## PROGRAMME CONTRACT

THE COMMISSION OF THE EUROPEAN COMMUNITIES

hereinafter referred to as 'the Commission',

THE FRENCH REPUBLIC,

and

THE MIDI-PYRÉNÉES REGION,

hereinafter referred to jointly as 'the parties',

HAVE AGREED AS FOLLOWS:

### TITLE I

#### **Joint implementation of the Integrated Mediterranean Programme for the Midi-Pyrénées Region (hereinafter referred to as the 'IMP')**

##### *Article 1*

This contract shall constitute a programme contract within the meaning of Article 9 of Regulation (EEC) No 2088/85. It shall enter into force on 4 February 1986 and shall expire when the Commission closes accounts in respect of the Community budgetary contributions.

Within the framework of this contract, the parties agree to undertake joint action to ensure effective implementation of the IMP in accordance with the conditions laid down in the programme as adopted by the Commission Decision of 15 July 1987. The purpose of such joint action shall be to ensure the effectiveness of the initiatives taken to implement the IMP as an integrated approach to development by:

- defining responsibilities so as to ensure appropriate management of all public funds from budgetary resources referred to in the financial plan of the IMP, with due regard to Community policies,
- establishing machinery for coordinating and mobilizing all the administrations concerned, together with the bodies representing the beneficiaries and economic agents in the Region,
- establishing arrangements for reliable, relevant and rapid information provision on the implementation of the IMP and its economic and social impact.

### TITLE II

#### **Management and coordination responsibilities**

##### *Article 2*

The Minister for European Affairs shall be responsible *vis-à-vis* the European Community for general matters concerning the implementation of all IMPs for France, and in particular for compliance with the provisions of this contract.

##### *Article 3*

1. The Prefect and State Commissioner for the Midi-Pyrénées Region and the Chairman of the Regional Council shall be responsible, within their respective fields of competence, for the effective implementation of the IMP.

They shall be assisted by a Monitoring Committee meeting in the Midi-Pyrénées Region which they will jointly chair. The tasks and responsibilities of the Committee shall be those laid down in Chapter 5, point 2 of the IMP and any other task assigned to it by agreement between the parties. The composition of the Monitoring Committee shall be as set out in Annex I.

2. The French authorities shall decide on the coordination machinery required at national level.

3. The Commission, where appropriate in consultation with the European Investment Bank, shall decide on the coordination machinery at Community level.

##### *Article 4*

The parties undertake, within their respective fields of competence, to issue any appropriate instructions to the persons to whom tasks are assigned under this programme contract, with a view to securing the consultation and coordination necessary for the smooth implementation of the IMP at all levels, and more particularly with all interested parties in the Midi-Pyrénées Region.

##### *Article 5*

The French authorities shall appoint within the public administration in the Region an official responsible for monitoring each of the subprogrammes making up the IMP.

Each monitoring official shall see to it that full and standardized information is supplied to the permanent members of the Monitoring Committee on each of the measures making up the subprogramme for which he is responsible, in the manner provided for in Article 13 and 14 of this contract.

He shall at all times bring to the attention of the Prefect and State Commissioner for the Midi-Pyrénées Region and the Chairman of the Regional Council the various administrative, technical or budgetary initiatives necessary to ensure effective implementation as approved of the subprogramme for which he is responsible.

Under the authority of the Chairman of the Monitoring Committee, the monitoring official shall also chair the meetings of technical working parties set up to prepare the ground for discussions within the Monitoring Committee.

#### Article 6

Before 31 July 1987, the Prefect and State Commissioner for the Midi-Pyrénées Region and the Chairman of the Regional Council shall within their respective fields of competence and on the basis of equal representation, appoint the members of the Monitoring Committee. Jointly, they shall designate the monitoring officials from amongst the members of the Monitoring Committee. The Secretary of the Monitoring Committee shall be the Secretary-General for Regional Affairs, who shall be responsible for the necessary coordination with the regional administration.

Before 31 July 1987, the Commission shall appoint its representatives on the Monitoring Committee and ask the European Investment Bank to appoint its representative. The French authorities shall be informed thereof.

Under the authority of the Chairman of the Monitoring Committee, the Secretary shall take all the necessary steps to ensure the proper functioning of the Monitoring Committee, including the handling of information.

#### Article 7

The parties shall agree on the appointment of an independent assessment body before 31 December 1987.

This body shall possess the professional experience and knowledge necessary to perform its task. It shall be engaged on the basis of a limited-duration contract, on terms agreed between the parties. The assessment body shall be remunerated out of the appropriations available under the 'monitoring and assessment' heading of the implementation subprogramme. Its representative shall have the right to speak at meetings of the Monitoring Committee.

Finally, the independent assessment body shall have the right to send a representative to inspect operations in progress. Inspection visits shall, however, be subject to prior notice and the representative of the assessment body shall be accompanied by an official designated by the Chairmen of the Monitoring Committee.

