A. INTRODUCTION AND FINANCING OF THE GENERAL BUDGET

INTRODUCTION

The general budget of the Union is the instrument which sets out and authorises the total amount of revenue and expenditure deemed necessary for the European Union and the European Atomic Energy Community for each year.

The budget is established and implemented in compliance with the principles of unity, budgetary accuracy, annuality, equilibrium, unit of account, universality, specification, sound financial management and transparency.

- The *principle of unity* and the *principle of budgetary accuracy* mean that all revenue and expenditure of the Union when it is charged to the budget must be incorporated in a single document.
- The *principle of annuality* means that the budget is adopted for one budgetary year at a time and that both commitment and payment appropriations for the current budgetary year must, in principle, be used in the course of the year.
- The *principle of equilibrium* means that forecasts of revenue for the budgetary year must be equal to payment appropriations for that year; borrowing to cover any budget deficit which may arise is not compatible with the own resources system and will not be authorised.
- In accordance with the *principle of unit of account*, the budget is drawn up and implemented in euros and the accounts shall be presented in euros.
- The *principle of universality* means that total revenue is to cover total payment appropriations with the exception of a limited number of revenue items which are assigned to particular items of expenditure. Revenue and expenditure are entered in full in the budget without any adjustment against each other.
- The *principle of specification* means that each appropriation must have a given purpose and be assigned to a specific objective in order to prevent any confusion between appropriations.
- The *principle of sound financial management* is defined by reference to the principles of economy, efficiency and effectiveness.
- The budget is established in compliance with the *principle of transparency*, ensuring sound information on the implementation of the budget and the accounts.

The budget presents appropriations and resources by purpose (activity-based budgeting), with a view to enhancing transparency in the management of the budget with reference to the objectives of sound financial management and in particular efficiency and effectiveness.

The expenditure authorised by the present budget totals EUR 165 605 645 322 in commitment appropriations and EUR 148 198 939 744 in payment appropriations, representing a variation rate of + 3,05 % and of + 2,37 % respectively by comparison with the 2018 budget.

Budgetary revenue totals EUR 148 198 939 744. The uniform rate of call for the VAT resource is 0,30 % (except for Germany, Netherlands and Sweden for which the rate of call for the period 2014-2020 has been fixed at 0,15 %) whilst that for the GNI resource is 0,6512 %. Traditional own resources account for 14,49 % of the financing of the budget for 2019. The VAT resource accounts for 11,97 % and the GNI resource for 72,26 %. Other revenue for this financial year is estimated at EUR 1 894 392 136.

The own resources needed to finance the 2019 budget account for 0,89 % of the total GNI.

The tables below set out step by step the method used to calculate the financing of the 2019 budget.

Correction of budgetary imbalances for the United Kingdom for the year 2018 pursuant to Article 4 of Decision 2014/335/EU, Euratom (Chapter 1 5)

Description	Coefficient ⁽¹⁾ (%)	Amount
1. United Kingdom's share (in %) of notional uncapped VAT base	16,1945

4. Total allocated expenditure		127 599 039 596
5. Enlargement related expenditure ⁽²⁾		27 076 886 462
6. Enlargement-adjusted total allocated expenditure = (4) – (5)		100 522 153 134
7. United Kingdom's correction original amount = (3) × (6) × 0,66		5 862 761 188
8. United Kingdom's advantage ⁽³⁾		854 326 562
9. Core United Kingdom's correction = (7) – (8)		5 008 434 626

11. Correction for the United Kingdom = (9) – (10)		5 023 528 676
⁽¹⁾ Rounded percentages. ⁽²⁾ The amount of enlargement-related expenditure corresponds to total allocated expenditure in 13 Member States (that have acceded to the Union after 30 April 2004), except for agricultural direct payments and market-related expenditure as well as that part of rural development expenditure originating from the EAGGF, Guarantee Section. ⁽³⁾ The 'UK advantage' corresponds to the effects arising for the United Kingdom from the changeover to capped VAT and the introduction of the GNP/GNI-based own resource. ⁽⁴⁾ These windfall gains correspond to the net gains of the United Kingdom resulting from the increase — from 10 to 20 % as of 1 January 2014 — in the percentage of traditional own resources retained by Member States to cover the collection costs of traditional own resources (TOR).

p.m.	- 92 981 713	20 242,49

Remarks

The common organisation of the market in the sugar sector provided that sugar, isoglucose and inulin syrup producers had to pay basic and B production levies. These levies were intended to cover market support expenditure. At present amounts entered under this article are a consequence of the revision of past established levies. Levies for the marketing year 2007/2008 till the marketing year 2016/2017 are entered under Article 1 1 7 of this chapter as a 'production charge'.

Figures are net of collection costs.

Remarks

The GNI-based resource is an 'additional' resource, providing the revenue required to cover expenditure in excess of the amount yielded by traditional own resources, VAT-based payments and other revenue in any particular year. By implication, the GNI-based resource ensures that the general budget of the Union is always balanced *ex ante*.

The GNI call rate is determined by the additional revenue needed to finance the budgeted expenditure not covered by the other resources (VAT-based payments, traditional own resources and other revenue). Thus a call rate is applied to the GNI of each of the Member States.

The rate to be applied to the Member States' gross national income for this financial year is 0,6512 %.

Remarks

The budgetary imbalance correction mechanism in favour of the United Kingdom (UK correction) was introduced by the European Council in Fontainebleau in June 1984 and the resulting own resources decision of 1985. The purpose of the mechanism is to reduce the UK budgetary imbalance through a reduction in its payments to the Union.

