New national side of euro coins intended for circulation

(C/2025/477)

National side of the new commemorative 2-euro coin intended for circulation and issued by Finland

Euro coins intended for circulation have legal tender status throughout the euro area. For the purpose of informing the public and all parties who handle the coins, the Commission publishes a description of the designs of all new coins ⁽¹⁾. In accordance with the Council conclusions of 10 February 2009 ⁽²⁾, euro-area Member States and countries that have concluded a monetary agreement with the European Union providing for the issuing of euro coins are allowed to issue commemorative euro coins intended for circulation, provided that certain conditions are met, particularly that only the 2-euro denomination is used. These coins have the same technical characteristics as other 2-euro coins, but their national face features a commemorative design that is highly symbolic in national or European terms.

Issuing country: Finland

Subject of commemoration: Finnish Architecture

Description of the design: The design shows the silhouettes of four buildings. The roof towers of the buildings point towards the centre. The texts 'GESELLIUS', 'LINDGREN', 'SAARINEN' and the indication of the issuing country 'FI', the mintmark and the year '2024' run diagonally between the buildings. The texts and the silhouettes of the buildings form a clock-like composition on the circular image surface of the coin.

The coin's outer ring depicts the 12 stars of the European flag.

Estimated number of coins to be issued: 400 000

Date of issue: Autumn 2024

⁽¹⁾ See OJ C 373, 28.12.2001, p. 1 for the national faces of all the coins issued in 2002.
