

COMMISSION DECISION**of 25 August 2008****on equivalences between categories of driving licences***(notified under document number C(2008) 3790)***(Text with EEA relevance)***(2008/766/EC)*

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

HAS ADOPTED THIS DECISION:

Having regard to the Treaty establishing the European Community,

Article 1

Having regard to Council Directive 91/439/EEC of 29 July 1991 on driving licences ⁽¹⁾, and in particular Article 10 thereof,

This Decision shall apply to all valid driving licences issued by the Member States which are in circulation.

Whereas:

Article 2

(1) Directive 91/439/EEC provides that all driving licences issued by Member States, should be mutually recognised, including those issued before the date of application of the principle of mutual recognition.

Tables of equivalences between categories of driving licences, which have been issued in Member States prior to the full implementation of Directive 91/439/EEC and the harmonised categories of driving licences as defined in Article 3 of Directive 91/439/EEC are set out in Annex I to this Decision.

(2) The principle of mutual recognition of driving licences entails full recognition of all entitlements which have been granted to a licence holder in accordance with national provisions in force at the time.

Article 3

(3) Directive 91/439/EEC provides that the Member States should establish equivalences between the categories of driving licences issued before the implementation of that Directive and those based on the Community model. Those equivalences should have the agreement of the Commission in a legally binding form.

1. Categories of driving licences which have been issued prior to the implementation of Directive 91/439/EEC entitle the holder to drive vehicles of the corresponding categories as described in Annex I to this Decision without exchange of the driving licence. Certain restrictions may apply and are stated for the relevant entitlement in Annex I to this Decision.

(4) The tables of equivalences between the categories of driving licences established by Commission Decision 2000/275/EC of 21 March 2000 on equivalences between certain categories of driving licences ⁽²⁾ should be updated, in particular taking into account the recent enlargements of the Community.

2. On exchange of a driving licence to a Community model driving licence as described in Annexes I and I(a) to Directive 91/439/EEC the equivalent entitlements shall be granted as described in Annex I to this Decision.

(5) Decision 2000/275/EC should therefore be repealed,

3. Codes which indicate the restriction of corresponding entitlements are harmonised Community codes as defined by Article 7 of Directive 91/439/EEC.

⁽¹⁾ OJ L 237, 24.8.1991, p. 1.

⁽²⁾ OJ L 91, 12.4.2000, p. 1.

4. The Community principle of mutual recognition as stated in Article 1(2) of Directive 91/439/EEC does not apply to national categories of driving licences.

Article 4

Decision 2000/275/EC is repealed with effect from the date of entry into force of this Decision.

References to the repealed Decision shall be construed as references to this Decision and shall be read in accordance with the correlation table in Annex II.

Article 5

This Decision is addressed to the Member States.

Done at Brussels, 25 August 2008.

For the Commission

Antonio TAJANI

Vice-President

Model Denmark 4 (DK4)

Issued in Denmark since 14.4.1997

Description: Plastic card model according to Annex Ia of Directive 91/439/EEC.

The following harmonised categories have been introduced:

A, B, BE, C, CE, D and DE.

Additional information:

The date of first issue of driving licences categories that were issued before 1.5.1986 cannot be traced back. In such cases, the symbol '<' or '≤' may appear in column 10 on the licence, accompanied by a certain year, indicating that the category was issued before or in that year.

MODELS ISSUED IN GERMANY

General remark: For all German models issued before 1.1.1999, further entitlements of a very specific and limited kind, which are not displayed in the tables, may emerge. In the rare circumstance that such a case does occur, German issuing authorities will have to be contacted in case of doubt about the scope of a particular entitlement.

Model Germany 1 (D1)

Issued in the Federal Republic of Germany until 1.4.1986 (in particular cases the date of issue may be after 1.4.1986)

Description: Grey, four pages. A variety of differences as regards colour and form of the model may occur in practice, since this model has been issued for over 40 years. Models issued in the *Land* of Saarland may have a different size and are bilingual (German and French).