#### Article 8

Community contributions towards the financing of the specific programme for the Lot Valley are to be provided under the Aquitaine, Languedoc-Roussillon and Midi-Pyrénées IMPs. The *inter-départemental* consortium for the

Lot Valley (*l'entente interdépartementale de la Vallée du Lot*) shall be responsible for coordinating the operations in question and providing the secretariat of the Monitoring Committee for each of the three regions concerned with the information necessary for the appraisal, evaluation and monitoring operations referred to in Title IV in accordance with the timetable laid down in this contract.

### TITLE III

#### Management of budgetary resources

#### Article 9

With a view to providing for the implementation of the measures already selected for financing under the IMP, the estimated timetable for commitments and payments from the various sources of Community budget financing is indicated in Annex II. These commitment and payment estimates are in current ECU.

Community contributions under the IMP shall be committed and paid in ECU. Where commitments and reimbursements under the EAGGF Guidance Section are preceded by an additional inquiry on the basis of the dossier submitted in national currency, the conversion rate applied following verification of the eligible expenditure in national currency shall be that applicable for the month during which the inquiry is completed. As regards advances and the calculation of the amounts remaining due after the payment of advances, the exchange rate applied in converting French francs into ECU shall be the rate applicable for the month in which the Commission received the application for an advance or payment claim.

Starting in 1988 and not later than 31 March each year, the secretariat of the Monitoring Committee shall, in consultation more especially with the Regional Council, draw up financial estimates for the current year identifying separately the appropriations managed by the national authorities, the Region and, where applicable, other local authorities. These forecasts shall be prepared on the basis of the individual budgets drawn up by the various competent authorities, permitting direct comparisons with the annual financial forecasts for each subprogramme within the IMP, measure by measure. They shall also indicate the amount of Community aid planned for implementing these measures.

#### Article 10

Not later than 15 October 1988, the French authorities shall present to the Commission a draft detailed financial plan for the years 1989 to 1993 inclusive. They shall also propose any amendments or clarifications to be made to the technical and financial notes annexed to the programme.

The parties shall, in July 1988, check on the establishment and functioning of the coordination, mobilization and monitoring machinery referred to in this contract and shall consider the implications for the continued implementation of the IMP.

The Commission shall then, after consulting the French parties, determine, together with any amendments, the list and schedule of measures to be adopted under the IMP for the period after 1988, revising the technical and financial notes annexed to the IMP accordingly and communicating the IMP as amended to the French authorities. In sufficient time to ensure that implementation of the IMP can continue without interruption, the estimated timetable for commitments and payments from the various sources of Community budget financing shall be updated and incorporated in an agreement supplementary to this programme contract.

#### *Article 11*

In the event of irregularities in the functioning of the coordination and monitoring machinery, for the IMP as compared with the provisions of this contract, Article 17 (4) of Regulation (EEC) No 2088/85 may be applied.

In general, if the Commission were considering applying Article 17 (3) or (4) of Regulation (EEC) No 2088/85, the French Republic would be given an opportunity to submit its observations within the time limits set by the Commission.

#### TITLE IV

#### **Arrangements for appraising, evaluating and, more generally, monitoring operations**

#### *Article 12*

The parties hereby agree to establish jointly, not later than 31 December 1987, a monitoring system aimed at securing:

- the drawing-up before the beginning of each financial year of a list of the projects yet to be defined in the IMP and, for those covered by the aid schemes, three months after the end of each financial year, a list of the projects financed under the IMP,
- the monitoring in financial and physical terms of the implementation of the financial plan, on the basis of a standardized format for the main body of the information designed to facilitate computer processing by Community, national or regional authorities.

This monitoring system shall pay due regard to the internal appraisal, evaluation and monitoring rules of each Community structural Fund and each national or regional source of financing, bearing in mind the need for simplification and harmonization. The monitoring system shall, as far as possible, contribute to the process of evaluating the economic and social impact of the IMP.

#### *Article 13*

At the end of each quarter, each monitoring official shall make sure that the financial statements showing the position as regards implementation of his subprogramme in

the Midi-Pyrénées Region in terms of commitments and payments are recorded by the monitoring system. This information shall be available to the Monitoring Committee from its secretariat.

Observing the same timetable, the Commission shall inform the secretariat of the Monitoring Committee of any direct payments made by the Community to final beneficiaries in respect of measures forming part of the IMP where the financing arrangements provide for such payments.

#### *Article 14*

At the end of each half-year, the monitoring official shall prepare for the Monitoring Committee a report on the state of implementation of the subprogramme for which he is responsible, indicating public expenditure, total expenditure and physical indicators, and specifying for each measure the changes as compared with forecasts for the IMP. The report shall make particular reference to measures in respect of which the level of total expenditure in two successive half-yearly reports is 50 % lower than that given in the schedule for the IMP, averaged over the year.

#### *Article 15*

The independent assessment body shall submit an annual report to the Monitoring Committee not later than 31 March of the year following the year in question, taking due account of the information collected in the course of the financial and physical monitoring process.

This report shall be confidential. It shall be made available only to the members of the restricted Monitoring Committee, which shall deliver an opinion on it. The Chairmen shall then report to the enlarged Monitoring Committee and communicate their conclusions to those bodies responsible for the implementation of measures forming part of the IMP which are not represented on the Monitoring Committee.

#### TITLE V

#### **Information to be supplied in support of Community grant applications**

#### *Article 16*

Payment claims shall be submitted in accordance with the rules of each Fund.

Any changes that have to be made to existing forms in order to take account of Community financing over and above the ceilings laid down in the provisions governing the Funds shall be notified to the French authorities by the Commission in good time.

As regards payments under the special budget heading referred to in Article 11 (2) of Regulation (EEC) No 2088/85, the Commission shall communicate the forms to be submitted for annual payment claims to the French Republic before 30 November 1987.

As regards the specific action programme for the Midi-Pyrénées Region financed by the EAGGF Guidance Section under Article 12 (1) of Regulation (EEC) No 2088/85, the French authorities shall comply with the procedures adopted by the Community for the application of Council Regulation (EEC) No 1760/78<sup>(1)</sup> during the implementation of the Midi-Pyrénées IMP, given that commitments under the IMP will be effected in annual instalments.

The French authorities may submit a proposal for a new outline programme in respect of the improvement of rural infrastructure and forestry measures.

#### Article 17

As from the date on which this contract is signed, cofinancing shall be assessed at the level of each measure, thereby making it possible, where necessary, to effect adjustments in the rate of Community assistance towards eligible expenditure for each project or operation, such adjustments being confined to financing under the special budget heading referred to in Article 11 (2) of Regulation (EEC) No 2088/85: the sum of the contributions allocated to all operations forming part of a measure shall be taken as the reference figure for assessing cofinancing from the two sources of funding.

Before the contract is signed, the French authorities shall document the counterparts to Community financing with precise details of the projects to be funded under the IMP.

For the period 1986 to 1988 as a whole, the French authorities shall ensure that Community budget financing for this IMP is additional to the financing already provided for in the plan contract and agreements supplementary thereto described in Chapter 3, points 3.1 and 3.2 of the IMP. Before 31 August 1989, a report shall be prepared for the Monitoring Committee and the Commission with a view to permitting payment of the balances remaining due for the period 1986 to 1988.

#### TITLE VI

##### Compliance with Community policies

#### Article 18

The French authorities shall submit to the Commission for agreement beforehand in relation to Community financing all productive investment projects with a total

cost exceeding 15 million ECU in respect of which such financing is proposed, together with the feasibility and profitability studies normally required for such projects by the European Regional Development Fund. The Commission reserves the right to introduce for all programmes financed by the Community notification or information procedures for other categories of productive investment projects in respect of which Community assistance is proposed.

In the case of all infrastructure investment projects costing more than 15 million ECU, the French authorities shall also transmit to the Commission for its agreement a socio-economic cost benefit analysis.

Industrial and infrastructure projects costing more than 15 million ECU shall be examined by the Monitoring Committee in the light of the findings of the studies referred to above.

#### Article 19

The French parties also agree to present to the Commission at the end of each half-year grouped references to the invitations to tender published in the *Official Journal of the European Communities* and a report on the award procedures designed to show that Council Directive 77/62/EEC<sup>(2)</sup> Commission Decision 80/797/EEC<sup>(3)</sup> and Council Directive 71/305/EEC<sup>(4)</sup> have been complied with.

#### Article 20

The French parties shall take the necessary steps to publicize the granting of Community assistance as widely as possible. In the case of individual projects costing more than 500 000 ECU, permanent signboards shall be erected at the sites of the said projects.

#### Article 21

No one project may enjoy both Community assistance under this IMP and any other form of Community assistance.

##### Recipients of payments made by the Commission

<sup>(4)</sup> OJ No L 185, 25. 8. 1971, p. 5.

The parties undertake to endeavour, as far as is at all possible, to ensure that advances under Article 11 (2) of 2088/85 are paid to the Agence Centrale Comptable du Trésor not more than one and a half months after the Commission has received an application for payment of an advance with the necessary supporting documents, for subsequent transfer via the budget of the Ministry of the Interior to the Prefect and State Commissioner for the Region not more than one and a half months after receipt of the payments effected by the Community.

*Article 23*

The Region may take the necessary steps to pay advances on the expected Community contributions from public funds, in so far as required to ensure that project implementation timetables are adhered to. The Monitoring Committee shall deliver opinions on this question at regular intervals.
