

[Glossary of summaries – transcript]

When you are reading a summary, you can see links to useful information from various sources. One of these sources is the EU summaries glossary.

Let's have a look at a summary.

When you are reading through the key points, you may see a clickable term you'd like to learn more about, such as 'simple majority'. Click on it to see the glossary entry for that term. This glossary entry will help you understand what a simple majority is. It will also give you links to other related terms you may want to read about, such as 'qualified majority'.

You can also get to the glossary from the main summaries page, via the left-hand menu. Here, you can look for any term you are interested in by clicking on the first letter of the term.

Happy browsing!
