium rights to the person who takes over his holding. He may also transfer, in whole or in part, his rights to other farmers without transferring his holding.

In the case of transfer of premium rights without transfer of the holding a part of the transferred rights, which shall not exceed 15 %, shall be returned without compensatory payment to the national reserve of the Member State where the holding is situated for redistribution free of charge.

2. The Member States:

(a) shall take the necessary measures to prevent premium rights being transferred outside sensitive areas or regions

where beef and veal production is particularly important for the local economy;

(b) may provide either that the transfer of rights without transfer of the holding is carried out directly between farmers or that it is carried out through the intermediary of the national reserve.

3. Member States may authorise, before a date to be determined, temporary transfers of part of the premium rights which are not intended to be used by the farmer who holds them.

Article 128

National reserve of suckler cow premium rights

1. Each Member State shall maintain a national reserve of suckler cow premium rights.

2. Any premium rights withdrawn pursuant to Article 127(1) or other Community provisions shall be added to the national reserve, without prejudice to Article 126(4).

3. The Member States shall use their national reserves for allocating, within the limits of those reserves, premium rights in particular to newcomers, young farmers and other priority farmers.

Article 129

Heifers

1. By way of derogation from Article 125(3), Member States where more than 60 % of suckler cows and heifers are kept in mountain areas within the meaning of Article 18 of Council Regulation (EC) No 1257/1999 may decide to manage the granting of the suckler cow premium for heifers separately from that for suckler cows within the limits of a separate national ceiling to be set up by the Member State concerned.

Such separate national ceiling shall not exceed 40 % of the national ceiling of the Member State concerned set out in Article 126(5). That national ceiling shall be reduced by an amount equal to the separate national ceiling. When in a Member State exercising the power provided for in this paragraph, the total number of heifers, for which an application has been made, and which satisfy the conditions for granting the suckler cow premium, exceeds the separate national ceiling, the number of eligible heifers per farmer for the year in question shall be reduced proportionately.

2. For the purpose of this Article, only heifers belonging to a meat breed or born of a cross with a meat breed shall be taken into account.

Article 130

Slaughter premium

1. A farmer keeping bovine animals on his holding may qualify, on application, for a slaughter premium. It shall be granted on slaughter of eligible animals or their export to a third country and within national ceilings to be determined.

The following shall be eligible for the slaughter premium:

- (a) bulls, steers, cows and heifers from the age of eight months,
- (b) calves of more than one and less than eight months old and of carcass weight up to 185 kg,

provided they have been held by the farmer for a period to be determined.

2. The amount of the premium shall be set at:

- (a) EUR 80 per eligible animal as specified under paragraph 1(a);
- (b) EUR 50 per eligible animal as specified under paragraph 1(b).

3. The national ceilings referred to in paragraph 1 shall be established per Member State and separately for both groups of animals as specified in (a) and (b) thereof. Each ceiling shall be equal to the number of animals of each of these two groups which in 1995 were slaughtered in the Member State concerned to which are added those animals exported to third countries, according to Eurostat data or any other published official statistical information for that year accepted by the Commission.

4. When in a given Member State the total number of animals, for which an application has been made in respect of one of the two groups of animals specified in (a) or (b) of paragraph 1, and which satisfy the conditions for granting the slaughter premium exceeds the national ceiling laid down for that group, the number of all eligible animals under that group per farmer for the year in question shall be reduced proportionately.

Article 131

Stocking density

1. In case of application of Article 71, the total number of animals qualifying for the special premium and the suckler-cow premium shall be limited by the application of a stocking density on the holding of two livestock units (LU) per hectare and calendar year. The stocking density shall be 1,8 LU

from 1 January 2003. This stocking density shall be expressed in LU per unit of forage area of the holding used for the animals carried on it. However, a farmer shall be exempt from the application of the stocking density if the number of animals held on his holding and to be taken into account for determining the stocking density is not more than 15 LU.

2. For determining the stocking density on the holding, account shall be taken of:

- (a) the male bovine animals, suckler cows and heifers, sheep and/or goats for which premium applications have been submitted, as well as the dairy cows needed to produce the total reference quantity of milk allocated to the farmer. The number of animals shall be converted to LU by reference to the following conversion table:

Male bovine animals and heifers older than 24 months, suckler cows, dairy cows	1,0 LU
Male bovine animals and heifers from six months to 24 months	0,6 LU
Sheep	0,15 LU
Goats	0,15 LU

- (b) the forage area, meaning the area of the holding available throughout the calendar year for rearing bovine animals and sheep and/or goats. The forage area shall not include:

- buildings, woods, ponds, paths,
- areas used for other crops eligible for Community aid or for permanent crops or horticultural crops, except permanent pasture for which area payments are granted pursuant to Article 136 or, as the case may be, Article 96,
- areas qualifying for the support system laid down for the farmers producing certain arable crops, used for the aid scheme for dried fodder or subject to a national or Community set-aside scheme.

Forage area shall include areas in shared use and areas which are subject to mixed cultivation.

Article 132

Extensification payment

1. In case of application of Article 71, farmers receiving the special premium and/or the suckler cow premium may qualify for an extensification payment.

2. The extensification payment shall be EUR 100 per special premium and suckler cow premium granted, provided that in respect of the calendar year concerned the stocking density on the holding concerned is less than or equal to 1,4 LU per hectare.

However, Member States may decide to grant the extensification payment at an amount of EUR 40 for a stocking density of 1,4 LU per hectare or more and less or equal to 1,8 LU per hectare, and at an amount of EUR 80 for a stocking density of less than 1,4 LU per hectare.

3. For the purposes of the application of paragraph 2:

- (a) by way of derogation from Article 131(2)(a), the stocking density of the holdings shall be determined by taking into account the male bovine animals, cows, and heifers present thereon during the calendar year concerned, as well as the sheep and/or goats for which premium applications have been submitted for the same calendar year. The number of animals shall be converted to LU by reference to the conversion table referred to in Article 131(2)(a);
- (b) without prejudice to the third indent of Article 131(2)(b), areas used for the production of arable crops as defined in Annex IX shall not be taken as 'forage area';
- (c) the forage area to be taken into account for the calculation of the stocking density shall consist of at least 50 % of pasture land.

'Pasture land' shall be defined by Member States. The definition shall include at least the criterion that pasture land shall be grassland which, following the local farming practices is recognised as being destined for grazing bovine animals and/or sheep. However, this shall not exclude the mixed use of pasture land during the same year (pasture, hay, grass silage).

4. Without prejudice to the stocking density requirements set out in paragraph 2 of this Article, farmers in Member States where more than 50 % of milk production takes place in mountain areas within the meaning of Article 18 of Regulation (EC) No 1257/1999 and whose holdings are located in such areas, may receive extensification payments as set out in that paragraph for the dairy cows kept thereon.

5. In accordance with the procedure referred to in Article 144(2), the Commission shall if necessary, adjust the amounts set out in paragraph 2 of this Article, taking account, in particular, of the number of animals qualifying for the payment for the preceding calendar year.

Article 133

Additional payments

1. In case of application of Article 71, Member States shall, on a yearly basis, make additional payments to farmers in their territory totalling the global amounts set out in paragraph 3 of

this Article. Such payments shall be made according to objective criteria including, in particular, the relevant production structures and conditions, and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortions. Moreover, such payments shall not be linked to fluctuations of market prices.

2. Additional payments may be made in the form of headage payments and/or area payments.

3. The following global amounts apply:

Belgium	39,4
Denmark	11,8
Germany	88,4
Greece	3,8
Spain	33,1
France	93,4
Ireland	31,4
Italy	65,6
Luxembourg	3,4
Netherlands	25,3
Austria	12,0
Portugal	6,2
Finland	6,2
Sweden	9,2
United Kingdom	63,8

Article 134

Headage payments

1. Headage payments may be granted for:

- (a) male bovine animals,
- (b) suckler cows,
- (c) dairy cows,
- (d) heifers.

2. Headage payments may be granted as supplementary amounts per slaughter premium unit as set out in Article 130, except for calves. In the other cases, the grant of headage payments shall be subject:

- (a) to the special conditions set out in Article 135,

(b) to specific stocking density requirements to be established by Member States.

3. The specific stocking density requirements shall be established:

— on the basis of the forage area referred to in Article 131(2)(b), with the exception of areas for which area payments are granted in accordance with Article 136,

— taking account of, in particular, the environmental impact of the type of production concerned, the environmental sensitivity of the land used for rearing cattle and the measures which have been implemented with a view to stabilise or improve the environmental situation of this land.

Article 135

Conditions for the headage payment

1. Headage payments for male bovine animals may be granted per calendar year for no more than a number of animals in a Member State:

— equal to the regional ceiling of the Member State concerned set out in Article 123(8), or

— equal to the number of male bovine animals for which premiums were granted in 1997, or

— equal to the average number of slaughterings of male bovine animals during the years 1997, 1998 and 1999 deriving from Eurostat statistics for these years or any other published official statistical information for these years accepted by the Commission.

Member States may also provide for a headage limit of number of male bovine animals per holding to be determined by the Member State on a national or regional basis.

Only male bovine animals from the age of eight months shall be eligible. If headage payments are made at the time of slaughter, Member States may decide to replace this condition by a minimum carcase weight of at least 180 kilograms.

2. Headage payments for suckler cows and heifers qualifying for suckler cow premium under Article 125(4) and Article 129 may only be granted as a supplementary amount per suckler cow premium unit as set out in Article 125(4).

3. Headage payments for dairy cows may only be granted as amount per tonne of reference quantity eligible for premium available on the holding to be established in accordance with Article 95(2).

Article 134(2)(b) shall not apply.

ANNEX VII

Calculation of the reference amount referred to in Article 37**A. Area aids**

1. Where a farmer has received area aids, the number of hectares, to two decimal places, for which a payment has been granted, respectively, in each year of the reference period, shall be multiplied by the following amounts:

1.1. For cereals, including durum wheat, oilseeds, protein crops, linseed, flax and hemp grown for fibre, grass silage and set-aside:

- EUR 63/t multiplied by the yield as provided for in Article 4(2) of Regulation (EC) No 1251/1999 determined in the regionalisation plan for the region concerned applicable in the calendar year 2002.

This point shall apply without prejudice to the provisions laid down by Member States in application of Article 6(6) of Regulation (EC) No 1251/1999.

By way of derogation from Article 38, for flax and hemp, the average shall be calculated on the basis of the number hectares for which a payment was granted in the calendar year 2001 and 2002.

1.2. For rice:

- EUR 102/t multiplied by the following average yields:

Member States	Yields (t/ha)
Spain	6,35
France	
— Metropolitan territory	5,49
— French Guyana	7,51
Greece	7,48
Italy	6,04
Portugal	6,05

1.3. For grain legumes:

- for lentils and chick peas, EUR 181/ha
- for vetches, respectively, EUR 175,02/ha in 2000, EUR 176,60/ha in 2001 and EUR 150,52/ha in 2002.

2. Where a farmer has received durum wheat supplement or special aid, the number of hectares, to two decimal places, for which such a payment has been granted, respectively, in each year of the reference period, shall be multiplied by the following amounts:

In the zones listed in Annex II of Regulation (EC) No 1251/1999 and in Annex IV of Regulation (EC) No 2316/1999:

- EUR 291/ha for the single payment to be granted for the calendar year 2005,
- EUR 285/ha for the single payment to be granted for the calendar year 2006 and subsequent calendar years.

In the zones listed in Annex V of Regulation (EC) No 2316/1999:

- EUR 46/ha for the single payment to be granted for the calendar year 2005.

3. For the purpose of the preceding points, 'number of hectares' shall mean the determined number of hectares corresponding to each different type of area aid listed in Annex VI of this Regulation, for which all the conditions laid down in the rules for the granting of the aid have been met, taking into account the application of Articles 2(4) and 5 of Regulation (EC) No 1251/1999. In case of rice, by way of derogation to Article 6(5) of Council Regulation (EC) No 3072/95, where the areas given over to rice in one Member State in the reference period exceeded its Maximum Guaranteed Area for this period, the amount per hectare shall be reduced proportionally.

B. Potato starch payment

Where a farmer has received potato starch payment, the amount shall be calculated by multiplying the number of tonnes for which such a payment has been granted, respectively, in each year of the reference period, by EUR 44,22 per tonne of potato starch. Member states shall calculate the number of hectares to be included in calculation of the single payment proportionately to the number of tonnes of potato starch produced for which the aid provided for in Article 8(2) of Regulation (EEC) No 1766/92 has been granted, respectively, in each year of the reference period, and within the limits of a base area to be fixed by the Commission on the basis of the number of hectares, covered by a cultivation contract in the reference period, communicated by Member States.