Table of equivalences

Categories of model D1	Corresponding categories
1	A (see: 1)
1 beschränkt auf Leichtkrafträder: 1.4.1980-31.3.1986	A1
2	B, BE, C, CE (see: 2, 3, 5)
3	B, BE, C1, C1E (see: 3, 4, 5)
4	— (see: 6)
(5)	—

Additional information:

1. If a 'Klasse 1' licence was obtained before 1.12.1954 (before 1.10.1960 in the *Land* of Saarland), the holder is entitled to drive category B 79 ($\leq 700 \text{ cm}^3$) in addition, without having to exchange the licence. In case of exchange of such a licence, the holder is granted a full category B licence.
2. If the holder of a 'Klasse 2' entitlement had his 50th birthday before or on 31.12.1999, his entitlement ceased to be valid on 31.12.2000. In case this licence holder exchanged his licence for a new model before or on 31.12.2000, the period of validity and the periodicity of medical examination for the new model applies. If a holder turns 50 after 31.12.1999, he has to exchange his licence for a new model on his 50th birthday and thereafter a period of validity of five years applies.

Where such a licence holder establishes his normal residence in another Member State without being in compliance with the above rules, his 'Klasse 2' entitlement should not be recognised (unless he has changed his normal residence before the above rules apply to him).

3. If a 'Klasse 2' or a 'Klasse 3' licence was obtained before 1.12.1954 (before 1.10.1960 in the *Land* of Saarland), the holder is entitled to drive categories A1 and A 79 ($\leq 250 \text{ cm}^3$) in addition. In both cases, the holder is granted an unrestricted category A entitlement in case he exchanges the licence.

If a 'Klasse 2' or a 'Klasse 3' licence was obtained after the above dates but before 1.4.1980, it entitles the holder to drive category A1 in addition.

4. The holder of a 'Klasse 3' licence is also entitled to drive the following vehicle: CE 79 (> 12 t, but not more than three axles in total).

This entitlement has to figure on a new licence which is issued to him in exchange, only at the explicit demand of the holder.

5. The holder of a vehicle of 'Klasse 3' is entitled to drive buses without passengers with a maximum weight of less than 7,5 t, also in international traffic. The holder of a vehicle of 'Klasse 2' is entitled to drive buses without passengers in international traffic. After exchange of the models in Germany, the right to drive a bus without passengers is limited to German territory with application of a national code.

6. Where a 'Klasse 4' entitlement was granted before 1.12.1954 (before 1.10.1960 in the *Land* of Saarland) it is not a national category only but entitles the holder to drive the following categories:

A1, A 79 ($\leq 250 \text{ cm}^3$) and B 79 ($\leq 700 \text{ cm}^3$). In both cases the holder is granted an unrestricted category A and B entitlement when he exchanges the licence.

In case a 'Klasse 4' licence was issued after the above dates, but before 1.4.1980, it entitles the holder to drive category A1.

Model Germany 2 (D2)

Issued in the German Democratic Republic until 1969

Description: Grey model with four pages.

Table of equivalences

<i>D2a: Model issued until 31.3.1957.</i>	
Categories of model D2a	Corresponding categories
1	A, B (see: 5)
2	A1, A, B, BE, C, CE (see: 1, 3, 4)
3	A1, A, B, BE, C1, C1E (see: 2, 3, 4)
4	A1, A, B (see: 4, 5)

<i>D2b: Model issued from 1.4.1957 to 1969.</i>	
Categories of model D2b	Corresponding categories
1	A
2	A1, B (see: 4, 5)
3	A1
4	A1, B, BE, C1, C1E (see: 2, 3, 4)
5	A1, B, BE, C, CE (see: 1, 3, 4)

Additional information:

A statutory amendment, which took effect on 1.4.1957, changed the scope and the definitions of categories. Hence two tables of equivalences are required for this model.

1. If the holder of a 'Klasse 2' entitlement issued before 1.4.1957 or of a 'Klasse 5' entitlement issued after 31.3.1957 had his 50th birthday before or on 31.12.1999, his entitlement ceased to be valid on 31.12.2000. In case this licence holder exchanged his licence for a new model before or on 31.12.2000, the period of validity and the periodicity of medical examination for the new model applies. If a holder turns 50 after 31.12.1999, he has to exchange his licence for a new model on his 50th birthday and thereafter a period of validity of five years applies.

Where such a licence holder establishes his normal residence in another Member State without being in compliance with the above rules, his 'Klasse 2' entitlement should not be recognised (unless he has changed his normal residence before the above rules apply to him).

