Prior notification of a concentration
(Case M.12389 – GIM / TCR)
Candidate case for simplified procedure

(Text with EEA relevance)

(C/2026/2055)

1. On 18 March 2026, the Commission received notification of a proposed concentration pursuant to Article 4 of Council Regulation (EC) No 139/2004 ⁽¹⁾.

This notification concerns the following undertakings:

- Global Infrastructure Management, LLC ('GIM', US), ultimately controlled by BlackRock, Inc. (US),
- TCR Group ('TCR', Belgium), controlled by 3i Group plc (United Kingdom).

GIM will acquire within the meaning of Article 3(1)(b) of the Merger Regulation sole control of the whole of TCR.

The concentration is accomplished by way of purchase of shares.

2. The business activities of the undertakings concerned are the following:

- GIM is the global independent infrastructure fund manager of Global Infrastructure Partners and is primarily focused on investing in transportation, energy, waste, water, and digital infrastructure sectors,
- TCR is primarily active in full-service leasing of ground support equipment to independent ground handlers, airports, and airlines globally. TCR also provides repair and maintenance services (largely on leased fleet, but also on non-leased/third-party fleet) and fleet management services.

3. On preliminary examination, the Commission finds that the notified transaction could fall within the scope of the Merger Regulation. However, the final decision on this point is reserved.

Pursuant to the Commission Notice on a simplified treatment for certain concentrations under Council Regulation (EC) No 139/2004 on the control of concentrations between undertakings ⁽²⁾, it should be noted that this case is a candidate for treatment under the procedure set out in the Notice.

4. The Commission invites interested third parties to submit their possible observations on the proposed concentration to the Commission.

Observations must reach the Commission not later than 10 days following the date of this publication. The following reference should always be specified:
