

**COMMISSION REGULATION (EC) No 1805/2006****of 7 December 2006****amending Annex I to Council Regulation (EEC) No 2377/90 laying down a Community procedure for the establishment of maximum residue limits of veterinary medicinal products in foodstuffs of animal origin, as regards thiamphenicol, fenvalerate and meloxicam****(Text with EEA relevance)**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 2377/90 of 26 June 1990 laying down a Community procedure for the establishment of maximum residue limits of veterinary medicinal products in foodstuffs of animal origin<sup>(1)</sup>, and in particular Article 2 thereof,

Having regard to the opinions of the European Medicines Agency formulated by the Committee for Medicinal Products for Veterinary Use,

Whereas:

- (1) All pharmacologically active substances used in the Community in veterinary medicinal products intended for food-producing animals should be evaluated in accordance with Regulation (EEC) No 2377/90.
- (2) The substance thiamphenicol is included in Annex I to Regulation (EEC) No 2377/90 for bovine species for muscle, fat, liver, kidney and milk as well as for chicken for muscle, skin and fat, liver and kidney, excluding animals which produce eggs for human consumption. Thiamphenicol is also included in Annex III to that Regulation for porcine species for muscle, skin and fat, liver and kidney. Following examination of the information provided by the applicant for the establishment of final maximum residues limits for thiamphenicol in porcine species, it is considered appropriate to modify the entry of thiamphenicol in Annex I to Regulation (EEC) No 2377/90 to all food-producing species for muscle, fat, liver, kidney and milk, excluding animals which produce eggs for human consumption. The maximum residue limits for fat, liver and kidney should not apply to fin fish.
- (3) The substance fenvalerate is included in Annex III to Regulation (EEC) No 2377/90 for bovine for muscle, fat, liver, kidney and milk. Those provisional maximum residue limits expire on 1 July 2006. Following exami-

nation of the information provided by the applicant for the establishment of final maximum residues for fenvalerate limits for bovine species, it is considered appropriate to include fenvalerate in Annex I to Regulation (EEC) No 2377/90 for bovine species for muscle, fat, liver, kidney and milk.

- (4) The substance meloxicam is included in Annex I to Regulation (EEC) No 2377/90 for bovine, porcine and equidae species for muscle, liver and kidney as well as for bovine species for milk. Following examination of an application for the establishment of maximum residues limits for meloxicam in rabbits and caprine species for milk, it is considered appropriate to modify the entry of meloxicam in that Annex for rabbits and caprine species for muscle, liver and kidney as well as to caprine species for milk.
- (5) Regulation (EEC) No 2377/90 should therefore be amended accordingly.
- (6) An adequate period should be allowed before the applicability of this Regulation in order to enable Member States to make any adjustment which may be necessary in the light of this Regulation to the authorisations to place the veterinary medicinal products concerned on the market which have been granted in accordance with Directive 2001/82/EC of the European Parliament and of the Council of 6 November 2001 on the Community code relating to veterinary medicinal products<sup>(2)</sup> to take account of the provisions of this Regulation.
- (7) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Veterinary Medicinal Products,

HAS ADOPTED THIS REGULATION:

*Article 1*

Annex I to Regulation (EEC) No 2377/90 is amended in accordance with the Annex to this Regulation.

<sup>(1)</sup> OJ L 224, 18.8.1990, p. 1. Regulation as last amended by Commission Regulation (EC) No 1729/2006 (OJ L 325, 24.11.2006, p. 6).

<sup>(2)</sup> OJ L 311, 28.11.2001, p. 1. Directive as amended by Directive 2004/28/EC (OJ L 136, 30.4.2004, p. 58).

*Article 2*

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Union*.

It shall apply from 8 February 2007.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 7 December 2006.

*For the Commission*  
Günter VERHEUGEN  
*Vice-President*

## ANNEX

The following substance is inserted in Annex I to Regulation (EEC) No 2377/90 (List of pharmacologically active substances for which maximum residue limits have been fixed):

1. Anti-infectious agents
- 1.2. Antibiotics
- 1.2.5. Florfenicol and related compounds

Pharmacologically active Substance(s)	Marker residue	Animal species	MRLs	Target tissues
<b>Thiamphenicol</b>	Thiamphenicol	All food producing species <sup>(1)</sup>	50 µg/kg 50 µg/kg 50 µg/kg 50 µg/kg 50 µg/kg	Muscle <sup>(2)</sup> Fat <sup>(2)</sup> Liver Kidney Milk

<sup>(1)</sup> Not for use in animals from which eggs are produced for human consumption, MRLs for fat, liver and kidney do not apply to fin fish.  
<sup>(2)</sup> For fin fish muscle relates to "muscle and skin in natural proportions".  
<sup>(3)</sup> For porcine and poultry species this MRL relates to "skin and fat in natural proportions".

2. Anti-parasitic agents
- 2.2. Agents acting against ectoparasites
- 2.2.3. Pyrethroids

Pharmacologically active Substance(s)	Marker residue	Animal species	MRLs	Target tissues
<b>Fenvalerate</b>	Fenvalerate (sum of RR, SS, RS and SR isomers)	Bovine	25 µg/kg 250 µg/kg 25 µg/kg 25 µg/kg 40 µg/kg	Muscle Fat Liver Kidney Milk <sup>3</sup>

4. Anti-inflammatory agents
- 4.1. Non-steroidal anti-inflammatory agents
- 4.1.4. Oxicam derivatives

Pharmacologically active Substance(s)	Marker residue	Animal species	MRLs	Target tissues
<b>Meloxicam</b>	Meloxicam	Porcine, equidae, rabbit  Bovine, caprine	20 µg/kg 65 µg/kg 65 µg/kg 20 µg/kg 65 µg/kg 65 µg/kg 15 µg/kg	Muscle Liver Kidney Muscle Liver Kidney Milk <sup>3</sup>
