

EUR-Lex is your gateway to the largest official resource on the law of the EU. It makes legal information available to citizens in a user-friendly way and in all 24 official EU languages. Thus, it contributes significantly to the transparency of the EU.

What can you find on EUR-Lex?

EUR-Lex gives you access to approximately 1 000 000 legal documents. The main categories of these documents are:

- Treaties
- · Legal acts from EU institutions
- Preparatory documents related to EU legislation
- EU case-law
- · International agreements
- EFTA documents

EUR-Lex also publishes the authentic version of the **Official Journal of the EU**.

As EU law and decisions from the Court of Justice of the EU have an impact on national law, EUR-Lex also provides:

- References to national transposition measures, i.e. the legal acts adopted by EU countries in order to achieve the objectives set in the EU directives.
- References to national case-law related to EU law.

Each document in EUR-Lex is enriched by detailed information such as relations with other legal documents and dates of applicability.

EUR-Lex facilitates your understanding of EU Law

Lawmaking procedures

EUR-Lex allows you to follow the complete cycle of EU lawmaking procedures, from the initial proposal by the European Commission to the adopted act published in the Official Journal. This is complemented with information and documents on the positions taken by the EU institutions prior to the adoption of final acts. Timelines give a clear visual representation of the overall process.

Summaries of EU legislation

To those who wish to stay updated without getting lost in too much detail, EUR-lex offers access to more than 2000 summaries that explain EU legislation in a plain, easy-to-read and concise way. These summaries are intended for non-expert audiences and are grouped into 32 policy fields.

EUR-Lex makes your access to EU law easy

Consolidated texts

Not uncommonly, published legal acts are amended or corrected by corrigenda. EUR-Lex ensures that its users get an upto-date, consolidated version of each act,

with all its amendments incorporated into a single document. By presenting legal provisions as they are currently applicable, consolidated texts highly facilitate the understanding of EU law.

Search content

EUR-Lex offers you a wide range of options to access and search within its content in the most convenient way.

For instance, you can easily find and consult the latest documents. Or you can run a search by just typing free text or, on the contrary, specifying very detailed criteria.

Once you find a document that interests you, you can view simultaneously up to three linguistic versions of that same document.

Ready to be personalised

EUR-Lex offers you the option to create your own personal account. This allows you to customise the website and benefit from extra features, such as:

- · saving documents and searches;
- predefining multilingual view with your preferred languages;
- · setting your search preferences;
- · exporting a large number of documents;
- being informed in real time of any new EU law developments thanks to notifications via RSS feeds.
