

COMMISSION DECISION

of 19 December 1974

derogating from High Authority recommendation No 1/64 concerning an increase in the protective duty on iron and steel products at the external frontiers of the Community

(sixty-sixth derogation)

(75/22/ECSC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Coal and Steel Community, and in particular Articles 2 to 5, 8, 71 and 74 thereof;

Having regard to High Authority recommendation No 1/64⁽¹⁾ of 15 January 1964 to the Governments of the Member States concerning an increase in the protective duty on iron and steel products at the external frontiers of the Community, and in particular Article 3 thereof;

Whereas the European Communities have made an offer within the framework of UNCTAD concerning the granting of tariff preferences for manufactures and semi-manufactures from developing countries; whereas the preferential treatment envisaged by this offer extends in principle to all industrial manufactures and semi-manufactures in Chapters 25 to 99 of the Brussels Nomenclature originating in developing countries; whereas preferential treatment is accorded to imports up to a ceiling calculated in terms of value for each product on a uniform basis for all products; whereas, with a view to limiting the preference given to the more competitive developing countries and reserving a substantial share for the less competitive, preferential imports from any one developing country may not, as a general rule, exceed 50 % of the ceiling fixed for that product;

Whereas, under the terms of the offer in question, annual ceilings are normally calculated on the basis of the value of cif imports in 1971 from countries benefiting from the system, other than those already accorded preferential treatment by the Communities, plus 5 % of the value of cif imports in 1972 from other countries, including those already enjoying such treatment;

Whereas the European Communities have applied these tariff preferences since 1 July 1971;

Whereas this offer of tariff preferences extends to a number of iron and steel products which are covered by the Treaty establishing the European Coal and Steel Community and were the subject of High Authority recommendation No 1/64 of 15 January 1964;

Whereas the commercial policy objectives of this offer justify the authorization of a derogation from the obligations arising under Article 1 of the abovementioned recommendation so as to allow the duty-free importation within the limits of the quotas and ceilings specified in Article 1 of this Decision, of iron and steel products originating in the third countries concerned;

Whereas to this end the preferential import possibilities offered by the Communities should be allocated among the Member States in such a way as to ensure equal and continuous access for all Community importers and the uninterrupted application of the preferential rates envisaged to all the imports in question in all Member States until such time as those import possibilities have been exhausted;

Whereas time would be needed to calculate the allocations plus a reserve; whereas this cannot be reconciled with the necessary continuity in the application of the tariff preferences in question; whereas under these circumstances recourse must again be had to the standard scale which was used for the purposes of allocation among the Member States in respect of products covered by the Treaty establishing the European Economic Community; whereas for this new period it should once more be possible to make provision for a single allocation of preferential imports among the Member States;

Whereas the Governments of the Member States have been consulted on the derogation provided for by this Decision,

HAS ADOPTED THIS DECISION:

Article 1

By way of derogation from the obligations arising under Article 1 of High Authority recommendation No 1/64 of 15 January 1964, the Member States are hereby authorized to take by agreement the necessary steps to apply in respect of imports of the iron and steel products listed below originating in the countries and territories set out in the Annex:

	<p>⁽¹⁾ For products falling within this tariff heading, the maximum amount pursuant to Article 2 (2) may in the case of Yugoslavia not exceed 529 800 units of account.</p>

⁽¹⁾ For products falling within this tariff heading, the maximum amount pursuant to Article 2 (2) may in the case of Yugoslavia not exceed 529 800 units of account.

Once imports into the Community as a whole of products originating in beneficiary countries and territories have reached the following ceiling, the Member States may agree to restore duties throughout the Community. The ceiling shall be equal to a figure representing, for each category of product, the value in units of account of cif imports of the products in question into the Community in 1971 from the abovementioned countries and territories, other than those already accorded preferential tariff treatment by the nine Member States of the European Coal and Steel Community, plus 5 % of the value of cif imports in 1972 from other countries and from those already enjoying such preferential treatment. Imports already exempt from customs duty under such preferential arrangements shall not be set against this ceiling.

Article 2

The Member States, acting in liaison with the Commission, shall see to it that imports into the Community under the tariff preferences provided for in Article 1 from any one of the countries and territories concerned do not exceed a specified fraction of the total quantity which may be imported into the Community under those preferences.

This fraction shall be 50 % for all products with the exception of those of heading No 73.13, for which it shall be 30 %.

Article 3

The Member States shall notify the Commission at regular intervals of the quantities imported under the tariff quotas and ceilings provided for in Article 1.

Each Member State shall immediately inform the Commission and the other Member States :

- if imports of a product reach the full amount of the quota or ceiling specified in Article 1 in respect of that product ;
- if imports of products originating in one of the beneficiary countries or territories reach the percentage as specified in Article 2 of the amount of the quota or ceiling specified in Article 1.

Article 4

1. This Decision shall be notified to the Governments of the Member States and published in the *Official Journal of the European Communities*. It shall enter into force for each government by virtue of its notification.
2. It shall remain in force until 31 December 1975.

Done at Brussels, 19 December 1974.