Remarks

In accordance with Article 18 of the Financial Regulation, the balance from each financial year, whether surplus or deficit, is entered as revenue or expenditure in the budget of the subsequent financial year.

The relevant estimates of such revenue or expenditure are entered in the budget during the budgetary procedure and, where appropriate, in a letter of amendment submitted pursuant to Article 39 of the Financial Regulation. They are drawn up in accordance with the principles set out in Article 1(1) of Regulation (EU, Euratom) No 608/2014.

After the closure of the accounts for each financial year, any discrepancy in relation to the estimates is entered in the budget for the following financial year through an amending budget that must be presented by the Commission within 15 days following the submission of the provisional accounts.

A deficit is entered in Article 27 02 01 of the statement of expenditure in Section III 'Commission'.

CHAPTER 3 4 — ADJUSTMENT RELATING TO THE NON-PARTICIPATION OF CERTAIN MEMBER STATES IN CERTAIN POLICIES IN THE AREA OF FREEDOM, SECURITY AND JUSTICE

3 4 0 *Adjustment for the impact of the non-participation of certain Member States in certain policies in the area of freedom, security and justice*

Financial year 2019	Financial year 2018	Financial year 2017
p.m.	p.m.	21 089 279,37

Remarks

Article 3 of the Protocol on the position of Denmark and Article 5 of the Protocol on the position of the United Kingdom and Ireland, annexed to the Treaty on European Union and the Treaty on the Functioning of the European Union, grant full exemption to these Member States from supporting the financial consequences of some specific policies in the area of freedom, security and justice, with the exception of the related administrative costs. They can therefore obtain an adjustment to the own resources paid for each year in which they do not participate.

Each Member State's contribution to the adjustment mechanism is calculated by applying to the budget expenditure resulting from this operation or policy the scale of the aggregate gross national income and its components from the preceding year, supplied by the Member States in accordance with Article 2(2) of Council Regulation (EC, Euratom) No 1287/2003 of 15 July 2003 on the harmonisation of gross national income at market prices (OJ L 181, 19.7.2003, p. 1).

The Commission works out each Member State's balance and informs it in time for that Member State to enter its balance in the account referred to in Article 9(1) of Regulation (EU, Euratom) No 609/2014 on the first working day of December, in accordance with Article 11 of that Regulation.

Legal basis

Council Regulation (EU, Euratom) No 609/2014 of 26 May 2014 on the methods and procedure for making available the traditional, VAT and GNI-based own resources and on the measures to meet cash requirements (OJ L 168, 7.6.2014, p. 39), and in particular Article 11 thereof.

Protocol on the position of Denmark, annexed to the Treaty on European Union and to the Treaty on the Functioning of the European Union, and in particular Article 3 thereof, and Protocol on the position of the United Kingdom and Ireland in respect of the area of freedom, security and justice, annexed to the Treaty on European Union and to the Treaty on the Functioning of the European Union, and in particular Article 5 thereof.

CHAPTER 6 1 — REPAYMENT OF MISCELLANEOUS EXPENDITURE (*cont'd*)6 1 1 (*cont'd*)6 1 1 3 (*cont'd*)*Remarks*

Decision 2003/76/EC stipulates that the Commission is entrusted with winding up the financial operations of the European Coal and Steel Community which are still in progress upon expiry of the ECSC Treaty.

Pursuant to Article 4 of that Decision, net revenue from the investment of available assets will constitute revenue in the general budget of the Union earmarked for a specific purpose, namely financing research projects in sectors related to the coal and steel industry by the Research Fund for Coal and Steel. Unused revenue and appropriations deriving from this revenue still available on 31 December in any given year, as well as amounts recovered, shall be carried over automatically to the following year. Those appropriations may not be transferred to other budget items.

The net revenue available for financing research projects in year $n + 2$ appears in the balance sheet of the ECSC in liquidation for year n , and after the liquidation process has been completed will appear as assets in the balance sheet of the Coal and Steel Research Fund. This financing mechanism took effect in 2003. Revenue coming from 2017 will be used for research in 2019. In order to reduce as far as possible the fluctuations that movements in the financial markets could cause in the financing of research, a smoothing arrangement is applied. The amount of net revenue expected to be available for research in 2019 is EUR 39 654 000.

In accordance with Article 4 of Decision 2003/76/EC, 72,8 % of the fund's appropriations will be for the steel-related sector and 27,2 % for the coal-related sector.

In accordance with point (b) of Article 21(2) of the Financial Regulation, revenue will be used to provide additional appropriations under Chapter 08 05 of the statement of expenditure in Section III 'Commission'.

Remarks

This article is intended to record capital repayments and interest payments on special loans and risk capital granted from the appropriations in Chapters 22 02 and 22 04 of the statement of expenditure in Section III 'Commission' to Mediterranean third countries.

It also comprises capital repayments and interest payments on special loans and risk capital granted to certain Mediterranean Member States which, however, represent a very small proportion of the overall amount. These loans/ risk capital were granted at a time those countries had not yet joined the Union.

The revenue obtained normally exceeds the amounts forecast in the budget because of the interest payments on special loans which may still be disbursed during the preceding financial year as well as during the current financial year. The interest on special loans and risk capital is charged from the moment the loans are disbursed; interest on special loans is paid in six-monthly instalments and interest on risk capital generally in annual instalments.

This article may accommodate, in accordance with Article 21 of the Financial Regulation, assigned revenue which is used to provide additional appropriations to finance expenditure to which this revenue is assigned.