C. Livestock premiums and supplements

Where a farmer has received livestock premiums and/or supplements, the amount shall be calculated by multiplying the number of determined animals for which such a payment has been granted, respectively, in each year of the reference period, by the amounts per head established for the calendar year 2002 by the corresponding Articles referred to in Annex VI, taking into account the application of Article 4(4), Article 7(2) and Article 10(1) of Regulation (EC) No 1254/1999 or Article 8(3) of Regulation (EC) No 2529/2001.

By way of derogation from Article 38, for sheep and goat additional payments granted on the basis of Article 11(2) first, second and fourth indent of Regulation (EC) No 2529/2001, the average shall be calculated on the basis of the number of animals for which the payment has been granted in the calendar year 2002.

However, the payments under Article 4(2) second subparagraph of Regulation (EC) No 1254/1999, shall not be taken into account.

Moreover, by way of derogation from Article 38, in case of application of Article 32(11) and (12) of Commission Regulation (EC) No 2342/1999 and Article 4 of Commission Regulation (EC) No 1458/2001, the number of animals, for which a payment was granted in the year during which such measures were applied, to be taken into account for the calculation of the reference amount, shall not be higher than the average of the number of animals for which a payment was granted in the year/years during which such measures were not applied.

D. Dried fodder

When a farmer has delivered fodder under a contract as provided for in Article 9(c) of Regulation (EC) No 603/95 or a declaration of areas as under Article 10 of the same Regulation, Member States shall calculate the amount to be included in the reference amount proportionately to the number of tonnes of dried fodder produced for which the aid provided for in Article 3 of that Regulation has been granted, respectively, in each year of the reference period, and within the limits of the following ceilings expressed in EUR millions:

Member State	Ceiling for fodder processed into the products referred to in Article 3(2) of Regulation (EC) No 603/95 (dehydrated fodder)	Ceiling for fodder processed into the products referred to in Article 3(3) of Regulation (EC) No 603/95 (sun-dried fodder)	Total ceiling

Member States shall calculate the number of hectares to be included in calculation of the reference amounts proportionately to the number of tonnes of dried fodder produced for which the aid provided for in Article 3 of Regulation (EC) No 603/95 has been granted, respectively, in each year of the reference period, and within the limits of a base area to be fixed by the Commission on the basis of the number of hectares, covered by a cultivation contract or a declaration of areas in the reference period, communicated by Member States.

E. Regional aids

In the regions concerned, the following amounts shall be included in the calculation of the reference amount:

- EUR 24/t multiplied by the yields utilised for the area payments for cereals, oilseeds, linseed and flax and hemp grown for fibre in the regions indicated in Article 4(4) of Regulation (EC) No 1251/1999;

F. Seed aids

Where a farmer has received seed production aid, the amount shall be calculated by multiplying the number of tonnes for which such a payment has been granted, respectively, in each year of the reference period, by the amount per tonne established in application of Article 3 of Regulation (EEC) No 2358/71. Member States shall calculate the number of hectares to be included in calculation of the single payment proportionately to area accepted for certification for which the aid provided for in Article 3 of Regulation (EEC) No 2358/71 has been granted, respectively, in each year of the reference period, and within the limits of a base area to be fixed by the Commission on the basis of the total area accepted for certification as communicated to the Commission according to Regulation (EEC) No 3083/73. This total area shall not include the area accepted for certification for rice (*Oryza sativa* L.), spelt (*Triticum spelta* L.), and fibre and oil flax (*Linum usitatissimum* L.) and hemp (*Cannabis sativa* L.) that already has been declared for arable crops.

(¹) Grain measurements are taken on wholly milled rice by the following method:

- (i) take a sample representative of the batch;
- (ii) sieve the sample so as to retain only whole grains, including immature grains;
- (iii) carry out two measurements of 100 grains each and work out the average;
- (iv) express the results in millimetres, rounded off to one decimal place.

(²) The tetrahydrocannabinol (THC) content of a variety is determined by analysing a sample maintained at constant weight. The weight of THC in relation to the weight of the sample must – for the purposes of granting the aid – not be greater than 0,2%. The sample is to consist of the upper third of a representative number of plants selected at random at the end of their flowering period and with stalks and seeds removed.