2. The holder of a 'Klasse 3' licence issued before 1.4.1957 and of a 'Klasse 4' licence issued after 31.3.1957 is also entitled to drive the following vehicle: CE 79 (> 12 t, but not more than three axles in total).

This entitlement has to figure on a new licence which is issued to him in exchange, only at the explicit demand of the holder.

3. The holder of a vehicle of 'Klasse 3' issued before 1.4.1957 (D2a) or 'Klasse 4' issued after 31.3.1957 (D2b), is entitled to drive buses without passengers with a maximum weight of less than 7,5 t, also in international traffic.

The holder of a vehicle of 'Klasse 2' issued before 1.4.1957 (D2a) or 'Klasse 5' issued after 31.3.1957 (D2b), is entitled to drive buses without passengers in international traffic.

After exchange of the models in Germany, the right to drive a bus without passengers is limited to German territory with application of a national code.

4. A holder of a 'Klasse 2', 'Klasse 3' or 'Klasse 4' licence of model D2a or of a 'Klasse 2', 'Klasse 4' or 'Klasse 5' licence of model D2b, which has been issued before 1.12.1954, is entitled to drive unrestricted category A only after exchange of the licence. Without exchanging the licence, the model entitles the holder to drive A 79 ($\leq 250 \text{ cm}^3$) only.
5. Without exchange of the document, the following applies:

Where a 'Klasse 1' or 'Klasse 4' licence was issued before 1.12.1954, the holder is entitled to drive B 79 ($\leq 700 \text{ cm}^3$) only. In case a 'Klasse 1' or 'Klasse 4' was issued after that date and before 1.4.1957, or a 'Klasse 2' licence was issued after 31.3.1957, the holder is entitled to drive B 79 ($\leq 250 \text{ cm}^3$) only.

In the case of exchange of the document for a new licence, the holder is granted a full B.

Model Germany 3 (D3)

Issued in the German Democratic Republic from 1969 to 31.5.1982

Description: Licence book with 12 pages, grey cover.

5	B, BE, C, CE (see: 1, 3, 4, 6)
§ 6 StVZO, § 85 StVZO	— (see: 6)

Additional information:

1. If the holder of a 'Klasse 5' entitlement had his 50th birthday before or on 31.12.1999, his entitlement ceased to be valid on 31.12.2000. In case this licence holder exchanged his licence for a new model before or on 31.12.2000 the period of validity and the periodicity of medical examination for the new model applies. If a holder turns 50 after 31.12.1999, he has to exchange his licence for new model on his 50th birthday and thereafter a period of validity of five years applies.

Where such a licence holder establishes his normal residence in another Member State without being in compliance with the above rules, his 'Klasse 2' entitlement should not be recognised (unless he has changed his normal residence before the above rules apply to him).

2. The holder of a 'Klasse 4' licence is also entitled to drive the following vehicle: CE 79 (> 12 t, but not more than three axles in total).

This entitlement has to figure on a new licence, which is issued to him in exchange only at the explicit demand of the holder.

3. The holder of a vehicle of 'Klasse 4' is entitled to drive empty buses with a maximum weight of up to 7,5 t, also in international traffic. The holder of a vehicle of 'Klasse 5', is entitled to drive empty buses in international traffic. After exchange of the models in Germany, the right to drive an empty bus is limited to German territory with application of a national code.

4. A holder of a 'Klasse 2', '4' or '5' licence which has originally been issued before 1.12.1954, is entitled to drive unrestricted category A only after exchange of the licence. Without exchanging the licence, the model entitles the holder to drive A 79 ($\leq 250 \text{ cm}^3$) only.
5. Without exchange of the document, the following applies:

Where a 'Klasse 1' licence was issued before 1.12.1954, the holder is entitled to drive B 79 ($\leq 700 \text{ cm}^3$). Where a 'Klasse 1' was issued after that date and before 1.4.1957, or a 'Klasse 2' licence was issued after 1.4.1957, the holder is only entitled to drive B 79 ($\leq 250 \text{ cm}^3$).

Where the document is exchanged for a new licence, the holder is granted a full B.

6. Where a holder of 'Klasse 2', '3', '4' or '5', or according to § 6 StVZO or § 85 StVZO, has obtained his licence before 1.4.1980, he is entitled to drive category A1 in addition. In this case 'Klasse 3' is not only a national category.

Model Germany 4 (D4)

Issued in the German Democratic Republic from 1.6.1982 to 2.10.1990

Description: Bright pink paper model, four pages.

Table of equivalences

DE	B, BE, C1, C1E, D, DE (see: 1)

Additional information:

1. If the holder of a 'Klasse C', 'CE', 'D' and 'DE' entitlement had his 50th birthday before or on 31.12.1999, his entitlement ceased to be valid on 31.12.2000. In case this licence holder exchanged his licence for a new model before or on 31.12.2000 the period of validity and the periodicity of medical examination for the new model applies. If a holder turns 50 after 31.12.1999, he has to exchange his licence for new model on his 50th birthday and thereafter a period of validity of five years applies.

Where such a licence holder establishes his normal residence in another Member State without being in compliance with the above rules, his 'Klasse C' entitlement should not be recognised (unless he has changed his normal residence before the above rules apply to him).

2. The holder of a 'Klasse B' and 'BE' licence is also entitled to drive the following vehicle: CE 79 (> 12 t, but not more than three axles in total).

This entitlement has to figure on a new licence, which is issued to him in exchange only at the explicit demand of the holder.

3. The holder of a vehicle of 'Klasse B' is entitled to drive buses without passengers with a maximum weight of up to 7,5 t, also in international traffic.

The holder of a vehicle of 'Klasse C' is entitled to drive buses without passengers in international traffic. After exchange of the models in Germany, the right to drive a bus is limited to German territory with application of a national code.

Model Germany 5 (D5)

Issued in the Federal Republic of Germany from 1.4.1986 to 31.12.1998

Description: Pink paper model with six pages.

Additional information:

1. Where the holder of a 'Klasse 2' entitlement had his 50th birthday before or on 31.12.1999, his entitlement ceased to be valid on 31.12.2000. In case this licence holder exchanged his licence for a new model before or on 31.12.2000 the period of validity and the periodicity of medical examination for the new model applies. If a holder turns 50 after 31.12.1999, he has to exchange his licence for new model on his 50th birthday and thereafter a period of validity of five years applies.

Where such a licence holder establishes his normal residence in another Member State without being in compliance with the above rules, his 'Klasse 2' entitlement should not be recognised (unless he has changed his normal residence before the above rules apply to him).

2. Where a 'Klasse 1' licence of model D1 was obtained before 1.12.1954 (before 1.10.1960 in the *Land* of Saarland), the holder is entitled to drive category B 79 ($\leq 700 \text{ cm}^3$) in addition, without having to exchange the licence. At the exchange of such a licence, the holder is granted a full category B licence.

The above applies to model D5 only if a D1 was issued to the same holder before the relevant dates and exchanged to a D5 model thereafter.

3. In case a 'Klasse 2' or a 'Klasse 3' licence of model D1 was obtained before 1.12.1954 (before 1.10.1960 in the *Land* of Saarland), the holder is entitled to drive categories A1 and A 79 ($\leq 250 \text{ cm}^3$) in addition. The above applies to model D5 only if a D1 was issued to the same holder before the relevant dates and exchanged to a D5 model thereafter.

4. The holder of a 'Klasse 3' licence is also entitled to drive the following vehicle: CE 79 (> 12 t, but not more than three axles in total).

This entitlement has to figure on a new licence, which is issued to him in exchange only on explicit demand of the holder.

5. The holder of a vehicle of 'Klasse 3' is entitled to drive buses without passengers with a maximum weight of up to 7,5 t, also in international traffic. The holder of a vehicle of 'Klasse 2' is entitled to drive buses without passengers in international traffic without being obliged to hold model D2. After exchange of the models in Germany, the right to drive a bus without passengers is limited to German territory with application of a national code.

6. Where a 'Klasse 4' entitlement of model D1 was granted before 1.12.1954 (before 1.10.1960 in the *Land* of Saarland) it is not a national category only but entitles the holder to drive the following categories: A1, A 79 ($\leq 250 \text{ cm}^3$) and B 79 ($\leq 700 \text{ cm}^3$). In both cases the holder is granted an unrestricted category A and B entitlement when he exchanges the licence. Where a 'Klasse 4' licence was issued after the above dates, but before 1.4.1980, it entitles to drive A1.

The above applies to model D5 only if a D1 was issued to the same holder before the relevant dates and exchanged to a D5 model thereafter.
